SUGGESTIONS GIVEN FOR PREPARING TURKEY

Turkey weighing 20 to 30 pounds should be roasted in 12 to 15 hours. The larger turkey size needs to be cooked at a higher temperature for the same length of time. The following suggestions for preparing turkey should be followed:

1. Preheat the oven to 350°F (175°C).
2. Rinse the turkey inside and out. Pat it dry with paper towels.
3. Season the turkey with salt, pepper, and any other desired spices.
4. Place the turkey on a rack in a roasting pan.
5. Roast the turkey uncovered at 350°F (175°C) for 20 minutes per pound, or until the internal temperature reaches 165°F (74°C).
6. Cover the turkey with foil for the last 30 minutes of cooking to prevent overcooking.
7. Let the turkey rest for 10 to 15 minutes before carving.

My pop was just an ordinary hardworking fellow and he and mom don't live fancy. But they're happy.

The other night mom was showing pop my new electric hot water heater, and he said we're lucky to have such handy electric things. That got his mind running about his job and he said American workmen are much better off than workmen in other countries. He said a big reason is because America can factories one so much more electric power and that means more like my pop turns out more met and therefore make more money for his boss, Mr. Hardy, and mom for himself, too. And Mr. Hardy can sell his products cheaper, so more people can buy them and that helps everybody. That's why people like my pop and mom are really rich—with it in the change tin: make more money.

Pop said, just took a train, business man like Mr. Hardy has to in- stall electric in every thousand dollar deal so every man he has working for him. Golly. But that's true. They're working with too little money to make more money.

Crusoe Knew What He Wanted... and he got it!

One of the most persistent advertisers in the history of success was Robinson Crusoe. He knew what he wanted—a ship—so he put up an ad for one. He flung up a shirt on a pole, at the top of his island.

That, in the language of the sea, was plain to every copy, as one garment after another was frayed, and the columns persistently and you are bound to obtain your thing.
