## Charley Moore Announces For Tax Commissioner

C. H. (Charley) Moore, who is now serving the county as deputy sheriff, authorizes The Fulton County News to announce his candidacy for the office of Tax Commissioner, subject to the action of the Democratic party Saturday, August 2. Mr. Moore, better known as Charley, needs no introduction to the people of Fulton county, for he is widely known in every district.

He has a splendid record of public service and trust, and is a man who has fulfilled his duties well. Besides being a successful business man, he has served on the city council of the City of Hickman, on the Hickman board of education and has served two terms as deputy sheriff of the county. He has also served on the church board of the Christian Church in Hickman for the past thirty years.

### Mayor and Council Race Starts Slow

Although there has been considerable interest and discussion around town about the mayor and council race this year, there seems to be a definite reticency on the part of the present city officials to announce their intentions. This seems to be due to the fact that they are undecided themselves.

Paul DeMyer, farmer, present mayor, who has served for sixteen years as city official, will not seek re-election, it is reported.

Tom Boaz, grocer, councilman for sixteen years, is considering the mayorship, but is yet undecided. He states that he will not run for council.

J. N. McNeilly, grocer, who has labored several terms as a councilman, is undecided whether he will announce for re-election.

Bert Newhouse, shoe dealer, and councilman, has been rumored as a candidate for mayor. But it is doubtful whether he will be available for council duty, for he is not inclined to again seek a council seat.

H. H. Bugg, grocer, would not express himself in regard to his intentions in the council race.

Clarence Pickering, railroad man, was still undecided about whether he would announce for re-election, when interviewed Thursday.

Kellie R. Lowe, business man and farmer, will not seek re-election on (Continued on Page 4)

### Chamber of Commerce Met At Pilot Oak

The Chamber of Commerce held a good will dinner meeting Tuesday evening in the Pilot Oak community with about forty business men of Fulton attending and a large group of Pilot Oak citizens. The Homemakers served the dinner in the school gymnasium.

Rev. J. F. Morelock gave the invocation. Bob White, president of the Chamber of Commerce, expressed appreciation for the meeting and introduced J. O. Lewis, program leader. C. G. Douglas, principal of the Pilot Oak school, made the welcome address and Leon Browder gave the response.

Prof. Fred Shultz of Murray College was the headline attraction of the evening and delivered a powerful and gripping talk on the subject "Time Out." He pointed out many important statistics pertaining to the wealth, industrial and agricultural progress, and strength of the United States. In these times when the world is torn with war and there is so much division of thought, some of the American people are prone to forget the background, heritage and real strength of our nation. We must awaken to the need and importance of taking "time out" to check up on what the American way of life really is and means to the future of our country.

The message was very impressive and left lasting thought with his eager audience.

### Hickman People In Automobile Wreck

J. H. Benson, of Hickman, was killed in an automobile accident near Ridgeley, Tenn., Friday afternoon of last week. His daughter, Mildred Benson, was critically injured, sustaining a concussion of the brain and possible internal injuries, it is reported. The accident was caused by a blowout, causing the driver to lose control of the car to strike a tree and then turn over three times.

Fate took another hand in the story Friday night when the automobile in which four boys from Hickman were going to see Mildred in a Dyersburg hospital, collided with another car six miles from Dyersburg on Highway.

One of the occupants, Charles Edward Williams, received cuts and bruises. May Fae Butler, 5-year-old daughter of Lawrence B. Butler, occupants of the other car, also received minor injuries. State Highway Patrolman Clarence Turner investigated. No arrests were made.

Funeral services for Mr. Benson were held Sunday at Hickman.

### WILLIE PRUETT

Willie Pruett died at his home near Cayce early Thursday morning. Funeral arrangements had not been made at press time.

## Wanted --- A Mayor!

From time to time it has been necessary for us, in interest of civic betterment, to come out for definite movements that in the end mean progress and general public welfare.

We have talked with more than one hundred people in the past week, and from these interviews it is the general opinion that the city needs a real, live-wire, civic-minded and progressive man to fill the job of mayor. He should be a man determined to work with any and all groups and individuals in order to accomplish a desirable program or civic betterment . . . one who is energetic and capable of promoting the best interests of the community at home and abroad.

The job of mayor cannot be handled today as it has in years past. The world is changing. Let us look ahead, progress and plan for tomorrow. This all can be done in an easy, peaceful sort of way—but it must be done. There have been occasions when Fulton has lost out because there has not been sufficient thought given to what is ahead, and not enough real energy expended to get a job done. We do not want this to continue to happen. No Community can stand still. It must either go forward or backwards.

Yes, the old time way of serving as mayor is now passe—obsolete, a thing of the past. We must have a mayor with ideas, a mayor with vision and judgment, who can and will go after things which will mean civic progress and improvement. Give us new life, new blood, then we will have a healthier, livelier community.

Official business of the city is becoming more and more burdensome, requiring more and more time and energy of the mayor and council. Naturally, we all know that these men who serve their community do so for civic reasons, for the pay is so slight. But the citizenry must arouse itself and speak out in interest of an alert, aggressive sort of city government and encourage these good men to take upon themselves the job of improving their community. Fulton has these men . . . men who have already proven themselves by their civic work and deep pride and interest in their "home town."

By Frederick Stamm, Economist Director of Adult Education UNIVERSITY OF LOUISVILLE

The high standard of living in the United States is seriously threatened by our new war time economy. This is not a new situation for standards of living have gone down during the last World War we had to do without many

things which we had enjoyed before. Today the American public is faced with the same situation. And as a result we are witnessing a buying spree on a large scale. People are buying not only to avoid higher prices but also because they are afraid they will not be able to secure commodities to which they have long been accustomed. It isn't that we Americans are not willing to sacrifice when necessary but it is the fact that we know how hard it is to regain a high standard of living once it has gone down.

Let me illustrate my point. Automobile manufacturers are going to cut production on the 1942 models at least 20 per cent. As soon as this became known there was a rush to buy the 1941 models and

get a new car. Consequently the manufacturers were swamped with orders and are now turning out more automobiles just before a change in models than ever before.

Another example. The rumor has leaked out that electric refrigerator manufacturers will likely be forced to cut down production in order to conserve material for defense orders. As a result, sales have set new records as 1,524,496 electric refrigerators were sold the first four months of this year compared with 1,072,892 in the same period last year. This illustrates clearly that we have accustomed ourselves to a high standard of living and we are anxious to maintain it. We do not want to turn back.

**KENTUCKY BANKS MAKE 132,000 LOANS**

Sixteen per cent of the banks in Kentucky made more than 132,000 loans totaling \$163,000,000 to business firms and individuals throughout the state during the second half of 1940, according to the semi-annual survey of bank lending activity made by the Research Council of the American Bankers Association.

These 65 banks reported that they made between July 1 and December 31, 1940:  
58,928 new loans totaling \$76,257,010.  
72,523 renewals of loans totaling \$4,340,492.  
1,419 new mortgage loans totaling \$3,382,150.  
Total \$163,979,661.  
The survey showed that business firms in the state used only half of the "confirmed open lines of credit" maintained for their use on the books of banks. A total of 13 banks in the larger centers of the state reported that they carried on their books \$41,935,350 in "open lines of credit" offered to and kept available for regular borrowers for use as needed by them. Of this amount \$19,497,035 or 46.5 per cent was used.

**CARD OF THANKS**

Mr. and Mrs. Buel Williams wish to extend their thanks and appreciation to the many friends and relatives who so thoughtfully came to them in their hour of sorrow caused by the death of their baby daughter, Barbara Alice. Thanks are also extended to those who rendered the song service.

**THE ARMY'S ON THE MOVE!**

ARMY maneuvers on a scale vastly greater than ever attempted in this country are under way and will continue for several months. The scene of these maneuvers is the nine southern states served by Southern Bell.

It will be both a test and training for the army as well as for the civilian population which provides the vital means of communication, transportation and supply.

Essential to the success of these maneuvers is an adequate, dependable system of telephone communication. This the Southern Bell Company is providing whenever, wherever and in whatever amount the fast shifting armies require. This means that the Telephone Company, like the army, is keeping its sources of supply, transportation facilities and man power ready day and night so it can act on the moment. Past years of training and experience in meeting emergencies have already prepared our army of telephone workers for this big task.

It is the Telephone Company's plan to take care of the army's needs with little, if any, serious interference with the public's accustomed use of the service. During these maneuvers, however, there may be occasions when for short periods of time our facilities will be mainly required to meet the army's sudden and unexpected needs. Should this happen in your community, your wholehearted cooperation will be a helpful contribution to the successful advancement of preparedness.

### FIRE DESTROYS MARTIN COLLEGE

Fire destroyed the Industrial Arts Building at the University of Tennessee Junior College at Martin Saturday afternoon, causing an estimated damage of \$50,000.

Observers suggested that a number of 4-H Club tents, which had been sprayed with oil and stored in the attic, might have ignited through spontaneous combustion to cause the blaze.

The building burned nearly to the ground since firemen, augmented by the firemen of South Fulton and Union City, were hampered by a small water supply. Several students and the Fulton firemen, who were inside the building, narrowly escaped injury when the roof caved in. Steve P. Wood, head of the Industrial Arts Department, jumped head first out of a ground floor window to avoid the falling debris.

The structure, built three years ago at a cost of \$40,000, contained classrooms and laboratories. It was a one-story brick with tile roof.

Included in the equipment destroyed were machines used in the wood working, electrical and mechanical departments, and agricultural implements used by farm students.

### CITY ELECTION

(Continued from Page One)

the council. He feels that he is not only ineligible because he resides outside the city limits, but states that his other duties prevent him from accepting extra responsibilities as a councilman.

It will be remembered that the present mayor and council were chosen in the last election without opposition. This time there has been a decided tardiness about either old members or new candidates offering their services to the city. Several new candidates are being mentioned about town, including Doran Colley, Foad Homra and Sam Steele, but none of these has indicated to THE NEWS that he would seek office.

R. C. Peebles, laundry operator, and former member of the Fulton city council, is the only person interviewed who stated that he expects to announce for mayor, having reached the decision after many friends had prevailed upon him to do so. He will run on an independent platform, and not jointly with a picked ticket for the council as is often done.

There have been other rumors around town about prospective timber for the mayoralty race. Smith Atkins and Ira Little have been mentioned and friends have urged their participation. But both these men are alleged to have indicated that they could not accept. So that's how the city race stacks up today. There vrey likely will be other developments. Watch THE NEWS next week for further revelations and facts regarding the mayor's and the council's race in Fulton.

### SUPPORT KENTUCKY-TENNESSEE FARMERS

Farmers of Kentucky and Tennessee are now engaged in a live-at-home program in order to aid National Defense, but consumers of these two states can also help National Defense by consuming products grown in their own state. Transportation facilities are crowded, and in the past many products of Kentucky and Tennessee

have been shipped to the North and East and then returned to these states for sale. This is absolutely unnecessary expense for both the producer and consumer.

We can help our neighbors and ourselves by eating Kentucky and Tennessee foods.

Kentucky motorists must procure their operators' licenses in the county of their residence under a new law which will be aggressively enforced for the first time this year, it was announced by the Department of Revenue. The present licenses expire July 31. The only

exceptions under the Act, passed in 1940, are persons who are temporarily residing in another county at the time they seek to renew their licenses.

Felt So Weak She Had To Be Helped From Chair To Chair, States Mrs. Duncan. Eats Anything Now, Nerves Steady, Regains Strength.

Typical of the grateful praise heard on every hand for Retonga is the remarkable endorsement of Mrs. J. W. Duncan, prominent resident of Route 4, Westmoreland, Tenn. Mrs. Duncan lives with her family on their 400-acre farm and is a widely known resident and active church worker. Relating her happy experience with Retonga, she declares:

"I felt so run down, nervous and weak from acid indigestion I had to be helped from chair to chair. I was afraid to eat and my diet was only milk for more than a year. I lost 33 pounds, my nerves were unstrung, and constipation clogged my bowels with toxic wastes. My limbs ached and pained me terribly. My husband spent hundreds of dollars on me without success

and no one in Tennessee was more downhearted than I was.

"Retonga promptly relieved all this distress. I eat real meals for the first time in a year and I have regained all the 33 pounds I lost. Constipation and the stiff achy feeling are relieved and my nerves are strong. I feel like a different woman, and I will be glad to tell anyone personally what a blessing Retonga was to me."

Retonga is a purely herbal stomachic medicine, combined with Vitamin B-1, for digestion, nerves and strength. Thousands praise it. Retonga may be obtained at DeMyer Drug Co. —Adv.

took third prize, which was 25 per cent commission on her sales, with Mrs. Frank Samons of Fulton coming in fourth.

The campaign was closed Saturday afternoon at the Sales Room of the Auto Sales Company, with three impartial judges making the final check of votes and announcing the winners. The judges report read as follows:

"This is to certify that we have counted the total votes in the Fulton County News subscription campaign, and find that the final results were true to record, as follows:

First prize, Phil Parker; Second prize, Miss Louise Rye; Third prize, Miss Jessie Wade; Fourth prize, Mrs. Frank Samons.

Judges of Contest:  
DR. DON P. HAWKINS  
REV. WILLIAM WOODBURN  
D. A. ROGERS

After the final count by the judges, the winners were announced, the awards were made by the publisher, J. Paul Bushart, under the rules and regulations governing the contest, as appeared in the original announcement of the campaign. Under the "Pay-As-You-Go" plan each contestant received 20 per cent advance commission each time they reported, guaranteeing every contestant some reward for the work they did. Under rule 11 this commission was

treated in the light of an advance against an earned award, and refundable upon presentation of said award. To insure absolute fairness and impartiality in presenting awards, the campaign was closed under the sealed ballot box system during the entire last week, and no candidate or supporter was permitted to learn the actual standing of contestants, safeguarding any attempt to "buy" an award.

Many of my friends in various sections of the county have urged me to come out for sheriff, and these urgent appeals have been appreciated and respected. I have always endeavored to be honest, courteous and fair with everyone, and I know that I have made many friends. This is my first time to ask for public office, and I sincerely solicit and shall appreciate your vote and influence in the coming election. I feel that I am qualified to make a good officer and take care of all the duties connected with the sheriff's office. Some people believe that after the ambulance has taken the injured people from the scene of accident and the garage wrecker has removed the wrecked automobile, the accident is closed and all its effects have disappeared.

This is not true. Some accidents do not end for weeks and months, and some take years to settle. By this I mean the results of accidents—the terrible injuries suffered that take years to heal and the permanent disabilities that can never be corrected—all caused by our careless driving habits. This alone ought to encourage many of us to drive safely. It's smart to drive carefully; but if you intend to remain alive on the Fourth of July week end, stay on the front porch and "stay alive."

It is primarily an attempt at economic domination enforced by military power. It is an attempt to make Germany the center of a world-wide economic machine which will determine throughout the world how people lived, what they shall produce, what they shall be allowed to buy and sell, and what they shall think. It is already possible to see the beginnings of this machine being set up in the conquered countries of Europe.

2. With such a machine no free democratic government and no people living under a free enterprise system can compete or compromise. They can only conquer or be conquered.

If Europe, Africa and Asia are conquered, the free workers in the Americas will not be able to compete with the slave labor of the conquered countries, nor will the free private enterprise of the Americas be able to compete with a government-controlled economy which operates, often at a loss, for the sake of conquest and political domination.

3. Finally, the intended conquest is not even a conquest by the German people—but merely an extension of the tyrannical and lawless rule of a small group of evil men in Germany who have subjugated first their own people, then the peoples of Europe, and who now seek to conquer Britain and then the rest of the world. This group of evil men does not govern by consent of the governed. It governs by the imposition of its arbitrary will enforced by torture and murder and the spyings of secret police.

Under the rule of these bloody-handed tyrants men are not allowed to speak freely with their own families—let alone their neighbors. They are not allowed to worship their God. They are not allowed to read books or educate their children except in conformity with the enforced ideas of their tyrannical leaders. Workers are not allowed to organize in unions. Women are not allowed to be educated—to do more than cook and breed if they are good "Nordics" or work as slaves if they belong to an "inferior race."

This is what the war is about. Hitler himself has said: "Two worlds stand opposed to one another. One of them must break asunder."

We are a part of the world that must "break asunder" if Hitler is victorious.

That is why this country, after full democratic debate, is now committed to a fight to the finish with those who seek our destruction.

**Beliefs We Hold**

1. The policy of this nation, its determination to see that the intended conquest shall not be carried out, is dictated by our own instinct of self-preservation and not by any altruistic desire to rescue others beyond the seas.

Our interest in the maintenance of resistance by Britain and the nations of the British Commonwealth is the interest of stopping the tide of conquest and domination before

it completely encircles us in our own hemisphere.

2. It is within our power to prevent the fall of Britain, to keep control with Britain of the oceans which protect us and our Latin-American sister-republics.

3. Once Britain falls, and the British Fleet no longer stands guard over the Atlantic, we shall be unable to control the seas alone. We shall be open to attack by vastly superior forces. Even if the at- never materializes, we shall be encircled.

**W. S. C. S. IN ANNUAL LUNCHEON**  
The Woman's Society of Christian Service of the First Methodist Church held its annual Guest Day Luncheon at the church Monday. This luncheon is held each year to honor visitors and friends of the members. One hundred and seven were present Monday, including thirty-four visitors. Among these were a number of college students.

Out-of-town visitors present were Mrs. Carlton Wilkes of Memphis, Mrs. A. L. Martin of Nashville and Mrs. Walter Goadler of near Fulton.

After the luncheon, which was

served at noon, the president, Mrs. Warren Graham, presided over a brief business session. At this time the report of the secretary, Mrs. Leon Browder, was given. Announcements were made concerning the Zone meeting to be held at the Fulton church Monday, June 30, at two o'clock. Plans were discussed for a new group to be organized for young women from 18 to 23 years of age. This group will probably be organized in the fall.

An announcement was made that the Epworth League of the church will sponsor an ice cream supper on the church lawn next Tuesday night.

Following the business session the meeting was turned over to Mrs. Louisa Weaks, program leader, and she presented Misses Jane Dallas, Jane Alley and Mary Ethel Lansden, who sang a beautiful trio, "Lord, Speak to Me." The devotional was conducted, in two parts, by Mrs. Jean Moon. The first was a scripture reading from the 22nd Chapter of Luke. The second part was an interpretation of a one-act play entitled "Number Six," by Stephen Phillips, which was thoroughly enjoyed.

The group then sang "Majestic Sweetness Sits Enthroned." Rev. Loyal O. Hartman, pastor, was then introduced and he made an interesting address, the subject being "Not Good If Detached." Rev. J. H. Felts spoke briefly to the group and Rev. Hartman pronounced the benediction.

### DEMOCRACY IS NOT DEAD

The pessimists are united on one theme, "Democracy is dying." Some even go so far as to say "Democracy is dead." They bewail its passing and at the same time say nothing can be done about it, that we must reconcile ourselves to a new world.

But Democracy is NOT dead. No onward march of dictators can trample it into dust—for Democracy is more than a way of life. Democracy is a way of thought—and no dictator can dominate forever the mind of man. It is the unfettered thought of man that has spelled the doom of every dictator who ever lived—or who will ever rise from the ashes of an embittered nation. When we fight for Democracy, we are not fighting for a country but for an ideal—not for a word—but for the things for which that word stands.

Democracy, according to the dictionary, is "government directly by the people collectively." It is a government of freedom—but our own freedom depends upon the right of others' freedom being safeguarded. Respect for human dignity, for the individual in a democracy, is one of the great differences between democracy and totalitarianism. Democracy believes in the intelligence and integrity of the average man. Totalitarianism denies this quality and declares that the average man does not have enough sense to decide things for

himself and that it is necessary that a self chosen clique of "supermen" be given absolute rule over the public and private life of every man.

Democracy is essentially religious. It has its roots in the fatherhood of God to all mankind. It is because of this basic belief that dictators fight religion—by whatever creed it proclaims itself. They hate it with the same hate they have for Democracy because they know Democracy is the fruit of religion.

The duties of those who believe in a democracy were outlined centuries ago by the prophet Micah when he said, "And what doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God?" And to those who believed and obeyed was given the promise, "And he shall judge among many people, and rebuke strong nations afar off; and they shall beat their swords into plowshares, and their spears into pruninghooks: nation shall not lift up a sword against nation, neither shall they war any more . . . and none shall make them afraid." Democracy is NOT dead. If it be truly put into practice, it will live forever.
