## Weather Guess --

KENTUCKY:—Rain turning to light snow and colder Tuesday.

For Fulton First and Always.

ESTABLISHED—1898.

## THE LISTENING POST

● These are the dog days of winter; the dreary days during which it seems that Spring will never come and when most of the unpleasant things of life come around from day to day. I guess that my chief dissatisfaction stems from the fact that for the past week my home has been in process of being repainted and for days the chief rooms in the house have been inhabited by painters and floor sanders, and over all the penetrating odor of paint. As a rule, when things get tough downtown I seek refuge at home—but there can be no pleasant refuge which smells always of paint and with furniture pushed around at all angles and rugs rolled up on the floor. No, that can never make a refuge.

● Down at the office the deadline for a lot of taxes draws near. By next Saturday a fellow must make his yearly settlement with the sheriff and the amount which a few months seemed trifling now seems to be a fearful sum. A fellow wonders just how he is going to pay that bill and still keep enough for the other expenses which keep on multiplying and increasing. There is not any hope of getting through with it by merely paying the sheriff, for a fellow knows that just behind his bill comes the annual settlement with Uncle Sam. This uncle, for year a genial old fellow who did not take a great deal from ordinary folks, has suddenly developed into quite an acquisitive sort of fellow and wants a lot of money. And there is no certain way of paying him off and having it over with as can be done with the sheriff. No, when dealing with Uncle Sam, it is necessary to work for a long time and fill out many pages of figures and then, when we have arrived at a total, it may turn out to be wrong in some distant day when we have long since forgotten those figures we put down in these dreary days of winter. Likewise we know, also, that these sums we consider high this year are really trifling to what they will be a year hence or two years. That money we are paying Uncle Sam is going to be the largest tax we pay before many years have passed along.

● The weather is strictly in line with these gloomy thoughts also. Many of the days are gray and cold; it seems that spring will never come. It may be that we will have a couple of days which bring thoughts of spring and then, just as we begin to think of green grass and leafy trees, a wind blows in from the North and snow and ice ride on its wings. We are again plunged into the midst of winter, thoughts of spring are pushed back as we throw more coal into the furnace and dig up the overcoats again.

● It seems that along with all these things the war grows more discouraging. One day the embattled nations seem to be fighting off the enemy; twenty-four hours later we learn that the enemy has pushed across allied defense lines and is again on the move. Rarely do we get good news for two days in succession.

● But as March lifts its head over the near horizon I know that spring is really near. We will really have some spring weather in the coming month. From long experience I know this to be true, and I have a deep-seated belief that when spring really gets here things are going to get better. Why spring should help the war in the Far East I have no idea, for there it is always summer. But I simply have the hunch that when spring really gets here we are all going to begin working harder, begin to turn out so many ships and planes that we can finally begin to beat the enemy back. It is a new experience to me to be on the losing side of a war. In the three wars which I have known in my lifetime the Nation has always won from the beginning. In this one we are taking a beating, but I am as certain

#### FLEEING NAZIS TAKEN IN U. S. AFTER ESCAPE

Fair Now On Way Back To Prison In Canada

Watertown, N. Y., —Two men, identified as escaped German aviators after their attire aroused suspicions of a patrolman off duty, are on their way to a Canadian prison camp from which they say they fled.

Patrolman John Bero noted the pair on the street last night. Curious about their bulky overalls and haversacks, he called a fellow policeman. Both escorted the men to police headquarters, where the pair said they were Oberleutnants Albert Henrick Walder and Ulrich Steinhilper. They told police they fled the Bowmanville, Ont., prison camp "three or four days ago," crossing the St. Lawrence River ice "in fifteen minutes."

Police asserted Steinhilper fled twice before, but was recaptured before reaching the border and reported both fugitives had relatives in the United States.

#### RATIONING RULES FOR SALE OF NEW CARS ANNOUNCED

Farmers, Defense Workers, Salesmen, Taxi Operators Eligible

Washington, —Farmers, if they have no other means of transportation, defense workers, taxi operators, and essential traveling salesmen will be eligible to buy new automobiles under rationing regulations announced today.

Aside from these groups, the eligible list follows in general that for rationing of new tires and includes physicians, visiting nurses, fire fighters, policemen and others regarded as essential to protection of safety and health.

No one will be permitted to buy a new automobile, however, unless the local rationing boards are satisfied that the applicant's present car is not adequate for the duties he performs.

## Probers Study Ammunition Failure Report, As Shells Called Bad

Washington, —An unofficial report that ammunition aboard an American warship in the Pacific was so deteriorated by age that it failed to explode properly in a fight with Japanese bombers prompted the Navy Department and a House committee to undertake immediate investigations today.

The report came from Martin Agronsky, National Broadcasting Company reporter, who said the information was given to him by a naval air lieutenant, whose name he was not permitted to use.

In a broadcast to this country, Agronsky related that thirty-two Japanese bombers attacked a Navy warship which the unidentified warship was escorting. Agronsky asked the lieutenant whether any

Japanese troops have captured the ancient city of Pegu, forty-eight miles northeast of Rangoon, cutting the Burma Road railway, and now are marching toward the Bay of Bengal in an attempt to trap the British defenders in southern Burma, an official Chinese military spokesman at Chungking said yesterday.

Chinese sources reported that Pegu, former capital of a powerful Sixteenth Century kingdom whose population has dwindled from 150,000 to 10,000 in three centuries, fell on Sunday after the Japanese stormed across the Sittang River, which empties into the Gulf of Martaban twenty-five miles to the east.

Hasten to Remove Stores

Rangoon was almost deserted last night, except for military units and the American mission in the city worked feverishly to get out thousands of tons of war supplies destined for China. The British themselves were reported applying the torch to all unmovable military stores.

While abandonment of the Burmese capital was in progress, military units withdrew to the west bank of the Sittang River after the Japanese stormed and captured the eastern end of a bridgehead across that last natural barrier to Rangoon, some sixty miles away.

Defenses Are Unified

With the fighting raking for 400 miles along the Sittang and Irrawaddy rivers closer to Rangoon, U. S. authorities supervised the loading of lend-lease supplies in hundreds of trucks heading northward from the port city in a desperate race against time.

#### LOCAL PICTURES SHOW FULTON LIFE

A Leader reporter had the privilege of seeing a preview of the local pictures which will be screened tonight and tomorrow night at the Malco Fulton Theatre. Made in color the pictures are quite striking and tell the story of life in Fulton extremely well. Many children are seen on the screen, as all the local schools were filmed, as well as the various churches. It is a feature that Fulton people will like, and the photography is extremely good. The color comes out remarkably well and all told, it will prove an extremely interesting feature.

## Fun, Frivolity And Fellowship Keynote Of Rotary Club Dinner

Fun, frivolity and good fellowship was the keynote of the annual Ladies Night dinner of the local Rotary Club held last night in the dining room of the First Methodist Church. From beginning to end the program was pitched on this idea and about 65 men and women enjoyed the affair thoroughly. No effort was made to be serious except in some of the patriotic songs by Paul Hornbeak, and each part of the program seemed to build up from the preceding number. Altogether it was one of the most successful dinners in the history of the club and reflected great credit upon those who planned the program.

Decorations, in keeping with the times, were simple, being confined for the most part to flags, and the long tables were arranged in the form of a Victory V. Candles, carrying out the national colors, burned on the tables and in the window ledges.

President Ford Landens presided over the meeting and gave a brief address of welcome, after introducing the guests. Club guests were Mrs. Mansfield Martin, president of the Woman's Club, and Mr. Martin, Forrest Riddle, president of the Lions Club, and Mrs. Riddle, and Mr. and Mrs. Hoyt Moore. Mr. Landens also gave a common sense discussion of "Common Sense," which was rich with humor and human understanding.

Mrs. Paul Hornbeak then gave a report of the meeting in which the

## 30 HIGHWAYS ARE NOW OPEN TO LARGER TRUCKS

25,000 Pounds Allowed Under New State Law

Frankfort, Ky., —Thirty Kentucky highways will be open tomorrow to motor trucks weighing with their loads up to 25,000 pounds. The routes were designated tonight, effective at midnight, by State Highway Commissioner J. Lyter Donaldson under an act passed by the present General Assembly.

On routes not named in the order the old 18,000-pound gross load limit and the former length limits still apply. On those named tonight the gross weight may be up to 25,000 pounds and the length of a truck and its semi-trailer may be thirty-three feet instead of thirty. The length limit on trucks alone, however, remains at thirty feet on all roads.

Limited To Emergency

The routes designated are termed, under the new law, national emergency highways, and the act itself provides that as soon as the present national war emergency is over the old standards will go back into effect on all Kentucky's roads.

## NATURAL RESOURCES WILL BE MOBILIZED TO HELP WAR EFFORT

Interior Department Launches New Program

Washington, —The Interior Department is launching a highly geared war program geared to mobilization of the Nation's strategic natural resources. Secretary Ickes announced Sunday.

It is completing conversion of all its bureaus and divisions, he said, to the co-ordinated functions of a Federal wartime agency, accelerating vital war activities and subordinating those of essentially peacetime character.

52 Distinct Proposals

Secretary Ickes' program to supply meats, oil power, fuel, helium, food, and land, water and timber essential for war covered 52 distinct proposals, worked out by the department's War Resources Council under an order of Dec. 7, 1941—the day of the Pearl Harbor attack—declaring that the Department's "immediate and primary function is the full mobilization of the Nation's natural resources for war."

## Worker Contribution To State Jobless Pay Fund Is Eliminated

Frankfort, Ky., —Workers' contributions to the state jobless pay fund were eliminated effective next July 1 by an act signed by Gov. Keen Johnson today.

The act along with another also signed today, makes sweeping changes in Kentucky's unemployment compensation laws, including reduction from a maximum of 3.7 per cent to 2.7 per cent of the annual levy on payrolls of certain qualified employees.

Employers whose levies are reduced, effective with the current year, are those whose contributions for the three previous years have been sufficient to meet all demands upon them due to employees being released. Those who levies have been more than enough to pay benefits due to discharges by them may have their annual levies cut in proportion on order of the commission itself as in the past.

The commission recently reported it had approximately \$42,000,000 on hand of which \$12,000,000 was composed of contributions by workers of one per cent of their annual pay during the five years the fund has been collected. The new law discontinues the workers' contributions. Unemployment compensation officials said only five other states still require them, due to funds having piled up.

Other changes made in the unemployment compensation law by the two acts signed today and becoming effective at once, include: Authorization for an assistant director at a maximum \$4,500 annual salary for director Vergo E. Barnes who gets \$4,500 a year.

Pay jobless benefits on a seven-day basis rather than 14-day.

Require one week waiting period for benefits to start after a job is lost, instead of two weeks.

Set weekly limits of \$5 to \$16 on benefits, instead of bi-weekly limits of \$5 to \$30.

### OPPOSED TO DEFENSE STRIKES

The Kentucky General Assembly has enacted some laws and has others under consideration of which we heartily disapprove. We think the time will come, for instance, when the public will realize the wisdom of the so-called TVA act and other moves designed to put the government into business which has hitherto been conducted and owned by private citizens. It is a long step in the direction of socialization of all private property.

But a resolution was adopted by the Kentucky House of Representatives this week with which we heartily agreed. The body approved by a vote of all but two of its members a memorandum to be sent Senators Barkley and Chandler asking them to approve the Smith bill in the national Congress. This would outlaw strikes in defense industries.

This resolution now goes to the State Senate. It should be passed upon favorably by that body without delay.

Stoppage of work in plants which are to supply our fighting men with desperately needed arms, ships, ammunition and equipment should not be permitted. For the period of the war, settlement of all disputes through the governmental arbitration machinery should be made obligatory, without strikes or lockouts.

Practically all of the strikes in defense industries have not been caused by disputes over either wages or hours. They have been over questions of dispensation and control between union groups. They can and must be settled without interruption of production. Any other course can easily mean that boys in the active service must die for want of arms or equipment delays in production by strikes.

Do not believe for a moment that the parents of men whose lives are thus imperiled, or the men themselves, when informed of the circumstances, will stand idly by and permit defense strikes to go on.

The proportion of the vote in the Kentucky House of Representatives

### COUNTRY DOCTOR

When a country doctor can make the headlines because of something he cannot do, this may be taken as proof that the human interest story will survive in the press in spite of war and disease.

Dr. Allen Roq Dafone probably never would have been heard of outside his own little bailiwick if one of nature's most rare phenomena had not occurred within his orbit. The birth of the Dionne quintuplets directed the world's spotlight on a small Canadian community and upon the doctor who had brought them into the world.

Even if the five little girls had not survived, the event itself would have furnished material for human interest and medical research. But live they did, all of them, and the quintuplets and Doctor Dafone together were catapulted into news columns.

The girls are growing up. They

speak the language of their parents. And Doctor Dafone, submitting his resignation as official physician of the quint, says he cannot understand French. That the good doctor has not picked up a few French phrases, or that the quint haven't absorbed a smattering of English, will cause surprise. The barrier of language is not usually so insuperable.

Rumors have told of clashes over the upbringing of the five little Dionnes. That is not to be wondered at, considering the three-way responsibility. The quint are not like ordinary children except that they have their parents. But they also have their status as wards of the government. And they have their official physician besides.

If Doctor Dafone's resignation is accepted by the Ontario legislature, one of the most engaging personalities connected with the case will be removed. At least part of the human interest in the Dionne story is the services of a country doctor. There may be better medical talent to supervise the quintuplets, but some of the color will be lost when Doctor Dafone leaves.—Exchange.

### ROTARY CLUB

(Continued from page one)

Arch Huddleston, also absent, running him a close second. The man with the most delicate appetite was decided to be Dr. Ward Bushart, although Bishop Loyal Hartman had plenty of support and at one time seemed on the verge of winning. However, the judges after viewing the relative sizes of the two contestants, decided that for the size Dr. Ward really handled more calories than the strapping Bishop. In these contests some humorous nominating speeches were made by Mrs. J. C. Scruggs, Mrs. Joe Davis, Mrs. Glynn Bushart, Mrs. Bob Wade, Mrs. Ernest Fall, Mrs. Leon Browder, Mrs. Tom Franklin, Mrs. Ward Bushart, Mrs. Clyde Williams, Mrs. Theo. Kramer, Mrs. Paul Hornbeak, Mrs. Bob White.

Rev. Loyal Hartman brought the dinner to a close with a mirth-provoking beauty contest. Picking Paul Hornbeak and Dr. Ward Bushart as maids, he then selected Kenneth Dawson and Herbert Goulder as the subjects. Giving the

two maids a suitcase each he told them to take their subjects to the stage and there dress them in whatever they found in the bags. "Do not neglect the paint and powder," he warned the two maids. So, in plain view of the diners the two were made up, and Paul Hornbeak, not forgetting his profession for a moment, turned Kenneth Dawson into the prize winner. The feature came when Kenneth pressed a fond and lipstick kiss on the bald heads of Ernest Fall and Theodore Kramer. He was after Jim Lewis, but the pedagogue suspected him and left at high speed.

Miss Anna Frances Graham and Yewell Harrison delighted the audience with fine instrumental music, with Mrs. J. B. Manley at the piano. Mrs. Glynn Bushart was at the piano for the several songs led by Paul Hornbeak.

George Batts has returned to Fulton from a trip to Memphis.

Louie Pickle, who has undergone a very serious operation in the Marine hospital at Louisville, Ky., is reported getting along as well as could be expected. Mrs. Pickle has returned here after attending his bedside.

Mrs. R. V. Putnam has been admitted to the Baptist hospital in Memphis for observation.

Mrs. Lynn Taylor, Miss Lene McKee and Miss Martha Taylor went to Memphis today to attend the bedside of the former's brother, Edgar McKee, who will undergo a major operation there Thursday.

### SERVICES AT JOHNSON

GROVE SUNDAY—12:00

Preaching will be held Sunday, March 1st, at Johnson Grove church by the pastor, W. A. Porter, at twelve o'clock war time. The Missionary Society of the church will meet in the afternoon at one o'clock war time. Prayer meeting will be held at Tuesday night, eight o'clock war time.

### SPECIAL NOTICE

Fulton's air raid warning signal for the duration of the war will be the wildcat whistle located on the Illinois Central Pump Station. This whistle will be used for no other purpose until after the war is over.

Beginning of an air raid, and an impending black out will be signalled by continuous blowing of the whistle for some five or six minutes, and the joining in of all other whistles in town. The all-clear signal will be given by the same whistle, but will be given by short even blasts, lasting for about ten seconds each. Adv. 45-3t.

MRS. ROOSEVELT SAYS SHE RESIGNED TO PREVENT CRITICISM OF OGD

Washington, —Mrs. Franklin D.

Roosevelt resigned from the Office of Civilian Defense, she says, to prevent criticism meant for her personally from being heaped upon "a good program."

In her sponsored weekly broadcast yesterday, she defended dancing and other artistic forms of entertainment as necessary to offset the hardships of wartime living, and gave this explanation of her resignation last week:

"I am resigning because I do not want to bring on a good program, and on good and valued public servants, the attacks and criticism which are bound to be made on some of us in this fight, but if there has to be a fight, I am glad I enlisted as a common soldier with the many."

"Perhaps we must all stand up now and be counted in this fight," she said. "The virtuous Westbrook Peglers on one side, the boon-doggers, so-called, on the other, but I think if the people of this country can be reached with the truth, their judgment will be in favor of the many as against the privileged few."

### POLLY WANTS

AN ASPEN

Baltimore. —A snifter a day keeps the parrot doctor away. That's the theory of George Boteler who feeds a whisky nightcap to his 52 pet parrots when cold winds whistle about their birdhouse. The parrots take theirs with plain water and some can handle more than others. The parrot patriarch, Ragamuffin, 95, handles his like a southern gentleman. Those rouses who don't know when they've had enough regret it the next day because parrots have hangovers, too, after talking, fighting or sleeping jags.

## Bulldogs Hammer Arlington To Break Long Winning Streak

The Gaddie Twins, Arlington stars, were held to a point per foot by the expert guarding of Billy Reed and Layne Spence on the Arlington floor last night, and the Bulldogs rallied behind this guarding to hand the Aces a 28 to 23 defeat. It was the second defeat for Arlington since Christmas, the other being at the hands of Calvert City, and checked a long winning streak in the Purchase Conference for the Arlington team.

The victory last night apparently eliminated Clinton's chances for winning the Conference title, as the Reds have already dropped four games and the Bulldogs cannot lose more than three. The final game for the local team comes in Hickman Friday night and if the Bulldogs win that tilt it will give them title to the Purchase championship. Wingo, on the basis of the standing published today, still has a chance to edge out the Bulldogs or gain a tie.

The Bulldogs dominated play last night for most of the game. Starting fast they piled up a lead of 13 to 8 at the half. The Aces came strong back after the rest period to score six straight points and take a 14 to 13 lead. The Bulldogs rallied quickly, however, and pulled out of danger. Moore slammed in six points in the final quarter, with Spence adding three and McClellan two to put the game away. Moore and Spence shared high point honors, pouring nine points each through the hoops. In the meantime Billy Reed and Layne Spence were guarding the Gaddie Twins so completely that Ray was held to six points and his brother to seven. Spence played the last half with three fouls from the first half and went out in the final minute of play. McClellan and Hassell also had three fouls called early in the game and played remarkable basketball with only one foul between them and the bench. Reed, despite his close guarding of

the tall Gaddie, did not commit a foul during the game.

McClellan 6 F Booker 2  
Reed 4 C Roy Gaddie 7  
Moore 9 G J. T. King 3  
Hassell 1 G H. King 4  
Substitutions—Fulton, Hart, Davis; Arlington—Burgess 1.

**Pups Lose**  
In the preliminary game the Bullpups were defeated 15 to 9 by the Arlington second stringers. The Arlington boys got an early lead, which they never relinquished. "Scraper" Holloway was high scorer for the Pups with 4 points and Berryhill of Arlington was high with nine markers.

**ARMY FUNDS**  
**PLEA BOOSTED**  
Half-Billion in Equipment Asked By President

Washington, — Steadily-increasing expansion of the American armed forces was emphasized today when President Roosevelt asked Congress to make available immediately an additional appropriation of \$596,936,000 for clothing and equipment for the Army.

In a supplemental budget message, the President asked the Senate Appropriations Committee to attach this emergency money to the \$32,070,901,000 military funds bill previously passed by the House and scheduled for committee approval during the day.

Addition of this amount would boost to a record-breaking total of \$1,525,764,000 the appropriations to be made available in this one measure for clothing and equipping the Nation's soldiers.

Speed is Expected  
Speedy Senate passage of the mammoth military bill, carrying more than \$23,000,000,000 for the War Department, \$5,430,000,000 for lease-lend activities and \$3,852,000,000 to accelerate the merchant ship construction program, seemed likely to point up a busy week in Congress.

Taking time out for the reading in both houses of George Washington's "farewell address," the legislators looked ahead to a program of heavy work starting tomorrow.

The no-longer controversial issue of repealing congressional pension legislation was due for consideration before the House. Scheduled for debate also was a general war powers bill, a measure to provide Government insurance against war property damage, and a bill to set up a women's auxiliary force to aid the army in home defense tasks.
