## THE LISTENING POST

● Heaven forbid that I should do any posing as a war expert or as a master strategist! The world is full of these, and the newspapers are filled every day with their wise or otherwise words. I do not know that these are adding the war cause to any great extent.

● Yet there are certain ideas which I cannot get out of my mind. For weeks and months I have been reading of "unified command," "cooperation of purpose," "whole-hearted cooperation," and all the other fine phrases which are being used to describe the solidarity which exists between the United Nations. As good and as fine as all these things may be, there is still something lacking and I do not believe that we are going to get very far or travel very fast until this other thing which I have in mind comes to pass. I am thinking of a supreme commander—if not a supreme commander for the entire war effort of all nations, at least a supreme commander for the United States war effort. I presume that the chief of staff in Washington roughly approximates this, but to my mind he really falls short of having full authority.

● Those of us who remember the first World War remember quite clearly that the fighting in France was steadily going against the Allies until the three nations realized the need for a supreme commander. The British had tried all the generals they had and none had succeeded to any considerable extent. Pershing was already in France with a growing American Army. Efforts were made to throw Pershing's men into British and French armies as replacements, but to this plan Pershing remained adamant. He told the other generals that his army would fight as a unit and as an American Army. Yet when the Allies realized that a head was demanded Pershing was the man who really forced this plan. He accepted Foch, the French leader, as supreme commander, and his armies fought loyally under the great French general. From the day Foch took over the post Allied fortunes began to improve. Foch had the men and materials, but he had no more than the separate command had enjoyed a few months before without success. But with all armies under his command he began to roll forward and the war did not last a great while longer. Within a few months of the day Foch took over the end of the war began to be seen.

● Wars are fought differently today. I know, and I know also that the fighting forces are so scattered that it is not possible to place a supreme commander in charge of all the troops in the field. But there can be a head in Washington, and if such a man could be vested with this authority, free of all political pressure, free of all the petty things which have wrecked armies in all past centuries, I believe he could work out a plan which would confound our enemies and bring victory in a reasonable length of time. Lacking that this war may go for many, many years, for wars of this nature are merely fought by the trial and error method. While we must carry out all pledges to England and Russia, and while this will require enormous efforts, we must not forget that we have a first-rate war in the Far East. We have been beaten and pushed around by the Japanese, and while we have inflicted some staggering blows on their sea and air power, we cannot claim to have fought more than a defensive war to date. It will require more than a defensive war to defeat Japan, and all of

## Legislative Log-Jam Is Threat To Congress And Night Sessions Will Be Needed To Pass Bills

### Five Regular Supply Bills Are Tied Up By Various Disputes

#### LIGHTNING PLAYS PRANKS IN CITY SUNDAY AFTERNOON

Lightning played several pranks in the city yesterday afternoon just before a shower struck the city. The Kentucky Utilities Company reported several transformers struck in various parts of the city, and the residence of B. J. Williams in Fair Heights was also hit by a bolt. Fortunately in this case no fire followed the bolt, although the fire department made a run to the place. It was believed after examination that the bolt was deflected by a pipe and thus grounded. No one was injured.

The South Fulton fire department was also called out by a bolt which evidently struck a transformer near the Pierce-Cequin Lumber Company, but no particular damage was reported.

Residents in the vicinity of the Kentucky Utilities plant on Walnut street were somewhat alarmed when lightning entered the many transformers which are situated on a lot adjoining the plant. There was a great blast of noise, followed by other popping and shrieking noises, with some flame visible, and this created a good deal of excitement. The bolt came out of the clear, as the lines leading to the place evidently picked it up miles away and brought it in to the transformer located. Linemen soon took care of the situation.

Little rain fell during the disturbance.

#### FILM TELLS OF 1840 SEA "RAT- TLESNAKES"

As this country fights for survival, Americans are getting striking reminders of other times when our nation was in danger. Motion pictures especially are dramatizing for us the heritage left us by men and women of other days who fought America's battles. Film stories are going back into the past to point parallels with our modern crisis.

The similarity is striking, for instance, between our present grave situation and the swashbuckling tale of one of our early battles for freedom of the seas told in "Reap the Wild Wind," the Cecil B. DeMille epic in Technicolor now showing at the Fulton Theatre. A gigantic cast enacts the roaring story of this new Paramount film. Starring Ray Milland, Paulette Goddard and John Wayne, it features Raymond Massey, Lynne Overman, Robert Preston, Susan Hayward, Walter Hampden and hundreds of others.

## Army Consolidates Various Air Transports Into World System

Washington.—The War Department today consolidated its various air transport facilities into a single world-wide system to carry personnel, supplies and mail to any part of the globe where the Army may be operating.

Brought about by merger of the Army's air ferrying command and transport operations, the new system will be known effective July 1 as the air transport command and will be under direction of Brig. Gen. Harold L. George, head of the air ferry command.

George, at a press conference, indicated the Army intended to carry more and more freight to outlying forces by air. He said jeeps and small tractors already had been transported long distances by air, that the large cargo plane was in the immediate future, and that the aircraft industry was now turning out four-motored cargo planes with "extreme range."

Washington.—Congress found itself confronted Sunday with the prospect of a call for overtime work to break a legislative jam made up of appropriations bills for operation of half a dozen Government agencies in the fiscal year beginning Wednesday.

Five regular supply bills are tied up by disagreements between the Senate and House, and on some of them the chances for reaching an early agreement are not so bright.

Speed-Up Desired  
Should the bills not be enacted by midnight Tuesday, the agencies technically would be without funds. Though money could be made available by a resolution, congressional leaders indicated they would try to push the bills through before the deadline by holding night sessions if necessary.

Further Senate consideration of the regular appropriations measures will be delayed for action first on a \$43,000,000 War Supply Bill—biggest in history—and both House and Senate must dispose of a supplemental appropriation measure carrying almost \$2,000,000,000 for miscellaneous war agencies.

The House is scheduled to act on the latter bill Monday and the Senate expects to pass the big war supply measure at the same time.

Grain Provokes Dispute  
Heading bills still in disagreement is the \$680,000,000 Agriculture Department appropriation. Main bone of contention in the Farm Bill is a Senate provision to permit sales of Government-owned surplus grains at prices below parity.

The Senate last week instructed its conferees to insist on this provision, while the House ordered its representatives to hold out for elimination of the Senate proposal. The conferees will meet again Monday. Relatively minor differences between the Senate and the House are holding up final action on the bill carrying \$425,000,000 for the State, Commerce and Justice Departments.

#### FOURTH JAP CARRIER HIKES MIDWAY TOLL

Pearl Harbor, T. H.—The Navy announced Sunday that the staggering losses inflicted on the Japanese Fleet in the Battle of Midway included four aircraft carriers sunk with aircraft totaling about 275 planes, together with the crews of the planes.

Enemy ships also announced as sunk were two heavy cruisers, three destroyers, and one or more transport or cargo vessels. A fourth destroyer was listed as probably sunk.

Some persons might object to the use of airplanes to transport cargo because of the expense involved, he commented, but he said that expense did not mean economy in war-time as it was cheaper to get supplies to places before the enemy gets them there.

The new command will have control over every air transport activity of the nation, other than naval, within and without the United States, including priority rights for travel on commercial air liners. He pictured a globe-circling military air transport system speeding medical supplies, war equipment and other needs vital to combat operations to the world battle fronts, and swiftly shifting key personnel.

Transport of air borne troops will not be undertaken by the command but will be handled by the carrier command of the Army air force.

## Meredith Bars Tests For Those Employed In His State Offices

Frankfort, Ky.—Attorney General Hubert Meredith refused today to permit the State personnel efficiency division to test qualifications of his employees, declaring it lacked authority over employees of elected State officials.

Meredith's letter covered a broader field than a recent one by Assistant Attorney General M. B. Hollifield, who declared the State Auditor's office was specifically exempted from such tests by another State agency.

Elected Officials Exempt  
Hollifield said the law makes the Auditor "independent" of all other branches of State government.

Meredith cited a Court of Appeals opinion as saying that the

State Constitution limits authority of agencies created by statute to supervision over other similar agencies.

Constitutional officials—those whose offices are created by the Constitution—are responsible, Meredith declared, only to the voters and are amendable to the criminal laws.

Meredith's letter, written to State Finance Commissioner J. Dan Taibott, of whose department the personnel efficiency division is a unit, specifically declined to permit the efficiency tests to be given to Mrs. Edwin Matthews, Maysville, and Mrs. Isabel Smith, Frankfort, employed by Meredith in recent months.

#### QUEEN SHOPS IN DRUG STORE

Regular "Good Morning" Merchant's Greeting

Lee, Mass.—Queen Wilhelmina of The Netherlands walked into Frank Pease's drug store to make a few purchases.

Some persons might have been in a quandary wondering whether to address her as "your excellency" or "your highness," or whether to remain silent until spoken to.

But, when Dutch meets Yankee, frankness and simple courtesy is in order, so Pease said politely:

"Good morning, Queen."

"Good morning," she replied.

"Isn't it a lovely morning?"

The Queen is visiting her daughter, the Crown Princess Juliana, and the latter's two little girls at Juliana's summer place in this typical American town.

Pease, describing the Queen's appearance in his store yesterday, said he inquired for the health of the children. She said they were fine, and on learning that the druggist also had children, told him:

"Then I must bring the little girls down."

"I'll give them each an ice cream cone," said Pease.

"They'll love that," the grand-mother said.

The Queen was accompanied by a maid and a chauffeur.

#### PROCLAMATION

Whereas the President of the United States has designated June 14 to June 30 as the time for a concerted drive to reclaim scrap rubber, and

Whereas the city of Fulton has fallen far below its quota, and

Whereas it is felt that the people of the city desire to contribute their share together with the other citizens of our country, to defeat our enemy, and

Whereas unless a greater supply of rubber is found it will be necessary for the Federal Government to further regulate and restrict travel and use of rubber.

Now therefore, be it proclaimed that Tuesday, June 30, 1942 is designated as the day when all the people of Fulton shall sell or contribute any and all rubber which they can do without and all are requested to sell the rubber to filling stations and garages or to contribute same to the Boy Scouts who will make proper distribution of same.

Please do not fail as the wheels of victory roll on rubber.

T. T. BOAZ, Mayor

#### CIVILIAN DEFENSE SCHOOL TONIGHT AT HIGH SCHOOL

The Civilian Defense Training School will be held tonight at eight o'clock at the High School building instead of the Woman's Club building, according to announcement made this morning by Robert J. Lamb.

I WILL NOT be responsible for any debts made by my wife.

ED. BYARS

Adv. 153-61

Now is the time to subscribe for the Leader.

#### CHARGE CRITICISM IS BIASED, UNFAIR

Minority Members Declare Report Is Too Hasty

Washington.—Ten Democratic members of the House military affairs committee filed a minority report Thursday charging that the committee's recent criticism of the War Department was "biased and intemperate."

The majority report, made public Tuesday, was approved by three Democrats and nine Republicans. It said "nearly every conceivable type of extravagant waste" had been uncovered in an investigation of war contracts.

The minority signers said they could not find language adequate enough "to express our condemnation" of the procedure under which the majority report was filed. They complained that members had no time to read it.

"We regret to see approximately 15 months of effort belauded, if not destroyed, by a hastily considered, loosely prepared, harshly worded and biased report," said the minority members, Representatives Thomas of Texas, Harter of Ohio, Edmonson of West Virginia, Merritt of New York, Costello of California, Brooks of Louisiana, Sparkman of Alabama, Kilday of Texas, Davis of Tennessee and Fitzgerald of Connecticut.

"We believe on the whole," they said, "that the War Department, Navy Department, and War Production Board are performing their duties with remarkable efficiency and are entitled to our commendation. This is no time for partisanship, hastily action, unconsidered judgment or unjust criticism. . . . This nation is facing the most critical hour in all its glorious history and what we seek to promote is understanding, cooperation and unity."

#### NEW MEXICO IS "BOMBED"

Scores To Shelter After Accidental Raid

Albuquerque, N. M.—The crash of bombs—dropped accidentally from an Army training bomber—brought visions of an enemy air raid.

Eleven children narrowly escaped injury from the fifteen 100-pound practice bombs that exploded yesterday in a cornfield belonging to Manuel Griego. The farmer said they came from a bomber in a flight of four headed toward a bombing range.

Other residents, hearing explosions in quick succession and seeing flying dirt, said they thought it was an enemy raid, since they had not seen the planes. Scores of persons fled into their homes.

Authorities at the Albuquerque Army air base declined to make any statement. Only a fence and some of the corn crop were damaged.

Claudio Griego, 12, son of the farmer, was stunned by one of the bombs.

#### BICYCLE STOLEN

A Red and Yellow bicycle, with red and yellow wheels was stolen sometime Saturday night behind the Evans Drug Company. The serial number of the bicycle was 5509.

## Quick Death Penalty Sought Against Eight Saboteurs Who Have Been Captured By F. B. I.

### Gallows Or Firing Squad Considered Certain Conclusion In Case

#### ROY R. WEAKS DIES SUNDAY IN WATER VALLEY

Funeral To Be Held Tuesday Afternoon At 2 O'clock

Roy R. Weaks, 69, farmer and native of Water Valley, died suddenly Sunday morning at six o'clock at his home in Water Valley. Funeral services will be held at the Water Valley Methodist church Tuesday afternoon at two o'clock, conducted by the Rev. W. A. Swift and burial will be in the Water Valley cemetery in charge of W. T. Edwards.

He is survived by his wife, four children, Mrs. Smith Brown of Water Valley, Mrs. Dick Bailey and Mrs. Gent Bright of Detroit, and Mac Weaks of Fulton. One brother, Orbin Weaks of Bloomington, Ind., and three sisters, Mrs. Pearl Pigue of Water Valley, Mrs. O. C. Thompson and Mrs. Curtis Yates of Detroit.

#### USO DRIVE IS COMPLETED HERE

The United Service Organization's drive in Fulton county is now closed and a total of \$881.96 was collected, which is almost three hundred dollars over the quota. F. H. Riddle was the chairman of the drive and the Y. M. B. C. and Woman's Club rendered valuable assistance in raising the funds.

The following have contributed since the names were published:

Mrs. Kenneth Watt	\$ 1.00
Mrs. Leo Greengrass	1.00
Mrs. Ann Hornbeak	1.00
Mrs. J. A. Colley	.50
Coca-Cola Company	10.00
E. C. Cook	.50
Maurine Ketcham	.50
Kroger Grocery	5.00

#### HUNT RUBBER, FIND CAR

Oklahoma City — Ronald and Donald Horne, eight-year-old twins, went rummaging for scrap rubber and struck a family bonanza. On one street they found their father's motor car, stolen two days ago. Their reward was a defense bond.

#### DR. HAWS UNDERGOES AMPUTATION SUNDAY

Dr. M. W. Haws, who has been seriously ill in the Baptist hospital, Memphis for some time, yesterday underwent a serious operation. His left foot was removed just above the ankle and he is reported doing as well as could be expected today.

## Ft. Knox Man Tells Engineers Not To Rush Into The Army

Detroit.—Brig. Gen. Stephen G. Henry, commandant of the armor force school at Fort Knox, last night urged men with technical training not to rush into the Army "unless you are certain you are of more value there than in civilian life."

In an address before graduates of the Chrysler Institute of Engineering, General Henry said selective service boards should be the final judges of whether men vital to defense plants should be put in the Army.

"If we take into the armed services a man who is more valuable here in one of Detroit's great war plants, it is only an economic loss to the Nation," he said. "Let the boards decide where you can best be placed for the greatest national efficiency."

New York.—Quick wartime justice—death by hanging or a firing squad—appeared in store Sunday night for eight Nazi saboteurs loosed on New York and Florida shores by German submarines only to be nabbed by alert Federal agents before they could start their elaborate campaign of sabotage and terror.

Accomplices and contacts of the Nazi agents also were falling into the FBI net. A special announcement by Director J. Edgar Hoover Sunday night said:

"Additional arrests have been made of accomplices and contacts of the saboteurs and more may be made."

#### Number Not Disclosed

That the death penalty, ordered by Adolf Hitler for thousands of far more innocent victims, would be decreed, appeared a foregone conclusion.

In Washington, Atty. Gen. Francis B. Biddle said the question of prosecution of the men had not been settled, but he promised that "you may be sure that the Department of Justice will proceed with this case swiftly and thoroughly."

One of the difficulties in determining how the men will be prosecuted arises from the fact that two are United States citizens while the rest are aliens. The citizens are more in danger of the death penalty than the others since they can be prosecuted for treason while aliens cannot.

#### FDR May Decide It

In the final analysis the question of punishing the mean may rest with President Roosevelt as commander in chief of the Army and Navy. He may order the agents to stand trial before a military, rather than a civil court, in which case the supreme military penalty—death—could be imposed. Arrest of the eight men was disclosed Saturday night by Mr. Hoover, who said they had been landed in parties of four at Amagansett Beach, Long Island, and at Ponte Vedra Beach near Jacksonville, Fla., June 13 and 17, respectively.

#### POLICE COURT

Seven were fined this week-end by Judge Lon Adams in Fulton Police court on charges of being drunk in a public place. They are as follows: Hobart Arnold, \$10 and costs and the following negroes: Lindsey Crumble, Frank Mullins, J. F. Stanley, Clarence Foster, J. C. Minor, and Polk Binford, \$10 and costs each.

Act of Congress of March 1, 1879.

### THE DESERT FOX AND HIS OLD TRICKS

From The New York Herald

In clouds of dust the victorious  
Axis forces under Gen. Erwin Rom-  
mel are driving toward the Nile  
Valley in three separate columns.  
The main column, according to  
Richard D. McMillan, United Press  
correspondent with the British  
Eighth Army, is following the rail-  
road from Sidi Barrani to Mersa  
Matruh, the rail head where the  
reinforced Imperials are making  
their principal stand; another is  
utilizing the coastal road while still  
a third is moving south toward the  
salt marshes of the great Qattara  
Depression, some 75 miles from  
Mersa Matruh.

The appearance of being a flanking  
movement aimed at cutting the  
British lines or severing the rail-  
road connecting Cairo with Alex-  
andria. The strategy is the same  
as that pursued by the German  
General in the month old conflict.  
"The fox of the desert" is evident-  
ly up to his old tricks.

When the British in defense of  
Tobruk established a line from Ain  
El Gazala on the coast to Bir  
Hacheim to the south, Rommel  
knocked out the Southern anchor  
held by the Free French and swept  
behind the Allied positions to cap-  
ture the important seaport for-  
tress. When the Imperials retreat-  
ed to the Libyan-Egyptian border  
and set up defenses from Salum to  
Sidi Omar, the Axis forces threat-  
ened a similar maneuver and the  
armies under General Ritchie re-  
tired to a more defensible line from  
Mersa Matruh southwards. Now  
that line is similarly menaced. The  
British, or so it seems, are relying  
on the old Maginot Line idea of  
defense while the Germans are  
pursuing the course they pursued  
in France.

The situation may not be so ad-  
verse to the Imperials as it seems  
on the surface. What reserves they  
have is a military secret. What  
equipment they can throw into the  
fight is known only to those in  
command. The British may be pre-  
paring to strike when the opportu-  
nity moment arrives. The German  
theory that the best defense is of-  
fense is now pretty generally ac-  
cepted. Rommel may overextend  
himself by a wide sweep across the  
desert and endanger his supply  
lines. At any rate Mr. Churchill is  
confident that Egypt can be held  
and Mr. Churchill knows all the  
facts concerning the situation, but  
it is also a fact that Mr. Churchill  
has not always been correct in his  
optimistic predictions.

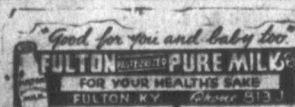

Looking at the conflict from all  
angles the threat to the Nile Val-  
ley is real and fraught with the  
gravest danger to the United Na-  
tions. Rommel holds the initiative.  
Ritchie is on the defensive. There  
is little reason for optimism until  
there is a definite turn of the tide.  
—Courier-Journal.

### LISTENING POST

(Continued from page-1)

us know that Japan must and will  
be defeated.

• I think many times of Gener-  
al MacArthur in this connection.  
While he holds a vital front, and  
while danger may still exist there,

### FIFTEEN YEARS AGO

(June 29, 1927)

Mrs. W. W. Brady died yesterday  
after a long illness.

A. U. Bowlin, who recently un-  
derwent an operation in a Pa-  
ducash hospital, is reported improv-  
ing. J. Ray Graham, Sr., who is in  
the same hospital, is also reported  
much better.

Mr. and Mrs. C. L. Gardner were  
in Paris, Tenn., today on business.  
Rev. R. L. Colley of Water,  
Texas, spent yesterday with his  
sister, Mrs. W. F. Campbell on Wal-  
nut street. He left today for Gre-  
nada, Miss., where he will conduct  
a meeting.

Miss Agatha Gayle has returned  
from a visit to friends in Chicago.  
Mrs. N. G. Morris and son, Paul,  
spent yesterday in Union City on  
business.

Miss Bess Morris is able to be up  
after a long illness.

Miss Jane McAdams has return-  
ed from a visit to friends in Green-  
field.

Mr. and Mrs. Easton Dawes and  
son, Leon, of South Bend, Ind., ar-  
rived yesterday to spend several  
weeks with relatives.

A United States Army plane com-  
pleted a flight from the mainland  
to Honolulu yesterday in 25 hours,  
43 minutes.

Sid Dumas of Houston, Texas, is  
the guest of Mr. and Mrs. S. L.  
Brown.

I still feel that he belongs in  
Washington. When and if the  
Australian front is considered  
stable, it seems to me that this  
man might be brought back to  
Washington and vested with full  
authority to win this war in the  
Far East. Naturally we must win  
in Europe also, but we must never  
forget that we have a powerful  
enemy in the Pacific and this  
enemy will stop at nothing to wreck  
this Nation.

### WARNER OF CBS WAR COM- MUNIQUE WRITER FOR ARMY

New York. —(WW)—Albert L.  
Warner, head of the CBS Washing-  
ton news staff, is to become prin-  
cipal war communique writer for  
the Army, with a commission as  
major, July 1.

Warner, who joined the network  
in April, 1939, will be succeeded by  
Eric Sevareid, now stationed at  
Washington. Before becoming a  
commentator on national affairs,  
Warner had been in active news-  
paper work since 1924 and for the  
last half-dozen years or so in the  
capital.

The appointment follows not  
long after selection of Elmer  
Davis, also a CBS commentator,  
as head of the newly created Of-  
fice of War Information.

### ARDERY UPHOLDS CONSTITUTIONALITY OF WELFARE WORK FUND

Paris, Ky. —Circuit Judge W. B.  
Ardey today upheld constitution-  
ality of a \$4,250,000 legislative ap-  
propriation for state welfare work  
and Attorney General Hubert  
Herndith said the decision would  
be appealed to the state Court of  
Appeals.

Meridith contends the act is in-  
valid because it did not allocate

### Rail oddities

P.T.B. BARNUM'S "GREATEST SHOW ON EARTH"  
WAS THE FIRST CHECKS TO TRAVEL BY  
RAILROAD—MAKING ITS FIRST TRIP IN  
1872 IN 65 SPECIAL CARS.

MORE THAN SIXTEEN MILLION  
TONS OF ICE ARE USED EACH YEAR  
BY THE AMERICAN RAILROADS IN  
REFRIGERATOR CARS, BURNING CARS,  
RESTAURANTS AND THE LIKE.

"KEEPING 'EM ROLLING"  
EVERY MINUTE IN 1941 THE AMERICAN  
RAILROADS MOVED AN AVERAGE OF  
90,000 TONS OF FREIGHT ONE MILE—THE  
HIGHEST AVERAGE IN RAILROAD HISTORY!

WASHINGTON. —Cancellation of  
existing naval authority to begin  
construction of new battleships  
was proposed by Senator Clark (D.,  
Mo.), today as congressional ad-  
vocates of increased airpower  
sought to speed the output of small  
and large aircraft carriers.

With sponsors seeking Senate  
consideration of a House-approved  
measure authorizing a 1,900,000-  
ton expansion of the Navy, Clark  
told reporters he would demand  
action on an amendment specifical-  
ly prohibiting the laying down of  
any battleships other than those  
on which work is under way or for  
which contracts have been let.

While the \$3,500,000,000 expansion  
bill would not authorize additional  
dreadnaughts, Clark pointed out  
that the Navy has existing authority

the money to various welfare de-  
partment functions—old age pen-  
sions, child welfare, needy blind  
and dependent children, leaving  
the authority to department offi-  
cials.

The attorney general also oppos-  
ed the act on the ground the provi-  
sion for aiding dependent children  
did not include indigent orphans.  
The state claims that such orphans  
are cared for in state institutions  
but that the provision in question  
was to help children with indigent  
parents.

Washington. —Cancellation of  
existing naval authority to begin  
construction of new battleships  
was proposed by Senator Clark (D.,  
Mo.), today as congressional ad-  
vocates of increased airpower  
sought to speed the output of small  
and large aircraft carriers.

With sponsors seeking Senate  
consideration of a House-approved  
measure authorizing a 1,900,000-  
ton expansion of the Navy, Clark  
told reporters he would demand  
action on an amendment specifical-  
ly prohibiting the laying down of  
any battleships other than those  
on which work is under way or for  
which contracts have been let.

While the \$3,500,000,000 expansion  
bill would not authorize additional  
dreadnaughts, Clark pointed out  
that the Navy has existing authority

## Paper Stock Is Undergoing Many Changes

Paper for letterheads and envelopes  
is slowly undergoing many changes.  
Bond papers will be dingier, will lack  
the white crackling finish they have  
known for many years. Probably the  
price will be higher also.

We still have some stock on hand of  
the better finish. Better order some  
letterheads today.

What  
Price  
Victory

No one doubts that the cost to defend the Freedom we love is going to be staggering. Some Americans are paying the cost with their lives; others are buying War Bonds, regularly. But to be able to speak and pray and think as we please . . . did you ever hear anyone question the cost?

American industry is humming to the tune of war. Of course, the cost of Victory is going to be great, but the loss in defeat would be far greater. So, wherever we go, whatever we do, let's find a place in this fight to preserve our greatest heritage . . . the Liberty, the Freedom of America.

## SIX MILES TO THE FOUND

Rocky Mountain, N. C. The gasoline and rubber shortages are no worry to Edmond Stallings, a cripple here. Mr. Stallings puts shafts on his wheel chair, hitched up his German shepherd dog, Chief, and now says he gets "six miles to a pound of steak bones."

## DESTROYED LAUNCHED

Bath, Maine — Three ships were launched in Maine Sunday — the alim destroyer De Haven slid into the Kennebec River here and at South Portland the 10,100-ton emergency carriers Ocean Pilgrim and Ocean Merchant were floated from their building basins.

## NEW BLACKOUT BULB ELIMINATES SHADES

Bloomfield, N. J. — A new "blackout bulb," designed for emergency use and eliminating need for window shades or blinds has been designed for war plants and Government buildings, the Westinghouse Electric & Manufacturing Co., said Sunday.

The bulb gives a faint glow of orange light sufficient to clearly distinguish objects in a room, but not enough to be visible from the air even though placed directly in line with an open window.

During a blackout, the light would enable workers to move around safely, stitch off machinery and perform any other simple emergency operation, Westinghouse officials said.

## IT'S 'THREAT TO HITLER'

New York. — In a reply to charges that his letter to New York City 3-A draft registrants advising them to enlist in the City Patrol Corps was a "threat," Mayor F. H. LaGuardia declared in a radio address Sunday that "the threat was to Hitler."

Describing his letter as a "call for volunteers," Mayor LaGuardia said, "The New York Times called if they did not volunteer for civil-Hitler!" The letter warned 3A registrants that their names would be reported to local draft boards if they did not volunteer for civilian defense.

Meanwhile, it was learned that approximately 90 per cent of the 7000 men to whom the mayor's letter was sent have applied for enrollment in the City Patrol Corps, whose members guard vital places in the city.

## JAP DIPLOMAT RESIGNS

Tokyo. — General Yoshitsugu

Tatekawa, who was recalled as ambassador to Moscow last March, has resigned from the diplomatic service "with the consent of the Japanese Government," it was announced Sunday.

## THREE WAS CROWD FOR YOUNG MATEON

Fort Smith, Ark. — A 17-year-old girl who allegedly admitted having three soldier husbands, said there Saturday it was not hard to maintain separate house holds for two of them because they were never off duty together.

The girl, who told Camp Chaffee officers her home was in Greenwood, Mo., said she married her first husband in Albuquerque, N. M., Oct. 24, 1941. Twenty days later she said she married husband No. 2—at El Paso, Texas. While visiting her second mate at Camp Chaffee, near here, she added a third to her list.

## QUOTAS FOR PURCHASE OF TIRES, TUBES RISE

Washington. — An increased July quota, compared with June, was announced Sunday by the Office of Price Administration, reflecting a normal seasonal rise in demand for tires, as well as increasing employment of workers in war industries.

The OPA made public a breakdown by states of quotas both for new tires and tubes and for recap tires. It divided the new tire quotas for distribution among two groups, class "A" for fire trucks, ambulances and other emergency vehicles and doctor's cars, class "B" for war workers' automobiles.

## SPORT TALK

The West Kentucky Conference, which the local high school is a member, faces tough going this fall, according to J. O. Lewis, secretary, in a story appearing in a Louisville newspaper yesterday. The conference is made up of nineteen schools, and Mrs. Lewis says that he anticipates several of the smaller schools dropping football before the season opens. He has learned unofficially that Central City has already decided to abolish football for the duration, although he has not been notified directly. He adds that it will not be surprising if several of the smaller schools drop out of the picture before the summer is over.

Transportation is one of the difficulties which all schools face, Mr. Lewis says, and there are some other difficulties which will create many changes in the football picture for the coming fall. One of the principal problems which Mr. Lewis is now studying is lack of officials. There is a definite shortage of these, and at present he has enough for only eight games to be played at one time. This is going to make it necessary to change the playing dates of some of the games, with officials doubling up for the work. Some games will be moved up to afternoon contests instead of under lights, while in other cases it is going to be necessary to play on other-than-Friday nights. Traditionally, with the exception of Tilghman at Paducah, games have been played on Friday afternoons or nights, and this year there will not be enough officials to take care of all teams on the same night. "We may see a football schedule looking like a baseball schedule," Mr. Lewis said, "with games being played on Tuesdays and Fridays."

Transportation difficulties will bob up to face many of the schools. In years gone by games were arranged with teams which could be reached by train, but since automobiles and buses have come in it has been possible to reach many towns which in past years could not be considered. For example, last year the Fulton team played

BULOVA, HAMILTON, AND ELGIN WATCHES, WATCHE REPAIRING, ANDREWS JEWELRY CO.

## FOR DEFENSE

BUY UNITED STATES SAVINGS BONDS AND STAMPS

a night game in Russellville, and returned after the game, although Russellville is as far from Fulton as is Memphis. Games of this nature are probably out for the coming year, although it may be possible to use regular commercial bus lines to get to some places. Presumably the local team could reach Mayfield, Paducah, Murray, Martin and Union City, and those towns could reach Fulton by use of regular commercial bus or rail lines, but getting to Cadiz, for example, might be a difficult matter on a one-day basis. Naturally if gas rationing is here by fall this will add to the other difficulties. It seems likely that if high school football gets through this coming season it will be the last season for a while.

The same difficulty is likely to hit basketball which starts on or about the first of December for the larger schools. The Fulton school plays many games with towns which will be quite difficult to go to and return on the same night, although transporting a basketball squad does not require quite as much motive equipment as does football. All in all, the picture for high school sports is quite cloudy, and there will be many headaches before a schedule is played out in either football or basketball. Seems a pity, too, for there is no great outlay required and the persons involved in high school athletics are all too young for war service. Sports mean a lot to these youngsters and it is to be hoped that some plans may be worked out which will allow these teams to go ahead with their contests as far as possible.

BREWING INDUSTRY FOUNDATION KENTUCKY COMMITTEE

FRANK E. DAUGHERTY, STATE DIRECTOR

### NEW TAX IS PROPOSED

Washington. — The Treasury, seeking a way to impose higher income taxes than those in the pending bill without penalizing too heavily persons who have fixed debt charges to meet, is studying a special income levy from which at least part of "saved" income would be exempt.

The plan called a "spendings tax," would be imposed on top of the income tax contemplated in the bill approved last week by the House Ways and Means Committee. Its effect would be to increase the tax on income ordinarily spent for various commodities but not on income used, for example, to meet mortgage payments.

This idea, it was learned Sunday, was broached by Randolph Paul, tax adviser to Secretary Morgenthau, in a memorandum prepared for the Ways and Means Committee. Mr. Paul made no specific recommendations. He indicated that exemptions would cover such things as payments on a home, purchase of War Savings Bonds and possibly life insurance premiums.

Now is a good time to renew your subscription.

### DOES MONEY TALK?

New York. — Here's an official version of the undoing of the four German saboteurs who were landed on Long Island by a U-boat:

An unnamed Coast Guardsman, walking patrol along the Amagansett Beach, saw the German submarine surface and four agents row ashore.

He was seized by the agents and threatened with death but the saboteurs changed their minds, gave him \$270 and let him go free on his promise to keep silent. The Coast Guardsman notified his superiors and the hunt, which led to the capture of the quartet, began.

### POLLY GETS 'EM TOLD

Albany. — The crewmen of one Nazi submarine probably still are wondering at the identity of the raucous voice which cussed them up and down after they torpedoed a United Nations merchantman one recent night in the Caribbean.

But the sulphurous language in English and Spanish was no mystery to Seamen Stewart Curtis of nearby Ronsselaer, one of the survivors. He explained it was the ship's parrot, escaping the darkness on a piece of wreckage.

### Training For Defense

By Rufus T. Strohm

Dean, International Correspondence Schools

WITHOUT an intercommunication system consisting of cables and wires, the modern battleship would be all but worthless. The wiring is just as important as the gun turrets or the steam power. The ship might have all the appearance of a first class performer, but she would be of little value in action.

Some men are like an unfinished ship. They have the Rufus T. Strohm appearance and the potentialities, but without skill they are not capable of doing a job that requires responsibility. They are mere shells of efficiency until the "wiring" or training is acquired.

Today thousands of men are working in the New York Navy Yard, busily engaged in building this nation's two-ocean navy. These men are given opportunities to advance to better jobs. The task demands skilled technicians and mechanics. Every department must have highly trained men to direct those who build and fit together the parts of gigantic battleships.

The Navy is proud of the spirit of the men who build ships, but that is not enough. Such workmen must be perfectionists. There is not much time to train men, but every effort is being made in that direction. The big jobs in the shipyard, like those in any other great American industry, are handled by those men who are properly "wired" to pro- with speed and efficiency. You have the "know how!"

### PATROL STRENGTHENED ALONG ATLANTIC COAST

New York. — Along the entire stretch of the Atlantic Coast Sunday the ceaseless vigil against enemy action was intensified as a result of the capture of eight submarine-borne German experts in sabotage bent on missions of havoc in the United States.

J. Edgar Hoover, chief of the FBI, declared that one result of the arrests had been instruction to increase the coast patrol in the event further efforts were made to land enemy agents along the desolate stretches of the Atlantic Seaboard.

### WELL, AND WHY NOT

Boise, Idaho. — Irene Zimmerman of St. Louis and Pvt. Gerald Devin of Gowen Field were ready to be married—but they needed someone to perform the ceremony. They stopped at a hotel to inquire the whereabouts of a justice of the peace.

"How about the Governor?" sug-

gested a bystander. "He's right here." Gov. Chase Clark consented, and the couple were married in the Statehouse.

### LOST AN AIRPLANE? SHERIFF FINDS ONE

Clarksville, Ark. — Anybody lost an airplane?

Responding to a report a wrecked plane had been found on the side of Ozone Mountain 12 miles north of here, Sheriff R. L. Thompson found the ship properly dismantled.

Thompson theorizes the ship, an old type biplane, was stolen, dismantled and cached on the mountain.

### TAKING NO CHANCES

Camp Davis, N. C. — And why, his companions asked, should Pvt. Joe Mendel go swimming in the surf with his trousers on? "Heck," Joe replied "today was pay day—and I wasn't leaving my money on any beach."

### ORVIS GRIFFIN TO BE U. S. PROBATION OFFICER IN DISTRICT

Orvis Griffin, well known Mayfield business man, today received a letter from Judge Shackelford, Miller, Jr., of the United States

District Court, announcing his appointment as probation officer in the Paducah district. This district embraces approximately 14 counties in Western Kentucky.

Mr. Griffin will succeed Rudy Ferguson, Paducah, who has entered the United States Army. In his letter to Mr. Griffin Judge Miller said that his selection had been concurred in by Federal Judge MacSwainford and Chief Probation Officer, Chappell. Mr. Griffin will assume his duties July 1.

### JULY 1 IS DEADLINE FOR RETAILERS TO FILE CEILING LIST

The deadline for retailers to file a statement showing his maximum prices for all cost-of-living commodities offered for sale in his store is July 1. This statement must be filed with the Local Rationing Board, in the courthouse by the above mentioned date.

Every retailer must complete a statement, to be kept in his store for examination by any person, showing his "base period" prices for every item carried for sale in his store during March, 1942.

Local Rationing Board officials stated today that it is absolutely necessary for these statements to be made out.
