YMBC PLANS FOR THE KEN-TENN EXPOSITION

The entertainment committee of the Young Men's Business Club, composed of Carter Olive, Foad Homra, Hendon Wright and M. L. Parker, has arranged a variety of entertainment for the Second Annual Ken-Tenn Exposition that tops anything ever presented at the Fulton Fair Grounds or most anything that has ever been presented to the public in this part of West Kentucky or Tennessee.

The committee started the program by signing the biggest, cleanest, and best midway attraction that has shown in Fulton in years. On January 15th they signed the West World's Wonder Shows to bring their entertainment here for the week. This carnival travels via railroad, having their own 20 double length cars and is coming to Fulton from DuQuoin, Illinois fair, which is always a big fair. The show carries 15 rides and 20 shows, with plenty of clean concessions. They have one of the brightest, lighted midways in the business. Their rides contain plenty for the kiddies.

The opening day Monday, September 8th will bring to Fulton something that hasn't been here for years—A Circus. Lewis Bros. 3 Ring Circus will show in front of the grandstand at the fair grounds on Monday afternoon, Monday night, Tuesday afternoon and Tuesday night. They bring with them a multitude of trained horses, ponies, monkeys, bears, goats, herd of performing elephants and lions. They have hundreds of champion arena stars, as well as an army of Clowns.

On Wednesday, September 10th, The Ken-Tenn Band Festival will be held on the track in front of the grandstand. \$100.00 has been put up for the winning bands. The Fulton High School band will be there but will not compete for the prizes. Any band from the Ken-Tenn Territory can enter. There is no entry fee. In connection with this, that night will see the selection of Miss Ken-Tenn I. Any community, town or school can enter a girl in this contest. It requires no selling or any work, just to be here at the proper time and her entry blank turned in. A handsome award is being prepared for the winner. No Fulton girl will be eligible. That is a girl living within the city limits of Fulton. The girl winning this will reign over the rest of the Exposition and will serve next year until her successor is named.

Thursday, September 11th, will be a red letter day for the people (Continued on Page 3)

"Home of Good Baking"

To The Voters Of Fulton & Hickman Counties

It has been my privilege for the last two months, to talk to many old friends and to make new ones, over the First Legislative District, but it has been my misfortune, not to have been able to see everyone in the District to talk to them personally. Those whom I have missed, I hope to see between the Primary and the final election, if you choose me as your nominee for Representative.

Much propoganda has been issued by my opponent, and I hope that the people of the First District have discovered, that it is propoganda.

The Farm Bureau members have been circularized by a man whom I do not know, and who has never seen or talked with me, and who has not made any inquiry himself, or through anyone else, as to my attitude toward any farm legislation. If he had been interested in fairness and in representation for the farmers, he would have made inquiry as to my attitude, and if he had, he would have learned "THAT IF THE MAJORITY OF THE FARM BUREAU MEMBERS WANT LEGISLATION PASSED I WILL HELP THEM GET IT PASSED." With this reply, he would have learned that there is no controversy between the candidates for the Legislature over farm legislation.

The letter proves my contentions, however, and that is: that although Representative for two terms, Mr. Waterfield still cannot secure sufficient support to pass even popular legislation. The farmers have not been benefitted by Mr. Waterfield introducing the Bill. He has the personal antagonism of the other members of the General Assembly, and the First District must suffer because of his refusal to help his fellow members of the Legislature.

The Railroad Car Limit Bill which proposed to limit freight trains to 70 cars and passenger trains to 14 cars was introduced under a pledge to the Railroad men, by Mr. Waterfield that he would get the Bill passed. When however, the Bill was called and a Motion made to consider it on the Floor of the House, that is; when an attempt was made to bring the Bill before the House of Representatives for a vote, Mr. Waterfield and 44 other members were absent. The Bill was killed by a vote of 32 to 23, and 45 out of a hundred were absent. No other Bill caused so many absences.

The record shows that Fulton and Hickman Counties have alternated the office of Representative, and that in this District, neither County has held it for more than two terms. My opponent has held it for two terms, and it is now Fulton County's time to have the office.

In this last statement before the primary, I state fairly and honestly, that I may not break any records in accomplishment, but I will tie any records in attempts, to the end that Fulton and Hickman Counties may have fair representation in the House of Representatives.

Faithfully submitted,

James H. Warren

TO THE VOTERS OF FULTON COUNTY

This Is A Reply To The Criticisms of My Administration Published and Otherwise

A few days ago there appeared in the local newspaper a political advertisement over the name of one of my opponents for the office of County Judge under the heading of "SOME WHYS AND WHEREFORES PERTAINING TO FULTON COUNTY." On account of the misleading inferences as well as plain misstatement of fact contained in the said article, the usual kind that appear just before the close of a political campaign, I desire to make the following comments.

It is inferred in the advertisement referred to that traffic violators are taken out of the County in order to get impartial trials and that criminals are left to range at large because the County does not have funds to pay jail bills. Neither situation is correct but it is true that before anyone is sent to jail they must be convicted on the evidence and not on suspicion only. In making my first race for the office of County Judge I stated to the people that if elected I would render the same kind of justice to all brought before me, the rich and the poor alike, and this I have consistently endeavored to do.

I am always glad to receive citizens or civic committees to discuss matters pertaining to the County and have certainly not intentionally been discourteous to any of these. It is my custom to speak in plain language so as not to be misunderstood rather than to say what I do not mean or merely say nothing and grin.

Criticism is offered over the fees paid to the firm of Hunter Jones & Company, investment bankers, in connection with refinancing the County's bonded indebtedness. The bonds referred to as delivered in part payment of the fees had a market value at the time of only thirty-three cents on the dollar. The firm handling the transaction was required to pay all expenses incident to the transfer of securities, including employment of attorneys, court costs of test suits, and brokerage commissions to other investment firms affiliated for the purpose. The result of the refinancing brought about by the services of Hunter Jones & Company is a net saving (after payment of the fee complained of) to the taxpayers of Fulton County over the term of the outstanding bonds in excess of \$250,000.00 as shown by the statement of certified public accountants. I leave it to the voters as to whether or not this was a good job well done.

Criticism is offered over the attorney fees paid for what my opponent terms "repudiation suit." Also a misstatement is made as to the amount of the fee and the purpose for which paid. When I first entered upon the duties of County Judge I found that there were outstanding unpaid warrants against the County of approximately \$75,000.00 and in addition thereto approximately \$28,000.00 in bank and individual loans. It was apparent to the Fiscal Court that only from the proceeds of a new funding bond issue could these claims be paid. Under the existing law of the State before funding bonds can be issued it is necessary for a Court of competent jurisdiction to ascertain if the debt to be paid was legally incurred. Therefore it was necessary for a court proceeding to be insti-

tuted, not for the purpose of repudiation as my opponent states, but in order to place the matter in such shape that those holding valid and legal claims against the County could secure their money. My opponent, being a lawyer, should understand this but apparently does not or for some reason or other desires to mislead the people. Suffice to say that I do not pass upon the validity of any claims against the County but these matters are decided by the Court of Appeals of Kentucky, the highest authority in the State.

At the beginning of my term of office the Fiscal Court authorized an audit of the financial affairs of the County, and when completed, this audit disclosed that certain former officials of the County, had never completely settled their accounts and were still indebted to Fulton County. Attorneys were then employed to institute proceedings to ascertain the valid warrant claims outstanding and also to proceed to collect any sums owing the County by former officials. The compensation of the attorneys was fixed upon a purely contingent basis conditioned upon recovery from former officials and in no event were these attorneys to be paid any fee unless by their efforts they brought into the treasury of the County a sufficient fund for this purpose. As a result of the litigation the attorneys earned and were paid a fee of \$6,000.00 (not \$10,000.00 as stated by my opponent) and over and above this amount Fulton County recovered approximately \$9,000.00 which otherwise it would not have had and in addition the expenses of testing the validity of the warrants was paid.

As to whether or not my administration of the fiscal affairs has improved the financial condition of the County, I refer the voters of Fulton County to the statements of the Bankers Bond Company and also to the letter to the Honorable M. B. Holifield, Assistant Attorney General of Kentucky. Both of these statements were unsolicited by me and not made for political purposes.

The final charge made by my opponent is that the roads which have been built in Fulton County during my administration were contributions by WPA and the State Rural Highway Department and would have been built same though the County had no judge. My opponent probably does not know that during my administration the County has contributed to the construction of so-called WPA roads more than \$80,000.00 and in addition thereto has furnished the road machinery used in the construction of these roads and also furnished the gravel and right-of-ways. The County is required to contribute 25 per cent of the cost of all WPA roads, which it has done. Probably the best answer to the charge that I am entitled to no credit for the improved roads of the County is to say that they were not here when I became Judge.

Whatever has been accomplished under my administration of the County's affairs in its physical and financial improvement is a matter of record. I stand on that record in this race and invite its closest inspection by the voters and taxpayers of Fulton County.

A REMARKABLE CONTRAST

The Bankers Bond Company of Louisville is a company which deals in various securities, including many municipal and county issues. Investigators for this company are highly trained experts who are interested in only one thing. That is—Is a bond issue good? The Bankers Bond Company is not interested in politics or office holders except insofar as these affect bond issues favorably or unfavorably. Reports of the company are based only on known facts and certain figures. It is quite interesting to learn what this company said of Fulton County on two separate occasions. The first time was in December 1933, when the Bankers Bond Company was investigating the prospects for certain bond issues made by Fulton County, and in July of the present year, when the company was offering for sale a \$258,000.00 Road and Bridge Refunding issue. The contrast is remarkable, even startling.

IN 1933

George K. Stucker, of the Bankers Bond Company, after making his investigations in Fulton County in December of 1933, said in part:

"A tax of 50 cents per \$100 is levied for general county purposes, and 20 cents per \$100 is levied for sinking fund purposes but these levies are not kept separate at the present time. The records, as kept, and bookkeeping methods employed by county officials make it impossible to determine with any accuracy the disposition of funds collected from taxes or bond issues over the last few years. For 1932-33 at least 45 per cent of the total taxes was paid in county warrants at their par value, which materially cuts down funds available to run the necessary expenses of the county and to meet debt service. The financial position of the county can only be approximated without a complete audit of its affairs. The only hope for the bondholders is a complete revamping of the situation, and a possible diversion of state funds in the future to help counties meet their road and bridge bonds outstanding.

Fulton County, in my estimation, is in a hopeless financial mess and unless help is received from its creditors and also from the state, will simply digress to the point of open repudiation of its indebtedness."

IN 1941

Judge Claude L. Walker went into office in January of 1934, just a few weeks after the above report had been made. A serious financial emergency existed, for an audit of the books revealed a total debt of \$601,443.46, plus past due interest of \$24,450.00. That was the situation faced by Judge Walker and his Fiscal Court. The people of the

county know in a general way what has been accomplished, but few know of how complete a reversal has been made in the county's financial standing. In July of this year the same Bankers Bond Company, which had made the dark and despairing report in 1933, took over the marketing of a bond issue of \$258,000.00 for Fulton County. In giving the statistics of Fulton County for the benefit of prospective purchasers of the county bonds, some illuminating remarks were made. After calling attention to the fact that Judge Walker was faced with this tremendous debt, the report adds:

"The new administration put a stop to the spending of money in excess of the revenue and each year, since 1934, the budget has been balanced and the financial condition of the county has improved. The county's present excellent financial position is largely due to the business-like management shown by the present administration. During this period all the necessary functions of government have been adequately taken care of and 118 miles of road completed by the county and 38 miles by the state. The indebtedness of the county, both Funded and Warrant, has been reduced approximately \$150,000.00 during the last seven and one-half years. The excellent financial management of Judge Claude L. Walker, and the present Fiscal Court, and the control exercised by the State Local Finance Officer have restored a high standard to the credit of Fulton County."

These things are not merely political claims. They are hard and fully attested facts set down by realistic financial men. Such a transformation within less than eight years sounds a bit fantastic, but experts on bonding houses are concerned only with real and provable facts. These are facts. This job has been done in Fulton County by Judge Claude L. Walker, who is asking to be returned to the office of County Judge in order that he can completely finish this job of making Fulton County sound from a financial angle, and as progressive as any county in the Commonwealth.

We, the friends of Judge Walker who prepared and paid for this advertisement, urge any voters to look up these facts if he so desires. These facts are down in black and white and there can be no successful refutation made.

We, Judge Walker's friends, also urge that you support this man who has done so much for the county during the past seven years, and give him another term in this important office. He is now in position to really get many needed things accomplished and is eager to do this.

NOTICE!

In order that the record may be kept clear and in contradiction of a statement that has been made concerning the construction of roads, I am pleased to submit the following:

One of my opponents for County Judge in his announcement thanks the WPA and the State for having built the fine roads that we have in the County, which leaves the impression that the County did not put up any money to get these roads constructed. This statement is misleading.

As a matter of fact, since I have been Judge, or during the past 7½ years the County has expended for the construction of County roads \$82,770.11, as shown by the records. In addition to this, we have furnished the WPA and the Rural Roads all road machinery used in construction of these roads, which cost the County several thousand dollars in addition to the \$82,770.11.

The County has also furnished all of the gravel and to make a long story short, the County is required and does pay 25 per cent of the cost of all roads constructed by the WPA.

There has been budgeted for this years roads \$9,739.00, which means that at the end of my second term \$98,609.11 will have been expended for roads.

Drivers with their cars from several states have already entered. This year the races will be different from preceding years in that all the cars and drivers that have entered this year's races are real race cars and experienced, qualified drivers, who have been driving for dirt track records and honors for many years. The committee has just informed me that Ali Kettle, the famous driver, has just sent in his entry papers and will be on hand.

The entertainment committee has signed a world famous Master of ceremonies to keep you entertained when one of various programs is not running. Kentucky Farm Bureau Federation

Ben Kilgore, Executive Secretary

St. Matthews, Kentucky

July 22, 1941

Mr. Harry Lee Waterfield

Clinton, Ky.

Dear Harry Lee:

I was amazed to learn today that Governor Keen Johnson has thrown patronage and power of the State Administration against you in an effort to defeat you in your race for Representative for Fulton-Hickman counties. Fundamentally this procedure is dishonest and sets aside the true functioning of democratic government. The people of Fulton and Hickman Counties should elect their own Representative, according to their own wishes, without interference or pressure from a Governor or other high public officials at Frankfort.

The reason for this opposition is even more astounding and almost unbelievable. You are being singled out for slaughter because you had the courage to champion the farmers' cause at the 1940 General Assembly. At my request, speaking for the Kentucky Farm Bureau Federation, you introduced and made a valiant but unsuccessful effort to pass a law to refund to Kentucky farmers the state gasoline tax on gasoline used in farm tractors and farm engines, that do not use the roads.

This law was pledged to Kentucky farmers by Candidate Keen Johnson during his campaign for Governor. Now, Governor Keen Johnson would override the wishes of the people of Fulton and Hickman counties to punish you, for fighting to redeem his own pledge, made publicly throughout Kentucky and repeated in his first message to the Joint Session of the General Assembly.

I can well remember what Governor Johnson said to you and me when we discussed this measure with him in his office, in our effort to cooperate with him. He again declared he favored the passage of the bill. Then he hesitatingly said, that he did not know how much help he could give us, but that he wanted you to go ahead and introduce this farmer's measure in the House.

The balance of the story is a pathetic repetition of how candidates for Governor in Kentucky "pour out their hearts" to the farmer during a campaign and then quickly forget him after being safely inaugurated as Chief Executive of a great, dominantly rural Commonwealth.

You made an eloquent plea for the measure, but while you were talking, the Governor's personal aides rushed into the House Chamber, button-holed the Representatives of the people and threatened patronage reprisals, if they voted even to consider on its merits this measure in the farmers' interest. The measure was finally effectively crucified by Floor Leader Joe Robinson of Garrard County, a vicious and avowed foe of a fair deal for farm people, who declared the Governor was against the bill and promised it to the farmers in his campaign only because of Farm Bureau pressure.

Following the accusation of Farm Bureau pressure by Governor Johnson's personally selected Floor Leader, I asked the Governor to publicly declare whether or not this was true. Then, Governor Johnson invited me to the Mansion to explain. He admitted that the Farm Bureau had never brought pressure on him on any measure, but at his own request we had explained the Farm Bureau program to him. Governor Johnson then denied that he had sanctioned opposition to the measure and declared that his personal representatives and Mr. Robinson had been requested by him to redeem his campaign pledge. Mr. J. Lyter Donaldson, State Highway Commissioner, expressed the same thing in substance to me by long distance telephone.

Despite these denials, Mr. Robinson's opposition continued, apparently without Executive disapproval. Governor Johnson's only public statement was a brief sentence that he still favored passage of this farmers' bill. He refused to comment or explain.

In the Farm Bureau's desire to cooperate with Governor Johnson and the State Administration and maintain a friendly relationship with them, I declared in the Farm Bureau paper that I believed Governor Johnson and Mr. Donaldson and that we would be generous and reserve judgment, believing in time this often repeated promise to farmers would be kept. We did not desire to condemn too quickly on circumstantial evidence.

The record is now complete. The passing of time has made it clear that Governor Johnson and the State Highway Department were determined that the tractor refund measure be killed. Frankly, I think farmers would have preferred for Governor Johnson and Mr. Donaldson to have opposed the bill publicly and to have given their honest reasons against it to all the farmers of Kentucky. There can no longer be any doubt that the Governor and his powerful "inner circle" are wholly responsible for this measure's defeat. Executive control was so complete at the 1940 Legislature, that all measures approved by the Governor were passed, while all measures disapproved by him met overwhelming defeat.

Harry Lee, you and I did everything in our power to keep Governor Johnson's friendship, except break our promises to farm people. We accepted every amendment to the gas tax refund bill offered by the Governor and Revenue Commissioner Reeves. We even agreed to make it an experimental bill for two years, subject to reenactment only if it worked satisfactorily. How we could have been more reasonable or friendly is hard for me to figure out.

It appears definitely certain that your defeat is desired because you will not break your promises to your own people, who elect you. The Governor apparently prefers a "rubber stamp," who will do exactly as he is told. Such procedure smacks of dictatorship and should not be tolerated in Kentucky.

The Farm Bureau has never endorsed candidates for public office in Kentucky. And yet, we have always fought militantly for the farmer and we have always been glad to defend our true and genuine friends. This is why I am writing you frankly and fully.

You have truly and courageously championed the farmers' cause. We would be ungrateful, indeed, if we stood by and permitted you to be sacrificed for fighting the farmers' battle. I am more than glad to tell our Farm Bureau members in Fulton and Hickman Counties about this situation and I am confident they will fight for you, just exactly like you fought for them.

The amazing and unethical procedure on the part of the present State Administration goes far deeper than one county election. It strikes democracy itself. To destroy the will of the people, by denying them the right to choose their own representative, through coercion from a powerful State Government, is a threat to a true functioning democracy in Kentucky.

We are committed to defending and preserving democracy in the world. We can best help by making democracy work in a fair and honest way throughout every precinct and county in Kentucky. This is why we are opposed to the election of Representatives and Senators from Frankfort. This is why we wish to see "FREE" men elected with convictions and the courage to represent their own people—and no one else, on the floor of the House and Senate.

With best personal regards, I am,

Sincerely your friend,
BEN GILGORE, Executive Secretary

To The Voters of Fulton County

It has been my honest endeavor during the past few weeks to visit every one of you, but there are still a few I have not been able to see for various reasons. The need to attend to my duties as Magistrate combined with the fact that some of you were absent from your homes when I called are the chief reasons for not seeing you personally.

The last day of this week, Saturday, August 2nd, you go to the polls to select a Democratic nominee for County Judge of Fulton County, and as you go I wish to present a last appeal for your support of my candidacy for this office.

In every section of the County I have met with gratifying response. From all appearances I am going to receive a substantial vote in every precinct, for which I am grateful, and I assure you that if elected I will equally and impartially administer the duties of County Judge to every section of the County.

As stated in my announcement some weeks ago, the Fiscal Court of Fulton County is entitled to the credit for the economical administration of the funds belonging to Fulton County. As a member of that body, I do not claim anything but my proportionate share of the credit for the economical administration, and I ask that you give the Fiscal Court its share of the credit rather than accept the boasting of one member of that body.

I ask for your support and vote for County Judge, and I promise, with the help and cooperation from your elected Fiscal Court, to economically, faithfully, equally and impartially administer the duties and conduct the business of our County.

Faithfully yours,

Homer Roberts
