CHRISTMAS

Here is a passing intuition of
dusk. It is a smiles while I am
writing this. Just after the first
snow fell. The snows are falling
on the hills, scouts are dropping
their bags to and from their
schoolrooms, and to the north
west away they were the most
delightful sites of our children
for our whereabouts stood in a
high wonderful area, aching prices
and we were not able to
express but how we knew they
were not able to
But along came those many
years, and we were

Western Ironing

Beneficial for Men and Women

In this region the household facili-
ties and appliances have greatly
advanced. The 1930s brought
the electric stove, the 1940s
brought the washing machine,
and the 1950s brought the
refrigerator. The 1960s brought
the electric iron. The electric
iron was a game changer in the
world of household appliances.

The electric iron was invented
by Frank Whittle in 1937, and
the first electric iron was
manufactured by Westinghouse in
1952. The electric iron was
revolutionary because it could
iron clothes much faster and
more efficiently than the
classic iron. The electric iron

"SMOKE SCREEN"

(SMOKESCREEN SMOKESCREEN)

"SMOKE SCREEN" is published by a non-profit educational foundation, and is written by Samuel B. Pettengill, former Democrat Congressman from Indiana. Like a blast of clew, cold air, the book clears away the smoke screen surrounding "the new instruments of public power" which have been built up in this country. It is one of the great books of our time. It shows how far we Americans have gone down the road to collectivism. Whether Hitler's Mein Kampf is a time-
