Fulton Daily Leader
The Listening Post

War is a serious thing in its relation to children. We have seen many times the tremendous impact of the war in the business world. Naturally, the younger generation is affected by these changes, as they absorb the lessons of the war.

• I have noticed a lot of boredom in the business community due to the war. The young generation is finding it difficult to earn a living.

Now is a good time to return your subscription.
Spring it will probably be more difficult to secure next year and the price will probably be higher. Now is the time to do the work. Whatever you need—plastering, painting, wiring, plumbing, adding rooms, remodelling—investigate.

**A GOOD TIME TO REBUILD OR REMODEL**

Building material in many lines is difficult to secure right now. Next spring it will probably be more difficult and higher in price. Paint will be hard to secure next year and the price may be higher. If your home needs repainting and repainting this spring is a good time to do the work.

If you lack money our service opens the way for you. We make prompt appointments and action on homes is taken speedily. There is little red tape involved and if you will bring your problems to us we think we can solve them.

Remember that painting and repainting this year will prolong the life of your home.
