Fluoridation has
completed and no longer is
a subject of conversation.
There was no opposition to
the project here, but in many
places there has been
opposition.
Benton citizen handed us a
printed paper, opposing the
fluoridation. The letter was writ-
ten by an Arkansas man and is
reprinted in this column
at the request of the Benton
editor, in no way, reflects
opinions of this column,
or the Arkansas man's let-
ter.

EDITOR—I notice an-
nouncement as much effort to
prevent parents on how to feed
their children as you
are doing about putting poison
in drinking water, you
are accomplishing some real re-
sults in lessening dental decay
children's teeth.

not suggest that all par-
ents get all possible benefit
from their children's
fluoridation by merely getting
a prescription for fluor-
ide or water with proper
amount of fluoride so a
quantity can be put in
milk or water supply?
If cities are now furnish-
ing tablets rather than run
the danger of putting fluoride
in the drinking water. By
method a child will get just
right amount and he can
stop fluoride when his
teeth are all in and perfect.

Indians are Unbeaten; Jets Lose

Benton's basketball team defeated Reidland Tuesday night 62 to 39 in a slow game marked by much roughness. The game was played at Reidland.

The Indians led in every quarter—14 to 4 in the first period, 27 to 14 at the half and 43 to 23 in the third period.

J. D. Gammel was top man for Benton with 13 points. Dalley was a close second with 12 and Jackson and Stone 8 each.

Benton maintained its undefeated record for the season. North Marshall Jets Tuesday night at Wingo 91 to 84. It was the first defeat for the Jets.

North Marshall grabbed an early lead and was ahead 19 to 16 at the end of the first quarter. Wingo came back strong in the second period, however, and racked up a 42-35 margin. They held the lead thereafter.

Jimmy Lamplsey poured in 29 points for North Marshall, Rick 14, Wilson 13, Hall 11, Ford 8 and Powell 4.

Anderson and Oakley were top men for Wingo with 26 and 25 points respectively.

In games last week, Marshall County schools all were victorious. Benton pounded Almo 98 to 50.

Gammel was high man for Benton with 24 points and Dalley was second with 20 points.

North Marshall eased by Heath 57 to 52. Lamplsey was high man for North Marshall with 19 points.

South Marshall won a pair of games, defeating Symsonia 86 to 54 and ending by Lyon County 66 to 64. In the game with Lyon County, Harold Wilkins tossed in two free shots for the victory with only 12 seconds left to play.

L. Cypress Watershed Plan Loses

BY HERBERT ANDERSON
The referendum on the question of the formation of the Cypress Creek Watershed Conservancy District was held last Saturday in Calvert City.

One hundred and sixty-two ballots were cast. Forty-two were for the creation of the district and 120 were against. Too few people understanding the purpose of the district seemed to be the cause for its defeat.

Dan Gold, Fairdeal, completed the enlargement of two drainage ditches in November.

Milburn Green, Roy Phelps, H. V. Moore, C. E. Jenkins, and Jesse Barker became cooperators of the Marshall County Soil Conservation District during October and November.

Marvin Harper and W. H. Phelps, near Mt. Moriah, and Govie Collins, Possum Trot, prepared Conservation farm plans in October and November with the help of the Soil Conservation Service.

Some of Marvin Harper's most needed conservation practices were farm pond, sericea seeding, and the establishment of soil waterways.

CRATUS CRASS HURT IN AUTOMOBILE ACCIDENT

State Body Lauds Idea On Safety

The Benton Senior Woman's Club has been commended for its safe driving contest held among high school students. The praise came from the State Department of Public Health.

In a letter to the Woman's Club, E. D. Pulliam, director of the Division of Accident Prevention of the Health Department, had this to say:

"The cash award that has been given by your organization for the past years is most commendable. Though our work is primarily in home safety, wishing to avoid duplication of progress in traffic safety, it is the thought of public interest that we write.

More and more community groups are actively participating in projects similar to yours and the Division of Accident Prevention of the Kentucky State Department of Health encourages continuation of this worthwhile endeavor.

"Being an organization with invested interests in community welfare and safety, we would like to endorse the efforts of the Senior Woman's Club in promoting safety activities.

"Feel free to call upon us or the Marshall County Health Department concerning safety programs."

The Woman's Club presented its latest \$5 safe driving award last Saturday at Benton High School to Miss Suzanne Peak.

School Superintendent Joe Duke presented Mrs. Joe Brandon, president of the Woman's Club, who introduced Mrs. E. G. Williams, of the club safety committee. Mrs. Williams presented the award.

Other members of the safety committee are Mrs. Ted Combs and Mrs. Wayne Powell.

Upland Cotton Quota Vote Is Set for Dec. 11

Marketing quota referendum for the 1957 crop of upland cotton announced by Secretary of Agriculture Ezra Taft Benson.

Eligible voters will vote for or against quotas on Tuesday, Dec. 11, to determine whether marketing quotas will be in effect for the 1957 upland cotton crop.

All farmers who engage in the production of upland cotton in 1956, or participated in the Soil Bank acreage reserve program with respect to cotton will be eligible to vote.

At least two-thirds of the growers must approve the quotas if they are to continue in effect.

Balloting will be at the ASC office in Benton.

CAUSED EXCITEMENT—This small piece of asbestos-covered wire fell in flames in the Brewster community last Saturday night, causing considerable excitement. First thought to be a meteorite, the fireball now is believed to be a flare of some sort that fell from a passing plane.

Fireball Probably Part From Plane

The "ball of fire" that fell in the Brewster community early last Saturday night and started a pasture fire probably was a flare from an airplane.

Searchers found an asbestos-covered length of wire attached to a small disk by a cotter key. The wire was about 12 inches

long and the metal disk was about the size of a half dollar.

Members of the Marshall County Civil Defense unit and Sgt. Tandy of the Nashville Civil Defense unit investigated the incident Monday. They were of the opinion that the object was from an airplane. At least two Brewster residents reported hearing a passing plane shortly before seeing the "ball of fire" shoot down through the atmosphere.

Harold Ross, Benton photographer and a Civil Defense member, took pictures of the object and Sgt. Tandy took the pictures to Nashville for further investigation of the incident.

Richard Rudolph and Johnny Linn were other Civil Defense members who investigated the fireball, which was at first thought to be a falling meteorite.

The fireball started a fire in a field off Highway 80 near the farm of Leon Parker. Parker and his neighbors extinguished the flames after a spot with a radius of about 30 feet had been burned.

Parker and his neighbors investigated the incident early Sunday morning and found the length of wire and a handful of carbon-like flakes and ashes.

Parker sent the wire and ashes to Calvert City for an analysis by chemists there.

The fireball caused considerable excitement at Brewster Saturday night as many residents saw it shooting through the air and finally setting afire the field after hitting the earth.

Citizens Protest Light Board Move To City Council

Two petitions protesting removal of the City Light Board offices and personnel from the City Hall to new quarters on the Mayfield Highway were presented to the Benton City Council at its semi-monthly meeting Monday.

The petitions were presented by Hamp McClain, Attorney H. Lovett Jr. explained the aims of the petitions to the City Council.

The petitions not only opposed removal of Light Board offices from the City Hall but urged also the removal of the \$1 per month amortization fee from the electrical bills and asked the resignation of J. I. Linn as a member of the Light Board.

The \$1 amortization charge is used toward retirement of the Light Board debt, which now stands at \$50,000.

The Light Board has as its goal full payment of the \$50,000 debt next July, and also hopes, at that time, to remove the \$1 amortization charge. This charge now brings about \$12,000 annually in revenue to the Light Board.

The protesting citizens, numbering about 10, were told by city officials that the City Council has no power to make decisions for the Light Board.

The Light Board, although appointed by the City Council, is a separate unit and makes its own decisions. Members can be removed only if proof is available of misconduct in office.

City Attorney Walter Prince explained the problem with this illustration:

The governor of Kentucky can appoint a circuit judge to fill an unexpired term, but the governor has no power to make decisions for that judge.

The City Light Board held its regular meeting last Friday night, but no citizens appeared before it to protest its plans to move its quarters.

The Light Board delayed the awarding of a contract for remodeling office space at its building on the Mayfield Highway.

Florist Shop In Benton Sold By Virgil Smith

The Benton Florist shop has changed ownership. The business was purchased last week by T. F. LeVan and Mrs. J. M. Fields from Mr. and Mrs. Virgil Smith.

Mrs. Fields, who had worked for the Smiths, has taken charge of the business and will operate it.

Mrs. Fields invites the public to visit the shop.

First Lieutenant and Mrs. Bill Morgan of Paris, France, are on their way to the United States. He is the son of Mr. and Mrs. H. E. Morgan. He will be stationed at Lubbock, Texas.

Will Doyle has been dismissed as a patient from the Riverside Hospital in Paducah.

Burglars Strike Four Places in This County

Burglars hit four places in the north section of the county Monday night.

North Marshall High School, broken into on at least two other occasions, was entered and the thieves took \$1.50 from the office.

Alec Poe's service station, also a previous target for thieves, was entered and the burglars took the cash from the juke box and about \$1 in pennies.

The Calvert City Drive-in also was burglarized but the amount of loss has not been determined. Marion Dawe's store in Griggs town also was broken into and the thieves took about \$10 from a juke box and about \$12 from a cash register.

Sheriff Watkins, who investigated the break-ins, said that they apparently were the work of a group of juvenile delinquents who have been burglarizing places in the north part of the county for the last year.

Telephone Has 'Eyes' as Well as Ears

Scientists have given eyes to the telephone. And the time may come in the foreseeable future when a person can make a telephone call and see and be seen by the person at the other end of the line.

It's all in the experimental stage now, however. This "picture phone" is still undergoing development and is not yet ready for commercial use.

B. F. Harwood Jr., district manager of Southern Bell Telephone Company in Paducah, said today: "Researchers at the Bell Telephone Laboratories have used the device recently to send recognizable pictures over distances as great as from New York to Los Angeles."

The images sent by the "picture phone" vary in size from one by one-and-a-half inches to two by three inches. They are in black and white and show only the head and shoulders. A new picture is transmitted every two seconds.

The "picture phone" is not an intruder. Switches at both ends of the line have to be "on" for the picture to be transmitted with the conversation. The picture screen and camera are in a box alongside the telephone.

Mrs. Java Gregory, a Benton resident, is a patient at the Fuller-Morgan

What is more handy than an entry-way closet where you can hang up your coat and put your galoshes away as soon as you walk through the door? It will save a lot of wear and tear on more expensive rugs and a lot of elbow grease in waxing floors during the wet season.

Dr. Beller to Leave Calvert

New York—Lester B. Wolfenden has been named plant manager of the acetylene chemical products plant of General Aniline & Film Corporation at Calvert City, Ky. It was announced today by Dr. C. C. Schulze, manager of manufacturing of the company's dyestuff and chemical division.

Dr. Hans Beller, who supervised construction and starting operations of the Calvert City plant to its present "on stream" operation in the capacity of plant manager, will return to his position here of acetylene projects director for the division. Dr. Schulze said in making the announcement.

The Calvert City plant, first

of its kind erected in this country for the manufacture of high pressure acetylene chemical products, was completed this year on schedule.

Mr. Wolfenden was graduated from Massachusetts Institute of Technology in 1927 with a B.S. degree in chemical engineering. He joined the General Aniline at the company's Linden, N. J. plant in January 1929 and for the past 11 years has been plant engineer there. He is active in technical, professional and management organizations and is a licensed engineer in New York, New Jersey, Kentucky, Texas and Alabama.

Dr. Beller will continue the further development of the

acetylene program and other expansion programs planned by the company.

Pensions for Vets Are Explained to Red Cross Workers

Mrs. H. B. Holland, executive secretary of the Marshall County Red Cross Chapter, was in Paducah Tuesday attending a meeting for all Red Cross workers in Western Kentucky.

The meeting was conducted by Francis Paul, Red Cross field director from the Veterans Administration in Louisville.

Object of the meeting was to give all workers instructions and explain Public Law 881 regarding the raise of pensions of veterans and dependents.

Mrs. Holland advises all veterans or dependents to consult her or other informed agencies before filing for raise as it is not for the best for some cases.

SCIENCE IN YOUR LIFE

Ketosis Cure

Moving a steady supply of milk to the American dinner table involves more than transportation. Trouble may start on the dairy farm, where cattle diseases can drastically reduce the flow of milk.

In one recent year, for example, one out of every 25 U.S. milking cows suffered from ketosis.

Unlike mastitis and other diseases that cut milk production, ketosis is not caused by germs. Veterinarians call it a metabolic disorder—like arthritis in humans—and believe it to be caused by a faulty diet or by hormone imbalance.

A cow with ketosis gives less milk and loses weight. She may develop "nervous" symptoms—looking around nervously and acting jumpy when someone enters the stall—licking the stanchion walls, sucking, biting and salivating.

Unfortunately, cows which give the most milk are most susceptible to the disorder. Veterinarians say this is because the high producer is a more delicately-balanced milk producing "machine."

Injection of glucose has been standard treatment for years, but many cows with ketosis are not helped by it.

Now, however, science has developed what appears to be a more effective treatment—a powerful hormone drug used to treat arthritis and other disabling ailments in humans. In studies by 28 researchers, a single injection of 28 synthetic "super-hormone" Sterane promptly cleared up ketosis in 243 cows.

But prevention still beats any cure, say veterinary specialists. They advise careful attention to rations—and to infections, injury, exposure, or any disturbance that might subject dairy cows to unnecessary stress.

Mrs. Billy Peak Is Hostess to Group Of Junior Women

On Thursday evening, Dec. 6, at 7:30 o'clock, Mrs. Billy Peak was hostess to the executive board members of the Junior Woman's Club.

Plans for future club projects were discussed.

A box of Christmas gifts was mailed to the veterans in Outwood Hospital at Dawson Springs.

The club requests that anyone wishing to make a donation to the Benton Girl Scouts to do so by contacting one of the following persons:

Mesdames Betty Thompson, Dot Davenport, Sue Owens, Betty Jones, Clara Latham, Aline Inman, Helen Osborne, Betty Brien, Jean West.

Beverly Solomon, Judy Flatt, Davaline Putteet, Jody Dunn, Jean Austin, Lillie Spears of Hardin, Emalou Baker of Briensburg, Bernice Brack of Briensburg.

Also Errett Starks of the Benton Kiwanis Club.

CARD OF THANKS

We wish to thank our neighbors and friends for the acts of kindness extended to all of us at the time of the death of our mother, Mrs. Quiller P. Gipson Sr.

We want to thank Dr. J. R. Miller, the Filbeck-Cann Funeral Home, the singers, donors of the flowers and all who in any way helped life the burden of sorrow at that time.

May God bless you all.

Farm Bureau

Approximately 152 farmers from 44 Kentucky counties are planning to attend the 38th annual convention of the American Farm Bureau in Miami, Florida, Dec. 9-13.

The convention gets underway Sunday, Dec. 9, with a meeting of the American Farm Bureau Women and with vespers services.

Burl S. St. Clair, of Grayson County, president of the Kentucky Farm Bureau and a director of the American Farm Bureau, will preside at the organization conference. He will also be the toastmaster at the organization banquet.

Mrs. J. R. Winfrey, of Monticello, retiring chairman of the Kentucky Farm Bureau Women and southern region representative on the American Farm Bureau Women's Committee, is prominent on the women's program. She will give the invocation at the Monday morning session and will preside at the afternoon session.

Bruce Ferguson, of Boone County, winner of the Kentucky Farm Bureau Talk Meet contest, will compete in the national speech contest. The contest was won last year by Jerry Ringo, of Menifee County. Kentucky has won two of the four speech contests held. The first state winner was Judy Lester, of Lyon County.

The four-day program includes speeches by many noted Americans. It will end with a business session on Thursday at which the nation's farmers will plan for the future.

Calvert Wins

The Calvert City 8th grade basketball team played Benton Monday night, Dec. 3, at Calvert City. The Calvert boys won 58 to 21, with Kendall King as high point man.

Calvert led 19 to 5 at the first quarter, 28 to 10 at the half and 41 to 18 in the third period.

Scoring for Calvert were Kendall King 26, Gary Seay 12, Randall Oakley 9, Bonnie Stice 6, James Smith 3, Gene Paul Bryson 2, Joe Frank Riley and Jerry Foust.

Scoring for Benton were Woolfolk 6, Dowdy 6, Bornell 8, Rudolph 1, English, Jones, Phillips, Miller and Osborne.

The Benton second team won over Calvert 25 to 12.

P-TA Will Meet Monday Night for Open House Event

The regular monthly meeting of the Calvert Grade School P-TA will be held Monday evening, Dec. 10 at 7:30 p. m. in the school building.

The First and Eighth grades will have charge of the program. The First Grade will present a pageant and sing Christmas carols. Immediately after the regular meeting, open house will be held to give the parents an opportunity to view the work of their children and to visit with the teachers. Tea will be served by the Eighth Grade at this time.

All parents are urged to be present at this meeting and participate in the Christmas activities.

Mrs. Joe Brandon Talks to Women At Gilbertsville

The Missionary Society of the First Baptist Church at Gilbertsville met Tuesday evening, Dec. 4 at the church. Mrs. Elvin Frizzell was in charge of the program.

A very interesting lesson was taught by Mrs. Joe Brandon of Benton on the book "Japan Advances" by Maxfield Garrett. Mrs. Brandon had a beautiful Japanese display of dolls, parasols, kimonos, flags from the battlefields and a little music box that plays Japanese music.

The Southern Baptist Church now has 102 missionaries in Japan, she said. This work began in 1859 and has accomplished much through the years, such as hospitals, girls training schools, medical schools and many others. The first week of December every year the church observes a week of prayer for foreign missions.

Guests from other churches were from Calvert City, Grand Rivers, Lake City and Murray.

'Trouble in Toyland' Play to be Presented

"Trouble in Toyland," one of the most delightful plays ever presented in the area, will be given Friday, Dec. 14, and Saturday Dec. 15, at 8:15 p. m. at St. Mary's Academy in Paducah.

The presentation is a cantata by Mary DeFord, and will be performed by elementary students. This production will be directed by Mrs. Irene Karpetas, who has had a variety of drama experience in New York.

Mrs. Karpetas has conducted a private school in drama and has had extensive experience also as a performer and singer. She and her husband, Peter, an engineer at GAF in Calvert City, now live in Paducah.

Mrs. Hans Beller, formerly of New York and Argentina, who has been actively interested in the cultural life of the area during her residence in Western Kentucky, is also supporting the production, and has been appointed publicity and ticket chairman. Her phone number is 2-2355.

Tickets in Benton may be obtained from Mrs. James M. Goodman, A 7-4801 and from the office of The Marshall Courier.

The play is being presented for a dual reason. The first is to help meet the school's financial needs; the second, to develop the dramatic and musical talents of the youngsters participating, and to give them experience in meeting the public with poise.

"This Christmas play will not only serve to get us all into the spirit of the season," the director said, "but will bring out our children's latent talent."

Mrs. Karpetas praised the quality of the entire cast, adding that one of the featured players, a second-grader, "may be another Margaret O'Brien."

The public is cordially invited to attend the St. Mary's Christmas cantata.

The Huey Hartsells Entertain Their Sun. School Class

Mr. and Mrs. Huey Hartsell entertained the Senior Sunday School Class of the Calvert City Church of Christ Tuesday evening at the Hartsell home.

Games were played and prizes were won by Wayne Harrell, Jimmy Dossett and Dorothy Morefield.

Refreshments were served to Linda Cornwell, Mitz Hall, Jimmy Dossett, Betty McEmore, Bill Dossett, Gary Smith, Judy Harrell, Joe Edd Inman, David Smith, Jerry Hall, Charlotte Morefield, Wayne Harrell, Robert Inman, Dorothy Lynn Morefield, and Robert Hall.

WMU IS OBSERVING A WEEK OF PRAYER
The WMU of the Missionary Baptist Church, Calvert City, is observing a week of prayer for foreign missions from Dec. 3 to Dec. 7.

A Lottie Moon Christmas offering is being taken. Good attendance is reported.

SUPPER PLANNED
The Gilbertsville grade school will honor the Gilbertsville P-TA Thursday evening with a supper, after which a business session will be held. An interesting program has been arranged by the program committee. All parents and students are invited.

MARSHALL FHA WILL MEET
The Marshall FHA Chapter will hold its annual monthly meeting Thursday Dec. 5, in the city hall.

The speaker will be Mrs. Edd Inman, who will speak on "Life in South Africa."

Mrs. Marshall will also be at the meeting.

A meeting refreshment will be served to the members by the North Chapter.

The Senior, Junior, Sophomore and Freshmen classes of North Marshall held their class meetings last week to draw names and make plans for their Christmas parties. The parties will be held in the lunch room and study hall at the school building the week before the school is dismissed for the holidays.

Mrs. Ovie Davis honored her son Leon Davis on his 18th Birthday Thursday evening, Nov. 29, with a surprise party at the Davis home. Games were played and refreshments served to Robert Inman, Jerry Devine, Jimmy Beard, Leslie Landers, Joe Edd Inman, Kay Gray, Patricia Davis, Tommy Simmons, and Carolyn Beard.

NEW PASTOR ARRIVES AT GILBERTVILLE BAPTIST
The First Baptist Church at Gilbertsville has a new pastor, Rev. Van M. Sledd. The Minister his wife and two children are residing in the parsonage in Gilbertsville.

Rev. Sledd came to Gilbertsville from Detroit. He formally lived in Gilbertville and is the son of Mr. and Mrs. Henry Sledd of Lakeview.

Gracious Living

Be Daring In Your Table Settings

Once in a while we all get in a rut, even when it comes to entertaining. It's so easy to set a formal table with candlesticks flanking a low centerpiece. Next

flowers placed at the bottom of the candlesticks and black candles and white carnations make a striking color scheme. To carry out the effect, stainless steel serving dishes and jet black cups and saucers, an ebony salad bowl, and stainless steel flatware complement the decorative props. Serve your main course in a modern crockery "beanpot"; hot snacks in a covered serving dish.

A simple and pleasing departure from tradition is to give your guests their choice of hot or iced coffee. Ice coffee does not have to be packed away with deck chairs and bathing suits at the end of summer. That's just another "rut."

These are just a few suggestions to start you on a new trend for gracious living with variety for spice. Best part of all is the ease with which it can be done. Even the cleanup job is simple, for stainless steel needs no polishing. Try it. Your guests will commend you for being a clever hostess.

Funeral Held for Luther Morehead

Funeral services were held last Saturday afternoon at the Calvert City Baptist Church for Luther D. Morehead, 66, one of Calvert City's most prominent citizens.

Mr. Morehead died about 4 p.m. last Thursday enroute to a Paducah hospital after suffering a heart attack.

The services were conducted by Rev. Galen Hargrove and burial, by Pilbeck-Cann, was in Calvert City Cemetery. Pallbearers were J. L. Stratton, J. R. Hoover, Bud Forrester, Whit Hopgood, H. E. Tarkington and Cecil Stice. Honorary bearers were Boyce Karnes, King Stice, Earl Devine, Hardy Cann, Jesse Doyle, Paul Stice and Herman Kunnecke.

Mr. Morehead was a member

of the City Council of Calvert City, a vice president of the Calvert Bank, a member of the Calvert City Baptist Church and a teacher in its Sunday School. He also was a retired Illinois Central Railroad telegraph operator.

He is survived by his wife, Mrs. Mary Morehead; a daughter, Mrs. Ray Egner of Calvert City Route 1; four sons, Mike, Jerry and Luther Jr. of Calvert City, and Phillip Morehead of Chicago; three granddaughters and a niece, Mrs. Marvin Jarrel of Mobile, Ala.

Web Byers has been ill this week at the home of his daughter, Mrs. Earl St. Marie.

Garden Club Has Meeting at Home Of H. H. Lovett Jr.

The Town and Country Garden Club met in the home of Mrs. Henry Hardin Lovett Tuesday afternoon. Other hostesses were Mrs. James Goodman and Mrs. Roy Boyd.

J. Homer Miller gave a discussion on horticulture, telling why leaves should be raked and how they should be disposed of. He also told how to care for shrubs and trees.

Mrs. William Dunstan gave a demonstration of Christmas decorations for the house that were handmade.

The dining room had three tables showing how the Christmas idea could be carried out in table decorations.

The dining table, covered with a green cloth, had an arrangement of red carnations flanked

by burning white tapers. The guests were served punch and homemade cookies by Mrs. Boyd and Mrs. Goodman.

Others attending were Mesdames T. A. Chambers, Jaye Miller, A. C. Myer, E. M. Wolfe, William M. Hicks, O. J. Armstrong, W. D. Hawkins, Gania Wyatt, Genoa Gregory, R. O. Vick, Herman Creason, G. C. LATIN CLASS WILL SEE CATHOLIC CHURCH RITES

The Latin Class of North Marshall will visit the Catholic Church of Calvert City on Friday, Dec. 6.

The class is visiting the church because much of the church rituals are in Latin and the Latin teacher, Mrs. Farmer, thought it would be helpful to the students.

They will attend the 8 o'clock mass and then return to North Marshall for their daily classes.

Olive Homemakers Hold Yule Party at Mrs. Gold's Home

The Olive Homemakers Club held its annual party on Dec. 4 at the home of Mrs. Nola Gold. Under the direction of the recreation leader, games were enjoyed and gifts exchanged. Sunshine friends also were revealed. The group also sang Christmas carols.

Potluck lunch was served to 10 members and one visitor, Mrs. Opal Watkins.

The next meeting will be held Jan. 1 at the home of Mrs. Mary Norwood.

MISS BETTY JONES GETS WASHINGTON POSITION

Betty Ruth Jones, daughter of Mr. and Mrs. E. A. Jones, Route 5, has accepted employment as a stenographer in the offices of the Department of FBI in Washington, D. C. Miss Jones is a 1956 graduate of Benton High School and has been attending Draughon's Business College in Paducah since June 18.

Miss Jones is the sister of the Rev. Wilson Jones, pastor of the First Methodist Church in Bardwell, Milburn Jones, Marshall County Tax Commissioner, Mrs. Orvil Easley at Briensburg and cousin to Joe Faughn, Chief of Police at Benton.

Since her efficiency was outstanding and her clearance prompt, the Department gave her an immediate appointment to report for employment at once.

These Children Are WANTED Alive

These children are wanted at school for questioning in connection with the proper spelling of the word Mississippi.

They are wanted at home for errands, for picking up the bath towel that was left on the upper hall floor, and for their weird, wonderful sense of humor.

Most of all, they are wanted for love.

They are harmless but unfortunately, they are very easily harmed. Let them get to school and home again without an accident!

This is a plea to drive with EXTRA caution now that school days are here again.

Land Is New Leader

Boys Scouts at their annual night, installed a new leader and heard a message for God and country by Robert L. Bill, Scout executive.

The evening was held at the home of Russell T. Finkel, Post 36, of Calvert City.

Installed in the office of the council, the new council leader, Kyle of Murfreesboro, Tenn., was Robert L. Bill.

Bill was elected to the position of Scout executive of the council, which covers the Marshall County area.

He began with a presentation of the colors by Post 6, of Calvert City, and a prayer by the Rev. J. R. Holt of Paducah, and to the training chair.

SCIENCE IN YOUR LIFE

And High Tension

Scientists are still searching for
cause of high blood pressure, but
they generally agree that the
stress of which we live, with its
nervous tension, plays an
important role. Rest and relaxation
are found to be important in
lowering high blood pressure, and
often give sedatives or ten-
sioning drugs as a part of treat-
ment.

In addition, scientists have tested
a series of drugs which help to re-
lax the walls of the blood vessels
themselves, thus cutting down
blood pressure at
its major origins. A number
of these now in use do both jobs at
once, they relax both the
vessels and the mind—but
these effects have been ac-
complished by unpleasant side ef-
fects such as dizziness and stuffy

there is new hope for vic-
ing high blood pressure in the
development of a new drug,
called Morderil. Many
trials of this drug have
shown it to be safe and easily tol-
erated over long periods of time.
It is often slow to take effect,
but its action may last from
weeks. Unlike related drugs,
Morderil produces mental de-
pression, and produces far less
fatigue and drowsiness
than its chemical relatives.

SCIENCE IN YOUR LIFE

And Antibiotics

Antibiotics are still relative new-
comers to the medical scene not
more than their second decade of
general use. Yet they have al-
ready passed through two distinct
eras and appear to be entering

three eras were described
by Henry Welch, director of
Antibiotics Division of the U.S.
Food and Drug
Administration, before a recent
meeting of scientists in Wash-
ington. The first
era, he noted,
was that of the
"narrow-spectrum" antibiotics
which had only a limited range
of action.

Second era was character-
ized by the discovery of broad-
spectrum antibiotics like Terramycin,
which are able to strengthen the
body against more than a hun-
dred diseases as well as
infections of animals and

third era, just beginning,
is one of combined treatment with
antibiotics, each one care-
fully selected to strengthen the
body against the other. Such combi-
nation has two advantages: first,
it extends the effective-
ness of antibiotic treatment; and
second, it protects against dis-
eases that have learned to
resist older antibiotics—a prob-
lem of increasing concern to doc-

Best such combination to
be available to medicine is
a single preparation
of tetracycline, a broad-
spectrum antibiotic, and oleandomycin,
a discovered perm-fighter.
They act in concert to strength-
en the body's defenses.
Medically, it is
a two plus two equal five.
It was reported striking initial
results with Sigmamycin at the
meeting before which Dr.
Welch described the new antibiotic

Winners of Essay Contest are Named

The essay contest, on "What
the Library Means to Benton and
Marshall County," sponsored by
the Benton Senior Woman's
Club, was won by two newcom-
ers—Jean and John Gurley.

The winners are the children
of the Rev. and Mrs. Marcus
Gurley, who recently moved here
from Huntingdon, Tenn. Mr.
Gurley is pastor of the Benton
Methodist Church.

Jean Gurley won first place in
the 7th-8th grade group.
John Gurley won first place
in the 5th and 6th grade group.
Steve Hiland won second place
in this group.

The poster contest, also con-
cerning the Public Library, was
won by Judy Goodman, daugh-
ter of Mr. and Mrs. James Good-
man.

Here are the winning essays

Casserole Holder Is Versatile

A single stainless steel adjust-
able casserole holder will accom-
modate virtually any size cas-
serole in your household. Expan-
ded, it accommodates the large
glass roasting dish in the back-
ground. Closed, it provides a base
even for a small one-quart cas-
serole.

Casserole holders in stainless
steel are practical because they
can be set directly on the table.
They won't conduct heat—scorch
the tablecloth or mar the table
surface and may be carried with-
out using a pot holder.

All stainless steel utensils wash
easily with soap and water—pol-
ishing is unnecessary.

It goes into Marshall County

Funeral Conducted In Calloway for J. I. Linn's Sister

Funeral services were held
Sunday afternoon at the Flint
Baptist Church in Calloway
County for Mrs. Sam Thomass-
on, 76, of Murray Route 2, who
died Saturday in Murray Hos-
pital.

Mrs. Thomasson was a sister

of J. I. Linn of Benton.
The funeral was conducted by
the Revs. Otis Jones and Loyd
Wilson, and burial was in the
Bob Trevathan Cemetery.
Survivors include her husband,
a daughter, Mrs. Layman Puck-
ett of Paducah; a sister, Miss
Liza Linn of Benton; and five
brothers, J. I. Linn of Benton,

Parents Fail to Train Youth

Despite great changes in patterns of family life, it is still the parents who endow their children with courage, a sense of responsibility, generosity, compassion and other fine qualities. Morton M. Hunt writes in the December Reader's Digest in his article "There's No Substitute for Parents."

Hunt found youth specialists in varied fields concerned about a tendency to delegate parental responsibilities to church, school and camp. Yet, a Scout executive reports — "All the training in the world is of no avail, if, when he gets home, the child is again allowed to become overly dependent on his parents."

In one New York University study, a group of children from

well-to-do middle class homes was found to cheat far more than a group of reform school kids. The explanation offered by Dr. Howard Lane was that in "good" homes, where success is the principal goal, honesty was given lip service but children saw their parents lie, give flattering welcome to people they despised and do a hundred other dishonest things to advance their interests.

Even in the first year of life, the parent is all important as psychologists agree that a basic liking for people can be created if an infant is always handled gently, fed when hungry, and comforted when miserable. This creates a fundamental liking and unshakable trust in others.

Hunt concludes, that parent-

hood can't be an effortless and unconscious process but that when we give our creative best to the task, the reward is unlike any other this life offers. As Hunt and his wife Lois are parents of a 16-month-old son, he has a personal interest in the subject. Mrs. Hunt is a lyric soprano, formerly with the Metropolitan opera, who now sings on television. She recently appeared on NBC's "Rosalinda" spectacular.

Income Up

The economic growth of the various regions of the United States can be measured by the per capita personal income of their peoples.

For the United States as a whole the per capita income of \$1,847 in 1955 was 163 per cent greater than in 1929. Less than half of this gain was real — the rest of it being pure inflation. However, since all regions of the country were hit by the inflation, the relative growth shown in the chart is significant.

While there is a considerable range in per capita income between the regions, there has been a strong tendency for those regions which have the lowest per capita incomes to grow more rapidly than those which are above the average. The region with the highest per capita income was only 1.7 times the lowest in 1955, compared to 2.6 times in 1929.

The lowest per capita income is still to be found in the Southeast region, but this area's gain since 1929 was the greatest. Its income of \$1,292 per person for 1955 was three and one-half times that of 1929. The Southwest and Northwest regions' per capita incomes were also below average, though gains were much above average since 1929.

The Middle East region, conversely, had the highest per capita income in 1929, but its percentage growth has been the lowest of all areas. The Far West, with \$2,189 per person income, was the highest of the seven regions in 1955.

Since 1929, the various regions have exhibited a wide variation in per capita income growth, but the relative positions of the areas, except for the Far West's replacement of the Middle East in the top position, have remained the same.

Sgt. and Mrs. R. D. Cash spent the weekend with Mr. and Mrs. Clifford Smith and Mr. and Mrs. Joe W. Mathis. Sgt. Cash is enroute to Munich, Germany, and Mrs. Cash and children will make their home in Benton until Sgt. Cash goes to Germany.

MIGHTY BIG for such a little price tag!

Actually costs **Less** than a lot of the low-priced cars!

With this king-sized, brilliantly powered Chieftain Pontiac you can set yourself up in grand style at a cost less than many models of the low-priced three! Here's more than 17 feet of clean-cut Star Flight beauty, solidly placed on a full 122 inches of road-hugging wheelbase, and cradled in Pontiac's exclusive cloud-soft Level-Line Ride. And when it comes to performance, where else but in the Chieftain Pontiac can you get a 10-to-1 compression ratio, 347 cu. in. Strato-Streak V-8, brilliant successor to last year's champ that broke more than 50 performance marks and led all "eights" in miles per gallon? And this value-packed new Chieftain comes to you proved by a 100,000-Mile Marathon Test Run that would break the spirit of many another far costlier car. Come in soon and catch up with the car that caught them all napping—even to the low, low price tag . . . and enjoy real big-time driving!

FOR CHRISTMAS:

A Fanciful Candy Chain

THIS CHRISTMAS, deck your fireplace with a chain that's jolly,
made of a variety of colorful candies that go hand-in-hand with
seasonal evergreens, mistletoe and holly. As shown above... shortly
after starting, grown-ups and youngsters too, can make a chain
several feet long. Here's how: Pull out from a queen size roll...
a 3" strip of clear plastic wrap and spread it out on a table. At 2"
intervals, place a piece of candy. Then fold over wrap and twist be-
tween each piece of candy to lock them all in place. Wrap a bit of
colored or clear cellophane tape between each piece and your first
link is complete. Join links together with same tape to make a saran-
candy chain long enough to decorate your fireplace, Christmas tree,
entrance ways or rooms. Moisture proof, the chain can also be hung
outdoors and best of all... the children can eat its contents when the
holidays are past.

How to Shop and Relax, Too

The Bible tells us it's more
blessed to give than to receive.
But do you feel blessed when
you get to the end of your gift
shopping? Or are your nerves
frayed to the breaking point?
How can you get through your
Christmas shopping with the
least wear and tear? Purely
physical shopping fatigue can be
avoided by wearing comfortable
shoes and tailoring your sched-
ule to your own strength. But
mental and emotional strains
can also be an important cause
of tiredness.

Do you normally enjoy shop-
ping? If you don't, you may
have Christmas shopping. For
some people, being part of a
crowd is hardest. They feel lost,
alone, and unsafe. Some are se-
ized by a kind of hysteria that
makes them rush to the most
crowded counters and buy things
they don't really want. Others
are oppressed by the vast quan-
tity of merchandise thrust on
their attention. They may walk
into a department store fully in-
tending to buy a record, be-
come distracted by costume jew-
elry and bargain blouses, and
wander in a state of confusion
for hours, looking at everything.

Guilt feelings spoil the fun
for lots of us. We can feel gult-
ty for so many reasons: for
taking a name off the gift list,
for spending too little or too
much, for giving too little
thought to the selection of gifts.
Resentment, too, can cause shop-
ping fatigue. You can get a lot
more tired buying a gift for
someone you don't like than for
someone you do like. Yet we go
right on giving to people we
don't really care about.

Take a frank look at your re-
actions. A drastic change in your
approach to Christmas shopping
may be necessary. You should
try to get the greatest possible
happiness from your efforts to
give happiness to others.

MAKE A WINDOW WELL COVER

A simple window well cover made from 1 by 2, 1 by 6, and 1 by 12-inch lumber will keep out rain, snow, and leaves, and the hinged lid can be opened to provide light when needed. Cut all parts to the sizes shown. Set the braces one yard thickness from the ends of the sides and fasten. Use 1 1/2-inch flat head wood screws to assemble all parts. Fasten the front and back to the braces and the top to the sides. Make the top from two boards fastened below with 18-inch 1 x 4 cleats. Bevel one edge of the lid to make a snug fit at the hinge line. Use 3/4-inch screws to attach 3-inch butt hinges to lid and top. Paint well cover with two coats of outside paint.

The Farm Front - -

BY J. HOMER MILLER
Roy Gregory of Benton Route

7 was in the office last Saturday to pick up some soil testing bags. He reported that all row crop land on the farm had been seeded to a cover crop as well as old pastures and lespedeza field. "This is the first time I have ever been able to do it," Roy says.

Soil conditions are right for sampling. Samples taken now are as accurate as samples taken next spring. Get your samples today. It is not a cost but an investment. Secure bags at this office.

W. L. Frazier completed harvesting his 9 1-2 acres of grain sorghum last week. Total production was estimated at 24,000 pounds or about 40 bushels per acre. Mr. Frazier plans feeding the grain to beef cattle. A fattening ration will be worked out to give the greatest return from grain bed.

Burley tobacco is giving high returns per acre again this year. Red leaf and tips are selling high compared to other grades. Homer Chester reports \$62 per hundred for tips. Not BAD.

Olden McCoy, Benton Route 7, is working hard to get his buffalo farm set up in operation. He purchased three head in Oklahoma a few days ago and plans to develop a herd for viewing by the public. You may see the animals on Mr. McCoy's farm near Lakeview Church for a small charge.

The Headey Collins' are making plans for landscaping their lawn this winter. This is a good time of the year to plant trees and shrubs. Proper landscaping can improve the appearance of your home.

SCIENCE IN YOUR LIFE

Helping Fledglings Fly

The proper use of drugs in treating the nervous symptoms of a child may help him improve his relations with others, reduce his frustrations, strengthen his self-esteem, sharpen his sense of reality, and reap the fruits of a fuller life.

Thus, say two staff doctors of New York's Bellevue Hospital Children's Service, "if a drug can be found to alter favorably any existing disorganizing process, the child may begin to enjoy more positive living."

Eliminate his twitches and nervous habits and he becomes less anxious. Help him overcome bed-wetting and see him grow to accept those around him. Help stop his stuttering and his future performance improves in all areas.

A group of 187 children one to twelve years of age were relieved of such nervous disturbances as nightmares, bed-wetting, crying spasms and tics with the anti-tension drug Atarax, according to the head physician of a well known hospital in Europe.

At the International Congress of Pediatrics in Copenhagen, the specialist also reported that 56 other children showed a general improvement in their schoolwork—including more regular and neater handwriting—after treatment with the "peace of mind" drug. The children were described before treatment as unbalanced, nervous, and consequently poor scholars.

Dr. Ralph Neil Shapiro, New Jersey pediatrician and director of a child guidance clinic in Newark, believes by relieving anxiety, helping to control impulsiveness and quieting a disturbed youngster, "some of these new drugs appear to pave the way towards better living."

Yule Trees Cause Many Fires

"Fires across the nation have killed 23 persons, most of them children, on the eve of the Christmas holiday celebration. "All but ten of the fire victims were children eagerly awaiting the excitement and gifts of Christmas."

That was last year. Will it happen again this year? And the saddest thing is that such tragedies often occur around the Christmas holiday — sometimes even around the Christmas tree itself — at the happiest time of the year.

The reason the tree burns so fiercely and so rapidly is because it's filled with pitch and resin — among the most combustible substances known.

What can you do about the tree? First of all, the National Board of Fire Underwriters suggests that you select a small one.

It's best to keep the tree outdoors until a few days before setting it up. During that time occasionally throw water over it. This will keep it moist, fresh.

When you bring the tree inside, cut the butt slantwise to open the pores, then stand it in a tub of water. Be wary of chemicals or other substances sold for "fireproofing" trees. In some cases this process is ineffective.

In placing the tree, the National Board advises that you avoid "hot spots" such as those near the fireplace, stove, television set, radiator, or electric bulbs.

Never, warns the National Board, use untreated paper ornaments or untreated cotton batting or gauze for decoration. Cotton and gauze can be made flame-resistant by dipping in a gallon of water mixed with nine ounces of borax and four ounces of boric acid.

Also, use only electric lights, never candles. Be sure, too, that wires are in good condition and bear the UL tag denoting Underwriters' Laboratories, Inc., which shows they have been tested for safety. Frayed electric cords, the National Board points out, are a fire hazard.

The switch for turning on the tree lights should be placed some distance from the tree. Never use an outlet or plug under the tree or run electric trains around the base.

Coats That Were Born In A Bedroom

FAVORITE WITH MOTHER and daughter are these chic coats of St. Marys famous blanket cloth illustrated here. The girls coat, made by Brand and Puritz of Kansas City, Missouri, has a silky soft St. Marys fleece to exploit the casual beauty of its styling, and to permit details of grown-up importance. Of equal interest is the manner in which Sportwhirl of New York City has utilized St. Marys ombre striped fleece to create the exciting casual coat pictured here. Its easy grace and cozy warmth is sure to make it just as popular with campus pencil pushers as it will be with the carriage pusher set. Both of these appealing fashions are available in a variety of winter-wise shades.

Mrs. Beller Will Address Students Of North Marshall

Mrs. Hans Beller of Lacqueland will be the guest speaker at the meeting of the Future Homemakers of America Chapter at North Marshall High School on Thursday, Dec. 6, at 7 p.m.

Mrs. Beller will use as her topic, "Home Life and Customs of South America," her native country, and will show colored slides.

Although Mrs. Beller has lived

in Kentucky for only a short time, she has contributed considerably to the cultural life of the community. She is booked for addresses through April, 1957.

The South Marshall and Benton Chapters are invited to attend this meeting. Mrs. Mary R. Cole, sponsor of the North Marshall Chapter Future Homemakers of America, is arranging the program and will introduce Mrs. Beller.

Mrs. Oran Darnell of Route 1 was a shopper in town Friday and while here renewed her subscription to the Courier.

California Oranges A Holiday Tradition

There was a time that a big California orange in the toe of a Christmas stocking was a rare treat reserved for special occasions such as Christmas. Although oranges still are flavor treats, they are available everywhere, every week of the year. The large California oranges in the markets this time of the year are called navel. You can tell them by the navel formation at the blossom end and their bright natural golden color. Best of all, they are seedless and easy to peel, so are "naturals" for eating whole.

Whether you're in the process of wrapping gifts or having a family get-together for the holidays, a tray of Yepermint Stick Oranges makes a welcome sight. Just cut a small hole in the top of each orange and insert a peppermint stick. Tuck a couple of holly leaves on the side and you have a most impressive holiday snack. Each person can pull off the peeling, pull apart the sections and devour the orange with great relish.

EMPLOYMENT REACHES NEW HIGH IN KENTUCKY

Frankfort—A State Department of Economic Security report says more Kentuckians were employed in the month of September than ever before in history.

The report listed 590,000 non-agriculture wage earners—6,000 higher than the previous month, and 8,600 higher than September 1955.

Of these employed, 169,000 persons are engaged in manufacturing and 421,000 in non-manufacturing vocations.

A decrease of 4,574 unemployment claims were filed during September as compared to the previous month.

Cole Wood of Route 2 was in town Friday on business.

Mrs. Rollie Hamlet of Route 2 was a Friday shopper in town.

How To Get Your Car Ready For The Hazards of Winter

At this time of year, car owners methodically check the battery, change the oil and put antifreeze in the radiator, but few think of protecting the most obvious part of any car—the body itself.

Winter is rough on paint and trim, particularly brightwork—unless it is made of stainless steel. To protect the car's exterior and, at the same time, maintain trade-in value, give it a thorough washing with soap and water. After cleaning, touch up any nicks or scratches with matching paint, paying special attention to the lower sections of the body where painted areas are most apt to be chipped by flying stones. Then apply a good coat of wax to the body.

A lot of the brightwork on today's automobiles (such as wheel covers, grilles, side body moldings and window moldings) is made of stainless steel. Stainless steel trim does not require waxing or special cleaning, for it will withstand winter's severest test—road salt—with just an occasional washing.

Brightwork parts that are chromium plated should be cleaned with special cleaners as recommended by your service station. For added protection, pressure sprays of plastic or lacquer may be applied after cleaning. In areas where road salt is used to clear the highways of ice and snow, wash chromium brightwork frequently to keep it from corroding. Always wax the chromium plated brightwork along with the rest of the car.

Mrs. Anna Brandon of Benton and her daughter, Miss Betty Brandon, senior of Murray State College, were recent guests of their son and brother David Brandon and family in Louisville.

R. M. Spiceland of Calvert City Route 1 was a patient at the Baptist Hospital in Paducah.

Mrs. Daie LeNeave entered the Baptist Hospital in Paducah on Wednesday of the past week.

Mrs. Peters at Meeting of Mothers

Mrs. Harry W. Peters, state chairman of the selection committee of state mothers of the American Mothers, Inc., attended the southern regional conference held at Dyersburg, Tenn., three days the first of last week.

Mrs. Neill was given her trophy in New York by the mayor of that city.

Mrs. Peters was in Benton Wednesday of the past week and with her was Mrs. Neill.

The next meeting of the southern regional conference will be held in the early summer in Benton.

There have been three women from Benton placed for nomination as state mother. They were

Mrs. H. B. Holland, Mrs. Anna Brandon and Mrs. Joe Ely.

Mrs. Howard Lester of Calvert City was admitted to the Riverside Hospital last week for treatment.

Mrs. Elvin Thompson and children of Route 1 were shoppers in town Friday.

Mrs. Richard Tapp of Calvert City was a recent patient at the Baptist Hospital in Paducah.

It's a Whiz at Everything a car should do

It turns out that the 1957 Buick is far more than just a brand-new automobile.

It turns out that this stunningly low-styled beauty is a wonderful new whiz at everything a car should do.

It turns out that this new '57 Buick is winning the raves with a new kind of going and a new kind of stopping—a new kind of handling and a new kind of road sureness—a new kind of safety and a new kind of comfort.

We'll be specific.

When you press the pedal of a new '57 Buick, the response is literally instant...

Because the high-torque power of a new 364-cubic-inch V8 engine is delivered in the split of a second through a new full-range Variable Pitch Dynaflo* that's immediate in its oil-smooth action.

When you brake to a stop, you and the car stay on a level plane...

Because an ingenious new ball-joint suspension in every '57 Buick virtually ends the down-in-front dip that cars have on sudden stops.

When you take a turn or swing into an "S" curve, you still hug the road like a streamliner on rails—

Because under you is a massive wide-frame new chassis that "nests" the whole car inches closer to the road with the lowest center of gravity in Buick history—yet with no change in road clearance.

And when you sit in the deep comfort of those soft wide seats, you can drive with the pleasant ease of a clear conscience, without watching the speedometer...

Because only in Buick today can you

have an ingenious new Safety-Minder* that acts as a warning sentinel for the miles-per-hour you preset for yourself.

There are many other new things that make this gorgeous Buick a car of limitless wonders—from the bigger and more rakish windshield that makes seeing more relieving, to the extra roominess that's so surprising in this beauty with the sports-car lowness.

But there's nothing like a firsthand sampling to know how modern the newest thing on wheels really is. Come in today for your meeting with the newest Buick yet.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special. Safety-Minder standard on Roadmaster, optional other Series.

THE BIBLE SPEAKS

BY DR. KENNETH J. FOREMAN

Background Scriptures: Romans 8
Devotional Reading: Psalm 27:1-10

In All Things, God

Lesson for December 9, 1956

THERE is far too much in the famous eighth chapter of Romans to think about in the small space of one column. So one sentence from it will be quite enough food for thought: "We know that in everything God works for good with those who love him." (Rom. 8:28) Readers familiar with the old King James translation (made in 1611) will notice that the new translation is different. The old version read: "We know that all things work together for good to them that love God." ... Which translation is right? The letter to the Romans was written in Greek, of course. We do not have the original letter, but we have discovered some Greek copies of it in manuscripts much earlier than any that were known back in 1611. The oldest and best of these have exactly what the Revised Standard Version accurately translates: Not things but God is the subject of the sentence—it is God who works for good in everything, it is not things that work for good.

Dr. Foreman

"In Everything, God..." Christians who take the Bible seriously do not believe in a far-away God. It is quite true, as the Psalm writer said, there is no getting away from God. The wildest dream of the most fanciful space-fiction writer might come true, but on the last planet God would still be there. God is in all space and in all time, too. However, the universe may be, God is older still. But the God revealed in the Bible is not one who set the universe going as a man winds a watch and then lets it run. God is in all things, and all things are in God. This is not so hard to believe. What does call for a struggle? Is the Bible belief that God is in all things we find painful and bad in good things alone? If we do not believe this, then we are always "haunted by the fear—What if the evil in the world is too much for God? What if eventually he is overwhelmed by a universe he cannot control? What if God's intentions are better than his abilities? Have no fear, God's Word assures us. God is not on vacation, he is at work in everything, small and great, in pain and in delight.

"God Works for Good..." The Bible writers never say that all things are good. Some things are good. Some things are bad. Some things are just the opposite of what they ought to be. This raises a most difficult problem, the problem of evil. No one knows the answer to it; but the Bible never takes the short-cut of denying the evil exists. What the Bible does say is that even in evil things God is at work for good. Joseph, son of Jacob, as a boy was sold into Egypt as a slave by his brothers. Years later, however, the man Joseph said to his brothers: "You meant it for evil, but God meant it for good." If it had not been for that wicked act (and some others besides) the family of Jacob would have perished of starvation. History is full of illustrations of the ways in which God brings good out of evil. Tyranny and cruelty are not good things; yet if George III had been a more enlightened and just king, the American colonists might never have thought of achieving freedom. The "World Wars" were terrible things; but they did rid the world of some tyrannies. Many events in our personal lives which were frustrating or tragic, have been seen in later years to have been part of God's wise plan. After all, what kind of God would our God be, if he could not bring good out of evil?

"With Those Who Love Him" The new and better translation of this great sentence from St. Paul brings out a different point which Paul's Greek suggests: God is at work with those who love him. He works for them, to be sure, but that is not the main point here. God's work is never a substitute for the work of those who love him. Loving God is no excuse for not serving him. Loving God is not mere sentiment, a sort of warm glow, a happy feeling about the "man upstairs." Love of God, like love of neighbor, is a serious thing. It calls for devotion, hard work, even sacrifice. To go back to the story of Joseph, God brought good out of evil; but suppose Joseph himself had been lazy, selfish and careless? God's work ceases for many partners—not slaves, but partners in the everlasting love.

US Worker Safer While on His Job Than Away From It

The American factory employee today is safer while at work than he is off the job, as a result of industry's constant and continuing campaign to prevent accidents.

In 1926—the first year for which national figures are available—there were in U. S. manufacturing industries, 24.2 lost-time injuries for every million man-hours worked. That rate has constantly declined, until today it stands at less than half that rate—11.9 for the second quarter of 1956. The greatly reduced rate of total lost-time injuries gains even greater significance when it is considered that the 1926 rate applied to less than 10 million employees, while the 1956 figure applies to almost 17 million employees.

Despite this excellent record, American industry is not satisfied for content, according to the National Association of Manufacturers. It recognizes that any injury rate is a bad rate—that accidents are wrong because they cause pain, suffering and economic loss, and that they are not inevitable or unavoidable.

Mail Early And Right For Xmas

Many postoffice patrons have asked how they could be of assistance during the busy Christmas season. Believing that you would like to help, the following suggestions are offered:

1. Buy your stamps in advance and place them on your cards and letters before putting them in the mails. Unsealed cards without writing, other than your name, may be mailed for 2 cents but they cannot be forwarded or returned to you if undeliverable as addressed. Those bearing the letter rate of 3 cents can be forwarded or returned if undeliverable, provided they bear your return address. All sealed cards and those containing writing must bear the letter rate of postage.
 2. You can further assist by separating your cards for Benton and out of town delivery. Tie your cards in bundles with all addresses faced the same way and with the stamps in the upper right hand corner. All Benton cards in one bundle, all the other cities in a separate bundle. Your postoffice will supply labels for these bundles free. Call at postoffice or ask your rural carrier for some.

If your parcels are not properly wrapped and addressed they may not reach their destination. Select a sturdy container, wrap in good heavy paper, tie with strong twine. Write or print the address on one side only and place your return address in the upper left hand corner. Avoid the use of oiled or waxed paper for outside wrapper. Place the name and address of addressee and sender on the inside of the parcel just in case the wrapper is torn off. If you wish to place a letter in the parcel be sure to write on the wrapper "First Class Mail Enclosure" and pay the postage for the letter in addition to the postage for the parcel.

If you have any further questions regarding the proper preparation of Christmas mail, please ask your carrier or stop in at the postoffice.
 The postoffice will be open all day Saturday, Dec. 15 and 22 for your convenience.
PLEASE MAIL YOUR CARDS AND PACKAGES EARLY.

That Oil Heater Causes Many Fires In Dwelling Houses

Oil heaters — whether stove, range or space heaters — are responsible for a great number of

fatal fires in dwellings.

Portable heaters, which in many places are still in frequent use — often in tenement dwellings that are especially vulnerable to the spread of fire and loss of life — are a major cause of such fires.

Because of this, the National

Board of Fire Underwriters has issued the following precautions:

Don't place the heater near a doorway where the exit could be blocked.

Don't put it where it can easily be tipped over.

Keep it away from curtains, bedding or other combustibles.

Don't fill it when hot or in use.

Be sure there's ventilation the room at night — open window.

Don't let children play the heater.

Social Security Change Made for All Farmers

By CHARLES M. WHITAKER
Manager Paducah Social Security Office

If you're a farmer, chances are that changes in social security which became law this year affect you and your family. This is so whether you own a farm, rent a farm, or do farm work for someone else. Today I want to discuss a provision in the amended law which affects many persons who have farm property—either as owners or lessees.

Since 1954, earnings from self-employment as a farmer have counted toward old-age and survivors insurance. The new law doesn't change that. Under the old law, however, you did not get social security credit for cash or crop shares you received as rent for your land. Income from farm land which was let out to someone else, even if on a share-farming basis, was regarded as rentals from real estate and did not count toward social security. The man who had only this kind of income from his farm was regarded simply as a landowner, not a self-employed farmer.

In many cases, income of this type still does not count toward social security. If you simply collect rent for land, that's still rental from real estate. Under the 1956 amendments to the law, however, the cash or crop shares a farm owner receives from a tenant or share farmer is regarded as farm income which will be credited to his social security account if he "materially participates" in the management or production of the farm commodities.

Let's say you own some farm land, or hold property under lease, and in turn rent it to someone else. If you simply collect rent for the land, that's still rental from real estate. Don't report it as self-employment income for social security purposes. On the other hand, if you let out the land to a share-farmer, but still take an important part in the growing of the crop or the management of the production of the crop on that land under an arrangement with the renter, that's most likely "material participation." In that case, the money you realize from the transaction would not be rental income but farm income. It would count toward old-age and

Mr. and Mrs. John D. Starks and children of Blue Ash, Ohio, visited his mother, Mrs. J. H. Starks on Benton Route 1 recently.
J. S. White of Calvert City Route 2 was a business visitor in Benton Saturday.

survivors insurance protection for you and your family.
If you have a definite arrangement with the user whereby you regularly advise and consult with him on the production of the crop or livestock, regularly inspect the operation, and have a hand in the management, this would be a strong indication that you "materially participate." Moreover, if in addition you also furnish the renter with tools, livestock, and farm equipment, or finance any of these, this would be further evidence of "material participation" on your part.

This change in the law will afford protection under old-age and survivors insurance to an estimated 400,000 additional farmers. It is effective beginning with the taxable years ending in 1956 or later.

Record Xmas Shopping Likely

Washington—Christmas shopping — traditionally starting the day after Thanksgiving — is expected to ring up another multi-billion-dollar record on the nation's cash registers this year.

Fuller employment, fuller pocketbooks and a longer spell of Yuletide promotion add up to estimates that this year's Christmas spending spree will top last year's by five per cent. The dock strike is not expected to interfere, because merchants generally have already laid in their supplies of imported trinkets.

Store owners figure they do one-quarter of their annual business in the weeks after Thanksgiving. And they seem to be trying to boost that by starting a little earlier and catching a little more of that generous spending spirit. Some department stores were advertising their Christmas catalogs before Halloween.

It is difficult to separate Christmas spending from ordinary outlays in the over-all reports on sales. The dollar estimates of the Christmas totals range from \$15.04 billion by the National Retail Dry Goods Association, to \$3.1 billion by the U. S. Chamber of Commerce. The bigger forecast includes food and almost everything else a person buys — Christmas or not.

Retail sales so far this year have been leading last year's sales by a few percentage points, varying from month to month. But the margin has not been as last year's compared to 1954. The latest dollar figures available show \$158.5 billion of retail sales in the first ten months of this year, compared to \$144.4 billion a year ago.

Later reports, on sales in department stores in the second week of this month, show healthy increases over last year.

Everything points toward this year being the storekeeper's biggest and merriest Christmas in history.

Joe D. Logue, son of Mr. and Mrs. Charles H. Logue of 1005 Hickory Street, Benton, and Robert D. Peck, son of Mr. and Mrs. Robert Peck of Benton Route 2, graduated from recruit training Nov. 24 at the Naval Training Center, Great Lakes, Ill.

Joe Bell of Benton Route 2 was in town Saturday on business and while here renewed his subscription to the Marshall Courier.

Charles Hensley, Pat Ely of Benton and Charles Pace of Lexington, students at the University of Kentucky, spent the Thanksgiving holidays in Benton and Hardin with relatives.

Do FALSE TEETH

Rock, Slide or Slip?
FASTEETH, an improved powder to
be sprinkled on upper or lower plates,
holds false teeth more firmly in place.
Do not slide, slip or rock. No gummy,
sloopy, pasty taste or feeling. FAS-
TEETH is alkaline (non-acid). Does
not sour. Checks "plate odor" (den-
ture breath). Get FASTEETH at any
drug counter.

**Article in Reader's Digest Reveals
Jittery Pre-Menstrual Tension
Is So Often a Needless Misery!**

Do you suffer terrible nervous ten-
sion — feel jittery, irritable, de-
pressed — just before your period
each month? A startling article in
READER'S DIGEST reveals such
pre-menstrual tension is needless
misery in many cases!
Thousands have already discov-
ered how to avoid such suffering.
With Lydia Pinkham's Compound
and Tablets, they're so much hap-
pier, less tense as those "difficult
days" approach!
Lydia Pinkham's
has a remarkable
soothing effect on
the source of such
distress. In doctors'
tests, Pinkham's
stopped... or strikingly relieved
... pain and discomfort! 3 out of 4
women got glorious relief!
Taken regularly, Pinkham's re-
lieves the headaches, cramps, nerv-
ous tension... during and before
your period. Many women never
suffer — even on the first day! Why
should you? This month, start tak-
ing Pinkham's. See if you don't
escape pre-menstrual tension... so
often the cause of unhappiness.
Get Lydia E. Pinkham's Veget-
able Compound or convenient new
Tablets which have
blood-building iron
added. At drugists.
