territory. The News today an-
nounces the inauguration of a \$2,000

The aim of this sixty day drive
is to place The News in every home
in Fulton and adjoining counties
and to thus encourage for the Ful-
ton and Ken-Tenn merchants—one
hundred percent coverage on the
theory that every news and adver-
tising reader is a booster for the
local merchants and a potential cus-
tomer for them.

To do this quickly and effectively,
The Fulton County News offers
\$2,000 cash in estimated prizes and
daily paid commissions to local
salespeople.

20 Per Cent Cash Commission
In order that everyone who takes
an active part in this subscription

JUDGE WALKER MAKES FORMAL ANNOUNCEMENT FOR RE-ELECTION

In this issue of The
News, appears the formal
announcement of Judge
Claude L. Walker, who is
a candidate for re-election
as County Judge of Ful-
ton County, subject to the
action of the Democratic
primary, which will be
held Saturday, August 2,
1941.

It has been a general
belief among friends of
Judge Walker that he
would make the race
again, because his record
has been a good one, and
his friends have felt that
he should be given four
more years in order that
the job he has undertaken
may be completed. When
the Walker administration
first took office, the fi-
nancial condition of the
county certainly was not
an encouraging one. But
steps were taken immedi-
ately to stop excess ex-
penditure and to reduce
both bonded indebtedness
and floating indebtedness.
Judge Walker's long ex-
perience in financial mat-
ters was very beneficial in
getting the job done. And
today the financial stand-
ing of the county is much
better than it has been in
many decades, and the
county is operating on a
cash basis.

Despite retrenchment and read-
justments in the financial status of
the county, material progress has
been made in the construction of
roads throughout the county,
through the cooperation of WPA
and the county administration.
Judge Walker stands well with the
state officials, and has worked in-
cessantly with the fiscal court to
improve the general condition of the
county. His efforts have been well
directed and untiring. The News
commends the Walker administra-
tions, and the clear, concise way in
which Judge Walker makes his
formal announcement, as follows:

**TO THE VOTERS OF FULTON
COUNTY—Ladies and Gentlemen:**
Subject to the action of the Dem-
ocratic Primary, I am a candidate
for re-election to the office of
County Judge, which office I have
filled for the past seven and one-
quarter years.

During the time that I have been
in office, I have given all of my
time and energy, and such intelli-
gence as I have to straighten out
the county's affairs, and I leave it
to the voters to judge for them-
selves the kind of job that has been
done, and I invite a close examina-
tion of my stewardship. A thorough
investigation will show that hun-
dreds of thousands of dollars have
been saved the taxpayers, and at
the same time governmental func-
tions have been provided for in a
much bigger way than ever before.

We have not only lived within
our means, but the debt has been
reduced more than \$150,000. All
of the old bonded indebtedness
has been refunded at a great re-
duction in the rate of interest, and
a saving in interest alone on the
bonded indebtedness of the county
amounts to \$230,270.14, as shown
by certified public accountants.

When I came into office, January
1, 1934, the county owed \$601,433.45
and the assessed valuation of prop-
erty producing taxes had been re-
duced at least one-third from for-
mer years. The debt at this time
has been reduced to below \$450,-
000. On January 1, 1934, there
was in default \$150,470.76; where-
as, at this time none of the debt
is in default. All bond issues are
current and all warrants that have
been issued since I have been in
office have been paid.

Not only have we provided for
governmental functions in a more
substantial and bigger way than
any preceding administration, but

BODY OF ROY SMITH FOUND AT HICKMAN

The body of Roy Smith, age 44,
was found Tuesday morning at 9
o'clock, four miles below Hickman
as it bobbed to the surface of the
Mississippi river, by a government
watchman. Smith was one of the
two men that were drowned in the
Mississippi on the night of April
9, as the government truck in
which they were riding failed to
stop on the ferry and plunged on
through the chain into the river.

Smith's body was taken to a
Hickman funeral home, where an
inquest was held with Coroner E.
A. Hammond rendering the follow-
ing decision "death caused from
accidental drowning as a result of
reckless driving." Smith's body was
removed to his home in Memphis
late Tuesday.

Search will continue for the body
of Frank Krouse, who was also an
occupant of the truck. The govern-
ment has men stationed every five
miles down the river toward Mem-
phis and one of these watchmen
discovered Smith's body.

Mr. and Mrs. Thomas H. Allen
spent the week end with Mr. Allen's
parents in Paducah.

Mr. and Mrs. J. A. Purcell return-
ed to their home in Cecelia, Ky.,
on Tuesday after several days visit
with Mr. Purcell's brother, W. H.
Purcell, and family on Jackson
street.

Chamber of Commerce Holds April Meeting

The Fulton Chamber of Com-
merce, presided over by President
R. H. White, met in regular month-
ly session Monday night at the
Rainbow Room. Reports were
made by various standing com-
mittees, and a general discussion of
civic problems was conducted by
the president.

Joe Browder, as chairman of the
Harris Fork Creek committee, re-
ported that no action has been tak-
en on this project. Mr. Browder
and Mr. White are to investigate
this matter, and report on a plan
to improve the situation.

The body decided to postpone
plans for rural meetings that have
been sponsored annually by this
organization. This matter will be
taken up at the June meeting.

Ford Lansden, chairman of the
Industrial Committee, announced
that a new stove factory has lo-
cated in Fulton, near the Riceville
overhead bridge. It will employ
about 60 men.

Mrs. Boyd, secretary of the club,
reported that 61 members had paid
in full, 12 having signed member-
ship cards and \$715.00 dues collect-
ed.

B. A. Ross, member of the Agri-
cultural committee, reported that
more pure bred sires are needed in
the Fulton rural area.

In a round-table discussion that
no formal programs will be con-
ducted, but that meetings will be
devoted to open discussion of civic
problems.

Mr. White reported on a joint
meeting with Union City regarding
Military Highway No. 51, which
will extend from Chicago, Ill., to
New Orleans. He also said that the
State Line road west of Fulton will
be graveled this year.

A. C. Butts called attention to
the accidents that have been occur-
ring on the Browder Crossing, and
urged that a signal light be install-
ed. President White promised ac-
tion on this matter.

After a discussion of the traffic
and parking situation in Fulton,
Louis Kasnow and Paul Bennett
were appointed to work with the
YMBC in contacting merchants in
an effort to secure pledges from
each of them that they would dis-
continue parking all day on down
town streets.

THE BIG DEFENSE BOTTLENECK

Signs multiply that the great American public is becoming impatient with the antics of some of the local labor unions. So impatient that if the unions don't develop more leaders with the sense and vision that some of them have they all stand to lose all the gains thrown into their laps by a sympathetic reform administration.

BERT NEWHOUSE, Prop.

FULTON, KY.

Nation's Business relates a typical case.

At a small town in the mid-west the Government wanted 3,000 to 4,000 carpenters and hundreds of sheet metal workers. Few were available in the immediate vicinity and no union men at all. So the contractors sent to the largest nearby city for help. Passenger carloads of craftsmen came a-running, but they wouldn't work with the local men who didn't have union cards.

Accordingly, the unions must stop to organize the country boys and gather in a rich harvest of initiation fees. Since the Secretary of Labor has set a wage scale in this area at the rates prevailing in the nearest large city, all the new, inexperienced craftsmen must be paid the standard journeymen's wages. The contractor is expected to take all this jockeying in his stride and turn out the job on time under pain of a penalty forfeiture.

For good or bad the people have undertaken this task of hurry-up armament. To them the first and only objective is to get the job done. They don't want to wait on a lot of labor organizers to recruit union memberships before they take off their coats and go to work. And the men who are given real jobs for the first time in years don't relish splitting their first pay checks with a labor organizer.

Doing good is the only certainly happy action of a man's life.—Sir P. Sidney.

THE FORUM

By J. PAUL BUSHART, Editor

A column conducted for news, views and comments, in which readers of The News are invited to participate. Mail contributions care of THE FORUM, this newspaper.

Last week I had an enjoyable visit at the office of the Farm Bureau, over which J. B. McGehee presides as secretary-treasurer. On this occasion, it was near closing time, and there was a discussion among the young ladies and Mr. Gehee about their vacation. The problem seemed to be who should take theirs and when, as all could not go at one time, for that would leave the office improperly chaperoned, so to speak. We will say that Mr. Gehee has some able assistants in Mrs. Turner Davis, Miss Elizabeth Brasfield, Miss Dorothy Rudd, Miss Louise Shuck and Miss Louise Maddox. It appears, however, that Dan Cupid is likely to shoot "one" one of them right away.

As the eve of election time draws nearer there is more and more talk going the rounds about who will run and who will not run in both the city and county races. It appears that Paul DeMyer will not seek the mayor's office again, having served in that capacity for several terms. Kellie Lowe has indicated that he will not run, for he is now one of our progressive farmers. Some of the other members of the council will seek re-election, while there is mention of other names which will appear on the ballot. Tom Boaz, it is rumored, will announce for mayor. Raymond Peeples, who served on the city council one term, and made a good race against Paul DeMyer a few years back, will probably be in the mayor's race. He is one of Fulton's progressive business men, and was the sparkplug that started the movement to obtain the garment factory in Fulton. As a result of his early initiative, interest in securing the factory grew, and funds were raised to enlarge the building here. Mention has been made that Smith Atkins might run for mayor, but it now seems likely that he will not because of pressing business that keeps him on the jump. Whoever comes out for mayor should do so with the abiding belief and hope that he will be able to promote the best interests of our city. Only a man of deep civic pride will seek the office and then not voluntarily but at the request of friends and citizens who believe he will do a good job toward making Fulton a better and finer community in which to live.

City offices are not usually sought because of the grief and trouble they bring the holders. For that reason it is urgent that you as a citizen persuade good men to serve their community. It should always be borne in mind that the best public servants do not come unsolicited, and that to preserve true Democracy there should always be more than one candidate for each office. This gives you

and your friends, as voters, an opportunity to vote your choice. Where there is no competition there might as well be no poll of votes. BEAR THIS IN MIND now, before it is too late for candidates to file for nomination.

The Board of Education has decided upon the site of the new grammar school building. It will be erected just about where the present Carr-Institute building stands, and it will face State Line. The ground will not be purchased off Carr's Park, which means a savings of approximately \$6,000 for other usage. The board is doing an excellent job in arranging plans for the new school, and the new building will be a real credit to the community.

Railroad activities in this section have been picking up in recent months, as stimulus is gained from defense efforts throughout the nation. Local railroad employees are working steadily, and there has been an uplift in payrolls on the Illinois Central System.

Money Talks

By
Frederick Stamm, Economist
Director of Adult Education
UNIVERSITY OF LOUISVILLE

Oftentimes the glamor of foreign trade and the publicity given it overshadow the importance of some of our great industries as "buyers" of American goods.

Take the American railroads for example. Their "shopping list" contains over 70,000 different items. Last year they spent over 200 million dollars for coal, 56 million for fuel oil, and four million for gasoline. Purchases of forest products (ties, telephone poles, etc.) amounted to nearly 70 million in 1940. They bought iron and steel products amounting to 400 millions. Purchase of miscellaneous products such as glass, drugs, chemicals, stationery, paint, food products, etc., amounted to 183 million. These figures do not include the millions spent on new equipment.

For the direct purchase of material and supplies used in everyday operation, the railways have spent, during the last ten years, an average of nearly one billion dollars a year. Filling the railways' enormous

Corn King's Recipe for Success

SHELBYVILLE, IND.—There's no magic formula for winning the title of "Corn King" of North America. It's largely a matter of sound farm management and soil improvement, according to Charles N. Fischer, who was adjudged Grand Champion Corn Grower at the recent International Livestock Exposition in Chicago.

The 35-year old champion, who farms 80 acres near here, entered a 10-year exhibit of open-pollinated yellow dent corn, which judges at the Chicago show pronounced one of the finest ever seen from the standpoint of quality, firmness of ears, plump kernels and all-around superiority.

Maintains Fertility.
The soil on which this prize-winning corn was produced yields an average of 75 to 80 bushels of corn per acre every year. Fischer is eternally vigilant about maintaining the fertility level. This he accomplishes by putting back into the soil the plant food elements removed by crops. He uses fertilizer, follows a crop rotation and grows legumes.

"I follow a three-year rotation which includes corn, wheat, clover and alfalfa," he said. "The clover is sown in the wheat. An application of 125 pounds per acre of a mixed fertilizer containing nitrogen, phosphorus and potash helps to provide nourishment for the crops. The crop rotation and fertilization program is augmented by regular applications of manure from our

livestock to all our fields." Results such as he has obtained are exceptional, the Middle West

Charles N. Fischer

Soil Improvement Committee points out, but experience has taught Fischer and millions of other Middle West farmers that by applying fertilizer they can be assured of an increased corn yield, better quality and higher prices at marketing time.

mous market basket gives employment to hundreds of thousands of people in American industries all over this country.

This is but one of many illustrations which could be used to show the importance of one industry to

American life. As important as our foreign customers are, we must not overlook our great domestic industries which furnish the basis for our American economic prosperity.

Tidbits of Kentucky Folklore

BY Jordan Wilson, Ph.D.

FOLKLORE AND ANTIQUE-HUNTING

Americans have hardly begun to appreciate their heritage. Antique-hunting is often comic, but is basically sound, for it calls attention to the fact that our ancestors were people who lived and worked and suffered just like us and who even had what then and now could pass

for beautiful objects. Rather oddly not many other phases of folklore study have become popular. We are so obsessed in America that each of us, in spite of our known middle-class or lowly origin, is a Cinderella or some other princess in disguise that we do not accept frankly our folk origin and attempt to find out facts rather than distorted boosts to our vanity.

How Would You Like To LOSE 15 lbs. of FAT?

How would you like to safely lose some of that ugly fat in a few weeks without risky drugs or inconvenience? How would you like to lose your double chin, bulging stomach and hips AND along with it regain your natural charm and attractiveness.

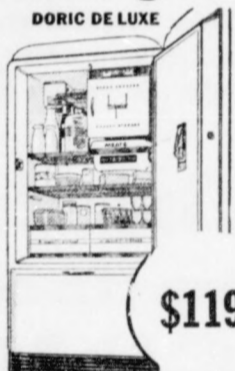

Weigh yourself today. Get a bottle of Kruschen Salts (a famous English formula). Then every morning before breakfast take one half teaspoonful in a glass of water—eat wisely—cut out fatty meats, butter, cream and rich pastries—go light on white bread and potatoes.

After 4 weeks weigh yourself again and just see if you haven't lost pounds of ugly fat and gained that "Kruschen Feeling" of greater vivacity, more energy and improved health that so often accompany fat reduction.

REFUSE IMITATIONS! Demand and get only the genuine Kruschen (the famous English formula) plain or new effervescent, pleasant, sparkling. Bottle lasts 4 weeks and costs but a trifle. Any druggist.

"Pay-As-You-Go"

PLAN IN BRIEF

The object of this big "Pay-As-You-Go" drive is twofold. Primarily, to increase the already large subscription list of this newspaper; to collect arrearages and advance subscription payments from present or old subscribers, and at the same time to afford the live-wire energetic men and women, boys and girls of this territory an opportunity to profit in a BIG way through their spare time during the next few weeks. So it is a plan that works both ways, and to the ultimate good of all concerned.

In order to gain this end quickly and advantageously, the most attractive awards ever offered by any newspaper in this section have been made ready for distribution among those who participate most actively. Ambition and energy are the only requisites for success.

Let it be understood at the very outset that this is not a "beauty" nor "popularity" contest, but a strictly legitimate competitive proposition for enterprising men and women, and one into which no element of chance enters. Each active participant will receive a pay check every Saturday night. One feature of this drive is the fact that "everybody wins." There will be no losers.

HOW TO ENTER—WHAT TO DO

The first thing to do is to clip the Entry Coupon appearing below; fill in your name and address and mail or deliver to this newspaper at once. This coupon entitles you, or the person whom you might wish to enter, to 5,000 free credits. These credits are given as a starter to speed you on your way to win. Only one such Entry Coupon will be accepted for each participant.

The next step is to call or write the "Pay-As-You-Go" department for a free working outfit.

Thus equipped you have but to see your friends and acquaintances and have them subscribe to this newspaper through you. That's all there is to it! However, you will never get anywhere unless you make the start—the earlier the better. Once started, let no one discourage you. Anything worth having is worth striving for. Within a few short weeks you may be riding in your own BIG automobile or otherwise several hundred dollars richer in purse!

HOW CREDITS ARE SECURED

It takes credits to win, and they are secured in the following way: First, by clipping the Free Credit Coupon appearing in this newspaper.

The only restriction placed on these coupons is that they must be cast before the expiration date.

The other, and much faster way to accumulate credits in this "Pay-As-You-Go" Drive is by securing new and renewal subscriptions to this newspaper. On each order secured credits are issued, the number varying, according to the amount paid and during which "period" they are received at the Campaign Department of this newspaper.

EARLY START MEANS EASY FINISH

The advantages of an early start are manifest. This "Pay-As-You-Go" drive is of such duration that immediate action is necessary for success. Orders taken during the early part of the campaign carry the MAXIMUM number of credits. Then too, the first in the field will undoubtedly get the "cream" of credits and subscriptions, while those who put off entering until a later date will have to take what is left.

Don't lose valuable time "waiting to see what the other fellow is going to do," but pitch right in and show the other fellow how to do it!

"Pay-As-You-Go" - Board Of Judges

It is the sincere aim of this newspaper to conduct this campaign from start to finish in a fair, honorable and impartial manner, and for this reason, the campaign will be brought to a close with the assistance of a board of Judges whose duty it shall be to canvass the votes and cash contained in the

ballotbox and help the campaign manager to make the final count of votes. This committee of Judges will be made up of local business men, known the county over for their fairness in their business transactions, and they will be selected AT THE APPROVAL OF THE WORKERS.

"Pay-As-You-Go"

WEEKLY MONEY BONUS VOTES

And It Is Votes That Win Those Big Prizes

A special bonus vote will be issued at the end of each week (Saturday night) to each candidate, the amount of votes being based on the following schedule:

FIRST PERIOD		SECOND PERIOD

\$ 50.00 reported for week	75,000 Votes	\$ 50.00 reported for week	50,000 Votes

\$100.00 reported for week	500,000 Votes	\$100.00 reported for week	250,000 Votes

Do not hold back subscriptions to complete "clubs" or money bonuses, as an exact record is kept of each day's money reported, and the club votes will be issued as soon as "clubs" are completed. Should a worker's cash remittances for a single week's work exceed the top money bonuses shown above, said remittances shall be prorated as per above scale.

RULES and REGULATIONS

1. Any white person of good character except salaried employees of this paper is eligible to enter and compete for the awards and commissions.
2. The winners of the awards and commissions will be decided by their accrued votes, said votes being represented by those issued on subscriptions and by coupons clipped from the papers.
3. Cash must accompany all subscriptions where votes are desired. Participants will not be confined to any given town or community, but will be allowed to secure subscriptions anywhere. Said votes are FREE, it costs the subscriber nothing extra to vote for a favorite participant. Votes issued on subscriptions may be held in reserve and cast at discretion of the participants or this newspaper.
4. Credits are not transferable. Participants cannot withdraw in favor of another participant. Should a participant withdraw from the race, his or her credits will be cancelled. Neither will it be permissible for participants to give or transfer subscriptions to another participant. Credits on such transferred subscriptions will be subject to disqualification at the discretion of the management.
5. In event of a tie for any one of the awards a prize identical in value will be given each tying participant.
6. Any collusion on the part of participants to nullify competition, or any other arrangement entered into to the detriment of parties of this contest will disqualify any participant or participants entering into or taking part in such arrangement, and such participant or participants shall be ineligible to have or receive any reward, prize or commission.
7. No statement, assertion, or promise, either written or verbal, made by any participant, contrary to the rules and statements appearing in this newspaper, will be recognized by the publisher or the campaign manager.
8. In case of typographical error it is understood that neither the publisher nor the campaign manager be responsible except for the necessary correction, thereof, upon discovery.
9. Participants are considered authorized agents of this newspaper, and as such may collect subscription payments from present as well as from new subscribers. It is understood that they shall be responsible for all money collected and must render in full on the regular report days at the discretion of the management.
10. Active participants will be paid a twenty per cent cash commission against the award they win on all subscription money turned in to their account as follows: At the close of the second week of the campaign, and each week thereafter, cash remittances of each worker will be totaled up and a drawing account of half of said commission will be paid against said remittances at the worker's request. Workers remaining ACTIVE throughout the entire campaign, and who fail to win a major award, or those who prefer the allowed commission instead of the award they win, will be paid their additional commission.
11. It is definitely understood that any commissions drawn will be treated in the light of an "advance" against an earned award, and refundable upon presentation of said award.
12. To insure absolute fairness and impartiality in presenting the awards, the campaign will be closed under the sealed ballot box system. During the entire last week of the race—a ballot box—locked and sealed—will repose in the vaults of a local bank, or as otherwise deemed advisable where participants and their friends may deposit their final cash collections, and reserve votes. When the race has been declared closed, a committee of local men, who will act as the official judges, will take possession of the ballot box, make the final count, and declare and present the winners with their awards. In this way, no one, not even the campaign manager nor the publisher can know the voting strength of participants, which precludes all possibility of favoritism.
13. A subscription once turned in can be extended at any time giving a like value as though included in the first payment.
14. Should two or more workers remit a subscriber's extension, either one of which builds the subscription up to the total term length allowed, said workers will each receive an equal number of extension votes as permitted by the vote schedule.
15. Five thousand extra credits will be given to each participant who made a cash report each Tuesday, Thursday and Saturday nights.
16. This newspaper guarantees fair and impartial treatment to all participants, but should any question arise, the decision of the management will be absolute and final.
17. This newspaper reserves the right to include both advertising and job printing, if so desired, on which proportionate votes will be allowed, coinciding as much as possible with those allowed on subscription.
18. In becoming a member of this "Pay-As-You-Go" subscription drive participants agree to abide by the above rules and conditions.

(a) increase pork production by feeding hogs to heavier weights and by increasing farrowing; (b) increase dairy production by feeding cows more grain and by milking more cows; (c) produce more poultry and eggs by increasing the size of flocks.

In 1927 Linton and Wells, employing train, boat and airplane, completed the circuit in 28 days. In 1928 Mears and Collyer reduced the time to 24 days; the dirigible Graf Zeppelin in 1929 cut the record to 21 days.

Then challenged by Jules Verne's book, "Around the World in 80 Days," Nellie Bly, a newspaper woman, went around the world by boat and train in 72 days in 1899. The next year George Francis Train did the stunt in 67 days. Other records ranging around 40 days were made in the succeeding years before the advent of the airplane.

How the time required for this feat has been reduced is strikingly illustrated by the fact that Magel-

lan's ship Victory, the first to circumnavigate the globe in the accepted sense, took three years tackling 12 days for its voyage, 1519 to 1522.

Do You KNOW THE DIFFERENCE BETWEEN A PERSON-TO-PERSON and a STATION-TO-STATION CALL?

THE first important difference is in the cost. Station-to-Station service is about one-fourth cheaper than Person-to-Person service on most calls.

A PERSON-TO-PERSON CALL

A Person-to-Person call is one where you ask to be connected with a particular person at a distant telephone or a particular station of a private branch exchange. Timing of a Person-to-Person call does not begin until the person you want is brought to the telephone.

A STATION-TO-STATION CALL

A Station-to-Station call is one where you merely ask to be connected with a distant telephone. After the called telephone answers, if you wish, you may then ask for some particular person, but the charges on a Station-to-Station call begin when the distant telephone answers.

Also, the rates for most Station-to-Station calls, after 7 P.M., are about forty per cent less than the day rates, while most rates for Person-to-Person service, after 7 P.M., are reduced approximately twenty-five per cent from the day rate. For rates and other information, look in the front pages of your telephone directory, or ask the long distance operator.

THE EARLY GARDEN INSECTS

The vanguard of the insect hosts has started coming. Some, as for example, the lice and worms on cabbage and on greens are already here in force.

The lice make their presence known by cupping up the leaves, by causing "scalded" spots on the leaves or by stunting the whole plant.

As suck insects, no arsenical poison is of any use, but a spray or dust that kills by contact must be used.

An effective spray can be made by steeping trash tobacco in lukewarm water (never boiled), adjusting its strength to kill the lice within 15 minutes of spraying. Lacking tobacco, commercial nico-

tine extract may be used. Its name is "Black Leaf 40" and directions are on the bottle. Cream of Rotenone is also highly recommended and is available in Fulton and in Hickman.

If dusting is the means used for combating insects, an effective dust is one containing rotenone or pyrethrum. Several forms of such dusts are on the market, offered primarily for the control of the Mexican bean beetle. Both rotenone and pyrethrum are tasteless and harmless to humans. They kill insects themselves. The same is true of tobacco spray, too.

Another insect now started is the green worm on cabbage. This is a chewing insect and as such is killed by poison or spray. The best material to use is arsenate of lead, a heaping tablespoon to a gallon of water, as a spray; or as a dust, one part of arsenate to five parts (by weight) of fine lime. The finer the mist the spray makes the better, though some gardeners add wheat flour, two tablespoons per gallon, as a "sticker." Four weekly applications of dust or spray should keep the worms in check. By that time heading will have begun, af-

ter which a switch could be made to rotenone or pyrethrum.

The green worm attacks mustard, Seven Top, Cauliflower and broccoli. On these, arsenicals should never be used, but only rotenone or pyrethrum. These by the way, may also be purchased in extract form of which to make spray. The directions are on the bottle.

Garden Notes

The peach purculio, better known as the peach worm, has made its appearance in our orchards and it is time now to spray our peaches to help stop the peach worm.

Spray with 21-2 pounds of lead arsenate, 21-2 pounds hydrated lime, 2 pounds zinc sulphate, and 100 gallons of water. This should be done at once.

Apples are also ready for scale and codling moth. Spray your apples with 3 pounds of arsenate of lead; 2 gallons of lime sulphate; 2 pounds of hydrated lime, and 100 gallons of water.

Luke Simms, who played the north end of a reindeer in the Christmas pageant, will be a whole grizzly bear in the new church play, "The Last of the Mohicans."

Martin Robinson and Blossom Marsh, slated to join the holy matrimony ranks this spring, will not do so as planned. Martin doesn't like farm work.

Mrs. Wellington Smythe's pet dog, Ichabod, was found poisoned yesterday and in severe pain. He will recover, the doctor says. Mrs. Smythe's husband will reside at Cool's Boarding House for several weeks.

The Gus Cooper baby has the mumps. So has Gus.

Miranda Foslick is changing her name to "Melanie" since seeing "Gone with the Wind" last week.

Clocky Cortright lost his pay envelope last Saturday night and stayed out until two o'clock in the morning looking for it. He was so tired after his long search that he staggered home and remained in bed until Monday morning.

"Frogface" and Mrs. Dugan are the proud parents of a son, born late Saturday night while Frogface was sitting up with Milt Evans' horse. The horse is coming along fine and will have the splint off his leg in a couple of days.

Firemen tore up to Simon Carbert's farm Thursday afternoon in answer to an alarm of fire. They would have been highly successful if Clem White had put the extinguishers back on the truck when he got through filling them last Saturday.

ONE-MINUTE SERMON

J. Wesley Richardson, Elder
7th-Day Adventist Church

The story of Johann von Dannecker, a celebrated sculptor, is often told. He worked for years upon a statue of Jesus. After finishing it, he brought a child into his studio, and standing with her before the statue said: "My child, who is that?" She looked up at the wonderful work and said: "Sir, it is some great man."

The sculptor was smitten with disappointment. He said to himself: "This will never do. The statue must be a truer likeness of Him than this." Again he worked with chisel and mallet for months. He prayed about his work in the vigils of the night, asking God to help him that he might reproduce the likeness of Christ in the marble so clearly that all might know Him.

Once again he brought a child into his studio and asked: "Who is that?" The child looked at the masterpiece in silence, then, with a quiet tone of voice and brightened eyes, replied: "It is He who said, 'Suffer the little children to come unto Me.' " The sculptor was satisfied.

We can say with all certainty yet with deep earnestness, that the greatest argument for Christianity is a holy life, and that he who would be a genuine Christian must needs know and deeply realize that he will be looked upon by the public, his friends and often by his loved ones, with critical eyes. How he should pray! with surrendered heart and living faith he may lay hold of God's word of promise, so that when men look into his face and examine his actions and his daily life, even with careful gauge, they will see the exemplification of his Lord. They will not find something which belongs to the world above; living faith, divine love, great kindness, gentleness of spirit, holy living the true principles of Christianity. The world learns of Christ and Christianity through His followers. Jesus said: "I, if I be lifted up from the earth, will draw all men unto Me"—Jno. 12:32. Christianity is not rulership or overlordship, but humble service and righteous living.

Recently, I said something about the action of the pedestrian. Now I am in the position of a pedestrian watching the automobile driver. Just stand on any street inter-

section, at any crossroad, or along the country road; and note the actions of some of the careless automobile drivers. They think they have exclusive rights to the highway and that all other automobile drivers and pedestrians have absolutely no rights at all.

Of course, the automobile driver has certain rights prescribed by law, but to violate all acts of decency by driving at an excessive speed, by cutting in and out, and by endangering the lives of pedestrians and other automobile drivers is not anybody's right.

The right to live is more sacred than the right to drive. Bashfulness is an ornament to youth, but a reproach to old age.—Aristotle.

No one has ever really circled the globe, because to literally do that would mean going around the world at its circumference, whether by following the equator or otherwise. But going around the world is generally understood to mean any passage around the earth between the two poles.

Judge Walker Announces (Continued from Page 1)

there has been constructed in the county 173.25 miles of roads-grade, drain and surface. The County is required to furnish right-of-ways for all roads built by the WPA, and in addition to this, pay 25% of the cost of the roads.

The operation of the jail, the poor farm, and in fact all operating expenses are at a minimum and at a cost far less than they have been for many years.

My first act was to put the county on a cash basis, since which time the county has been kept strictly on a cash basis which means that all county expenses are paid from current revenue. I promise the people of Fulton County that it will be kept on a cash basis so long as I am your County Judge.

By being on a cash basis, as everyone must know, you can buy much more for your money and money goes much further. Everything purchased by the county is purchased by competitive bids. I might add that new road machinery has been bought since I have been in office amounting to \$12,000 and all of this road machinery has been paid for with the exception of \$850, which is due July 1st and which will be paid promptly on that date. There are many savings that could be enumerated which I shall be glad to explain in detail to the voters of Fulton County if any of them so desire.

I have tried to be fair and just in all my dealings with all people. At the same time I have tried to carry out my sworn duty to the citizens of Fulton County as prescribed by law. I have dealt fairly with all people, regardless of their financial standing, the rich and the poor alike. I solicit the support of the voters in the Democratic Primary which will be held on August 2nd. I will be grateful to those who support me and to those who do not, I will bear no ill will.

Signed, Claude L. Walker
