THE PRESIDENT'S POLICY.

The Democratic members of the House Committee on Ways and Means have by formal action decided to adopt the policy of opposing and presenting separate bills amending the present tariff law. This action of the committee settles the policy of the House and effectively kills the ally story sent out from Washington that McKinley, Wilson and Turner would vote with the Republicans against the single slot policy.

Three members of the committee have favored a general tariff bill but yielded their views and voted for the single slot policy and will give their hearty support.

It is a little curious that the able action of these members of the committee who favored a general tariff bill does away with any probability of a division of Democrats on the floor of the House in regard to tariff legislation, and the party will stand as a unit in support of the bills as reported by the Ways and Means Committee. The Democrats in Congress will endeavor to secure some effective remedial legislation, and if they fail in the commendable attempt to do practical good for the country their earnest and honest efforts will be recognized by the people and will be of service to the party in the national campaign. This plan agreed upon by the most aggressive and able members of the committee, and if care and discretion are shown in the arrangement of the details Massachusetts and Pennsylvania can very likely be divided on the McKinley bill and the West can be led to the attack on it with great force and effect. Give New England a show for raw material and fuel, and give the West an opening to fight for cheaper agricultural and household supplies, and there will be great hopes knooped in the Chinese wall that the McKinley bill has built around this country.

The practical unanimity of the United States Supreme Court in the Nebraska gubernatorial case shows that the unpopular Thayer had not even a partisan ground to stand upon. Thayer's course in the matter was a great outrage, and in supporting him the Nebraska courts disgraced themselves. James E. Boyd was elected Governor of Nebraska in the fall of 1890 and has been kept out of the office by a Republican usurper on the flimsy plea that he was not a citizen of the United States when elected. Now that the Supreme Court has decided that Boyd was a bona fide citizen at the time of his election, and is therefore entitled to the Governorship, Thayer will have to step down and out of the office he had seized by main force.

The attack in detail on the McKinley tariff bill means aggression. Four or five little bills would be no attack at all. The House Representatives should pass to the Senate as many bills as possible putting on the free list or tariff for revenue only those articles upon which the McKinley tariff levies prohibitive duties. The House has been a little slow in getting down to business, but work is now going on in earnest, and we believe that the Democrats in the House are going to do their whole duty.

The first claim for indemnity against the Chilian Government for the assault upon the American sailors at Valparaiso was filed at the State Department in Washington yesterday by W. W. Kerr, for the heirs of William Riggs who was killed in the row between the sailors and the Chilians. The heirs claim that they are entitled to demand and receive from the Government of Chili reasonable compensation, and the State of the Government of the United States to secure it.

The Republican State Convention to select delegates to the National Convention will be held in Louisville March 30. The counties of the Second Congressional district will be entitled to delegate in the State Convention as follows: Christian, 25; Davies, 22; Hancock, 9; Henderson, 15; Hopkins, 16; McLean, 7; Union, 10; Webster, 10. This makes a total of 124, and hence 124 votes will be necessary to elect a delegate from this district to the National Convention.

Rev. Dr. Basil Manly, one of the ablest divines in the Baptist church, died at Louisville Sunday night. He was a man of much learning, and was broad and liberal in his views. In addition to his distinguished attainments as a scholar and theologian, he was the writer of many beautiful hymns. He was earnest, indefatigable in charitable work, and labored zealously for the advancement of his Master's cause in every way.

The Senate Committee on Religion and Morals has reported a bill making it a misdemeanor for a minor to buy liquor. The necessity for this, it is claimed, is made apparent by the fact that saloon-keepers are frequently imposed upon, and made to pay fines for selling liquor to minors. The advocates of the bill think that making the minor equally culpable will have a tendency to break up the practice.

Col. E. Polk Johnson, of the Frankfort Capital, defines his position on the Presidential nomination in the following terse and pointed manner: "The Capital's choice for a Presidential nominee is a good square Democrat who can win on a fair, honest, outspoken Democratic platform that means just what it says and cannot possibly be misinterpreted."

President Harrison asked for advice from Congress on the Chilian situation and he has it in the resolution introduced by Mr. Arnold for recall of Patrick Egan. The whole country would rejoice if the President should heed this good advice.

It is said that the House Committee on Elections will report favorably the bill for the election of United States Senators by direct vote of the people of the various States. It is much to be hoped that the bill will become a law.

Hon. James G. Blaine is a very long-headed man. He took very good pains to relieve himself of the odium attaching to Harrison's blunders in regard to the Chilian controversy. Mr. Blaine kept persistently before the public that he was very much opposed to President Harrison's views.

It is said that the movement in favor of fusion between the Democrats and the People's party in Kansas is gaining ground. This is the only practical way of getting rid of Republicanism in that State, for as long as the two wings of the opposition act independently of each other the Republican will control affairs.

The most popular Congressman elected in the United States is represented by Hon. James N. Castle, of Minnesota. It is the district embracing St. Paul and Minneapolis, and its population is 1,100,000. It is the largest constituency in the House of Representatives, and its members are represented by one member of Congress and two United States Senators.

It is feared that President Harrison will be called upon to appoint successors to Judge Lamar and Judge Field. It is a little curious that the United States Supreme Court, which is in very bad health and is getting too old for service, the gain made by the Democratic Party in the House of Representatives is likely to be just so far as the Supreme Court is concerned.

A good deal of fun was poked at Jerry Simpson, the Kansas Republican, when he was first elected to Congress, but he is showing his critics that there is more in him than they had thought there was. He is a little curious in some subjects, but he represents much of the sound reaction from the Republican party of reckless extravagance and unjust taxation which look Kansas from the Republican Party for election. He grasps the meaning of the movement to which he owes his seat in Congress and shows that he is amply able to take care of himself and to hold his own.

Mr. W. S. Feland, son and deputy of Collector John Feland, who, with several other Internal Revenue officials, was indicted by the United States grand jury on a charge of soliciting and receiving money for political purposes from Federal employees, published a card in his home town of Kansas City, Mo., in which he accuses Mr. Jolly, the United States District Attorney, of being the instigator of the prosecution. He is very severe in his language, and says that he is a gentleman and a gentleman of unquestioned merit and marked ability, and enjoys the high regard of a large circle of friends who will join him in wishing that the means of success which he so richly deserves.

We regret to hear of the suspension of the Mayville Commonwealth, which has been so ably edited by Sam M. Gaines for the past twelve months. It is reported that Gaines will engage in editorial work on a new daily soon to be launched at Lexington, and here's hoping good luck to him wherever he goes, and in whatever he does. It is a generous and forceful writer, and a gentleman of unquestioned merit and marked ability, and enjoys the high regard of a large circle of friends who will join him in wishing that the means of success which he so richly deserves.

The poem of Baron Tennyson, England's poet laureate, upon the death of the Prince of Wales, is being subjected to the fire of public criticism in London. The poem is only seventeen lines long, but it is said to be largely composed of clichés. The critics should not bombard the poem so savagely, for Tennyson was placed in an awkward position, and it is a pity that a salary from the English government as poet laureate, and was bound to write some complimentary verses upon the death of a member of the royal family or lose his job.

Col. Charles E. Sears, the editor of the Louisville Post, severed his connection with that paper Thursday. The only explanation given is contained in that paper Thursday afternoon, over the signature of Col. Sears: "For reasons which are satisfactory to the owners of the Post and myself, I have decided to resign my position as editor of the Louisville Post. I am a man of marked ability and of much culture, and is one of the most brilliant, versatile and graceful writers on the Southern press. He is fearless and outspoken in the denunciation of wrongdoing and corruption, irrespective of party lines, and has done a great deal toward purifying the local politics of Louisville. His retirement from the editorial department of the Post will be a source of genuine regret to his brother journalists of this State and elsewhere, and we sincerely hope that it will not be long before he returns to the journalistic fold."

Several bills have recently been introduced in Congress providing for the election of United States Senators by a direct vote of the people. Whether a bill of this kind will become a law or not remains to be seen, but we hope such a one will be passed. There is much corruption connected with the election of Senators by Legislatures that a change is badly needed. Bribes have been paid to so common that a Senator whose election is free from corruption is a very difficult thing to get. It is a corrupt whole State, and a popular election would leave the people "hoodlums" without an occupation. Then again the election of Legislatures is frequently made to hang on the Senatorial question. The Legislature has local, party and rival candidates for the United States Senate complicate the situation and desert the Legislature from its true purpose.

Senator Voorhees of Indiana is a bad man to fool with. He the United States Senate Tuesday he made a personal explanation in which he denounced the published charges that he had made a proposition to the Republican Senators Quay and Cameron of Pennsylvania, and Higgins of Delaware, offering to aid them in their Presidential confirmation of Judge Dallas, a Democrat, if they would reciprocate by opposing the confirmation of Judge Woods, the corrupt Republican Judge who degraded himself by his infamous decision in the United Blocks case—Fives Dudley case. These charges had been made against Senator Voorhees by the correspondence of the Philadelphia Press, and it was with much probability that the aggrieved Senator bestowed the terms "second-class" and "third-class" upon the head of the reckless writer. Senators Quay, Cameron and Higgins arose and very emphatically denied having been approached in the subject by the Philadelphia Press, and that both of the Pennsylvania Senators favored the confirmation of the appointment of Judge Dallas.

Gov. Thayer, of Nebraska, is very reluctant to vacate the gubernatorial chair in pursuance of the mandate of the United States Supreme Court. The Republic of the law, however, Thayer giving up his office like a thief forced by the law to surrender his plunder, must give a feeling of pain and shame to all honest Republicans.

Mrs. Mary B. Day, the present incumbent, was nominated for State Librarian by the Democratic Party at Frankfort Tuesday night without opposition. Miss Kirkman of Todd county having withdrawn on the eve of the contest. Mrs. Day's name was presented to the caucus by Hon. James Mulligan, of Lexington, who made a very fine speech, she has discharged the duties of the position in a highly creditable and satisfactory manner, and we are glad that she was so fortunate as to be chosen for a second term.

The bill to submit a constitutional amendment providing for the election of United States Senators by direct vote of the people of the various States has been introduced by the House Committee on Elections. It will meet such much opposition, however, that it is doubtful if it will pass in the first place. The majority of the body are Republicans and, therefore, are in sympathy with the spirit of progressive democracy. In the second place a good many of the Senators know full well that they would never be elected again if the matter were left to a direct vote of the people.

The law has been vindicated in Nebraska by ousting Thayer, the Republican usurper, from the Governor's office and seating Boyd who was lawfully elected, but in Connecticut the Republicans are keeping the Governor Bailey whose only title to the office is that of fraud and threat of force by which they prevented the inauguration of the Democratic Governor elected by a vote greater than the combined vote of all the other candidates. Bulkeley is a usurper, and the Governor of Connecticut is controlled by a fraudulent dictatorship. Since Harrison was inaugurated as President the Republican party has usurped the Governorships in Nebraska and Connecticut, and also both of the United States Senatorships in Montana and one in New Hampshire.

INTERESTING OCCASION.

Being requested to furnish, for the New Era a synopsis, or rather a detailed account of the services of the M. E. Church, last Sunday, I am induced to respond, as best I can, but as I contemplated nothing of the kind, I took no notes and must draw on memory-days only.

The building was first erected in 1840, and the crowd of worshippers, which met the demands of the church until last year, when the fast-increasing membership—now about 400—and the crowded condition of the old sanctuary, spoke out in tones that could not well go unheeded, for a larger floor-space and seating capacity, more happily secured by removing the old sanctuary walls and building, in front, a Pastor's office and a Sunday School room below and a cloakroom above, ending in an open hall, and in the rear, a new hall, that has long waited the echoes in melodious Sunday morning calls, and where the congregation, following the weekly recurrence of worship's calm and holy hour, when every true Christian heart can appreciate the haunting experiences of David, who wrote in Psalm CXIII-12, "I was glad when they said unto me, let us go up into the House of the Lord, my feet shall stand within thy gates, O Jerusalem."

At the south-east corner rises a new and beautiful tower, symmetrical in design and architectural finish, which, spreading for feet of more, pointing with its blue steeples, toward the home of the pure. A broad winding stairway leads through that tower, up to a magnificent balcony, where the choir, with their robes, as it recedes from the altar, about three paces. The walls have been newly papered, and the orchestra spread for feet of more, pointing with its blue steeples, toward the home of the pure. Clarksville, Ky. Chronicle: Miss Ada Cronfield, of Hopkinsville, and Miss Jessie Dickinson, of Trenton, are the guests of Mrs. C. D. Runyon.

Messrs. Smith and Barr, of the O. V. engineer corps, arrived in the city yesterday and will have charge of the extension to Gray.

They will remain in the city until the road is completed.

A New Enterprise.

Messrs. Pickford & Co., of Empire, have gone into the business of breeding chickens, at that place, and have a large establishment. They make a specialty of breeding Brown and White Leghorns, and Plymouth Rocks. The buildings are commodious and well arranged, and the yard is conveniently laid off in a number of walks. They will shortly commence using incubators, with breeders attached—each one of which will hatch out as many as three hundred eggs at a time. They sell both chickens and eggs, and now have on hand a large number of orders. This is an enterprise which bids fair to be very successful, and we predict that these wide-awake gentlemen will make it a profitable one. They have a splendid selection of these justly popular breeds of Leghorns and Plymouth Rocks, having purchased them from the most reliable and well-known chicken breeders in the United States. Messrs. Pickford & Co. are not only energetic and thorough-going business men, but are also strictly reliable gentlemen, and persons dealing with them may rest assured that they will get exactly what they order. This is the only establishment of the kind in this county, and there is every reason to believe that the enterprise will prove an unqualified success.

In Memoriam.

One more to be remembered.
But no good-night.
But no good-morning.

Anna Dowell is dead. Who of her friends can realize this sad truth? When last we saw her in the full bloom of health and usefulness, little did we think that in a few short months she would be lying in the silent tomb. Bright gay and happy as a favorite where ever she was known, she died in Clarksville, where her mother had been living for several years, but she was known and loved here at Bennettsville where most of her life had been spent. Oh! how my heart goes out in sympathy to the mother and sisters. May God comfort their stricken hearts and may this sad dispensation be a blessing in that kind of dark disguise. 'Tis true that words of sympathy redress nothing from the grave, and nothing that we can say will bring back our loved ones or assuage the pangs of our grief. All that we can do is to remember that life at best is but a brief span and but a short time must elapse ere we will see and recognize our loved ones. This is all that we have and all that we can do and it must be true. We can not conceive how God could create within a constant longing for immortality, not satisfy that longing by giving us in the end immortal existence.

Tuesday morning the 2d of Feb. all that was mortal of this lovely girl was laid to rest in the family burying ground at Clarksville.

Love and gentle beauty bloom
And garlands of beauty from the tomb
Yes, she is here, but how

Living Questions.

are most esteemed by every intelligent man and woman. Derangements of the liver, stomach and bowels speedily present to us the living question of obtaining relief. It is not one found in Dr. Pierce's Pleasant Pellets which cure sick headache, biliousness, constipation, indigestion, bilious attacks, etc. Purely vegetable and perfectly harmless, they are unequalled as a specific for the complaint named. One tiny, sugar-coated Pellet is in vials, 25 cents. Carry them in your coat pocket.

The famous Anchor Square Paper Bags and Sacks are for sale at this office. They are the best made. Buy no other.

"Corona," a most charming toilet preparation.

A grand leap year ball was given by the young ladies of Henderson last Friday night.

Dr. A. J. Knapp, the celebrated optician, will be in the city Feb. 17 and 18th, and will be in Hopkinsville the first of March.

"The Junior Teacher" is the title of a bright religious folio edited and published by R. J. D. Fraser of Lafayette. The second issue is just out and the Junior Teacher promises to become a useful and elevating publication. It is carefully edited and ably conducted by Mr. Fraser.

The mechanical excellence of the publication goes without saying, as it is from the New Era press rooms.

Eq. Barney Say, of the Beverly precinct, died Friday after a brief illness. Eq. Say was a substantial and highly respected farmer and one of the leading men of this community as is attested by his holding the office of Justice of the Peace. His death is peculiarly sad as his wife was buried only week before and left him with five children to care for, the youngest being only ten days old.

R. V. M. W. Tabor, for the past year pastor of the Universalist church in this city, has resigned his charge, and will leave for the lecture field. Mr. Tabor has made many friends in this community where he has been, and he is a man of his learning and talents. The New Era wishes him abundant success and hopes that the Universalists may secure as his successor an equally gifted divine.

Our neighbor, the "Leaf-Chronicle," of Clarksville, rejoices with us in the acquisition of the C. & P. from Gray to Princeton by the N. N. & M. V. It does not seem that our neighbors in our pleasure, Byron says:

"These who I would not most cherish, but I prize as well."
When the N. N. goes South it will be built from Hopkinsville. "The stars have said it" and Mr. Huntington has given the stamp of fate to the prediction.

Mr. Tom Jones is having a new floor laid in his home on Main street, the old one having been worn out by the continuous tramping of his army of customers.

Mr. Jones keeps a standing advertisement in the New Era. The notice of which is, that if you want to save your store floor don't advertise in the New Era, but if you want to sell goods, and don't mind putting in a new floor every year or two, as Mr. Jones has to do, keep a standing advertisement in the "great and good" New Era.

A handsome floral tribute was received in this city today by Sheriff Moses West, to be placed upon the grave of his nephew, James R. Robin, a North Christian boy, who died several days since at Chicago, where he was a student at one of the Medical Colleges. His remains were brought back to his home, Wednesday, and buried at Crofton. The floral tribute was a beautiful bed of white roses, lilies, and other flowers with the word "Classmate" woven in immortelles, and was sent by the students of the college he was attending.

Cadiz Telephone: The prolated will of Mr. J. M. Tier, mention of whose death at Longview was made in our last issue, provides that his widow, Mrs. Mary Summers Tier, is to have the full benefit of a life dower in his estate, which amounts to some \$15,000, and then Leslie Summers and Mrs. Albert McGeehe, of Christian, county, a nephew and niece of Mrs. Tier, are made joint heirs to whatever of the estate may be left at the death of the widow. Mr. Albert H. McGeehe, of Gray, named in the will as administrator.

Dallas Diuguid, a colored boy of twelve years, was sent to the work house this morning to satisfy a claim in favor of the city. Dallas was found secreted behind a pile of empty barrels and boxes in a freight car, confederate Saturday night just before the house was closed. It was supposed that his intent was to admit the confederates as soon as the proprietor had departed. Though scarcely over twelve years of age, Dallas is an old offender and has served several terms at the work house. It's more than probable that he will serve the State in a striped suit before many years.

The regular monthly meeting of the Board of Asylum Commissioners was held yesterday. The following Commissioners were present: R. T. Petre, Thomas Green, Thomas H. Carlisle, G. W. Shaw, Charles F. Jarrett, C. M. Meacham, H. H. Abernathy, and Alex. Campbell, the latter three being new Commissioners just appointed by the Governor. The new Commissioners presented their commissions and were duly inducted into office. The Board then proceeded to select a President, and Mr. C. M. Meacham was chosen. After the usual routine proceedings were finished, the election of a Treasurer for the next four years came up and several ballots were taken without resulting in a selection. A special meeting will be held soon for the purpose of electing a Treasurer.

HEMP TO BE STRETCHED.
Three Murderers to Pay the Death Penalty in Kentucky Friday.

Frankfort, Feb. 4.—To-morrow there will be three murderers hanged in Kentucky. They are Bush Powell; William Puckett; of Estill, and Robert Charlton, of Henderson county. In the two first cases the Court of Appeals affirmed the judgment of the lower court, and in the third case the condemned man accepted his fate without praying an appeal to the court of last resort—a course of proceeding so remarkable that it may safely be said it is the only case of the kind on record for many years.

In all these cases, however, Gov. Brown had judges and exact petitions in behalf of the prisoners, appeal to a commutation of the sentence to imprisonment for life, and after careful and painstaking consideration each was declined to interfere with the execution of the law.

Bush shot his wife while the pair lay in bed with their little child, at a hotel in Gray City. He claimed to believe that some one else had committed the crime, but the proof on the trial showed that he had previously declared his intention to kill his wife, and that she was overheard by a witness that night to cry out to spare her.

Puckett, with his two sons, quarrelled at the November election of 1890, killed William Hall. The two sons were sentenced for life, and are now in the penitentiary.

Charlton was playing craps, and for that purpose had extorted money from his neighbors. He had secured all she had, and on her refusal to give him more, he drew his pistol and shot her to death.

When permission was granted the L. & N. Co. to erect a frame depot within the fire limits of the city, the company through its representatives promised to begin work within two weeks, and have passed and nothing has been done.

The docket for the March term will be the highest known for years, only thirty-five suits having been filed up to the present date. The criminal docket will also be light. The last grand jury having returned but twenty-five indictments.
