FULTON ADVERTISER

Vol. 7 No. 45
FULTON, KY. Sept. 25, 1931

R. S. Williams, Publisher

Tenn. Division Office Abolished

During the week many changes are being made in the organization of the Tennessee Electric Power Company. In the past, the company has had a large staff of engineers and other personnel in the states where it operates, but now it is streamlining its operations and consolidating all its offices into one central location. This move is expected to improve efficiency and reduce costs.

School Books Badly Needed

South Fulton school officials are asking for contributions of books for the library. The school needs a variety of books suitable for all ages and grades. If you have any books that you no longer need, please consider donating them to the library.

SOUTH FULTON SCHOOL NOTES

A. T. Laird of Fulton, to Mr. H. W. Williams, who has

Change in the Tennessee Division office here, as well as several other offices throughout the state. This change is part of a broader effort to consolidate personnel and reduce overhead costs.

Music

Mr. Ralph Garsson, instrumentman, with headquarters at Water Valley, Miss., is taking the place of T. E. Hill of Everybody pays taxes either directly or indirectly. The old saying that "everybody pays taxes" is true, and this is not likely to change. For the time being several divisions are being taken over as additional instrument man.

Why
My Next Car
will be
A FORD

When you buy a Ford there are two things you never have
to worry about. One is reliability. The other is long life.
Here's an interesting letter from a Ford owner in North
Carolina:
"My Ford was purchased May 5, 1918, and has been 78,000
miles, but has never required any Ford dealer's
service except perhaps an oil change. It has not had to
be taken in for any major repairs. It has consistently
averaged 24 miles to the gallon, at the same time, 10,000
miles per tire. I have driven 73,000 miles in a single year.

HOMEMAKERS CLUBS
The Advisory Council of
Homemakers Clubs of Fulton
County met at the office of Mrs. W. L. Pracht at Casey
Springs, Sept. 14, with seven clubs represented.
Plans were made for Annual Meeting which will be October 2.
The Advisory Council
will take the $50.00 balance
of the county assessment from
the county assessment fund.
County Board of Education
plans to open a new building.
A President's and Secretary's
training school was
held.

A Charming Family Group

One person is aware of how

considerable comment has

started in the newspapers of
the country on the alleged
being made in Cumberlands
county. Ohio, to abolish grand
juries. The bar association of
that county found it, and passed
and approved a resolution
that it was passed in some
districts with good results and a
saving of money to taxpayers.

Grand juries in the state for
the county prosecutor's cases for
himself, probably contributed to
the jury. The jury's duty whether
the number of convictions obtained
and the number of convictions obtained.

The hearing between the number of
indictments returned and the number of convictions obtained.

Lesson for September 27

Review: The Spread of Christ

The Church was forced to adapt to the times and adapt the gospel to suit the conditions in which it found itself. This meant that the Church had to be flexible and creative in its mission work.

The spread of the gospel was facilitated by the availability of printing presses, which allowed for the mass production of religious literature. This enabled the Church to reach a broader audience than ever before.

As the Church spread, it encountered various cultural and religious differences. Despite these differences, the Church continued to spread the gospel through various means, including preaching, teaching, and writing.

Lesson for July 12

The spread of the gospel continues today through the use of modern communication technologies, such as the internet and social media.

Lesson for August 9

The Church's mission is to spread the gospel and to make disciples of all nations. This involves providing food, water, shelter, and medical care to those in need.

Lesson for July 5

The spread of the gospel is not just about converting people to Christianity, but also about spreading the love and kindness of Christ to all people.

Lesson for August 2

The spread of the gospel is a continued process, and it is up to each individual to take part in this mission by spreading the gospel to their friends and family.
PREHISTORIC BONES
OFTEN FOUND HERE

United States Fertile Field
for Paleontologists.

Washington: The discoveries in New York State of huge monsters of the same period as the Triceratops, the United States Fertile Field for paleontologists, now extends into the United States, as evidenced by the recent finds in New York State. These discoveries, which include the remains of an immense Theropod, or "terrible reptile," the largest and most complete dinosaur ever found in the United States, have been reported by Professor O. C. Marsh, of Yale University, to be the most important find in the history of paleontology. The remains of the Theropod, which are estimated to be more than 100 feet long and to have weighed more than 100 tons, were found near the town of Flack, in the State of New York, and are now being studied by a team of scientists from Yale University. The remains include the bones of the head, neck, and limbs, as well as the tracks of the animal, which were found in the same area. The team of scientists, which includes Professor O. C. Marsh, of Yale University, and a team of experts from the United States Geological Survey, are now studying the remains in the laboratory of Yale University. Peachy Desserts

"Placer" for yourself with fruit and ice cream in the form of this deliciously tempting refreshment. The recipe serves four. It can be made with any kind of ripe pear and is just as easy to make as the melon balls they are served with. The preparation is as simple as you wish it to be. The recipe is adapted from an old-fashioned recipe by Miss Edna Lewis, a housewife of southern California. It can be made without the ice cream if you wish. The recipe is to be served as soon as possible after it is made. It is a family favorite in our household and always a hit with friends and family.

* Recipe *

Ingredients:
- 2 ripe pears, cored and cut into thin slices
- 1 cup heavy cream
- 1/2 cup sugar
- 1/2 teaspoon vanilla extract
- Ice cream (optional)

Instructions:
1. In a medium saucepan, combine the cream, sugar, and vanilla extract. Bring to a boil, stirring occasionally, then reduce heat and simmer for 5 minutes.
2. Remove from heat and let cool slightly. Add pear slices and stir gently to coat.
3. Let mixture cool completely. Serve immediately over ice cream if desired.

Tips:
- For best results, use ripe pears that are soft and easy to cut into slices.
- Adjust sugar to taste and add more if desired.
- This dessert can be made ahead of time and refrigerated until ready to serve.

In Case of Emergency

When you want a thing in a hurry you rush to a local store and get it. The absence of stores depends upon the efficiency of our stores in keeping local business alive and in a continuous flow.

Chinese Population Is

It is estimated that there are about 2,757,000 Chinese in the United States. This is an increase of about 700,000 over the 2,057,000 estimated in 1980. The Chinese population in the United States is one of the largest in the world, and it is growing rapidly. The Chinese are a hard-working people who have made many important contributions to American society. They have a long history of immigration to the United States, and their influence can be seen in many parts of the country. They are a friendly people, and they are well known for their hard work and dedication to their families and communities.

Bread From Seaweed Is Popular on West Coast

Bread made from seaweed is becoming popular on the West Coast. The bread, known as "sea bread," is made from a variety of seaweeds, which are harvested from the ocean. The bread is said to have a unique, oceanic flavor and is known for its nutritional benefits. It is a great source of protein, fiber, and minerals. The bread is also gluten-free and suitable for people with gluten intolerance.
