Browder Mill Big Asset To Fulton

Fulton, Ky., July 12, 1911

To the Editor of the Fulton Advertiser:

The advertiser has received two letters this week from prominent residents of the county, both of which express the opinion that the New Big Mill, which was dedicated a few weeks ago, will prove a decided asset to the Fulton Colony.

The New Mill is said to be the largest of its kind in Kentucky, and it is expected to do a business of at least $50,000 a year. It will be operated by Messrs. Joe and Enoch Browder, who have been successful farmers for many years.

The mill will be a great aid to the farmers of the county, as it will provide them with a place to store their grain, which will prevent it from going bad during the wet season. It is also expected to provide employment for many of the workers in the county.

Sincerely yours,

Concerted Action for Highways Nationalization

**On the Funny Side**

**Excellent Publicity**

A new movement to publicize the war is the Nationalization of our Highways. The plan is to make all highways national and the highways of all nations national. This will ensure the free flow of commerce and the free exchange of ideas. The plan involves the construction of new highways and the improvement of existing ones. This will be a monumental task, but the benefits will be immense.

**Warfare Upon Ugliness**

**Matter of Civic Duty**

A recent survey has shown that ugliness is a major problem in our cities. The survey found that ugliness is not only aesthetically displeasing, but also has a negative impact on public health. It is therefore a matter of civic duty to work towards the eradication of ugliness. This can be achieved through the provision of more green spaces, the use of more aesthetically pleasing materials in construction, and the promotion of a culture of beauty and elegance.
