FULTON, KY., FRIDAY, AUGUST 23, 1940.

NUMBER THIRTY-ONE.

WITH THE TIGERS DAY BY DAY

KITTY LEAGUE STANDING				
Team	W	L	Pct.	
Bowling Green	26	14	.650	
Paducah	25	16	.610	
Owensboro	22	17	.564	
Mayfield	21	19	.525	
Jackson	20	19	.513	
Union City	19	20	.487	
Fulton	18	22	.450	
Hopkinsville	8	32	.200	

INDIANS 7 - TIGERS 0
After winning the first two games of a series with the Paducah Indians, the Fulton Tigers lost the third one 7 to 0 in Paducah Thursday night. Keso, Paducah's ace pitcher, held the Tigers to only four hits.
Score by innings: R H E
Fulton 000 000 000 0 4 1
Paducah 000 100 15x 7 14 0
Batteries: Fulton—Gentry and Pawelek; Paducah—Keso and Ivy.

BROWNS 8 - TIGERS 1
The Tigers dropped the first of a three game series with the Browns Friday night in Mayfield, by a score of 8 to 1. The Tigers got 5 hits in the ninth inning but failed to score.
Score by innings: R H E
Mayfield 011 023 10x-8 10 3
Fulton 001 000 000-1 7 2
Batteries: Fulton—Yeager and Pawelek; Mayfield—Bender and Carrola.

TIGERS 5 - BROWNS 4
Playing their first game under their new pilot, Moon Mullen, the Fulton Tigers beat the Mayfield Browns 5 to 4 here Saturday night. With the Browns leading 4 to 3 in the last of the ninth, the Tigers scored twice to win the game.
Score by innings: R H E
Mayfield 200 000 110-4 8 1
Fulton 300 000 002-5 6 1
Batteries: Mayfield—White, Götter and Carrola; Fulton—Read and Pawelek.

TIGERS 2 - GENERALS 0
Fulton scored in the eighth and ninth innings in Jackson Monday night to defeat the Generals 2 to 0. In the eighth Pawelek tripled after Males doubled. In the ninth Mullen, new Tiger manager, doubled, scoring Gallo, who had singled.
Score by innings: R H E
Fulton 000 000 011-2 9 1
Jackson 000 000 000-0 3 1
Batteries: Fulton—Gentry and Pawelek; Jackson—Webb and O'Neil.

TIGERS 2 - 9, GENERALS 4 - 3
Jackson and Fulton split a double-header Tuesday night in Jackson, the Generals winning the first game, 4 to 2, and the Tigers the second, 9 to 3.
First Game
Score by innings: R H E
Fulton 000 000 110-2 5 4
Jackson 130 000 00x-4 8 3
Batteries: Fulton—Sprute and Pawelek; Jackson—Kinder and O'Neil.
Second Game
Score by innings: R H E
Fulton 340 020 0-9 10 1
Jackson 001 010 1-3 8 4
Batteries: Fulton—Sanford and Pawelek; Jackson—Williams and O'Neil.

PERSONALS

Mrs. J. C. Clapp and daughter, Lucille, spent Monday in Memphis. Misses Ditty and Doty Pickering and Dorothy Gill of Memphis arrived Wednesday morning to be the guests of Mr. and Mrs. R. C. Pickering on Third street.
Kimball Underwood Jr., is spending this week in Princeton.
Mr. and Mrs. Tollie Gilliam and sons, Bobbie and Clayton of Millburn were the guests of Mr. and Mrs. C. A. Boyd Sunday.
Mrs. Bob Leigh returned to her home in Paducah last week end after a visit with Mrs. L. D. Holmes on Fourth street.
Mrs. Lyndell Boner of St. Louis is visiting relatives and friends in Fulton.
Mrs. L. D. Holmes and daughter Virginia, spent Monday in Memphis.
Mr. and Mrs. Norman Terry and daughter, Charlotte, of Evansville spent the week-end with relatives in Fulton.

"News" To Sponsor Salute To Fulton

Arrangements have been made with L. B. Wilson, operator of radio station WCKY (149 on the dial), of Cincinnati, by which The Fulton County News is sponsor of a special program dedicated to Fulton. The period between 10:30 and 10:45 p. m., Wednesday, September 11 has been set aside for this broadcast.
Because Mr. Wilson feels that WCKY and newspapers in neighboring communities are striving for the same goal—to render the best possible public service—he believes that newspapers are the logical sponsors of programs in the salute series.
The program will be devoted to telling the story of this community—its industrial and residential advantages together with little-known contemporary and historical facts. This material will be gathered by the editor of The News, and music heard during the program will be chosen through popular ballot of newspaper readers.
So if you have any particular tune or song which is your favorite, and wish to hear it on this special Fulton program, phone or write this newspaper. Readers are expected to turn in many suggestions and those most popular will be chosen.

Moon Mullen New Manager of Tigers

Several changes have been made in the local baseball team in the past week. Jim Poole, who has been manager of the Tigers since the beginning of the present season, was released last Saturday and Moon Mullen, third baseman, will serve in his place for the remainder of the season. Frank Filchok left Saturday for the West Coast to play professional football with the Washington Redskins and Peterson has taken his place in the outfield. Malcolm Smith, local left hander, has been signed to pitch for the rest of the season.
The Tigers, including games of August 13, had seven players with a batting average of .300 or more. They were Pawelek .360; Poole .338; Filchok, .335; Mullen, .327; Jesh, .315; Peterson, .313; Quackenbush, .305. Fulton is second in team hitting with .298, and fourth in fielding with an average of .943.
Sanford is leading the Fulton pitchers, having won 10 games and lost 5 for and average of .667.

WALLACE BROS. SHOWS BIG MIDWAY ATTRACTION

The Wallace Bros. Show, with its many rides and shows, which has been in Fulton all this week, has been attracting large crowds day and night. And when the big program of special entertainment provided by the Ken-Tenn Exposition gets under way Friday, the local fair grounds are expected to be crowded to capacity.
This is the first carnival that has shown in Fulton in recent years with such a wide variety of rides and shows. E. E. Farrow, proprietor, has been showing this section for many years, and has always carried a good show.

HARRIS SCHOOL OPENED MON.

Harris School opened Monday morning, Aug. 19, with a large number of pupils and parents present. After opening exercises and devotion led by Mr. Cooper, the pupils met with the teachers.
The parents met and discussed plans for a hamburger and ice cream supper to be held on the school grounds Friday evening, Aug. 30, at 7:30. A program will be given by the pupils and all parents as well as friends of the school are urged to attend.

Mrs. Kelly Wood of Washington, D. C. is visiting her daughter, Mrs. Frank Wiggins, on Maple Avenue.
Mrs. David Spence of Memphis is the guest of Mrs. Edith Connell at her home on the Union City highway.
Mrs. Mike Sullivan and son, of Jackson are visiting relatives in Fulton.
Mr. Curt Jones and son, Everett, of Murray visited E. L. Jones and family Sunday enroute to St. Louis.

DEATHS

DICK BARD

Dick Bard, prominent citizen of Fulton, died at his home on Jefferson street Friday afternoon after a brief illness. Funeral services were held Sunday afternoon at five o'clock at the First Methodist Church, conducted by the pastor, Rev. W. H. Saxon. Burial was in Fairview Cemetery in charge of Hornbeak Funeral Home.
He is survived by his wife, Mrs. Margaret Holland Bard; one brother, Jim Bard; and one sister, Mrs. Mattie Sullivan.

Mr. Bard was born near Fulton, the son of the late Talyor and Mary Ann Bard. For several years he operated one of the largest men's stores in this city and later was a salesman for a clothing firm. He also operated farms near town. He was a member of the First Methodist Church and was always a faithful and active member.

MRS. L. J. CLEMENTS

Mrs. Lurline Browder Clements, wife of L. J. Clements, died Thursday evening, August 15, at her home on Third street, following a long illness. Funeral services were held Sunday at 3 p. m. at the First Methodist church by Rev. W. H. Saxon, pastor. Burial was in Palestine cemetery, directed by Hornbeak Funeral Home.

Mrs. Clements, the daughter of the late John and Mathilla Browder, was born in Fulton county. In 1906 she was married to L. J. Clements and to this union four children were born. All of these survive. She joined the Methodist Church at an early age and was an active member as long as her health permitted. She was also an active member of the Garden Department of the Woman's Club.
She leaves her husband, two daughters, Mrs. Jessie Marie Black of State College, Pa., and Miss Sue Clements of Fulton; two sons, Phillip of Louisville and David of this city; one brother, Joe Browder of Fulton; and two sisters, Mrs. Mattie Thompson of Fulton and Mrs. Ruby Dillon of Newbern. She also leaves four grandchildren, Phillip Luke, Ann Marie and Sue Alma, all of Louisville, and David Luke Clements of Fulton.

ARTHUR ROGERS

Arthur Rogers, the son of Mr. and Mrs. W. N. Rogers, died Saturday morning at his brother's home in Martin after a short illness. Funeral services were held at New Hope Church, near Ruthville, Sunday afternoon by the pastor, Rev. J. A. Kelly and Rev. Tom Duncan. Burial was in a nearby cemetery, in charge of W. W. Jones and Sons, Martin.
He was born and reared in Weakley County, near Ruthville, and was united with New Hope Methodist Church about twenty years ago. He was never married. He leaves his brother, Herman Rogers, of Martin.

MRS. FRANCES DAVIS

Mrs. Frances Addie Davis died at her home near Hyndsvr Saturday morning following a long illness. Funeral services were held at Oak Hill Monday morning, conducted by the pastor, Rev. H. D. Weaver. Burial, in East Hill cemetery in Martin, was in charge of W. W. Jones and Sons.
Surviving her are her husband, Will O. Davis; two sons, Quillie Martin Davis of Martin, and Burnie Davis of Centerville, Mich.; one daughter, Miss Pauline Davis of Washington, D. C.; two brothers, Rev. Sam A. Martin of Memphis and H. S. Martin of Bowling Green; and four grandchildren.

J. M. HOGAN

J. H. Hogan, 89, died at 10:30 o'clock Sunday morning at the home of his daughter, Mrs. Tom Jolley, south of town. Funeral services were held Monday afternoon at the Jolley home and burial was in the Martin cemetery.
He was a resident of Martin for many years but for the past year he has made his home with Mrs. Jolley.
Besides Mrs. Jolley he leaves one other daughter, Mrs. Della Mitchell Brown, of Alton, Ill., and eight grandchildren.

CAYCE SCHOOL WILL BEGIN AUGUST 26

The students of the Cayce School will assemble Monday, August 26, at 8:30 a. m. to register for the 1940-41 term of school. The parents and friends are cordially invited to attend the opening exercises. A. J. Lowe, principal, stated this week. Prospects are favorable for a very fine school year and an increase in enrollment is expected. By the addition of new courses of study the school is becoming more able to meet the needs of the boys and girls of this community.
The basketball prospects for this year are somewhat uncertain. Most of our first string men of last year's team were lost by graduation. However we have a wealth of young and promising material that, under the careful training of Coach Oliver, will be able to give a good account of themselves as the season advances.
The Faculty for the coming year is as follows:
A. J. Lowe, Principal; Cecil Cruce, Mathematics; Kenneth Oliver, Social Science and Athletics; Myra Bell Bondurant, Commerce; Annie Laurie Turner, English and Librarian; Francis Hudgens, Domestic Science; Harold Shaw, Vocational Agriculture; Wilma Shuff, 5th and 6th Grades; Christine Jones, 3rd and 4th Grades; Evelyn Oliver, 1st and 2nd Grades.

The C. & E. cafe and dance pavilion, located near the passenger station is one of the popular dancing and eating places of this vicinity. Cars can be seen parked there in large numbers most any night of the week, and "Happy" Wilson has made many friends since he took over this business.
Mr. Wilson is one of Fulton's alert young business men, and is always interested in any program that will develop the community. He highly endorses the work being done by the Young Men's Business Club in the promotion of the Ken-Tenn Exposition here this week.

C. & E. Popular Dance Pavilion

The C. & E. cafe and dance pavilion, located near the passenger station is one of the popular dancing and eating places of this vicinity. Cars can be seen parked there in large numbers most any night of the week, and "Happy" Wilson has made many friends since he took over this business.
Mr. Wilson is one of Fulton's alert young business men, and is always interested in any program that will develop the community. He highly endorses the work being done by the Young Men's Business Club in the promotion of the Ken-Tenn Exposition here this week.

WINDOWS BROKEN BY BURGLAR MONDAY NIGHT

A burglar broke out the front plate glass window of Meacham & Hutchens grocery Monday night and stole some cigarettes and butter. At the service station on Commercial-av., operated by "Shorty" Williams, the windows of both rest rooms were broken but the burglar could not gain entrance to the station. Miss Robey, night nurse at the Fulton hospital, heard the burglar and called Mr. Williams but when he arrived the burglar had gone.

FULTON HOSPITAL

Ed Wade has been admitted for treatment and is improving.
Grover Burkett is doing fine after an appendix operation.
Fred Byars is improving.
Guy Woodson is getting along nicely.

Mrs. Howard Rogers and baby of Dresden have been dismissed.
Mrs. Freeman Goodin was dismissed Friday.

Mrs. Rupert Gardner and baby were dismissed Saturday.
Mrs. Kelly V. Rose has been dismissed.

SOUTH FULTON SCHOOL TO START SEPTEMBER 2

South Fulton high school will begin its fall term Monday, September 2, it was announced this week by W. H. Cravens, principal.

The elementary school will not open until September 30, and it is hoped that the new building will be ready for occupancy at that time. Since the elementary term is eight months, the schools will be out at the same time in the spring.

Mrs. B. F. Evans and son, Ben Pickering, have returned to their home in Water Valley, Miss., after a visit with relatives here.

Children Must Meet Ribbon Requirements

Officials of the Obion County Health Department Saturday announced the Blue Ribbon requirements for all county school children. These requirements must be satisfied before the children can receive Blue Ribbons and participate in the Blue Ribbon Day celebration to be held in Union City September 20.

The requirements are:
(1) All remedial defects corrected.
(2) A dental certificate showing that teeth are in good condition.
(3) A record of the health average kept.
(4) Inoculation against diphtheria and smallpox.
(5) Passing grades.
(6) Good citizenship.
All children are urged to check this list to see if they are eligible for Blue Ribbons. If not, they are urged to attend to this matter at once.

The Obion County Health Department is continuing with its schedule of dental inspections with the aid of dentists as well as its regular program of school examinations.

Fulton Youth Takes Cross-Country Trip

Tolbert Sawyer, local aviation enthusiast, and junior member of Sawyer Bros. Market of this city, last week took a thousand mile cross-country hop in an airplane with Chas. Miller, who has been operating a flying school here and at Mayfield during recent months.
Instructor Miller and young Sawyer left Mayfield, Monday morning, August 12, at 6 a. m., and arrived at Melbourne, Fla., at 9:55 a. m. Tuesday. They made several stops enroute, including Muscle Shoals, Birmingham, Montgomery, Ala., Tallahassee and Gainesville, Fla., on Monday. They spent the night at Leesburg, Fla., and took off again Tuesday morning at 6:40 p. m. Making two more short stops, they landed at Minneola, Orlando before reaching their destination, Melbourne.

Several local people are interested in aviation, and have completed their preliminary training, but Tolbert has set the pace by taking the longest cross-country hop, accompanied by his instructor. He did considerable of the flying enroute, and says that he had a most enjoyable trip.

Plans are now being worked out to install an airport here early next year, and Instructor Miller will probably return here then.

DR. RUDD WILL GIVE BARBECUE SEPT. 3

Dr. R. T. Rudd will give a free barbecue and picnic at Fairfield Park in Fulton on September 3, for all people who came into the world under his administration. To all those present who were born between 1895 and 1914 Dr. Rudd will give a free birth certificate.
Friends and parents of the children are cordially invited to attend the picnic. An interesting program is being planned.

R. A. MABRY ACCEPTS TEACHING POSITION

R. A. Mabry, of Cayce community, who recently secured his B. S. degree from Western Normal at Bowling Green, has accepted a position as teacher of the Smith-Hughes agricultural course in the Rineyville school, 16 miles from Louisville. He left last week to assume his new duties.

Mr. Mabry, who has the distinction of having secured his B. S. degree in three years, is slightly past 21 years of age. He is a son of Alvin Mabry of Cayce.

Miss Sara Pickle spent this week in Tiptonville, the guest of Miss Dorothy Lee Downing.

Miss Inez Abernathy of Paducah was the week-end guest of Rev. and Mrs. E. R. Ladd on Park Avenue.

Mr. and Mrs. W. W. Black of Springfield, Ill., have moved to Fulton and have an apartment at the Johnson Apartments. Mr. Black is agent for the Railway Express.

KEN-TENN EXPOSITION DRAWS BIG CROWDS

Much interest is being taken in the Ken-Tenn Exposition which opened here Thursday with the Annual Farm Bureau Picnic, and 4-H Club Shows.

Large crowds are flocking to the night events, and the Wallace Bros. midway, with its many rides and shows is attracting an endless stream of visitors. Capt. Freddie Leach in his 100-foot dive on fire into fire, in a death defying leap for life, is a thrilling free act.

The main program of entertainment opens Friday with a Model Airplane Show and numerous acts. Then Friday afternoon, the 3rd Annual Old Car Derby will provide speed and thrills galore. This auto race will be for a distance of 25 miles in 50 laps around the best dirt track in the South. The race this year is expected to be the fastest ever staged here.

Friday night the Swift Jewel Cowboys will give their six big acts, consisting of roping, riding and music. This show will be a thriller. It will be followed by an old-time square dance, then a thrill dance.

Saturday is the big day, when a big four-hour show will be given by a corps of daring motorcycle riders. These motorcycle races and rodeo will be the high spot of the entertainment program, for they will be packed with speed, thrills, spills and chills that will lift you out of your seat.

New Skating Rink Opens Here At Fairfield Park

J. C. Anderson of Henderson, Tenn., has been in Fulton for the past few days supervising the erection of his skating rink here at the Fairfield baseball park. This is a practically new rink, and has been operating at the Lake View park in Jackson, Tenn.

The rink was brought here under the auspices of the Young Men's Business Club in connection with the Ken-Tenn Exposition which opened here this week. The old time square dance scheduled for Friday night will be held on the skating rink floor.

Guy Manees will be in charge of the rink which will be in operation here for several weeks. Both day and night sessions will be conducted, including Sundays. Special skating parties are invited.

DEAN CAMPBELL NAMED AS CADET TO S. S. DELBRASIL

Samuel Dean Campbell, son of Mr. and Mrs. S. E. Campbell of Fulton, has been appointed by the U. S. Maritime Commission as engine cadet to the S. S. Delbrasil, operated by the Mississippi Shipping Company.

Campbell, the only cadet from the State of Kentucky presently in training under the U. S. Maritime Commission regulations, received a course of preliminary instruction at one of the Commission's shore receiving stations before assignment to the vessel. He was graduated from Fulton High School in 1936, after which he studied at the University of Kentucky. On January 29, 1940, he took the national competitive examination prescribed by the U. S. Maritime Commission for appointments to cadetships and was one of the 375 successful candidates.
The S. S. Delbrasil is a new deluxe passenger ship operated between Gulf Coast ports and ports on the East coast of South America.

MISS WATSON HAS UNUSUAL HOBBY

Miss Lucile Watson, who is employed in the Commercial Bank at Obion, Tenn., has an unusual hobby, which is both interesting and a pleasant pastime.

For over a year she has been gathering pencils—long ones, short ones, flat ones, and odd shaped ones—advertising some firm. She has pencils that have come all the way from California, even from Germany.

Since she started this unusual hobby, she has collected nearly 500 pencils, and has them assembled on a display board at the bank.

The Fulton County News

J. Paul Bushart, Mgn. Editor

PUBLISHED EVERY FRIDAY

Entered as second class matter June 28, 1933, at the post office at Fulton Ky., under the act of March 3, 1879.

OBITUARIES. Card of Thanks, Business Notices and Political Cards charged at the rates specified by advertising department.

Subscription rates radius of 20 miles of Fulton \$1.00 a year. Elsewhere \$1.50 a year.

AMERICAN BIOGRAPHY

After 10 years of labor, during which time 2,243 persons contributed articles to the work, the tenth and last volume of the monumental Dictionary of American Biography has been published. These volumes have been produced at an expense of about \$650,000, of which \$500,000 was subscribed by the late Adolph S. Ochs, publisher of the New York Times.

The work comprises a total of 12,685 pages, and in the first years of its compilation the editor was Dr. Allen Johnson, who died in 1931 and was succeeded by Dr. Dumas Malone. There are 13,633 biographies of persons "who have made some original contribution to American life."

It was originally intended to set a limit of 10,000 words to each biography, and only five notables received more. Washington leading with 16,500 words. The other four who were given more than 10,000 are Benjamin Franklin, Thomas Jefferson, Abraham Lincoln and Woodrow Wilson.

Mr. and Mrs. H. M. Holland of Benton, Ky., recently celebrated their 75th wedding anniversary.

THE FORUM

By J. PAUL BUSHART, Editor

A column conducted for news, views and comments, in which readers of The News are invited to participate. Mail contributions care of THE FORUM, this newspaper.

Charles Sevier down at the Western Auto is always going fishing. He tells long, tall fishing tales, but I haven't yet seen any of these fish he's supposed to be catching. Maybe you just drop them back in, or hold a fish fry before returning home, Charlie. How should we know?

Slim, who works down at the Arcade Barber Shop, is a shoe-shining son of a gun. He'll polish a pair of shoes off till they look as shiny as a brand, new nickel. If there's a shoeshiner's heaven, Slim ought to find a place there, for his greatest delight seems to be in making shoes sho'nuff polished.

Back early in the season Chester Murrell and I got to arguing pro and con about ex-manager Poole of the Tigers. I told Chester that I didn't think much of Poole's playing on the first sack, but he came right back at me and pointed out that he was a hitting fool. Before he got through with me I had to agree that he was right. But Chester is converted now, and thinks Poole should have been let out long before he was, and saved the club some money.

Numerous people around town have been complaining about the rats that infest the community. That matter has been called to our attention by Mr. Barry of Hickman

who has indicated that he would like to see a county-wide movement to get rid of these rodents. Since there is so much general dissatisfaction about the number of rats and the damage they are doing to property, we suggest that an organized drive be conducted to kill these pests. Other communities have had such movements with successful results. Why not do it in Fulton county. It should also be done for health reasons, for rats are carriers of filth and germs and should not be tolerated. Some civic organization should get behind a rat eradication movement.

Fulton has a lot of bicycles. Bicycling has become a popular sport here in recent years. Even the colored boys and girls have their "army" of cyclists. And to cap it all off, a number of bicycle races have been included in the program at the Ken-Tenn Exposition here this week. Bicycling is cheap transportation and good exercise.

I was out at Cayce this week, and I stopped by to see A. J. Lowe who is principal of the school there. Mr. Lowe has a real school building and a fine enrollment of boys and girls. I am proud that Fulton county has such an excellent school system. It always makes me feel good to visit Mr. Lowe. He was one of my teachers when I attended Fulton High, and I'll always remember those school days. Mr. Lowe is a natural school man, and he knows how to get along with school children today just as he did when in Fulton.

Those having children attending school at Cayce may be able to read the school news in this paper this term. Cayce will have its own student staff of writers to gather the news.

Incidentally, we would like to have news from other schools of this territory, in adjacent counties in both Tennessee and Kentucky.

SILCO SIMPKINS SAYS

It takes nature over 500 years to develop an inch of good top-soil.

Good farmers give their fields a green blanket to protect them from winter rains.

Many Tennessee farmers are farming subsoil—the good topsoil went down the river long ago.

Winter cover crops not only check soil washing but provide pasture for livestock when it's most needed.

Gullies are the final stages of erosion's sinister work. Most of the topsoil is gone when they begin to appear.

Over 500,000 rural homes in Tennessee have made improvements under the leadership of home demonstration agents in the past 10 years.

A total of \$2,182,374 has been allotted to Tennessee to assist farm tenants to become farm owners. Over 8,000 farm families in the State are now being assisted by the Farm Security Administration.

"Winter Cover Crops For Pasture And Soil Conservation" is the title of a timely Publication No. 188, issued by the U-T Agricultural Extension Service. Copies may be secured from your county agent or by writing the Extension Service, Knoxville.

Money Talks

By Frederick Stamm, Economist
Director of Adult Education
UNIVERSITY OF LOUISVILLE

The large increase in car loadings of our railroads is one of the bright spots in our industrial picture. Since 1930 the railroads have been one of America's sick industries. During the depression car loadings dropped to unbelievably low levels, earnings declined and in many cases interest on bonds and dividends on stock were discontinued. In addition, thousands of railroad workmen were laid off. Scarcely a community in the U.S. was not adversely affected.

Even though you never worked for a railroad or owned a railroad bond or stock, you may have been affected by the depression in this industry. Millions of dollars worth of these bonds were owned by saving banks and insurance companies and if you had a saving account or an insurance policy you likely were affected. The fact that many railroads could not pay interest on their bonds was one of the reasons savings banks lowered their interest rates and insurance companies lowered their dividend rates, and unemployed railroad workers helped swell the relief rolls.

The railroads are now staging a comeback, along with industry in general. They are hauling more freight than they have for years; they are putting men to work and

these men are buying products from farm and factory; they are buying new equipment; they are paying interest on their bonds.

The movement of freight from the interior to the coast for export has aided the railroads. The new national defense program should further stimulate their business.

A prosperous railroad industry brings prosperity directly to thousands of workers; indirectly it affects for the better the majority of American communities which depend in some manner upon this industry.

Mr. and Mrs. J. R. Hogan spent the week-end in Memphis.

YOUR ATTENTION, PLEASE

WE'LL PRODUCE WHAT'S NEEDED FOR NATIONAL DEFENSE, ALL RIGHT!
BUT WE MUST HAVE COOPERATION.
YOU CAN'T JUST APPROPRIATE A TANK OR PLANE, IT TAKES TIME TO RE-TOOL AND BUILD FOR NATIONAL PRODUCTION!

Steamer President To Be At Hickman

The all steel Steamer President will give its last excursion at Hickman Wednesday, September 4, under the auspices of the Elks Lodge No. 1294. The steamer will leave Hickman at 9:00 p. m., on a moonlight dance excursion.

The rhythm for the cruise will be provided by Tony Catalano and his 12-piece band. After leaving Hickman on this visit, the President will cruise down the Mississippi to New Orleans for the fall excursion season there.

INSURANCE

Insurance Is Like A Spare Tire . . .

There may be less probability of needing the spare tire—but you wouldn't think of going on a trip without one, would you?

No matter how carefully you drive, how scrupulously you observe the law—sooner or later insurance may fill a very pressing need. Let us show you how little it costs for adequate protection.

day night. Everyone is invited to attend our meetings each Sunday night at 7:30.

Mr. and Mrs. Charles Robert Gardner spent Sunday with Mr. and Mrs. W. L. Best.

Mr. and Mrs. Lowell Weatherspoon spent the week end with Mr. and Mrs. W. B. Weatherspoon. Mr. and Mrs. Jewell England and Shirley spent the week end with Mr. and Mrs. J. W. Bostick and family.

Misses Dorothy Wry and Fay Conley spent the week end with Miss Erlene Wilkins of Shiloh.

Mr. and Mrs. Ray Pharis and family spent Sunday with Mr. and Mrs. Russell Bockman and family.

Mrs. Gladys Gardner and boys attended a birthday dinner Sunday given in honor of her mother, Mrs. Edgar McMorris.

Mr. and Mrs. Luther Kyle Moore and daughter moved to Calvert City Saturday. Mr. Moore has employment at the Gilbertsville dam.

Mrs. Jessie Bostick and children and Mrs. Harrison of Detroit spent part of last week in the home of Mr. John Bostick.

Mr. and Mrs. C. C. Hancock and family spent Sunday afternoon with Dr. and Mrs. J. C. Hancock of Fulton.

Mr. and Mrs. Jim Hicks spent Monday with Mr. and Mrs. Jessie Hicks.

Mr. and Mrs. Calvin Hicks and son spent Sunday with Mr. and Mrs. Cletus Binford of Crutchfield.

Miss Hilda B. Hicks of Memphis is visiting her mother, Mrs. Kerrie Hicks and family.

Mr. and Mrs. Dentis McDaniel and son moved to Clinton Thursday. Mr. McDaniel is now county school superintendent of Hickman county. He has been principal of Beelerton high school for the past four years.

Mrs. Auzie Phelps and Misses Jean and Hilda B. Hicks spent last Monday in Murray.

Mr. and Mrs. Homer Weatherspoon and Dan spent Sunday with Mr. and Mrs. W. B. Weatherspoon.

Mr. Raymond Bostick of Detroit spent last week with his father, Mr. John Bostick and family.

INDIGESTION

may affect the Heart
Gas trapped in the stomach or colic may act like a hair-trigger on the heart. At the first sign of distress start use of the heart. No laxative but made of the fast-acting medicine known for acid indigestion. If the FIRST Dose doesn't prove itself a better, return bottle to us and receive DOUBLE MONEY BACK. 25c.

Glen White, who joined the Navy about four months ago and has been stationed around the Great Lakes, is now visiting his parents Mr. and Mrs. R. C. White, for a few days.

Miss Elaine McAlister of California, who has been visiting her grandparents, Mr. and Mrs. Dick McAlister for several weeks, left for her home Monday morning. She was honored with a farewell party Saturday night at the home of Mr. and Mrs. McAlister.

ROUTE FOUR NEWS

John Lee, Frank, Sidney and Rosemary Whisenant have returned to their home in Dallas, Texas, after spending the summer vacation here with Mr. and Mrs. Lee Herrin.

Mrs. T. B. Latta, who has been confined to her bed for the past several weeks following two severe heart attacks, is slowly improving.

Russell Brown and family have gone to Charles City, Iowa, to make their home. Their farm was purchased by Clois Latta.

Mr. and Mrs. Edward Benedict and sons, Fred and George, of Clinton, were Sunday guests of Mr. and Mrs. A. E. Gwynn.

Mrs. Will Finch of Fulton, Mrs. Vava Dancy and son, Thomas of Toronto, Canada, Mr. and Mrs. Mack Finch of Doniphan, Mo., Will Hardison of Round Lake, Fla., Mrs. A. E. Gwynn and George Benedict were guests of Mr. and Mrs. Lee Herrin at the old Watkins home Friday.

Mrs. Clara Wilson is recovering from a recent operation at the home of her daughter, Mrs. Leroy DeWeese.

Mrs. Bert Campbell, formerly Miss Capola Dodson, and two daughters and Carl Dodson of Waukomis, Okla., visited Mr. and Mrs. T. B. Latta and many old friends here last week. They will be remembered as the children of Dr. and Mrs. J. A. Dodson, and lived here during the early part of their lives. The father, now deceased, was a practicing physician in this section for many years.

MT. CARMEL NEWS

Mrs. Charles Enge of Louisville is visiting her parents, Mr. and Mrs. Walter Tuck.

Mr. Hayden Donoho remains about the same. He is able to be up some now.

We are very sorry to hear of the death of Mrs. Baxter, mother of Mrs. J. C. Lawson. She died while visiting her daughter in Florida, and was brought back to Jackson, Tenn. for burial.

Visitors of Mrs. Henry Walker Sunday were Mr. and Mrs. Jim Dawes and children and Mrs. Eugene Bondurant and son, Joe.

Miss Ruth Byars received word this week of the sudden death of a very dear friend, V. O. Stamps of Dallas, Texas. He had many friends in and around Fulton who will be sorry to hear of his death.

Mr. Stamps was a well known song writer and had devoted his life to gospel singing.

Mr. and Mrs. L. C. Byars and family enjoyed a birthday dinner Sunday given by Mrs. J. W. Thomas in honor of their son, Jerre, on his sixth birthday.

Mrs. L. C. Byars is suffering from an infection on her face.

Mr. and Mrs. "Boss" Parham visited Mr. and Mrs. Layman Bard.

HAY FEVER VICTIMS

Millions of Americans look with dread upon the hay fever season—a season of sneezes, wet eyes and blooming noses. In the peak period, August to frost, the glamorous movie star can match sneeze for sneeze with the wayside tramp, for hay fever is no respecter of age, sex or position.

Response to treatment has been gratifying in recent years, say medical experts at Battle Creek sanitarium, and victims who cannot seek out lands of partial immunity have increased the roll of sanitarium patients.

Daniel Webster, who endured severe attacks yearly, called hay fever a "depressing and discouraging disease." Other great and near-great have used more picturesque language in describing the malady, about which public misconception is widespread.

Many think the 125 pollen-shedding species of goldenrod are the only plants causing it, but the experts say the homely dust-covered ragweed causes some 85 per cent of the late summer hay fever attacks east of the Rockies. Other villains are timothy grass, corn, cocklebur, thistles, sagebrush, sunflowers and various trees. Most early spring

hay fever is said to be caused by the pollen of trees; in a few instances by dandelions. Later in the season it is generally caused by the pollen of grasses and certain weeds.

Medical records show that the hay fever cavalcade begins moving toward places of treatment in July and swells to full force by mid-August.

Because the chickens were declared a health menace to neighbors, Charles A. Clark's household in Columbus, O., was ordered by the court to eat two chickens a day for the next 30 days.

When two-year-old Thomas O'Donnell of New York City fell from a third-story fire escape recently he

KIDNEY STAGNATION IS WORSE THAN CONSTIPATION!

Because We Treat Constipation at The Onset, While We Neglect Our Kidneys Indefinitely

No other organ in your body is of more importance than your kidneys. For in your kidneys there are nine million tubes which must work day and night to filter the fluids and keep the system free from wastes, acids, poisons which, if permitted to remain, may cause serious kidney and bladder troubles.

It is no wonder then that Nature often calls for help to clean out the kidneys. So if you are troubled with Getting-Up-Morning, Leg Pains, Backache, Nervous Headache, Dizziness or Loss of Energy, due to functional kidney disorders, try KIDANS, the famous kidney remedy, which aids Nature to flush out the kidneys, to filter all wastes, to prevent kidney stagnation.

KIDANS is Safe and Reliable. Thousands report entire satisfaction. Taken according to directions, KIDANS will give splendid results. Try KIDANS. Buy it at our Special Price Offer on two boxes. Use one box. If not satisfied, return unopened box and GET YOUR MONEY BACK.

If your local druggist cannot supply you, send \$1.00 to The Kidans Company, Atlanta, Georgia, for two full-size boxes on a money-back guarantee.

landed in a canvas chair in the yard below and suffered only a few scratches and bruises.

On the complaint of his neighbors,

John Marchlewski of Wilmington, Del., who talks in his sleep after he's had a few drinks was placed on parole for a year on the understanding that he quit drinking.

FULTON PASTEURIZED PURE MILK CO.
FOR YOUR HEALTH'S SAKE

WE'RE READY
...and big enough to do the Job!

*** America is busily engaged in building a defense of her freedom

THIS freedom of ours—freedom of action, freedom of thought, freedom from fear and oppression, freedom of enterprise—is the most precious thing in the world to protect.

Electric service will play a big part in this great program of strengthening our defenses. Your electric company is ready NOW to do its full share in any task this community may be called upon to perform.

We're ready because for years we have planned far in advance in order to meet your ever-increasing demands for electrical service.

Because of this we have built power capacity in advance of any demands in the community.

To assure constant power under all conditions our several sources of elec-

tricity are linked together so that the switch at your finger-tip controls power from many sources. If one should fail, it is but a split second until a new source of power is at your bidding.

The highly skilled and trained staff of people who have built up your electric service, and who are serving you from day to day, are eager for any new task.

It is through these people, and this marvelous system of inter-connected power plants and distribution lines they have built, that we are ready to do our part.

Meanwhile, we have not forgotten that our job in the future, as in the past, is to improve our service and its usefulness to you, and bring more of the good things of life to more people at less cost.

KENTUCKY UTILITIES COMPANY

Big Program of Entertainment at Fulton

DAIRY SHOW

The Dairy Show will be open to farmers in the KentTenn territory, which includes Fulton, Hickman, Weakley, Obion, southern Graves and Carlisle counties. Entry books will close on Friday and all entries must be at the show barn by 9 a. m. Judging will be done by Professor George Harris, head of the Dairy Department, University of Kentucky.

\$210.00 will be awarded in prizes to the winners in Grade Heifers and Cows, 7 lots; Purebred and Registered Heifers and Cows, 6 lots; Purebred Jersey Bulls, 7 lots; and Championship Rings in 4 lots.

4-H CLUB AND FARM BUREAU

The annual 4-H Club and Fat Hog and Cattle Show will be held on Thursday, August 22, in connection with the Farm Bureau picnic. Prizes will be awarded in the following:

Baby beef class, grand champion class, economic production class, fat hog class, grand champion class, including sows over eight months old and gilts under eight months old, and record books.

Prizes for the 4-H Club girls will go to the best in clothing, divided into four units; canning, divided into two units; and food, in 1 unit.

POULTRY SHOW

The Poultry Show is open to all breeders of the KentTenn territory, with owners bringing entries to the grounds on Thursday. All entries

must be made and all birds in coops by 6 p. m., Thursday, August 22, and must remain on exhibition until 3 p. m. Saturday, August 24.

Judging will be based on health, vigor and vitality, egg producing ability, body type and conformation, uniformity of exhibits, and uniformity of color markings. \$100.00 in cash and other premiums will be given.

The show is open to the following classes of poultry: Barred Rocks, Rhode Island Reds, White Rocks, New Hampshire Reds, White Wyandottes, White Leghorns and Turkeys.

MODEL AIRPLANE SHOW

A model airplane show will be staged on Friday morning at the KentTenn Exposition here next week and will be open to any size, make or model of plane, as long as it was built by the person making the entry. A model airport will also be on exhibition, with hangar, runways, etc.

Both gas motored and rubber-band powered models will participate. Solid models, scale models and flying models may be entered. The grand prize will be a Soaring Eagle plane, with six-foot wingspread. Other awards will include cash.

A real plane will be here during the day to do stunt flying and to carry passengers.

SLINGSHOT CHARLIE

"Slingshot" Charlie Taylor, who has been famous for many years for his ability to hit targets with a slingshot that most people would miss with a rifle, will be in Fulton during the KentTenn Livestock and Poultry Show next week, and will give his famous marksmanship acts on Thursday night.

A Remington sharpshooter will also be present and will give an exhibition of marksmanship. Competitive shooting matches will be staged between the slingshot and the rifle.

PEIPING'S MANY NAMES

Many of the world's capitals and other important cities have seen their names changed in recent years and it would take much space to enumerate them all. But perhaps no city in the world has had its name changed so often as Peiping, China, formerly known for 519 years as Peking.

Peiping is not really a new name for the city, but an old one restored, for it was known as Peiping before it was called Peking. The many changes in the city's name were made by conquerors who ruled the city at various times during its long, and largely unrecorded history.

HOUSEHOLD SCRAPBOOK

By ROBERTA LEE
Mucilage Substitute

Quite often when one is in a hurry to mail a letter, there will be but one stamp and it has no mucilage on its back. In this predicament all necessary is to moisten the mucilage flap on another envelope, run the stamp over the dampened part quickly, then place on the letter to be mailed.

Mending A Cracked Range

A crack on the inside of a range can be mended by using a filler made of equal parts of common table salt and wood ashes, moistened with water to the proper consistency. The filler will dry hard and will be lasting.

The Hanging-Basket

A novel way to water the hanging-basket, without spilling water on the floor, is to insert a small funnel in the dirt, as near the center of the basket as possible, and hidden by the foliage. Fill this funnel with water every day, and it will soak into the soil gradually.

Testing Coffee

A way to test the quality of coffee is to put a spoonful in a glass of cold water and add a few drops of lemon juice. If the coffee is pure it will remain on top of the water; if not, the water will become brown in color.

The Patch Bag

A most practical patch bag can be made from a yard or two of mosquito netting. This enables one to see the contents from the outside, and there is no necessity for emptying the entire contents to find the exact piece of goods wanted.

Pouring From Cans

The secret of pouring liquid from a can is to make holes in the can instead of one, about an inch apart. The one hole is for the liquid to pour from, the other to let the air into the can.

The Door Key

That important door key will not be evasive any more when the housewife returns from the grocery, if she will sew a large-sized dress hook inside her handbag, near the top, on which to hang the key.

Sewing Room Hint

Cut the strips containing buttons and button holes from discarded garments and use them under fays in new garments. This will save much time and labor.

To Clean Playing Cards

Soiled playing cards can be cleaned by dipping a small sponge in spirits of camphor and rubbing the cards gently. This will restore the newness.

A Convenient High-Chair

If four rubber-tipped door stops are screwed into the legs of an ordinary chair, it will make an ideal high chair for kitchen work, or for a small child.

Ink Stains On Hands

A solution of peroxide of hydrogen containing a few drops of ammonia will remove ink stains from the hands.

A taxi driver in Washington found an artificial right leg wearing a sport shoe, sock, and grey trouser leg in the back seat of his cab.

WHO'S GOING TO SACRIFICE WHAT?

The American people, driven by the need for military security, must build a military establishment costly beyond all precedents. An incredible proportion of the national income must be taken from the pockets of the people and diverted to government. All of us will have fewer luxuries. All of us must conserve. All of us must sacrifice.

That is clear enough and reasonable enough. But it has become tragically plain that a very substantial portion of the American people have the idea that the other fellow should make most, if not all of the sacrifices. It's the other fellow's standard of living which should suffer, not their own. It's the other fellow who should pay the bill and do the work, while they go on much as they did before.

Certain influential segments of labor, for instance, demand still higher pay, shorter hours, excessive extra pay for overtime, and other special privileges and prerogatives for the workman, despite the fact that pay is now the highest and the work-week the shortest in history. Their argument is that industry must sacrifice more of its profits in the interests of labor, while the worker grows fat off the national emergency.

A certain segment of industry follows a similar course. Even as it makes profits of an unusual size, it works to reduce the share that goes to labor, and it works to get more bounty for itself out of government in one way or another. It too believes in sacrifice—as long as the other fellow does it.

Those who have gone on government relief as a career favor sacrifice, too—so long as it doesn't touch relief appropriations. The government, under the guise of "relief," still pays out millions for leak-raking, boondoggling and other completely non-productive activities. Powerful influences demand that not one nickel of this waste be eliminated, no matter how much others sacrifice to pay it, or how dire the menace the country faces.

The professional politicians talk much of sacrifice, in noble words. But it is a rare politician who is willing to sacrifice one thin dime of patronage that might cost a vote to support a principle. Money still goes out for farm relief schemes foredoomed to failure—for unnecessary tax-built and tax-subsidized government electric plants, for government credit schemes of all kinds, and for a thousand and one purposes which are in no way a true function of government, but which are prolific sources of votes and power. The self-seeking hand of politics handicaps a real defense program which would get maximum results with a minimum of waste and money.

Who is going to sacrifice what? That is the question that America faces today, if national security is to be a reality, not a mirage. The answer is plain. All must sacrifice, all must contribute their fullshare. The other fellow isn't going to do it for us. Selfish interests now at play in America, whether they be in labor, industry, or government, are the real fifth-columnists within our gates.

BRITISH TAXES

An illustration of the sacrifices a people must face to carry on a modern war is seen in the present taxes levied on the people of Great Britain. There the base income tax rate is 42.5 per cent, while in the United States it is still only 4 per cent for individuals in the lower income brackets.

British corporations pay 42.5 per cent of their net income, besides an excess profits tax which takes 100 per cent of their income above that earned as an average in previous years. In the case of individuals, income exempt from the income tax is only \$500, and surtaxes run to 90 per cent of all incomes above \$80,000 a year.

On top of all this, Britain imposes a sales tax of 12 per cent on all goods except food, and a 24 per cent sales tax on a package of cigarettes is 29 cents.

The British government has figured that if it confiscated all individual incomes over \$8,000 it would collect only about 280 million dollars a year more than it does now.

The foregoing will give some idea of the burdens the British are bearing in their efforts to save civilization from Hitler, to say nothing of their losses of life and limb, or the mental anguish which they suffer day and night. They are really fighting our battle as well as their

own. Surely the United States should give all possible aid—except man-power, which they do not ask or need.

To shoo away flies, the cow of Clifford Bantleon of Edwardsville, Kan., uses a piece of frayed rope "grafted" to the stump of what was its tail before it was frozen off.

Sheriff Roy Chadwick reports that three times burglars ransacked the peace officer's office in Mayfield,

N. Y., and stole the district attorney's gun.

Anger manages everything badly. A boaster and a fool are two of a school.

Hypocrisy is the homage which vice pays to virtue. A fault confessed is half redressed. He that is not wise will not be taught.

Better lose your labor than your time, in idleness.

MAJORITY OF SICK NEVER SEE INSIDE OF HOSPITAL

Those Suffering Most Go Through Life Enduring Needless Agony and Misery Without Medical Aid.

An auto accident—a broken leg—the screech of ambulance—the patient is taken to a modern hospital—a short period of suffering and pain and then three weeks of luxurious attention.

There are millions of people who are in a lot worse shape than this accident victim, who never see the inside of a hospital. Some of them have gone for years suffering the agony and misery which often accompanies a run-down system, especially when sluggish digestion, incomplete elimination of poisonous wastes, lack of red coloring matter in the blood cells, and jumpy nerves due to Vitamin B-1 deficiency are making a wreck of their lives.

If these conditions are allowed to continue indefinitely they may turn to serious organic troubles requiring lengthy and expensive treatment by the best doctors, but if these conditions prevail and are not due to organic troubles, the new and improved Sargol General Tonic is just what is needed.

See your doctor to be confused by limited

In their action to a purely stimulative effect. When the new and improved Sargol increases the appetite and rest for living, it does its work by aiding certain vital organs and fluids of the body so they will perform their proper functions as Nature intended.

Sometimes Sargol Soft Mass Pills are a necessary part of the Sargol treatment. Where they are needed they should be taken daily in connection with Sargol until regularity of bowel movement has been established. Then stopped.

The new and improved Sargol Tonic is the latest addition to a line of medicines that have been used by millions during the past fourteen years. SARGOL has a distinct, pleasing wine-like taste and can be taken freely by all until desired results are obtained. SARGOL'S value is so pronounced, that if you don't get the utmost benefit from its use, the purchase price will be immediately refunded.

Try SARGOL—Recommended by your neighbors and guaranteed by leading druggists everywhere.

CRUTCHFIELD NEWS

Mr. and Mrs. Marvin Lowry spent Saturday night and Sunday with the latter's aunt, Mrs. J. W. Noblin and Mr. Noblin.

Mr. and Mrs. A. C. Hicks and children, Mr. and Mrs. Wayne Hook and children, Mr. and Mrs. Truman Hicks and children, all of Campbell, Mo., were the Sunday guests of Mr. and Mrs. Dolan Myatt and other relatives here.

Mrs. T. E. Murdaugh returned to her home in Selmer, Tenn., Monday after a week's visit here with her parents, Mr. and Mrs. Dee Wade and other relatives.

Mrs. George Ferguson returned to her home near Crystal Sunday after a few days visit here with her son and family, Mr. and Mrs. Clarence Disque and family. She was accompanied home by Mr. George Ferguson and sons, John and Duke, who spent the day there.

Mr. and Mrs. Ira Roberson and children of near Hickman have moved to the rooms vacated by Mr. and Mrs. Slim Sadler. Friends extend them a hearty welcome.

The Methodist revival meeting will begin Sunday, August 25, with Rev. Hopper conducting the services. The blind xylophone player Mr. Arthur Barber of Memphis, will conduct the singing. Everyone is cordially invited to attend.

Misses Maude Bellaw, Marie, Nannie and Gladys Moore, Mr. Leaman Elliott spent Saturday in Memphis.

The Baptist revival came to a close Thursday night of last week with a series of good services and four new additions to the church. They were Mr. and Mrs. Marvin Lowry, Lucille Williamson and Paul Thomas Brown.

Mr. and Mrs. Arlie Batts spent Sunday in Fulton as the guest of the latter's brother, Mr. John Thompson and Mrs. Thompson. Mr. Thompson who underwent a serious operation, is reported better.

The Ladies Missionary Society of the M. E. church met for their regular monthly meeting on the lots vacated by the Section houses. Those present were Mesdames Claude Curtsinger, Alvin Hopper, John McClanahan, Bryant Kearby, Percy Veatch, Chester Turner, George Elliott, Lincoln Haynes, Marshall Finch, Jess Cashon, Harry Rice, Misses Reva Moore and Frances Kearby. The meeting adjourned to meet at the same place next month.

Miss Joan Ann Lowry of Akron, Ohio, is spending a few days with her parents, Mr. and Mrs. Hub Lowry.

ENON NEWS

Mrs. Cleveland Bard spent the week end in Bardwell with relatives.

A surprise birthday dinner was given Mrs. Edgar McMorris, Sunday. A large number of relatives and friends attended.

Mr. and Mrs. Glenn Dillon spent the week end near Crutchfield with Mr. Simp Seat.

Mr. and Mrs. Thomas Robey spent the week end with Mr. and Mrs. N. F. Wilkerson.

Miss Margie Wilkerson visited Miss Dorothy McAlister last week. Mr. and Mrs. O. D. Cook attended the birthday dinner of Mrs. Edgar McMorris Sunday.

Mrs. Herbert Howell attended church at Union Sunday and was a dinner guest of Mr. and Mrs. J. R. Powell and Mrs. Fannie Powell.

Quite a few attended the Baptizing at Mrs. White's Sunday afternoon.

Mr. and Mrs. W. M. Smith spent Sunday at Mobley's camp ground.

Miss Mignon Platt visited Miss Margie Wilkerson Monday afternoon.

Mrs. Ralph Brady and her guest, Mrs. J. R. Powell, spent Tuesday near Mayfield.

PEOPLE WANT DEFENSE, NOT WAR

A financial authority recently made this significant observation: "Let us be on guard against the building of a war hysteria. Let us keep it clearly in mind that what we are talking about is defense and not going to war. This is the time for clear thinking rather than emotional thinking."

The standard polls indicate that while the American people are almost unanimously in favor of adequate preparedness, they are also overwhelmingly opposed to belligerent participation in the European slaughter.

Industry does not want war because, if for no higher reason, it knows from its experience in the last World War that it results in ruinous taxation and depression. It will do all in its power to avoid war—even while it does all in its power to make our defenses so strong that all aggressors will hesitate at bringing war to us.

Wise men learn by other men's mistakes, fools by their own. Better alone than in bad company.

ECONOMIC HIGHLIGHTS

The pattern of Hitler's projected world revolution steadily becomes more clear. It is apparent to anyone that this is not a war in the traditional sense, in which Germany if she wins, will be satisfied with reparations and colonies and economic power. What the Nazis obviously intend—despite their occasional protestations to the contrary—is the complete and final destruction of the British Empire, which for hundreds of years has held the balance of power in Europe and a large part of the rest of the world. And following that, if the Führer's astoundingly frank Mein Kampf is to be believed, the rest of the democracies will receive similar treatment. Nowadays, the only democracies left, save England, are the American Republics. And of the American Republics, only the United States possesses sufficient wealth, resources and potential armed strength to be a serious obstacle to the aims of National Socialism.

Men who were once close to Hitler have been describing what he plans if and when England falls and the glittering Empire on which the sun never sets crumbles away. They say that Hitler has no intention of launching an immediate military attack on the United States and the New World. If he did that, he would be courting disaster—the tactical obstacles in the way are gigantic, no matter how great his military and naval power. And Hitler and his high-ranking advisers seem to feel that the U. S. can be conquered simply and easily. First planned step, according to reports, is to court U. S. good will, by offering us favorable economic agreements. This is designed to lessen our suspicions, and to create public opposition to spending more billions for national defense. At the same time, the Nazis, as quietly as possible, will carry on their economic penetration into Latin America. Next technique will be undercover work to create dissension within this country—to set group against group, race against race, class against class, and thus to make genuine national unity impossible. Nazi propaganda chief Goebbels and Nazi philosopher Rosenberg, judging by their speeches and writings, seem to believe that this can be done with little trouble. They have said time and again that the U. S. is ripe for revolution, and only a competent directing hand is needed to bring it about when the time comes.

Finally, if it becomes necessary, Hitler's great armed forces will attack us—depending largely upon internal unrest and disunity to make the job of his sailors and soldiers and airmen comparatively easy.

This sounds fantastic, but it seems to be the Nazi plan, and Hitler realizes that if he is to achieve a world revolution unprecedented in history, he must have allies. It must be admitted that he has so far been extremely successful in getting them. It was said for years that National Socialism would come a cropper when it ran into its old arch foe, communism. But today German-Russian relations are apparently of the best, and Soviet spokesmen have been denouncing the U. S. and England and praising the Reich. Italy was a world ally today—today she is Hitler's partner, and Fascist authorities have been extremely outspoken concerning Axis plans for dismembering England and giving the U. S. a dose of harsh economic medicine. Last Japan—also a world war ally seems to have gone Axis-ward whole hog. The new government is pro-Fascist, and 100 percent anti-Democratic. English rights in the Far East are being ruthlessly abrogated, and Britain had to swallow a humiliating pill recently when she agreed to Japanese demands to close the Burma Road, principal source of supplies for beleaguered China. And Japanese-U. S. relations have rarely been in a worse state.

According to Nipponese authorities, Japan will pursue her "Asia for Asiatics" policy—a policy which is about as cruel and imperialistic as any in history—whether we like it or not. U. S. protests will not be seriously considered. And say the Japanese sword-wavers, the Land of the Rising Sun will go to war with us if necessary. So far as Europe is concerned, Japan is solidly in favor of German-Italian plans and actions.

American naval authorities have lately said that our navy could destroy the Japanese fleet in a few weeks in open warfare. But, if we went to war in the Pacific, the Atlantic would be wide open to the Axis, and we would be in no position to adequately fight Nazi-Fas-

ci economic aggression south of the Rio Grande. That explains why most authorities believe we will do little even if Japan does seize Indo-China, property of totalitarian-ruled France, and the Dutch Indies. Moral pressure is about all we can afford to use right now—and moral pressure gets few results in the world of today.

If Britain is able to survive Hitler's attacks, the pictures will be drastically changed. The U. S. as a democracy will not fall if England falls—but the future of democracy will be immeasurably brighter if England lives.

HOW CAN I?

By ANNE ASHLEY

Q. How can I drive a nail into plaster without marring the wall?

A. This can be done without crumbling the plaster if the nail is placed in hot water for a few minutes, or dipped into melted paraffin.

Q. How can I launder a man's ties successfully?

A. Before washing the ties, baste them carefully to prevent the lining or padding from becoming lumpy. Remove the basting before ironing and the ties will look as when new.

Q. How can I make a good toilet perfume?

A. A good toilet perfume can be made by mixing two ounces of alcohol with one-half ounce of orrisroot. Keep in a bottle tightly corked, and shake well before using.

Q. How can I test eggs for freshness?

A. Place the egg in a pan of water. If fresh, it will lie on its side. If a few days old, it will tilt upwards. If stale, it will stand on end. If very old, it will float.

Q. How can I separate a water glass that has become stuck inside of another glass?

A. Pour cold water into the upper glass to contract it, and then immerse the lower glass into warm water to expand it. They can then be separated very easily.

Q. How can I make a good furniture polish?

A. A furniture polish can be made of one part vinegar, with equal parts of linseed oil and turpentine.

Q. How can I remove a broken cork that has slipped down into the bottle?

A. Pour in enough household ammonia to float the cork, let it stand for a few days, and the cork will break into fine pieces, which can be removed without difficulty.

Q. How can I tighten the handle of an umbrella that has become loose?

A. Fill the hole in the handle with powdered resin, heat the rod, and then press firmly into the hole.

Q. How can I remove a rusty screw?

A. Heat a poker or spike red hot and apply it to the head of the screw. When the screw has become hot, it can be removed very easily.

Q. How can I relieve sunburn?

A. One of the very best remedies is to mix two parts of limewater with one part of linseed oil, beat it to the consistency of cream, and apply.

Q. How can I remove the socket of an electric light bulb, when the glass bulb has broken off?

A. This can be done by pressing a large cork firmly into the socket.

Q. How can I mend a tear in a kid glove?

A. Buttonhole around the edge of the tear before drawing together. Then over-sew the buttonhole together and the repair is substantial.

SPECTACULAR CRIME CAREER OF DALTON GANG IS DRAMATIZED

"When the Daltons Rode," Universal's saga of frontier America, in the days of the celebrated Dalton gang, comes to the Fulton Theatre next Sunday with Randolph Scott and Kay Francis heading a distinguished cast.

Based on the exciting book of the same name, the film traces the careers of the Dalton boys as ranch owners who are led into spectacular crime by the persecutions of a land company.

Double Hold-up

The story reaches a climax with the historic raid on Coffeyville, Kan., in 1892, when the gang was destroyed while staging the West's only double bank robbery.

Miss Francis, portraying the first action role of her career, appears as the winsome telegraph operator of Coffeyville, a character based on the real-life sweetheart of one of the Daltons. Scott plays a frontier lawyer who befriends the Daltons and helps bring the land company agents to justice.

The four Daltons are portrayed by Brian Donlevy, Broderick Crawford, Stuart Erwin and Frank Albertson, while Andy Devine has what has been described as one of

his best roles as the Dalton's girl-chasing ranch hand who joins the gang in their maraudings.

Well Known Talent

Other important roles are played by George Bancroft as the rich man of the town and by Mary Gordon as the mother of the Daltons; also in the cast are Harvey Stephens, Quen Ramsey, Edgar Deering and others.

George Marshall directed "When the Daltons Rode" from a screen play by Harold Shumate.

Of all farm expenditures, records show the largest amount, 17.5 percent, goes for labor, followed in order by food, 11.8 percent; feed, 7.3 percent; clothing, 6.7 percent; taxes, 5.4 percent; transportation, 5.1 percent. All other expenditures amount to only 46.2 percent of the total.

The mowing machine is one of the best fertilizers for the pasture. It's neither safe nor sound to plan to buy high-priced food and feed with low-priced cotton and tobacco.

"UNCLE DICK" BRABOY REGAINS 15 POUNDS

Widely Known Farmer Says He Can Follow A Two-Horse Plow Now, And Still Feel Good. Gives Retonga Credit.

Born and raised in Trigg County, Mr. R. T. Braboy, Route 2, Cadiz, Ky., is known throughout the surrounding country as "Uncle Dick," and his word is his bond with anyone who knows him. Mr. Braboy now adds his good name to the thousands who praise Retonga.

"My appetite was gone and the few bites of food I forced down seemed to form heavy lumps in my stomach," says Mr. Braboy. "I had to take laxatives regularly and I felt like I was full of toxic wastes. Between eating so little, and the bad effects of constipation, I got weak, run down, and had headaches, backaches, and other pains due to those troubles. One time I was in bed three months."

"Retongt began relieving me

right away, and now my bowels are regular. My appetite and digestion are splendid and I have regained fifteen pounds. I have followed a two-horse plow many days this summer and come in feeling fine. I never spent money to better advantage in my life than when I got Retonga."

Retonga is a purely vegetable gastro tonic and mild bowel stimulant, for the thousands of men and women who need such a medicine. Get genuine Retonga today at DeMyer Drug Store.

"Behind the Scenes in American Business"

BUSINESS—In view of the general recognition that the pace of national defense goods production is the chief governing factor in the state of business, news that the "log-jam" which has held up aircraft procurement apparently has been broken up is of prime importance. An agreement has now been reached between the government and the aircraft industry that will allow for awarding contracts and immediate undertaking of production—without waiting for enactment of the new tax bill covering excess profits. Within a few hours after the agreement was reached it had borne fruit, in the form of an \$11,000,000 contract with one firm for 700 planes and other contracts were expected to be signed within a few days. These would involve about a dozen other aircraft, accessory and engine manufacturers, for production of approximately 4,000 ships for the air corps—at a complete cost of around \$400,000,000. This development will almost surely open the way for similar arrangements with respect to production of many other kinds of munitions.

WASHINGTON—Just what does all this national defense plant-building and equipment-installing mount up to? Government economists have just surveyed the whole scene, and come up with the estimate that plant expansion and new equipment purchases of industry for 1941, will be right around \$3,000,000,000—as the result of the defense program. Such figures, of course, are always merely relative. It makes them more meaningful when it is explained that this is about one-third more than was spent, on the average, in the years of the last decade—and about three times as much as for the low years of 1932 and 1933, when capital outlays for new plant and equipment dropped below a billion. And if it finally becomes necessary to create brand new industries to supply Uncle Sam with rubber and other strategic materials now mostly imported, the expenditures may go well beyond that \$3,000,000 mark.

PENNY SAVED, PENNY EARNED—That's the tried and true philosophy Mrs. Melville Mucklestone, president of the National Consumers Tax commission, applies to our problem of paying for armaments. According to a study made by this women's tax-education organization, the millions Uncle Sam must

have for arming can be returned to taxpayers' pockets by local government officials—by adopting modern efficient governing methods as the "contribution" to the defense program. Just two money-saving techniques—centralized purchasing and sound civil service control—would save enough tax money annually to pay for 8,000 pursuit planes and nearly 6,000 tanks. In a message transmitting results of the study to the quarter-million NCTC members in 45 states Mrs. Mucklestone, a past national president of the American Legion Auxiliary, urged the women to a renewed drive for efficiency and economy in local government "as a patriotic duty."

BITS O' BUSINESS—Nation-wide check by National Retail Dry Goods association brings prediction that September-November season will bring seven per cent sales increase. Largest contract yet signed under national defense program is just announced—with Chrysler corporation, totaling \$53,500,000, with 20 of those millions for plant and equipment, the balance for tanks; expected to be in quantity production in a year... it's estimated automobile production for the 1940 model year, now closing, was 4,164,693 units—which is nearly 23 per cent more than in preceding model year; dealers are now moving stock at extreme sacrifices to clear their floors—leading employers of Santa Barbara, Cal., hold payday Monday instead of traditional Friday or Saturday—on suggestion by the credit bureau that thus the temptation of week-end spending would be lessened and more bills would be paid.

INDUSTRIAL UNITY—As fellow members of the distilled spirits industry, the nation's distillers, rectifiers, importers and wholesalers have many common problems. Among them is maintenance of sane relations with governmental authorities by way of protecting the industry against regulations which they feel unnecessarily restrict normal business operations without contributing to the public interest. Proposals for an industry-wide organization were first broached last spring when Schenley Distillers corporation withdrew from the Distilled Spirits Institute, an organization representing distillers alone. Schenley's action was followed shortly by the resignation of Dr. Wesley Sturges as executive director of the Institute, and this latest step has resulted in conversations regarding a broader organization. President Theodore P. Walker of Commercial Distillers corporation, who is in charge of the present discussions, says the proposed association would not attempt to replace the Institute, but would deal with industry-wide problems.

THINGS TO WATCH FOR—A diminishing-size cigaret package, having four sections of five ciggies each, and detachable so that as pack grows smaller the fags still are held more or less upright in their own compartments.

A MESSAGE TO CREAM PRODUCERS

The federal law regulating the sale of butterfat or cream from dairy herds is certain to bring regret to many producers in this section unless steps are taken by them to improve their methods of handling and prompt delivery to cream stations.

This new federal act places serious restrictions on the purchase of cream from producers in the South, and warning is being issued by Armour & Company, Swift and Company, and other cream buyers, that improved methods of handling must be introduced. Otherwise, this section, like many others, stands to lose many thousands of dollars from the sale of butterfat.

It is predicted in some circles that many communities will lose their cream buying stations, because they will be unable to operate, unless they can obtain cream that comes up to the standards set up by the federal goods act.

Dairying and the sale of cream to stations in this area has become a major industry. It would be a serious loss to have hundreds of farm homes to lose the cash incomes that are realized weekly from the sale of butterfat. So now is the time to face the situation, and take definite steps that will improve the quality of cream delivered.

New methods are being studied and introduced. If you sell cream, ask your buyer about what to do to improve your cream; then follow the instructions for your own sake before this industry suffers a great loss in this area.

Read the following notice issued

to the butterfat industry this week: W. G. Campbell, Chief, Food and Drug Administration, issued the following notice to the butter industry this week:

"For a number of years the Food and Drug Administration has studied the significance of mold mycelia in butter in relation to the quality of cream from which the butter is manufactured. These studies, completed in the summer of 1939, showed conclusively that a high mold mycelia count in the finished butter never occurs unless some of the cream was to a material degree filthy, putrid, or decomposed. Butter made from such cream is considered to be adulterated within the meaning of the Food, Drug, and Cosmetic Act.

"The Administration has instituted actions in the past against interstate shipments of unfit cream, and butter made from such cream. The butter industry as a whole has welcomed these actions as encouraging the production of more wholesome food. The Administration expects to continue legal actions against unfit cream and butter. In addition to other recognized

methods it will use the Wildman mold mycelia count method to determine whether unfit cream has been used in manufacturing butter.

"Experiments and observations under commercial conditions indicate that where good sour cream, produced and handled with reasonable care, is used for churning, the mold mycelia count of the butter will be well under 60 per cent. The goal of all manufacturers should be elimination of all unfit cream. There is evidence that careful manufacturers may, without serious difficulty, produce butter showing mold mycelia counts in the neighborhood of 20 per cent.

MOTORCYCLE RACES AND RODEO

A big four hour show, consisting of Motorcycle Races and Rodeo, will be presented on Saturday afternoon at the Ken-Tenn Exposition, which will be held at the local fairgrounds August 22, 23 and 24, sponsored by the Young Men's Business Club of Fulton. The show will begin at 2 p. m. and is packed full of speed, thrills, spills and chills. A

feature of the program will be skillful clown and trick acts.

The opening event will be a Grand March of motorcycles, when each individual rider will be introduced, followed by the following: 1-mile race, with 8 entries; acceleration race, with 8 entries; pie-eating novelty race, with 8 entries; relay race, two teams composed of 8 riders each; load-carrying race, 4 motorcycles; loading a motorcycle, showing how 12 men can mount and ride one motorcycle; acrobatics on T-Bars mounted on motorcycles; terraplane race, motorcycles pulling

regulation surf boards mounted; obstacle race, with 8 entries racing through obstacles scattered throughout the track; balloon bursting contest; cigarette race, 8 entries each carrying one passenger; Australian pursuit race, 8 entries starting from equidistant points, each man being disqualified as he is passed by another; 10-mile final speed race, 12 entries; double burning board wa crash, two walls crashed simultaneously by two riders.

A thief broke into Mrs. C. W. Alexander's house in Oklahoma City recently and stole three pillows.

Tidbits of Kentucky Folklore
BY Gordon Wilson, M.D.
WESTERN KENTUCKY TEACHERS COLLEGE
BOWLING GREEN, KY.

THE MOON

If I were a sentimentalist, I could use this subject to induce a romantic mood. But, since I am a folklorist, I had better help you with your farm or garden work.

The moon controls the tides, as everybody knows. From time immemorial people have thought that it also controls other things. Not all people who believe in the moon live beyond the end of the gravel road; right in the midst of cultural areas are people who plan much of their work with reference to the phases of the moon. However, the farm is the moon's special realm.

If you want good root crops—potatoes, beets, radishes, turnips, plant them in the dark of the moon. Likewise, if the edible part of the vegetable is above ground, plant the seeds in the light of the moon. If you are ignorant as to what "light" and "dark" signify, consult the almanac or calendar. When the moon has reached its full and is growing smaller, that is the "dark" of the moon; conversely, after it has passed its dark phase and is becoming brighter each night than it was, you have the "light" of the moon. Watch your next plantings accordingly.

Corn has a queer way of reacting to the moon's influence. If it is planted in the dark of the moon, the stalks are short and stocky; when it is planted in the light of the moon the stalks grow tall and slender. All poor hillside plants, evidently, in the dark of the moon, but the stocky part of the stalk fails to appear.

You should consult the moon when you kill your winter meat. Not all folk ideas agree on the time though, for some people choose the dark and some the light of the moon for this event. It is certain that meat killed in the very best winter weather sometimes fails to keep; it is easy to blame the moon for it, since it would hardly be fair to accuse the government.

The ancient Hebrews were afraid for the moon to shine upon them while they were asleep. This old belief persists in parts of the state. "Moon-struck" madness was commonly believed in when our ancestors left England and Scotland in the early colonial days; hence this interesting survival of an ancient belief.

There are many other moon superstitions, but these represent the ones most commonly known. You had better look at your "Ladies' Birthday Almanac" before cutting out a dress, or planning a journey, or making soap, or laying a rail fence. You might wish you had.

Pepsi-Cola Bottling Co. Fulton, Ky.

THIS LAND OF OURS

(By Charles A. Williams)

"Ours To Do and Die"
When this is printed it is possible that America's first law of conscription during peace time will be called upon to give a certain part of our time to our country. Not in times of war but in times of peace, in preparation for war. Once again men who have passed a law which demands of the youth of our land that they give us their jobs and accept \$21 a month, by force, while the employees of factories receive a high wage, and while capital receives its war time profits.

The proposed law as it now stands, provides that these boys shall have their jobs back. Of course, this is as hard to enforce as it will be hard for us to again adjust ourselves to the general scheme of things in a new world. Why do they not permit us to train at local training points, at least for a part of our period. With our good highways it would be comparatively easy to have a large concentration of troops for training purposes.

There is nothing man fears so much as a change. There is nothing quite so certain as change. There is nothing quite so changed as a nation which changes from a peaceful land to a land devoted to military authority and dominated and dictated thereby. There is nothing, too, quite so certain as the fact that man does not change in his basic principles. The law of force still rules with man. He has not yet passed beyond the law of brute force to the stage of reason. The story is the same old story, today as it was before, and we wonder if it will not always be so.

Today like yesterday, we of the class from 21 to 30, the first to be conscripted, realize that somewhere some of our elders, some of those who ran our government have committed an error and that we must pay. Tennyson's lines (slightly changed) have never applied so well as they do now to us of the first class for conscription.

"Someone has blundered;
Ours not to make reply,
Ours not to reason why,
Ours but to do and die."

Last week I wrote about the importance of having proper and courageous courts enforce the laws pertaining to our conduct on the highways.

In one state the relative importance that judges attach to traffic violations may be gauged from the following table of average fines for common offenses:

Passing on curves	4.52
Possession of short fish	10.78
Inadequate brakes	5.32
Illegal possession of a fur animal	17.15
Hit and run	15.20
Illegal nets	44.44

Can you image such a thing? Traffic violations necessary to the preservation of your life and well being are subordinated to illegal game practices. Will you, who depend on laws and courts for your protection, tolerate such an injustice?

Loan Program Announced on 1940 Crop Cotton

Commodity Credit Corporation loans on the 1940 cotton crop will be available to producers cooperating with the AAA program, the U. S. Department of Agriculture has advised Director C. E. Brehm of the U-T Agricultural Extension Service.

The loan rate will be based on 15-16 inch middle cotton, net weight basis, with differentials for grade, staple, and location instead of on 7-8 inch middle as was the case last year. The reason for the change is that 15-16 inch middle is now the basic description for all future and spot cotton contracts.

The rate for 15-16 inch middle cotton, net weight basis, will vary from a high of 9.90 in the Carolina mill areas to 9.16 in West Texas and New Mexico.

Location differentials in all States west of the Mississippi Alabama line and the western part of Tennessee will be based on the lowest freight rate from the warehouse point to the Gulf ports or mill centers. Lists of approved warehouses and the basic loan rate for each warehouse point will shortly be provided by the Commodity Credit Corporation.

Compared with last year's minimum loan of 8.30 cents for middling 7-8 inch gross weight basis the minimum this year will be 8.51 cents. For middling 7-8 inch staple, it is estimated that the average loan rate this year, taking account of location differentials will be 8.90 cents per pound gross weight, or 56 percent of the parity price for cotton as of June 15, 1940, against 8.7 cents last year. For further information consult your county agent.

POINTERS GIVEN ON CANNING SURPLUS VEGETABLES

The history of vegetable canning goes back only a little over a century, yet in that time even home canning has become scientific, explains Miss Maude L. Guthrie, nutritionist for the U-T Agricultural Extension Service.

For homemakers who want to be sure their methods in canning vegetables, the Federal Bureau of Home Economics gives certain general rules. First of all, be sure your vegetables are fresh. They lose flavor and goodness when they are held over for any length of time. Also be sure to use good quality vegetables, because a bit of decay may spoil an entire batch.

Precook vegetables and have them hot when they go into the cans or jars. Precooking shortens the time processing, and also saves the bother of "exhausting" the cans to get out the air before sealing them. Fill only as many jars or cans as you are able to process at one time. If the cans of warm vegetables are allowed to stand long before processing, the bacteria in them will multiply very rapidly.

Use a steam pressure canner for peas, corn, snap beans, lima beans, and all nonacid vegetables. The only way to be sure of killing all the bacteria in these vegetables is to raise the temperature to 240 to 250 degrees F.

Do not guess at the time or temperature for processing. You'll find a complete time-table and exact directions in Extension Publication 105, "Home Canning, Preserving and Pickling." This publication is available free at the office of your home agent or you may write the U-T Agricultural Extension Service, Knoxville, for a copy.

OLD CAR DERBY

The Third Annual Old Car Derby will be one of the highlights of the Livestock and Poultry Show here August 22, 23 and 24. The Derby will be staged on Friday afternoon at 3:30 o'clock and will be open to all owners of racers whose motors were built in 1931 or before that year.

Entries are being made daily at the Y. M. B. C. headquarters at the Carl Puckett Service Station on the corners of Carr and Lake Streets and it is believed that there will be more contestants this year than ever before. The race will be for 25 miles, 50 laps around the local track.

Entries must be in by noon of the day of the race.

Herman Hubbard of Meridan, Conn., who has been driving an automobile for 33 years recently renewed his drivers license at the age of 96.

Mrs. Hilda Hart of Los Angeles complained that her husband once insisted that she stop the car so he could get out and slide down the fender.

GENTLEMAN - WILLIAMS

Miss Sarah Helen Williams, daughter of Mr. and Mrs. Clyde P. Williams of this city, and Alexander William Gentleman, son of Mr. and Mrs. Alexander M. Gentleman of Chicago, were married Thursday, August fifteenth, at the First Christian Church. The ceremony was read at five o'clock by Dr. Don P. Hawkins, pastor of the church.

The church was beautifully decorated in a color scheme of green and white and all attendants wore white. Candles were lighted by Miss Mary Jane Owen of Fulton and Billy Creason of Mayfield. Music was furnished by Mrs. Lloyd Emery, pianist, of Mayfield.

The bride was given in marriage by her father and she wore a gown of ivory satin. Her flowers were gardenias and lilies of the valley.

Miss Margaret Williams, the bride's sister and maid of honor, wore a gown similar to that of the bride and carried a bouquet of carnations. Bridesmaids were Miss Ruth Carr Creason of Mayfield, cousin of the bride, and Miss Olive Gentleman, sister of the groom, and both wore dresses of white net. Misses Mary Davis Tripp of Mayfield and Mary Davis Weeks of Fulton were flower girls.

John Fellows of Chicago attended the groom as best man and ushers were Clyde, Jr., and Joe Browder Williams, brothers of the bride, and Howard Martin of Chicago.

Following the wedding a reception for the wedding party and friends was held at the home of the bride's grandfather, Joe Browder. The couple left on a trip to the Smoky Mountains and will go to Chicago to make their home.

Mrs. Gentleman attended Knox College and was graduated from Principia College in 1937. He took postgraduate work at Northwestern. He is now a member of the William A. Gentleman Livestock Company and is on the staff of Morgan Park Military Academy.

TUESDAY AFTERNOON BUNCO CLUB

Mrs. John Morris was hostess to her afternoon bunco club Tuesday at the home of Mrs. W. B. McClain on Central avenue. Five visitors were included in the four tables of players. They were Mrs. David Spence of Memphis, Miss Bessie Lee Armstrong, Mrs. Lee Roberts, Miss Alma Ritter and Mrs. Cecil Wiseman.

At the conclusion of the games Mrs. Morris held the bunco score and her prize was lingerie. Mrs. Marian Sharp, high score, received

a dresser scarf, and Mrs. Joe Maxwell, low, was given a bath towel. The guest prize was presented to Mrs. Spence.

The hostess served a party plate and cold drinks. The club will meet next week with Mrs. Maxwell at her home, Hardy Apartments, on College street.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Jack Rawls announce the birth of a daughter, Jacqueline, born Thursday, August 15, in the Fulton Hospital.

PERKINS - WHITNELL

Mr. and Mrs. W. M. Whitnell announce the marriage of their daughter, Ann Murrell, to Robert E. Perkins, son of Mr. and Mrs. A. E. Perkins of Ithaca, N. Y. The wedding took place in Paris with the pastor of the First Methodist Church officiating. The only attendants were Mr. and Mrs. A. E. Perkins, parents of the groom.

They will make their home in Ithaca.

ATTEND PARTY IN UNION CITY

Misses Eva Hall and Dorothy Arnold, Mrs. Malcolm Bell and Mrs. Covella Arnold attended a party in Union City last week, given by Mrs. Nellie Roper and Mrs. Vera White in honor of Mrs. Chester Sellars, a recent bride.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Rupert Gardner of Water Valley announce the birth of a daughter born Thursday, August 15, in the Fulton Hospital.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Howard Rogers of Dresden announce the birth of a daughter, born Saturday, August 17, in the Fulton Hospital.

LYTTON-PICKLE

Mr. and Mrs. Lon Pickle announce the marriage of their daughter, Dorothy, to Sidney Lytton, son of Mr. and Mrs. J. S. Lytton of Union City. The wedding took place April 20, 1940 in Paducah, with Rev. J. K. Polk, pastor of the Church of Christ, officiating. The only attendants were Mr. and Mrs. Paul Ashley of Union City.

Mrs. Lytton attended the South Fulton school and was graduated in 1939. The groom was graduated from Rives high school in 1938.

ANNIE ARMSTRONG CIRCLE

The Annie Armstrong Circle of the First Baptist Church met Monday night in the home of Mrs. Otis Bizzie, Highlands, with Mrs. Clifton Hamlett co-hostess. The meeting was opened with prayer by Mrs. Hugh Rushton.

Miss Myra Scarce then gave an interesting devotional on "Steward-

ship." The program was in charge of Mrs. Leon Hutchens, the topic for discussion being "Firm Foundations for Future." She was assisted by Mrs. John Reeks. Following the program, the president, Mrs. Hugh Rushton, presided over the business session. The minutes of the last meeting were read and approved and old and new business transacted. Answering the roll call were eighteen members, one new member, Mrs. J. C. Harrison, and one visitor, Mrs. Kathryn Hall. The meeting was dismissed with prayer by Mrs. John Alfred.

After a short social session the meeting adjourned to meet again Sept. 2 at the home of Miss Myra Scarce. This will be the regular Week of Prayer meeting.

READS LEFT THURSDAY

Mr. and Mrs. Dave Read left Thursday morning for Danville, Ill., where Mr. Read is a teacher in the city schools. He has been pitching for the Fulton Tigers during the summer.

BIRTHDAY DINNER

FOR M. A. POWELL
A birthday dinner was given Sunday in honor of M. A. Powell on his 70th birthday. All of Mr. and Mrs. Powell's children and a few friends were present and enjoyed the delicious dinner and get-together.

Those present were Mr. and Mrs. M. A. Powell, Mr. and Mrs. Luther Powell of Idlewild, Mr. and Mrs. J. T. Powell and family, Mr. and Mrs. Willie T. Wingo and daughter of Bradford, Mr. and Mrs. Utah Powell and daughter of Milan, Mr. and Mrs. Odie Williams of Idlewild, Mrs. Johnnie Miller of Memphis and Jack Walters.

RAWDON-AUSTIN

Miss Mary Evelyn Austin and Herbert Rawdon, both of Obion, were married in Fulton Saturday night, August 17. Mrs. Rawdon is the daughter of Elmer Austin of Obion and Mr. Rawdon is the son of Mrs. Celia Ashworth of Obion.

The couple will make their home with the groom's grandfather, J. A. Albright. Mr. Rawdon is connected with the TVA, working out of the Obion office.

CLUB MET WITH MRS. GENE SPEIGHT

Mrs. Gene Speight was hostess to her semi-monthly bridge club Tuesday afternoon at her home on Fourth street. Among the two tables of players were three visitors Mrs. Wade Joyner of Little Rock, Mrs. Lyndel Boner of St. Louis and Mrs. Monroe Luther.

After several games of bridge Mrs. James Warren held high score for the members and Mrs. Joyner was high guest. Each received an attractive prize.

Mrs. Speight served stuffed tomato salad, cookies and iced tea.

PERSONALS

Mrs. Johnny Yent and baby of Louisville are visiting her parents, Mr. and Mrs. Raymond Pewitt, on Eddings street.

Mr. and Mrs. Charles Thompson of Memphis spent last week-end in Fulton.

Miss Ouida Mell Vaden returned home last week-end from a two weeks vacation in Detroit.

Mr. and Mrs. Leonard Brown returned home Sunday night from a two weeks vacation in Memphis, Hernando and Maywood, Miss.

Forrest Ladd and Miss Virginia Worsham of Memphis spent Sunday

Information Wanted

About the year 1839 William Ellis and his wife, Joanna Ellis, moved from Aurora, Indiana to Hickman County, Kentucky, in that part which is now Fulton County. Land records indicate that they lived on the S. W. quarter of Sec. 8, Tsp. 1, Range 4 W. They probably brought with them a son, William Ellis Jr., son of a former wife of William Ellis, also a daughter, Caroline. In 1849 Caroline married Edward Douglas. In 1850 Douglas died. In 1851 the family moved to Texas and there Caroline married again. Descendants of William and Joanna are anxious to perfect their family tree, especially anxious to get any possible information about William's first wife, whose maiden name is supposed to have been Betsey Province. A reasonable award will be paid for accurate, new information. If you ever heard of any of these people, write me, R. B. Humphrey, Attorney at Law, Fidelity Building, Dallas, Texas.

with the former's parents, Rev. and Mrs. E. R. Ladd, Park Avenue.

Miss Frances Galbraith left Tuesday for Chicago, where she will spend about ten days.

Mr. and Mrs. E. L. Jones and daughter, Sandra, spent Sunday with relatives in Murray.

WHAT IS THE AMERICAN WAY?

Everybody is inclined to consider that his own opinions and prejudices about customs and institutions, principles and practices, represent the "American Way." The term is used to justify the most contradictory ideas. Nevertheless there are some principles and practices that are distinctively American and that are believed in by most Americans; especially a fundamental conception of freedom which is a part of our heritage.

We have built up our civilization here and drawn our social pattern on a basis of individual freedom. It includes freedom of worship, of speech and press and assembly, of residence and movement; liberty to pursue an occupation of one's own choice, to acquire and own property, and to enter into voluntary association with others in enterprise; and the right to participate in government through representatives whose arbitrary power is restricted by basic and statutory law and who are periodically accounted to the people. These rights do not constitute the whole range of American freedom, but are among the most fundamental.

It is true that these are not regarded as absolute rights. We impose limits by custom and by public authority. But we try to adhere to the pattern and we recur to it whenever it is temporarily disregarded. The conviction persists that this individual freedom must be maintained—limited only in order to preserve the maximum of it for all. For in the freest possible exercise of individual initiative and

energy we see the mainspring of our past achievement and the guarantee of a greater future—the fulfillment of the promises of American life.

There is no other plan of human relations we know of that has produced or is producing a like result. Certainly the totalitarian systems now spreading over Europe—and not without their advocates here—bear no fruit that we crave. We believe in hard work—but in cooperation—of our own choice; in discipline—but self-discipline; in individual duties and group duties—but not imposed by arbitrary power; in cooperation—but of a free people.

Free institutions, however, affording the maximum of individual opportunity are not an accident of nature, like the climate—nor do they persist like the sun, moon, and stars for whose existence and movements each generation must earn again, by hard work, devotion to duty, loyal cooperation, productive achievement, its right to be free.

Through all the changed conditions that our increasing mastery of nature creates, through all the adjustments and readjustments of human relations that such changes require, we are insistent on maintaining our heritage of freedom. Essentially this ideal, interpreted in practice as well as our social experience and social intelligence permit, is the American way.

A NEW CROP RULING

In the administration of the government's agricultural policies some differences of opinion have arisen from time to time regarding the designation of various crops as soil-building or soil-depleting. As decisions in this matter affect the soil conservation program, they are of interest to all farmers.

A new ruling recently announced by A. W. Jones, AAA administrator, will be welcomed by growers of soybeans, which heretofore have been considered soil-depleting if harvested for seed for crushing. Under the 1940 regulations, soybeans are no longer considered soil-depleting, and the acreage devoted to them will not be deducted from the special crop allotment, regardless of whether the beans are harvested or not.

This new ruling will affect thousands of farmers, particularly in the Middle West, who harvest and sell their soybeans to processors for conversion into oil and oil meal. The rise of this crop as a source of cash income in the last few years has been nothing less than phenomenal.
