PROPERTY OWNERS MUST PAY STORM SEWER COST

Yesterday afternoon the board of works and sewerage committee decided to begin the work of closing streets without the consent of the property owners, as all members present agreed to the proposal. After several meetings none were called for.

At the session of the board yesterday afternoon, Messrs. Singleton and Comstock received a report from the engineer concerning the condition of the storm water sewer on South Sixth street, from Third to Fourth, inclusive. The sewer was opened and examined, and it was found to be in good condition, with the exception of some clogging.

The sewer on South Sixth street from Third to Fourth was examined, and the board determined to proceed with the work immediately. The sewer is to be covered with a concrete pad for a distance of one hundred feet. The cost of the work will be charged against the property owners. The work will be done by the city contractor, and the job will be put to the lowest bidder. The work is expected to be completed within the next ten days.

We are often asked how it is that we are able to sell our Violin Strings, Violin Bow, Clarinet Reeds, Guitar Strings, and all Musical Instruments at a lower price than is charged by other dealers. Here is the HOW OF IT: There are no Gad strings made in the United States, and, in order to secure FRESH, RELIABLE STOCK for our customers, we import DIRECT FROM EUROPE. In this way we cut out all MIDDLE PROFIT, and sell BETTER GOODS for LESS MONEY than other dealers. The Peddick Piano merchant says that we are the ONLY DEALER that import through the cannon holes in the city Catch em—we are the only ones that can take prices.
