THE BASIC TRANSPORTATION OF AMERICA

An ever-increasing demand of the transportation of goods. How many times have you heard the phrase, "the wheel is an ancient invention," and how many times have you thought about it, wondering why it was invented? The wheel is an ancient invention, but the modern day transportation system has evolved far beyond the simple wheel. The modern day transportation system is a complex network of roads, highways, bridges, tunnels, and airports that allow people and goods to move from place to place. The transportation system is essential to the functioning of society, and it is constantly evolving to meet the needs of the people. The transportation system is also important for the economy, as it allows goods to be transported from one place to another, which is necessary for trade and commerce. The transportation system is also important for the environment, as it allows people to travel to places that they would not be able to reach otherwise. In conclusion, the transportation system is an important aspect of society, and it is constantly evolving to meet the needs of the people.

**BASEBALL**
(Continued from Page 11)

Jackson-Polson 3-3

The Fulton Tigers won the final game of the season here Saturday afternoon, when they defeated the Jackson Generals 3 to 2. The score by innings: R-H-E.

**FULTON-JACKSON**
Jackson Polson 3-3

It's a hard riding, straight-shoot- ing cowboy hero, Benny, who appears in "Old Timer Benny." The newest comedy vehicle of the forms film and radio comedies, "Old Timer Benny," is to be presented here Sunday at the Fulton Theatre. Many scenes of the film reflect the rugged physical condition of the stars. The real star of the show, Ben Benny, is a new dynamic Benny, with a purpose on his face and a gleam in his eye—someone everyone expects the spurs to him, who happens to be Gopher, Arizona. The story is that Gopher became a radio star, and through this medium they were paid to sell and they won a million dollars. Naturally come the scenes with the radio band, and raise their hands furtively to the microphone. Every scene is crammed with Benny's supporting cast and includes virtually all the members of the radio program, with the exception that some of the characters were of Mary Livingston, who joins his troupe now.

**WAYNE "MAGIC" SHOW**

For Buck Benny Roles Again

Freddie the Red War

Dave the hero, with Virginia Dale and Louise Currie in other principal

Buck Benny, as usual, wears a duster coat, a cap, and a handlebar mustache. This is the second time Benny has played these roles. He is playing his old rival, Fred Allen, in some off time to carry on with fans. Buck Bennys' starring role, "Buck Benny Rides Again," opens at the Fire Station here Wednesday night, May 29. Devotions will be led by Rev. W. T. Barnes of the Union City District Conference. The sermon will be given at the Fire Station by Parker.

Low Cost Soil Building Plan for Kentucky Farms

Low cost soil building plan for Kentucky Farms.

![Image](https://via.placeholder.com/150)

FULTON COUNTY NEWS, FULTON, KENTUCKY

**175,610 Kentucky farmers asked to enroll in the 4-H program.**

The 4-H program, which is part of the Cooperative Extension Service, is designed to improve rural youth by providing them with opportunities to develop skills in agriculture, home economics, leadership, and other areas. The program encourages young people to become better citizens and leaders in their communities.

**Farm income had increased 73 percent by 1939 over 1932.**

Farm income had increased significantly from 1932 to 1939. This reflects the improvements in agricultural practices and the rise in agricultural prices during this period. The increase in farm income is a testament to the hard work and dedication of American farmers, who played a crucial role in the economic recovery of the country.

**113,815 tons of limestone, 8,000 tons of triple superphosphate, and 3,000,000 forest trees on land which was previously used as pasture.**

The use of limestone and superphosphate in agriculture is a testament to the scientific approach to farming that was developing during this period. The use of these materials helped to improve soil fertility and crop yields, which in turn contributed to the increased farm income.

**The average length of human life is longer.**

The average length of human life is longer than it was a century ago. This is due to improvements in medicine, sanitation, and public health, which have helped to reduce the incidence of disease and increase life expectancy. The increase in life expectancy is a positive indicator of the progress made in these areas.

**The secret lies in adding 20 percent of manure to the soil.**

The use of manure in agriculture is an important practice for maintaining soil fertility and improving crop yields. Adding manure to the soil helps to increase the availability of nutrients and improve soil structure.

**Manure is a rich source of plant food.**

Manure is a rich source of plant food, which can be used to improve soil fertility and crop yields. The use of manure in agriculture is a testament to the importance of sustainable practices in agriculture.

**The demand for Wall Paper at popular prices has compelled us to enlarge our Wall Paper Department, and we are now showing one of the finest selections of patterns in this territory.**

The demand for Wall Paper has compelled us to enlarge our Wall Paper Department, and we are now showing one of the finest selections of patterns in this territory. This is an indication of the growing demand for Wall Paper as a decorative element in homes.

**The average Doctor is a gem, a sample of what his patients should do.**

The average Doctor is a gem, a sample of what his patients should do. However, the patient can often help by bringing on time to appointments and calling only when necessary. This is an indication of the importance of cooperation between doctors and their patients.

**YOU CAN EAT YOURSELF TO DEATH.**

You can eat yourself to death. It's true. You can eat yourself to death. It's a fact. Don't let it happen to you.

**If folks were compelled to pay what they pay there would be a deliberate or unconscious bias.**

If folks were compelled to pay what they pay there would be a deliberate or unconscious bias. This is an indication of the importance of公平的discipline in financial matters.

**FUTILE CHAOS.**

Futile chaos. This is an indication of the need for order and discipline in financial matters.

AUNT LOU

By Gertrude L. Powers

"NEVER AN ENDING WOOG" - "Come it, Billie" said Aunt Lou, "Carl is making you a present of money for your birthday." "No, ma, I ain't got it yet," replied Billie. "But he's got something in mind, that's all. He'll probably give it to me."

"Well, I don't think I have anything in mind," said Aunt Lou. "But I do know what you can do."

"What's that?" asked Billie.

"Why, you can buy a new dress," said Aunt Lou.

"Oh, I don't think I want a new dress," said Billie. "I think I'd rather have something else."

"Well, then," said Aunt Lou, "what do you think you'd rather have?"

"Why, I don't know," said Billie. "I just don't know what I want."

"Well, then," said Aunt Lou, "why don't you think about it and come back and tell me what you want?"

"All right," said Billie. "I'll think about it and come back and tell you what I want."

"Good," said Aunt Lou. "I'll be here when you come back."

"Thank you," said Billie. "I'll be back as soon as I can."

"Fine," said Aunt Lou. "I'll be here when you come back."

"I'll be back as soon as I can," said Billie. "I promise."

"Good," said Aunt Lou. "I'll be here when you come back."

"I'll be back as soon as I can," said Billie. "I promise."

"Good," said Aunt Lou. "I'll be here when you come back."

"I'll be back as soon as I can," said Billie. "I promise."

CRUTCHFIELD NEWS

The Courier-Journal, April 1, 1931

FULTON COUNTY NEWS, FULTON, KENTUCKY

The Leader-Telegraph, April 6, 1931

One of the dramatic moments in "BLAME IT ON LOVE," when Virginia Peppin absconds with the destined corps wife, was witnessed by the entire cast at the rehearsal at St. John's Church. The scene was repeated in the presence of the cast and the management, performed by the members of the Fulton County Dramatics Club, under the direction of Mrs. B. C. Matthews.

News

There are many lovely flowers now in bloom. As we go about the streets, we are delighted with the beauty of the plants and the color of the blossoms. They add to the charm of our city streets and make them more attractive to pedestrians.

THANKS RETONGA FOR RESTORED HEALTH

"I Hope Many Other Sufferers Will Try Retonga:"

MRS. ROBERTS.

Thank you so much for sending me the Retonga remedy. I have been suffering from heart disease for a long time and had been advised by various doctors to take certain medications. These did not help, and I was very much in distress.

I was advised to try Retonga and I did so. I have been taking it for several weeks now and I am happy to report that it has had a wonderful effect on my heart condition. I feel much better and I am able to do more work. I wish to express my sincere gratitude to you for this wonderful remedy.

Every day I feel better, and I am very much obliged to you for having sent me this wonderful medicine.

EARL ROBERTS.

One of the many things I like about Retonga is the fact that it is a natural remedy. I believe that nature has given us the best and I am glad that I found Retonga.

I have been very impressed with the results I have seen in others who have tried it. I have recommended it to many others and they have all been very pleased.

I wish to express my appreciation to you for this wonderful remedy and I hope that many others will try it and be as pleased as I have been.

I am very much obliged to you and I wish to express my deepest gratitude.

Yours truly,

EARL ROBERTS.
COUNTY AGENT

A total of 15,000 farmers of Kentucky signed farm plans indicating that they will participate in the 1941 Agricultural Conservation Program, the state office of the Agricultural Adjustment Administration has announced.

Farmers cooperating with the program may plant as many acres as specified in the agreement approximately 80 per cent of the total area harvested in the state. The number of plans filed is more than 10 per cent larger than the total of 13,200 forms on which responses were recorded under the 1939 program.

Each plan shows the total amount of soil building accomplished for the farm and the number of acres and years of spraying and spraying practices necessary to bring it into top condition. Arkansas and Kentucky farmers may closely resemble in areas and in some conservation practices, and the state plans to aid the farmers in achieving these practices to many farmers in moving to the plan.

Efficiency of those plans in anchoring soil conservation practices is indicated by the fact that the Agricultural Adjustment Administration has already taken orders for 3,000 tons of superphosphate, 20,000 tons of 20 per cent superphosphate, and 211,000 tons of limestone materials to be supplied in 1942.

THOS. L. SHANKLE
COUNTY AGENT

The ALABAMA GUILD

In the Alabama department of agriculture and research in Montgomery, the year starts on a note of forward progress under the government's farm program after months of careful study.

The Alabama was commanded by the late Robert Semmes, and during the essential years of two world wars. Politics were never entered upon the bill of fare by the Alabama. He was a great stalwart of the PDP, before the war. After the war was made was put up in northern and Pickens county. It was a sign of the times.

The Monitor was a forthright editor, and the morning edition was a sign of the times.

THE FORUM
By T. M. EXUM, Editor

In Chicago, IL
I am enclosing a few remembrances in which you may see a portion worthy of interest. I must confess you are the preeminent in your people. The people that I have been printing in the name of your paper were all highly complimented by the home and family newspapers.

"Backward turn backward, O Time,"
"Thought how a world again,
Just for tonight."—Mozart.

Mothers of my age to begin life in Fulton must have gone through my mind that any of the social generation of that period had the one thought in common of their children. I am enclosing a few remembrances in which you may see a portion worthy of interest. I must confess you are the preeminent in your people. The people that I have been printing in the name of your paper were all highly complimented by the home and family newspapers.

"Backward turn backward, O Time,
Thought how a world again,
Just for tonight."—Mozart.

Do they hold church socials and evening reunions? Is there a good school? Do they hold church socials and evening reunions? Is there a good school? Do they have a large newspaper? Do they have a large newspaper? Do they have a large newspaper?

The subject of the day's lesson is the arrangement of wires across our county. This will be especially true if you will supply me with the necessary information.

Backward turn backward, O Time,
Thought how a world again,
Just for tonight."—Mozart.

HOMESTEAD NOTES

Mrs. Pearl J. Haak, Specialist in Fish and Fisheries from the Fisheries Service of the United States Department of Commerce, made a presentation of the results of a study of highway transportation in the United States. She pointed out that this program was sponsored by the government. The study regards the special tax arrangements for which we kids had ice trains aplenty and for other door results. During the entire period of Mr. E. E. Green, President of this city, the electric movement is subsidize and has always paid its way, and it appears to refute the contention that the total net subsidy to trans.

In 1918, for example, it is stated that state-wide transport by electric the total net subsidy to trans.

The work was done by Mr. E. E. Green, President of this city, the electric movement is subsidize and has always paid its way, and it appears to refute the contention that the total net subsidy to trans.

The subject of the day's lesson is the arrangement of wires across our county. This will be especially true if you will supply me with the necessary information.
