Remember the 1937 flood?
Remember the sorrow and the
tears? the hardships and the
aches?
And do you remember how
the entire nation responded so
generously to this section's call
for help?
East Kentucky recently has
been stricken by a similar flood.
They need your help.
The local Red Cross Chapter,
under the guidance of Paul Dar-
rison and Mrs. Bess Holland, is
accepting donations to allevi-
ate the suffering and hardships
of East Kentucky. Schools,
churches, civic groups and in-
dividuals may contribute what-
ever they wish.
Won't you help, please.

TIME MAGAZINE, in its Feb.
issue, has an interesting arti-
cle on the growth of weekly
newspapers.
Time says weeklies are the
fastest growing publications in
the U. S. today.
Weekly Newspaper Represen-
tatives Inc. reports that 8,478
copies in the U. S. in 1956
reached a paid circulation peak
of 13,529,199, a gain of 6.5 per-
cent over 1955.
Estimated gain for the 1,700
titles (total circulation of more
than 56 million) was two per-
cent.
Advertising in weeklies in-
creased 1.2 percent to a record
of \$12,000,000. This includes a 39
percent jump (to \$25,000,000) in
national ads since 1954, as a
gain of an estimated 10 percent
for the dailies.

"THE WEEKLIES' resurgence
effects editorial as well as eco-
nomic vitality," Time says. "In
addition to relaying the back-
ground chit-chat on which week-
lies have traditionally thrived,
the papers are the only inter-
mediaries and watchdogs of local
governments in hundreds of U.
communities, whose problems,
aims and achievements go lar-
ely unrecorded in the metro-
politan press."
Though once renowned for
their timidity, many weeklies
have developed the crusading
spirit that has vanished from
many a fat-cat daily, Time re-
ports.
"Since weeklies are closer
to readers and advertisers,"
Time says, "and more vul-
nerable to the pressure of ad-
vertisers, they are often hit by
economic boycotts. But few edi-
tors cave in under such threats."
Time's report was informative
and probably accurate, but it
failed to mention that the week-
ly newspaperman probably is
the hardest-working, least-ap-
preciated of any member of the
entire Fourth Estate.

THE COURIER STILL gets
around. A Texas cousin sends us
a clipping from the San Antonio
News in which a sports de-
partment columnist, Wes Mabry,
quotes an article recently
printed in the Courier.
Thanks, Wes, for the plug. It
won't help our advertisers for
Texans to read the Courier, but
it sure does help our inferiority
complex when big city boys pick
up our stuff.
And right here, we'd like again
to remind our readers that the
Courier office has been moved.
The Courier now is located BE-
hind the postoffice in a brand
new building. The address is 203
East 11th Street. Come and see
it.

GEORGE LONG TELLS a yarn
about a salesman, traveling by
auto, who blew out a tire in
front of an insane asylum. The
salesman removed the hubcap
and the lugs and laid them on
the highway.
The passing car knocked the lugs
and hubcap into a nearby deep
ditch filled with water.
The salesman, having by this
time an audience of asylum in-
mates, was puzzled as to how
he could put on the spare tire
without lugs.
One of the inmates suggested
that the salesman remove one
lug from each of the other three
wheels and in that manner
have enough lugs to fas-
ten on the spare tire. Which,
of course, was a darn good idea.
"Aren't you supposed to be
crazy?" the salesman blurted
at the inmate.
"Sure," replied the inmate,
"I'm not dumb."

Formal Announcement
Of Jim Allen Rudd

Some time ago I stated my in-tentions of being a candidate for jailer of Marshall County.

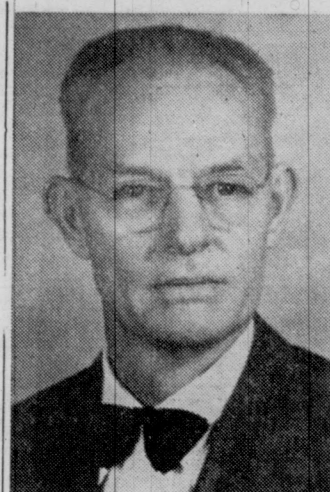

I now submit to you this for-mal announcement and respect-fully ask for your consideration.

I have been a resident of Mar-shall County my entire life. I was associated with the Benton police force as a policeman for some eight years. I also had the honor of serving for seven years as deputy sheriff of our county.

I served under three different sheriffs in this capacity. With this experience I feel that I know the duties and re-quirements of a jailer, especially the responsibility of handling prisoners that will be confined to jail. I feel that a prisoner should be handled fairly and firmly, this I pledged to do.

I believe the Fiscal Court of this county should be congrat-ulated in making the much need-ed repairs on our court house, for it was the Fiscal Court who has made it possible for us to have one of the outstanding bet-ter courthouses in the entire state.

I would like to go on record and pledge to the people of Marshall County, if elected, that I will at all times keep both the court-ouse and outside yards in a your vote and pledge to give you house and presentable condition, an honest and efficient four also any other property that years as your jailer.

CANDIDATE—Whipple Walker, above, who has filed his official papers as a candidate for county judge. His formal announcement will appear later.

Murray is Defeated By Benton

Benton's Indians, back on the warpath after losing out in the Louisville Invitational Tourna-ment scalped Murray High Tues-day night, 81 to 65.

And North Marshall, after three defeats, bested highly ranked Lone Oak Tuesday night, 67 to 59.

Benton and North Marshall will play this Friday night.

Murray led twice and tied the score once in the early minutes of the game, but Benton held a 21-13 lead at the first quarter and a 36-28 lead at the half.

Murray's big John Hill fouled out in the third quarter, and from there on it was easy for the Indians.

Gammel scored 21 points for Benton, Stone 19, Dailey 13 and Jackson 11 to lead the attack.

North Marshall never let Lone Oak get any closer than a tie during the game. The Jets led 18-14 in the first period, 38-23 at the half and 53-46 in the third quarter. The Jets used only five men for the entire game. Wil-son scored 16, Ford 14, Hall 13, and Ricks and Story 12 each.

Benton's Indians were knock-ed out of the Louisville Invita-tional Tournament in their sec-ond game by Central High of Louisville, a Negro school. The score was Central 70 and Benton 50.

It was Benton's second defeat in 20 games.

The Benton-Central game was an exciting contest until the last quarter, when Central pulled away for its 20-point mar-gin.

Don Jackson led Benton's at-tack with 14 points. Paul Dailey and Bear Stone each counted for 12 points.

Benton defeated Shawnee in the first game of the tourna-ment.

Central went on to win the tournament by defeating Manu-al of Louisville in the finals, 94 to 59.

A large crowd of Benton fans went to the tournament, and were well pleased with the out-come. Bear Stone made the all-tournament team.

In other games last week, South Marshall pounded Sym-onia to the tune of 91 to 54. Wilkins got 21 points for the Re-bels, Portis 17, Butler and Ross 16 each and Miller 15.

North Marshall suffered an-other setback. Ballard County beat the Jets 77 to 76. Ford got 17 points for the Jets, Story 16, Hall 14 and Wilson 12. The game was nip and tuck to the very end.

Deaf Mute Here on One of His Jaunts Around the Nation

A 54-year-old deaf mute, Ralph Kennedy Bradford, was in Benton last week on one of his "perpetual" jaunts around the nation.

For 28 years Bradford, the man with a "king-size foot itch," has been seeing the world by bus, train and plane. Benton was his 6971st city to visit.

He carries with him 44 scrapbooks in six suitcases and by the time he reaches his destination at Bangor, Maine, in 1960, he expects to have 100 scrapbooks. Then he'll start writing a book: "How a Deaf Mute Finds Things With the Hearing People."

It has been estimated that Bradford has talked to more newspaper editors and reporters than anyone else in America. He has been written up in "Believe it or Not" and other national feature articles.

Bradford was born a deaf mute at Parkersburg, W. Va., and was crippled by polio at age two. But his handicaps do not hinder him from an active and interesting life.

Bothersome Quote
George looked up from his reading with a clouded look on his face.
"I never ran across this particular quotation from Abraham Lincoln," he began. "It sort of bothers me."
Molly smiled. "Let's hear it," she said, knowing well that she would.
"It's headed 'A Resolution,' and it reads, 'I do the very best I know how--the very best I can. And I mean to keep doing so.'"
Molly thought about it a moment. "We-e-e-ll," she said, reflectively.
"It leaves you a bit bothered, too," George said, "as it does me."
"Yes. There is something..."
"Something missing, that is Lincoln was a deeply religious man, humble and prayerful, conscious of his need for Divine guidance and help."
"And surely not negatively resigned to doing just the best he could..."
"Maybe he was quoted correctly, I don't know. But I'll bet he was saying in his heart that, with God's help, he'd do more--he'd do ever better and better. That would have been like h m!"

WHAT? NO TOAST?—A Springfield, Mo., creamery turns out nearly four million pounds of butter annually, aided by this giant aluminum churn. The churn, scientifically designed to insure rapid production as well as high quality, turns out butter in case-ton batches.

Here's the bomb THAT BROKE THE "low-price" lineup!

This big high-stepping Chieftain started a revolution
with a carload of "firsts" and an eye-popping price tag!

The low-price field never looked like this before! The handsome husky you see right here has the boat still rocking... with more power, more wheelbase, more room—and more sheer pride of ownership—than ever before possible on a well-trained badge! Just look at what they're making room for now in the low-price lineup: a strapping 347 cu. in., 10 to 1 compression ratio Strato-Streak V-8... a whopping, road-hugging 122 inches of wheelbase and an all-new suspension system for a Level-Line Ride that's next best thing to a magic carpet! And this streamlined beauty takes on the field with more than six dozen "firsts", all proved by 100,000 of the roughest, toughest test miles a group of facts-minded engineers could devise! If this sounds like a wonderful buy—it certainly is! Our advice is to stop dreaming and price it! At a cost less than a lot of the low-price jobs, this newcomer is making big-time buyers out of former "all-three" owners!

Sunday School Lessons

Background Scriptures: Matthew 11:12
Devotional Reading: Isaiah 61:1-4
Lights
Lesson for February 10, 1957

ANYONE who has ever driven in a city knows what a snarl there is when a traffic light goes on the blink. It means that it doesn't blink. There is almost as much a tangle of traffic when one side of the light, either green or red, fails to operate. The driver on the blind side is not sure what he ought to do, but the drivers backed up the street think they are stuck, and honk at him and at the lights in general, until the police come and straighten things out. Now suppose—if you can suppose nonsense for a minute—that a city board of aldermen decided to save money by not buying red traffic lights. "Let's not discourage our energetic citizens with red stop-lights; what we need is vigor and drive; GO lights are all we need." Or suppose in another place the city fathers decided to buy and install red lights only. People should be left to their own initiative, they might say. All we need to do is to stop them when they need to be stopped.

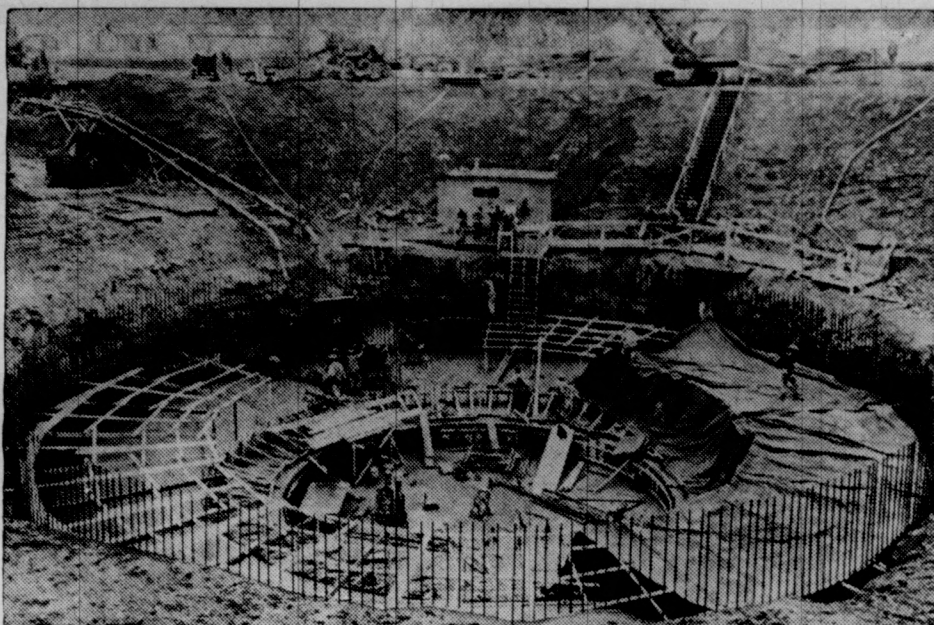

God's Yes and No
All through the Bible, and especially in the teachings of Jesus, we find, as it were, lights both red and green. There are the red lights of warning and the green lights of encouragement. In the two chapters of the background Scripture, for instance, we find Jesus warning men against: judging by appearances, failure to respond to God's messenger, condemning men for "sins" which are not really sins, regarding institutions (in this case, the Sabbath) as holier than human life, speaking evil against God's Holy Spirit, careless speech in general, and living an empty life (the story of the restless demon). These are all warnings against ideas or action which look all right on the surface. The Bible has few warnings against obvious sins; many against sins that look harmless or even good. But also there are the green lights of comfort and encouragement. A certain philosopher, a particular gloomy one, called Christianity God's "attack on man."

Lighthouse
In the New Testament Christians are called lights in a dark world. Indeed Christ says they are "the light" of the world. So the church like the Lighthouse hang high both the lights of warning and the lights of encouragement. The church must never let the red light get out of order. She must never let people think a sin is not a sin, or that sin is not harmful. She must warn men of dangers that are not obvious. She must never be a Pollyanna, she must never sing, "The world is so full of a number of things, I am sure we should all be as happy as kings." Like a lighthouse, the church must warn men, both Christians and the world at large, of hidden dangers. If the church does no harm in what "everybody does," if the church's standards are simply those of the world, if the church turns into a sort of celestial rotarian society, its members figuratively slapping one another on the back and telling one another how wonderful they are, then the church itself is in danger.

Lighthouse Lights
If the lighthouse says, STAY AWAY! the harbor lights say COME HOME. So the church, like Lord, if faithful to God's word, will show men not only what to do but what to do. When an airplane is approaching a landing-field in the dark, if it is modern properly lighted field, will have a double row of lights along the runway, so that the pilot lining up his plane with those lights can follow them right down to a safe landing. The church light to furnish lights like those for the world. The church has the light and the duty to speak, as Jesus spoke, not only to its own members but to the world outside, proclaiming the principles of which is right in the sight of God, not only for individuals but for group living on small and large. The church must speak of sin, yes by all means, but a church that speaks only of sin and never of its remedy, is like a doctor who diagnoses but never prescribes,—like a harbor authority which maintains a light-house to keep boats out but no lights to guide ships in.

FIRST IN THE NATION—The first commercial-sized, breeder-reactor atomic power plant is gradually shaping up in Monroe, Mich. Shown is the foundation for the atomic reactor building, the dome-shaped unit which will provide the energy for the Enrico Fermi plant. Located at the bottom of a 56-foot excavation, the foundation itself is 20 feet deep and 87 feet across. The breeding process, scientists say, will extend the supply of atomic fuel to outlast the reserves of fossil fuels more than 50 times.

Here's the Answer

Falls Cause Many Home Accidents

Falls cause approximately 50 per cent of home accident fatalities—three times as many as from any other single cause. Recent surveys of non-fatal home accidents in Marshall County show that in over half of the accidents falls were involved. Especially likely to be injured are young children and persons over 65.

- Most falls occur in yards and on porches and steps. These areas are especially dangerous at this time of the year due to the frequent presence of ice and snow.
- Mrs. Jess Collier, chairman of the safety committee, Senior Woman's Club of Benton, suggests the following precautions to guard against falls:
1. Provide smooth, non-skid surfaces with clear passageways and stairways.
 2. Provide safely constructed and protected stairways.
 3. Provide gates at top of stairs if children live in the home.
 4. Provide good lighting on stairs, controlled at top and bottom.
 5. Practice avoidance of unnecessary hurrying.
 6. Have an easily accessible, lightweight, sturdy stepstool for household use.
 7. Wipe up spilled liquids promptly.
 8. Eliminate uneven surfaces from yard.
 9. Remove trash and rubble from yard.
 10. Provide outside lighting for steps and porches.
 11. Provide banisters for all porches more than ten inches high.
 12. Remove snow and ice from porches and steps.

Eminence Man to Head Easter Seal Drive This Year

O. L. McElroy, Eminence, has been named chairman of the 1957 Easter Seal appeal for crippled children. Dr. Walter A. Groves, Danville, president of the sponsoring Kentucky Society for Crippled Children, announced the appointment last week. McElroy succeeds Talton K. Stone, Elizabethtown, superintendent of schools, who served as state chairman for three years. In heading the Easter Seal campaign, McElroy will coordinate the activities of more than 1,000 volunteers in Kentucky's 120 counties, who will raise funds to treat and train children crippled of a variety of diseases, deformities and accidents. Dates of the drive are March 21 to April 21.

Mrs. Elmer Sullivan of Route 5 was a shopper in town Friday. She plans to visit her parents, Mr. and Mrs. Stringer in Delaware.

Mr. and Mrs. Cordie Henson of Route 5 were in town Friday on business.
