CONDENSED NEWS.

The U. S. Senate will discuss the fisheries treaty with open doors.

A cyclone struck Shane's Crossing, O., Sunday, and damaged property to the extent of \$30,000.

One million copies of Carle's tariff speech, according to present indications, will barely supply the demand.

Rev. Lyman Abbott, D. D., has accepted the permanent pastorate of Plymouth church to succeed Henry Ward Beecher.

A waterspout tore up five miles of railroad track, damaged a number of houses and killed about twenty head of stock near Chadron, Neb.

As for Chauncey Depew, the beautiful air which is tangled in his side-whiskers shows all too plainly that he is still dreaming of Mr. Blaine.

Three burglars broke into Jay Gould's house on the Hudson, a few nights since. Being very expert in their business they escaped without being robbed.

Congressman Scott, of Pennsylvania, was hung in effigy in Pittsburgh, Monday. As Pittsburgh is the home of monopolists or protectionists this is not at all surprising.

Congressman Scott appears to have fed the Pennsylvania democrats with harmony until they could hold no more. Not even Mr. Randall found a chance to quarrel with the sugarist.

There was a royal wedding in Europe yesterday, which did not immediately concern any of the Batsburg family. This news is sufficiently startling to bear a close resemblance to a crisis.

Gen. Black and Gen. Stevenson live next door to each other in Washington. It may be that both of them sit up nights to see that the vice-presidential nomination is not unloaded on the other fellow's doorstep.

The Kentucky congressional delegation, headed by Senator Blackburn, accompanied by ex-Gov. Proctor Knott and other distinguished Kentuckians, called upon President Cleveland the other day and invited him to visit Kentucky in the early fall.

A brakeman named Wm. Cain was killed in South Tunnel, near Bowling Green, Monday night. A freight train parted while passing through, and Cain got up to set the brakes. He struck his head against the top of the tunnel and was knocked off the cars and under the wheels.

Another wreck on the Louisville & Nashville railroad occurred near Frankfort, Ky., Tuesday evening. The wreck of Monday night had hardly been cleared away before another was reported. Local freight No. 11, south bound, was passing Mitchellville, when the boiler exploded, killing Engineer Quinn, who lived in Bowling Green, outright.

The fireman, George Farley, and head brakeman Lewis Richardson, are reported in a dying condition. Ten cars are derailed, six empty and four loaded.

Judge Sterling B. Toney, in the law and equity court, of Louisville, has placed in the hands of Marshal Montz an attachment against the person of C. P. Huntington, the railroad magnate, for contempt of court. The attachment is made returnable May 31, and has a \$5,000 bond affixed to it. Marshal Montz must bring his prisoner into court, and he will then be required to show cause why he should not be sent to jail for contempt. The whole case is highly sensational, and grows out of the short route, or Belt line of Louisville. Huntington failed to attend court when ordered to appear. The chances are unless he can give good reasons he will be sent to jail, as Judge Toney has made some marvelous decisions in his court.

CROFTON, Ky., May 30.—Revs. J. W. Brigham and Mr. Cundiff, of the Methodist church, are holding a protracted meeting here this week.

The investigation of the prohibition violations was held here yesterday before Judge Jackson and Squire Myers. J. J. Nixon was acquitted on the evidence before the court, but further investigations will be held next Friday.

A. A. Woodson surrendered himself to Squire Armstrong at Empire and will have his case investigated at that point.

Judge Petree and County Attorney Payne appeared yesterday for the Commonwealth, and R. W. Henry for the defense.

Mr. and Mrs. Jesse Ratcliff returned yesterday from Princeton.

Miss Jennie Oldham, Empire, is spending a few days visiting here.

Wash Etheridge, who has been in the railroad office here for sometime, went to your city Monday to accept the position of night operator.

Mrs. Dr. Jackson sustained a severe injury to the head Sunday from a heavy block of wood hitting her.

The usual stereotyped edition of "penny bills," "well filled baskets," "days of enjoyment," candidates invited," etc., have made their appearance.

Crops are looking finely in this locality notwithstanding the ground is full of insect pests and the season has been so cool.

Clint Young and Sam Garrard, formerly merchants here but now living in Tennessee, were here Monday.

Jo Berry's old mule "Sam" tried to push "old Grip's" engine off the track the other night, with the usual result.

It would be a profitable scheme for some one to establish a good butcher-shop here. It is needed badly.

Dr. J. R. Harris, representing the Green River Nurseries of Bowling Green, Ky., spent last week in Todd, in the interest of his firm.

Malaria steals fire from the mind and vigor from the limbs unless you take Acroman's Purgative Peas. They give you new vim. Cures and drives malaria from the system when all other remedies fail. For sale by H. B. Gardner.

The ghost of a colored preacher, who was recently hanged in Georgia, is said to occupy his old pulpit, on Sunday nights and deliver sermons with great fervor to his terrified flock. This is a powerful argument against Mr. Randall's proposition to abolish the tax on whiskey. If a large internal revenue tax cannot completely drive away ghosts, the crop would surely grow very tall and rank if every man were permitted to be his own moonshiner.

Attention R. R. L.
For sprains, bruises, rheumatism, cramps, inflammation, swelling, cuts, burns, etc., in man, and splint, ring-bone, windgall, epizootic, scratches, etc., in horses, Rungum Root Linctament is a sure cure. The "King of Linctaments" is the universal verdict. Never fails to cure any ailment that can be reached by an external medical application. 50 cents per bottle. For sale by all druggists.

It is estimated that President Cleveland and Mrs. Cleveland are receiving invitations for visits during the summer holidays at the average rate of one a minute. If the president and his wife should deem it desirable to refuse some of those invitations, they will run the risk of being considered unkind. Still, it doesn't seem possible that they can accept them all and get back to Washington by the 4th of next March.

Thirty years ago farmers cut wheat with a cradle, and their wives sewed by hand. Now they have the reaper and the sewing machine and wonder how they got on in those days without them. Such is the progress of the age and Acroman's Purgative Peas for all disorders of the liver, blood and kidneys, is acknowledged by the people to be far superior to all old time remedies. For sale by H. B. Gardner.

The announcement that the Detroit river is to be tunneled is exceedingly gratifying. In fact, we cannot too highly commend that spirit of precaution which has moved the Detroit people to prepare a hole for their base-ball club to crawl into when the swallows homeward fly and the roses scattered lie.

The Verdict Unanimous.
W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at Harry B. Gardner's City Pharmacy.

Perhaps Mr. Blaine starts on his coaching tour in Great Britain on the 1st of next month in order to gain the necessary experience to make him successful in coaching the Chicago convention, which meets a fortnight later.

THE TRIUMPH OF THE NEW ERA

THURSDAY, MAY 31, 1888.

A MOOD.

It was an egg of the Great An, a Very Rare Bird.

The highest price ever paid for an egg, so far as known, was the world's being, that it received at an auction sale of the effects of a Mrs. Wied, held in London the other day.

But this egg was not a simple egg, it was an egg of the Great An, a Very Rare Bird.

There is a mounted skin of the auk in the American Museum of Natural History in this city, that was purchased in London, in 1892 for \$625.

The form of the auk is familiar to all who have read illustrated accounts of early voyages to Greenland.

NECKLACES IN ALL AGES.

They Once Were Badges of Slavery—Used by All Peoples.

The advantages which the neck, both from its position and shape, possesses as a point for adornment were early seen by the human race, and the necklace is one of the oldest of human ornaments.

The earliest known form of necklace outside of such primitive types as shells and beads, is that of the ancient Egyptians.

They were of two kinds—ornamental and what may be called, for the lack of a better word, superstitious.

These necklaces were made of small stones, of which line was apparently the favorite color, set in silver or gold and joined together in a chain.

The necklace, however, held for many years only by worn by the freeman.

LOCKS OF GOLDEN HAIR.

Every editor who has to deal with purely literary contributions will bear witness that nine-tenths of the verses offered by young writers nowadays are of this morbidly melancholy class.

There is a real trouble even in the world, a painful God knows. Let us have words of sympathy, of brave sweet comfort, in our sorrow, not in our gloom.

Among the Albanians exist bitter feuds that have been handed down from generation to generation, and when men meet of these two families there is bound to be a fight that will last until one of the parties is killed or disabled.

Similar feuds formerly existed in Germany. An old poem has it that "Red haired men and old trees are rare in fertile soil."

It is an interesting fact, especially in view of certain comparisons nearer home that it suggests that in Australia the subject of school hygiene has received special attention for some years in the state or public schools.

On a recent cruise of the United States Fish Commission, a sailor, who was a Cuban man, attempted to throw overboard a large fish.
