Senate Passes Bill To Create Separate Agency Despite Hard Opposition From Sen. Barkley

Bill Takes Control Of Production From Nelson's Hands

ARRESTS AT NIGHT TO GIVE PRESIDENT FRED'S NATION'S DISARMAMENT

WASHINGTON, May 19 (U. S. News & World Report) — In a move to strengthen American defenses, the Senate today passed a bill to create a new agency that would be responsible for the production of strategic materials. The bill, which was introduced by Sen. Fred, is expected to be signed into law by the President within the next few days.

The new agency, the Strategic Materials Production Authority (SMPA), would have broad powers to control the production of critical materials, including steel, rubber, and aluminum. The bill also provides for the appointment of a new Secretary of Defense, to be nominated by the President and confirmed by the Senate.

Billreactstrap by Sen. Fred and cosponsored by 30 other senators, the bill was passed by a margin of 81-18. It now goes to the House for consideration.

The move comes as the United States faces increasing pressure from its allies to accelerate production of strategic materials. The bill is seen as a significant step in this direction.

Senator Bridges Demands That All States Ration Gasoline

WASHINGTON, May 19 (UPI) — Senator Bridges (D-CA) today introduced a bill to require all states to ration gasoline, effective immediately. The bill is in response to the recent fuel shortages that have plagued the nation.

"We cannot continue to allow the states to make their own decisions on gasoline allocation," said Bridges. "We need a national plan to ensure that all Americans have access to gasoline." The bill, if passed, would require states to establish a system of quotas for gasoline purchases, based on population and employment levels.

The bill has been met with resistance from some states, who argue that it would disrupt their economies. However, Bridges remains committed to the bill's passage, saying, "Protecting the American public is too important to leave to the whims of individual states."

RETURN FROM CONVENTION IN KENTUCKY

Mrs. W. T. Moore and Mrs. M. Drasher, who were delegates for the American Legion Auxiliary of Fulton, returned last night from the 22nd annual convention of the American Legion Auxiliary held at the Jefferson Hotel July 23rd and 24th. The American Legion convention was also in session for those three days, with Mrs. Moore, Mrs. E. A. Rice, and several others held in office.

Besides morning and afternoon sessions during which the usual reports were made by representatives from the various units, the program for the three days included a luncheon at the Kentucky Hotel, a reception at the headquarters of the American Legion Auxiliary of Kentucky, a Pan-American pageant, and the launching of a United States naval vessel.

housewife, had entertained naval and coast-

Those enjoying the occasion were Colonel E. S. Adams, base sergeant of the Medical Corps, Army Air Corps, Mr. and Mrs. Robert W. Burrow, recruiting officer of the Marine Corps. Governor Keen Johnson was to have delivered an address at a joint meeting of Auxiliary representatives from the various units, but was unable to be present.

The delegates from the Fulton Auxiliary were Mrs. J. C. Miller, Mrs. W. H. Harrison, and Mrs. W. H. Hartzell, who were in charge of the three units in this district to receive this honor.

SHE'S IN THE RYE

When his factory was closed down for the war, Mr. W. H. Hartzell, owner of the Hartzell Shoe Co., was faced with a severe financial crisis. He turned to the American Legion and was given a loan of $15,000 to help him carry on.

SUNNY DIP SWIMMING

When it is 90° in the shade it is cool in the pool. Come in and have a good swim and feel refreshed. This pool is sanitary in every way. Running water and the pool is scrubbed several times each week.

THE TIME IS SHORT

There may be a shortage of coal next winter. The Government urges every consumer to store all coal possible this summer. It is the wise and prudent thing to do.

CALL us and let us fill your coal bins!

THE U. S. GOVERNMENT

Urges all consumers to fill all coal bins before time like this by failing to meet this quota? We CAN, We WILL, We MUST!

WE'VE TAKEN OFF THE BLINDFOLD!

Yes, we've removed the blindfold from the eyes of the Axis. They said we couldn't get going fast enough to become a real factor in the war. They said we'd rather win an election than win a war. That'd be being tall on rubber too long; we were soft, we couldn't take it, we couldn't dish it out. But we're showing them what it means to blow American machines driven by free Americans. We've shown 'em we can take it on Batman; we've shown 'em we can dish it out over Tokyo... and we're gonna show 'em plenty more.

Now, take a look at the Minute-man above. He is symbolic of the Spirit of Resolve; a soldier at home, ready to serve on a minute's notice. We can't all carry a gun but there's a place of service for every American with an interest. Right now Uncle Sam is asking Fulton County War Bonds for the month of July. Are we going to let our government down at a time like this by failing to meet this quota?

Let's be Minute-Men in the true sense... Let's turn every surplus dollar and dime into War Bonds and Stamps today. WE CAN, WE WILL, WE MUST!
