Boy Scouts To Aid in Vote Drive

Boy Scouts of Benton are going to join in the nationwide Scout movement to get out the vote on Nov. 6.

The Scouts of Benton on Saturday, Nov. 3, will hang cardboard Liberty Bells on the front door of every home in town. These cardboard Liberty Bells carry printed matter urging every citizen to vote as he pleases but to be sure and vote.

Citizens are requested to keep the Liberty Bells hanging on the doors until after they have voted on Nov. 6.

On election day, Nov. 6, the Benton Scouts again will tour the city to see how many Liberty Bells remain on the doors. If they find a Liberty Bell on a door, the Scouts will enter the home and ask the occupants why they have not voted and will encourage them to vote before the polls close.

Citizens of Benton are requested to co-operate with the Scouts in the get-out-the vote movement.

THE BIBLE SPEAKS

International Union Sunday School Lesson

BY DR. KENNETH J. FOREMAN

Background Scripture: Psalm 23
Devotional Reading: Ezekiel 34:11-16

The Paths of God

Lesson for October 28, 1956

WITH a poem, the best thing to do is not to listen to a professor analyzing it. This may be of some help if the poem is an obscure one. But where the words are simple, you don't need a professor. What you need to do is to listen to someone read it who knows how to read and who loves poetry, or to read it aloud to yourself, for poetry is not intended for the eye but for the ear. Let the poem itself speak to you. If it is not too long, let it literally become a part of you.

Dr. Foreman

That is to say, commit it to memory, file it in your little grey cells so that you will always be able to find it. Millions of people have done just this with what is perhaps the most widely loved poem in the world, the 23rd Psalm.

God the Shepherd

No commentary can improve on it, and this column does not pretend to do anything but set down a footnote or two to an inspired masterpiece. The first footnote is to this picture of God as a Shepherd. One thing this brings out is the vast difference between God and ourselves. The shepherd can get along by himself; the sheep cannot. The sheep knows only what is just a few feet in front of him. He has a poor memory and very poor judgment. The Shepherd has to think ahead all the time. There are notions of religion that speak of God as the "man upstairs" and similar familiar expressions. There are notions about God that put him down on a sort of buddy-buddy basis with ourselves. How silly! Some people even think that if they just pray hard enough, that is, if they want something enough and nagging God long enough, he is bound to see it their way and let them have what they ask.

Some found that one good way to read this Psalm is to read it aloud, emphasizing the personal pronouns. "The Lord is my Shepherd; I shall not want. . . I shall fear no evil, for Thou art with me. . . Surely goodness and mercy shall follow me. . . Religion has to be in the first person singular or it isn't real. You can go all your life knowing this Shepherd Psalm by heart, and thinking what a lovely picture this is, of God the Shepherd of his people. But then one day you make the psalm your own, not in mind only but in heart—and then it simply comes alive. It helps, too, to remember the difference between a shepherd in David's time (and still, in that country) and a sheep-herder today. A farmer, in Kentucky for instance, who raises sheep just has them in a big pasture well fenced in. He has to keep his eye on them, all right, but then he can go to town or do other things. In a big green pasture a sheep can't do itself too much damage. But in Palestine, with no big green pasture, only little narrow strips of green along creek beds in rocky ravines, with jackals and other animals always on the prowl on the wild unfenced hillsides, the shepherd simply has to be there protecting and guiding each sheep personally or they will be ruined. So God the Shepherd cares for me, individually, he protects me, fights for me, he does not intend that I should be lost.

The Paths of God

Some kinds of religion, even some kinds of the Christian religion, think of God as living in some sublime heaven, watching man as he toils along his low and winding trail. The picture in this beloved Psalm is quite different. The Shepherd travels with his sheep, from one pasture to another. When one stream or water hole dries up, the Shepherd knows where another is, and leads the flock there. So the Bible reveals to us a God who, hard as this may be to believe, actually shares our afflictions, is close beside us at every step. So the paths of the flock of God follow are his paths, not because he laid them out but because they are the paths where he goes. They are not easy. The peace of God is not freedom from danger. The paths of God go by cliffs where falling rocks threaten; they lead to springs and streams that will die in summer's heat, they descend among the shadows of death, they are within sight of God's enemies and ours. But since they are God's paths, we walk secure, knowing His choice is always best.

Refunds on Gas Tax Still Go Begging in U. S.

Washington - The Government is having trouble giving away \$30,000,000.

An estimated \$3,000,000 farmers are eligible for a slice of the pie but only 1,200,000 have got around to collecting so far. Congress last spring passed a law that said farmers no longer would have to pay federal taxes on gasoline used for farm operations. And it made the act effective as of the first of the year.

This meant the farmers were eligible to collect refunds — 2 cents a gallon — on all the farm gas they used between January 1 and June 3—the first refund period.

The Internal Revenue Service went to great lengths to advise farmers of their rights—through pamphlets and advertising—and special refund forms. The full resources of the Services 1,000 offices and the Agriculture Department's 3,200 county agents were enlisted in the effort.

There are no hard figures on how many refunds have been paid so far. But informed sources said indications are that most of the farmers are not collecting.

Officials theorized the farmers either have not felt the need to go through the process with or that they have not had sufficient records to back up their refund claims.

From June 30 on, the farmers will apply for refunds on an annual rather than six-month basis. Officials hope there will be a bigger payroll when the farmers are more used to the system.

The tax cut for farmers was included in the big highway-construction bill. Gasoline taxes for the general public were raised in the same measure—from 2 to 3 cents a gallon—to help pay for the new road building.

Henry Byers of Hardin Route 1 was in town Monday and while here subscribed for the Courier.

4 REASONS

WHY YOU SHOULD
VOTE NOV. 6
FOR KENTUCKY'S

EARLE C. CLEMENTS

LAWRENCE W. WETHERBY

CLEMENTS-WETHERBY TEAM

1. THE MEN

Earle C. Clements and Lawrence W. Wetherby have been teammates
in starting—and finishing—many jobs for Kentucky and Kentuckians!

2. THEIR RECORDS

Over the years, singly or together when they were in state government,
Earle C. Clements and Lawrence W. Wetherby have accomplished much.

The Clements record as Governor and Senator includes:

- INAUGURATED NEW RURAL ROAD PROGRAM.
- MADE GREAT ADVANCES IN EDUCATION AND PUBLIC WELFARE.
- STARTED NEW INDUSTRIAL AND TOURIST DEVELOPMENTS IN KENTUCKY.
- DOUBLED APPROPRIATIONS FOR KENTUCKY WATERWAYS DEVELOPMENTS.
- AIDED IN RESTORING TOBACCO ACREAGES AFTER BENSON CUT THEM.
- PROTECTED INTERESTS OF KENTUCKY FARMERS IN SOIL BANK ACT.
- SPONSORED FEDERAL AID FOR EDUCATION.

3. THEIR PLANS FOR KENTUCKY

Both these men know your problems and how to solve them at Wash-
ington. In addition, Senator Clements would return to Congress with
the prestige of a leader and a strong position on important committees.
These items are in their platforms:

4. THEIR IMPORTANCE TO THE NATION:

Adlai Stevenson ought to be elected President and Estes Kefauver
should be Vice President. They will need a Democratic Senate to help
carry out the Democratic platform—which is a platform for you.

Seldom have two public servants accomplished so much working to-
gether. With their background of proven service to Kentucky and their
knowledge of its needs and problems, here are two veteran statesmen
truly qualified to fight your battles in Washington. Each will take a
personal knowledge of every Kentucky problem to the Nation's Capitol.

- AIDED IN SECURING \$33 BILLION DOLLARS FOR OUR HIGHWAYS.

These and other accomplishments are in the Wetherby record for
Kentucky:

- INCREASED STATE SCHOOL FUNDS 88%.
- SPONSORED CONSTITUTIONAL AMENDMENT TO LOWER VOTING AGE TO 18.
- AIDED IN BRINGING 511 NEW PLANTS AND 41,000 JOBS TO KENTUCKY.
- HELPED BUILD FINE STATE PARK SYSTEM AND TOURIST INDUSTRY.
- DURING HIS 8 YEARS IN FRANKFORT, 17,000 MILES OF ROADS BUILT.
- INCREASED BENEFITS TO AGED, NEEDY, CHILDREN AND BLIND.
- CREATED MENTAL HEALTH DEPARTMENT AND NEW HOP FOR THE ILL.
- BUILT THE NEW STATE FAIR AND EXPOSITION CENTER.

- DEVELOP KENTUCKY'S WATERWAYS AND WATER RESOURCES.
- REDUCE FEDERAL TAXES.
- INCREASE FEDERAL INCOME TAX EXEMPTION.
- GET SPECIAL TAX RELIEF FOR SMALL BUSINESSES.
- GIVE THE FARMERS 90% OF PARITY SUPPORTS ON BASIC CROPS.
- SECURE FEDERAL AID TO EDUCATION.
- INCREASE FEDERAL FUNDS FOR OUR HIGHWAYS.
- REPRESENT THE PEOPLE OF KENTUCKY—NOT SPECIAL INTERESTS.

Republicans would wreck your hopes for the future if they win con-
trol of the Senate.

Change Announced By ASC Committee On Wheat Acreage

Everett Treas, chairman of the Marshall County ASC Committee, announces that the wheat acreage on a farm in 1957 will be determined in acres and tenths of acres, consequently if the wheat acreage exceeds the allotment as much as one tenth acre (0.1) the farm shall be considered in excess and would be notified accordingly.

Previously the allotment had to be exceeded by one acre (1.0) for the farm to be considered excess.

Mr. Treas said this change

was made after much consideration and is necessary to eliminate administrative problems in soil bank acreages, to eliminate abuse of administrative tolerance and to eliminate a considerable acreage of wheat produced in excess of the allotment on those farms that took advantage of the previous nine tenths (0.9) acre tolerance.

"He went to Korea...
so my boy didn't
have to go!"

President Eisenhower's firm and positive leadership, his experience and determination, made it possible for his Republican administration to end three long years of bitter warfare in Korea.

Thousands and thousands of Americans, as well as our Allies all over the free world, have more confidence in President Eisenhower than in any living American.

Kentuckians know that PEACE WITH HONOR, and PEACE WITH PROSPERITY have been among the high achievements of the Eisenhower Administration.

OUR President's great prestige and matchless leadership are now directed toward continuing the peace and making it more secure. For this important effort President Eisenhower is the best qualified American we can choose for President of the United States for the next four years.

And what of the Kentucky boys who didn't have to fight on foreign soil because the Eisenhower Team has steered the United States so wisely since 1952? THESE BOYS ALL HAVE JOBS—67,000,000 Americans are gainfully employed today, the highest number in the history of our country, with a "take home pay" average 14 per cent higher than it was four years ago.

... for **PEACE**
and **PROSPERITY**
Elect these Kentuckians
to the United States Senate

★ John Sherman Cooper

Experienced in National leadership—twice elected as Senator from Kentucky. Experienced in international relations—served his country and the cause of peace as Ambassador to India.

★ Thruston B. Morton

ELECT THE FOUR STAR TEAM

- ★ President Eisenhower
- ★ Vice President Nixon
- ★ John Sherman Cooper
- ★ Thruston B. Morton

★ FOR PEACE . . .

Shortly after President Eisenhower was elected in 1952 he ended the Korean War and no American boy has been killed or wounded in battle since 1953. Ike's Team is pledged to a policy of future peace with honor to America! Let's strengthen that team by electing Morton and Cooper as Senators from Kentucky.

★ FOR PROSPERITY . . .

Kentucky and the whole country are prosperous — all walks of life are enjoying true and solid well-being under the sound economy of the Eisenhower Administration. Taxes are lower — the value of our dollar has been stabilized.

Elect Cooper and Morton as United States Senators — Ike needs their experience and leadership to carry on the good work!

★ FOR FULL EMPLOYMENT . . .

More than 67,000,000 Americans are employed today in the United States — more jobs than in any time in our history. And under the able leadership of the Eisenhower-Nixon Team "take-home" pay rates of all working American individuals is at an all-time high.

Elect Kentucky's star senatorial candidates — Ike needs Morton and Cooper on his Team.

★ FOR KENTUCKY FARMERS . . .

Both John Sherman Cooper and Thruston Morton have long experience, working in Washington for the "grass roots" interests of Kentucky Agriculture. Kentucky farmers can trust their talents and leadership qualities. Vote for the G.O.P. team!

For the best interests of Kentucky and ALL Kentuckians

County Soil Notes

BY HERBERT ANDERSON

Rochie Howard and Roscoe Breezel, near Middle Fork Creek on the Symsonia Highway, asked for held on a farm drainage problem. A property line ditch had filled up completely with silt and gravel over the years.

The sewers under the highway at this point are now two and one half feet lower than the field. After the soil conservation service made a survey of the proposed drain, it was found there was too much fall for a clean canal ditch.

A channel could be shaped which would carry the water but it would need to be sodded. Since very little land was involved, it was decided the best thing to do would be to change the land use to pasture and let the water spread over the entire area.

Roy Phelps, west of Castelberry's Store on the Symsonia road, has completed the construction of a farm pond for livestock water. Phelps is a cooperator of the Marshall County Soil Conservation District. The dry weather for the past two months has raised the value of stock water on many farms.

Roy Boyd has staked a drainage ditch which is almost a half mile long on his farm north of Benton on Clarks River. The survey showed that there was only a fall of about one inch per hundred feet for thirteen hundred feet of the lower end of the proposed drain. Because of this, only a shallow drain could be designed.

Wayne Williams, Kentucky Division of Soil and Water Resources, helped me prepare and record five radio programs last Tuesday. Two of the programs will be on the proposed organization of the land owners in Clark's River and Cypress Creek Watershed in Watershed Conservancy Districts. These programs can be heard each Monday morning at 6:35 over our local station.

United States Auto Club

Never before in history has anything built by man traveled so far in so short a time —by land or sea!

An announcement of decisive importance to anyone about to buy a new automobile

The most exhaustive endurance test ever given an automobile has just been completed by two stock '57 Fords—identical in every respect with cars now being offered by Ford Dealers.

Under the supervision of the United States Auto Club and the Federation Internationale de Automobile, each of these two '57 Fords traveled 50,000 miles in less than 20 days. Ford No. 1 averaged 108.16 mph for the entire run... Ford No. 2, over 107 mph. These averages include time for all pit stops.

In all, the '57 Ford smashed 458 national and international records.

This test was run on the Bonneville Salt Flats in Utah... it was the longest left turn in history.

A car, like a man, is known by its deeds, not words.

That is why, we at Ford, despite our confidence in our '57 cars, let their deeds of accomplishment speak for themselves.

Therefore, we engaged an independent engineering organization to test our '57 cars more thoroughly than any other cars have ever been tested before—in this country or abroad.

We provided them with '57 Fords—cars identical with those now offered by Ford Dealers. The rest we left up to them.

Here is what they did:

They took these cars to the Salt Flats at Bonneville, Utah.

Here, twelve of the world's greatest drivers took over.

In relays they drove these cars night and day for a distance greater than twice around the world... a distance equal to 5 years of normal driving.

Not in all history has a man-built machine traveled so far in so short a time—by land or sea!

But this was not a test of speed—but of endurance of the "Inner Ford." A trial to take the measure of Thunderbird Y-block V-8 power without qualification of any kind. A test of running gear—of brakes, of materials in body and chassis. Of steering and roadability, yes, and comfort, too!

A test, indeed, such as no other cars have ever undergone, let alone successfully concluded.

Surely they have told you, in decisive terms, that they are worth more when you buy... and when you sell!

Your Ford Dealer will gladly place at your disposal the new kind of Ford that means a new kind of value for your car-buying dollar—the greatest the world has ever seen.
