ONE OF OLDEST, BEST KNOWN IN NATION

The 66th annual meeting of the Blood River Association, an organization of 35 Missionary Baptist Churches in Western Kentucky and Western Tennessee, will open next Wednesday, October 23, at the West Fork Baptist Church, west of Murray.

At least 2,000 members of the Missionary Baptist church and visitors are expected at this year's meeting.

The Rev. J. E. Skinner, pastor of the First Baptist Church, will be moderator for this meeting and will finish his second year, which is the limit prescribed. The annual sermon will be delivered by the Rev. L. V. Henson, Benton, clerk of the association for the past several years.

The meeting will continue through Thursday and a number of pulpits in the surrounding section will be filled by the attending ministers Wednesday evening. Dinner is served at the church each day.

A number of committees serve each year and render their annual reports at the association's meeting. Of particular interest is the treasurer's report since the association contributes liberally to foreign missions.

He successfully filled this responsible position until the fall of 1930 when he resigned against the protest of the board of trustees on account of the stringent financial situation of the country at that time. He then engaged in evangelical work until the first of October, 1931, when he was elected pastor of the First Baptist church, Murray.

Rev. Skinner, who is 67 years of age, said that he did not look forward to complete retirement but would enable him to resume his service to the church. This is the fourth time in his life that he has been required to take a long rest to recuperate his strength. He and Mrs. Skinner will return to Jackson to make their home, he owning a residence there.

2,000 Hear Chandler State Platform Opening His Drive in First District

Democratic Nominee For End of Sales Tax by 1936 Assembly

Repeal of the 3c gross sales tax without waiting for its automatic expiration on July 1, 1936, reduction of the state tax on real estate to one-cent per \$100 valuation and full support of Murray State College with a \$12 per capita for four years for the common schools were pledged more than 2,000 voters of Calloway county here last Thursday night by the Democratic nominee for Governor, Hon. A. B. "Happy" Chandler. Mr. Chandler's remarks drew frequent applause.

Mr. Chandler's 40-minute address, in which he vigorously stated his platform, was enthusiastically received by the big audience which crammed the big tobacco barn on South Fifth street. Just before Mr. Chandler began his address, a tier of seats on the east side of the platform collapsed, dropping more than 200 persons to the floor. Minor injuries to ankles, toes and heels were received by Mr. and Mrs. Waylon Rayburn, Gus Robertson, Joe

Weeks, Jr., Boss Story, Wells Overby, Grogan Roberts and a few others. Just a few seconds before the collapse a small boy plucked his hat from under the stand. E. C. K. Robertson, chairman of the Democratic campaign committee, presided over the meeting.

ing and presented Joe T. Lovett, who introduced Mr. Chandler as the next Governor of Kentucky after assuring him that Calloway county was militantly behind the Democratic ticket and would give it a big majority.

Points Clearly Made

Covering his ground with rapidity and a lucidity that made it easily understandable to all his hearers Mr. Chandler easily won his audience with his personality. Before launching into his address he presented his father, Joseph S. Chandler, who had driven down from Corydon to hear his son, two former school teachers, Miss Mary Virginia Coleman, daughter of Attorney and Mrs. James H. Coleman, Murray, and Mrs. Paul Raymond, daughter of Judge A. S. Brooks. Mrs. Chandler was presented to the audience and won a hearty welcome.

Mr. Chandler said that the election of Swope meant a return to Hooverism and pointed out the improvement in conditions since Franklin D. Roosevelt became our President. He declared the income of Kentucky farmers has risen from \$73,000,000 in 1932 to \$113,000,000 in 1935. Chandler scored "His Majesty, King" for bidding

Promises to Free the Toll Bridges, Speaking to Good Crowd Here

Republicans of Calloway county turned out in force here Tuesday afternoon to hear their nominee for governor, Judge King Swope, Lexington, bring his cause to the voters' attention and warmly applauded his attack on the Democratic forces.

Judge Swope was introduced by J. M. Cole, former postmaster and a Republican leader here of many years. The Republican nominee was quite hoarse from many addresses, having spoken at Benton and Hardin before coming here. He went to Mayfield at the conclusion of his Murray speech and addressed a crowd at Hook's Park, Paducah, that evening, making four addresses for the day.

The court room was filled and it was estimated that as many more persons heard Judge Swope on the outside, his voice being broadcast to them through a loud speaker.

Judge Swope promised to free the toll bridges if elected.

"I don't know just how it can be done," Judge Swope said, "but I'll find a way to free them."

At the same time, Judge Swope committed himself to a policy of free bridge construction, if elected.

"I take the position a bridge is as much a part of the road as the highway itself," Judge Swope declared. "If I am elected, I will build roads right on across the streams and let the people ride free."

Claims Tolls Too High

"Now, these tolls down here are too high," he continued, "and I'm in favor of reducing them. It's 50

Alcohol, Narcotic Says Dr. Oxnam

"When is a man drunk?" is a statement by Dr. G. Bromley Oxnam, president of DePaul University, in the Indianapolis Star recently. Police and judges, alarmed by the rising tide of automobile accidents, and aware of the influence of liquor in this matter, faces the question daily.

Albion Roy King, in his study entitled "The Psychology of Drunkenness" says it is not a proper question "Is not 'When is he drunk?' but 'How Drunk is he?'"

Alcohol is a narcotic, not a stimulant, and the narcosis begins the moment an atom of alcohol reaches the gray matter. Hence, drunkenness is a matter of degree.

Whenever anything attacks the brain structures, whether a drug or a disease germ, it begins by striking first at those mental processes which are latest to be acquired in the history of mental growth. In man, the latest development is termed "intelligence" and includes all the higher coordinations which arise from the reflective powers of the human mind.

Now, alcohol strikes this development first and the effect is a degrading of the capacity for "intelligence." In the first stage of drunkenness, before the known facts reveal the state, a man takes chances. It is this first state that is the root of automobile accidents.

In the second state, when alcohol disturbs motor and sensory control, the victim sees double, stutters, staggers and does not risk driving. In the third state, stupor ensues with resultant complete anesthesia of instinct and emotional impulses.

Chandler and The Schools

Those trying to prevent the election of Lieutenant Governor Chandler as governor are starting the whisper: "The schools will close if Chandler is elected."

Nothing could be more preposterous, yet some who have the welfare of education at heart are taking up the lie and passing it on.

Chandler, in his opening campaign address said: "As Lieutenant Governor and presiding officer of the Kentucky Senate, I advocated passage of the School Code, and favor its continuance. The Republican nominee never publicly declared himself in favor of the \$12 per capita school fund until long after I had advocated it in my speeches."

Chandler, then, instead of being a peril to the schools, was the first of the candidates to publicly pledge continuance of the \$12 per capita school fund until long after I had advocated it in my speeches.

Also important to the voters who have the interest of Kentucky schools at heart, is the fact that Harry W. Peters, superintendent of the Marshall county schools, is on the Democratic ticket with Chandler as candidate for superintendent of public instruction.

Mr. Peters was a member of the Kentucky Education Commission which conducted the survey preliminary to preparation of the School Code passed by the 1934 Legislature, a code recognized as a model among state school statutes.

Mr. Peters is so well thought of among Kentucky educators themselves that he had their almost universal support in the primary

election. Chandler has declared himself openly and definitely on the school question. He is for a per capita contribution of at least \$12 from the state for school purposes. He has pledged his support to the educators who are trying to improve the state's educational status.

This pledge is as worthy of public acceptance as the other pledges Mr. Chandler has made.

And Mr. Chandler's reputation for keeping pledges has been established. He fought losing battles against the sales tax. He fought for the primary against the combined forces of the Billington gang which opposed it, and finally won. But, win or lose, he has always stuck to his principles.

Chandler's promise to give the schools adequate support and to keep them out of politics is worthy of the trust of every friend of Kentucky education.

The Testimonial To Tom Rhea

(KENTUCKY IRISH AMERICAN)

Possibly the most unique semi-political gathering ever held in Kentucky or in any other state for that matter, was held Monday evening at the Seelbach Hotel, when a testimonial banquet was given in honor of Thomas S. Rhea, defeated primary gubernatorial candidate. A defeated candidate is treated usually like a loser in any other sphere. The Chicago Cubs found no obstacles in making their way to the club house after losing the series. Max Baer hardly had enough help to assist him off with his gloves after losing to Joe Louis. Losing owners of Kentucky Derby entrants find themselves and their horses with possibly a stable hand for company. After

the sad election returns come in a defeated candidate has plenty of time to himself and the only visitors are some who want to collect for their services.

That is the usual aftermath but the Rhea testimonial smashed these precedents. There were 1,307 guests paying \$1.50 per plate at the Seelbach Monday night to pay tribute to Mr. Rhea and between 400 or 500 came in after the dinner to hear the talks. Every fellow highway commissioner of Mr. Rhea's was on the program for short talks, in addition to other prominent citizens and those talks contained real testimonials to Mr. Rhea's ability as an official and executive and tributes as to his worth as a Democrat and neighbor. Lucien Drury of Morgantown furnished the essence of the likeable qualities of Mr. Rhea when he told how on August 2 he was present in Mr. Rhea's home town and saw Logan County residents furnish a monster demonstration for their leading citizen, Ernest Fulton.

Barstow, toastmaster, led in telling of Mr. Rhea's worth as a Democrat and Edward Galtiff of Williamsburg told of his district's loyal support for the Russellville gentleman.

Rhea's Tribute

Fifteen hundred friends and admirers of Thos. S. Rhea from every section of Kentucky gathered at the Seelbach Hotel in Louisville Monday night to pay him the most unusual tribute known in the state's history. Such a man, such a leader, such a citizen, although defeated in a run-off primary, isn't down or out. His vote of 233,000 is proof of his strength; and the testimonial of Monday night was conclusive demonstration that Thos. S. Rhea, as long as he lives, will be potent and powerful figure in Kentucky politics. And before the moon changes many times, he'll make somebody sweat—Glasgow Times.

JUST JOTS By Joe

No Political Cartoons

The most cruel, unfair weapon in the world is the political cartoon. It has no appeal but to prejudice and no justification but bitterness. Rarely does it stop short of libel and frequently ravishes both truth and facts. The great trouble with government in this country is that political campaigns only too often appeal to passion, prejudice and enmity rather than to a sense of fairness, justice and equality. For

that reason, The Ledger & Times will not print any political cartoons on any subject, wet or dry, pro or con, Republican or Democratic. Liberal or Conservative, either in the news or advertising columns.

The pin-ball machine has a better point for the owner than the player.

The Elizabethtown News smiles "as dumb as the fellow that thought WCTU was a broadcasting station". Is there any organization of the good ladies that isn't?

A Chicago professor says the world is without beginning or end and "Happy" says it almost seems that way about running for Governor.

Money is the root of all evil and we spend most of our time trying to dig up the root.

The local option election's legality is sorter confused like the negro's definition of an alibi. In other words you can't vote a wet country dry because the 1918 law says it's already dry and the 1934 law says a dry county is wet if you happen to feel sick or religiously inclined and need a little "wine for thy stomach's sake" or desire to take the "sacrament."

Owner of the Detroit Tigers, planning to spend a half million to improve his ball yard evidently hasn't read about the failure of the Dean boys' 1935 barn-storming trip.

Another mysterious political move is why the Democrats are trying to keep Hoover from getting the 1936 nomination.

Little Boy Blue, come blow your horn.

Your car's at the cross roads. Your brake lining's worn. But Little Boy Blue made nary a peep—
Now he's under the tomb stone, fast asleep.

Confetti is said to mean confection. Then Irish confetti is just a little token of the sweetness of the Irish temper.

Another happy faculty Mr. Chandler has is being able to cover a remarkable amount of ground in a minimum of time. It would have taken Alben Barkley two hours to say what Chandler said in 40 minutes here last Thursday night.

Senator McKellar, who speaks here Saturday, is reputed the best go-getter in Congress. Wish he would take a hell-bent notion to have Aurora Dam built.

The Ledger & Times will take no part in abusing King Swope, the Republican candidate for Governor. So far as we know Mr. Swope is a clean young man and we see no point in attacking a man so long as he looks and acts the part of a gentleman.

A Tribute

The pastor and elders and deacons of the First Christian church pay the following tribute to Oscar H. Holland, who died Oct. 12, 1935:

In the departure of Bro. Oscar H. Holland his home and community and church have sustained a great loss. He was a truly a Christian home. He was a devoted husband; tender and faithful; and true to his companion through the years they were privileged to walk together and through the intervening years since her departure twenty years ago. He was a devoted, provident and faithful father. He was vitally concerned about the proper rearing of his children and always deeply interested in their welfare and happiness. His faithful instruction, noble Christian life and influence and unswerving love and loyalty have borne fruit in the lives of the noble sons and lovely daughter he had such a large part and responsibility in rearing. His love for and ministry to his mother was beautiful and tender.

Oscar Holland was a good citizen. He was interested in the welfare and progress of his city and county and state and nation. In his quiet, unassuming way, he sought to discharge his duty and obligations as a worthy citizen.

He was a true friend. To know him was to highly esteem him for his sterling qualities and Christian character and for his loyal friendship. The better we knew him the more we valued his friendship.

He was a good man, and full of the Holy Spirit and of faith. Acts 11:24. He was a diligent student of the Bible. He earnestly sought to know the Will and the Word of God and to put the teachings of the Bible into practice. For many years he was a faithful deacon of the First Christian church and was regular in attendance at Board meetings and at Sunday school and all church services. He was deeply interested and active in the life and work and worship of the church. He was an exemplary Christian and the memory of his life and service will be an inspiration and a challenge to the officers and members of the church through the years.

We express to his sons and daughter and mother and other relatives our deepest sympathy and Christian love in this hour of their

loss and bereavement. We pray the Father's tenderest comfort and richest blessings upon them and commend them to His love and care.

The Lord bless thee, and keep thee; the Lord make His face to shine upon thee, and be gracious unto thee; the Lord lift up His countenance upon thee, and give thee peace.

For safety, comfort and economy buy the best coals free from slag, dust and foreign substances which burn out grates, stop up flues and heating systems and endanger your home.

We handle only the best grades of West Kentucky and East Tennessee Coals—high in fuel value. Every lump burns, leaving only a small amount of ashes. It gives an even burning fire high in heat units.

If you have been a user of "just any coal," try one load of our best coals and you will see that they are much more satisfactory and more economical.

Swope Promises to Free Toll Bridges

(Continued from Page One)

cents here and 85 cents there. You can tell the number of times a man rides over these bridges by counting the patches on his clothes."

Ben Johnson, former chairman of the State Highway Commission, "spent more money filling up a hole between two sections of the town of Bardonia than it would take to build a free bridge across one of your streams," Judge Swope asserted.

Judge Swope charged "that a bunch of political pirates and high-binders" is doing the thinking for Lieut. Gov. Albert B. Chandler, his opponent. He attacked a cartoon in the Monday morning issue of the Courier-Journal, showing Mr. Chandler standing with a foot on the neck of the prostrate bi-partisan combine, contrasted with Judge Swope marking down promises on a blackboard. He attacked the political record of J. C. W. Beckham and others, and charged Mr. Chandler with inability to compose or deliver a speech by himself.

The gubernatorial candidate struck at what he described as a polar alignment of the Democratic state ticket: "Mr. Chandler has stated he will turn over one important branch of the state government to J. C. W. Beckham, and we all know Ben Johnson will get the highway department. Beckham and Johnson are the North and South poles of Kentucky Democracy. There they'll be, Chandler in the middle, Beckham at one end, Johnson at the other and strung in between such men of less notoriety as Percy Haly and Dan Talbot."

There is J. C. W. Beckham. I call the Courier-Journal task that if, between 1901 and 1906, they claimed Beckham had as corrupt

an administration as ever disgraced Kentucky; that conditions got so bad a mass meeting was called in Louisville, with Judge Alex Humphrey presiding. That meeting was addressed by Dr. E. L. Powell, the distinguished Christian minister, and others of like standing, and Beckham was denounced.

"I defy the Courier-Journal to deny it charged Beckham and Percy Haly with building up a corrupt political organization. When the Courier-Journal was managed by brains and principle it denounced Percy Haly as a corrupt influence. But I understand that Percy Haly is on the payroll down there, and dictates practically everything the paper says."

"Beckham was Governor in 1906 and wanted to run for the Senate in 1907. I defy them to deny that Beckham called a primary two years before he was to run for the Senate; that in one precinct, where 118 lived, he got a majority of 219 votes. I charge they ran out of human names in that precinct and voted A. Apple, P. Peach, and so on. I defy them to deny that he got a majority of 1,900 votes in Johnson county when only 1,700 votes were polled."

Rage Ben Johnson.
"Now, take Ben Johnson, No. 2. You Democrats know he bolted your ticket in 1927. I don't blame him so much for not supporting Beckham, but I claim every other Kentucky Democrat has the same privilege as Ben Johnson to bolt. "Billy Klair, he's No. 3 in the bi-partisan combine. I defy challenge, and invite The Courier-Journal to say they haven't denounced Billy Klair, time after time. Why, in 1928 they tried to read him out of the Democratic party because he bolted the ticket in 1927. I don't blame him, for bolting. You have the same right. You ought not to have to vote for anybody as rotten as Beckham and

that crowd.

"No. 4 on the list is Dan Talbot, everybody knows he didn't support the Democratic ticket in 1927."

"There's your bi-partisan crowd; there's the giant little Happy is supposed to have killed. Do you think Happy would slay Beckham, slay Haly, or slay Klair and Talbot?"

Discusses His Promises.
"So much for the top of the picture, now take the bottom half, showing me writing promises. All right. I have promised to practice economy. I've got proof that my circuit court is outstanding in Kentucky for economy. I've promised to apply those same habits and practices to your State government."

"My friends, don't you know if they'd found anything against me they'd be using it instead of saying 'I would be king of Kentucky just because my first name is King'."

"Let's look at Chandler and his promises. He promises you economy, too, but I dare him to deny he presided over the Senate of the most expensive Legislature in the history of Kentucky."

"He promised to take the Fish and Game Commission out of politics, but I dare him to deny he signed the bill putting it in politics."

"He promises to take the charitable and penal institutions out of politics, but I dare him to deny he signed the bill putting them in politics."

"He promised to take the Highway Department out of politics, but I dare him to deny that, as a Senator, he voted to put them in politics, and helped install Ben Johnson and eight other partisans on the commission."

"He promised to expand the free textbook program, but I dare him to deny he tried to adjourn the Senate that night before the free textbooks appropriation was passed," Judge Swope declared.

The candidate declared it has been said of him that he is hard-boiled.

"Maybe I am hard-boiled," he said, "and maybe it's a good thing to have a hard-boiled Governor once in a while, especially where graft is concerned."

LAST NOTICE TO TAXPAYERS!

You are still entitled to a 2 per cent discount on your taxes, but remember October 31 is absolutely the last day for this saving. Pay now and avoid the rush.

A WORD ABOUT THE DOGS

The state field man has just left this office. He says we must tag all dogs or there is trouble ahead for us all. For the last six months I have been begging you to buy your tags. A great majority have bought. If it is right for one to buy it is right for all. About 80 per cent of this money collected goes to pay off claims that are caused by dogs. During the last two years the damage has been great, but most of the claims have been paid. Your claim may be next.

This office has put in lots of time trying to improve conditions in this county without pay. I do not want anyone in this county to get in trouble over their dogs. Neither do I believe you want to get me in trouble.

The risk is too great for one dollar. Now to you who have not bought I am insisting that you do so before November court, so we can all be in the clear. If you are too busy to come to town, send by mail or by your neighbor.

This law applies to the city the same as to the county. I cannot wait any longer. Respectfully,

CARL B. KINGINS

him by the pastor, elders and deacons, published elsewhere in this edition, in no measure exaggerates Mr. Holland's worth and character.

CHANDLER GAINS 2,000'S APPROVAL

(Continued from Page One)

for the support of sales tax Democrats by promising to appoint bipartisan commissions. He declared he had been making 3 to 6 speeches a day, all on his feet, while King had to take a straight chair at Somerset on account of fatigue. "I'll have him in a rocking chair before this thing is over," Chandler asserted.

Wanted One Primary, Needed Two
The Democratic nominee promised that he would be the Governor of all the people and that he was "mad as nobody" who failed to support him in the two primaries. He facetiously remarked that he didn't want but one primary while the other crowd wanted two and that they didn't need but one and he needed two. Making an indirect mention of a rumored bolt, Mr. Chandler said:

the history of Kentucky was that when a Republican Governor was elected there was always a stalemate between him and a Democratic legislature with the result that nothing was accomplished, costs raised and the state debt increased. He reminded his audience that Governor Beckham left the Capitol without a penny of indebtedness and a million dollars in the state treasury, while the practice of issuing interest-bearing warrants was begun in the administration of Governor Wilson, a Republican, who succeeded him.

Chandler was positive, he said, that while voters might bolt for a principle they would not abandon their party's ticket merely for the sake of patronage and that a bolt of that character would not win popular approval.

Pledges \$12 Per Capita
The nominee said the most important functions of the state were safeguarding health, maintaining schools and caring for charities. He pledged support of a \$12 per capita for common schools for the entire four years of his administration.

tion. Paying tribute to the ability of the state government, he added that James H. Richmond, new president of Murray State College, Chandler pledged adequate support of the institution.

That the sales tax will not continue to live out its natural term, July 1, 1936, was promised, when the nominee declared unequivocally that he would ask the legislature to repeal the law. At the same time, he answered the criticism that he could have included sales tax repeal in his call for the special session which enacted the compulsory primary law last spring. An emergency must be declared and sustained by the courts, if necessary, in calling a special session and it is doubtful whether the courts would have sustained the emergency plea of a special session to repeal the sales tax and had the special session declared unwarranted, not only sales tax repeal but also the compulsory primary would have been lost. The law making primary or convention optional was enacted by the Republican legislature.

Reorganization Promised
Mr. Chandler said he would reorganizing the state government on the basis of recommendations of the Efficiency Commission of 1922 and the Griffenhagen report of recent date. Senator T. O. Turner, Murray, was a member of the Efficiency Commission. He asserted that he would stop the assessment of state employees to finance political campaigns and that when his term of Governor was over he would not endeavor to influence the people's choice of his successor. "And, I'll appoint people to office that I won't have to watch," he said.

Reorganization of the state government will be my first objective. Mr. Chandler asserted, "I'll see that the state lives within its income." He pledged that if additional taxes were necessary, he would call in the leaders of labor and industry and consult with them as to the best ways of raising needed revenue. "I favor a sensible budget and the reduction of the state tax on real estate to 1c on the \$100," Mr. Chandler indicated that the reduction would eliminate the state tax commission. Fair treatment of Western Kentucky in road building was also promised by the nominee and he said that a Western Kentuckian sincerely interested in roads would be appointed to the highway commission. An important part of his platform is taking over the county roads for maintenance by the state.

Mr. Chandler said he wanted a Democratic legislature and that the people need not be afraid that it would be controlled. He said that if he lost, it would be with his self-respect but that he didn't believe the people of Kentucky could afford to let him lose.

Wants Permanent Primary
"I want to leave a permanent primary law on the books of the state and a record that will speak for itself," Mr. Chandler earnestly declared. "No bragging is necessary when you leave a good record," he maintained.

"I don't propose to promise, buy or bluff anybody," Mr. Chandler said. "I propose to treat every one right and to go out of office with the respect of all respectable

people. There's no citizen I want to punish." Mr. Chandler concluded with a statement of expectancy that Cal-loway county would give him a

large majority. After the speaking, he shook hands with hundreds of admirers and well-wishers in the ante-room to the building. Mr. and Mrs. Chandler were the houseguests of Postmaster and Mrs. H. T. Waldrop for the evening and he spoke to the students of Murray State College in chapel Friday morning. He continued his tour through the counties of Jackson Purchase after leaving Murray, his address here being the first in the Gibraltar section of the state.

From 1900 up to 1934 the leaf tobacco used for cigarettes increased from 13,084,037 lbs. to 326,093,357 lbs.; an increase of 2392%

It takes mild ripe tobacco to make a good cigarette.

During the year ending June 30, 1900, the Government collected from cigarette taxes \$3,969,191

For the year ending June 30, 1934, the same taxes were \$350,299,442 an increase of 8725% — a lot of money.

Cigarettes give a lot of pleasure to a lot of people.

More cigarettes are smoked today because more people know about them—they are better advertised. But the main reason for the increase is that they are made better—made of better tobaccos; then again the tobaccos are blended—a blend of Domestic and Turkish tobaccos.

Chesterfield is made of mild, ripe tobaccos. Everything that science knows about is used in making it a milder and better-tasting cigarette.

We believe you will enjoy them.

17 Seek Master's Degrees at College

Classwork for M. A. degrees started Monday, September 30, at Murray State with 17 students en-rolled. Dr. Francis Ross Hicks, in-structor in education, was em-ployed in addition to the regular college force as a direct result of the graduate work.

Four new graduate courses in education and a number of other courses of graduate level have been incorporated into the curricu-lum of Murray State College so that majors may be now received in education, and minors in other departments of academic training.

Entrance requirements for grad-u-ate students are very definite. Graduation from an accredited four year college with background in education sufficient to meet cer-tification requirements is essential. The graduate student must enroll for at least six hours of the sub-ject in which he majored or min-ored while working off his bache-lor's degree. These requirements are in accordance with the re-quirements of the University of Kentucky and other colleges in Kentucky which offer graduate work.

The following are those who have enrolled for graduate work: A. S. Hendon, Almo, who has a degree from Bowling Green Busi-ness University, Tillman Taylor, New Concord, a Murray State Col-lege graduate; Mrs. Reba B. Mil-ler, Murray, Murray State College; Fred T. Hinkle, Murray, Bowling Green Business University; Mrs. Eva E. Hinkle, Murray, Western Kentucky State Teachers College at Bowling Green; Mozelle Rhodes, Wingo, who has a bachelor's deg-ree pending from Murray State Col-lege; Vernon Smith, Murray, a Murray graduate; Mildred Beale, Murray, Murray graduate.

Guthrie Churchill, Murray; Oury M. Lassiter, New Concord; Modest Clark Lynn Grove; Mrs. Kaska Lee Jones, Hazel, Homer Lassiter, Almo; Burton Jeffrey, Murray; Mrs. Francis MacLean, Murray; and M. O. Weather, Murray, all of whom have bachelor's degrees from Murray State College, are taking graduate work at Murray State College.

TEACHER CHARGED BY STUDENT 14

Hoyt Jones, teacher at the Edge Hill school, was charged with de-taining a woman against her will and held over to the November grand jury after an examining trial last Friday morning. Jones was al-leged to have made advances toward 14-year-old Harrie Guthrie, a student, at the noon hour on October 7.

Jones denied the charge and the defense brought out that Chester Guthrie, father of the child, held ill feeling toward Jones and op-posed his election for the third term. Guthrie is said to have re-signed as a trustee after he was named.

Jones, 22 years old and mar-ried, lives near the school where he has taught two years previous-ly. Guthrie lives nearby the school being the closest patron.

seventeen elementary school chil-dren were brought into the court room as witnesses to bring out whether or not Jones and the pupil were in the room with the door closed. Jones said he had the stu-dent in the room on that date at the noon hour to complete an examination.

Flint School News

October fourth finished our third month of school. Attendance was good in spite of some having to stay out to pick colds. There have been several bad colds but none severe.

The eighth grade planned a pic-nic at Peggy Ann Springs for a few special friends and teacher the first Saturday of September. Every one had a nice time with plenty to eat.

Ball playing is the most impor-tant play ground activity at pres-ent. We play "deck on board" mostly.

Due to a mistake in copying the news last month, Allie Manning's name was omitted from second month's honor roll.

The honor roll includes all pu-ils with grades of A or B who have not been absent any day or tardy three times. The honor roll for the third month follows:

First grade—U. L. Knight, Delma Hodges.
Third grade—Cecil Spiceland, Marie DePriest, Fay Hodges.
Fourth grade—J. D. Lassiter, Charley Parish, Kathryn Knight, Imogene Parish.
Sixth grade—Moela Steele.
Eighth grade—Ralph DePriest.

Stella Gossip

L. H. Pogue will preach at Anti-och Sunday morning at 10:45 o'clock and at Coldwater Church of Christ at 2:00 p. m. — Do not say disrespectful things of other folks religion.

First killing frost last year was on October 23, this year on October 6 which damaged crops, corn, cot-teen, and alfalfa—99 per cent. Hasn't been but little rain the past four weeks. Dry, dry! Had it been "badder" no use to kick and go on a stampede.

"A soft answer turneth away wrath, but grievous words stir up anger." Prov. 15:1.

Elbert Lassiter, I don't mean the cashier banker, but he, who once pulled the "bell cord" over old Ben "Dixie" from round to shaped notes for me; mailed a 24 on cow mangle to keep old Jersey from pulling a whole block of hay out on the ground—"ingenuity".

Mr. and Mrs. Elvis Black of Beech Grove took dinner with Mr. and Mrs. Casper Haneline last Sunday, and attended preaching at Coldwater Church of Christ.

Mr. and Mrs. Connie Mills and Richard, Mr. and Mrs. C. A. Mor-gan and Joel Cawthon attended church at Union Grove Sunday. About 250 people there; over 100 in Bible school.

Allen McKee's little granddaugh-ter, Bettie Jo Bibbs, had a case of diphtheria Sunday and Wash Boyd of Penny was suffering with as-thma.

Went with brother Jim to "town" Saturday. I saw Almon Beale sitting in his famous chair that he has occupied off and on the past 40 years in his mammoth grocery of A. B. Beale & Son. I admire his cheerful disposition in his old age. Saw cotton gin running at high speed, people were hailing the snow while in to beat the band, price \$5.50 a 100 pounds. I was told that part of Calloway's cotton went to Benton and Paris.

Saw Mr. and Mrs. George Cor-nell, our old neighbors, who are now engaged in grocery and cold drink business at the corner just across from the Murray Consumers Ice & Cold Co. snug as a bug in a rug.

Ole man Winn got all the gas and knocked out'n him in a religious skirmish, while ole man "Eagle" lost all of his tail feath-ers near the court house. Now wasn't that silly, wishy-washy, wishy-wishy—"Eagle".

Crow Killing Contest To Be Held October 21-23; Prizes Will Be Awarded to Winners

A crow killing contest beginning Monday and lasting through Wed-nesday has been announced by State Game Warden J. R. Oury. The contest is being sponsored by the portsmouth Club and the Murray merchants have given liberally for prizes. Included will be the kill-ing of hawks and a hawk carries the distinction of being worth two crows.

John Wear will receive the crow heads and they will be displayed on Thursday at the Wear Drug Co. Warden Oury urges everyone to enter and admonishes hunters not to wait for the other fellow to start but to get his gun and enter early Monday and ask you to bring in the head regardless of how few you kill. He states that the cause is worthy as these pests destroy

much in farm products and kill and drive off desirable birds.

Merchants giving prizes: Bank of Murray, \$5.00 cash; W. T. Sled & Co., \$3.00 hat; Wear Drug Co., \$1.35 candy cigarettes; Scott-Lass-iter Hdw. Co., 2 boxes Peters shells, \$1.50; T. L. Kirksey Hi News

(Arrived too late for last week)
The senior class elected their class officers. They are as follows: Clovis Bazzell, president; Pat Harold, vice-president; Robbie Hurt, secretary; Gene C. Cunningham, treasurer; Miss Hule, sponsor.

Our fiddlers' contest was a great success. We had perfect order for the large crowd that attended. Chester Yarbrough was the best all round fiddler of the evening and Hardy Adams was second best. The school wishes to express appreciation to the contributors for premiums and cash prizes, also to the judges for their service.

A chapel program was given by the freshmen class last week. A Bible reading, address, songs by four girls, a reading and harmonica solo composed the presentation. The Future Farmers initiated 28 Green Hands Thursday night, October 10.

A news committee was appointed Monday to serve for the second six weeks term. The committee includes: seniors, Robbie Hurt and Pat McCuiston; juniors, Bedott

Youngblood and Mary Jackson; sophomores, Buren Dale Johnson and Mary Elizabeth Johnson; freshmen, Ann Staples and Richard Mills; eighth grade, Francis Coleman; seventh grade, Hugh Palmer; chairman, Bedott Youngblood.

Last week brought to a close the softball season with both girls and boys team coming out victorious. Out of six games the girls have been defeated only once by Hardin, an out of county team. This is the finest girls' team Kirksey has ever had. We are very proud of them and appreciate the way they have fought to win glory and victory for our school.

Their last game with Lynn Grove was a thriller, both sides played hard and played well. An extra inning was played to break a tie, the final score being 11 to 10.

The boys' game was also very good, with exceptional playing by both sides, the score was tied for the first three innings, the final score being 8 to 4. Several bystanders were heard to remark that it was the best playing they had ever seen.

Community Fair Oct. 18

The community fair will be held at the school building Friday, October 18. Every one is invited to take part in this community day program. The morning program will be different contests between the students of different schools.

The afternoon program consists of ball games. The women of the community will play the school girls.

Friday night there will be a mixed program given by high school and grades. Admission 10c. Every one is invited.

The seniors are all smiles, for they received their rings last week, and everyone seems to be well pleased.

Monday marked the opening of the basketball season. The team is to come from practically all new material, but everyone seems to be in a good fighting spirit, and therefore Kirksey will have a real little, scrapping basketball team this year.

All friends and patrons are invited to come out and see the boys play. We will assure you that you will be fully entertained.

The Eagles will go into action November 1st when they encounter the Wildcats on the Lynn Grove floor.

M. and 4 o'clock P. M. on said date, at which election all legal voters in said county will be given an opportunity to vote by secret ballot on the following question:

"Do you favor taking advantage of Article 8, Chapter 146 of the acts of 1904, which would prohibit the sale, barter, or loan of spirituous, vinous, or intoxicating malt liquors in Calloway County, Kentucky."

The order calling said election and directing the manner in which same be held can be found of record in order book No. 10, page 130 in the office of the Clerk of the Calloway County Court.

Witness my hand as Sheriff in and for Calloway County, Kentucky, at my office in the city of Murray, Kentucky, this September 23, 1935.

CARL B. KINGINS, Sheriff Calloway County

NOTICE

IN THE MATTER OF HOLDING AN ELECTION IN CALLOWAY COUNTY, KENTUCKY, UPON THE PROPOSITION WHETHER OR NOT SPIRITOUS, VINOUS, OR INTOXICATING MALT LIQUORS, SHALL BE SOLD, BARTERED OR LOANED IN CALLOWAY COUNTY, KENTUCKY.

This matter coming on regularly for a hearing upon the petition of O. A. Marrs and Howell Thurman and 2249 other legal voters in Calloway County, it appears to the satisfaction of the court that the number of petitioners is more than twenty-five per cent of all the votes cast in Calloway County at the last general election held in and for said county and the court being fully advised as to evidence and facts, finds that the petition contains more signatures of legal voters in said county than the whole number of legal votes cast in the last general election in Calloway County, the court further finds and adjudges that said petition was presented to E. P. Phillips, presiding judge of the Calloway County Court, on September 5, 1935, and that same was and is so indorsed by said E. P. Phillips as such Judge. He further finds that the petition was filed in the office of the Clerk of the Calloway County Court on September 6, 1935, and is so indorsed by Mary Neale, said Clerk.

The court further finds and adjudges that no objections or exceptions have been filed to said petition, of any kind, or by any person.

It is now adjudged and ordered by the court in keeping with the prayer of said petition that an election be and the same is hereby ordered to be held at each voting place in Calloway County on November 5, 1935, to take the sense of the legal voters upon the following question, viz:

"Do you favor taking advantage of Article 8, Chapter 146 of the Acts of 1904, which would prohibit the sale, barter or loan, of spirituous, vinous, or intoxicating malt liquors in Calloway County, Kentucky?"

Carl B. Kingins, Sheriff of Calloway County, Kentucky, is hereby ordered and directed to hold said election, and he will cause a poll to be opened in each and every voting precinct in Calloway County, on the above named date, as the law in such cases directs and it shall be the duty of said Sheriff to have the order of this court published in some weekly or daily paper published in Cal-

loway County, for at least two weeks prior to said election, and also to advertise the same by printed or written hand bills, posted at some conspicuous place in each voting precinct in Calloway County for the same length of time and he will cause not less than five of such posters to be placed in conspicuous places in each voting precinct in Calloway County, and he is directed to have these posters so placed seven days after he receives a certified copy of this order from the Clerk of the Calloway County Court and said sheriff is further directed to see that the voters otherwise have the same opportunity to cast their suffrage upon this question as they have in any regular political election.

Mary Neale, Clerk of the Calloway County Court, is hereby ordered and directed to prepare the ballots and cause same to be distributed and for the purpose of enabling each voter to have the opportunity to cast his vote upon the question or proposition above submitted.

It is further ordered and adjudged by this court that the election commissioners in and for Calloway County, Kentucky, make due returns of the number of votes cast for and against the proposition herein submitted and certify the results of their findings to the Clerk of the Calloway County Court.

APPROVED: E. P. Phillips, C. C. STATE OF KENTUCKY SCT. COUNTY OF CALLOWAY
I, MARY NEALE, Clerk of the County Court for the county and state aforesaid do certify that the foregoing is a true and correct copy of the order and judgment calling for an election to take the sense of the legal voters of the County on the question, local option as appears of record in Order Book "Y" page of my said office at Murray, Ky.

Given under my hand, this 26th day of September, 1935.

Mary Neale, Clerk

and Herman Wilson.

The F. F. A. gave a chapel program Friday. The purpose of this was to initiate the freshmen to the F. F. A. club. Each person initiated had to imitate an animal. Also a hog calling contest was featured and was won by Harry Douglas.

The Legion Leads The Way

"The Legion demands that all profit be taken out of war" said the veterans' new national commander, J. Ray Murphy, of Iowa, in his address at the closing session of the 17th national convention held at St. Louis last week. "The Legion demands that burdens of war be shared equally by all citizens," continued Mr. Murphy.

Whatever the opinion of each of us is regarding the Legion's reiterated demand for immediate payment of the veterans' adjustment compensation certificates, no true American can disagree with the two assertions so emphatically and so dramatically made to the thousands of war heroes by their new commander.

That economic reasons lie behind every great conflict is now a well recognized fact.

That wars are fought and paid for by the many for the benefit of the few is also more or less generally admitted by informed persons in every land today.

The American Legion thus again goes on record as insisting upon conscription of industry, materials, brain power and capital, as well as of man power, when the United States again is embroiled in war.

As soon as this democracy passes the necessary laws taking the profit out of war, so soon will definite progress be made toward preserving the peace we of the army and navy of 1917-1918 were supposed to have fought to bring about in "the war to end wars."

And let it be clearly understood now that Americans who, because of selfish desire for great profits, obtain concessions, lease and purchase property abroad, may not expect to involve this nation, she was merely to protect such interests.

Laurel county's trend toward more and better livestock was shown by an exhibit of calves, cows, mares and colts.

For Bad Feeling Due to Constipation

Get rid of constipation taking Black-Draught as soon as you notice that bowel activity has slowed up or you begin to feel sluggish. Thousands prefer Black-Draught for the refreshing relief it has brought them. Mrs. Ray Mullins, of Lafe, Ark., writes: "My husband and I both take Black-Draught and it keeps us in splendid condition, biliousness, and the disagreeable, itching, tired feeling that comes from this condition. With reference to Syrup of Black-Draught, which this mother gives her children, she says: 'They like the taste and it gave such good results.'"

Rev. J. E. Skinner to Retire as First Baptist Church Pastor October 31

The Rev. J. E. Skinner, pastor of the First Baptist Church, Murray, for the past four years has announced that he will retire at the end of October to take a complete rest in the anticipation of regaining his health.

The Rev. Skinner suffers from a vertebra ailment which gives away under hard work and causes nervous breakdowns which are only relieved by complete rest.

Last week, Rev. Skinner announced that he did not look forward to complete retirement but that he believed six months rest would enable him to resume his service to the church. This is the fourth time in his life that he has been required to take a long rest to recuperate his strength. He and Mrs. Skinner will return to Jackson to make their home, he owning a residence there.

He successfully filled this responsible position until the fall of 1930 when he resigned against the protest of the board of trustees on account of the stringent financial situation of the country at that time. He then engaged in evangelical work until the first of October, 1931, when he was elected pastor of the First Baptist church, Murray.

Rev. Skinner, who is 67 years of age, said that he did not look forward to complete retirement but that he believed six months rest would enable him to resume his service to the church. This is the fourth time in his life that he has been required to take a long rest to recuperate his strength. He and Mrs. Skinner will return to Jackson to make their home, he owning a residence there.

Democratic Nominee For End of Sales Tax by 1936 Assembly

Repeal of the 3c gross sales tax without waiting for its automatic expiration on July 1, 1936, reduction of the state tax on real estate to one-cent per \$100 valuation and full support of Murray State College with a \$12 per capita for four years for the common schools were pledged more than 2,000 voters of Calloway county here last Thursday night by the Democratic nominee for Governor, Hon. A. B. "Happy" Chandler.

Mr. Chandler's 40-minute address, in which he vigorously stated his platform, was enthusiastically received by the big audience which crammed the big tobacco barn on South Fifth street. Just before Mr. Chandler began his address, a tier of seats on the east side of the platform collapsed, dropping more than 200 persons to the floor. Minor injuries to ankles, toes and heels were received by Mr. and Mrs. Waylon Rayburn, Gus Robertson, Joe

Points Clearly Made
Covering his ground with rapidity and a lucidity that made it easily understandable to all his hearers Mr. Chandler easily won his audience with his personality. Before launching into his address he presented his father, Joseph S. Chandler who had driven down from Corydon to hear his son, two former school teachers, Miss Mary Virginia Coleman, daughter of Attorney and Mrs. James H. Coleman, Murray, and Mrs. Paul Raymond, daughter of Judge A. S. Brooks. Mrs. Chandler was presented to the audience and was a hearty welcome.

Mr. Chandler said that the election of Swope meant a return to Hooverism and pointed out the improvement in conditions since Franklin D. Roosevelt became our President. He declared the income of Kentucky farmers has risen from \$73,000,000 in 1932 to \$113,000,000 in 1935. Chandler scored "His Majesty, King" for bidding

Swope Hits 'Unholy Alliance' in Democratic Campaign

Promises to Free the Toll Bridges, Speaking to Good Crowd Here

Republicans of Calloway county turned out in force here Tuesday afternoon to hear their nominee for governor, Judge King Swope, Lexington, bring his cause to the voters' attention and warmly applauded his attack on the Democratic forces.

Judge Swope was introduced by J. M. Cole, former postmaster and a Republican leader here of many years. The Republican nominee was quite hoarse from many addresses, having spoken at Benton and Hardin before coming here. He went to Mayfield at the conclusion of his Murray speech and addressed a crowd at Hook's Park, Paducah, that evening, making four addresses for the day.

The court room was filled and it was estimated that as many more persons heard Judge Swope on the outside, his voice being broadcast to them through a loud speaker.

Judge Swope promised to free the toll bridges if elected.

"I don't know just how it can be done," Judge Swope said, "but I'll find a way to free them."

At the same time, Judge Swope committed himself to a policy of free bridge construction, if elected.

"I take the position a bridge is as much a part of the road as the highway itself," Judge Swope declared. "If I am elected, I will build roads right on across the streams and let the people ride free."

Claims Tolls Too High
"Now, these tolls down here are too high," he continued, "and I am in favor of reducing them. It's 50

After Monday or your regular wash day. No doubt you do for there is no work as tiring.

Let your husband wash out a single towel according to specifications and he will see that the job is one for the laundry and machinery mostly.

Winter is practically here and home washing leads to many exposures and illness. Health is too precious and the difference in cost is too little to have to stand the work and exposure.

Let us explain to you just how little more it will cost at the Laundry—done perfectly.

Chandler and The Schools

Those trying to prevent the election of Lieutenant Governor Chandler as governor are starting the whisper: "The schools will close if Chandler is elected."

Nothing could be more preposterous, yet some who have the welfare of education at heart are taking up the lie and passing it on.

Chandler, in his opening campaign address said:
"As Lieutenant Governor and presiding officer of the Kentucky Senate, I advocated passage of the School Code, and favor its continuance. The Republican nominee never publicly declared himself in favor of the \$12 per capita school fund until long after I had advocated it in my speeches."

Chandler, then, instead of being a peril to the schools, was the first of the candidates to publicly pledge continuance of the \$12 per capita school fund.

Also important to the voters who have the interest of Kentucky schools at heart is the fact that Harry W. Peters, superintendent of the Marshall county schools, is on the Democratic ticket with Chandler as candidate for superintendent of public instruction.

Mr. Peters was a member of the Kentucky Education Commission which conducted the survey preliminary to preparation of "The School Code" passed by the 1924 Legislature, a code recognized as a model among state school statutes.

Mr. Peters is so well thought of among Kentucky educators themselves that he had their almost universal support in the primary

election.
Chandler has declared himself openly and definitely on the school question. He is for a per capita contribution of at least \$12 from the state for school purposes. He has pledged his support to the educators who are trying to improve the state's educational status.

This pledge is as worthy of public acceptance as the other pledges Mr. Chandler has made.

And Mr. Chandler's reputation for keeping pledges has been established. He fought losing battles against the sales tax. He fought for the primary against the combined forces of the billiardists and the Republican nominee.

Chandler's promise to give the schools adequate support and to keep them out of politics is worthy of the trust of every friend of Kentucky education.

The Testimonial To Tom Rhea

(KENTUCKY IRISH AMERICAN)
Possibly the most unique semi-political gathering ever held in Kentucky or in any other state for that matter, was held Monday evening at the Seelbach Hotel, when a testimonial banquet was given in honor of Thomas S. Rhea, defeated primary gubernatorial candidate.

A defeated candidate is treated usually like a loser in any other sphere. The Chicago Cubs found no obstacles in making their way to the club house after losing the series. Max Baer hardly had enough help to assist him off with his gloves after losing to Joe Louis. Losing owners of Kentucky Derby entrants find themselves and their horses with possibly a stable hand for company. After

the end election returns come in a defeated candidate has plenty of time to himself and the only visitors are some who want to collect for their services.

That is the usual aftermath but the Rhea testimonial smashed these precedents. There were 1,207 guests paying \$4.50 per plate at the Seelbach Monday night to pay tribute to Mr. Rhea and between 400 or 500 came in after the dinner to hear the talks. Every fellow highway commissioner of Mr. Rhea's was on the program for short talks, in addition to other prominent citizens and those talks contained real testimonials to Mr. Rhea's ability as an official and executive and tributes as to his worth as a Democrat and neighbor. Lucien Drury of Morgantown furnished the essence of the likeable qualities of Mr. Rhea when he told how on August 2 he was present in Mr. Rhea's home town and saw Logan County residents furnish a monster demonstration for their leading citizen—Ernest Fulton of Bardonia, toastmaster, led in telling of Mr. Rhea's worth as a Democrat and Edward Gatliff of Williamsburg told of his district's loyal support for the Russellville gentleman.

Rhea's Tribute

Fifteen hundred friends and admirers of Thos. S. Rhea from every section of Kentucky gathered at the Seelbach Hotel in Louisville Monday night to pay him the most unusual tribute known in the state's history. Such a man, such a leader, such a citizen, although defeated in a run-off primary, isn't down or out. His vote of 233,000 is proof of his strength; and the testimonial of Monday night was conclusive demonstration that Thos. S. Rhea, as long as he lives, will be potent and powerful figure in Kentucky politics. And, before the moon changes many times, he'll make somebody sweat—Glasgow Times.

No Political Cartoons
The most cruel, unfair weapon in the world is the political cartoon. It has no appeal but to prejudice and no justification but bitterness. Rarely does it stop short of libel and frequently violates both truth and facts. The great trouble with government in this country is that political campaigns only too often appeal to passion, prejudice and enmity rather than to a sense of fairness, justice and equality. For

that reason, The Ledger & Times will not print any political cartoons on any subject, wet or dry, pro or con, Republican or Democratic. Liberal or Conservative, either in the news or advertising columns.

The pin-ball machine has a better point for the owner than the player.

The Elizabethtown News similes "as dumb as the fellow that thought WCTU was a broadcasting station." Is there any organization of the good ladies that isn't?

A Chicago professor says the world is without beginning or end and "Happy" says it almost seems that way about running for Governor.

Money is the root of all evil—and we spend most of our time trying to dig up the root.

The local option election's legality is rather confused. Like the negro's definition of an alibi. In other words you can't vote a wet country dry because the 1918 law says it's already dry and the 1934 law says a dry county is wet if you happen to feel sick or religiously inclined and need a little "wine for thy stomach's sake" or desire to take the "sacrament."

Owner of the Detroit Tigers planning to spend a half million to improve his ball yard evidently hasn't read about the failure of the Dean boys' 1935 barn-storming trip.

Another mysterious political move is why the Democrats are trying to keep Hoover from getting the 1936 nomination.

Little Boy Blue, come blow your horn.

Your car's at the cross roads. Your brake lining's worn. But Little Boy Blue made nary a beep. Now he's under the tomb stone, fast asleep.

Confetti is said to mean confection. Then Irish confetti is just a little token of the sweetness of the Irish temper.

Another happy faculty Mr. Chandler has is being able to cover a remarkable amount of ground in a minimum of time. It would be taken Alben Barkley two hours to say what Chandler said in 40 minutes here last Thursday night.

Senator McKellar, who speaks here Saturday, is reputed the best go-getter in Congress. With he would take a hell-bent notion to have Aurora Dam built.

The Ledger & Times will take no part in abusing King Swope, the Republican candidate for Governor. So far as we know, Mr. Swope is a clean young man and we see no point in attacking a man so long as he looks and acts the part of a gentleman.

Obituary

Roland J. Wells was born May 5, 1867 and suddenly passed from this earth October 10, 1935, age 68 years, 5 months and 5 days. He was married to Mrs. J. M. McDaniel February 14, 1894. To this union was born three children, Otis, Leola, and Glyco. Otis departed this life 18 months ago.

He professed faith in Christ at an early age and united with the Missionary Baptist Church at Elm Grove and later moved his membership to West Fork, where he remained a faithful member until death.

He was loved and respected by all that knew him, and will be greatly missed in his home and community.

Faxon Fair Exhibits

The six elementary grades displayed their work, consisting chiefly of a Japanese tea garden, the "Three Bears" project, health posters and booklets, and bird conservation posters and bird houses. This room was decorated with Columbus Day designs.

The junior-senior high school decorated their room with window drapes and flag of red-white-and-blue streamers. Their work consisted of science notebooks, a set of natural resources maps, a product map of U. S., the New Deal, and the practical and beautiful application of geometric principles.

Faxon Hi News

Saturday morning the junior high school, with Mr. Barnett as sponsor, gave a good two-act play, "Cappy Explains." The fifth and sixth grades interlarded the program with snappy songs and skits, one of the funniest being "Topsy-Turvy."

"Mom" a four-act comedy-drama, given Friday evening by the Thespians Club, was pronounced one of the best plays ever given at Faxon High School.

Softball Game
The Concord outfit were in a good game 7-5 over the local team Friday afternoon. Faxon won the four scores in one inning. Concord's excellent fielding shut them out in every other inning.

Stage Equipment
Faxon now has one of the most beautifully equipped stages in the county. The artists of the American Scenic Company were delayed two weeks, coming in the midst of our preparations for the fair. A program of dedication will be given later, to which all friends of the school who have contributed toward the equipment will be invited.

Fifteen hundred people attended the opening of the Swift & Co. cheese plant at Madisonville.

Swope Promises to Free Toll Bridges

(Continued from Page One)

cents here and 85 cents there. You can tell the number of times a man rides over these bridges by counting the patches on his clothes."

Ben Johnson, former chairman of the State Highway Commission, "spent more money filling up a hole between two sections of the town of Bardonia than it would take to build a free bridge across one of your streams," Judge Swope asserted.

Judge Swope charged "that a bunch of political pirates and high-binders" is doing the thinking for Lieut. Gov. Albert B. Chandler, his opponent. He attacked a cartoon in the Monday morning issue of the Courier-Journal, showing Mr. Chandler standing with a foot on the neck of the interstate highway combine, as contrasted with Judge Swope marking down promises on a blackboard. He attacked the political record of J. C. W. Beekham and others, and charged Mr. Chandler with inability to compose or deliver a speech by himself.

You are still entitled to a 2 per cent discount on your taxes, but remember October 31 is absolutely the last day for this saving. Pay now and avoid the rush.

A WORD ABOUT THE DOGS

The state field man has just left this office. He says we must tag all dogs or there is trouble ahead for us all. For the last six months I have been begging you to buy your tags. A great majority have bought. If it is right for one to buy it is right for all. About 80 per cent of this money collected goes to pay off claims that are caused by dogs. During the last two years the damage has been great, but most of the claims have been paid. Your claim may be next.

This office has put in lots of time trying to improve conditions in this county without pay. I do not want anyone in this county to get in trouble over their dogs. Neither do I believe you want to get me in trouble.

The risk is too great for one dollar. Now to you who have not bought I am insisting that you do so before November court, so we can all be in the clear. If you are too busy to come to town, send by mail or by your neighbor.

This law applies to the city the same as to the county. I cannot wait any longer. Respectfully,

CARL B. KINGINS

him by the pastor, elders and deacons, published elsewhere in this edition, in no measure exaggerates Mr. Holland's worth and character.

Every available niche of space in the church was taken by those who gathered to pay the last tributes of respect to this good man. Almo High School

Two new pupils entered high school this week, Misses Rosell and Helen Hargis. They were formerly of this county, but have spent eleven years in Long Beach, Calif.

Rosell and Helen are the daughters of Mr. and Mrs. Joe Hargis. They plan to stay in Almo. We join in giving them a welcome back to Kentucky and Calloway county.

Seeking vengeance against Kirksey High for the miserable defeat they suffered at the hands of their fair softball warriors, Almo's faithful girls will meet the Kirksey team at Almo Thursday afternoon, October 17. Local softball headquarters report that intense effort will be made to transfer the empty to Kirksey's record.

I went to Kirksey the other day. To see our ball boys play. They were first in the field.

And then up to bat. They knocked the ball away. And that's that.

They beat our boys by one score. But we got the pitcher scared. And they didn't get any more. The scores were 8 and 9. I know. Because I kept them in mind.

When the girls went to play. They got a loud cheer. Kirksey beat them there. But they cannot beat them here.

—Joe Rob Beale, 6th grade

Coach Brown began basketball practice last week with 16 boys craving the floor-work. Though most of the players are small in build—they love the game and don't mind work, and upon this Almo High School hopes to build a winning team for this season.

Professor Brown, head of the English department, who was away the first of the week because of the illness of his father, has assumed his duties again.

Mr. Lassiter has enrolled for graduate work at Murray College, taking two Saturday morning classes.

Grade News

We have one new student in our room, Joe Hargis, which makes us 44 in the first three grades. We have completed our safety project on our sand table and are making

health booklets in the third grade. We are proud of our new shades, but we never get everything we want. We now want some library books and supplementary readers for our room.

Our honor roll for the first six weeks was quite small, but we hope it will be larger next time.

Second grade—Dorothy Lou Griffin, Lovelle Taylor and Virginia Williams.

Third grade—Mavis Lee Rowland.

Fourth grade—Juniia V. Jenkins and Estelle Roach.

CHANDLER GAINS 2,000'S APPROVAL

(Continued from Page One)

for the support of sales tax Democrats by promising to appoint bipartisan commissions. He declared he has been making 3 to 4 speeches a day, all on his feet while King had to take a straight chair at Somerset on account of fatigue. "I'll have him in a rocking chair before this thing is over," Chandler asserted.

Wanted One Primary, Needed Two
The Democratic nominee promised that he would be the Governor of all the people and that he was "mad at nobody" who failed to support him in the two primaries. He facetiously remarked that he didn't want but one primary while the other crowd wanted two and that they didn't need but one and he needed two.

Making an indirect mention of a rumored bolt, Mr. Chandler said

the history of Kentucky was that when a Republican governor was elected there was always a state-mate between him and a Democratic legislature "with the result that nothing was accomplished, costs raised and the state debt increased. He reminded his audience that Governor Beckham left the Capitol without a penny of indebtedness and a million dollars in the state treasury, while the practice of issuing interest-bearing warrants was begun in the administration of Governor Wilson, a Republican, who succeeded him.

Chandler was positive, he said, that while voters might bolt for a principle they would not abandon their party's ticket merely for the sake of patronage and that a bolt of that character would not win popular approval.

Pledges \$12 Per Capita
The nominee said the most important functions of the state were safe-guarding health, maintaining schools and caring for charities. He pledged support of a \$12 per capita for common schools for the entire four years of his administration.

Paying tribute to the ability and accomplishments of Hon. James H. Richmond, now president of Murray State College, Chandler pledged adequate support of the institution.

That the sales tax will not continue to live out its natural term, July 1, 1936, was promised, when the nominee declared unequivocally that he would ask for the legislature to repeal the law. At the same time, he answered the criticism that he could have included sales tax repeal in his call for the special session which enacted the compulsory primary law last spring. An emergency must be declared and sustained by the courts, if necessary, in calling a special session and it is doubtful whether the courts would have sustained the emergency plea of a special session to repeal the sales tax and had the special session declared unwarranted, not only sales tax repeal but also the compulsory primary would have been lost. The law making primary or convention optional was enacted by the Republican legislature

under Governor Morrow, he added.

Reorganization Promised
Mr. Chandler said he would reorganize the state government on the basis of recommendations of the Efficiency Commission of 1922 and the Griffenhagen report of recent date. Senator T. O. Turner, Murray, was a member of the Efficiency Commission. He asserted that he would stop the assessment of state employees to finance political campaigns and that when his term of Governor was over he would not endeavor to influence the people's choice of his successor. "And I'll appoint people to offices that I won't have to watch," he said.

"Reorganization of the state government will be my first objective," Mr. Chandler asserted, "and I'll see that the state lives within its income." He pledged that if additional taxes were necessary he would call in the leaders of labor and industry and consult with them as to the best ways of raising needed revenue. "I favor a sensible budget and the reduction of the state tax on real estate to 1c on the \$100," Mr. Chandler indicated that the reduction would eliminate the state tax commission. Fair treatment of Western Kentucky in road building, was also promised by the nominee and he said that a Western Kentuckian sincerely interested in roads would be appointed to the highway commission. An important part of his platform is taking over the county roads for maintenance by the state.

Mr. Chandler said he wanted a Democratic legislature and that the people need not be afraid that it would be controlled. He said that if he lost, it would be with his self-respect but that he didn't believe the people of Kentucky could afford to let him lose.

Wants Permanent Primary
"I want to leave a permanent primary law on the books of the state and a record that will speak for itself," Mr. Chandler earnestly declared. "No bragging is necessary when you leave a good record," he maintained.

"I don't propose to promise, buy or bluff anybody," Mr. Chandler said. "I propose to treat every one right and to go out of office with the respect of all respectable

people. There's no citizen I want to punish."

Mr. Chandler concluded with a statement of expectancy that Caloway county would give him a

large majority on November 5. After the speaking, he shook hands with hundreds of admirers and well-wishers in the ante-room to the building. Mr. and Mrs. Chandler were the houseguests of Postmaster and Mrs. H. T. Waldrop for the evening and he spoke to the students of Murray State College in chapel Friday morning. He continued his tour through the counties of Jackson Purchase after leaving Murray, his address here being the first in the Gibraltar section of the state.

Leaf tobacco being sold to highest bidder

United States Treasury Building

From 1900 up to 1934 the leaf tobacco used for cigarettes increased from

an increase of 2392%

It takes mild ripe tobacco to make a good cigarette.

During the year ending June 30, 1900, the Government collected from cigarette taxes \$3,969,191

For the year ending June 30, 1934, the same taxes were \$350,299,442
an increase of 8725%
—a lot of money.

Cigarettes give a lot of pleasure to a lot of people.

More cigarettes are smoked today because more people know about them—they are better advertised.

But the main reason for the increase is that they are made better—made of better tobaccos; then again the tobaccos are blended—a blend of Domestic and Turkish tobaccos.

Chesterfield is made of mild, ripe tobaccos.

Everything that science knows about is used in making it a milder and better-tasting cigarette.

We believe you will enjoy them.
