CITIZENS OF FULTON, there's a job ahead! You as citizens are vitally concerned about the future of your community. On Saturday, August 2, you will go to the polls to choose a mayor and council men. The city you pick to serve you will and should endeavor to preserve the economic welfare and promote the civic progress of our community.

The mayor must take the lead in molding the progress and development of the community. He should be a person deeply and genuinely interested in seeing the community go forward. He should serve and work incessantly, alone and jointly with civic groups, in interest of public affairs. He should be aggressive, able to talk promptly and publicly for any cause that will be of the people. He should be a SELF-STARTER, for it will be necessary for him to concentrate his efforts on the jobs that will have to be done.

Changes are occurring throughout our nation. There are certain to be many more readjustments in the next few years in our national economy. The American way of life must be maintained, preserved, and adapted. Every community in the land will be faced with problem on top of problem.

The mayor can do the job, can make the difference, can be a SELF-STARTER. The people, the voters, can see the need for, and demand the selection of, a man who will put the community first.
