This Is A Small Measure of Roosevelt's Service to Our People:

Under Roosevelt, Farm Income has nearly doubled. Farm Mortgage interest charges are 30 per cent less than in 1928. Soil Conservation program has saved 20,000,000 acres. Farm loans have increased the net worth of borrowers 21 per cent. One-fifth of all farms now have access to electricity.

Under Roosevelt, total non-agricultural employment is 9,000,000 greater than 7 years ago. Weekly Payrolls are $113,000,000 greater than they were 7 years ago. Wage earners have benefited by laws creating granting unemployment compensation, old age insurance and assistance to needy blind and dependent children. Wage and Hour Act has reduced hours and increased pay of millions of workers. Collective bargaining has brought a decrease of industrial disputes.

Under Roosevelt, National Income increased from $40,000,000,000 in 1932 to $69,500,000,000 in 1939. Employment increased from 37.5 million in 1932 to 45.3 million in 1939. Loans totaling $2,000,000,000 have been made to aid banks. Government purchases of $26,000,000,000 helped every kind of business.

Under Roosevelt, 20,000,000 depositors benefited by RFC loans to banks. Loans have been made to 2,600,000 farmers; 12,000 stockmen, 20,000 disaster sufferers and to 200,000 families for purchasing electrical appliances. Federal Housing Administration has enabled 600,000 families to build or finance homes.

Under Roosevelt in the last 7 years, public works programs have produced $18,000,000,000 worth of public properties and services. WPA has built 450,000 miles of roads; 5,600 bridges; 15,000 public buildings; 12,000 miles of water lines. WPA served 386,000,000 lunches to undernourished children. PWA financed work since 1933 has constituted 70 per cent of all educational construction. PWA has accounted for more than $3,200,000,000 in orders for materials.

Under Roosevelt, the U.S. Navy, destroyed under Republican administrations, has become the most powerful in the world. The Army, which had been reduced and neglected, is now up to its authorized strength of 873,000 officers and men. Air forces already increased can now expand easily to a strength of 50,000 planes. When defense program is completed the United States will have a two ocean Navy or 733 fighting ships.
