CONTEST ENTERS LAST STAGES

The big subscription campaign, which has been underway for the past few weeks by THE NEWS, will enter the final week next week, and will close Saturday, June 21. Contestants are urging all their friends to respond with their subscriptions immediately in order that they may obtain votes. Hundreds of subscriptions have already been turned in, and many more are expected before the contest closes. All candidates have promises from friends, and those promises should be filled now for delay may mean your favorite contestant will lose.

Don't forget, too, that after this subscription drive the price of a subscription to THE NEWS will be \$1.50 in the Fulton territory, and \$2.00 a year outside a radius of 25 miles of Fulton. So if you expect to subscribe to your home and farm paper now is the time. You not only save yourself, but you will help your favorite contestant.

The five leading contestants are Phil Parker, Louise Rye, Miss Jessie Wade, Mrs. Frank Samons, Mrs. W. B. McClain. The final week of the contest will be conducted under locked box, where candidates will place their reports. This box will not be opened until the campaign closes, when judges will check reports and announce winners.

SMITH ATKINS BUILDS STATION FOR CITIES SERVICE

Smith Atkins, local business man, recently contracted for the construction of a new service station which is now being erected on the corner of Fourth and Depot streets. The station has been leased by the Cities Service Company, of which Donald Perry is the local distributor.

The station will be modern throughout, with office space, wash and greasing rooms fully equipped. In the rear will be a large and spacious waterroom. The bulk plant and tanks of this company will remain where they are now at the end of Maple avenue in East Fulton.

Construction work on the new station is expected to be completed about the middle of July. The station formerly occupied by D-X, corner of Carr and Lake streets, has been leased by Cities Service, and will be reopened about July 1, Mr. Perry said this week.

DEATHS

MRS. MARY ANN HASTINGS

Mrs. Mary Ann Hastings died suddenly last Thursday night at the home of her son, Lon Hastings, in McConnell. Her death followed a heart attack. Funeral services were held Saturday afternoon at the McConnell Baptist Church and burial was in Walnut Grove cemetery.

She is survived by three daughters, Mrs. Ollie Kaler, Mrs. Tom Dameron and Mrs. W. E. Black, all of Fulton; six sons, Lon, Sam and Will, of McConnell, Smith and Ocie of Fulton and Rufus of Union City.

A. M. RAINES

Albert M. Raines, 68, prominent citizen of Obion county and owner of more than 1,000 acres of land near Reelfoot Lake, died Saturday afternoon in a Dyersburg hospital. Funeral services were held Tuesday at the home in Hornbeak.

Mr. Raines was never married and made his home with his sister, Miss Mary Raines. He is survived by his sister, his step-mother, Mrs. Lula M. Raines of Lincoln, Neb.; two cousins, Dr. Rob Dunlap of Idaho and Edith Raines of Red Land, Calif.

WALTER C. BYNUM

Walter C. Bynum, age 54, died in the Haws Clinic Tuesday afternoon. Funeral services were held at Johnson Grove church Wednesday afternoon at 2 o'clock, conducted by Rev. E. A. Autrey, pastor of the First Baptist Church of Fulton. Burial was in the church cemetery in charge of W. W. Jones & Sons, Martin.

Funeralbearers were Charles Bynum, Ed Bynum, Bedford Wiley, Alton Wiley, C. D. Hall and John L. Jones.

Mr. Bynum was born near Austin Springs on March 31, 1887, the son of the late Mr. and Mrs. George Bynum. He was married to Bula Watts and to this union eight children were born. His wife and two children preceded him in death. He was a member of the Johnson Grove Baptist Church.

Surviving him are three sons, Clifford and Louis Bynum of Fulton, Wayne Bynum of Rives; three daughters, Mrs. Don J. Merrell of Fulton, Mrs. Josie Jones of Hickman, Mrs. Lucille Wheat of St. Louis; one brother, G. L. Bynum of Fulton; two sisters, Mrs. Herman Taylor of Memphis, Mrs. Etne Wiley of Dukedom; and four grandchildren.

RAY KELLY

Francis Ray Kelly of Cobden, Ill., fireman for the Illinois Central railroad, was found dead in his bed at the home of Shelton Hart on Eddings street early Sunday morning. Mr. Kelly had a room at the Hart home and his death was discovered when Mr. Hart went in to call him to the telephone.

JOE BEADLES NAMED ASSISTANT COACH

Joe Beadles, Jr., son of Mr. and Mrs. Joe Beadles of this city, was named to succeed Edwin Gunter as teacher in Junior high school, play supervisor and assistant athletic coach at the regular meeting of the City Board of Education Monday night.

Joe was graduated recently from Abilene Christian College in Abilene, Texas, where he made good records in all sports in which he participated. He made an excellent record as runner on the track team and was president of his class during his four years there.

During his high school career he was one of Fulton High's best athletes.

The Board accepted the resignation of Mrs. James Hiller, formerly Miss June Dixon, music teacher and English teacher in Junior High. This vacancy will not be filled, since officials expect to combine English classes with other classes if Junior High grades are housed in the high school building next year.

Architect Waller attended the meeting and reported that plans for the new building have been approved by State Superintendent J. W. Booker. The plans have been submitted to the WPA office at Madisonville this week and final approval is expected by July 1.

Bertie Pigue was reelected clerk of the Board and all friends for next year will be placed in the City National Bank.

Fulton Band Wins Award At Festival

The Fulton High School Band was awarded the first prize in band competition at the Strawberry Festival in Paducah Saturday. First prize consisted of a beautiful trophy and a cash award of \$40.

In the Festival parade held Saturday morning the Fulton band marched immediately after Miss Doris Branch of Fulton, who had been crowned Queen Dixie Aroma VI.

Butler High school of Princeton was awarded second place in the band contest, Murray High won third and Central High of Clinton was fourth.

Yewell Harrison is director of the Fulton band which has sixty-four members.

ELBERT AUSTIN FINDS MINATURE PLANE NEAR FULTON

Elbert Austin, an employee on the farm of George Browder, three miles south of Fulton Monday afternoon found a miniature, gasoline-powered aeroplane, owned and built by Walton and Edwin Crenshaw of near Union City.

Austin was driving some cattle in from pasture, when they shied away from something. Investigating he found the plane, which it was later learned was lost Sunday afternoon, while the Crenshaw brothers were flying it over a plowed field on the Martin highway, and it was carried away by uplifted winds.

GRAVES COUNTY MAY GET DEFENSE PLANT

During the past two weeks there has been going around a rumor that Graves county was to get a defense plant, but nothing definite was known until this week, a press release from Washington disclosed the following facts.

"Two Kentucky areas under consideration as possible sites for national defense projects — Boyle county for a balloon barrage training camp and Graves county for a \$30,000,000 munitions plant.

"Army engineers have made a survey of the vicinity of Danville, Ky., (Boyle county) to determine the feasibility of establishing a balloon barrage training camp there. War department officials said the area was one of many surveyed, but there would be no decision soon.

"It was learned from other sources that the possible sites for the War Department munitions plant had been narrowed down to Graves county, Kentucky and the Crab Orchard Lake area near Carbondale, Ill."

The Mayfield Chamber of Commerce has been working in secrecy for six months on obtaining a project for the Purchase district. Three Army engineers have been in Graves county for the past three weeks surveying sites for the proposed plant which would be similar to the one in Milan, Tenn.

One of the sites proposed by the engineers is said to be near Wingo and Cuba, and the other site in Graves county is in the northern section near Lowes and Fancy Farm. However, nothing definite has been announced by the Army engineers.

L. A. PEWITT HAS HOBBY OF COLLECTING PLANTS AND FLOWERS

If someone called you a "green thumb" would you know whether to take it as a compliment or an insult? L. A. (Blondie) Pewitt, who operates a repair and welding shop on Mears street here, is very much a Green Thumb, for in the past 18 years he has collected what is doubtless the largest variety of wild plants and flowers in West Kentucky.

The Order of the Green Thumb was organized last year by the Old Dirt Dobber, over the Nashville radio station. Blondie is officially a member of the order and has his card of identification. He well deserves the honor of being a member of such an organization, for he has collected more than 2000 different varieties of wild plants, flowers and has an assortment par excellent.

In his gardens adjoining his shop, Mr. Pewitt has an amazing collection of wild flowers and medicinal plants, such as ferns, Indian Turnip, Skunk Cabbage, Virginia Snake Root, Golden Seal, Anise, Star Root, Black Root, Pink Root, Milk Weed Family, Solomon Seal, Spear-mint, Peppermint, Black-Eyed Susan, Dogwood, Prickley Ash Bitters, Spicewood Family, Pusswillow, Wild Cotton, Money Flowers, Red Cardinals, Oyster Plants, Wandering Jew Family, Wild Cherry, Catnip, Old Fashioned Sage, Horehound, Burdock, and hundreds of others too numerous to mention.

Mr. Pewitt is very proud of his amateur gardening and the fine collection of plant life he has been able to assemble in the past few years. Many people visit his garden, and are delighted and amazed at the beauty and variety of wild flowers.

Yes, there's no doubt about it, he is the outstanding Green Thumb in West Kentucky.

JORDAN ROAD TO BE BLACKTOPPED

The Jordan highway from Union City to the State Line, a distance of five or six miles, will be blacktopped, beginning this week. During the spring, the state highway department regraded the road and applied two coats of gravel.

The work of applying the blacktop surface should be completed by about July 15.

REGISTRATION FOR ARMY SERVICE HERE JULY 1

It was announced this week that another registration of young men, who have become 21 years of age since the last registration, will be held in Fulton county, Tuesday, July 1. There will be two places of registration: the court house in Fulton for the east end of the county, and the registration office in Hickman, for the west end of the county.

All young men who have reached the age of 21 are urged to appear for this registration by the local board.

TVA To Speed Work On Kentucky Dam

Construction work will be speeded up on the Kentucky Dam at Gilbertsville so that it will be completed in the spring of 1944, a full year ahead of schedule, according to the Tennessee Valley Authority. This dam will add 160,000 kilowatts to installed power capacity, opening a complete nine-foot channel to navigation, and more than doubling the present flood control storage capacity of the TVA system.

The year's saving in time will be accomplished without any increase in the cost of construction, and in addition one more generator than originally planned will be installed without increasing the original cost estimate of \$105,000,000. The Authority states.

These results were made possible by economies in the construction of Kentucky, Cherokee and Watts Bar Dams, and in the building of transmission lines. Economies in design and supervision at Cherokee and Watts Bar, aided by favorable weather conditions, account for the major savings.

Kentucky Dam will have five generators of 32,000 kilowatts capacity each, instead of the four originally scheduled. Its generating capacity will include 90,000 kilowatts of primary power, continuously available energy, which will be exceptionally valuable because Kentucky is at the western end of the TVA system and its power production will help balance new generation coming in at the eastern end of the system.

Completion of Kentucky will add the last link to the standard nine-foot channel extending the entire 650-mile length of the river from the head at Knoxville, to the mouth at Paducah. The Kentucky lake will be 184 miles long.

HAWS CLINIC

Mrs. W. O. Greer continues the same.

Mrs. Earl Matthews of Hickman is doing as well as can be expected after a major operation.

Mrs. Jim Ashley of Crutchfield has been dismissed.

Mrs. Lorne Thomas is better.

Violet Walker has been dismissed.

Miss Olena French has been dismissed.

Alice Lunsford of Hickman has been dismissed.

Tommy Vance remains seriously ill.

Willis Lee Brockwell has been dismissed.

Sara Ann Boyd, daughter of Mr. and Mrs. B. K. Boyd, who was admitted for a tonsillectomy has been dismissed.

Bobby Merryman was dismissed after a tonsil operation.

Mrs. Mansel Roach, who received treatment for injuries, has been dismissed.

Mrs. W. E. Weatherspoon of Rives, who was admitted for treatment, is improving.

Mrs. J. W. Fortner and son have been dismissed.

Mrs. L. B. Council and son of Water Valley are getting along nicely.

Mrs. H. T. Edwards and son of Harris are doing fine.

Misses Mary Virginia and Treva Wayne have returned from the University of Kentucky, Lexington, to spend the summer with their parents, Mr. and Mrs. Trevor Wayne.

PLANS ANNOUNCED FOR KEN-TENN SHOW

The Young Men's Business Club met in regular dinner session last Tuesday night at the Rainbow Room with a good percentage of members present. The minutes of the last meeting were read and the roll called by M. L. Parker, secretary. Two new members were introduced to the club: P. H. Shelton of the Southern Bell Telephone Company and Harry Moss Latta of the Pepsi Cola Bottling Co.

Yewell Harrison, bandmaster at Fulton High school, expressed appreciation to the club for being instrumental in making summer band practice possible. He was greeted with applause when he announced that the Fulton band won first place at the Paducah Strawberry Festival against a good field of competition.

President Foad Homra told of present plans in regard to the Ken-Tenn Exposition, which is to be held September 8-14. He announced that the sale of ads on the catalog will begin in the near future and urged every member to do all he can to aid the committee in obtaining a full quota of advertising for the catalog.

The West World Wonder Shows, one of the top carnivals of this country, will be a featured attraction of the Exposition and is expected to attract thousands of out of town visitors. Another attraction will be the appearance of the Plantation Party, NBC radio artists, featuring the Duke of Paducah, on Thursday. A 3-ring circus will also show before the grandstand.

One day will feature all of the high school bands of this section in one of the biggest band festivals ever to be staged in this area.

It was decided that a lake trip will be held this summer as the result of an attendance contest.

Milton Exum is captain of the winning side and Enoch Milner captain of the losers, with the losers entertaining the winners.

Robert Wells Burrow, who is conducting a Red Cross First Aid course, reported that 40 persons attended the last session and that he is well pleased with the interest and enthusiasm accorded this course.

The "summer closing" committee reported that all stores except one have agreed to close Thursday afternoons during July and August and this store is expected to sign up in the near future.

The club will hold its next dinner meeting at the Chestnut Glade school with dinner served by the ladies of the community. A number of farmers of the community will be guests of the club.

WOODMEN REPRESENTATIVES TO ATTEND CONVENTION

Mrs. Jessie Houston of Murray and Mrs. Lois Waterfield of Hazel will attend the Supreme Forest Woodmen Circle convention in Omaha June 22 to 28, according to an announcement made this week by Mrs. Jewell McClain, officer of the local group, Myrtle Grove, No. 11. Mrs. Houston is state director of lodge activities and regional committee-woman for Kentucky. She will preside over the Eastern Regional meeting and luncheon Tuesday, June 24.

Mrs. Waterfield is manager of this district. Thirty other delegates from Kentucky groups will attend.

CARL PUCKETT MOVES STATION TO STATE LINE

Carl Puckett, local service station operator for the past thirteen years, has moved his D-X Service Station from Carr street to State Line, adjoining the Brady Bros. Garage. Mr. Puckett has made many friends here since coming to Fulton fourteen years ago from Water Valley, and has established an enviable reputation for attentive and courteous service.

He has four children, two boys and girls, who have attended the Fulton city schools.

Laughing Around the World

With IRVIN S. COBB

He Probably Slept

By IRVIN S. COBB

AN Easterner of sporting proclivities was spending his vacation up in the Northern Peninsula of Michigan. There he met a native of the wilds who was neither a guide nor a woodsman but who seemed merely to be an onlooker at what went on about him. It would appear,

further that he had neither vices nor habits. So far as might be judged, he didn't even have any pursuits, outdoor or indoor, that he followed. Filled with interest over having encountered so unusual a human phenomenon, the Easterner proceeded to ply the resident with questions.

"Don't you ever fish?"

"Nope."

"Nor hunt?"

"Nope."

"Ever run around any with the ladies?"

"Never have yet."

"You don't play poker, either, do you?"

"Nope."

"Ever go in for golf, by any chance?"

"Don't know what it is."

"I suppose not. Well, how about taking a drink once in a while?"

"Not for me."

"Possibly you've heard that there is such a thing as horse racing."

"No sir."

"Well, then," said the baffled stranger. "I'm coming now to the main question: In the winter time when everybody in this part of the country is frozen in, what the hell do you talk about?"

Walked into the Pepsi-Cola plant this week, and there was Billy Atkins and Chip Roberts working on a complicated electrical switch. What surprised me was that Billy has followed an electrician's trade for so many years. Billy resigned from a good job in the electrical department of the Illinois Central when he returned to Fulton about five years ago. Billy once was presented a picture of Thomas Edison by the electrical genius himself. Both Billy and Chip, with the demand so pressing for skilled men, could be drawing down a tidy sum on defense work. But they prefer to remain in Fulton, where home ties and friends are many.

Over at Hickman in the LaCled Hotel there is a room known as the Lindbergh Room, because the famed aviator stayed there one night. It seems that his plane cracked up across the river in Missouri. So he came over to Hickman to spend the night. But Lindbergh has been in Fulton county since. He and Charlie Smith, local aviator who was killed in an airplane crash, were good friends. At the time of Charlie's death, Lindbergh came here to pay his respects.

Defense efforts throughout the world has increased the demand for old scrap iron. Japan and Russia bought up millions of tons in this country before the government stopped purchases. But thinking about old scrap iron reminds me of the old iron a bunch of boys and I gathered up and sold during the last World War. I lived at that time in Hickman. We found the boiler of an old trasher engine buried in the sand on the river bank. After inquiring about, and learning that it had been there for untold years, and nobody seemed to own or want it, we decided to dig it out and sell it. It was a hard, tiresome job, but we finally had it uncovered and ready for moving. This task was too much for us, but some of the older folks told us how to do it. So we hired a log wagon and a team. By using the team and chains and skids, and some adult help, we managed to load it. After it was delivered was when the fun started. We all got about \$22.75 each when the money was divided. Boy, were we rich! Candy, chewing gum, ice cream, marbles, smoking, yes even chewing tobacco all found our pockets. We soon loaded our stomachs, but when the tobacco began taking effect, we soon unloaded them again with sad and sorrowful results. I don't believe I was ever sicker in my life. I remember my mother called me to dinner. I was lying on the front steps so sick I thought I would pass out any minute. When I failed to respond she came after me. There I was. I told her I didn't want anything to eat, and about that time gave a big heave, for the thought of food made me feel worse. She suspicioned something was wrong. When she got close to me she could smell the tobacco, for I had been smoking a man's pipe. Learning what was wrong, she had no more sympathy for me, but reminded me that I might expect a good tanning when I was able to take it. That experience, I think, turned me against

tobacco, for I have never cared much for smoking since.

Bob Davis, who owns property near the creek in Fulton, believes that the job of controlling the water through the city is a real problem. He advocates the plowing of the creek bottom at intervals, in order that the loose dirt can be washed out by rains. It is his belief that the creek bed is not deep enough, and that when concrement it will be necessary to remove dirt from the bottom from time to time.

This fellow Finch down at the Fulton Bakery, formerly Hornbeak Bakery, knows his dough—and I mean the kind of dough it takes to make good bread, rolls, cakes, pastries, etc. He has had years of experience, and knows the best recipes. He should and has been getting good results. His Dough-Boy display has attracted interest. Better watch out Lawton, Uncle Sam will have you on K. P. duty.

America is now vacation bound. For the next few months, thousands upon thousands of automobiles will cross the country in all directions.

Here are a few tips to follow on your trip:

1. Watch the road, watch the other fellow; but chiefly watch yourself.

2. It's a lot better to take a little time being careful than to spend a lot of time being sorry.
3. Signal what you are going to do before you do it.
4. Stay on your side of the road.
5. Don't trust the other fellow; check on yourself first.
6. Your pleasure trip has no right to promote the other fellow's funeral trip.

CHESTNUT GLADE NEWS

Friends in this community extend hearty congratulations to the young couples that were recently married. Miss Helen May Nelson, daughter of Mr. and Mrs. Dewey Nelson and Mr. Dean Harwood, son of Mr. and Mrs. Willie Harwood of the thirteenth district were married on Saturday night.

On Sunday Miss Charlene Oliver and Mr. John Colley of Fulton motored to Dyersburg and were married. Word was also received here of the marriage in March of Miss Louise Williams and Mr. Jackson. They were residing in Memphis and Nashville, where both are employed. The marriage has been kept a secret until now.

Melva June Vaughan and Yvonne Moore are visiting their aunt in Memphis this week. They left on

Sunday by bus and will return the latter part of the week. Miss Treva Ray has returned from a visit to Fulton in the home of Miss Norma Kathryn Samons. They attended the Strawberry festival in Paducah.

Mr. Melton Brann was carried to a clinic in Missouri this week for treatment. He is very ill with a throat cancer.

Many in this community attended the all day singing at Hatler's Camp Ground on Sunday. As usual everyone enjoyed the good singing and seeing old friends again. This event is looked forward to and enjoyed every year.

We are extremely proud of the popularity of our esteemed candidate in the contest this paper is sponsoring. Mr. Parker deserves the loyal support of his many friends and we will not fail to adhere loyally.

KENTUCKY CORN FARMERS MAY PLANT UP TO USUAL ACREAGE

Under provisions of the Department of Agriculture's plan to convert Ever-Normal Granary feed supplies into food supplies, corn farmers in Kentucky commercial corn-producing areas may increase corn acreage up to the usual acreage determined for the farm according to H. M. Pewitt, Chairman of the Fulton County AAA Committee.

Under the expanded food program, says Mr. Pewitt, the production of pork, dairy products, eggs, and poultry will be stimulated by supporting prices through the period ending June 30, 1943. It was also announced that the existing corn loan program would continue for 1941 and 1942, and that there will be no corn marketing quotas for the 1941 crop.

Mr. Pewitt explained that although producers in the commercial corn areas of Kentucky will not receive corn payments or be eligible for corn loans if they plant up to their usual acreage, there will be no reduction in Agricultural Conservation Program payments otherwise earned if the usual acreage of corn is not exceeded.

Since the beginning of the AAA, Mr. Pewitt said, it has been pointed out that the program could also be used to increase production. This adaptability is being put to use with regard to corn at this time, he said, the corn is to be fed to hogs and

poultry to produce additional supplies of those products.

Now
America looks to
ALL THREE
for preparedness

Build! Build! Build! Faster! Faster! Faster!

The call for defense roars over the land, and above all else it cries for power . . . electric power. Power to turn lathes. Power to drive rivets. Power to weld, to cut, to stamp, to form, to forge, to drive. Power to build guns, ships, tanks, planes. Power to prepare!

For today American defense wears three uniforms—military, naval, industrial. And the watchword of all three is SPEED.

When the call came, the electric industry was ready. Over night the industry began to deliver quantities of power unheard of in peace time. We could do it because we have always built for the future.

We've been preparing for 61 years.

Ever since this industry was born in 1880 the men who manage it have planned ahead.

We have always been ready for emergencies. Today we are meeting the greatest emergency of all, and handling it without cramping or stinting our regular customers.

Intelligent planning made this possible. It took foresight, initiative, and hard work. Business operation of this industry made it possible. Business operation alone built this industry big enough to serve you and handle the defense emergency at the same time.

Business operation has improved your electric service and cut the cost so you now get about twice as much electricity as you got 10 to 15 years ago for the same money.

Business operation of the electric industry will keep on giving you better service and more electricity for your money, and we will be able to handle emergencies in the future just as we have in the past.

Congratulations, Mr. Tigrett

We read this week a copy of a letter written by Mr. I. B. Tigrett, president of the G. M. & O. Railroad, to H. C. Pearson, member of the House of Representatives, which is deserving of commendation, for it so clearly sets out an opinion, which so many Americans feel today. We pass it on to the public, for we feel that it is worthy of careful perusal by the people. The letter follows:

"Like other Americans all over the land, I am troubled. All my life I have taken for granted the patriotic unity and, therefore, power of the United States. It has never occurred to me to fear that this Nation would not, at any time have a leadership which could, in a crisis, develop our human and material resources into impregnable defense.

"During the past week I have become increasingly frightened—for my country. Within the past year or two I have had occasion to be thrilled by the bold declarations of our President as he condemned greed and deceit and inhumanity and religious persecution. His assurances of aid to those helpless and suffering people who have been the blameless victims of the Hitler blight have had my approval and have aroused my pride. But our boastful faith in these assurances is being given a set-back by the transpiring happenings in our Homeland.

"It is not the Lindberghs about whom we have to be concerned, but it is the indifference of our Government to the spirit of defiance of the Lewises and the Bridges and others of that character.

"If our own citizenship becomes dismayed when we find that the leadership of this Nation seems to admit its impotency in handling an industrial element which puts spoils before patriotism, then how can we expect a mighty war machine like that of Germany to be impressed by our warnings.

"I am not intending to criticize the laborer. My sympathies lie largely in his direction. But when a so-called labor leader becomes mightier than the Government, it is high time for all of us to tremble. When it becomes necessary for the people of this country to send representatives to New York to consult one man as to whether or not we may have fuel with which to keep our defense industries running, there surely must be something wrong either with us as a people or with our leaders.

"When it is possible for a so-called labor leader to announce in public print, 'we defeated the combined efforts of the police, the courts, the employers and Washington to break the strike and we won a real victory,' then the day has arrived, not for Hitler to be frightened but for us who have regarded this Nation as the Sanctuary for those who are law-abiding no matter whether they are rich or poor.

AUTO DEATH TOLL REACHES NEW HIGH

Motorized Americans took the lives of 8,110 of their countrymen in the first three months of 1941. No, they weren't organized killers and it wasn't a military campaign. They were careless motorists on our highways and they had no intention of killing their fellow human beings.

The National Safety Council reports that the 8,110 killed in motor vehicle accidents in January, February, and March, exceeds that

of a similar period in any other year. Furthermore, unless the present death rate drops, the 1941 traffic toll will reach 40,000, the greatest in the nation's history. In January, February, and March 1940, the number of traffic fatalities was only 6,990, the increase of this year over last year being 1,120, or 16 per cent.

The speed-up of industry as part of the National Defense Program is partly responsible for the increase of accidents, but there is no good in producing more of the materials necessary for national defense without conserving the human material which is necessary to national defense.

The same holds true of industrial accidents which have also taken an increase in the first three months of 1941. We must not allow the accident rate to increase with the increase in traffic and industrial activity. This would be an admission that while we flatter ourselves enough to think we are controlling the accident rate, we are actually controlling it only under the most favorable circumstances. In other words our safety work has been rewarded in normal times by a reduction of accidents. However, the present situation is not normal. If the three point program of education, engineering, and enforcement cannot adjust itself to a period of emergency and still keep accidents at a minimum, our safety work has failed.

The public can play a very important part in the war on accidents by bearing in mind that aside from humanitarian reasons, this country simply cannot afford to waste human life.

At this time there is an actual shortage of labor in certain industries. When carelessness and safety violations kill men and women today, they are more criminal than ever before, for loss of life or limb is a more serious loss this year, than ever before.

NATIONAL LOTTERIES

The suggestion has been made from time to time that it might be

well to establish a national lottery, the profits to go toward the payment of the public debt. While there is no probability that such a scheme will ever be adopted in the United States in the future, it would not be without precedent.

Lotteries were employed as aids to government financing in most of the countries of Europe from about the beginning of the 17th century. In England lotteries were sanctioned by the government as early as 1569, and in 1612 one was established in aid of the struggling Virginia colony.

Faneuil Hall of Boston, the "cradle of liberty," was rebuilt by lottery aid before the Revolution. At least four different lotteries were conducted for the benefit of Harvard College in the early days.

Funds for prosecuting the Revolution were raised to a considerable extent by means of lotteries. In 1779 Massachusetts received a raffle-off of more than \$40,000 from a state lottery. In 1793, funds for the establishment of the nation's capital in Washington were aided by the same means.

These are only a few instances of the employment of lotteries in aid of commercial, educational, charitable and other purposes during our national history. In fact, it was not until 1890 that Congress enacted any law forbidding the use of mails to lottery enterprises.

NOTICE to Wheat Growers

Relative to Marketing Their
1941 Crop

Owing to the Enactment of recent Farm Legislation, it becomes necessary for the Grower to obtain a marketing certificate from the AAA Committee in the county in which the wheat was grown, to be presented to the purchaser or processor of the 1941 wheat crop before the wheat can be received.

See the Chairman of this Committee in your county and obtain the certificate. This is true of all wheat brought to the purchaser or processor and will place you in a position to have the wheat received without delay.

SWINGING ON THE GATE

A few days ago one of my former students came to see me and to show me her little five-year-old boy, whom I had never seen. As soon as the introduction was over, and he had extended his left hand, as most small children do, he began swinging on the door of my office. The long talk about old times made no impression on him, for he was having a good time. His action brought back a custom that was very old long before his time, swinging on the gate.

Our parents always told us not to swing on the gate, as that would make it sag (only they "swag"). We promised faithfully that we would not, but human flesh is weak when tempted by a large, strong farm gate. Though we were often punished, we somehow found ourselves sinning again, not openly but rather furtively. Most of the time we were not caught; we got a thrill out of doing something forbidden. Sometimes a sister or brother would turn state's evidence on us and get us spanked, the mean things. But not all the forces of righteousness could keep us off the gate.

It has been a long time since I rode on a swinging gate, partly because there are few gates strong enough for me. But I still remember the thrill. The gate was a means of locomotion, older by generations than the automobile or the aeroplane. We did not go far when we rode, but we burned the wind

while we were at it. Some of the gates had been ridden long or had acquired the decrepitude of age in other ways so that we probably had many types of motion at the same time. Some of the hateful things would drag on the ground before we got around our quarter circle and thus cheat us of our dues. One old gate was made in such a fashion that we got some strange up-and-down sweeps. Instead of hinges it had an upright beam that was held in at the top by an old wagon wheel bent around a tree; the bottom was set in an old iron pot, not perfectly symmetrical. When we cut loose and swung around, we described arcs that would baffle a good mathematician to name. The worst feature was wringing on the door of my office, that the last are let us down pretty suddenly on some very hard ground and gave us a taste of the licking that might be in store for us. After I was nearly grown it fell to my lot to replace this old gate by a new one; it seemed a shame that our old faithful could not stand up under hard usage. I recall that I worked hard to make the new gate strong, as if paying up for the stolen rides on the old one that did not bring a scolding or whipping. Fortunately the new gate seemed to realize the importance of its strong construction, for it lasted nearly thirty years. Of course, the more fact that there were no more boys to ride it several times a day may have had something to do with its being so long-lived.

BOMBS MAY FALL ON US TOMORROW

Read this thoughtfully! It isn't careless talk or hysteria or an irresponsible warning!

German "tourists" in the United States are this very hour devising ways of destroying our airplane factories in the East and West.

Our small towns, where vast quantities of vital aircraft accessories and parts are now under manufacture, are also of special interest to these Nazi "tourists."

Unquestionably there is one such Nazi "tourist" in our town, or in a neighboring community, where parts or other materials vital to America's defense are manufactured.

Tomorrow, German bombs may crash on Main Street, America! That our Government believes this likely was made plain last week when anti-aircraft units were placed in positions on airplane-factory roofs and grounds in California and elsewhere.

Also, last week, "The Aeroplane," spokesman for British aircraft manufacturers, revealed that German "tourists" in the United States were "exploring the possibilities of attacks on New York City, the Brewster, Grumman and Republic airplane factories on Long Island, the Glenn Martin Works at Baltimore, the Sikorsky plants at Hartford, Conn., and other aircraft manufacturing centers." These plants now are under night-and-day guard—and the posting of these Army guards is no "practice maneuver."

This suggests very powerfully that, in the defense of our loved ones, our friends and our property, all of us whose eyes are open must unite immediately in this fight for Freedom. We haven't a moment to lose.

Aside from organizing or joining our local Fight for Freedom group, we should immediately write or telegraph our Washington representatives, in both branches of the Congress, that the full protection of the United States as well as the Western Hemisphere demands immediate war upon Germany.

Telephone Service Vital To Defense Program

From Fort Jackson, S. C., to Camp Polk, La., and from Fort Knox, Ky., to Key West, Fla., naval base, the Southern Bell Company is meeting the challenge of the greatest engineering construction and installation assignment in its history, District Manager C. A. Sawyer stated this week.

Telephone communication is vitally important to step up the tempo of activity necessary in the new defense program. Military and naval establishments, accommodating hundreds of thousands of officers and men, have required the speedy installation of elaborate telephone systems. Vital industrial concerns also have imposed pressing telephone engineering and construction problems. Army maneuvers must be coordinated and directed largely by telephone over existing and specially constructed lines. The Aircraft Warning Service, in which civilian observers located at strategic points report the presence of "enemy planes," functions entirely by telephone communication over existing facilities.

Mobilizing materials and equipment for the huge telephone defense undertaking was a major problem in itself. Provision of skilled manpower for the various emergency assignments was another. But schedules for telephone construction and installation have been met, Mr. Sawyer said, largely because experienced telephone men and women, accustomed to facing emergencies, have learned many valuable lessons in restoring service for fires, floods and storms.

Too, many telephone people have been called for active military service, and of these a number hold responsible rank in the Signal Corps, where their technical telephone knowledge has proved valuable.

CHRISTIAN SCIENCE

"God The Preserver of Man" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world, on Sunday, June 15, 1941.

The Golden Text is: "The eternal God is thy refuge, and underneath are the everlasting arms" (Deuteronomy 33:27.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I will say of the Lord, He is my refuge and my fortress; my God; in him will I trust" (Psalms 91:2.)

Illinois Central Expends More \$1,000,000 Yearly In Ken-Tenn Territory

After a study of figures released this week by H. K. Buck, Fulton trainmaster, the editor of The News found that \$1,031,146 was expended during 1940 in the Ken-Tenn Territory, composed of Hickman, Graves, Obion and Weakley counties. Of this amount the biggest portion centered in and around Fulton itself. It was learned, too, that for the entire states of Kentucky and Tennessee a total of \$16,652,022 was spent by the Illinois Central System for payrolls, taxes, and miscellaneous expenditures. Remember that this was for the year 1940, and since then with increased activity to keep ahead of national defense efforts, there is certain to be a rise in the amount expended and the number of employees.

In the Ken-Tenn Area 586 employees were on the Illinois Central payroll during 1940, with 434 of these in Fulton county. These employees drew wages totaling \$861,478, while taxes totaled \$151,797, for the five counties of Fulton, Hickman, Graves, Obion and Weakley.

Following is a tabulation of payrolls and taxes for these five counties:

| | Payroll | Taxes |
|---------|---------|--------|
| Obion | 32,181 | 43,244 |
| Weakley | 50,156 | 45,640 |
| Fulton | 708,805 | 13,332 |
| Hickman | 13,916 | 17,817 |
| Graves | 56,420 | 31,764 |

There were a total of 7,295 employees in 1940 with the Illinois Central System in Kentucky and Tennessee. Since the inauguration of the defense program there has been an increase in freight, and additional employees have been added to the payroll. Fulton, hub of the Illinois Central in this section, has felt in the increasing tempo more than other cities in the Ken-Tenn district, composed of the five counties mentioned above.

During the past few years Fulton has steadily grown as a shipping point for livestock with better than two and a half million dollars worth purchased at local stock yards. Now that the defense program is underway, the Illinois Central is playing a major role in the transportation of freight and soldiers.

Hitler's Conquests

Beginning with the occupation of Austria under the threat of force in 1938, Hitler now dominates 14 countries which enjoyed independence prior to his setting out to conquer the world. To these 14 nations we may as well add Italy, for her course is now being dictated from Berlin. This is the record:

- Austria—Absorbed March 13, 1938.
- Czechoslovakia—Partitioned and dominated after Munich pact of September 29, 1938.
- Poland—Conquered and partitioned, after a month of fighting, October 1, 1939.
- Denmark—Occupied April 9, 1940.
- Norway—Occupied after fighting one month, June 9, 1940.
- The Netherlands—Occupied after four days of fighting, May 14, 1940.
- Belgium—Occupied after 18 days of fighting, May 28, 1940.
- Luxembourg—Occupied May 10, 1940.
- France—Fell in 53 days after invasion began, and surrendered June 22, 1940.
- Hungary—Joined Axis November 20, 1940.
- Rumania—Joined Axis March 1, 1941.
- Yugoslavia—Conquered after 12 days fighting, April 18, 1941.

Greece—Athens, the capital, occupied April 27, 1941.

And latest German-held territory is the Island of Crete in the Mediterranean.

There will be still others, and unless the American people—the voice of public opinion—speak up and demand full speed ahead for defense of their country, and all-out aid to Britain, we haven't seen anything yet in the United States. What are you doing about?

Lindbergh and isolationists are doing all they can to retard and prevent America from protecting its rights. A VOICE must be raised by the people, to show the world that we are united and determined to preserve the democracy our forefathers fought to establish. But action—strong action is necessary and without delay. Down with dissent, complacency. Let's all get behind a movement to preserve and protect the freedom and liberty we all love so well.

*"Six Years
A LEADER"*

In 1935 we inaugurated our first Rebel. It was the only streamlined train in the South and one of the few in the country.

At the same time another new feature was added to our passenger service. The Rebel train hostesses were the first in America.

Streamlined trains are now numerous, and their personnel generally includes a hostess.

The G. M. & O. is still keeping its pace, and at the end of six years we find ourselves operating five luxury Rebels.

May we not take this occasion to renew the assurance of our desire to furnish the best transportation facilities which our means and ability will permit.

W. S. C. S. IN GROUP MEETINGS

The Woman's Society of Christian Service of the First Methodist Church held the regular monthly group meetings Monday afternoon and evening. The subject of the Bible study lesson for all groups was "The Parables of Jesus" and the two parables discussed were: the Parable of the Lost Coin and the Parable of the Lost Sheep.

Group A met in the afternoon at the home of Mrs. R. E. Pierce on Second street, with Mrs. Louie Bard and Mrs. Guy Tucker as assistant hostesses. Fifteen members and one visitor, Miss Seals, were present. Mrs. M. W. Haws was in charge of the Bible lesson. During the social hour the hostesses served sandwiches, tea and cookies.

Group B met with Mrs. A. G. Baldridge and Mrs. J. L. Fuzzell at the home of Mrs. Baldridge on Fourth street with fourteen members and one visitor present. Mrs. K. E. Dawson was the visitor. Mrs. Roscoe Wilkins, chairman of the group, conducted a short business session and Mrs. Harvey Maddox gave the Bible lesson. The hostesses served ice cream and cake at the close of the afternoon.

Mrs. Warren Graham and Mrs. Charles Payne were hostesses to members of Group C at the home of

Mrs. Graham, near Fulton. Mrs. T. J. Kramer taught the Bible lesson, assisted by Mrs. John T. Price who gave the devotional. At the conclusion of the program the hostesses served a sandwich plate and cold drinks to nineteen members and one visitor, Mrs. Morgan Davidson.

Mrs. Dora Matthews was hostess to the East Fulton Circle at her home on Vine street. Fifteen members were present. Mrs. J. H. Felts, chairman, presided over a brief business session at which time good reports were made. Mrs. Lynn Taylor conducted the Bible study and Mrs. Felts gave the devotional.

The Wesleyan Service Guild met at 6:30 o'clock at the church and hostesses were Mrs. C. L. Gardner and Miss Opal Williams. A well planned supper was enjoyed followed by the business session in charge of Mrs. Lawrence Shelton, group chairman. Mrs. Harold Owen was then presented and she gave the Bible study and the devotional. Fourteen members were present.

Mrs. Jean Moon, Mrs. Gene Speight and Mrs. Monroe Luther were joint hostesses to the Unedus Circle which met at the church at 8 o'clock. The meeting was opened with a song "Glory Just To Walk With Him." Mrs. E. L. Cooke, chairman, conducted the business session. The secretary's report was given by Mrs. Speight, secretary, and the financial report was made by Mrs. Bernard Houston in the absence of the treasurer, Mrs. Herbert Goadler. The meeting was then turned over to Mrs. Herman Drewry who was in charge of the program. Subject for the evening was "Stewards of the Temple of God." Mrs. Milton Exum gave the devotional thought and Mrs. Cooke taught the study lesson. During the social hour refreshments were served to twenty-one regular members and one visitor, Miss Ann Godfrey.

MRS. COULTER HOSTESS TO CLUB

PROGRAM SEEKS INCREASE IN VEGETABLES FOR CANNING

A program to expand the production of tomatoes for canning by 50 per cent to meet probable demands for canned tomatoes under the Lend Lease Act, and for distribution by the American Red Cross as well as for school lunch, relief and other purposes, was announced by the Secretary of Agriculture Claude R. Wickard. The need for immediate action to secure the necessary acreage to produce an extra 15,000,000 cases of canned tomatoes was emphasized, as planting must be made during the next few weeks in order to insure the required supply. Much smaller quantities of peas, corn and snap beans may also be purchased from time to time, but no advance purchases at this time are contemplated.

Present prospects indicate that the increase sought in canned vegetables will be sufficient to meet anticipated needs up to June 30, 1942. To meet current requirements, the Federal Commodities Corporation will request bids from canners for offers for comparatively small amounts.

To make it possible for canners to take immediate steps to secure the increase in tomato acreage, the FSCC proposes to ask canners to submit offers at once to deliver canned tomatoes after the new pack has been completed. Through the early acceptance of such offers, it is expected that canners will be able to arrange finance, and carry out their increased operations with a minimum of difficulty. Under the plan, delivery can be made within 60 days of packing, but bids will also provide for storage after that date where facilities are available.

In order to assure the greater supply of tomatoes necessary, the SSCC, in considering bids, will make allowance for increases of from \$2.75 to \$3.00 per ton over 1940 contract prices to growers.

It is expected that the price increase will be applicable to the entire contracted production of all growers who cooperate in furnishing the increased quantities desired and who, if requested, increase acreage or fertilization so far as is reasonable and practical.

Growers who participate in this program will not incur any deductions from their AAA payments because of increases in acreage of these vegetables for canning.

Further purchases of fresh tomatoes with subsequent processing will also be made if it becomes necessary to insure a fair price to growers in open market areas. Plans will be made to secure additional supplies in the southern and western states during the fall of 1941 insofar as is required.

The grades of canned vegetables contemplated to be bought are Grade B and C, so as not to absorb too large a proportion of any single grade. Federal inspection as to
