Weather signs are a combination of facts of meteorology, folk knowledge and folk ignorance. Other signs are basically sound. Might, belief and superstition are mixed in the mind of the primitive. Morning red and gray are not signs of rain. If the sea is calm, there is not a dolt in the world who will not believe it. In it lies the power of nature, visible, invisible, far, near, where science and superstition meet. It is easy to see why. The sea is not far from the man. The man is best acquainted with the sea. The primitive mind is the medium of the primitive mind. It is the medium of the universe.
