Nelson Declares Labor And
Business Must Reach Plan To
Speed Vital War Production

Washington, D.C. — Despite the
feeling of Washington that labor and
business must speed up work to aid
the war effort, a spokesman for the
American Federation of Labor
(AF of L) declared yesterday that
the union leaders will not back
the program of the Washington
Bureau of Labor unless they can
be sure that the program will not
be carried out in such a manner
that the workers would be
subjected to improper or unfair
methods.

"We have been told by the
administration that the program
must be carried out in such a
manner that the workers will
be subjected to proper and
fair methods," the spokesman
said. "But we have not been
told how these methods will be
carried out. We must be sure
that the workers will not be
subjected to improper or unfair
methods before we can back
the program."

Nelson said that he would not
support the program unless he is
convinced that the workers will
not be subjected to improper or
unfair methods. He said that he
would support the program if he
is convinced that the workers
will be subjected to proper and
fair methods.

The spokesman for the AF of L
said that he would not support
the program unless he is sure
that the workers will not be
subjected to improper or unfair
methods. He said that he would
support the program if he is sure
that the workers will be subjected
to proper and fair methods.

Smith Would Modify His Work
Week Proposal To 48 Hours

Washington, D.C. — Representative
Smith of Georgia, who is proposing
a 48-hour work week for
manufacturing and mining in
the United States, said yesterday
that he would modify his
proposal to include a 44-hour
work week for manufacturing and
mining.

"I am modifying my proposal
to include a 44-hour work week
for manufacturing and mining," the
representative said. "I believe
that a 44-hour work week is
better than a 48-hour work week.

The representative said that
he would modify his proposal
to include a 44-hour work week
for manufacturing and mining.

Smith said that he would
modify his proposal to include a

SPORT TALK

It appears the turnover in coaches for the next year is going to be pretty great. Billie Barnes was let go after making changes that past year and the trend is continuing as there are many schools, including Union City, giving up spring football, but most schools do not appear to be pretty high. Many coaches and the trend is continuing as do.

Kentucky, for the past five years has been outstanding defensively, but perhaps one old sets of fans, broken, wornout parts will probably sit here as a certain coach at Paducah, who starts to get this completed in time to Adopted To Save Vital War Materials.

A GOOD TIME TO REBUILD OR REMODEL

Building material in many lines is difficult to secure right now. Next spring it will probably be more desirable, cheaper and in higher price. Paint will be hard to secure next year and the price may be higher. If your home needs repair and repainting this spring it is a good time to do the work.

If you lack money our service opens the way for you. We make prompt appraisals and action on loans is taken speedily. There is little red tape involved and if you will bring your problems to us we think we can solve them.

Remember that painting and repainting this year will prolong the life of your house.

We now have Defense Bonds on Sale at our Offices.
