FOODS FOR HOME—The food shortage caused by the war is being felt in all parts of the world. The United States has been asked to increase its food production by 25% to meet the needs of the Allied nations. The government is promoting home gardening and reducing waste to conserve resources. Here are some tips for growing your own food:

1. Choose a sunny spot for your garden, and ensure the soil is well-drained.
2. Plant a variety of crops to increase the chances of success.
3. Use compost or fertilizer to enrich the soil and promote healthy plants.
4. Water your plants regularly, but avoid overwatering.
5. Control pests with natural methods like neem oil or insecticidal soap.
6. Harvest your crops at the right time to ensure maximum yields.

These tips will help you grow a bountiful harvest and contribute to the country's food security. Happy gardening!

LOT MACHINE
GAME TAX NETS FIVE MILLION

Upon Federal Lottery isApparently Drawn

Washington—The Treasury Department Sunday a lottery which netted $5,000,000 in collections through December. The tax is $2,700,000.

As for collections by states, they were $477,000 and $477,000. Further data on other figures were not available, but it was thought the figures would be a close second place to those of the Federal Government.

When Congress approved the 1941 lottery it was based on the theory that states could use the money to promote social legislation and to assist charitable organizations.

The lottery idea, a hardly popular one, is expected to be approved by the Army and Navy because the way it affects charitable organizations.

The governor of Kansas, however, who is the only one to support the proposal, has asked Congress to reconsider the idea.

'Could never support that kind of organization.' A lot of people in my district would buy tickets, and I would do the same thing. I would get out and sell them if I was for it.
