Every borrower under the program may lose the right to lend money under the program if the land or buildings are used for the purpose of operating a rural store if the loan is not repaid.

A loan must be made for at least one month in order to be eligible for the extension of the term of the loan. The extension of the term of the loan will be subject to the approval of the Extension Service and the Board of Directors of the Agricultural Extension Service.

The loan rate was increased from 5 per cent to 7 per cent, and the new rate was in effect from December 1, 1940.

The Agricultural Extension Service provides loans to farmers at 70 per cent of parity, or 57 per cent above normal consumption and exports.

The 1939 corn rate was established at 70 per cent of parity, or 57 per cent above normal consumption and exports, for the 1939 corn crop, which was slightly less than a normal year, because of the storage of the corn in order to make the crop eligible for the 1940 loan program.

The loan rate for the 1940 loan program will be 70 per cent of parity, or 57 per cent above normal consumption and exports. The loan rate will be increased to 80 per cent of parity, or 95 per cent above normal consumption and exports for the 1941 loan program.

Other principal changes in the 1940 loan program are extension of the term of the loan, from four to ten months, and the price of the loan in 1940 will be 59 cents a bushel.

Loans on 1949 will not be available until December 1, 1940, and the period during which loans are available will be subject to the approval of the Extension Service and the Board of Directors of the Agricultural Extension Service.

The loan rate for the 1940 loan program will be 70 per cent of parity, or 57 per cent above normal consumption and exports.

BIG
Any Way You Look At It!

Out of the great Ford plant has come the biggest car and biggest bug in 28 years of building cars! It is bigger in wheelbase, bigger in body size and over-all length than any Ford X-8 ever built! It offers a brand new Ford ride...the biggest step forward in riding comfort is all Ford history. It offers so many important improvements that we believe it easily qualifies as the most dramatically improved new car of 1941.

Before you decide on any new car, see this one. Drive it. Let the family try it. Then let us show you how little you need pay to trade your old car for a big new 1941 Ford.

**Christmas Season**

**Celebrated Before Christ Was Born**

Strange as it may be, the Christmas celebration wasn't started by Christians. In fact, the first celebration of Christmas was inaugurated by the Romans on December 25, 200 AD.

Christmas Day was celebrated by the Romans as the Feast of the Nativitas Solis, the "Birth of the Sun." It was a time of feasting and merrymaking to welcome the return of the sun after the long winter.

The first recorded Christian celebration of Christmas was in the city of Alexandria in 336 AD. As Christianity spread throughout the Roman Empire, Christmas Day became an important event, even before the birth of Christ was acknowledged.

To All

1941

Another Valuable reason is here, and with it an abundance of good cheer and happiness. Down through the years, it has been our pleasure to serve thousands of families in this territory, and at this happy season, we wish to extend our thoughts to those who have been our friends and patrons.

Many of our patrons will gather in the joy of having a new home or their old one remodeled—the Christmas tree. Next year we will help make many more homes happy, as other families build.

Let us wish you and yours a Merry Christmas and a Happy New Year in an old-fashioned way—Health, Happiness and continuous joy throughout the coming year.

Money Talks

FRIDERIC STEIN, RECENT STUDENT OF ANN ARBOR UNIVERSITY OF OHIO

Higher prices are a reality in the face of ever-increasing prices in materials and labor, and the rapidly mounting interest and inflation rates. Today's business men and consumers are both the victims and the beneficiaries of the cost of living. The cost of living is too high. 

Up to the present time the price of farm products has not increased as much as the cost of living. The reason for this is the opposition by farmers to high prices, particularly to the prices that manufacturers pay farmers. However, the farmers in this country have a surplus of most of their crops. This means that we are paying manufacturers to produce and gather the food that we buy. 

We must reduce our consumption or increase our savings if our food supply is to keep pace with our increased incomes. 

Also wages are up. In Christmas, federal income tax rates were increased and there is a bonus tax on savings. This means that the government is collecting more revenue from wages and savings. If wages and savings continue to increase, the government will have to increase its taxes. 

A condition of balance is necessary if there is to be economic stability and prosperity. Wages and savings must increase at the same rate as the cost of living.

Jack Moore, Charlie Figue, and Joe Bragg have made the same effort at Fordor sedans and Super Deluxe Ford cars for 1941. 

These new lower priced Ford cars have been built through out the economy-commercial of automotive assembly coupled with low depreciation, Ford reliability, and long life. The Special Ford has the same new, longer wheelbase chassis as its Deluxe companion. The same new wide bodies, encasing every painting board to give a complete styling. With the same wide bodies, the new front end styling. The same powerful V-8, get all the facts about the leading selling low cost sedan of the market and you'll get a Ford.
