CONGRESS OPPOSES PUBLIC TAX

Washington—A Treasury exigency for elimination of the present tax on automobile and称号 bond owners is being pressed against reorganization in every forum. The Treasury's tax cut is expected to have some effect on the income of investors now owning government bonds, and it is an indication that the government is trying to stimulate the economy through tax cuts. Also, the Treasury has been considering the possibility of a tax cut for individuals, which may have a similar effect on the economy.

In other news, the government has announced that it will purchase a large amount of scrap iron, which is expected to be used in the production of steel for the war effort. The government has also been working to improve the efficiency of its war production efforts, and it is hoped that these new measures will help to increase the country's ability to produce the weapons it needs to win the war.

Philadelphia—At the recent meeting of the Convention of Commerce, the President of the United States, Franklin D. Roosevelt, announced a plan to increase the production of steel for the war effort. The plan involves the creation of a new agency, the Office of Production Management, which will be responsible for overseeing the production of steel and other critical materials. The President also announced that he would be asking Congress to authorize the use of the nation's natural resources to support the war effort.

In addition, the President stressed the importance of the war production effort. He noted that the country's industrial capacity had been stretched to the limit, and that more production was needed to meet the war's demands. He also emphasized the need for the public to support the war effort by buying war bonds and saving money.
for that even before the President's executive's experience, for it as the White House impossible to say whether this or agencies. That promises a job so we still have to do one thing at a time. And if Mr. Nelson is to write his own history, the White House is going to see if the whole machinery of our war production can be handled in a more efficient manner, and we will have to do that before the President leaves office. The interpretation that the war is over is not the experience of many people who feel that our victory is not yet a certainty. Then must came what Mr. Roosevelt describes as a check to the Fourteen Points of the production program — general supervision, supervision over all production agencies. That promises a new situation, for it is impossible under present conditions to think of it in ordinary terms. Its influence as a stepping stone to more important efforts is not in question, for the problem of reorganization that individual is qualified for it has no precedent in our com- complete, the downsize of the affairs of the world. Mr. Nelson has made an excellent suggestion in Washington. The reorganization of last last summer which made him the President of the Office of Production Management was followed by another step forward even by those who have been critical of the office. Moreover, Mr. Nelson's public statements have revealed a way of handling contractions with such success as to make the future of the office a model. Case in point, the recent case of the Secretary of War who has not hesitated to use the President's power of reorganization where we can and where it is necessary. This is the reason why the least year has been the most difficult. The county will soon act the spec- tacular change in the attitude of the public from the story of our

Mrs. E. Mount, pastor of the church, was in attendance at the annual banquet last night attended by the officers and teachers of the Baptist Training Union. Each of these expressed his regret in losing Mr. Mount’s services in all phases of the work.

The meeting was turned over to Mrs. R. C. Joyner who conducted a sing and a prayer meeting open to the students of the intermediate department; Jimmy Mullennix, superintendent of the intermediate department; and Monty Mullennix, superintendent of the boys who were in military training.

Mr. E. P. Oates, accompanied at the piano by Miss Mignon Wright, sang, "We Will Follow the Flag" and also sang "Strong Hearted can Legionary." Following the series of bunco games, Mrs. Hall won second high prize, Mrs. Gray won first prize, and Mrs. Sharpe won the consolation prize.

Betty Daniels was the winner of a pyrex dish. Mrs. Goode was also presented defense stamps and Mrs. Kizer won the bridge-bingo prize.

A YEAR FOR FORESIGHT

The coming year starts with many problems facing every American. Many of the problems we concern, many are difficult to solve. First of all, we must consider the welfare of our Nation so that we may have a better life to come.

Next we must prepare to conserve and protect our property. One of the most intelligent acts in these days is to investigate all insurance coverage. Do you have the necessary protection? Is it in proper shape? Is your policy with a strong, well-founded insurance company? All these questions and answers can be obtained from us. We know that the insurance business is one of the best services that can be offered to our people, and we will be glad to offer you the best advice as to proper insurance coverage. We’re always glad to talk to you about these problems.
