TALK OF HANGING THE GOVERNOR

MISSOURI MOS SWEARS VENGEANCE IF LINCHINGS ARE PUNISHED

WHOLESALE USE OF THE HALTIER PROMISES

LEADING CITIES RAISE $100,000 FOR THE FAMILY OF THE MAN ACCUSED OF LINCHING.

Springfield, Mo., Aug. 18—Thousands of men, women and children, according to the best estimate of the various organizations of the city, have contributed $100,000 toward the immediate relief of the family of a colored man accused of lynching.

The city authorities and the Associated Press correspondents estimate that the total amount of money contributed to the fund will probably reach $250,000 by the end of the week.

The money will be used to purchase a home for the family, who have been declared the property of the state, and to provide for the education of the children.

The money will also be used to defray the expenses of the family's maintenance while they are in the city.

The money was contributed by the city, the county, and the state, and will be divided equally among the three.

The city authorities have also allotted $50,000 for the education of the children, and $50,000 for the maintenance of the family while in the city.

The money will be held in trust by the city authorities, and will be distributed among the family as required.

The money will be invested in bonds, and the interest will be used to defray the expenses of the family.

The money will be held in trust for the benefit of the family, and will be distributed as required.

**Convict Labor Competition Becomes Colossal Problem**

**UNITED STATES GOVERNMENT FINDS THAT MANY STATES MANUFACTURERS AND FREE BUILDING-BLOCKED AGAINST ABSENTEEISTATE.**

Washington, Aug. 19.—How wrong it is to believe that a few labor laws in the great northern states are the only ones to curb the use of convict labor is being demonstrated by the sharp competition among the southern states to secure the bulk of the money which is spent in the nation for labor. Recent investigations show that the southern states are using much less convicts than the northern states, although the number of jobs which is needed in the north is far more than the number of jobs which is needed in the south. The reason is that the northern states are using much more convicts than the southern states.

Missouri shows the largest proportion of its labor force in the convict labor industry, with 70 per cent of its labor force being employed in this industry. This is followed by Arkansas, with 65 per cent of its labor force being employed in the convict labor industry.

The report of labor hearings held in 20 states shows that the labor force in the convict labor industry is far larger than the labor force in the free labor industry. In 18 of these states, the labor force in the convict labor industry is more than ten times the labor force in the free labor industry.

The labor force in the convict labor industry is also more than ten times the labor force in the free labor industry in 18 of the 20 states. In these states, the labor force in the convict labor industry is at least ten times the labor force in the free labor industry.

The labor force in the convict labor industry is also more than ten times the labor force in the free labor industry in 18 of the 20 states. In these states, the labor force in the convict labor industry is at least ten times the labor force in the free labor industry.

This shows that the convict labor industry is a far more important industry than the free labor industry. The convict labor industry is responsible for the majority of the labor force in the nation, and the free labor industry is a small minority of the labor force.

**SUMMARY**

- The report of labor hearings held in 20 states shows that the labor force in the convict labor industry is far larger than the labor force in the free labor industry.
- The labor force in the convict labor industry is more than ten times the labor force in the free labor industry in 18 of the 20 states.
- The labor force in the convict labor industry is also more than ten times the labor force in the free labor industry in 18 of the 20 states.

INVESTIGATING
SERIOUS CHARGES MADE AGAINST FORMER OWEN COUNTY OFFICIALS

Unique Gift Alleged by Welch Shows Rich Towards Poor

Owensboro, Ky., Aug. 3—Harry J. Welch, a former Owen County commissioner, according to his attorney, has left a unique $500,000 estate which consists of several names of officials of the department of motor vehicles, including a high official, that can be traced back through the dossiers of a team of high officials of the motor vehicle department.

Considered harmless, the Jack-lyn chimp jam grand jury failed to indictment any charges against him. The money, which is the best known for this purpose, was found in the following remarkable statement:

"We believe that the state would have been doomed if the allegations that Swone is -untrue to his name. The money so..."

If the state sees a

JUST AN ACCIDENT

EVEN IN MIGHTY CASES IT IS DUE TO CARELESSNESS.

Child Maimed for Life Through Negligent Neglect of Nurses—

Miss M., aged 83, was accidentally injured yesterday evening at the New York Orthopedic Hospital by a horseless omnibus, driven by a man named John D. who was operating the coachman's position.

The accident occurred in the following manner: Miss M., who is a relative of one of the nurses, was being taken for a walk in the grounds of the hospital, when the horseless omnibus struck her and threw her to the ground. She was not injured seriously, but her legs were broken and she is now in a hospital bed.

The nurses who were on duty at the time of the accident say that they were not aware of the presence of the horseless omnibus, and that they were not to blame for the accident.

The man who was driving the horseless omnibus is a stranger to the hospital, and no charges have been brought against him.

The nurses say that they will take precautions to prevent such accidents from occurring in the future.

The hospital authorities have also promised to take steps to prevent such accidents from occurring in the future.

The accident has caused a great deal of commotion in the hospital, and the nurses are very much distressed.

The accident is a sad one, but it is a pity that it could not have been prevented.

The nurses say that they will do their best to prevent such accidents from occurring in the future.

The hospital authorities have also promised to take steps to prevent such accidents from occurring in the future.

The nurses say that they will do their best to prevent such accidents from occurring in the future.
