FULTON COUNTY TOMATO ACREAGE IS ENLARGED

When Secretary of Agriculture Claude R. Wickard asked for a 50 per cent increase in the production of tomatoes for canning, Kentucky growers already had planned a big increase, according to the Department of Markets and Rural Finance at the University of Kentucky College of Agriculture. Probably 5,000 acres of commercial tomatoes will be grown in Kentucky this year.

It is expected that nearly 1,000 acres of tomatoes will be grown in Hickman and Fulton counties for a Tennessee cannery. Daviess county farmers will grow 500 acres or more for an Owensboro cannery, and growers in Henderson, Muhlenberg and Daviess counties are planning to set at least 500 acres for canneries at Evansville, Ind.

Will Shanklin Announces for Re-Election As Jailer

TO THE VOTERS OF FULTON COUNTY

After having received encouragement from many friends in Fulton, Hickman and various sections of Fulton County; after having given deliberate consideration to my known duties and responsibilities of office which I have tried to faithfully execute in my past four year term of office, I am hereby declaring myself a candidate for the Democratic nomination of Jailer of Fulton County, subject to the action of the Democratic Primary to be held on Saturday, August 2nd, 1941.

I have been a citizen of Fulton county for many years, coming to Hickman 38 years ago. For ten years I worked with the Mengel Company, was employed with the A. B. Smith Lumber Company for two years. While with the Equipment Company drag line at Miller, Ky., I suffered the loss of my left foot during an accident. Up until I made my race for jailer I had never sought public office, and I now ask to be returned for a second term, if the voters feel that I have kept faith with them and my duties.

I married Miss Inez Lamastus after settling in this county and to this union have been born five children, three boys and two girls, who have been educated in the Hickman schools.

I am thoroughly conscious and acquainted with the responsibilities of the office which I seek and its relation to the people and law and order. I know it is the duty to adequately maintain the county property in a good state of repair, that it is his duty to keep the County Jail secure and in such condition to meet all requirements of the Department of Health; to keep its premises clean and inviting and to serve the best interests of Fulton County and its County officials. If you will elect me Jailer it will be my sincere desire and duty to continue to do right and administer the duties of the office as the law requires and in a manner that will uplift the social morale of the entire county and at the same time exemplify due regard for the rights of its people by extending the courtesies expected of a good officer.

I shall endeavor to meet every voter in Fulton County personally and discuss the important things of this campaign and I am asking that they elect me Jailer on my own merits and past record. Please examine my qualifications and give me your earnest consideration for all of which I will be honest, faith- ful and grateful.

Yours very sincerely,
WILL T. SHANKLIN

Enroute to Humboldt Thursday morning the South Fulton band met other county bands to play "The Star Spangled Banner" in concert on the Kenton streets. Mr. Schwalb's other bands include Woodland Mills, Troy, Hornbeak, Dyer and Kenton.

The Fulton High school band will also attend the Cotton Carnival in Memphis next week. They will go in two special cars, provided by the Illinois Central, leaving Fulton on Thursday, May 15, and returning the next day. Several townspeople are expected to make the trip.

HOW WOULD YOU LIKE TO WIN A CAR?

Too Few Have Enrolled To Date.
Still Many Territories Without
Entrys. Those Now Working Are
Being Paid From \$2 To \$5 Daily

A \$790 Special Two Door Ford Sedan or \$500 Cash. A number of other cash awards with a guarantee of every fifth subscription dollar collected is the pay of those who participate in The Fulton County News \$2,000 Subscription and Trade Expansion drive.

Someone in Fulton and the Kenton area is going to receive that reward during the next 50 days—and it is equivalent to a mighty nice salary, \$100.00 a week and \$50 a week—more than a great many people command in a life-time.

The opportunity to secure a new automobile, cash to buy a new radio, furniture, redecorate the house or pay off the mortgage, is offered in connection with a circulation campaign of The News which starts right now.

Full details of the contest will be found in this issue.

But the \$790.00 Ford Sedan capital prize is not all that is offered. No, indeed. A cash award list totaling \$2,000.00 will be divided among contestants in the 50-day campaign. Approximately \$1,000.00 in 20 per cent commissions will be distributed.

ENTRANTS WILL BE PAID DAILY cash commissions to help pay their way during the campaign. These contestants not winning one of the grand prizes will be paid a 20 per cent cash commission each day upon reporting their sales.

The paramount necessity for contestants in this campaign is an early start, because the largest number of votes will be given at the start and the various winners will be determined by polling the largest number of votes. Then, too, the early entrant will have the advantage of being able to pick up the easy subscriptions. Both new and old.

It costs nothing to enter the campaign and it will cost nothing to win. It is not necessary to give all of one's time—just the spare moments of each day. The campaign is open to everybody—men, women, boys and girls. Of course, the more one works, the more they will earn each day and the better will be their chance for a grand prize.

THE FULTON COUNTY NEWS realizes there is no such thing as standing still and making time. A business is either going forward or backward. THE FULTON COUNTY NEWS wants more new readers. Getting these new readers could be accomplished by professional out-of-town salespeople, but the plan in effect under the supervision of The Dixie Circulation Service, Dublin, Ga., will give local people an opportunity of earning this money. The contest affords an opportunity with liberal pay each day for energetic men and women, boys and girls, who desire to turn their spare time into money.

Without doubt there are many in this vicinity who want new clothes, an automobile, household appliances—or a thousand other things. Here is the opportunity of a lifetime to realize these ambitions. Circulation Campaign Headquarters are located in The News Office, Fourth street, Fulton. Drop in today and have full details of the plan explained to you. Five thousand and nomination votes will be given all entrants who start to work at once. And please remember, it's still the early bird that catches the worm.—Phone 470—we'll do the rest! Hurry—don't wait too long—\$2,000 should help you decide.

No one can be mean and happy any more than an orange can be sweet and sour.

The place to be happy is here. The time to be happy is now. The way to be happy is to help make others so.

COUNTY AGENT

All patriotic Americans are eager to do something to strengthen themselves and put their country in a strong enough position to defend itself successfully. They want to make America and Americans so strong that no enemy will hazard an attack upon us, directly or indirectly.

Individuals and groups are anxious to know what they can do to help. For farm families a program of action is presented in the following statement.

The United States Department of Agriculture is asking that more food be produced for defense, first for defense on the home front by making it possible for our own people to be well fed and, second, for defense abroad by producing food to send to the countries which are actively engaged in the struggle to preserve the democratic way of living.

To help reach the first objective, farm people must grow larger gardens, with a greater variety of vegetables and with ample surpluses to can and store for winter use. They must increase the production of dairy and poultry products, of pork, beef and lamb for the home meat supply. Added to this may be home produced orchard crops and small fruits, home grown cereals and sorghum.

To reach the second objective, it is urged that farm people produce beyond their own needs foods particularly needed for defense purposes abroad. It is further urged that this increased production be within the limits of the facilities available on the farm, that it be done without investment of capital for additional stock, housing or feed and that in no instance the family be sold short to the detriment of its own health for cash income. The health of its people is the nation's first line of defense. The production of foods for defense abroad is secondary and supplementary to the production of food for home consumption.

The foods needed for defense abroad are pork, poultry and dairy products.

In the Government's call for more pork, dairy and poultry products, it is announced that prices will be supported by Government buying over a period ending June 30, 1943. These supported prices will be on a Chicago basis as follows:

Hogs, \$9 a cwt.
Dairy products, based on 31

cents a pound for butter.
Eggs, 22 cents a dozen.
Chickens, 15c a pound.

Dairy Products

(Chicago Prices quoted)
WANTED: 5 to 8 per cent increase in milk for butter, cheese, dried and evaporated milk.

PRICE: Basis 31c lb. 92-score butter.

HOW TO DO: Improve feeding and management; add numbers by holding good heifers.

Money Talks

The threat of an inflationary price rise is one of our biggest domestic worries. Many of our foremost economists, both in government services and in private enterprises, realize that inflation is not out of the question. In fact, some believe it is almost a certainty.

Just what are the reasons for believing we may have inflation? First, we have the vast outpouring of purchasing power due to defense spending and the inability of industry to satisfy both armament demands and all the demands of civilian consumers. Consequently, we have the government and its citizens bidding against each other for the products of industry. In the past this has always caused increases in price.

Second, wage costs are rising and making it more difficult for the manufacturer to produce at present prices. Even though the government frowns upon price increases it recognizes that as costs go up prices must eventually go up.

In the last world war the big commodity price increase did not begin until 1916. But from 1917 on, we had a tremendous increase in prices which did not stop until after the war was over. And we had price controls in the war.

In this war, the action of prices is not far different from the first world war. Up to six or seven months ago prices were rising slowly but recently markups have become rather general and more severe.

ly but recently markups have become rather general and more severe.

The biggest offset to inflation is drastic government control of prices, higher taxes and the sale of defense bonds. Higher taxes and the sale of defense bonds draw off purchasing power and decrease the demand for consumer goods. The government is determined to prevent inflation. We may ask "Will these controls be effective?" The answer is, "It is anybody's guess."

Four "ins" are responsible for a great many traffic accidents:

1. Inattention.
2. Inexperience.
3. Incompetency.
4. Indifference.

Inattention is probably the outstanding cause of motor vehicle deaths and injuries today. Inexperienced driver plus the new, modern machine with its high speed mechanism constitute a menace to safety. Incompetency rules with inexperience; people who are inexperienced in the handling of these new automobiles are also incompetent.

Indifference constitutes a devil-may-care attitude. Some people feel that they must be first to the turn and first to the stop light. They are indifferent to the rights of others and exhibit an utter lack of courtesy.

Irving S. Cobb, the noted humorist, declares he has retired from banquets and after-dinner speech-making, for which he has been in great demand for many years. He claims the distinction of being the only white child born in Kentucky who grew to manhood and was never called "colonel."

Laughing Around the World

Spoken From the Heart Out

By IRVIN S. COBB

IN AN effort to link practice with preaching, the Sunday-school teacher asked her class of small boys to recite appropriate quotations from the Scriptures as they added their free-will offerings to the regular collection. The youngsters had a week in which to find and memorize suitable texts.

On the following Sunday the teacher summoned the superintendent in order that he might witness the ceremony. Under his approving eye

the scholars advanced, one by one, each with a coin ready and his brow furrowed by the effort of trying to remember the quotation he meant to deliver.

First, as was fitting, came the brag pupil and, as he deposited a dime in the plate, he said:

"The Lord loveth a cheerful giver."

"Beautiful," said the teacher approvingly. "Now then, Harry, what are you going to say?"

"The liberal soul shall be made fat."

"Willie?"

"Whoso giveth to the poor, lendeth to the Lord."

"Bobby?"

"Freely thou hast received, freely give."

"Very good, indeed, Tommy, it's your turn next."

Tommy's hand came slowly forth from his pocket, bringing a penny.

"A fool and his money are soon parted," said Tommy.

Baseball Season Gets Underway

The 1941 edition of the Fulton Tigers will be displayed to the baseball fans on opening day, May 12th at 2 o'clock at Fairfield Park, with the Mayfield Browns furnishing the competition to start the race.

A big parade will be shown the public thru the downtown and out to the field, where a short opening ceremony will be held presenting the players to the fans. This year Fulton enters the Kitty League race with a manager who knows the ropes of the Kitty and has displayed this by his managing the Jackson Generals to a pennant in 1931. He took the reins of the club here last year just a short while before the season ended, but right away you could tell a difference in the club. He has been here working since April 6th. He says that he is not at all satisfied with the club, but will be looking to Detroit, Beaumont, Winston-Salem and Texarkana to send replacements if necessary. Vincent "Moon" Mullen, as he is better known to the fans hit the ball at a 335 clip last season after a slow start and should be better this season, if the job of managing doesn't keep him down.

Shelby Peace, president of the Kitty League, will be on hand for the opening game here and will ride at the head of the parade. Bands from South Fulton, Clinton, Martin and Fulton have been invited to march in the parade and attend the game. Mayors of various towns will be on hand for the ceremonies as well as the ministers of various churches. The flags will be waving and the band playing so make your plans to come out to the ball games and eat peanuts and drink soda pop.

Fulton's teams up with Duncan "Curley" Letcha, at first, Jim O'Holman, at second and Dave "Butch" Derrick at shortstop with Skipper Moon Mullen at third. The backstopping will be taken care of by Don Huether, until a better receiver shows up. In the garden Jimmie Walker, Frank Faudem and Pete Peterson will keep patrol. The rifle range will be Harry Sprute, Julius Burgess, Lloyd Yeager, Perk Madsen, Lum Phillips, Bob Enrich, Mike Lake, with possible help from Swede Anderson, Junior Adams and others from time to time.

NOW—See How Your Home Will Look—BEFORE YOU PAINT!

New DuPont Paint Styling Guide Assures You the Colors You Select Are RIGHT!

THROUGH the use of the new DuPont Paint Styling Guide, the problem of choosing the right color for interior and exterior home decorative schemes is made easy—and almost foolproof.

You select your colors from large size color sheets—get an accurate idea of how the shade you choose will look when spread over a wide surface. The old fashioned, unsatisfactory systems of selecting paint colors from small chips is completely done away with! This innovation would, in itself, make the DuPont Paint Styling Guide the most advanced paint color book in use today. However, this book boasts still another advantage:

Transparent overlays let you see exactly how various rooms and exterior surfaces will appear

when the color you choose becomes a part of the general decorative scheme. On these transparent sheets are printed designs for completely furnished rooms—living room, dining room, bedroom, kitchen—and a variety of exterior home styles. When these transparent pages are held over any one of the color sheets, the color shows through in the spaces where paint might naturally be applied. Thus, you see the complete decorative effect you want to achieve, before the painter goes to work!

We are extremely proud to be able to introduce the DuPont Paint Styling Guide in this section, to offer our customers the most advanced paint color styling service available today. We cordially invite you to visit our store and ask to see the new DuPont Paint Styling Guide.

2 BIG EVENTS! Mother's Day, Sun., May 11 —And— GRADUATION

There are two happy periods during the month of May—Mother's Day on Sunday, May 11, and the other is Graduation, when the boys and girls complete an important chapter in their lives and launch out upon another episode. This store is prepared for these grand occasions, when family life is so pleasantly stimulated to new joys and pleasures. Here you will find an abundance of gifts for Mother and for the Graduate. For years it has been our pleasure and privilege to serve hundreds of homes in this territory. Today many graduates of former years are mothers and fathers with children who finish high school this term. Tomorrow, the next year and on, others of our good patrons will enter that period in life when they will give gifts to their children, or these children will bring joy to their mother—and their father—by giving them a token of endearment. We are always ready and glad to aid you in your gift problem, whatever the occasion may be.
