THE COST COMPUTED.

While all the talk is going the rounds about railroads in general and the road to Cadiz via Bryant's station in particular, nothing has been said of the actual cost of building the same. In 1885, when a proposition was submitted to the people of Hopkinsville to build this line, an estimate was made by Bryant's station, was made by Civil Engineer J. W. Robinson. His estimate was made after a careful survey of the route and may be relied upon as accurate. In grading the road the cost for the earthwork was computed at \$8,785.69; loose rock, \$2,062; solid rock, \$3,488; masonry work, \$4,000; masonry for culverts, \$993; timber crossings, \$228.80; iron for same, \$108; bridges, \$1,800; crossties, \$10,937.50; total, \$32,772.30. This cost is based on an estimate for twelve miles of road, but does not include the right of way nor the iron to lay the track. The amount usually allowed for the right of way is \$1,000 per mile; but any one who knows the feeling on this subject along the route will agree when it is said that the right of way for the whole distance would not cost over \$3,000. In addition to this may be added the sum of \$4,000 per mile for iron, which is a high price. The total amount, then, to place the road in running order would be \$38,772.30.

To continue the road to Cadiz, at the same estimate, would cost, from Bryant's, \$30,775, or a total of \$130,448 for the whole distance. This estimate includes everything save the rolling stock. From these figures the people may see just what it would cost to build the road themselves, and they can also calculate how much they would be willing to pay the L. & N. or any other company to build it for them. If our citizens are really in earnest and wish to build the line, the Hopkinsville & Cadiz Company have a charter they could operate under, and, for that matter there is another charter in existence which permits the building of a road in any direction through the county from investment. It would be a much better investment for the people of this magnificent district to build the road themselves, with a little assistance from Cadiz and Trigg county, than to pay the L. & N. a bonus to do it for them. If we own the road we can do as we like with it, while if the L. & N. owns it, we can't exactly do that.

After the road is in a condition to receive the iron, any steel rail company will take the bonds of the road for the necessary cash to lay the track and wait for their money. The \$100,000 voted to the O. V. would go a considerable distance towards putting the road in actual running order to Cadiz.

A publication having been made that Jim McKenzie and Auditor Hewitt were careless in the performance of their duties when examining the reports made by Treasurer Tate, as to the state's finances, they have made the following statement:

In view of the publication in the morning paper in regard to the settlements made by us with the Treasurer, January, 1888, wherein it is suggested that we took Mr. Tate's word as to the amounts in banks on the 4th of January, 1888, and that it was made in a loose and unbusinesslike manner and that we were therefore to make a false statement as to the condition of the treasury, we wish to say that the settlement was made with the same care and caution that we would have made a settlement involving a personal interest. The Treasurer's statements from each bank, signed by the cashiers as to the amount on deposit, bank books, the entries in which were in the handwriting of the bank officers. The amount of the outstanding checks against each bank was deducted from the deposits in that bank. The cash on hand in the vaults was carefully counted and a count made of the undeposited checks held by the Treasurer. These details are entered on the books of the Treasurer over our signatures and made a perfect balance with the books of the Auditor. It now appears that these statements and entries were in part forgeries, but they were executed so ingeniously that they deceived us.

FAYETTE HEWITT,
JAS. A. MCKENZIE.

It is the New Era's opinion that the time for holding the election to decide whether or not we will have a continuance of prohibition is entirely too far off. It would be much better for every body concerned were the question to be settled next June. Postponement means a long and damaging fight; it means trouble and worry; it means that friendships will be severed and animosities aroused; it means paralysis of business; it means time for the collection of materials for a bitter warfare. There is nothing so damaging to business prosperity as a long convass, and the hotter the convass the more damaging is its results. It means a great deal more than has already been said. The law will be violated ten times where it has been violated once; and the troubles and disturbances will be increased to an extent that will be ruinous. It is sincerely to be hoped that both prohibitionists and anti will unite in the demand for an immediate election, and let us get the vexed question out of the way.

The "I O U's" have been made public. The total amount evidenced as due is \$50,782.80, but only about one-third of this is collectible for the very good reason that a majority of the bills have been canceled long ago, but carelessly left in the treasury. In the list is found one against Jas. A. McKenzie for \$147.90.

Hopkinsville is reported so dead that the town clock, of its own volition, has quit striking the hours, but tolls a funeral knell throughout the entire day.—Clarksville Tobacco Leaf.

The Owensboro Inquirer is a hustler. Sixteen pages was the size of its Saturday issue—the largest and best paper ever gotten out in that city.

The Henderson Daily Gleaner has made its appearance and a bright and new sheet it is. The New Era wishes it abundant success.

THE WHEAT CROP.

Reports From Sixty Counties Showing the Present Condition.

The department of agriculture at Washington has received special reports, showing the condition of the wheat crop of Kentucky. The following is a careful summary of the report, which has been gathered at great effort and care: Lee, more favorable than expected; Scott, good condition; Shelby, backward; Spencer, backward; Allen, bad; Breckinridge, condition medium; Bullitt, good; Fulton, most did well; Lincoln, condition unfavorable; Logan, early sown, strong and healthy; Todd, fair; Adair, good; Metcalfe, unfavorable; Nelson, slow and backward; Perry, condition good; Union, poor growth; Anderson, backward; Boone, fair, condition good; Muhlenberg, poor and backward; Oldham, backward; Robert, good; Cumberland, growth good; Green, early sown, good; Hancock, small and backward; Henderson, backward; Jackson, growth small; Livingston, poor condition; Mason, backward growth; Owsley, growth slow; Estill, does not look well; Grayson, not in good condition; Henry, moderately favorable; Floyd, looks well; Garrard, healthy; Kenton, badly winter killed; Laurel, damaged by freezing twenty-five per cent.; Woodford, small growth; Calloway, better than expected; Lawrence, growing rapidly; Nicholas, condition unfavorable; Rockcastle, condition not flattering; Trimble, good condition; Bourbon, fair condition; Fleming, much killed by freezing; Hart, good; Butler, not favorable; McLean, fairly good; Taylor, condition bad; Jackson, not good; Clark, condition not favorable; Mercer, looking well; Monroe, favorable; Barren, sleet damaged plant badly; Bell, early sown is best; Owen, looks well; Pendleton, early sown good; Lewis, growth small; Webster, late and thin.

Reports from all over the county have been received at the New Era office relative to the outlook for this crop. Only a few fields were frozen out. With all the rest are in good condition. A little rain and warm weather the yield will be large. The acreage this year is greater than last, owing to the fact that many clover fields were killed by the drouth last summer. Taking 100 per cent. as a good crop, the average this year will be about 90. A good indication that the farmers consider the prospect flattering is that they want to see what they have on hand.

State Forestry Association.

A short time since, an informal meeting of the friends of forestry was held at the Polytechnic Society of Louisville, for the purpose of taking steps toward the organization of a Kentucky State Forestry Association. It was decided that a meeting for the formal organization should be held on Friday evening, May 4th, at 7:30 p. m. in the hall of the Polytechnic Society. At this meeting an address will be delivered upon the subject of forestry, by the Hon. B. E. Fernow, chief of forestry division, department of agriculture, and a number of gentlemen of this state will make remarks upon the subject. The subject of forestry is one which is attracting more and more interest in this country, from the fact, that though the timber supplies seem at present inexhaustible, yet at the present rate of destruction, the supply will in a very few years become completely exhausted. In our state, the mountain regions of our eastern counties are being so rapidly opened up, for forest are being as rapidly destroyed and protective measures are not soon taken, these magnificent timber resources will be wholly denuded of its trees. Further, our railroads are constantly demanding a large supply of timber for ties, which can be rapidly grown in most sections of our state, at a minimum of expense, and at no inconsiderable profit, land being used for the purpose, which is not available for other crops. These and other reasons, which will be brought out in the future, have rendered the organization of a forestry association in our state a great desideratum. Mr. Fernow is well known as one of the best informed men in the country on the subject of forestry, and his address will be full of interest and profit to the people of the state. It is hoped that there will be a large attendance at this address. Any queries or communications on the subject may be addressed to the committee through Judge A. M. Brown, Elizabethtown, or Dr. Jas. Lewis Howe, scientist to Polytechnic Society, Louisville.

Larkin Postoffice.

LARKIN P. O., April 23.—Tobacco plants are looking well. As nearly all the beds are canvassed this season, a much earlier setting is anticipated.

Capt. B. P. Armstrong and wife visited the family of Mr. Jas. Grissom, on last Saturday.

Amid the crash of worlds and wreck of matter comes the glad news that the acreage of the peanut crop will be much larger than last year. If the fruit crop weathers through and perennials are plentiful the country may be saved.

Uncle William Ferrell, a very old and respected citizen of this vicinity, is very low with heart disease and dropsy.

This neighborhood is noted for fine horses and mules, but the climax of their perfection has now been reached. Jesse Clark has the finest mule colt between the Madisonville and Princeton roads.

The farmers in his neighborhood are preparing to defend their crops against the ravages of his muleship by building their fences close to the ground.

Mr. Walter Owen has opened a wholesale grocery near here. The boys say he sells "Blue John" way down, and it goes straight to the spot and never misses fire.

The tobacco bugs are making great ravage on the beds which were left uncanceled. It is thought that they will totally destroy the plants left so unprotected.

The circle meeting to be held by the Baptists, at Crofton, on next Saturday and Sunday, will have in attendance a large delegation from this place.

Acumman's Purgative Pills are suggested and pleasant to take. For sale by H. B. Garner.

Bucklen's Arnica Salve. The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all SKIN Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by H. B. Garner.

Warning Against Small-pox.

BOWLING GREEN, Ky., April 24, 1888. To the Hon. the Officials and People of Kentucky: This board has received information since the beginning of the year of the existence of small-pox in eleven states of the Union, two of them adjoining Kentucky. The disease has prevailed extensively in portions of Great Britain during the past winter, and is now widespread and virulent in California and Cuba, and manifests an unusual tendency everywhere to break over official control and assume an epidemic form.

This board, therefore, feels it to be its duty to warn the people that decisive action should at once be taken to protect the state from this loathsome malediction. Fortunately the method of prevention is as certain in its action as it is cheap and easy to obtain. Vaccination and re-vaccination, properly done, with reliable virus, is a certain preventive, and is entirely free from danger. This is the conclusion of the scientific world, after full investigation and large experience, and may be thoroughly relied upon.

Notwithstanding that this safe, cheap and perfect protection is within the reach of all, it is estimated that nearly one-third of the people of this state have never availed themselves of it. Intelligent people should not wait for the law to force them to an evident duty. No one should allow himself, or any one for whom he is responsible, to remain unvaccinated at any time, and especially in the face of the present danger. Health and school boards, everywhere, should co-operate in requiring vaccination as a condition of admission to all schools, public and private, and the proprietors of manufacturing and railroad should make the same requirement of their employees. The operation should always be done by a competent physician, at three points in the same arm, and the person vaccinated should be seen by him from time to time that he may know that a perfect result has been secured. Imperfect vaccination can only give rise to a false and often fatal sense of security.

As a further precaution, the various health boards of the state, county and municipal, are requested to perfect their organizations, take every precaution to prevent the importation of the disease into the communities over which they have control, or, failing in this, be ready to stamp it out by strictly isolating the first case, and vaccinating and re-vaccinating every person endangered by it. The funerals of all persons dying of this disease should be strictly private. The same precaution should be observed in the management of scarlet fever, measles, diphtheria and other infectious diseases.

By the promptness and efficiency of our county boards in former years, the disease was easily stamped out. In other counties no such precautions were taken at the outset, and the disease was only checked after serious loss of life and great interference with business, from the panic incident to an epidemic of this disease, and an expenditure of money, which, if judiciously used in systematic vaccination beforehand, would have given perfect immunity to every citizen in the community. Here, as in many other things, a ounce of prevention is not only better but cheaper than a pound of cure.

In this, and all other matters pertaining to the public health, the state board holds itself in readiness to assist the local boards to the full extent of its powers; and all physicians of the state are requested to promptly notify their local boards of health of the first outbreak of this or any other communicable disease in their respective communities. By order of the board.

J. N. McCOMACK, M. D.,
Secretary State Board of Health.

Positively the best remedy ever discovered for all diseases of man, skin, blood, and all other ailments, which can be reached by an external application. One trial will convince. Manufactured only by Rungum Root Medicine Co., Nashville, Tenn. 50 cents per bottle. For sale by all druggists.

Kelley Persons.

KELLY, Ky., April 21.—Mr. Lucian Rogers was the guest of Roy Solomon, Saturday night.

Messrs. John and Dave Rogers, of the Consolidation neighborhood, were visiting friends near here Sunday.

Judge J. C. Brasher and daughter, Miss Hattie, who is a student of the Campbellville college, visited Mr. Solomon's family, Sunday.

Miss Mollie Armstrong visited her sister, Mrs. Lenore Lewis, last week. Mr. David Brasher visited his father's family at Hopkinsville last week.

Miss Fitis McCard, who has been visiting friends and relatives in Hopkinsville, has returned home.

Quite a number of young ladies and gentlemen met at Mr. James Pyle's, last Saturday night. The young ladies present were Misses Annie and Effie Boyd, Jennie Boyd, Alice Payne, Colie White, Dora and Ida Canale, Emma Burpee and Mrs. Minnie Pyle.

The new book for male voices called "Emerson's Male-Voice Gems," will please the average male quartet, glee and choros club, and supply a want that has been manifest for some time. The music is of a good grade, without being too difficult. Mr. Emerson has selected and arranged such pieces as his experience has suggested as being especially suited to the wants and abilities of male-quartets and clubs who are desirous of improving the taste while enjoying good music. The book is quite large, octavo size, containing 176 pages, and is filled with good things, selected and original. Send for a descriptive circular giving full particulars concerning this and other books. Send also for the large descriptive catalogue issued by the publishers of this book. The catalogue costs you nothing. The price of the book "Emerson's Male-Voice Gems" is \$1.00. It will be sent by mail, post-paid, to any address, at this price, by O. Dison & Co., Boston, Mass.

Bucklen's Arnica Salve. The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all SKIN Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by H. B. Garner.

For the New Era.

When woodlands wake from their long sleep,
And warmer breezes softly blow;
And spring has prompted trees to keep,
With laughing eyes and face aglow!
Comes sweetly down the happy hills
In flowing robes of dainty green,
And with magic presence fills
The world with beauty, bright, serene.

Along the marge of shaded streams
She scatters bluebells, fragile, sweet,
And nurtures them with sunny gleams.
Until their fragrant bells are hung
On stems in tender grace inclined,
And all the day are gently swung
By unseen elf of the wind.

HENDERSON, KY.

A REFLECTION.

I saw a tiny bluebell
Fresh opening to the sun,
And marked the gentle fragrance
Of beauty's life begun:
I noted it at noonday
The sun's fierce dearest ray
Its petals were dew-drops
Teaching us to decay
Thought I, does beauty ever
Thus blossom but to die?
When passion has kindled her lips
And Love has left them dry?
THE NEW ERA POET.

AROUND TOWN.

Mrs. Elizabeth Lander, wife of R. B. Lander, of Paducah, died recently. Mrs. Lander was noted for her many noble qualities and christian virtues. She had relatives in this city.

Owensboro voted on the 25th inst., on a proposition to subscribe \$75,000 to the Falls of Rough railroad. The name ought to defeat it but the New Era hopes it will pull through.

Mr. A. S. Gentry, formerly a citizen of Hopkinsville, will in a few weeks begin the publication of a weekly paper at Paducah. Pembroke is a thriving little village and we see no reason why Mr. Gentry should not make a success of the "Criterion."

Mr. Ed. Moss and Miss Amanda Burba will be united in marriage at 2 o'clock this afternoon at the residence of the bride on Elm street. Miss Burba is an attractive and worthy young lady. The groom is a highly respected and prominent farmer of south Christian. Each is to be congratulated.

It is given out that the Louisville & Nashville road will charge but one fare for the round trip to the Nashville races, commencing April 28th, and closing May 5th. This will be a good opportunity for those interested in sport to attend as this will probably be the most successful meeting ever held in Nashville. Over 500 horses are now at the track, and among them many that are noted.

About every other man in Henderson has been pulling for the delegateship from this district to the St. Louis convention. What there is about the place that so attracts the Henderson people, unless 'tis a similarity of "pizen" St. Louis, is not known. Recently the number of selecting one of the candidates from among the list met and chose Mr. Robert Vance. But Givens, of the Greater, very gracefully announces that he is now off the track and will support Mr. Vance.

There is a movement on foot in Clarksville to erect a monument to the memory of the unknown Confederate dead buried in the cemetery at that city. Owing to the generosity of one whose name will never be forgotten so long as the tall shaft rears its head towards the clouds, the resting place of our "heroic dead" has been marked by a beautiful tribute. A tribute like this does honor to a people, and Clarksville should show to the world that those who died for principle's sake upon the field of battle and who now rest beneath the sod at her gates are not forgotten but remembered and honored even in death.

The engineering corps now in the field making surveys for the new "Clarksville & Dixon" road were heard from Tuesday, say a special from Clarksville, and report the completion of two routes, and that the third, or ridge route, has been commenced. The nearest line to Cumberland Furnace passes within three miles; the next nearest is something over six miles; it is thought now that the ridge route will be the one selected for the road to follow. It is also stated on good authority that a branch road will be constructed to Cumberland Furnace. It is a positive certainty now that the Clarksville & Dixon road will be pushed at once.

The Owensboro Inquirer tells this tale: "A prominent physician, who has successfully been treating the cases of scurvy now prevalent, was asked as to the preventive used by him. Said he: 'I administer whisky to many of my patients.' Upon the strength of this assertion quite a number who feared the fatal disease imbibed quite freely Saturday night, and yesterday accented the doctor and asked if he thought a further use of the preventive necessary. The good physician was of course shocked, and explained that he had been misunderstood." This certainly must account for some things noticeable in this city. Erysipelas is a bad thing, and many people here have been in great fear of it for some time.

Home testimonials are most reliable, and if you will send your name and address we will send statements of numbers of the best citizens of Nashville regarding the wonderful cures effected by the Ethiopian Pile Ointment. It never fails. 50 cents and \$1 per bottle. Manufactured by Rungum Root Medicine Co., Nashville, Tenn. For sale by all druggists.

It was in a southern state after the polls had closed on election day that a bowie-knife met a revolver in a secluded place and asked: "What are you doing here?" "I am merely taking a quiet smoke after the excitement of the election," was the reply. "You appear very calm to have been excited recently," said the bowie-knife. "Yes," said the revolver, "but the man I quarreled with is even calmer than I."

Malaria steals fire from the mind and vigor from the limbs unless you take Acumman's Purgative Pills. They give blood and cheerfulness. Cures and drives malaria from the system when all other remedies fail. For sale by H. B. Garner.

W. C. T. U. DEPARTMENT.
[The matter for this department is furnished by the members of the Woman's Christian Temperance Union, who are responsible for what appears.]

"Rejoice not against me, O mine enemies! When I fall, I shall arise; when I sit in darkness, the Lord shall be a light unto me.—Micah 7: 8.

"Yet when our duty's task is wrought in union with God's great thought, The near and future bleed in one, And whoso'er is willed is done!"

We have need of patience. The seed-sowing can not be in vain, if it be done properly. Work done in prayer and for Jesus sake is not wasted. The fruit may not come as we expect it, but some day, in God's own harvest-time, it will appear and abound, amidst the rejoicings of those who gather it.

Louisville Courier-Journal: Traffic in intoxicating drinks is a business which is opposed to every citizen in the country; which every merchant and business man hates and detests; which is the standing dread of every mother; which makes 90 per cent of the pauperism for which the taxpayer has to pay; which makes 90 per cent of the business of the criminal courts; which keeps employed an army of policemen in the cities; which puts out the fires on the hearth and condemns wives and children to hunger, cold and rage; which fosters vice for profit and educates in wickedness for gain. Drunkenness comprises all other vices. It is the dictionary for vice, for it includes every vice. Drunkenness means pecculation, theft, robbery, arson, forgery, murder, for it leads to all these crimes.

Statistics show that insanity due to alcohol has increased in Paris from 302 cases in 1872 to 548 cases in 1883. In fourteen years 5,063 out of 18,000 insane became so from the use of alcohol.

Commercial Gazette: The saloon in politics is an unmixing evil, and it lacks through its representatives the discretion of intelligence. The arrogance of its power is never abated; and its offensiveness provokes alike saint and sinner.
