## THE LISTENING POST

● I have a lot of idle and worthless thoughts about the war and its conduct every now and then, and when ideas run out for this column I am constrained to write something about these matters. Naturally I know my thoughts are not of any vast importance, but such as they are they represent my thinking, if any, and so today I am setting down of these scattered ideas.

● For example, I did not get vastly excited over the signing of the agreement between Russia, Britain and the United States. To tell the truth, I had believed that the three nations were solidly united all this time in their efforts against the common foe, and the meeting in Washington, interesting though it may have been, seems to me to be merely reiterating something which has already been said many times. There have been times in past history which such an agreement was the forerunner of a break in unity. Only days before the fall of France there was great ado about a fresh agreement between England and France, with words which were somewhat similar to the agreement which has now been solemnly concluded between the three nations in this war. If Russia had agreed to attack Japan, or if she does attack Japan, or if Japan attacks Russia within the next few days, there will be more interest in this new document or agreement.

● I have been doing a lot of wondering recently about propaganda and truth in this war. In the first World War this Nation was deluged with stories of German atrocities against women and children, and long years later we learned that in many cases these were manufactured stories for the purpose of stirring up the people of the Allied nations. Since then I have given all such stories liberal doses of salt; yet I find myself wondering now if there is too much truth in such stories. Tales of the German measures taken in the occupied countries are so numerous that there must be some basis for them. If true, it follows we are dealing with a race of madmen which has lost all humanity. The stories of mass executions in the captive countries are so horrible that one wonders if a civilized race can become so debased in the crucible of war.

● The other member of the Axis, Japan, is also coming in for much notoriety in this respect. I find it easier to believe these stories on the Japanese than on the Germans, for I have never believed the Japanese to be greatly civilized. That is to say, they are not civilized in the same mold as the Western nations. They look on war as something which brings death, suffering and privation and believe that all this is to be expected. They are more ruthless than American people, and on top of this, are actuated by a burning and ceaseless hatred of the white race. In a way I can understand their nationalistic dreams of an Asia for the yellow race, and I can also understand they would hate this Nation because of certain laws passed against their entry into this country. I cannot understand their total brutality, as related in many instances. Recently I have been reading the story of a man who was in the siege of Hong Kong and who later escaped after being held a prisoner for some weeks by the conquering Japanese. His story is one of utter

## Rubber Scrap Hunt Starts Today Which May Have Bearing On Gas Rationing For The Entire Nation

### Plans Worked Out For Combing Of Homes And Shops For Rubber

#### ALL PLANS MADE FOR U. S. O. DRIVE HERE TOMORROW

All Plans are in readiness for the USO campaign in Fulton tomorrow and Wednesday. Beginning tomorrow committees from the Young Men's Business Club will call on business firms in the city for contributions and a booth will also be maintained in the City National Bank where funds may be left.

The quota for Fulton County is \$600, and in Hickman about \$200 has already been raised. It is believed that this sum may be increased this week, but it will be necessary to raise at least \$300 in Fulton, or perhaps a little more than that. Workers are hoping that this amount may be raised in the two-day campaign, and all efforts will be devoted to that end.

As is generally known, the national USO organization is seeking 32 million dollars for carrying on the work in the many Army centers of the Nation. Hundreds of USO centers are now in operation ministering to the needs of men in the service and other centers are urgently needed. Men from Fulton who are in the service are benefiting from the work of the USO and all will benefit. In helping the organization we are helping our own sons and this newspaper earnestly hopes the response here will be generous to a large degree.

#### FRANKENSTEIN MONSTER IN PERSON FEATURED WITH DR. SILKINI AT THE FULTON THEATRE TUES. MIDNIGHT

Do you believe in spirits or spiritualistic manifestations? Whether you do or not you will be thrilled and dumbfounded when Dr. Silkini presents his version of the Frankenstein Monster in person, on the state of the Fulton theatre, Midnight Tuesday.

You will ask yourself, are they humans or demons—these strange people who seem to have the unbelievable power to change their bodies at will and pass through solid walls.

During one of the many spectacular séances, Dr. Silkini introduces a real spirit medium, who, while completely surrounded by members of the audience presents a regular old time spirit séance during which trumpets, and tamborines sail through space and other strange and eerie happenings take place upon the full lighted stage; and during the dark séance when all lights in the theatre are out you will witness human skeletons dropping down out of space to sit beside you. Dr. Silkini in person will appear midnight show only Tuesday at the Fulton theatre.

## Many Deferred For Reasons Of Dependency Will Be Called Soon

Fort Wayne, Ind., — Because America faces "in the very near future" a scarcity of men, the "fringes" of so-called dependency are going to be touched within seven or eight months, Maj.-Gen. Lewis B. Hershey, director of the United States Selective Service system, told 200 physicians gathered here last night at a dinner meeting of the Twelfth District Medical Society.

Concerning the impending manpower shortage, Gen. Hershey said that we will be looking for men, skilled or unskilled, and that civilian life and war production both are going to have to learn to use to the very best advantage every man they do have.

"Someone remarked that it takes 15 to 20 men behind the front to

Washington, — Mr. and Mrs. America, who turn their homes topsy-turvy last year hunting cast-off aluminum articles, will begin another cellar-to-attic scramble Monday in a search for scrap rubber.

How much they find during the two-week collection requested by President Roosevelt may be a powerful argument for, or against, national gasoline rationing as a tire conservation measure.

It All Depends  
If plenty of scrap rubber turns up and the estimates of probable collections vary all the way from 25,000 to 600,000 tons—nationwide gas rationing may be voted; if very little is salvaged, rationing is a virtual certainty.

Filling stations will buy profited rubber at a penny a pound. Oil companies serving the stations will collect the piles and move them to central concentration points for sale to the RFC Rubber Reserve Co., at \$25 a short ton.

All profit from the handling will go to designated charities, such as the Army and Navy Relief Funds and Red Cross.

Housewives, it was explained, can sell direct to the service stations, or give their scrap to Boy Scouts or other salvage agencies for sale.

War Production Board salvage officials emphasized that no bit of rubber would be "too small, too worn, too old" to contribute—from rubber bands and pencil erasers to raincoats, teething rings, girdles, suspenders, and rundown rubber heels.

Here Is What To Do  
One shower cap, WPB pointed out, contains enough rubber for 10 panoramic telescopes for the armed forces. Along the lines of what to look for and where to find it, here's a list of possibilities:

Kitchen—Aprons, rubber-covered dish drainers, drain board mats, faucet sprays, sink stoppers, jar rings, dish scrapers, ice cube trays.

Bathroom—Soap dishes, drain plugs, sponges, unused shower sprays, hot water bottles, syringes, ice bags, rubber bulbs from medicine droppers.

Closets—Galoshes, rubbers, tennis shoes, tennis balls, raincoats.

Nursery—Baby pants, crib pads, bibs, nipples, pacifiers, toys.

Bedroom—Rubber hair curlers, girdles, combs, dress shields, garters, suspenders, elastic tape.

BARDWELL BOY ON  
DESTROYED SHIP

Mrs. H. I. Cheatham has received a message that her nephew, C. H. Templeton of Bardwell, Ky., was among the missing following the sinking of a U. S. ship recently.

Now is the time to renew your subscription to the Leader.

## V-Mail Service Is Inaugurated For Soldiers, Washington Says

Washington, — A new "V-mail service" to expedite delivery of mail to the armed forces was inaugurated today when President Roosevelt got the first letters.

They were from Maj. Gen. James E. Chaney, commander of American forces in the United Kingdom, and John G. Winant, American Ambassador to Great Britain.

The service makes use of photographic copies of correspondence on micro-film, employing small, standardized combination envelopes and letter forms. This will permit tremendous savings in the poundage of mail and cargo space required for it.

Already 5,000,000 V-mail letters have been sent to men in the service overseas, and more are being printed for distribution. By June 15, small stores will be available in twenty large city postoffices in this country for civilians wishing to write to service men.

Postoffice officials said stocks would be distributed as rapidly as possible to all postoffices in the United States.

In his letter to the President Chaney voiced appreciation of the troops for the new service and renewed "our pledge of service until victory is achieved."

"No other single factor," he said, "ties in our soldiers with the people at home so much as prompt and adequate mail service. The advent of this service is a distinct contribution toward victory."

Winant told the President he knew all American soldiers in Britain and their families and friends at home would be grateful for the new mail service.

### ALLIED HOPES ARE BASED ON INVASION

Hitler Apparently Trying To Smash  
Russia At Once

London, — With the United States Britain and Russia united as never before, Allied hopes of striking a decisive blow in the war this year appeared today to be predicted on a bold invasion of Western Europe. That Allied strategy calls for such a move was clearly indicated by the announcement yesterday that Washington, London and Moscow are agreed on the urgency of opening a second front to crush Adolf Hitler between two forces.

Hitler Preparing Smash  
The announcement came amid indications that Hitler was massing his legions for an all-out effort to smash Russia with all possible speed.

Observers believed, however, that Russia's ability to withstand the shock would be strengthened by sure knowledge that powerful help was on the way and that Hitler's operations would be impeded by the necessity of meeting the looming threat in the west.

Already three military factors were reported to have forced the Germans to frenzied efforts to secure Western Europe against invasion:

1—Steady reinforcement of American forces in Northern Ireland, plus the growing efficiency of the British army.

2—Arrival of a powerful American battle squadron in British waters to bolster the Royal Navy's home fleet.

3—The imminent addition of American bomber squadrons to the RAF, which already is master of the skies over the channel and which has demonstrated its ability to hurl more than 1,000 planes a night against German industrial centers.

### WAR FOOTING GIVEN W. P. A.

Big Money Measure Goes To Senate  
For Action

Washington, — A \$338,000,000 appropriation bill to continue the W. P. A. on a war curtailed basis was sent to the Senate today after the relief agency survived a desperate drive in the House to abolish it.

Far less than the \$2,230,000,000 allotment which provided work for 3,000,000 jobless in the agency's peak year of 1939, the new supply bill carried funds sufficient to employ an average of 400,000 a month, beginning July 1.

An acrimonious two-day floor battle saw a Republican-sponsored attempt to cut the allocation by one-third and place supervision of relief directly with the State lost by 183 to 140.

Administration forces had beaten back, 184 to 133, a move to prevent the W. P. A. from starting any new projects except those certified as essential by the Secretary of War, Secretary of Navy, or the Maritime Commission chairman.

Fight to abolish the W. P. A. was lost by 169 to 267.

### VETO SHAPES ON FARM BILL

Wheat Sale And Parity Stand Displeases President

Washington, — Reliable Senate sources said today that President Roosevelt might veto the annual farm appropriation bill unless a Senate-House conference committee found some new basis for compromising their differences.

These Senators said they expected a White House veto on either or both of these grounds:

Similar House opposition to a provision requiring inclusion of some \$200,000,000 in "soil conservation" payments to farmers before so-called "parity payments" could be made on cotton, wheat, corn, tobacco, rice or peanuts.

The Senate met Administration demands on these points three weeks ago when it passed the bill, but the House rejected both Senate provisions and the Senate yesterday again instructed its conferees to stand fast in their negotiations.

Further complicating the parity price argument was sudden action by the Senate Agriculture Committee yesterday in favor of a bill that would require a full parity price loan by the Government on 1942 crops of farmers who complied with Administration farm programs.

### ITALIAN EXECUTED FOR VIOLATION OF FOOD LAWS

Bern, Switzerland, — Fascist newspapers received here today gave headline prominence to Italy's first execution for violation of the country's food laws.

While the case of a 22-year-old youth who was put to death by shooting in the back was complicated by the murder of the policeman who attempted to arrest him, Premier Mussolini's Il Popolo d'Italia declared that the execution of the authorities to break every attempt to tamper with the food restrictions.

### FORMALITY OBSERVED IN BRITISH FORECAST

Lydon, Kan., — A blessed event approached, distantly, at the Alex Hotchkiss home.

Mr. and Mrs. Hotchkiss told the family secret to their seven-year-old son.

"Can I tell?" he asked eagerly.

"No," said his father. "The proper way is to make an announcement."

So the next day at school the seven-year-old raised his hand, arose, claimed the floor and in dignified manner said:

"I want to make a 'nouncement, etc."

Curb Opposed  
Chairman Cannon (D. Mo.), of the House Appropriations Committee, denounced a move to restrict the W. P. A. to war activities.

Chairman May (D. Ky.), of the House Military Committee, said the action would pave the way for ultimate elimination "in an orderly manner."

## Now Over The Hump, Nelson Tells The Nation, But Many Hardships Are Yet In Future For Citizens

### Brighter War Picture Is Balanced By Knowledge Of Sacrifices

#### TAX SCHEDULE SHORT OF GOAL Big Additions To Six Billion Set-Off Indicated

Washington, — A record-breaking \$6,000,000,000 program of new taxes has been approved tentatively by the House Ways and Means Committee, with the prospect that more millions—perhaps billions—will be added before legislation reaches the House.

A tabulation today showed the committee, approaching the end of a study of the Administration's request for \$8,700,000,000 in additional revenue, already had agreed upon \$6,087,000,000, with votes remaining only on a few minor excise taxes.

Should all the other Treasury recommended, the committee still would be about \$2,400,000,000 short of the Treasury goal.

#### Fag Tax Hike Voted

The committee voted to double the present 5 per cent tax on fares paid for transportation; to raise the tax on a package of cigarettes from 6 1-2 to 7 cents to increase the present cigar tax materially; to add 6 cents to the present 18-cent-a-pound smoking tobacco tax, and to jump the cigarette paper and tube levy to 1-2 cent on each package of twenty-five.

Members said that once they dispose of a few other excise items they will face the question of stopping there or proceeding to consider a sales tax to bring billions of dollars more into the Treasury to help finance the war and control inflation. It has been estimated that a 5 per cent retail tax would raise \$2,500,000,000.

#### RADIO SYSTEM TO BE SET UP AS RAID MEASURE

Washington, — The Federal Communications Commission and the Office of Civilian Defense outlined yesterday plans for emergency civilian defense radio systems to be available in the event air raids damage or destroy other means of communication.

The program calls for thousands of compact two-way radio stations to be constructed by radio amateurs, largely from "junk" material which amateurs and radio repairmen ordinarily accumulate. The low-powered stations would have an effective range of about ten miles.

The F. C. C. said licenses for civilian defense radio stations would be granted only to local governmental units. The commission then would issue a "war emergency operators' permits" to qualified persons assigned to operate each station.

## Navy Report Shows Japs Told Lies In Claims Of Coral Sea Fight

Washington, — Japan's Admiral Yamamoto, navy chief, was cited in an Imperial rescript at Tokyo a few weeks ago for what the Japanese called a Japanese "victory" in the battle of the Coral Sea.

The Japanese boasted that they had sunk or damaged a dozen American and Allied ships. After the navy issued its summary report of the Coral Sea action today, a spokesman cited the Japanese claims as compared with the record:

Sinking claimed by the Japs: one battleship of the California class, one carrier of the Saratoga class, one carrier of the Yorktown class, two heavy cruisers of the Portland class, one British destroyer.

The U. S. Navy record of ships

Chicago, — Donald M. Nelson said Sunday that American was "over the hump" in war production, but warned that "as for the inconveniences, discomforts and hardships that you and I will have to endure—why, we haven't even got to the foothills yet."

In a speech prepared for delivery at a mammoth patriotic assembly in Soldier Field in honor of Gen. Douglas MacArthur, the War Production Board chairman painted a somber picture of sacrifices the war effort will entail, but envisioned a post war period in which "the power which was used to win the war" would be turned to satisfy human needs.

Rubber Shortage Cited  
He said the rubber shortage was "one little sample" of how Americans were going to have to learn to "take it and keep on taking it to the end of the war."

"Before we get through we'll get an equal or 'greater jar in every single part of our daily lives. We'll pay taxes as we never paid them before and we'll do without a lot of things until it really hurts every single one of us."

"Our America today is really beginning to work at full speed for the first time," he said. "We are learning things about production; about use of materials, about the way to make more out of less than we ever knew before. This war will be over some day. Then our real job will just be beginning. We have in our hands the materials out of which a freer, richer, happier world can be made. Let no one imagine that we shall lack the good sense to use those materials properly."

#### MORGAN OMAR IS AT GREAT LAKES

Great Lakes, Ill., — Now serving with the U. S. Navy is George Morgan Omar, Jr., 21, son of G. M. Omar, 410 Eddings street, Fulton, who was received at the U. S. Naval Training Station here and is now undergoing recruit training. The new recruit will be given a series of aptitude tests to determine whether he will be sent for further instruction at one of the Naval many services schools, or assigned for duty at sea or at some other naval station.

#### ALTON RIDDLE FINISHES 3 MONTHS RADIO COURSE

Mr. and Mrs. F. H. Riddle have received an announcement of their son, Private Forrest Alton Riddle's graduation from Midland Radio and Television school at Athens, Ga., having taken a three months' course in code, radio theory, typing and net procedure. He has been presented his diploma and is now a licensed radio operator of Third Air Force, Aircraft Warning.

actually sunk—one U. S. destroyer, the Sims; one tanker, the Neosho, and one aircraft carrier, the Lexington. The navy spokesman said that the Lexington was heavily damaged during the battle, but was able to get so far away before it sank that its loss could not have been known to the Japanese.

Ships claimed by the Japanese to have been heavily damaged—one battleship of the North Carolina class, one battleship of the Wasp class (British), one heavy cruiser of the Canberra (British), two heavy cruisers of the Louisville class and one oil tanker.

The U. S. Navy report of ships which actually were seriously damaged—none.

### THE EMERGING PATTERN OF THE PEACE

The victory is far from won, but through the smoky haze of war we can see the outline of the peace more clearly now than at any time since the Atlantic Charter was proclaimed by Mr. Roosevelt and Mr. Churchill. The understanding just reached between the President and Foreign Commissar Molotov under the terms of the Lease-Lend Act, the twenty-year mutual assistance treaty just signed between Britain and Russia are devices of the peace that is to follow the war as much as they are of the war itself. The pledges of the Atlantic Charter against territorial aggrandizement and for economic collaboration are being, before our eyes, definitely and conclusively implemented.

And the United States, which refused to take any part in the implementation of the Fourteen Points, is the leader now in the implementation of a document remarkably similar in letter and exactly similar in spirit. This American leadership is a tremendously hopeful thing for America and for the world. It was our Government, through our Ambassador in London, that persuaded the Russians not to press their earlier demand for a guarantee of her pre-war frontiers, including the Baltic states, and if our influence, which is mightily reinforced by the Lease-Lend Act, continues to be exerted so wisely and well, then the dream of a world made safe for democracy can one day come true.

This is said, of course, without vainglory. Factors for which we can claim no smug credit have forced world political and economic leadership upon us. We have done little consciously to earn that leadership; we even ignominiously ducked it after 1918 with the disastrous consequences we have seen. But now we appear potentially in our inevitable role, and we cannot afford to run out again.

### FIFTEEN YEARS AGO

(June 15, 1927)

W. E. Barnes died yesterday at his home in Water Valley. Jerome J. Jerome, well known British writer, died today.

J. R. Graham underwent a serious operation in Paducah yesterday and is reported resting well today.

Miss Annarene Norman of Jackson visited home folks here Sunday.

Rev. H. L. Patterson, former local pastor, is in a Memphis hospital for an operation. He now lives in Dyersburg.

Mr. and Mrs. Will Whitnel spent yesterday in Dyersburg as guests of Mr. and Mrs. Robert Whitnel.

Arch Huddleston spent yesterday at the Lake.

Mr. and Mrs. B. F. Evans and Mrs. W. E. Ezzell of Paducah spent yesterday in Hickman.

Dr. Seldon Cohn spent yesterday in Paducah on professional business.

Mrs. Otis Norman and son, Stanley, are visiting relatives in Hot Springs, Ark.

Mrs. Claude Shelby and son, William, have returned from a visit to friends in Toone, Tenn.

The pattern of the peace is evidently to be no miraculous emergence of a League of Nations panoplied overnight for the restoration and preservation of world order. This week's momentous developments indicate that from the nucleus now established—the United States, Great Britain and Russia—there is to be a fanning out of a good neighbor policy to all nations willing to make the concessions which such a policy will require. China, of course, is ready to be a major partner. Lease-Lend arrangements were concluded with her early this month at Washington, and the Allies owe to her not only the military help which she so desperately needs now but also explicit commitments that when the war is over so is extra territoriality and the whole system of exploitation of which it has been so insolent a symbol.

The difficulties are still immense, of course. In this country, the cartel and tariff type of business thinking, an equally restrictive and monopolistic type of labor thinking and the Argentine-beef type of farm thinking stand as grave dangers in the way, and be assured that the same types of thinking exist in other countries too. We face a long, hard war and a long, rough road thereafter. But if we can proceed in the spirit manifest at Washington, at London and at Moscow these last few days, we can make the grade.—Courier-Journal.

### LISTENING POST

(Continued from page one)

horror, telling, as it does of casual and wanton murder, depraved brutality and rape and lust. One or two items from his story stand out in my memory. One was of a band of civilians being questioned by a Jap General. A large number of bound British soldiers and officers stood nearby. As the General finished his questioning he issued a casual order, and at once soldiers shot those Britons to death without any warning whatever. Another told of a Chinese servant seeing his British master in the ranks of prisoners. The Chinese coolie, in working clothes, and unarmed, ran towards his master, with hands held above his head. A Japanese soldier advanced and ran him through with his bayonet, withdrew it and then spit the coolie again before he hit the ground. Things like that never leave my memory; nor will I ever forget the story of Japanese pilots machine-gunning American pilots who had bailed out of planes and were floating down towards the sea.

judgment. I do not know that the stories are true, but I fear they are. The longer war lasts the more human brutality comes to the surface in men. If these stories are true we may rest assured that when American fighters come to grips with Jap soldiers there will be no quarter asked or given.

## Paper Stock Is Undergoing Many Changes

Paper for letterheads and envelopes is slowly undergoing many changes. Bond papers will be dingier, will lack the white crackling finish they have known for many years. Probably the price will be higher also.

We still have some stock on hand of the better finish. Better order some letterheads today.

Haws Clinic  
Mrs. Lola Howard is improving.

Mrs. Lawrence Shelton is getting along nicely.

Mrs. M. L. Rhodes was dismissed yesterday.

Archer Glass is improving.

Miss Josie Langford remains about the same.

Mary Margaret Cavitt and infant daughter were dismissed Saturday.

Mrs. T. D. Pentecost was dismissed Saturday.

### MEAD CALLS FOR 'MODERN HOME DEFENSE ARMY'

Washington, — Senator Mead (D., N. Y.), today proposed that a "modern home defense army" be set up immediately to guard against possible attacks by enemy parachute troops or commando raiders.

Mead said he was preparing a letter to congressional leaders and governors outlining his plan, which, he declared, "would not necessarily interfere with the manpower requirements of our armed forces or those of our defense industries."

He suggested that members of the home units could be recruited from the ranks of the first World War veterans, men rejected from armed service because of some slight physical defect, and from sportsmen's clubs.

BABY BUGGY STEEL  
LIMITED BY W. P. B.

Washington, — The War Production Board today limited the use of iron and steel in baby car-

### Training For Defense

By Rufus T. Strohm

Dean, International Correspondence Schools

WITHOUT an intercommunicating system consisting of cables and wires, the modern battleship would be all but worthless. The wiring is just as important as the gun turrets or the steam power. The ship might have all the appearance of a first class performer, but she would be of little value in action.

Some men are like an unfinished ship. They have the potentialities, but without skill they are not capable of doing a job that requires responsibility. They are mere shells of efficiency until the "wiring" or training is acquired.

Today thousands of men are working in the New York Navy Yard, busily engaged in building this nation's two-ocean navy. These men are given opportunities to advance to better jobs. The task demands skilled technicians and mechanics. Every department must have highly trained men to direct those who build and fit together the parts of gigantic battleships.

The Navy is proud of the spirit of the men who build ships, but that is not enough. Such workmen must be perfectionists. There is not much time to train men, but every effort is being made in that direction.

The big jobs in the shipyard, like those in any other great American industry, are handled by those men who are properly "wired" to pro-

with speed and efficiency. You have the "know how!"

ages after August 1.

Most, if not all, of the twenty-five baby carriage manufacturers, who do an average annual business of \$8,250,000, are expected to remain in business, using wood instead of metal. The order is expected to effect a saving of about 11,000 tons of steel this year.

## Tigers Break Losing Streak By Whipping Oilers Here Sunday

Behind the superb three-hit pitching of Lloyd Fisher, the Tigers unleashed a savage attack on Reiber in the fifth inning here yesterday and beat Owensboro 5 to 1 in the series opener. It broke a three-game losing streak and barely enabled the Tigers to retain a small lead for the league lead over Bowling Green, as the Barons took two games from hopeless Union City during the afternoon. Jackson dropped to Hopkinsville, to break a nine-game winning streak and fall a game back into third place.

Outside of the fifth inning of yesterday's game Reiber pitched a strong game, but Fisher was hot and was never in trouble. The only run scored against him was the result of an error in the seventh. The big fireballer had almost perfect control, issuing only one pass and giving up only one clean hit and two scratch blows. He struck out only 3 which is unusual for the big right-hander, but he had the Oilers hitting over and under all the time. Reiber was in trouble several times outside of the big inning, but managed to calm down at crucial moments and left eleven Tigers on the bases. He gave up twelve hits, six of which came in the fateful fifth. In that inning ten men faced him, half of them scoring.

Derrick with three hits and two walks, had a perfect day at the plate, and Frankie Faudem also had three safeties for the afternoon, including a screaming triple. Manager Mullen had a good day at second, handling five chances in flawless fashion and Faudem had a couple of nice catches in left. Fisher also fielded well, having five assists which he handled perfectly. The two clubs are playing again tonight and tomorrow night.

### TODAY'S GAMES

Hopkinsville at Jackson.  
B. Green at Union City.  
Owensboro at Fulton.

## JACKSON SWEEPS SERIES BY VICTORY SATURDAY NIGHT

For the first time this season, the Tigers dropped an entire series, as Jackson swept the three-game series by winning Saturday night 10 to 9. It marked the longest losing streak the Tigers had encountered this season and pulled Jackson to within one-half game of second-place Bowling Green, and a game and a half off first.

The Tigers used Bishop and Burgess on the hill, and the latter was charged with the loss when the Generals put over the winning run in the ninth frame, after the score had been tied in the ninth with two Tiger runs. Hitting was heavy for both teams, as the Generals poled eighteen blows and the Tigers fourteen. Faudem and Pierion hit for the circuit for the Tigers, with Faudem having four hits in five tries. Errors played a big part in the game. Fulton being charged with four blunders and Jackson with two.

**Class Promoted**  
Trainmaster S. C. Jones promoted a class from fireman to engineers at his office in the Station. The following passed the examinations: Raymond Brown, J. H. Waggoner, J. L. Rogers, T. L. Ray, E. H. Lanier, and W. H. Singery.

### MALES ARE CHAMPIONS IN KNITTING CLASS

Hazen, Ark. — While women enter men's sphere by joining the army, the males are champion knitters here.

At the end of an eight-week course in knitting in the Hazen public schools, the work of two boys, Don Stallings and Sidney Stanford, was proclaimed best in the school.

Ashland, Ky. — Mrs. Edith Fortune, executive secretary of the Boyd County Red Cross since 1937, resigned effective today, Chairman John C. Vigor announced.

### TENNESSEE MULE RAISER VOUCHERS FOR THIS TALE

Manchester, Tenn. — There's an old saying, "If mules could fly..." Well, this one did pretty well at it. On a balmy day, Will H. Haggard turned his mules, confined to their stables most of the winter, out to pasture to get the kinks out of their legs, and one young animal was missing at feeding time. The mule evidently underestimated its jump-

ing ability—Haggard found it perched in the crotch of a tree, unable to get down. He had to chop it free.

### N. Y. A. SHOP PRODUCING FIELD KITCHEN CABINETS

Prestonsburg — It's a war industry, but there's nothing secret about it.

The National Youth Administration's defense shop, which began "assembly line" operations last week, now is turning out 220-pound cabinets for army field kitchens at the rate of one every seventeen minutes.

Superintendent of the plant is Richard Quillen. He said that, while turning out the cabinets, trainees in the sheet metal department of the shop and on the assembly line were being prepared to take jobs in other defense industries.

### PRICE CURBS MAY LINGER

Washington — Charles W. Eliot, director of the National Resources Planning Board, predicted Sunday night it would be necessary to continue in peacetime many of the war economic controls "to prevent run-away prices, and to assist in orderly demobilization of the war machine."

At the same time he said that "private industry as we know it

*Keep cool, fragrant*  
**DOROTHY GRAY HOT WEATHER COLOGNE**

Evans Drug Co.

now," must go forward after the war or, "we, as a people, will find other ways to organize venture or developmental capital."

Mr. Eliot spoke on the MBS American Forum of the air. Also on that program, Thurman Arnold, assistant attorney general, predicted the postwar period would usher in a new industrial era.

### CURTIS-WRIGHT TO USE 10 MILLION TO EXPAND

Buffalo, — A new \$10,000,000 expansion program at the Buffalo plants of Curtiss-Wright Corporation's airplane division has been announced by General Manager

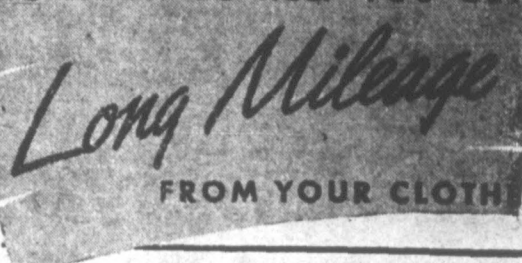

William Davey.

The expansion program will enable the company to step up production of the Curtiss (C-46) Commando, described by company officials as the world's largest twin-engine cargo ship, and turn out more Curtiss Kiltihawk and Warhawk (P-40) pursuits.

Now is the time to subscribe for the Leader.

**Gas Gas All Time**  
Mrs. Jan. Miller says: "Gas on my stomach was up and I couldn't eat or sleep. Gas even pressed against my heart. Adlerika brought me quick relief. Now, I eat as I wish, sleep fine, never feel better."

## 3 RULES TO HELP YOU GET Long Mileage FROM YOUR CLOTHES

1. Buy the best clothes you can. In the long run, you get more wear per dollar from good clothes than from cheaper ones.

2. Brush garments thoroughly after each wearing. Gentle brushing removes much surface dust that would otherwise work down into the fabric.

3. Send clothes regularly to O. K. LAUNDRY for Sanitone cleaning.

Our superior Sanitone method cleans fabrics clear through, removes soil, perspiration, and embedded dirt particles. This prolongs the life of the garment in addition to restoring its color and softness. Sanitone gives you "long mileage" from clothes.
