Marc Van Ness Is Honored at Party On His 3rd Birthday

Master Marc Van Ness, son of Mr. and Mrs. Robert P. Van Ness, was honored with a party at his home Saturday, March 31, at 2 o'clock in the afternoon, celebrating his three year old birthday.

The birthday party was combined with an Easter egg hunt. The children quickly filled their baskets with the 12 dozen eggs dotted over the front lawn of the Van Ness home. Master Johnny Powell won the prize for finding the most eggs.

A highlight of the party was the penny hunt in the living room. A paper bag, filled with pennies, was broken, sending the pennies all over the floor. The children were given small bags to put the pennies in they found.

The dining room table was decorated in an Easter theme. The birthday cake was centered amid Easter bunnies, chickens and multicolored Easter eggs. The children enjoyed cake, ice cream, candy and cokes.

Young Marc received many birthday presents from his little friends, who were: Mike Powell, Johnny Powell, Bruce Gray, Vera Joy Ferguson, Holly Jean McKim, Andy McFarland, Karen Lund, Reyn Dukes, Bennie Karnes, Sandy Watson, Patricia Miller, and Marty Colburn, all of Calvert City, and Allen Gaddie of Sled Creek.

Mrs. Hunter Gaylor Is Honored on Birthday

Mrs. Hunter Gaylor was honored with a surprise birthday party by Mrs. Richard Hampton and Mrs. Lee Keeling Tuesday, April 3, at 1 p. m. at the Hampton home in Calvert Heights.

The members of the Sewing Club presented Mrs. Gaylor with five English bone china cups and saucers.

The hostesses served birthday cake and ice cream to Meses: Milton Nelson, Charles Cordon, Myron Pfeffer, Vernon Duckett, Dwight Robb, Art Masse, and Richard Phelps.

Farm Bureau Has the 'Gas' Refund Forms

The gasoline refund law, passed by the 1956 Kentucky General Assembly, will mean approximately \$1,000,000 in savings for Kentucky farmers this year, according to a report last week by the Kentucky Farm Bureau Federation.

Under the new law, farmers still will apply for tax refunds on gasoline used in tractors and stationary engines, but the forms for asking this refund have been greatly simplified so that anyone can fill them out with little effort.

Applications for refunds may be filed anytime during the calendar year that a farmer purchases as much as 50 gallons of gasoline, or a farmer may wait until the end of the calendar year, when he will be given 90 days to send in the form.

In other words, the farmer has until March 30, 1957, to apply for refund on gasoline purchased since Jan. 1, 1956. Application for refund on gasoline purchased prior to Jan. 1, 1956, must be filed within the 180-day period required by the old law.

The state refund is 6.3 cents per gallon. This means that any farmer who uses as much as 100 gallons of gasoline will be entitled to a refund of \$6.30, which is more than the annual \$5 Farm Bureau membership fee. Many farmers will use as much as 100 gallons a week during the spring plowing and planting season.

A farmer who has never participated in the gasoline refund act, should fill out white form No. 51 and send it to the Department of Revenue, Frankfort, and obtain a permit number. The department is sending a supply of these forms to all Farm Bureau insurance offices for use by farmers.

C. L. Walker, agent in charge of the Farm Bureau Insurance office in Benton, has a supply

of these forms, and also the forms for the "old" customers, and will be glad to assist farmers in filling out these forms and mailing them in. This service will be FREE of charge to everybody, and Mr. Walker urges the farmers who need the forms and assistance in filling them out to come to the Farm Bureau office.

EMIL HUGHES WINNER OF AWARD IN FLORIDA
SARASOTA, Fla. — Winner of the men's singles division of the weekly shuffleboard tournament at the Sarasota Terrace Club here this week was Emil Hughes of Benton, Ky.

Hughes, a guest at the club, where he and Mrs. Hughes vacationed last week, won the tournament over a field of 31 other men.

Mr. and Mrs. Glen Eley spent the weekend in Chattanooga and accompanied their grandson, Jerry, home.

Mrs. Henry Holland was confined to her home by illness last week.

Mr. and Mrs. James McNeely of Route 5 were shoppers in town last Thursday afternoon.

SPRING FASHION FESTIVAL

Starting April 6th

Gay Colors for every fashion
Shining Cars for every need
Great Buy Prices for every Budget

Will you join us in welcoming Spring?

Will you be our guest at the Spring Fashion Festival of the Best Buicks Yet?

We can promise you the season's most exciting vista—a fashion display of the stunning new Buicks, all in gay Springtime colors, including the very newest: Apricot and Bittersweet.

And, if such is your desire, you can blossom out in your own new Buick—in any Series, in any model—with the Springtime freshness of any of these bright colors.

But when the looking is done, there's the driving you can do—and that's the sheerest thrill of all.

For that's when you feel the solid comfort of Buick's great new ride. That's when you feel that sweet new handling. That's when you feel the silken might of Buick's lofty new horsepowers.

And that's when you feel the spine-tingling sweep of that new Variable Pitch Dynaflo*—where getaway and gas saving hit new highs at only part throttle—and where you can switch the pitch for

a safety-surge of full-power acceleration that's pure thrill.

So—come be our guest—at our Spring Fashion Festival—and at the wheel of the most spirited Buick yet.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It's standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Our Mission
Lesson for April 8, 1956

WHEN a great bomber sets off on a military mission, or when a plane loaded with leaflets takes off for a propaganda mission, no matter how good the plane is otherwise, the mission will be a failure without three essentials for success. One is gas enough to reach the target. The second is an engine that will not "conk out" going or returning. The third is a crew that will follow instructions, competent to fly the plane and to deliver its load at the right place, at the right time.

The Mission of the Church
One of the last words Jesus uttered before his Ascension was "Go." But what is a going church? Sometimes all that is meant by that expression is simply a church that has meetings once in a while. But that is not the idea Christ had in mind. The original Christian church had meetings, and good ones they were; but it began to go after the meetings were over and the disciples scattered everywhere, bringing the Word, the good news of God's love, the good news about Jesus. The church was going when it was growing; going when it took the message to new places; and to people who had never heard it before. A going church, in short, is a missionary church. Some people don't like the word "missions." It seems to carry or suggest the idea of superiority. Not at all! We do have a superior article, the Christian faith and life. But we do not have to be conceited about it. Does a salesman have to be conceited if he is selling the best line on the market? Does a doctor have to be conceited about prescribing the best drugs yet invented? We did not invent our religion. God gave it to us. He gave it to keep and to share.

Power of the Church
Going back to that airplane moment: Enough gas, an efficient engine, skillful POWER. No matter how important the mission is, no matter how good the intentions are, without the power everything collapses. So it is with the church. Our mission has been set by God himself. But when the church takes off with its tanks empty, and some home-made dinky-engine tinkered-up sewing machine in place of a good engine, it will never accomplish its mission no matter how good it is. Wanting to reach the target is not enough. Don't we all pray, "Thy Kingdom come on earth...?" That is a missionary prayer. Don't most churches offer prayer for missions, and even take up offerings for missions? Yet any one who knows the church will tell you that the church's missionary responsibility is shirked and slackened. We play at missions, we leave millions on millions without a ray of Gospel. The record of many a congregation, if you looked at it, would never suggest that that church knew much or cared much about what Jesus said on his church in his solemn last words: "Go—into all the world." The trouble is that the church does not have the power. It could have the same power the first Christians had, the power of the Holy Spirit. Only a Spirit-filled church is going to be much of a missionary church.

Power of Testimony
The other necessity of the plane on a "mission" is personnel. Power alone is not enough. There must be men who are prepared to use that power. Now Christians individually, or the church at large cannot "use" the Holy Spirit, for to one can use God. But God's power is not poured out on just anybody (as many stories in the Bible show). His power comes to those who devote themselves to him and his cause. The early church waited for the Spirit, waited for power; but once they had received it they proceeded to carry out Jesus' directive: Go into all the world! A Christian, or a church, that waits God's power for selfish reasons, will not be given it. A Christian, or a church, that prays for God's power so as to be able to witness for him, so as to win others for him, will find that power answered. The power will come. If the church today is making too feeble a mark on one world, it is because the church does not seek true spiritual power for true spiritual service? (based on outline, Education, National Council of the Churches of Christ in the U. S. A. Released by Community Press Service.)

Attention--Farmer

GROW POPCORN FOR AN EARLY CASH CROP

All farmers interested in growing POPCORN on corn land should come to see us or write for contract form to be mailed for inspection. Immediate contract will insure your acreage.

POPCORN grows on same type soil as field corn, same cultivation and attention, same planter and picker used. We can furnish POPCORN plates for brands of planters in use today. POPCORN is no more difficult to grow than field corn. The harvest per acre will be little less than field corn, some farmers report an equal amount. POPCORN, as a rule, will bring in dollars and cents much or more per bushel than field corn.

We furnish genuine hybrid POPCORN seed, which is paid for at time of POPCORN delivery. New early POPCORN seed varieties planted the first half of May will harvest during the month of September.

POPCORN is big business—millions of pounds each year. We have been in the business since 1937—handling several million pounds annually.

Mrs. Minnie Holland Burial Rites Held In Marshall County

Mrs. Minnie Holland, widow of W. F. Holland, Smithland, died Saturday, March 24, at the Riverside Hospital in Paducah. She was a member of the Gilbertsville Baptist Church. She was a native of Marshall County. Mrs. Reed M. Heath of Briensburg is a surviving sister. Funeral services were held March 25 at the Briensburg Baptist Church, the Rev. L. V. Henson officiating. Burial was in Briensburg Cemetery.

Kentucky is Paying Record Amount to Its Jobless Citizens

FRANKFORT—Kentucky's rate of insured unemployment stood at eight per cent of those covered by the jobless insurance program — nearly twice the national average of 4.2 per cent in February, Commissioner of Economic Security Vego E. Barnes has reported.

The state's rate was the highest for any state in the eastern section of the country, but was surpassed by five western states. The department paid out \$2,622,088 in benefits to unemployed workers in February including \$247,132 under the veterans' program and \$74,954 under the federal employees' program (these being wholly federally financed, but administered by the State agency) and \$2,302,000 in benefits paid from the Kentucky unemployed insurance fund. Benefit payments averaged \$21.27 a week.

Other data revealed by the Department was 17,913 new claims for unemployment insurance were filed during the month, which included 877 Korean veterans and 239 former federal employees. Among initial claimants who filed for benefits were 2,752 released from jobs located in other states, principally from Ohio and Michigan automotive plants.

Heavy layoffs were noted in the highly seasonal tobacco processing plants and other industries affected by weather conditions.

Benefit payments were heaviest in construction, manufacturing and trade establishments. The mining industry accounted for 9.7 per cent of the benefits paid, but a year ago it accounted for 16.5 per cent. Among manufacturing industries, benefit payments were proportionately heaviest in food and beverages (including distilling) apparel and lumber.

The Employment Service division made 3,570 non-agricultural placements for the month, 13 per cent below January and 18 per cent under February, 1955.

CARD OF THANKS

We wish to express our appreciation for the many acts of kindness and expressions of sympathy and condolence extended by our many friends and neighbors during the recent illness and death of our beloved mother and grandmother, Mrs. M. A. Beale. May God's blessings be with each of you.

16 Children Killed In Kentucky Traffic Thus Far This Year

FRANKFORT—Seventeen children under 16 years of age have been killed on Kentucky roads through March 26 of this year. Eleven of them were pedestrians. A. B. Widener said 88 children under 16 were traffic victims last year. Forty or nearly 50 percent were killed when hit by cars while walking or playing.

He called on parents to teach their youngsters how to stay safe in traffic. "Spring and summer are the most dangerous times for youthful walkers because they are playing outside more," Widener explained. He said all State Police safety education activity during April will stress child pedestrian safety.

"Parents have the prime responsibility for their children's safety in traffic because they have the care of the youngsters in their most formative years. Long before a child reaches school age he has been out in traffic with his parents. The kind of safety training they have given him will greatly affect his traffic attitudes," the commissioner said.

The commissioner stressed the necessity for full cooperation between parents, schools and traffic officials in teaching safe traffic habits to children of school age.

A Performance Sensation... A Fashion First!

There's an all-new way to measure automobile performance—and that's to measure it against Pontiac!

For Pontiac performance outstrips in a breeze any other on the road. And it didn't just happen! Pontiac engineers started from scratch with a brand-new Strato-Streak V-8 engine.

Then they added another triumph, the all-new Strato-Flight Hydra-Matic* especially engineered to work as a super-efficient team with Strato-Streak power!

And what a team it is! There's the blazing "go" of 227 h.p. in the most modern, high-compression, high-torque engine you can buy!

There's the incredible smoothness of Strato-Flight Hydra-Matic's liquid coupling and the instant, positive action of its gears.

No wonder they're calling Pontiac America's No. 1 spine-tingler! You will, too, when you see how it tames traffic and shrinks the miles.

Just as forward looking as the engineers, Pontiac designers set an equally new trend in styling... obviously branded with the stamp of the future.

Surprisingly, all this one-of-a-kind performance and style is priced well within the reach of any new-car buyer. We invite you to come in soon for the facts.

You can actually buy a big, glamorous Pontiac 860 for less than you would pay for 43 models of the low-priced three!

CE BREEZE of the peculiar boom of mind's delight and angels only given over world denied. Samuel Jackson.

ain smiled upon city's sons and annual Tater a day, unique success really elemental quality boom of Heav'n the surface one that its particled "getting and and of all living served shopping carting without. gains" are both rewarding but of seeing old neighbors made the worthwhile and a little harder. For as the himself a carn-seeking the con- others, said of is "th noble and pride." And traveled far on to avail himself needs to be paid that has woven unity within the od of 114 years: spirit makes Marshall County sense of perhaps rvers do not see look beyond the in this special day deep and abiding the love for one's that — when it is will very surely ad meaning to the community. It is Adamic, immigrant on the village of the Sloane of the

Austrian Empire, that one of the things that made him a good American citizen and appreciative of our native land was the deep and abiding love and respect he had for his homeland which he brought to this country. The younger generation enjoys the "carnival spirit" of the day which they will cherish as they, too, grow older and concern themselves more with their "idea of friendship." The degree of discomfort, if there be any, caused by their antics is negligible as compared with the real ways with which they identify themselves as future full-fledged citizens interested in activities that help put their county "on the map" so to speak.

So we agree these "special days" are worth while; for it is good for youths to have their fun and cement their friendships as well as for the "oldsters" to renew friendships, to remember old acquaintances and to bring the "old days" to mind. These be enduring things and such a spirit any town, county or community could well afford to emulate.

It has been said that "a good friend is one of life's most precious gifts" and therefore we should cherish this "boom of Heav'n" by, as Johnson has said, "keeping our friendship in constant repair," that is, never let a great deal of time go by without making those contacts which so enrich our lives and in turn enrich the life of our community helping to make its spirit beautiful.

HERE'S HOW...

MAKE A GARDEN FENCE

An attractive fence can be made with boards offset instead of in line.

Determine the board spacing and height desired. The closer the boards and the higher the fence the greater the privacy.

Treat the butts of posts with an oil-borne wood preservative.

Set the posts six feet apart with about one-fourth of their length in the ground and at least 1 foot in concrete. Fasten 6-foot 2 by 4 rails across the

tops of the posts. Cut 1/4-inch mortises in the lower portion of the posts to receive the bottom rails. Cut the rails to fit.

Use 20-penny non-rusting nails to attach the top 2 by 4's and to toenail the bottom ones.

Stagger vertical 1 by 6-inch boards on opposite sides of the fence and attach with 10-penny non-rusting nails.

Paint the completed fence with a good outside paint.

Jim Emerine has returned to Los Angeles, Calif. He was here to attend funeral services of his father.

Mrs. Galen Holt of Route 1 was a shopper in town Friday. Guy Darnell of Route 3 was a shopper in town Friday.

"There's one thing to be said for children—they never pull out pictures of their grandparents!"

For the wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord.—(Romans 6, 23.)

Even in the full vigor of mortal life, a sinful man may be as one dead, for his soul and his conscience, all beauty and kindness are dying within him. But the magnificent promise is that through Christ Jesus the Savior, he still may be redeemed.
