**NOW A 5-DAY WEEK FOR A&P EMPLOYEES THROUGHOUT THE NATION**

Stores Will Be Open Six Days A Week As Usual But No Employee Will Work More Than Five Days

Two months ago this company tried the experiment in a few eastern states of a five-day week for our retail store employees. Now we are able to announce that we have adopted the five-day week as our national policy.

- This, we believe, constitutes the first five-day week and the shortest general working hours of any major retail food establishment.
- This shorter week work will be in effect before Labor Day in A&P food stores in thousands of communities throughout the country. It will be extended as far and as fast as possible. Frankly, however, we must recognize that in a few states and a number of cities the introduction of this policy may be delayed or even prevented by state or local labor regulations or local agreements.

- A&P food store employees affected by this policy will work only five days a week although stores will be open six days a week as usual. Their weekly salaries will be reduced by their shorter week work. Our policy is to continually improve working conditions and salaries as evidenced by the fact that during the past year alone we have been able to make actual wage increases and to pay added compensation to our employees in an amount totaling more than $1,000,000.

- Many people are undoubtedly satisfied at the new low prices for quality foods in A&P Super Markets. They are getting so much more and better food for the same money that they wonder how we can do it. Frankly, indeed, we can hardly believe that they represent a new, more efficient, more economical way of distributing food to the public.

- This new, shorter work week is far more evidence that the tremendous savings you can now make in buying groceries, meats and fresh foods and vegetables in the great new A&P Super Markets are made possible by savings through efficiency and that so part of these savings come out of the wages of our employees.

Tigers 4 - Rockies 3 The Fulton Tigers took the first four games of the series, downing the Rockies 4 to 3. Despite a strong showing by Madsen, third baseman, the Tigers were able to come back and win the game. Madsen's impressive performance kept the Rockies in the game for most of the nine innings.

In the first chapter of Genesis it is written that man was made in the image and likeness of God. This statement has been a matter of much discussion and debate in the religious community. Some have argued that this is a spiritual truth, while others believe it to be a literal fact. Regardless of one's position on this issue, it is clear that the concept of God's likeness in human nature is a fundamental teaching of the Bible.

The subject of the Lesson-Song on Sunday is the demonstration of man's oneness with God and his fellow man. The lesson is drawn from the Scriptures (p. 320). It is designed to encourage the spiritually-minded individual to seek a deeper understanding of his relationship with God and with others. The lesson is presented in a manner that is accessible to all, regardless of their level of spiritual development.

The lesson is designed to be a tool for spiritual growth and development. It is not intended to be a substitute for personal devotion and prayer, but rather a supplement to those practices. The lesson is intended to provide a framework for understanding the deeper truths of the Scriptures and to help the student to grow in their knowledge of God and of themselves.

The lesson is presented in a format that is easy to follow and understand. It is written in plain language and is designed to be read and studied in a manner that is comfortable for the student. It is hoped that this lesson will be a valuable resource for those who are seeking to deepen their understanding of the Scriptures and their relationship with God.

The lesson is divided into two parts. The first part is a study of the Scriptures, and the second part is a meditative reflection on the lessons presented. The first part is designed to provide a comprehensive understanding of the Scriptures, while the second part is a time for personal reflection and meditation.

In conclusion, the lesson is a valuable resource for those who are seeking to grow in their understanding of the Scriptures and their relationship with God. It is designed to be a tool for spiritual growth and development, and is presented in a format that is accessible and easy to understand. It is hoped that this lesson will be a valuable resource for those who are seeking to deepen their understanding of the Scriptures and their relationship with God.

**SCALES OF JUSTICE—AND WAGES**

The need for a good deal of discussion of the demand for increased pay that has been made open by the closed. Here are some facts and figures.

The railroad labor unions have demanded wage increases averaging about 43 per cent. In the case of the Illinois Central, those wage increases would mean total cost of approximately $12,500,000 a year.

Such demands are naturally referred to by workers in the food industry.

The Illinois Central has definitely been able to keep up all payments on its interest-bearing obligations. However, the bookkeepers have not received anything for the last ten years—since 1937.

Increased pay should make it necessary to increase retail prices and passenger rates, which would certainly tend to further increase in prices, which is something all workers want to see.
