NUMBER NINETEEN

IMPORTANT WEEK OF ENTIRE CAMPAIGN TO CLOSE SAT. NIGHT

"Now or Never," seems to be the slogan of every Contestant in the big friend-making circulation campaign of the Fulton County News. Literally speaking, subscriptions have been pouring into the Contest Office this week. This is very easily explained by the fact, that, after the coming Saturday night votes decrease on subscriptions. The Contestant who amasses a large total of votes by the close of the Big Vote Getting First Period, which closes this coming Saturday night will be proud of that fact later on. Remember, there are only two more days to take advantage of this Big Vote Getting First Period.

The winner may not as yet have entered this Contest. This statement means that a real live wire could still enter and be declared a winner on June 21. No truer words were ever spoken.

Very few extra year subscriptions have been turned into the Campaign Office so far by any or all contestants. This fact plainly indicates, that, the sailing is still smooth for all contestants and that a superb mailing list is being obtained.

Each and every Contestant should turn in from five to ten—five year subscriptions this week because undoubtedly you have that many close friends or relatives who would rally to your support to that extent if only you would take time out and explain to them the importance of this week to your success. You know, that, those very votes might be the necessary and essential punch that would enable you to be declared a winner on June 21. I believe that I would subscribe for the Fulton County News five years as a good will gesture toward my own success before I would have nerve enough to expect as much assistance from others.

Set your goal at ten clubs worth of business for this week and then see that you reach that goal. You know, it's the easiest thing in the world to alibi yourself out of the good things of life.

I will predict that if any Contestant is leading the field by a decided margin this coming Saturday night, that Contestant will be hard to beat later on except by extra effort over a period of time. Who will be smart enough to take this tip? I wonder.

Some of the Contestants have hit their partial full stride, while others have not. Why? I am at loss to understand because such wonderful prizes are certainly worth working for. Were I in this Campaign I would expect to bring in the amount of the prize that I expected to earn. That would be my goal and I wouldn't care how much more. You can't have too many votes but you can have too few. What is your goal?

There is a right time to do things. This week is the right time to get that undisputed and decided lead. The more votes now the less regrets later on.

ACCENT on Cleanliness

Cleanliness is akin to Godliness and applies just as much to communities as to persons.

Cleanliness promotes not only beauty but health, and a beautiful community is usually a healthy community.

Removal of all those things which make a community look unattractive also removes those things which menace health.

Look around your house and yard, and see what improvements you can make. **CLEAN UP TRASH — MAKE NEEDED REPAIRS — PAINT UP — PLANT FLOWERS AND SHRUBS.**

Let's all go to work now to make a cleaner, healthier and more attractive **FULTON**

CREEK PROJECT GETS APPROVAL IN DRIVE

South Fulton Band Makes Good Progress

The state-wide WPA Music project in Tennessee began operation in January 1940, under the supervision of Charles M. Bryan. Assistance in organizing the program was given by Miss Dorothy Fredenhagen, assistant director of Federal Music Projects. In many rural communities, bands and orchestras are being afforded for the first time. Thirty-two bands are now rehearsing under the leadership of WPA bandmasters.

Prof. William M. Schwalb is director of the South Fulton school band and several other Ohio county groups. Prof. Schwalb has had practical experience in all branches of the music business. His father conducted a conservatory of music in New York and at an early age Mr. Schwalb played with his father's orchestras.

He has been teaching and directing school and municipal bands for the last thirty years. He has given the South Fulton band 52 lessons and the members have made remarkable progress.

The Band Mother's Club of South Fulton is a wonderful asset to the band and has made it possible to maintain the band through never-failing efforts.

After several weeks intensive study and plans on the Harris Fork creek beautification project, the Fulton Chamber of Commerce has made fine progress, and the various committees raised the necessary local subscription for the city's part on a WPA work program which is estimated will cost approximately \$14,000, according to R. H. White, president of the local civic organization. Out of this fourteen thousand cost, Fulton will have to bear about \$4,000.

This is a malarial, mosquito and flood control project, and WPA aid has been sought. It will include the laying of about an eight-foot concrete bottom and a two-foot sidewalk. The banks will be sodded, and in spots where the current cuts into the banks "mats" will be laid to prevent washing. All this work will not only improve the general appearance and beauty of the creek but will be a help in malarial control, for the benefit of the public's health. Cleaning, paving of the creek, and by enforcing an ordinance preventing the discarding of rubbish, etc., into the creek bed will materially reduce flooding within the city.

"I am highly pleased with the response and splendid cooperation that we have received in our efforts to put through this much-needed civic improvement," Mr. White said this week. "It is indeed a satisfaction and pleasure to know that we have such a fine group of citizens who will join themselves together in order to get a job done."

An engineer is now making a survey of the creek district, and just as soon as the project has been arranged in proper form, it will be presented for the final approval of the WPA. The program will also call for work on the lateral creeks inside the city limits which flow into Harris Fork. Following is a list of subscribers to the creek fund:

MAINTAINING Telephone Service Standards

As America girds for national defense, the Southern Bell Company's aim is not only to meet the increasing telephone demands of government and industry, but to continue rendering high quality service to the individual user.

Despite the necessity for training numerous new employees, and caring for a record increase in telephones and volume of calls, the service has generally continued at a high standard.

Telephone men and women are continuing to furnish friendly, helpful and technically efficient service.

These trained and experienced workers and their management are accustomed to working together and to planning ahead under conditions imposed by emergencies.

The workers, while meeting the rapidly expanding defense telephone requirements, are caring for the needs of the individual user in every way they can under existing conditions. The telephone organization is doing its best to see that during these times of national emergency you continue to derive the greatest possible advantages from your use of the service.

MRS. ROBERTS REGAINS 24 LBS. ON RETONGA

"I Hardly Remember Ever Eating, Sleeping or Feeling Better Than Now," Declares Well Known Trenton Resident. Discusses Case.

"I feel so splendid that if I recommended Retonga every day in the year I could not do this grand medicine justice," declares Mrs. B. L. Roberts, for forty years a well known resident of Route 1, Trenton, Ky. Continuing, Mrs. Roberts states:

"Even the toast and coffee I ate would sour in my stomach and cause so much gas that at times I could scarcely breathe. My bowels seemed to stay full of toxic wastes and I suffered with severe pains in my muscles. Dizzy, splitting headaches often robbed me of needed sleep and I sometimes felt so nervous I could hardly contain myself. After many months of this suffering I looked like skin and bones."

"Retonga promptly relieved my distress, and I was soon eating so

well that I had regained ten pounds. Constipation, headaches and nervousness were also soon relieved. That was about a year ago, and I have continued to take a bottle or two of Retonga occasionally since then, and now I have regained twenty-four pounds and I hardly remember ever eating, sleeping, or feeling better or stronger. Retonga has also helped my son, and we feel that we can never praise this grand medicine enough."

Retonga is a purely herbal stomachic medicine, combined with Vitamin B-1, for digestion, nerves and strength. Retonga may be obtained at DeMyer Drug Store. Adv.

NEW DUPONT HOUSE PAINT

keeps white houses WHITER!

Painters, home owners praise this new Du Pont House Paint

THIS brilliantly white Du Pont House Paint keeps white houses whiter because it cleans itself. Here's how:

Du Pont Prepared Paint forms a tough, durable film which protects the surface from rust, rot or decay. Like all paints, it collects dirt on exposure to the elements. As time goes on, however, a fine white powder forms on the surface of this new paint. This powder is washed away by heavy rains, carrying the dirt with it, and exposing a fresh white surface. This "self-cleaning" process starts after a few months of exposure under normal conditions of weather, but may be delayed under unusual climatic or dirt-collecting conditions. Because the "self-cleaning" process is gradual, the wearing qualities of the paint film are not abnormally affected.

Its economy lies in the fact that it stretches the time between paintings. Remember — Du Pont House Paint costs no more than other good paints. Ask your painting contractor to use it!

We carry a good stock of the newest and best patterns in Wall Paper at popular low prices. See us before you redecorate.
