THE LISTENING POST

LIST POST

●The picture "Martin Eden," which was at the Malco last week-end struck me as one which might have been a great picture, but which failed because of inadequate treatment. One of the most striking faults was in its casting. The man who played the lead was good, but in no other character was there a man or woman who seemed to leave and breathe the part. Perhaps one exception might have been the one who played the part of Butch Reagan. He did give a pretty good characterization, but the two feminine parts were weak indeed.

●●●●●
●"Martin Eden," as students of Jack London know, is a sort of an autobiography. In other words, the Martin Eden of the book was designed to be Jack London himself. In all American literature there is no character quite as fabulous, quite as unbelievable, quite as unpredictable as Jackson London. Coming from the wrong side of the tracks, with no training whatever for writing; just a lusty, fighting two-fisted sort of man, Jack London, but for his own weaknesses might have been one of the truly great men of American letters. He was great—make no doubt of that—and but for his own personal weaknesses he might have been recorded as one of the greatest story tellers the United States has ever produced. What he did accomplish is little short of miraculous, for in the book Martin Eden some of the obstacles that he overcame are set down. In the picture referred to this is touched on too lightly, for the true measure of Jack London cannot be fully appreciated unless his background is known.

●●●●●
●London was a product of the waterfront in and around San Francisco. That in itself explains many things, for students of the American scene say that there are only three or four distinctive American cities, and San Francisco leads all others in being distinctive. The city has a fabulous history; the years that lie behind are colored by equally fabulous men and women who built the city after the great gold rush in '49. It is also touched by the flowing tides of foreign races, with a distinct Oriental flavor, and all this is made more impressive by the great earthquake in 1906 and the subsequent rebuilding of the city. It has always been one of the great ports of the world, and through its Golden Gate the ships of many nations have come and gone.

●●●●●
●San Francisco, too, has long had its own school of literature. Many great names have emerged from the melting pot which is San Francisco, and many writers have come from that city. This explains in part the fact that Jack London really did have a lot on the ball. He was never what is called a "nice" writer. There was never any softness about him. As related in Martin Eden he had a passionate wish to write of life in the raw—and when he spoke of life in the raw he meant literally that. He knew of no other sort of life. He had lived along the waterfront of San Francisco all his life; he had sailed the great sea leading away from the Golden Gate. He knew the islands of the Pacific, and there was no hell hole in all those islands or in the Far East which had not yielded its hot color to his spongelike mind. When he began to write he wrote of those things, and for a long time the publishers of the nation ignored him, for they did not believe that such thoughts should be published. While London did bend himself a little to popular demand in later years he never lost that mental toughness, and this is to be seen in any of his stories.

●●●●●
●In the picture, which might have been much greater with an adequate cast, I got some dim idea of London himself, but I could never see and appreciate the back-

American Fliers Support British Air Arm In Mediterranean Fight—Italians Suffer Heavy Casualties

Heavy Cruiser Is Sunk And Two Battleships Set Afire

ROOSEVELT SUMS UP LEND-LEASE FOR 15 MONTHS

Production Battle Won—Distribution Is Now Danger

Washington, —President Roosevelt informed Congress today that lend-lease aid up to the end of May totaled \$4,497,000,000 and that while the battle of production was on the way to being won, the battle of distribution was "in its critical phase."

"Our reservoir of resources is now approaching flood stage," he said. "The next step is for our military, industrial, and shipping experts to direct its full force against the center of enemy power."

"Great Britain and the United States x x x are taking combined action to carry our men and weapons—on anything that will float or fly—to the places from which we can launch our offensive."

●●●●●
●Mr. Roosevelt summed up for Congress the results of 15 months of lend-lease operations—with the emphasis finally shifted from food-stuff and industrial materials to a preponderance of fighting weapons and military items.

The lend-lease program was instituted on March 11, 1941, and the aid extended since that time to the British commonwealth of nations and 35 other countries has amounted to \$3,679,000,000 in goods and \$824,000,000 in such services as repairing ships, ferrying aircraft, and providing production facilities in this country.

The goods included \$2,601,000,000 or articles transferred, that is, delivered to lend-lease nations at production or export points in this country. Of this amount, \$2,138,000,000 has been exported.

REMOVE FALSE TEETH DURING BOMBING RAID

Chicago, —Precautionary note: Don't forget to take your false teeth out if bombs start falling. Dr. Charles F. Deatherage, members of the dental advisory committee of the Illinois State Council of Defense, warned that small removable bridges may be swallowed as a result of the vacuum created by a bomb explosion, and full or partial dentures may become secondary projectiles following a blow on the head.

COUPLE IS MARRIED IN OPERATING ROOM

Morganfield, Ky. —A naturally nervous couple after successful passing pre-marital blood tests at the Union county hospital asked for a "cool place" to get married in. "Try the operating room. It's air conditioned," suggested Dr. Daniel L. Vaughn.

The couple accepted and City Judge E. H. Compton performed the ceremony in the coolness of the white-walled room.

Perkins Says 48-Hour Week Is Best Working Average For Nation

New York, —Secretary of Labor Perkins said today that the forty-eight-hour week and the 160 hour plant production program has become the "optimum—best working average—for labor and management for the duration of the war."

Addressing delegates from the United States and Canada to the convention of the Pattern Makers' League of North America, Miss Perkins said:

"Mass production war workers must have a limit to their work in order to produce their best, and forty-eight hours a week is that

London, —The U. S. Army's four-motored "Liberators," RAF torpedo planes and warships of the British fleet were disclosed tonight to have sunk one of Italy's two remaining heavy cruisers, left two Italian battleships battered and burning, and destroyed or damaged at least six other enemy men of war in the battles which have churned the Central and Eastern Mediterranean since Saturday.

It was the first officially recorded participation of U. S. Air Forces in the Mediterranean theater, now blazing into full summer activity.

Special communiques from the RAF command in Cairo and from the admiralty and air ministry in London piled up the impressive reports of Allied successes after two days of extravagant Axis claims of the smashing of two great convoys, bound from both east and west for Malta and Tobruk. The Germans and Italians, in all, announced that a total of 16 Allied vessels, including eight cruisers or destroyers, had been sunk for sure and that 38 other ships had been damaged some of them being called total losses.

Convey Delivers Goods

Replying to this, the admiralty-air ministry communique announced flatly tonight that the convoys had delivered the goods to both Malta and Tobruk, the African desert bastion, in the face of the heaviest kind of attacks by superior enemy naval and air forces.

It was conceded there were British losses; they were not specified, but the communique said "the fantastic enemy claims to have sunk cruisers and to have damaged battleships and an aircraft carrier are without any foundation."

This communique listed a 10,000-ton, eight-inch cruiser of the Trenton class and at least two destroyers sunk by "his majesty's ships, naval aircraft, the RAF and the United States Army Air Corps," in addition to heavy losses inflicted on the Axis air squadrons.

U. S. Fliers Succeeded
It was the Cairo RAF headquarters, however, which told the more complete story of how the big Consolidated B-24's of the new U. S. Army Air Force establishment in the Middle East cracked the backbone of the Italian fleet just off Italian shores.

The total damage wrought by these American bombers and by the RAF and British fleet air arm torpedo planes was:

Sinking of the Trenton cruiser in a combined American-British assault; setting afire and damaging the two Italian battleships, of which Italy now has six in service; damaging of two smaller cruisers and two destroyers.

The big consolidated bombers, used heretofore chiefly for anti-submarine work in the North Atlantic, now are bearing an equal share in the battle for air superiority over the Mediterranean, informed sources here said.

limit with but few exceptions." She said that while it was taken for granted that women would go into war production work, she felt that there was "too much loose thinking on the subject of women in war."

"I believe that it is a mistake to call the mothers of young children into factories or into any other form of war work until we use up all the other reserve," she said. "The system of family-life in America is more essential than what these women have to offer."

Treasury Proposes Limitation Of Annual Incomes To \$25,000.00

Washington, —Super-levies to take from single persons all income over \$25,000 after payment of regular taxes and from married couples all above \$50,000 were formally recommended by the Treasury today with the declaration that a nation at war cannot afford "luxurious living for a few."

The idea of such a wartime tax was first advanced by President Roosevelt in his April 27 message to Congress outlining his anti-inflation program. Today, Randolph Paul, tax adviser to Secretary Morgenthau, laid the specific plan before the House ways and means committee.

Although aimed generally at holding spendable income to the \$25,000 and \$50,000 levels, the plan would permit a deduction for debts of up to 15 per cent of income after payment of present income taxes.

"While this reduction would be intended for the purpose of relieving the hardship of debt," Paul told the committee, "it would be made available also to people who had

no debt commitments, provided it was spent in meeting other financial commitments, such as insurance premiums on policies taken out in the past, or was invested in federal securities."

Presenting the proposal to the committee, Paul read a memorandum which said there could be no "equality of privilege" in the war effort "when some of our citizens are permitted to enjoy a luxurious standard of living while others xxx are called upon to cut their living standards to a bare subsistence level."

"To implement the President's proposal," he continued, "the Treasury now recommends the enactment of a 100 per cent war super-tax on that part of the net income after regular income tax which exceeds a personal exemption of \$25,000."

That plan, Paul estimated would affect 11,000 single and married persons and would add \$184,000,000 to the approximately \$6,250,000,000 in new taxes the committee already has approved tentatively.

KITTY LEAGUE IS DEFINITELY ENDED AS HOUNDS QUIT

Team Left This Morning For Owensboro To Finish Up

The Kitty League is another war casualty.

The feline circuit, after having operated since its reorganization in 1935, will cease operation for the year and probably for the duration of the war, with the games to be played during the next three nights. The Tigers left this morning for Owensboro, where the curtain will be dropped for the season. Some confusion seems to exist as to the number of games to be played, but in any event it is certain the organization will cease to operate by the end of the week.

This action was made necessary when Union City threw in the towel yesterday, after a disastrous season. About 45 games have been played of the present season and fans have seen some good ball playing. The finish finds Fulton and Bowling Green fighting for the top position, with both teams having a percentage that ordinarily would give a team a six to ten game lead. Today the local team had won 29 games, while losing 13 and Bowling Green was only a game and a half behind. Jackson was also crowding the two leaders.

Plans are now under way for placing Tiger players. Barger, sterling pitcher, had already been called for Army service, and Lloyd Fisher, perhaps the best hurler in the league, was recalled yesterday by Winston-Salem. Pavior, another optioned player, will also be recalled by the North Carolina club and Lamar Green was released. Eddie Goostree, Detroit scout, will meet the team in Owensboro and select players under the working agreement Fulton has with Detroit. Other members of the club, unless sold by the club, automatically become free agents under baseball rules.

President Dalton of the local club expressed his deep disappointment at not being able to continue, saying that while attendance here had not been good it was beginning to pick up. "However, with Union City dropping out and one or two other clubs wishing to fold, we had no other course," Mr. Dalton said.

The local team, according to announcement, will not discontinue operations with any unpaid bills. Club officials ask that any person having unpaid bills against the club present these at once and they will be paid promptly.

President Dalton said this morning that Fulton will be ready for baseball again after the war in won.

USO DRIVE NETS \$284.84 IN FULTON YESTERDAY AFTERNOON

Drive To Continue Here Today; Quota For County Is \$600

F. H. Riddle, chairman of the United Service Organization for Fulton county, announced this morning that a total of \$284.84 had been collected in the city of Fulton yesterday and that the drive would continue today. The Young Men's Business Club is sponsoring the drive, which is covering both the residential and business districts of the town.

The national USO organization is seeking thirty-two million dollars for carrying on the work in the many Army center of the nation, and Fulton County's quota in this total is six hundred dollars.

So far the drive has proved quite successful. The Young Men's Business Club has been assisted in the drive by the Woman's Club. Mrs. Jean Moon, club president, and Mrs. Clifford Shields are in charge of the Woman's Club part of the drive and each department of the club is represented by a committee. These committees are working the residential section of the city.

The booth located in the City National Bank where donations are being accepted was in charge of Mrs. Clifford Shields, Mrs. Leslie Puryear, Mrs. Frank Wiggins and Mrs. Robert Burrow yesterday.

Chairman Riddle expressed his appreciation yesterday to the local citizens for their splendid cooperation in this drive. It is to be hoped that Fulton will be able to go over its quota with the donations turned in today. If you have not done your part, please turn in your contributions immediately.

Clifford Shields and James Meacham, Boy Scoutmasters, and William Scott, assistant, have been distributing the USO literature in to all homes in Fulton, Riceville and Highlands.

O. P. A. POSTS FEUD MOTIVE

Washington, — Congressional leaders, disgruntled because their cherished patronage privileges have been disregarded by Price Administrator Leon Henderson, planned today to exercise control over appointments in the Office of Price Administration.

Their opportunity will come when the \$161,000,000 O. P. A. appropriation for the year beginning July 1 is formally laid before Congress. President Roosevelt has submitted a request for that sum but no legislative steps have been taken to grant it.

Congress probably will vote the appropriation—or at least part of it—when it is formally presented, it was said. But leaders planned to add a provision which would require Senate approval of O. P. A. appointees receiving more than \$4,000 a year.

Navy Will Build 15 Carriers, But Agreement Is Reached To Drop Plans For Battleships

Work Is Halted On Five Battleships Under New Plan

STATE BUYING POST IS AWARDED W. P. HOGARTY

Road Department Purchasing Chief Is Promoted

Frankfort, Ky. —W. P. Hogarty, assistant state purchasing director in charge of Highway Department buying for the last ten years, was appointed head of the State Purchasing Division today.

He takes the place of Marion C. "Zeke" Howard, of Versailles, who died last winter after a month-long investigation of charges of inefficiency and rebates in the division that resulted in a report by the governor's committee declaring there had been irregularities of various kinds, but laying no specific blame.

Aid Replaces Hogarty

Hogarty's position as buyer for the Highway Department was taken by E. T. Herricks, his assistant for eight years. Hogarty, a brother-in-law of State Senator Ray B. Moss, of Pineville, came here from Lexington, Herricks' home was Covington.

Speaking of the promotions, Gov. Keen Johnson said that no better or more experienced men could have been found for the place, adding their "long experience and fine records make them highly qualified for their increased responsibilities."

State Finance Commissioner J. Dan Talbott, who announced the appointments, said no other personnel changes were contemplated in the Purchasing Division which is a unit of his department.

CHRISTMAS MESSAGES WRITTEN FOR SOLDIERS TO SEND BACK TO U. S.

Washington, —The War Department expects the current unpleasantness to continue beyond Christmas at least, judging from a list of "canned" messages which it has composed for communication between members of the American Expeditionary Forces and the folks back home.

Message No. 53 on the list, which is being distributed to commercial telegraph and cable companies says:

"Happy Christmas and New Year."

The department has devised 102 telegrams to cover almost any ordinary situation thus far, and is working on about 30 more to meet some of the more unusual ones.

STATE TO DROP UNEMPLOYMENT TAX

Frankfort, —The tax on employees' wages for state unemployment compensation ceases after June 30 under amendments to the state aid law which also ease the burden on employers.

Large sums piled up in reserve made it possible to stop taxing the workers, to reduce the employers' maximum contribution from 3.7 per cent of payroll to 2.37 per cent and at the same time to make slight increases in benefits given workers.

Encouragement to retain workers is given by providing that an employer's contributions may be scaled down even to zero, according to the reserve the individual employer has piled up. Each payment of jobless benefits to a worker proportionately reduces his employer's reserve.

Other changes in the law, effective July 1, pointed out by Unemployment Compensation Director Vego Barnes, include raising the

Washington, —Legislators disclosed today that the navy has charted a new and precedent-shattering course in warship construction, with a decision to concentrate on the building of airplane carriers at the expense of new battleships—heretofore considered the backbone of sea power.

Emphasizing the growing recognition of the vital role of air power in the world conflict, the House Naval Committee approved an \$8,500,000,000 measure calling for 500,000 tons of carriers and omitting any provision for new battleships. In its entirety, the measure contemplates the construction of 1,400 ships of all other types.

Considered Significant

The plan to concentrate on carrier strength was considered especially significant in view of the smashing American aerial blows at Japanese sea and air power in the Coral Sea, Midway and Aleutians areas.

The decision was first disclosed by Senators Ellender (D., La.), and Brewster (R., Maine), members of the Senate Naval Affairs Committee. They told reporters that top-ranking admirals had said the United States would start no new battleships and that some heavy cruisers, now under construction, would be converted to carriers.

Battleship Work Deferred
Chairman Vinson (D., Ga.), of the House Naval Committee, likewise said that work has been deferred temporarily on "four or five battleships in order to concentrate on carriers." While the navy has far from abandoned battleships altogether, he said events had proved conclusively that the aircraft carrier "is the backbone of the fleet."

The navy appeared to sound at least a temporary death-knell for the contemplated 60,000-ton battlewagons which the navy has had under design for more than a year. Brewster announced that plans for these giants were being abandoned for the present, but both he and Vinson stressed that the capital ships nearing completion would be launched and commissioned as planned.

DR. HAWS IS BETTER.

Word received from Memphis today, stated that Dr. M. W. Haws, local physician, who is a patient in the Baptist hospital, is slightly improved.

Now is the time to subscribe for the Leader.

State To Drop Unemployment Tax On Employes Wages On June 30

minimum weekly benefit rate for unemployed from \$4 to \$5, and the maximum from \$15 to \$16 and reducing from two weeks to one week the time a worker who has lost his job must wait before applying for it. The commission also will begin paying jobless benefits by the week in stead of bi-weekly.

Pools Total 46 Million
The Unemployment Compensation Act covers approximately 9,000 employers and 250,000 workers in Kentucky, according to the commission.

Since employers' contributions started in 1936, a total of \$25,459,041 has been piled up by them in reserve. The workers' pool, which began in 1937, has mounted to \$16,532,851.

The law provides that the workers' pool, made up of the 1 per cent take-out from their annual wages, shall not be touched except in case the employers' fund becomes exhausted from paying jobless benefits.

IT'S NOW OF NEVER FOR THE AXIS

The parades are over, the bands are silent, the flags are furled—Flag Day has gone into history as United Nations' Day—and the grim realities of war take the place of high emotionalism and lofty aspirations. The world struggle is entering its most critical phase—last desperate efforts on the part of Hitler and Hirohito to score decisive victories before the snow of another winter falls and before the Allies can muster their full striking power. In Russia, in Libya, in China and on our own doorstep, so to speak, on the barren Aleutian island of Attu, the Axis forces are pressing forward. For them it is now or never, and the time is short.

The all-out assault on Sevastopol and the furious attack around Kharkov have all the appearance of being Hitler's promised summer offensive. The Libyan campaign begun on the eve of the torrid desert season when the temperature rises to 130 degrees now takes on some semblance of meaning. It is part of the drive to the Caucasus taking in the Suez Canal and the oil fields of Iraq and Iran. With little more than four months of fighting weather on the broad Russian steppes Hitler must work fast if his hopes are not to turn to ashes and an Arctic winter again decimates his legions. And the Red Army and the Imperial forces around Tobruk are feeling the full weight of the German war machine. Sevastopol must be knocked out before there can be any drive toward the Caucasus just as Tobruk must be captured before an attack on Egypt as both threaten the flank and rear of the enemy. Likewise Kharkov menaces the supply lines to the Crimea and around the Sea of Azov and it too must be eliminated.

In China Japan is using the full striking power of its land-force for an early knockout blow. India is not being molested. Australia is free from the fear of invasion. Only against the poorly equipped but indomitable Chinese are the Mikado's men hurling the might of their modern war machine and from the south, from the east and from the southeast they are pressing forward toward the provisional capital at Chungking. Without planes, without guns, almost with their bare hands the armies under Generalissimo Chiang Kai-Shek are opposing this giant pincer movement while patiently waiting for outside aid.

The Japanese threat to Alaska and the West Coast is veiled in the fog of that quarter of the globe where the air currents of the Arctic and the warm breezes from the Sea of Japan meet, but it is none the less a threat. The Japs have established themselves on the barren island of Attu and are maneuvering in the sea off less remote Kiska from those outposts of the Alaskan coast the Japs might launch their bombing planes and submarines for attacks on shipping and coastal cities.

FIFTEEN YEARS AGO

(June 17, 1927)

A. G. Baldrige is undergoing hospital treatment in Paducah. Mrs. Mozelle Terry Smith left today for St. Louis, where she was invited to take part in the reception to be given Charles Lindbergh when he returns to that city.

Hardin Morris has returned from a Paducah hospital, where he underwent an operation some weeks ago. He is improving nicely.

Morris Chowning has gone to a training camp at Columbus, Ohio, where he will take two weeks' army training.

Warren Graham has returned from Paducah, where he has been with his father, J. R. Graham, who underwent an operation there several days ago.

Mr. and Mrs. Smith Palmer of Paris are visiting friends in the city.

J. W. Carpenter has returned from Hot Springs, where he spent the past two weeks.

Misses Mary Ann Moss and Ruby V. Yarbrough are visiting friends in Martin.

Misses Dorothy Ford and Ruth Wade left today for Louisville to spend several days with Miss Jane Dobbins.

Robert Lamb, rural mail carrier, is taking his annual vacation, with Lewis Thompson carrying his route.

A. L. Martin has returned to Brownsville after visiting here for a few days.

On all land fronts the news is definitely bad for the Allied nations and will perhaps get worse as summer turns to fall. Hitler and Hirohito must stake all on the chance of scoring a decisive victory in the next few months. Our hope lies in giving the fullest possible aid to Russia and China—planes, tanks, guns and perhaps a second front in Europe—for if Russia or China falls the war will be indefinitely prolonged.—Courier-Journal.

LISTENING POST

(Continued from page one)

ground which was his in his formative years. Perhaps this was right, after all, for it was not supposed—in the picture—to be London. Yet a fellow named Martin Eden, but, in reading the book many years ago, I saw Jack London much better than I did in the picture.

SIXTH TERM HONOR ROLL IS ANNOUNCED

The Sixth Term Honor Roll for Carr Institute has been announced as follows.

FIRST GRADE—Joe Weaver Hill, Dawson Huddleston, Carolyn Hill, Allen, Jane Howell, Janell Sutherland, Mary Davis Weeks.

SECOND GRADE—Joe L. Wills, Patsy Merryman, Jo Ann Latta, Betty Hastings, Louise Hancock, Marion Daws, Donna Pat Bragg, Rosalyn Bennett.

THIRD GRADE—Betty Sue Johnson, Barbara Jean King, Shirley Ann Bone, Joan Odom, Katherine Johnson, Larry Finch, Billy Brown, Lester Merryman.

FOURTH GRADE—Jerry Dumas, Katherine Fortner, Janice Wheeler, Patsy Green, Betty Sue Williams, Carmen Pigue, Bell Whitesell, Sue Easley, Ann Fuzzell, Joyce Fields, Julia Ruth Herron, and Ann McDade.

FIFTH GRADE—Betty Boyd Bennett, Shirley Houston, Jimmy Hancock, Jodie James, Jane Odom, Carolyn Rudd, Norma Jane Willey, Charlotte Wiseman, Billy Wilson.

SIXTH GRADE—Joe Davis, Jr., Mac Nall, Marilee Beadles, Anna Frances Drewery, Virginia Lee Howell, Mildred Kasnow, Margaret Willey, Patricia Willey.

SEVENTH GRADE—Billy Murphy, Jack Browder, H. C. Sams, Bobby Grisham, Marilyn Lynch, Marlam

ON GUARD!

Along thousands of miles of coast lines, in lonely country areas and crowded cities, our men and guns are on guard to see that our land is defended against all foes.

At home it is our duty to conserve and protect the things we have. Insurance is one of the safeguards which provides this protection. Let us help plan your protection.

And in the meantime, all of us need to buy all the War Bonds we possibly can. In that way we who stay at home are providing the things for our men to use in battle.

Paper Stock Is Undergoing Many Changes

Paper for letterheads and envelopes is slowly undergoing many changes. Bond papers will be dingier, will lack the white crackling finish they have known for many years. Probably the price will be higher also.

We still have some stock on hand of the better finish. Better order some letterheads today.

CLUB YESTERDAY WITH MRS. J. HARVEY MADDOX

The Tuesday Luncheon club enjoyed a meeting yesterday with Mrs. J. Harvey Maddox hostess. One visitor, Mrs. George Doyle of Chicago, and seven members of the club met at the Coffee shop where they were served a delightful luncheon.

The group played games of contract at the home of Mrs. Maddox on Second street, following which Mrs. Harry Murphy was presented the high score prize.

Mrs. Leon Browder will entertain the club at its next meeting.

LADIES DAY AT CLUB YESTERDAY

Mrs. Buren Rogers and Mrs. Hoyt Moore won the honors at the Ladies Day at the Fulton Country Club yesterday morning. Mrs. Rogers was medalist with a 46 and Mrs. Moore had low putt, 15. Luncheon was served at noon in the club house to the following players: Mrs. Rogers, Mrs. Moore, Mrs. Joe Hall, Mrs. V. L. Freeman, Mrs. James R. Hogan, and Mrs. F. H. Riddle.

CATHERINE COOK AND GUEST HERE

Miss Catherine Cook, who has been in Washington, D. C. as an employee of the Treasury Bureau Public Debt Department, is spending this week with her parents, Mr. and Mrs. Charles L. Cook, Fairview, and has as her guest Miss Helen Fairley of Mississippi, also an employee in that department.

Miss Cook and her guest will leave Saturday for Chicago, Ill., where they will now be located, their departmental office having

been moved there.

MRS. MEACHAM ENTERTAINS CLUB

Yesterday afternoon Mrs. Clanton Meacham was hostess to her contract club at her home on West State Line, entertaining the two tables of players. Seven club members and one substitute, Mrs. M. C. Payne, were present.

Mrs. Payne was high scorer for the afternoon and was given the prize. Mrs. Meacham served light refreshments.

The club will have its next meeting in two weeks with Mrs. Martin Nall at her home on Third street.

FULTON COUNTY HOMEMAKERS EXHIBIT

To show some of the results of the Fulton County Homemakers Association's Major Project for the past year, the Homemakers clubs have planned an exhibit of chairs that have been repaired, padded and slipcovered for July 1 through July 4. The exhibits will be put in windows of offices and stores in Fulton and Hickman.

Windows to have these exhibits in Fulton will be Irby's Fashion Shop, Huddleston's Hardware and the National Store. In Hickman the windows of Dodson's, Hickman Hardware, REA office and Jackson Purchase Credit Association will display this work.

MRS. THOMPSON LEAVES JUNE 22

Mrs. Catherine Thompson who is Home Demonstration Agent for Fulton County, will leave on Monday, June 22, for Camp Bingham near Lawrence, Kentucky where she will attend the State Meeting of Home Demonstration Agents. She will return to her home on June 27.

MRS. JOHN WADE HOSTESS TO CLUB

Friday, June 19, Mrs. John Wade will be hostess to the meeting of the Palestine Homemakers club at her home near Fulton. The meeting will be held at two o'clock in the afternoon.

The major project will be a review of the year's work in Home Improvement and will be led by the regular leaders. The National Defense program will be given by Mrs. Morgan Davidson.

Officers for the year will also be elected at this meeting and all members are urged to be present.

BUNCO CLUB WITH MRS. A. MCGEE

Yesterday afternoon Mrs. McGee entertained her bunco club at her home on Second street with four visitors being present. They were Mrs. Tom Cursey, Mrs. Preston Kimbrow of Nashville, Mrs. Clifford Young of Detroit and Mrs. Bruce White.

At the end of several games the following prizes were presented: Mrs. J. G. Mullins, bunco, hose; Mrs. Marion Sharpe, high score, a bath towel; Mrs. Lennis Williams, second high, a slaw cutter; Mrs. A. McGee, booty, a sewing kit; Mrs. Clyde Omar, consolation, lingerie; and Mrs. Bruce White, traveling bunco, a juice extractor.

Mrs. McGee served light refreshments late in the afternoon. Mrs. Marion Sharpe will be hostess to the club next Thursday.

Mr. and Mrs. Buren Jones and their guests, Mr. and Mrs. A. Wand of St. Louis spent yesterday in Paducah.

Bond pledges with advance indications that poor and rich alike were ready to respond.

For as thousands of pledge solicitors jumped the gun by beginning their rounds yesterday, they found eager customers in the city's polyglot tenement districts as well as in penthouses.

Here's What's Happening

Their smiling reception augured success for the door-to-door canvass of 2,000,000 New York families expected to buy almost one-sixth of the national War Savings Bond and Stamp quota of \$12,000,000,000.

Keynote of the huge campaign was sounded by Mrs. Colin P. Kelly, widow of the American flier who gave his life to sink a Japanese battleship, Emil Schram, and Bill "Bojangles" Robinson, the dancing "Mayor of Harlem."

Near Quota Mark

"I know what's needed to bring this war to a close—but rapidly," Mrs. Kelly said at a ceremony in Prospect Park, Brooklyn. "We must bring more and more planes to the boys in the combat zones. We can do this by buying bonds."

In general, those of the volunteer army of men and women taking pledges reported the average family signing up to purchase Bonds and Stamps ran close to the "10 per cent of income" quota set by the Treasury Department.

180 GERMANS 'GIFTS' FROM U. S. TO REICH

New York.—The 9,000-ton Portuguese liner Nyassa was on the high seas today bound for Lisbon with 180 German nationals among its nearly 300 passengers.

Although the State Department did not include the Germans in its official exchange program, Government officials explained when the ship sailed Saturday night that the sailing was permitted because there were more Germans here than Americans in Germany and that holding all Germans in order to "bargain" with Reich authorities for the release of Americans was not necessary.

OIL MEN ASK PERMIT TO BUILD 22 BARGES

Houston, Texas.—Walter G. Dodd, Houston oil operator, and a group of associates have filed an application with the War Production Board for authority to build twenty-two steel barges, represent-

ing an investment of \$700,000, for the movement of crude oil and gas between Southeast Texas and Pittsburgh.

The barges, with a capacity of 10,000 barrels each, would operate between Corpus Christi and New Orleans and Pittsburgh on the intracoastal canal and the Mississippi and Ohio Rivers.

Gas Gas All Time

Tigers Hold Lead As Two Games Split With Oilers Yesterday

In what may have been the last appearance of the Tigers on the local diamond, a double-header was split yesterday with Owensboro, the Tigers taking the afternoon game 6 to 1 in the fastest game of the season, and dropping a tight under the lights 2 to 1, in a game played in one hour and thirty-five minutes. The afternoon game was played in one hour and eighteen minutes. Reports from Union City and Hopkinsville indicate that the Kitty will definitely cease operations after Thursday night's games. Union City is definitely quitting, and has so informed President Shelby Peace. The league president seems inclined to go along with Union City instead of trying to work out a four-club league, and so it seems that the Kitty will fold up after having operated since 1935—perhaps the longest span of life the league has ever had without a break.

Thomasson Winner

Tommy Thomasson was the winner over DeMasters in the afternoon game, the Paducah boy giving up six hits and being in full control at all times. He did not issue a base on balls and his hits were usually given with two men gone. An error paved the way for the only run scored by the Oilers

and it was the only blunder of the game. The Tigers pushed over two runs in the second, one in the third and added three with a big batting rally in the sixth. Pollock batted in half of the Tigers' runs and Mullen handled six chances at second in dazzling style.

Burgess Pitches Well

Julian Burgess turned in a pitching masterpiece in the night game, only to lose 2 to 1 when his mates were unable to hit with men in scoring position. Burgess gave up seven hits, and struck out six men, but in the third inning the Oilers managed to put three hits together for the two runs. Wilson poked a double to drive in these two runs, and this marked the end of their scoring.

Halstead gave the Tigers 9 hits, but when in trouble he seemed to be able to bear down effectively. Twice the Tigers had men on second and third with only one down, but the needed hit was not forthcoming. Burgess led off with a double in the seventh, but was forced at third two plays later and the threat died. In the eighth the Tigers reached second and third without an out and again failed to put over the needed runs. In all, the Tigers left eleven men on the bases. The Tigers played errorless

ball; in fact Faudem's error in the afternoon game was the only blot for the two games.

Manager Mullen was the only Tiger who seemed to like DeMaster's pitching. Mullen batted out a double and two singles and played a magnificent game at second. He handled eight chances perfectly, and two of them were almost certain hits when they started.

The Tigers are due to play six games away from home beginning in Owensboro tonight and winding up with three tilts in Bowling Green. That is, if any plan is worked out to keep the league going.

SENATE COMMITTEE IS REPORTED SPLIT OVER CCC ENDING

Majority Of Members Favor Continuing Agency

Washington, — A determined fight to abolish the Civilian Conservation Corps was reported today to have split the Senate Appropriations Committee into two equal strong camps, although a majority of members apparently favored continuance of another New Deal relief agency, the National Youth Administration.

Senator McKellar (D-Tenn.), led a move to scuttle both organizations as the committee sped consideration of several appropriations bills expected to occupy most of Congress' attention for the rest of the month.

McKellar told reporters he would fight to uphold House action striking out a \$75,818,000 appropriation for the CCC. The House voted a total of \$54,729,000 for the NYA, which McKellar also seeks to abolish on the ground that it no longer is needed.

On the other hand, the Tennessee senator said he favored continuation of the Works Progress Administration, allotted \$336,900,000 by the House in a separate bill, although possibly with a reduced appropriation.

Senator La Follette (Prog-Wis.), not a member of the group, served notice that he would take the fight to the Senate itself if the committee failed to approve appropriations for both organizations equal to the budget estimates.

In the same frame of mind, Senator Hill of Alabama, the Democratic whip, said he believed the Senate could be convinced that the CCC, first of the depression-born relief agencies, was carrying on essential war work.

'ALL FACILITIES' IN SUB WAR

Miami, Fla., — The Navy pushed ahead today with its plans for extended anti-submarine operations in the strategic gulf sea frontier, plans which Rear Admiral J. L. Kauffman says will incorporate all the latest improvements. Admiral Kauffman, in an indirect answer to critics who have claimed the Navy is not using all available facilities to combat the subs, asserted "we are using every ship and aircraft we can lay our hands on which is suitable for anti-submarine warfare."

Critics have said the Navy should make greater use of fishing boats and small, privately-owned planes. On this question, the admiral declared:

"Everything that floats or flies is not necessarily of value in fighting submarines. Many types of small craft would be more trouble than they are worth."

3 RULES TO HELP YOU GET Long Mileage FROM YOUR CLOTHES

1. Buy the best clothes you can. In the long run, you get more wear per dollar from good clothes than from cheaper ones.

2. Brush garments thoroughly after each wearing. Gentle brushing removes much surface dust that would otherwise work down into the fabric.

3. Send clothes regularly to O. K. LAUNDRY for Sanitone cleaning.

Our superior Sanitone method cleans fabrics clear through, removes soil, perspiration, and embedded dirt particles. This prolongs the life of the garment in addition to restoring its color and softness. Sanitone gives you "long mileage" from clothes.
