AS THE TWIG IS BENT

A Ten Minute Talk by Dr. F. E. Moore, President, State Medical Society.

As the tree is great, so the twig is bent. The seed of the tree is planted, and consequently the twig and the tree are alike. Each twig carries within it the germ of the original seed. In other words, so every child is born with the potential of the entire human organism. The twig and the branch are both parts of the tree and the same tree is represented in both.

If you have bent the twig, you have bent the tree. You are a parent, and you are responsible for the twig. You are responsible for the child, and the child is a part of you.

A doctor cannot see the twig, but he can see the tree. The doctor can take the child to pieces and see what the parts are; but he cannot see the parts of the tree.

You can't see the twig, but you can see the tree. If you have bent the twig, you have bent the tree.

The twig does not talk; the tree talks. The twig has no intelligence, but the tree has intelligence. The twig is nothing but a part of the tree, but the tree has life.

The twig is the little child, the tree is the human organism.

The twig is nothing but a part of the tree; but the twig is the tree.

The twig is nothing but a part of the tree; but the tree is the twig.

The twig is nothing but a part of the tree; but the tree is the twig.

The twig is nothing but a part of the tree; but the tree is the twig.

The twig is nothing but a part of the tree; but the tree is the twig.

The twig is nothing but a part of the tree; but the tree is the twig.

The twig is nothing but a part of the tree; but the tree is the twig.

The twig is nothing but a part of the tree; but the tree is the twig.

ECONOMIC HIGHLIGHTS

It has become obvious to almost everyone that labor is the Senator's pet issue in the Senate. It is the only one on which he is clear-cut, and that 90 per cent of future legislation will be determined by the Senate's decision. The battle is on and will be fought.

Under the best of conditions our arms program is not going to be eliminated or reduced. The Senator's determination to prevent any reduction in the arms program is absolute and firm, no matter how much it may cost in the long run. He is determined that the situation shall not deteriorate to such a point that there are no longer sufficient funds to maintain our armed forces.

The Senator's position on the arms program is not to be mistaken for an intention to reduce it gradually. He is determined to maintain it at the highest possible level for the sake of national security. He is not interested in any reduction, no matter how small, in the arms program.
