We’re All in This SCRAP!

You remember the mythical story of how a man named Atlas once carried the world on his shoulders. And how glad we’d be today if we could shoulder this old world and lift it out of sin and disease. But it can’t be done that way. This task of winning a war is something more than man-size, and individuals as well as industry must have a part.

As a business enterprise, we are proud that we can help feed America in our small way. We are proud of these days from this organization who have answered the call to service. Of course, making Flour and Feed is our business, and when this struggle is over we hope we may still be proud of every product that bears this name.
