THE LISTENING POST

● Supt. J. O. Lewis of the local school system, along with other school officials and many interested citizens, is dreaming of something within the next year or so which will mean a great deal to the school system and to the public in general. As yet not one can tell when the dream can be made to come true, but the spade work has been done. The other part of the program can be made to reach fruition whenever money is available.

● Reference is made, naturally, to the future development of the Fairgrounds property. Some work has been done there within the past few weeks and some additional work will be done during the next few weeks. The old buildings have been dismantled and salvaged, and this work is being continued. The board of education saved a tidy sum by using some of this material in building temporary class rooms while the new building is being erected—a project which will require a great deal of time. When the new grade school is completed Fulton will have a magnificent plant for the schools. The new building will embody the latest in design and equipment and will give the school system the greatest forward step since the high school building was constructed.

● But there is one more step which must be taken. It is not as large an undertaking as the new building, but it is quite a large matter and will require some money. When the board of education purchased the fairgrounds property a double idea was in mind. I imagine that first and foremost was the idea of an athletic field, for that is what the school system needed, and what it must have before the athletic program really reaches its height. However, there is so much acreage in the property, it is so well situated, that it is possible to make a real community center there which will mean a tremendous asset to the entire community. The board of education can legally expend money on certain phases of this work, such as the athletic field, but it cannot spend money on developments which are not related to the schools.

● The plans for the athletic field, still tentative, contemplate the playing field inside of the present race track. There is no desire to take over the baseball field and thus deprive the Kitty League of a playing field. As a matter of fact, many well posted men have said that the acreage inside the race track is much better suited for a football field and running track than the site now occupied by the baseball field, and where games have been played by the football team for several years. Several years ago football games were played inside the race track, and I have been told that a field can be built there which will be far better than the baseball field. Even if it is desired to use the same lights it will be possible to erect poles at the new field and merely transfer the cross arms when the football season rolls around.

● Right now there is more interest, both in the school and in the community, in athletics than at any time in my memory. I do not know whether the football team made any money or not, but I know that interest was better this year than last—and last year great interest was manifested. When I go to a town almost 150 miles away for a night game and

—MAYOR AND BOARD OF COUNCIL. 263-16

Phone Strike Is Postponed Until Nov. 21

Non-Operating Rail Brotherhoods Reject Board's Proposal

New York. —A strike called for midnight Friday which would affect the American Telephone and Telegraph communication system in 42 states and the nation's capital was postponed tonight for at least a week.

John J. Moran, president of the Federation of Long Lines Telephone Workers, an independent union, said that the walkout had been held up and the federation's national council called into session here Nov. 21 at the request of Dr. John R. Steelman, director of the U. S. Conciliation Service.

Moran said the council, the federation's 21-member executive body, would decide "on further action to be taken." He sent the following telegram to Steelman: "Pursuant to your wired request, the Federation of Long Lines Telephone Workers has postponed the strike called for Nov. 14 and has convened the national council to meet in New York City on Friday, Nov. 21."

"Tumult and Confusion" Moran declared "one of the compelling reasons for acquiescing to Steelman's request is the tumult and confusion with respect to the present situation in the National Defense Mediation Board resulting from the resignation of its CIO representatives."

AN APOLOGY

In a recent issue, while writing of the several bands which joined in the Armistice Day parade here, the Leader reporter failed to mention the fine band from South Fulton High School. Naturally, the oversight was not intentional and this newspaper regrets the matter very much. The South Fulton band is always eager and ready to help in all community affairs, and the services of the fine organization are deeply appreciated by this newspaper.

TWO RAF CADETS ARE KILLED IN AIR CRASH

Montgomery, Ala. — Two R. A. F. cadets, who would have completed their flight training in eight weeks, were killed today when their planes crashed together and burst into flames.

The two, Frank Victor Marhoff, 29, of Boxmoor, Herts; and Richard Norman Moss, 20, of Preston, Lancs, both in England, were flying in formation at the time of the accident. It was the first RAF casualty at either Maxwell or Gunter Fields here.

John Taxpayer With No Pay Raise Object To Tax Program

Washington. — John Taxpayer and hundreds of his brothers who haven't had a pay raise in a long time poured protests into the Treasury today against new tax proposals designed to "mop up" excess purchasing power.

The Treasury admitted getting a "large number" of letters from citizens who generally said "What's this excess purchasing power? I haven't got any of it."

Answers are going out that the Treasury is aware of the problem of many people who haven't shared directly in the defense boom, and is trying to work out some tax system that will be easier on them than on other workers who are making lots more money. But, one official commented, "We can't make promises. It's a difficult nut to crack."

The thing that started the indignant flood of mail was a statistical survey by Dr. Carl Shoup of Columbia University, a part-time Treasury adviser, which predicted that

HARDEST HITTING FIGHTER PLANE CLAIMED DEVELOPED

New Curtiss Model With Heavy Firepower Ready

New York. —Development for the Army air forces and the British of what it termed the "hardest hitting fighter" in the world was announced Tuesday by the Curtiss-Wright Corp.

While the plane's armament was not made public, its fire power was estimated unofficially to be almost the equivalent of five .50 caliber and ten .30 caliber guns.

A .50 caliber bullet is one-half inch in diameter.

Standard equipment up to now on British pursuit planes has been eight guns of .30 or .50 caliber or a combination of two.

Burdette S. Wright, vice-president and general manager of the company's aircraft division, said the plane, the "F" series of the P-40 pursuit type, was being manufactured in large but undisclosed numbers for both the Army and the British.

"Army experts agree with our engineers," commented Wright, "that the new P-40F will outshoot any combat plane of its type in the air, that it will compare favorably in the matter of speed with any other fighter in the world, and that it can go into action at a ceiling comparable with aircraft which it will meet in combat."

STATE PURCHASES ARE DEFENDED BY FORMER SALESMAN

Louisville Man Denies "Deal" Helped His Firm

Frankfort, Ky. —Public hearings in the state purchasing investigation were resumed today with Joseph T. Sherman, former salesman, declaring his experience had shown that state business went to the best and lowest bidder.

Sherman, a stockholder in and former salesman for the Falls City Sales Company, of Louisville, said about 18 per cent of its sales were to the state.

Attorney General Hubert Meredith, at whose instance the Governor named the committee making the inquiry, asked Sherman whether he had not aided a shirt company in which officials were interested to get government orders in return for his firm getting state business. Sherman flatly denied any such "deal."

George E. Lambert, of Louisville, agent for the Phillips Petroleum company, charged that R. Emmett Rodgers, Frankfort salesman, had attempted to make him split commissions on Lambert's tire sales to the state.

Lambert said he paid Rodgers \$173.98 as commission once and showed a cancelled check for that amount dated August 14, 1940, but after that decided, "if I had to pay him a percentage on my sales, I'd quit selling to the state."

Churchill Says Britain Will Be Ready To Attack In 1943

London. — Winston Churchill predicted today that "the freedom loving powers" would be able to produce enough ships by 1943 to support an overseas invasion "utterly beyond British resources at the present time."

Before the House of Commons at the opening of the seventh session of the present Parliament, the prime minister argued against disclosure of the strategy by which Britain plans to aid Russia, and gave new figures to show substantial British successes in the Atlantic war against U-boats since early summer.

Citing the captive Rudolf Hess as his authority, he said Hitler had "relied upon a starvation attack even more than upon invasion to bring us to our knees." That has failed, he asserted, but "this only increases his need to come at us by direct invasion as soon as he can screw up his courage and make arrangements to take the plunge."

Twice the prime minister dealt with the demands which military operations, in the future, would make upon the shipping available to Britain and both times he made it plain that Britain's shipping capacity could not meet those demands now.

He made clear also that it was predicated on vast American help: "The great American ship-building program for 1942," and said the United States was building merchant ships on a scale many times that possible in the United Kingdom.

Churchill said Britain in the four months ending in October had lost less than 750,000 tons of ships, or an average of about 180,000 tons a month, as compared with 2,000,000 tons, or an average of 500,000 tons a month in the four-month period previous to July.

In the July-October period, he continued, almost 1,000,000 tons of Axis shipping had been sunk or damaged seriously, with the most severe Axis losses in the Mediterranean. He termed the last Axis convoy destroyed there by British naval forces a "particularly valuable one," and he said Italy had not yet been able to find the ships to repatriate 40,000 non-combatants from Ethiopia, despite British agreement.

Churchill parried the critics who want to know what Britain is going to do for Russia in the way of military aid. To those who object to certain ministers in his government, he said flatly: "No change is contemplated at the present moment."

Again he stressed that he would make no predictions about the future and again he taunted Adolf Hitler for doing so—this time, for "making a speech in which he told the German people that Moscow would fall in a few days."

ARMY HAS PLANES DROPPING FUEL TO TANKS IN TESTS

Washington. —Practicing selective service to the tanks, men are signing up for three-year enlistments in the regular Army at the rate of about 900 a day.

War Department officials reported today there were more than 26,000 such enlistments in October, a substantial gain over the 21,975 who joined the regulars the month before.

The majority asked for and were given assignments to the air forces, which are in the process of being virtually doubled in size by next June 30.

Men joining the regulars have the privilege, denied selectees, of choosing their branch of the service, provided vacancies exist, as just now in the air forces.

Recruiting has expanded the strength of the regulars to a new record high of 520,375.

The entire Army of the United States, which includes the selectees and the National Guard, now has passed 1,800,000 in strength, enlisted men numbering 1,498,038 by the latest official computation, and officers more than 110,000.

COMMUNITY SINGING

A community singing will be held Sunday afternoon, November 16, at the Water Valley Methodist church. The Dresden Quartet, Paducah Mixed Quartet, the Milburn Chapel Trio and the Water Valley Girls' Quartet are expected to be present, also many out-of-town singers. Everybody invited to attend and enjoy an afternoon of singing.

MRS. ALEXANDER SUFFERS BROKEN LEG

Mrs. Robert Alexander, an employee of Henry I. Seigel factory, sustained a broken leg yesterday when she fell at the factory. Mrs. Alexander fell on the steps as the girls were leaving the building for lunch. She received treatment at Haws Clinic.

FERGUSON GIRL GETS LEG BROKEN Little Miss Mary Doris Ferguson, four-year-old child who lives south of town, suffered a broken right leg yesterday afternoon at her home. The child's leg was broken when she fell and another child fell on her.

Now is a good time to renew your subscription.

ENTHUSIASM IS HIGH AT ANNUAL RED CROSS DINNER

J. O. Lewis And Old Board Re-elected For Year

At the annual Red Cross banquet, held last evening in the dining room of the First Methodist Church and attended by approximately 75 men and women, it was readily apparent that all were enthusiastic over the prospects for a fine year and all believed that the goal of 750 members would be reached in a few days. The campaign started this morning, with the town divided into sections and only small territories for the various committees. It was confidently predicted that the first day would put the campaign into high gear and require only a short time for the usual "mopping up" process.

J. O. Lewis, superintendent of the local school system, was unanimously re-elected chairman after Leon Browder had paid tribute to his services in the past and placed his name in nomination. Mr. Browder was named vice chairman, Mrs. Annie Gates Moore secretary and treasurer and Mrs. J. C. Scruggs executive secretary.

Shultz Riggs, who has been chairman of the Red Cross chapter in Paducah for the past seventeen years, was the principal speaker and gave an interesting talk on the work of the Red Cross. Mr. Riggs is fully informed on the subject and gave the audience much food for thought. In telling of the organization set up in Paducah for the roll call, he introduced Mrs. Clarence Bennett, who had charge of the women's division in the campaign and Mrs. Bennett, a former Fultonian, told something of the work.

Mrs. Scruggs reported on the vast amount of work that has been done in recent months by Red Cross volunteers and her talk was most revealing.

One of the most pleasing features of the program was a solo, "God Bless America," sung by E. P. Garrett, Carr Institute teacher and assistant coach. Mr. Garrett has a splendid voice and his song was highly pleasing. Miss Elizabeth Butt was at the piano for the number.

Mrs. Martin Nall gave an encouraging report of the work of the Junior Red Cross. Robert Wells Burrow reported on the interest manifested in first aid work and stated that more classes would be formed from time to time.

Mrs. Moore gave a financial report showing the chapter in fine financial condition, and Supt. Lewis presided over the meeting in his usual pleasing manner. Foad Homra, who is chairman for the Roll Call, asked the fullest cooperation of the workers in the drive, and after the close of the meeting the workers were given their instructions and necessary supplies in order that the drive might start early this morning.

Now is the time to subscribe for the Leader.

HOSPITAL NEWS

Haws Clinic Mrs. Cora Jackson of Dukedom continues about the same.

Mrs. Leonard Harding of Hickman is getting along nicely.

Miss Ila Mae Allen is reported about the same.

J. F. Butler remains the same.

Mrs. George Speight and son have been dismissed.

S. D. Griffey of Clinton remains about the same.

Mrs. Raymond Brown is reported better.

Little Glenda Sue Clark of Wingo is slowly improving.

Dr. T. W. Jones of Bradford is reported unimproved today.

Guy Walker was dismissed after a tonsilectomy.

Mrs. Robert Alexander was admitted for treatment of a broken leg.

Miss Betty Joe Weatherspoon was admitted for treatment of an injured hand.

Fulton Hospital Leamon Edwards continues to improve.

W. N. Brasfield of Hickman is getting along nicely.

W. W. Morris of Fulton was admitted yesterday for treatment.

Frank Provow of Hickman continues to improve.

Mrs. R. V. Putnam continues to improve.

Opinions Differ On Possibility Of War In East

Murray Says Fight Is Likely; Wheeler Claims Chance For Adjustments

Senator Murray (D-Mont.), said Thursday "there is a definite possibility" that the United States may go to war with Japan, but his colleague, Senator Wheeler (D-Mont.), declared that "we now have a real chance to adjust our differences with the Japanese."

Murray, a member of the foreign relations committee, told reporters that forthcoming conversations between the State Department officials and Saburo Kurusu, Japan's special envoy, "appear pretty futile."

"We cannot afford to agree to any Far Eastern settlement which would sanction the oppression of the Chinese," Murray declared. "Japan must get out of China if there is to be any agreement."

"The people of Japan like the people of the United States, do not want war in the Pacific," Wheeler said. "There is no reason why differences between the two countries cannot be worked out in a peaceful way."

Wheeler said he had "known for some time that the Chinese and some of the British want us to send an expeditionary force to protect the Burma road." He expressed confidence, however, that "the President will take counsel on the matter with the Army rather than our hot-headed Secretary of the Navy (Frank Knox). If he does, I am sure he will not send an expeditionary force."

The Japanese government was reported preparing for "a hostile situation" in the event that negotiations with the United States collapse.

Kurusu, making a stopover in Honolulu on his flight to Washington, said it was the common responsibility of the United States and Japan to keep peace in the Pacific and he described his task as "very important and very difficult."

Unofficially, Kurusu is said to bear a "last chance" offer to the United States to avoid an explosion in the Orient by recognizing Japan's "coprosperity sphere" in East Asia and halting aid to China.

Plan Advanced To Compel Purchase Of Defense Stamps

Washington. —A formula for applying the brakes to inflation and prices through a forced stamp plan system of savings was reported under consideration in Administration circles today.

The plan, said to have originated with Vice President Wallace, was being studied by some congressional leaders with the thought that it might provide not only a curb on threatened inflationary price increases but also open a relatively untapped field for Treasury borrowing.

As reportedly outlined by Wallace and others, the scheme would require retail purchasers of designated commodities to pay for a fixed quantity of defense savings stamps in order to obtain possession of the article they were buying.

Thus a man who desired to get a small \$10 radio might be forced to buy \$1 worth of defense savings stamps in order to complete his purchase. When a consumer had accumulated sufficient stamps he

could turn these in on a Government bond cashable after the emergency.

Wallace was said to believe such a program would serve to check inflationary buying primarily by making the actual cash outlay for purchases higher. At the same time, the purchaser would be laying aside part of his income for expenditures after the emergency thus reducing his current buying power.

Sponsors of the stamp plan argue their scheme is the most equitable yet advanced, since it could be made to cover purchases of so-called luxury items and need not be applied to such necessities as food, clothing and shelter.

In addition, they said, stamp purchases required on certain manufacturers' products which compete with national defense articles, could be boosted to a point where their purchase would be made relatively unattractive.

The Fulton Daily Leader

Daily Since 1898
Hoyt Moore -- Editor and Publisher
Martha Moore -- Associate Editor
Nola Mae Cullum -- Assist. Editor

Published every afternoon except Sundays and holidays, at 400 Main Street, Fulton, Kentucky.

Entered at the Fulton, Kentucky Post Office as mail matter of the second class, June 1898, under the Act of Congress of March 1, 1879.

FAIR TO ALL

What seems to be the soundest proposal yet offered for solving the railroad wage controversy, is found in a statement made by F. G. Curley, vice-president of the Santa Fe Railroad, before the President's Emergency Board.

Mr. Curley observed that the demands made by railroad labor, which would involve wage increases of about \$900,000,000 a year, are ruinous, and that if they were granted the railroads could not hope to survive as self-sustaining business institutions. Mr. Curley then presented his plan, which has four definite objectives:

First, railway employees would be granted emergency compensation. This compensation would be based upon two controlling factors—the trend in the cost of living, as shown in official indexes, and the trend of the carriers' gross revenues.

Second, the present basic rates of pay would be maintained. In other words, these existing rates would be a floor beneath which wages would not go.

Third, a reasonable ceiling of emergency payments would be established.

Fourth, provision would be made for a reduction of emergency compensation payments, should the up-

ward trend of the cost of living and the industry's revenues reverse itself.

The details involved in putting this plan into effect have been fully worked out by Mr. Gurley and submitted to the Board. It is difficult to see what basic fault could be found with it. It is true that labor is entitled to wage increases made necessary by the rising cost of living. It is also true that wage increases must be within the ability of the industry to pay. Mr. Gurley's formula seems entirely practical, realistic, and fair to all concerned. —Dyersburg State-Gazette.

LISTENING POST

(Continued From Page 1)

look around when the game starts and see approximately 75 Fulton people I know there is real interest. When I saw the crowd in Paducah I knew there was deep interest, and when I saw a great crowd stand and sit through the terrible rain at Murray I knew that the interest was deep and sincere.

• This means opportunity. If an adequate playing field can be built, with necessary field house accommodations for the players, we will find that the boys who play will be more interested. It will mean more men and women will be attracted to the games. High school football can be made to make money if the right steps are taken. Paducah and Mayfield make money on football year after year. While that is not the primary reason for school athletics it is much better to have the program on a sound financial basis than to keep losing money on the various teams inside the next year or so we will have a modern gymnasium which will take care of basketball for years to come. Plans should be considered which will bring football into its own. Now is the time to plan, for public interest is keen.

CHRISTMAS SAVINGS

CHECKS WILL TOTAL OVER \$401,910.000

New York. —Savings totaling \$401,910,000 will be distributed to more than 8,000,000 Christmas Club members in the week starting Dec. 1, Herbert F. Rawll, president, announced Tuesday.

Rawll said the total was about 10 per cent larger than savings under Christmas Club direction in 1940.

RETURNS FROM INSPECTION

Hon. D. Fred Worth, Grand High Priest of Kentucky Arch Masons, returned yesterday from Louisville and Shelbyville. At the latter town he inspected the Masonic Home, which is located there.

ALL-AMERICAN IN ACTION

Tom Harmon, great gridiron star, punts and passes his way to film fame at the FULTON THEATRE today when his first motion picture, "HARMON OF MICHIGAN," makes its local bow. An unusual drama of college life, the film also features Anita Louise, Oscar O'Shea, and Forest Evashevski, Harmon's great team-mate.

COAL TREATMENT FOUND "MIRACLE"

Atlanta Test Saves Fuel, Cuts Smoke, Soot

Atlanta. —A drug store proprietor and former locomotive fireman has worked out a chemical treatment for soft coal which users say results in fuel saving of 25 to 50 per cent and eliminates a large part of the soot and smoke.

Ben F. Prewitt, who devised the formula, says the chemical, mixed with water and sprinkled on the coal, obviates the need for a draft, since the mixture produces its own oxygen. Absence of a draft, says Prewitt, permits the coal to burn without forcing part of it up the stack as smoke and soot.

Operators of more than forty large apartment houses used the preparation and reported fuel saving of 25 per cent, elimination of 90 per cent of smoke and all soot.

Chestnut Glade

Mrs. C. C. Spence and daughter who returned from the hospital last Sunday are getting along fine.

There were 4 ball games played on our court Tuesday night. Two with Atwood and two with Sidonia. Our girls won both of their games, while our boys lost both of theirs. Mrs. Frank Millam was carried to a hospital in Mayfield Monday in a serious condition.

Farmers are quite busy finishing digging potatoes, gathering corn, etc.

Mr. and Mrs. Arvil Roberts are the proud parents of a daughter, who arrived November 10.

Mr. and Mrs. Lewis Burke and Mrs. Doug Gibbs have returned.

The Red Cross

The American Red Cross is now making a universal appeal to all who are not in dire need or actual want. The annual drive for membership will continue through this week and next. Enroll now and let your dollar be a mission of mercy in helping to comfort those in distress. Month after month you've listened to your radio daily and expressed your sympathy and sorrow in words. Now you have an opportunity to prove it in a practical way. Don't wait for a solicitor. Your conscience is already that. Your sympathetic heart will open your pocketbook or your selfish hand will close it. You are the judge. Which will it be?

Mt. Moriah and Bethel

Rev. Stephen Cobb of Coldwater will preach at Mt. Moriah next Sunday at 11 a. m. and at Bethel at 2 p. m. The revival meeting closed at Bethel Friday with nine professions reported. The baptizing will be Sunday following the afternoon sermon. Place has not yet been designated.

Basketball Games

There's no thrill in reporting a game that you were expected to

win but didn't. Lost to Wingo Friday night in a roughly played game, our first this season. First home game will be next Friday night, November 14, when we entertain the team from Lowes. Don't know how strong the Lowes outfit is this year but their quintet last year was plenty tough.

If you want to come when needed, be here Friday night and assist our pep squad leaders—Frances, Charlene and Elwanda, who rate well in both looks and leadership.

P. T. A.

Fulgham P. T. A. will meet Wednesday night, November 19, in regular session. A short program will be presented. Mrs. Jimmie Moore, Miss Evie Jackson and Mrs. Dewey House compose the committee in charge.

The Human Checker Game

Woodrow Leath and family moved from P. J. Vaughan's last week to the Hudson Elliott place which he had purchased. Mr. and Mrs. Lois Clark moved into the vacant Vaughan rooms. Hudson Elliott and family went to the McCoy Cunningham place west of Fulgham and Mr. and Mrs. W. Lindsay Jackson, who had rooms with Miss Ida Bruce, have moved to West Fulton.

Tragic Accident

Mrs. Gladys Darnell, wife of principal Earl Darnell, received a shocking message Friday morning that two of her brothers—Harry Adams, 33, and Dick Adams, 27, of Coldwater, were killed instantly when their privately owned bus overturned on a curve a mile from Murray.

The brothers operated a bus service to Gilbertsville, taking TVA men to and from work and were enroute there when the accident occurred about six a. m. November 7. They were the only occupants of the bus at the time of the wreck.

Harry leaves a wife and two children. Both are survived by their parents, Mr. and Mrs. E. B. Adams, nine brothers and sisters and several nieces and nephews.

Their death was the first to occur in the Adams family, consisting of the parents, children and grandchildren.

Funeral services were held at the Methodist church in Coldwater with the pastor, Rev. Blankinship, and a primitive Baptist officiating.

Those from here attending the funeral were Mrs. Jimmie Moore, Mrs. Jack Vaden, Misses Johnny Scholes, Evie Jackson and Docie Jones, Mrs. A. D. Gatewood and Mr. and Mrs. Vernon Humphreys. From Beelerston Mr. and Mrs. Roy Pharis, and children and Miss Fern Pharis attended.

Birth Announcements

Mr. and Mrs. Leslie McAllister of Detroit are announcing the arrival of a daughter born November 4.

Mr. and Mrs. Paul Price of Detroit are the parents of a son, born November 5.

In Hospitals

Glenda Sue, three-months-old daughter of Mr. and Mrs. William Clark, is in the Haws Clinic at Fulton for treatment.

W. C. Pierce, a former resident, is in a hospital at Muskegon, Mich., where he underwent a recent operation.

Harry Sullivan remains in a serious condition here at his home with little hope of recovery.

Personals

Mr. and Mrs. Jesse Bostic celebrated their Silver wedding anniversary at their home in Detroit, Mich., November 1, with seventy-five friends and relatives in attendance.

Mrs. Cleve Vaughan of Detroit celebrated her 50th birthday November 1 with 49 of our "home folks" in attendance.

Mr. and Mrs. Dietzel Allison and daughter of Memphis spent the week-end with her parents, Mr. and Mrs. S. W. Via.

Mr. and Mrs. John Baker of Fulton and Mr. and Mrs. J. H. Olive, Mr. and Mrs. Doc Poole and baby of Union City and Mr. and Mrs. J. H. Vanpool were Sunday guests in the Jack Vaden home. Mr. Baker attended Sunday school and church with Mr. Vanpool at Mt. Pleasant.

Mr. and Mrs. Archie Gatewood and Mr. and Mrs. Allen Gatewood attended the funeral of Mrs. John Davis at Rozzell's Chapel Graves County Wednesday. Mrs. Davis resided at Mounds, Ill. and was a half-sister of Mrs. Allen Gatewood.

Mrs. Noah Stephens has returned home from a week's visit with her son, Paul Stephens and family at Hammond, Ind.

Vernon Batts, army boy of Pine Camp, N. Y., arrived here Sunday for a few days' visit with his mother, Mrs. Ros Batts.

Marshall Kimbell and Glen Murphy of the Naval Reserve, Great Lakes, spent last week here with their respective parents, Mr. and Mrs. Claud Kimbell and Mr. and Mrs. Clarence Murphy.

Alfred B. Green of Camp Shelby, Miss., was the honoree at a dinner given Sunday at the home of his sister, Mrs. Bernice Gale.

Mr. and Mrs. Ralph Hawes of Paducah and Miss Robbie Wilson of Mayfield were Sunday guests of Mr. and Mrs. Elmer Farmer.

Miss Magdalene McClure of the Fulton hospital spent Monday with her parents, Mr. and Mrs. L. W. McClure.

Mrs. Carl Drysdale of St. Louis is visiting Mr. and Mrs. Moody Williams.

Mrs. Lily Byers of Paducah is the house guest of Mrs. Charles Hunt.

Rev. and Mrs. H. F. Clayton and children and Mrs. Nannie Jones of Clinton were dinner guests of Mr. and Mrs. Fred Hopkins Sunday.

Mrs. Y. E. Burkett is slowly improving. She returned home Tuesday after spending a few days with her daughter, Mrs. Homer Owenby, near Fulton.

M. T. Burkett is about the same.

This and That
Who remembers a frost as late as November? . . . Twenty three years ago our nation was seeing the

future with an optimistic eye. Today the vision is blurred and the outcome is questioned. . . . Twenty-five years ago Hazel McAllister, who was buried at Water Valley Tuesday, was teaching school here at Pleasant Valley. He was one of our County's most popular teachers. Three boys (babies) in that district were given his name—Hazel Nicholas and Hazel O'Neal of Detroit and Hazel Cunningham of Clinton. . . . In 1919, November 20, Mrs. Henriette House, wife of Sid House, was burned to death when her home was consumed in flames. A few days previous Morris Waggoner's wife was burned near Wingo. . . . Ferdie Tarver, W. R. Tarver, W. E. Trimble, Tom Montgomery, Vernon Humphreys and Mt. Pleasant church are all trying out the same brand of new stoves. . . . Sunday school count last Sunday was Mt. Pleasant 80, Jackson Chapel 67, Salem 44, Mt. Moriah 26 and Bethel 22. . . . Mt. Moriah church remembers the sick Morgan children with a \$5.00 donation. . . . Mt. Pleasant had visitors from five other churches Sunday. Bera Stroud was going to school to Hazel McAllister in 1916 when she married Claud Pillow. McAllister was boarding with her parents, Mr. and Mrs. Joe Stroud. . . . Come to the game Friday night. Go to Sunday school Sunday. Join the Red Cross now!

Now is a good time to renew your subscription.

CARNIVAL OWNER BEWAILS
TALENT LOSS TO ARMY

Albuquerque, N. M., — Don't give all your sympathy to the football coach whose squad has been decimated by the draft. Save a little for the carnival owner.

"Know what my top billing was three weeks ago?" asked C. F. Zeiger, carnival owner. "It was a triple billing Beautiful Rosemary Loomis and her trained tiger; Sky High Burns, who defied death from a tight rope 100 feet up, and Capt. Smith and his diving horses."

Now, said Zeiger, he has only Capt. Smith, his horses, and a trained chimpanzee named Andy for the feature performances. Sky High Burns was drafted. Miss Loomis' tiger died. "This draft has me worried," Zeiger said.

WAR DEPARTMENT WILL
PLACE ORDERS TO
AID AUTO MAKERS

Detroit, — Sidney Hillman, co-director of the Office of Production Management, announced late today the War Department would place within the next few days orders for 94,000 motor vehicles (trucks, jeeps, ambulances) at a cost of \$200,000,000 as a partial solution to the problem of unemployment caused by the changeover of the automobile industry from civilian to defense production.

In addition, Hillman said, the government plans to place orders for approximately 123,000 vehicles within one or two months at a cost of more than \$230,000,000 dependent upon favorable action by Congress.

CAT-CALLS OR
"THAT IS ALL?"

Los Angeles, — Every time George Whaley, radio broadcaster for the sheriff's office, tried to send out messages nothing but cat-calls went on the air.

He telephoned Bob Miller, operator of the short-wave sending tower to investigate.

Miller found the station mascot a cat named Sparky, trapped in the transmitter. Every time a message went out, the electricity drew a yowl out of Sparky.

NOTICE

On the 28th day of November, 1941, the undersigned as administrator of the estate of William T. Wright, deceased, will file a settlement in the Fulton County Court.

Signed,
Hendon O. Wright, Administrator
Adv. It.

Courier-Journal

out-of-town
editions every

MONDAY

John F.
Merrifield

As Agricultural Co-ordinator of WHAS, is charged with the responsibility of correlating and co-ordinating the activities of all organized and unorganized farm groups into broadcasts designed to present new, unusual, interesting and needed information to the rural radio audience. And now, projecting himself into the realm of printer's ink, he will bring to Courier-Journal readers a weekly column timely and pertinent to Kentuckians farm families. Mr. Merrifield is a graduate of the Iowa State Agricultural College with WHAS before joining the WHAS staff in 1930.

THE WINKLER STOKER
WILL SAVE YOU
THE MOST MONEY

A Winkler Stoker gives you the very best in clean, even, automatic heat. Electrically controlled. No smoke, soot or ashes. Ends furnace labor. Burns less coal. Burns cheaper coal. It pays for itself.

Years Ahead in Money-Saving and Work-Saving Features

Why do thousands and thousands buy Winklers instead of some other make? It is because Winkler gives the most stoke for the money!
You get a bigger, sturdier, easier running, absolutely fool-proof machine that will do more work for less money.
The marvelous Winkler Burn-Plan Transmixture eliminates the need for adjusting the air, gas, or draft, without the use of dials or motor controls.
Tremendous mass production cuts the cost of Winklers to less than the very cheapest, but superior quality and longer life, and greater fuel economy make Winkler the LOWEST IN COST.

"Where You Buy The Best For The Least"

"No Ballyhoo -- No Cure-All"

A familiar sight in by-gone days was the "Medicine Man" who distributed his wares along with his fast talk and ballyhoo. But we're proud, today, that we have access to the sound idea of advertising in our local newspapers.

While we offer no "Cure-All" for your ills, we do realize the importance of FLOUR in the daily diet of this Nation. And you may thank your lucky stars that you need not file application with the Priorities Division in order to purchase your flour. Just phone your grocer for one of those familiar brands. . . .
