$5,300,000 Taxes

Paid by Railroads in Kentucky in 1940

Railroads operating in Kentucky paid a total of more than $5,300,000 in taxes to the State, counties, cities and towns last year. Of this amount, at least $2,600,000 went into School Funds; approximately $900,000 went to build and maintain county roads and city streets, and the remaining $1,600,000 went into General Funds.

IN THIS COUNTY ALONE IN 1940

RAILROAD TAXES TOTALED

$14,447.78

Thus the railroads paid a generous share of all the money required to conduct State, county and local business. This includes public education, streets and highways, public health work, police and fire protection, mental and tuberculosis hospitals, public institutions, public charity, administration, and all of the other services that you and other citizens require of your State and local governments.

You can readily see by these figures that every section of our Commonwealth shares in the prosperity and earnings of Kentucky railroads. So it is to your interest, as a progressive citizen and taxpayer—

1. TO OPPOSE unfair national or state subsidies to competing forms of transportation.

2. TO SUPPORT fair and reasonable measures to put all other services on a competitive basis with the railroads, which bear so large a part of the general tax burdens and carry over their own cost of operation into the fares the public must pay for railroad travel and use.
To The CITIZENS of Fulton County

Four years ago I was in the race for Sheriff of Fulton County, was defeated by Clarence Henry, the present Sheriff, by only 84 votes. I appreciate and again thank my many friends for their loyal support four years ago and have no ill feeling for those who did not support me at that time. I don't know of any thing I have done in the past four years that would cause my friends to vote against me. The only thing I have done is endeavor to do my duty, and make honest living.

If I am elected your Sheriff I will pledge you a fair administration and will appreciate from the bottom of my heart your vote and influence, again thanking you, I am

Sincerely your friend,

Mike Johnson
for Sheriff

Notice To The People Of Fulton County

I want to advise my friends and voters of Fulton county that I have been unable to get out and make a very active campaign this year, due to the fact that duties of my office have kept me from my home. However you and proper handling of birth certificates for those seeking government employment in connection with the past, some promise have added extra work in the office, in addition to the regular routine matters.

I have from time to time endeavored to do as many of you as possible, but I know that there are many whom I have been unable to contact, and shall be ready to see before election day. So I take this means of explaining to you the necessity of doing close to your duties of office, and my inability to see everyone.

However, I am hopeful that I can at least do a fair job in the office. I am positive that I shall always endeavor to render the best service I know how at any and all times. I feel that I owe you this obligation as a servant in the office which I now hold as County Clerk.

I am thankful for all past favors and shall strive at all times to serve you to the best of my ability, in a courteous, efficient manner.

Sincerely,

Clariel N. Holland,
County Court Clerk of Fulton County

Fulton County Whys and Wherefores!

C. P. Mabry

Why do our highway patrons have to take traffic violations in Mayfield for trial when the county judge has jurisdiction of such violations?

Why are our accused and criminals in misdemeanor or cases allowed to run at large on the pretense that the county does not have funds with which to pay jail bills?

Why are our citizens and civic committees treated discourteously when they go before the present county judge to talk over matters pertaining to the public welfare?

Why was Hunter Jones, a bond broker in Memphis, paid $12,500 in cash and $10,000 in the count[y's] funding bonds, making a total of $22,500 paid to one man for renegating the county's honored debt when $5,000 would have been a good fee for any broker for the same work?

Why was a Wickliffe attorney and a Benton attorney paid $8,000 to bring the repudiation suit for Fulton County, when $2,000 would have been a lucrative fee for any lawyer to have brought the same suit?

$10,000 of the taxpayers' money of Fulton County is being spent to repudiate some $84,000 of honest debts which the county owes to many of those same taxpayers. In other words, you taxpayers are paying lawyers fees to beat the debts that the county honestly owes you; under the pretext of economy for the county.

And I believe the opinion of many other citizens of Fulton County, such repudiation is a public disgrace.

The roads that are being built in Fulton County are being built principally with state highway funds and W.P.A. funds. This money would be spent and roads would be built though the county had no Judge at all. Each fiscal year money is appropriated for such work by the State Highway Department of Kentucky and W.P.A. and allotted to such county according to its population and revenue. And, of course, Fulton County receives her portion of the allotment. All that is required of local government is a nominal contribution and a cooperative effort on the part of the cities and counties. And there is no reason whatever, for any Mayor or any County Judge to fail to carry on such public projects.

I Hope the Wool is NOT COMPLETELY Over Our Ears on These Issues.

Kentucky Farm Bureau

--- Federation ---

Ben Kilgore, Executive Secretary

St. Matthews, Kentucky

July 22, 1941

Mr. Harry Lee Watfield

Clinton, Ky.

Dear Mr. Lee:

I was amused to learn today that Governor Keen Johnson has thrown patrocity and power of the State Administration against you in an effort to defeat you in your race for Representative for Fulton-Hickman counties. Fundamentally this procedure is dishonest and sets aside true functioning of democratic government. The people of Fulton and Hickman Counties should elect their own Representative, according to their wishes, without interference or pressure from a Governor or other high public officials at Frankfort.

The reason for this opposition is even more astounding and unbelievable. You are being singled out for slaughter because you had the courage to champion the farmers' cause at the 1940 General Assembly. At my request, speaking for the Kentucky Farm Bureau Federation, you introduced and made a valiant but unsuccessful effort to pass a law to refund to Kentucky farmers the state gasoline tax on gasoline used in farm tractors and farm engines, that do not use the roads.

This law was pledged to Kentucky farmers by Candidate Keen Johnson during his campaign for Governor. Now, Governor Keen Johnson would override the wishes of his people of Fulton and Hickman counties to punish you, for fighting to redeem their money, thus, publicly opposed throughout Kentucky and repeated in his first message to the Joint Session of the General Assembly.

I can well remember what Governor Johnson said to you and me when we observed this measure with him in his office, in our effort to cooperate with him. He again declared he favored the passage of the bill. Then he hesitatingly said, that he did not know how much help he could give us, but he wanted you to go ahead and introduce this farmer's measure in the House.

The balance of the story is a pathetic repetition of how candidates for Governor in Kentucky "pour out their hearts" to the farmer during a campaign and then quickly forget him after being safely inaugurated as Chief Executive of a great, dominantly rural Commonwealth.

You made an eloquent plea for the measure, but while you were talking, the Governor's personal aides rushed into the House Chamber, "...and the Representatives of the people and threatened patronage reprisals, if they voted even to consider on its merits this measure in the farmers' interest. The measure was finally effectively neutralized by Floor Leader Joe Robinson of Garrard County, a vicious and awe-some of a fair deal for farm people, who declared the Governor was against the bill and promised it to the farmers in his campaign only because of Farm Bureau pressure.

Following the accusation of Farm Bureau pressure by Governor Johnson's personally selected Floor Leader, I asked the Governor to publicly declare whether or not this was true. Then, Governor Johnson invited me to the Mansion to explain. He admitted that the Farm Bureau had not brought pressure on him on any measure, but at his own request we had explained the Farm Bureau program to him. Governor Johnson then denied that he had sanctioned opposition to the measure and declared that his personal representatives and aides had been directed to redeem his campaign pledge, Mr. J. Lyter Donaldson, State Highways Commissioner, expressed the same thing in substance to me by long distance telephone.

Despite these denials, Mr. Robinson's opposition continued, apparently without Executive disapproval. Governor Johnson's only public declaration was a brief sentence that he still favored passage of this farmers' bill. He refused to comment as explain.

In the Farm Bureau's desire to cooperate with Governor Johnson and the State Administration and maintain a friendly relationship with them, I declared in the Farm Bureau paper that I believed Governor Johnson and Mr. Donaldson and that we would be generous and reserve judgment, believing in time this often reproachable Farmer's Friend would come to see your side. And I did not desire to condemn too quickly on circumstantial evidence.
CHESTNUT GLADE NEWS

Progressive

Your Vote and Influence Appreciated
A Remarkable Contrast

The Bankers Bond Company of Louisville is a company which deals in various securities, including many municipal and county issues. Inquiries for this company are highly trained experts who are interested in only one thing. That is—Is a bond issue good? The Bankers Bond Company is not interested in politics or office holders except insofar as they affect bond issues favorably or unfavorably. Reports of the company are based only on known facts and certain figures. It is quite interesting to learn what this company said of Fulton County on two separate occasions. The first time was in December, 1933, when the Bankers Bond Company was investigating the prospects for certain bond issues made by Fulton County, and in July of the present year, when the company was offering for sale a $250,000 Road and Bridge Refunding issue. The contrast is remarkable, even startling.

In 1933

George K. Stucker, of the Bankers Bond Company, after making his investigations in Fulton County in December of 1933, said in part:

"A tax of 50 cents per $100 is levied for general county purposes, and 20 cents per $100 is levied for sinking fund purposes but these levies are not kept separate at the present time. The records, as kept, and bookkeeping methods employed by county officials made it impossible to determine with any accuracy the disposition of funds collected from taxes or bond issues over the last few years. For 1932-33 at least 40 per cent of the total taxes was paid in county warrants at their par value, which materially cuts down funds available to run the necessary expenses of the county and to meet debt service. The financial position of the county can only be approximated without a complete audit of its affairs. The only hope for the bondholders is a complete revamping of the situation, and a possible diversion of funds in the future to help counties meet their road and bridge bond debt outstanding.

Fulton County, in my estimation, is in a hopeless financial mess and unless help is received from its creditors and also from the state, will simply digress to the point of open repudiation of its indebtedness."

In 1941

Judge Claude L. Walker went into office in January of 1934, just a few weeks after the above report had been made. A service financial emergency, with real and provable facts revealed a total debt of $601,443.45, plus past due interest of $150,000 during the last seven and one-half years. The excellent financial management of Judge Claude L. Walker, and the present administration have been adequately taken care of and the county's present excellent financial position is largely due to the business-like management shown by the present administration. Dur-
Notice To Members!

Members of the Western Dart Firemen's Association in Fulton County, Kentucky, and in Ohio County, West Virginia, will meet on Tuesday, August 12, at 7 p.m., to nominate candidates for Directors. The meeting will be held in the Court House in Fulton.

On Saturday, August 17, polls will be open at the same location from 7 a.m. until 8 a.m. and 9 a.m. until 5 p.m., for members to elect a director to represent their district for the coming year.

The election of August 17, will be conducted with a twohour ballot, which will be held in the Compton House, Sa111114. I'll le
