# Murray High Wins State Championship 14-0

The Murray High Tigers won the Kentucky State Class A football championship today by scoring two touchdowns in the final three minutes of play, beating the Beechwood Tigers 14-0 in a game which ended just before press time today.

The first Murray High TD was set up by a Brad Barnett interception of a Mike Murray pass at the MHS 43-yard-line. Barnett returned the interception to the MHS 49-yard line.

The big play of the first scoring drive was a 26-yard scamper by quarterback Wes Furgerson to the Beechwood 23. With a third and seven at the Beechwood 20, Furgerson moved the ball within a foot of a first down at the 13-yard-line, and then bulldozed his way through the middle of the line on fourth down to pick up the first down.

The touchdown pass to Barnett came on third down and the

kick for the PAT by Tim Lane was no good making the score 6-0. Murray High's second touchdown came with 1:33 remaining in the game.

Kevin Skinner's kickoff following Murray's first score was fumbled by the Beechwood receiver but recovered by a teammate on the 16. Beechwood's premiere quarterback, Mike Murray, then threw four straight incomplete passes, turning over possession to Murray High at the Beechwood 16.

Three plays later, Furgerson rolled around end to the endzone to ice the game at 12-0. Cliff Dibble added the two-point conversion giving the Tigers the 14-0 win.

The Tiger football team is expected to arrive back in Murray sometime between 8 p.m. and 9 p.m. The game will be telecast by WPSD-TV at 2:30 p.m. Saturday afternoon.

The first half of the championship game was primarily a defensive battle between the two packs of Tigers.

Beechwood took the opening kickoff but could generate no major threat and was forced to punt. Murray took over on their own 20-yard-line after the punt travelled into the endzone.

The Murray High drive stalled on the Beechwood 29-yard-line when the Tigers failed to make a first down. Beechwood took over and mounted the most serious scoring threat on the half.

With a fourth down and two at the Murray High 17-yard-line, Beechwood's Miller broke through the Murray defense and carried the ball to the three-yard line. But an illegal motion penalty nullified the gain and Beechwood's ensuing attempted field goal fell short of the goal.

Murray High took over on the 20-yard-line but again the

Beechwood defense held. Wes Furgerson then connected on his first of two fantastic punts of the half, this one a 60-yarder to the Beechwood 22. Furgerson also punted for 50 yards in the first half.

With a little over six minutes remaining in the half, Murray High recovered a Beechwood fumble on the Beechwood 33-yard-line, but the offense again could not move against the strong Beechwood defense and Beechwood took possession of the ball on their own 20.

The two teams exchanged punts in the remaining minutes of the half with neither team getting into scoring position.

A complete report on the game, including photos will appear in Saturday's edition of The Murray Ledger & Times.

### Officials Urge TVA To Restructure Rates

By The Associated Press .. The Tennessee Valley Authority's plan to raise electricity rates has left state officials urging that the entire TVA rate system be restructured.

It stated earlier this week when Tennessee Energy Director Carroll V. Kroeger said the current TVA rate system penalizes those who have followed pleas to conserve power.

"I don't think it's fair," he said, "and I don't think it's very good business."

"I think they ought to look at a rate restructuring," he said, adding that TVA's rate structure is now based on promoting the use of more electricity by charging progressively less for larger customers. Kroeger said the system should be reversed, penalizing customers who use a lot of power.

TVA's directors meet next week to discuss the proposed rate hike, which TVA says is needed because voluntary power cutbacks have reduced revenues. The agency says rates could go up by as much as 20 per cent.

Agreeing with Kroeger, were Alabama energy director Ed Hudspeth and Georgia energy information officer Lamar Cobb.

"I think all state energy officers agree that you ought to pay more for electricity as you use more," Hudspeth said. The problem, he said, is that if one state changes its rate system and others don't, industry would be less attracted to the state penalizing big power users.

Cobb, public information officer for the Georgia energy de-

partment, said TVA had no alternative to raising its rates. But he said he personally agreed with Kroeger.

"When you get into the position of rewarding large use of energy by giving a lower rate," he said, "you contribute to the high use of energy. You don't solve it, all you do is perpetuate it."

Energy director George Cochran of Mississippi and Damon Harrison of Kentucky both said they were not in a position to

recommend rate structure changes without thoroughly studying the matter.

North Carolina's energy chief Fowler Martin said he was not familiar with TVA's rate structure and could not comment on the situation.

Sen. Bill Brock, R-Tenn., recently a vocal critic of the TVA, said there is no justification of the proposed rate hike. For several weeks, Brock has criticized TVA for its handling of the coal strike induced energy shortage.

### Legislation Increasing Price Support On Tobacco To Senate

The U. S. House of Representatives has passed and sent to the Senate legislation to increase the price support on tobacco.

The bill was sponsored by Rep. Frank A. Stubblefield, Carl D. Perkins and other Representatives of tobacco growing districts. The measure repeals the law enacted in 1960 which required the Department of Agriculture to set the support level on the average of prices paid by farmers for the three calendar years immediately preceding the calendar year in which the marketing year began.

The measure would support Burley and other tobacco types at 90 percent parity. Stubblefield said that tobacco growers faced economic disaster due to sharply rising prices of fertilizer, farm

equipment and fuel in the past 12 months.

Under the method currently in use in determining the level of price supports for tobacco, the support level has fallen to 60 percent parity.

When finally enacted, the bill would call for support prices for Burley tobacco of approximately \$1.32 per pound. By using the past three year average of prices paid by farmers, the support price does not reflect increased grower cost which has shot out of reach in the past 12 months, Stubblefield said.

The measure now goes to the Senate. Stubblefield said strong efforts will continue to obtain clearance at the earliest possible date so that changes will have maximum impact on the Burley auction sales which began this week.

### Opposition To Tentative Pact Picking Up

CHARLESTON, W.Va. (AP) — Opponents of the tentative contract between the United Mine Workers Union and coal producers are picking up strength in the nation's coalfields.

At a Thanksgiving Day meeting in Bellaire, Ohio, Local 2262 President William Yost joined the growing list of low-echelon officials voicing opposition to the agreement reached last Sunday.

"The contract doesn't add up to snuff," Yost charged. "It's really a sad day when coal miners get sold down the road." Specifically, he said the pay scale is too low and there is not enough vacation time. He also criticized UMW President Arnold Miller for failing to win increased medical and dental benefits.

A protest rally is scheduled for today at the union's District 6 headquarters in Bellaire. And another is to be held when local officers gather Saturday at Wheeling College in Wheeling, W.Va., to hear an explanation of the accord.

The Wheeling meeting is just one of several set up to explain what Miller calls "the fattest

labor settlement in this decade." The local officials are then expected to sell the pact to their members.

The three-year contract was approved by the union's 38-member bargaining council Tuesday night. But critics note that an earlier rejection the same day indicates the council was pressured into the action.

"They (the bargaining council) know what the rank and file are thinking," said one local official, adding that most miners feel the 10 per cent pay boost the first year is not enough.

Meanwhile, more militant miners in southern West Virginia are organizing car caravans to spread their campaign against the settlement because it contains no provisions allowing them to strike over local grievances.

Opposition is also developing because of the union's efforts to speed up ratification. Officials

have said that if the voting can begin on Monday, the union's 120,000 members could be back on their jobs by the end of next week.

Miners are complaining that the Monday vote gives them only one or two days to study the complicated 126-page agree-

ment. The effect, they charge, is to nullify the assurances of democracy Miller vowed when he was seeking the union's presidency.

So far, few miners are feeling any immediate pressure to return to their jobs. About 2,500 members set up, special ac-

counts in the UMW's credit union last January in anticipation of the strike. Officers of the credit union say the accounts average about \$300 and that there have been very few withdrawals so far. However, they say most didn't intend to draw on the accounts until December.

### OVC Section Today

Today's Murray Ledger & Times contains a special, 12-page, tabloid section on Ohio Valley Conference basketball which gets underway this weekend.

In-depth stories on each of the eight teams in the conference have been prepared by Murray Ledger & Times sports editor, Mike Brandon.

Readers and fans are urged to pull out the section to review the upcoming season and to save the section for reference throughout the year.

### Festival Will Be Held Here

An Arts and Crafts Festival will be held Monday and Tuesday, December 2 and 3, in the Student Union Building Ballroom, Murray State University. Hours will be from nine a. m. to eight p. m.

The festival will be sponsored by the Delta Sigma Phi Little Sisters, a group of ten girls, and Delta Sigma Phi fraternity on the Murray State campus.

Persons from all over Western Kentucky will exhibit and sell their goods as well as several shops and churches from Murray, Benton, and Mayfield.

Some of the booths will include Sarah Coventry Jewelers, Wild Raspberry Boutique, Golden Rod Gift Shop, Jim's Ceramic Shop, Huie's Flower Shop, Beta Sigma Phi, and Christmas crafts and art objects from MSU students and other persons in the area.

This festival is a chance for the school and community to work together in this financial project, a fraternity spokesman said. The money earned by the fraternity groups will be used to support fraternity projects and also to sponsor a community service activity in the spring.

LOCAL CITIZENS DONATE HUNDREDS OF HOURS, RED CROSS WATER SAFETY—The American Red Cross National Organization has honored two local citizens for their hours of instruction in Red Cross Water Safety. Dr. Rex Alexander, Murray State professor in the Physical Education Department, was presented a citation for three hundred hours of teacher training. Mrs. Christine Halteman received a citation for five hundred hours of participation in the "Learn to Swim" programs conducted for the public. These awards were presented on the Murray State television program "Focus" on November 25, by Dr. Chad Stewart, Red Cross Water Safety Chairman for Calloway County and Mrs. Jean Blankenship, executive director of the local chapter. Left to right, are Halteman, Blankenship, Stewart and Alexander.

OPEN HOUSE—Members of the Murray Art Guild are preparing for the annual Christmas Open House, to be held Sunday at the Art Guild from two to five p.m. Workshops have been held during the year at the art guild by Jerry Watson, Ralph Bagley, and Richard Jackson. Several members have also held individual exhibits at various places in the community and surrounding area. Guild members decorating the fireplace are, from left, Roberta Tarry, Sally Guy, Cynthia Peterson, and Barbara Harrell. Refreshments will be served.

### Weather Forecast

Increasing cloudiness and cold today with slight chance of light rain or snow showers by late afternoon. Highs today in the mid to upper 30s. Cloudy and cold with chance of snow tonight, becoming more likely Saturday. Lows tonight in the low to mid 20s. Highs on Saturday in the low to mid 30s. Winds northeast to easterly 7 to 15 miles an hour today and tonight. Outlook for Sunday is snow ending, becoming partly cloudy and cold. Probability of measurable precipitation is 20 per cent today, 50 per cent tonight and 60 per cent Saturday.

## Murray Club Celebrates 47th Birthday At Dinner; Mayor McNutt Is Speaker

The Murray Business and Professional Women's Club celebrated its 47th birthday on Thursday, November 21, at 6:30 p.m. at the Murray Woman's Clubhouse.

During dinner, which was turkey dressing with all the trimmings, the group was entertained by Richard Jones, pianist. Club Member Elaine Brown later formally introduced Mr. Jones and his wife, Becky, who attended the birthday dinner festivities with him, and vocalist, Mrs. Marjorie Shown, who sang the lovely old favorites, "Count Your Blessings" and "America."

Mrs. Frances Shea, recording secretary of the Murray Club, introduced the guest speaker who is the Mayor in Paducah, Dolly McNutt. Mayor McNutt gave an insight on "Religion in Politics. She was very inspiring to the women of the club, very enlightening on subjects she spoke of and entertaining and informative, a club spokesman said.

Following Mayor McNutt's talk, candles were lighted for each Past President and by those Past Presidents who were

present of the Murray B. & P.W. Club as Betty Vinson, Parliamentarian, read the name of each Past President, a candle would be lighted and Mrs. Vinson would explain what each past president had chosen her candle to stand for. The President for 1974-75, Madelle Talent, chose to call her candle "Light."

Distinguished guests attending the Birthday Party were the state president, Mary Ray Oaken, state first vice president Doris Yieser; state corresponding secretary Joann White, state treasurer Jessie Shoemaker, a past state president, Miss Ruby Wheatley, now president of the Mayfield B & P.W. Club and the club Career girl Brenda Nix. Honored guests from the Trigg County, Paducah, South Fulton, Mayfield, Emblem and Paris, Tennessee were represented with nine of their members attending.

Members of the Murray B & P.W. Club had brought items of old, such as old bedspreads their great great grandmothers had made for them for display and also items, such as, Christmas decorations to sell.

Frances Shea, center, recording secretary of the Murray Business and Professional Women's Club, presents a gift of appreciation to the guest speaker at the birthday club celebration, Paducah Mayor Dolly McNutt, as the club president, Madelle Talent, looks on.

Distinguished guests at the birthday celebration held by the Murray Business and Professional Women's Club are shown here with the club president, Madelle Talent. They are, left to right, Paducah Mayor Dolly McNutt, State President Mary Ray Oaken, State First vice-president Doris Yieser, State Treasurer Jessie Shoemaker, State Corresponding Secretary Joann White, and Past State President Ruby Wheatley.

## Miss Isabell Smith To Be Married To Kerry Burton

Mr. and Mrs. Nick Smith of Hardin announce the engagement and approaching marriage of their daughter, Nancy Isabell, to Kerry Lamar Burton, son of Mrs. Carrie Crews and the late Dewey Crews of Wickliffe.

Miss Smith is a 1974 graduate of Freed-Hardeman College, Henderson, Tenn., and is presently employed at Perkins Pancake and Steak House.

Mr. Burton is presently employed by Jess Harris.

The wedding will be solemnized on Friday, December 20, at seven p. m. at the Union Hill Church of Christ. A reception will follow at the church building.

All friends and relatives of the couple are invited to attend the wedding and the reception.

## Can foods affect our minds?

Do mental disorders cause physical illness, or vice versa? In contrast to the usual theory of psychosomatic illness (illness because of mental conflict), a British psychiatrist says perhaps one-third of all mental illness may be caused by physical disorders, specifically food allergies.

Richard Mackarness backs up his theory with many cases from his own practice in which people who spent years shuttling in and out of hospitals and mental institutions have led normal lives after eliminating certain foods from their diet, according to a recent article in Behavior Today.

The specific items—eggs, chocolate, bacon, veal and instant coffee, to name a few—vary with the individual. But after the patient stops eating them, improvement is quick.

Not all mental problems caused by allergies are dramatic. Simple depression, headaches, a general lassitude, all may be based on sensitivity to certain foods. Mackarness says people can help themselves by recognizing the symptoms.

If, after eating a meal or snack you feel excessively tired, get heart palpitations or a racing pulse, feel mentally fuzzy, try eliminating that particular food for a while to see what happens.

## And now for the good news...

By Abigail Van Buren  
© 1974 by Chicago Tribune-N.Y. News Synd., Inc.

DEAR READERS: It's Thanksgiving, and I am mindful of my many blessings. Among them is the privilege of writing this column. The responsibilities are awesome, but the rewards are great.

May I share a few of the choice "rewards" of 1974 with you?

Dear Abby: Our problem son left home two years ago, giving us no clue as to where he was headed. Then out of the blue we got a phone call from a volunteer from "Operations Peace of Mind" in Houston, Texas. (We live in Maryland.)

She said our son had dialed the toll free number he got from the DEAR ABBY column, and he wanted someone to call to say that he was doing fine.

When we got that message, we told the volunteer that if our son called again to tell him that we would gladly accept a collect call from him.

The next morning our son called! He told us that he had been living in a religious commune in Santa Barbara. It's Christian with Jewish overtones.

The end of this wonderful story is that our son came home to spend Thanksgiving with us.

Will you please publish that toll free number again, so other runaways can establish communications with their families? Our son said he posted that number near phones in all the places where runaways hang out.

Thank you for returning our son to us, Abby. We love you!

DEAR GRATEFUL: With pleasure: Runaways, call this toll free number: 1-800-231-6946.

An operator will telephone your parents anywhere in the United States and convey a message from you. There will be no lecturing or counseling. Your call will not be traced, and the only question asked of you will be, "Do you need anything?" If you do, you will be told where you can obtain it, free. I repeat, no one will attempt to contact you or bring you home regardless of your age.

Runaways, please forget the past and send that message to your parents now. They will sleep better tonight and so will you. God bless.

To date "Operations Peace of Mind" has been responsible for reuniting 2,054 runaways with their families. Beautiful!

DEAR ABBY: Four years ago, my mentally ill mother had been temporarily released in my care from the state mental institution. I doubted my ability to cope with her, and wrote to you in desperation.

You wrote me a beautiful letter which I came across again yesterday. I want to thank you for encouraging me to give my elderly, sick mother six months of freedom, church visits and home life after 35 years of confinement in a mental institution.

For the benefit of those who must care for their aging parents and feel it burdensome, I felt the glorious feelings you said I would feel after my mother passed away.

Being a semi-invalid myself then and now, your reminding me of Him who cares gave me the extra strength and patience I needed to cope with my mother's quarrelsome and sometimes irrational behavior.

You were right, Abby. Love found a way. May the Lord ever bless you.

DEAR ABBY: Thanks for being an understanding friend when I was unable to turn to any of my friends here at home.

I am the 45-year-old widow who believed herself to be pregnant. I wrote that I was putting my son through medical school, and asked you for abortion information. No one could have been more desperate than I.

Thanks for telling me about Planned Parenthood. I had no idea they would help in an emergency of that kind.

I really believed you when you wrote, "Please let me hear from you again. I care."

It is a great comfort to know that there is someone like you out there who cares enough to want to help others. Bless you.

PROBLEM SOLVED

Everyone has a problem. What's yours? For a personal reply, write to ABBY: Box No. 69700, L.A., Calif. 90069. Enclose stamped, self-addressed envelope, please.

For Abby's new booklet, "What Teen-agers Want to Know," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212.

## "Woman Educator In Changing Times" Discussed By Panel At Meet Held By Gamma Chapter At Lake Barkley

The Gamma Chapter of Delta Kappa Gamma, International Organization of Women Educators, held for its November meeting a Saturday morning brunch, at Barkley Lodge, with the president, Dr. Halene H. Visser, presiding. The invocation was given by Mrs. Mavis McCamish.

Following the business meeting, Mrs. Ruby Suffill, in charge of the program, introduced a panel, composed of Dr. Pauline Waggener, panel chairman; Dr. Alice Koenecke, Dr. Liza Spann, Dr. Halene Visser, Dr. Alta Presson, and Dr. Alberta Chapman.

The program topic was "The Woman Educator in Changing Times: Expanding Her Professional Ideology." The participants discussed questions pertaining to philosophy, preparation, and performance.

In her introduction, Dr. Waggener traced the growth of the movement to give American Women more freedom from the time of the Sonca Convention, in 1848, to the present. She emphasized the importance of the creation of a Women's Industry Service, in 1918; and, the passage of the Women's Suffrage Amendment, in 1920. And she further stated that women have developed in the educational field because of these early accomplishments; but she added that in 1970 only nine percent of the college and university faculties consisted of women.

Dr. Koenecke explained how men have long felt about women's taking part in activities other than those of the home. She similarly stressed the fact that although more women hold the doctorate than ever before, the percentage of them having earned the Ph.D. still lags behind.

Dr. Spann discussed the scarcity of Ph.D. degrees held by either men or women, but especially by women, at the time she received hers; the resentful attitude of men toward a woman's having a doctorate back then; the custom of her being paid less than her male colleagues; and the difficulties which she encountered in securing the financial means to earn the higher degree. She cited the many grants, loans, and other advantages which are open to women today to enable them to further their personal growth and development.

Dr. Presson gave as necessities for advanced work, or research, the following characteristics: Carefulness, keenness of observation, patience, perseverance, willingness to sacrifice, ability to see the importance of and the need for advanced study, willingness to do the job and to learn how to do it, and courage to use the training to resolve the problem or to serve the need.

Dr. Visser stressed the fact that the philosophy of the woman educator is extremely important; "for, as never before, we need teachers with vision and dedication. Also, the philosophy of the society is crucial, as it historically has set limits restraining the activities and the effectiveness of women

teachers."

The members who attended were Mrs. Georgia B. Adams, Miss Birdie Ashbrook, Miss Ruby Ashbrook, Miss Pattie Bolin, Miss Evelyn Bradley, Dr. Alberta Chapman, Mrs. Katie Mae Doran, Mrs. Dulcie Douglass, Miss Clara Eagle, Mrs. Gela Ellis, Miss Sue Fairless, Mrs. Louelle Forrest, Mrs. Joyce Fortin, Mrs. Myrtle Futrell, Miss Vanda Gibson, Mrs. Verda Happy, Dr. Mildred Hatcher, Mrs. Imogene Heath, Miss Rosella Henry, Miss Ann Herron, Mrs. Lula Belle Hodges, Mrs. Mary Alice Humphreys, Mrs. Irene Johnson, Mrs. Evelyn Kesterson, Dr. Alice Koenecke, Miss Mary Lassiter, Mrs. Lorene McCage, Mrs. Mavis W. McCamish, Mrs. Imogene Monroe, Mrs. Katherine Moore, Mrs. Sue Guess Morris, Mrs. Louise Overby, Mrs. Margaret A. Pickard, Dr. Alta V. Presson, Miss Lovey Raburn, Mrs. Edna Whayne Radford, Miss Betty Ann Rogers, Mrs. Eva Ross, Miss Jo Anna Rowland, Mrs. Margaret M. Rudd, Miss Katy Belle Shaw, Miss Ruby Simpson, Mrs. Mary J. Smith, Dr. Rubie E. Smith, Dr. Liza Spann, Mrs. Ruby Suffill, Mrs. Carolyn Sullivan, Miss Lorene Swann, Mrs. Thelma Thomas, Mrs. Nina T. Tuggle, Dr. Halene Visser, Dr. Pauline Waggener, Mrs. Golda Waters, Miss Katherine Williamson, Mrs. Wilna Wilson, and Miss Elizabeth Wyatt.

Add sauteed onion and green peppers to tomato sauce and use on an omelet.

## She might not settle for peanuts

DEAR ABBY: As a lawyer, may I comment on the dilemma of the divorcee who didn't know what to say when a man asked for sex outside of marriage?

She should give him a calm, lawyer-like answer; he is asking her to trust him with her body. She is running the risk of an unwanted pregnancy. What is HE risking?

Shouldn't the risk be equal? Why doesn't he give her \$1,000 in cash to put into her savings account, and at the end of nine months, if there is no unwanted baby, she can cheerfully return his \$1,000.

If she does become pregnant, she can use the money for an abortion, or partial support of the child. In that way, he at least risks something. It is clearly unfair to ask a girl to have sex, and should something go wrong, all the risk be hers.

While the risk can never be made truly equal, the deposit of \$1,000 to her account before sex would make it a little more equal.

I wonder how many men who would ask a girl to risk her body are willing to risk some of their money?

J.M.S.: PLANDOME, N.Y.

DEAR J.M.S.: If your proposition is truly "lawyer-like," the legal profession is in trouble. The girl's un-lawyer-like response could be: "If you really want to monkey around, I'm not settling for peanuts!"

DEAR ABBY: I am a 20-year-old fellow who has always liked older women. (I mean women about 45 or 50. I really groove on gray hair, and a woman with middle-age spread.)

I could never get turned on by girls my own age, and I have tried. Do you think there's something wrong with me?

When I was 17, I became very much attracted to one of my high school teachers (she was about 40) and she told me I should have a long talk with the school psychologist, but I never did.

I've heard of men marrying women 20 years older than themselves, and I can't see where there is anything terribly wrong with that.

Please tell me if you think I have a problem, and if I have, how serious is it? Thanks.

Don't tell me I am searching for my mother, because she died when I was a baby and you can't miss what you've never had.

LIKES THEM OLDER

DEAR ABBY: You have a problem. Your high school teacher gave you some good advice. You need professional help, and I suggest you get it. (P.S. And who said you can't miss what you've never had? It's possible to miss that the most.)

DEAR ABBY: Six years ago, I married a handsome, trim man with whom I'd been in love for three years. The first four years of our married life was wonderful. The last two have been something else.

He started to gain weight, and kept piling it on until now he looks like a barrel of lard. When I try to tell him it's unhealthy and unsightly, he gets angry and refuses to listen. He is so gross it makes me sick to look at him. I no longer want him to make love to me. He's repulsive.

Three weeks ago, I gave him a ultimatum. Either lose 50 pounds in the next six months, or I'm leaving. Apparently he didn't take me seriously because he's still drinking and eating like a herd of horses.

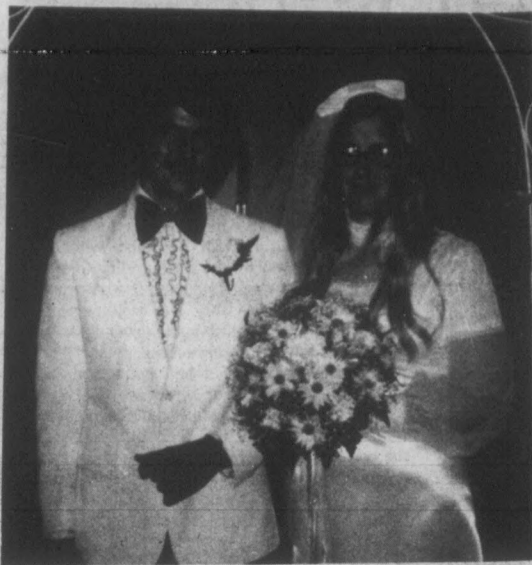

I'm not asking for advice. I want to go on record in your column, and I'll see that he reads it.

MEANS BUSINESS

DEAR MEANS: You're on record, but if you really love him, you'll help him. An ultimatum is no help. He needs a physical examination, a good diet program, and lots of love and moral support from you.

CONFIDENTIAL TO ANNAMARIE: One woman's leftovers can be another woman's banquet. Now is the time to talk turkey.

## Miss Christie L. Fielder & Leonard Stephens, Jr. Married At Green Plain

Mr. and Mrs. Leonard Stephens, Jr.

The Green Plain Church of Christ was the setting for the fall wedding of Miss Christie Leigh Fielder, daughter of Mr. and Mrs. James Fielder, to Leonard O. Stephens Jr., son of Mr. and Mrs. Leonard O. Stephens Sr.

The vows were exchanged at seven o'clock in the evening on Friday, November 8, before the white bridal arch with vases of white and purple flowers on either side. The double ring ceremony was read by Cecil Corkren, minister of the church.

### Bride's Dress

The bride, escorted by her father and given in marriage by her parents, wore a full length wedding gown of white tulle with an empire waist. The bodice was of lace with a sheer yoke and high lace collar. The sleeves were sheer with wide lace cuffs. Her finger tip veil of illusion was attached to a white velvet bow.

She carried a bridal bouquet of daisies, carnations and baby's breath with white streamers.

Miss Regina Stephens, sister of the groom, served as maid of honor and only attendant. She wore a floor length dress of orchid double knit and carried a bouquet of white and orchid flowers with orchid streamers. Lal Elliot served the groom as bestman. Kevin Fielder, brother of the bride, and Timothy Stephens, brother of the groom were ushers. Each escorted their mothers to their seats.

Miss Joyce Stephens, sister of the groom kept the guest register. She wore an off white

floor length dress trimmed in gold and wore a corsage of daisies.

The bride's mother wore a three piece ensemble of blue and off white double knit with a corsage of white carnations. The groom's mother wore a blue and blue figured double knit dress and coat ensemble with a corsage of white carnations.

The grandmothers of the bride, Mrs. Finis Thompson and Mrs. Willis Fielder, were each presented with a corsage of daisies.

### Reception

Following the ceremony a small reception was held in the home of the groom's parents.

Serving at the bride's table was Miss Joyce Stephens, sister of the groom, and Cindy Brandon, cousin of the bride.

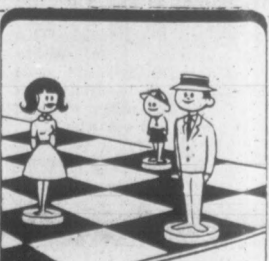

After a short wedding trip the couple will be at home at their new mobile home on Murray Route Eight.

## Madisonville Woman's Club Plans Tour

The Woman's Club of Madisonville will sponsor its Third Annual Home Tour on Sunday, December 8, from one p.m. until five p.m. This year's tour will originate from the Rush Dozier Real Estate Office at 100 West Broadway.

The open homes this year will be those of Mr. and Mrs. Lawrence Casner, 304 Union Street; Mr. and Mrs. David Dugger, Island Ford Road; Mr. and Mrs. Carroll Branson, 307 North Main Street; Mr. and Mrs. Charles Favors, Shamrock Drive and Mr. and Mrs. Richard Spence, Lakeview Drive.

Tickets are available at Pate's Card and Gift Shop, The Paper Mill or any Woman's Club member. Tickets at three dollars may also be purchased at the Rush Dozier Office on the day of the tour. Out of town guests can reserve tickets by contacting Mrs. Lyall Stewart at 821-4140 or Mrs. Kenneth Swain at 821-1998.

### COMMUNITY CALENDAR

Saturday, November 30  
Trophy dinner for the Oaks Country Club will be held at the MSU Ballroom with a social hour at six p.m., dinner at seven p.m., awards and business at eight, and dance with Bob Nance Band at nine p.m.

Sunday, December 1  
Christmas open house will be held at the Murray Art Guild from two to five p.m.

Monday, December 2  
Baptist Women of Sinking Spring Church will meet at the church at seven p.m.

Chapter M.P.E.O. will meet at home of Mrs. John Quermous at 7:30 p.m. with Mrs. Olga Freeman giving the program.

North Calloway Elementary School PTC will meet at the school commons at seven p.m.

Lottie Moon Group of First Baptist Church Women will meet with Mrs. Hollis Roberts at 7:30 p.m. Each one is to bring four or five pieces of fruit.

Executive Board of Murray Woman's Club will have its luncheon meeting at 11:30 a.m.

Spring Creek BYW will meet at the church at seven p.m.

Recovery, Inc., will meet at Mental Health Center at seven p.m.

Alatene will meet at AA Hall at seven p.m.

Murray-Calloway County Retired Teachers Association will have a potluck supper at five p.m. at Ellis Community Center.

Baptist Women of First Baptist Church will open program for week of prayer for foreign missions at church at nine a.m.

Tuesday, December 3  
Progressive Homemakers Club will have its Christmas dinner meeting at the Holiday Inn at 6:30 p.m.

Group II of First Christian Church CWF will meet at home of Mrs. Ernest Bailey with Mrs. Lessie Pickard as cohostess at two p.m. Mrs. Jack Bailey will be guest speaker.

A book study will be held by BYW and WMU of Sinking Spring Baptist Church at seven p.m. at the church.

Murray Assembly No. 19 Order of the Rainbow for Girls will meet at the Masonic Hall at seven p.m.

Kirksey Baptist Women, Acteens, and Girls in Action will meet at the church at 6:30 p.m.

The Delta Department of Murray Woman's Club will meet at the club house at 7:30 p.m. for the program by the Music Department. Hostesses will be Miss Clara Eagle, Mesdames J. I. Hosick, Stanford Hendrickson, Eugene Tarry, Vernon Roberts, A. H. Kopperud, and C. B. Ford.

Murray TOPS Club will meet at Health Center at seven p.m.

First Baptist Church Women will meet at the church at nine a.m.

Dorothy Group, First Baptist Church Women, will meet at the home of Mrs. Lloyd Jacks at ten a.m.

## Head Start Supper Held

The Head Start annual family potluck supper was held at the Douglas Community Center and Head Start School on Thursday evening, November 21.

Fifty parents and eighty children were present for the supper and social hour.

Appreciation was expressed by the parents and staff of Head Start for their donations for the supper. They include Burger Queen, Burger Chef, Parker's Food Market, Bank of Murray, Peoples Bank, Dwain Taylor, Jeffrey's, Settle-Workman, Ross Standard Station, Parker

Ford, Murray Appliance, Larry Hurt of Murray Supply, Thurman Furniture, Starks Mobile Home, McClard's Shell Station, Enix Interiors, P. A. Lindsey, Mrs. Sue Lamb, Beale Hardware, Shirley Florist, IGA Northside, Kroger, Storey's, Big K, Roses, Southside Restaurant, Colonial Bread, Bunny Bread, and Scott Drugs.

Place chicken quarters over mounds of bread stuffing (prepared as for roast chicken) and bake in a moderate oven; baste the chicken during the baking.

## Let's Stay Well

## The Fad Disease

By F.J.L. Blasingame, M.D.

Tagging the diagnosis of hypoglycemia, or low blood sugar, onto various ill-defined cases of physical malaise is somewhat of a fad these days, in the opinion of a number of medical authorities.

One of these authorities is Rachmiel Levine, M.D., Executive Director of the City of Hope Medical Center, Duarte, Calif., according to his report in a recent issue of the Journal of the American Medical Association.

Hypoglycemia results in weakness, dizziness, or fatigue. However, a number of other conditions produce, for obscure reasons, similar symptoms, even though the blood sugar levels may be within normal range. Dr. Levine believes that it is the current practice to blame too often hypoglycemia as the cause of these symptoms when such is not accurate.

Most authorities consider hypoglycemia a relatively rare disease. It is attributable to an excess of insulin, which drives down the blood level of glucose.

While mild cases may be relieved by frequent feedings of food that replaces the sugar deficiency, the more severe cases require surgery

to explore the pancreas for a tumor, the source of the excessive insulin. If the tumor is removed, the hypoglycemia is relieved, and symptoms disappear.

The common causes of weakness and fatigue exhibited by most persons are psychological states, such as mild depression and anxieties. Many of us have occasional situations arise which we cannot face pleasantly and cannot avoid, resulting in tensions that spend our energy and make us tired and weak. Blood sugar levels are normal.

If we develop insight and come to understand that such symptoms arise from a life situation, they become more tolerable and soon disappear. Mild depressions may require medication for a brief result from the release of histamine into the skin. Such

can come about from emotional disturbances, and they should be considered a possible cause if the skin changes persist or recur.

Q. J.K. writes that aspirin sales must be high to support so much advertising and asks for a few facts.

A. True, Americans consume over 43 tons of aspirin per day. In addition to the form of tablets, aspirin in an active ingredient of more than 500 other mixtures. Sales from aspirin and other products containing it amount to about \$650 million per year in the United States.

Q. Mrs. B.E. asks whether it is possible to have "nettle rash" or hives without being allergic to something.

A. Yes. Hives or urticaria

## Bible Thought

Jesus Christ the same yesterday, and today and forever.—Hebrews 13:8. We need something in our changing and perishable world that is secure and constant. This we find in Christ who never changes.

## Garrott's Galley

No, Rebecca, We Only Have  
An 'Outside Dog,' Prissy

By M. C. GARROTT

Rebecca (Mrs. John) Irvan, bless her heart, was one of the first to tell me that she enjoyed reading this column.

Rebecca, whom a lot of us think looks and talks like President Ford's wife, Betty, went on to ask if I had an "inside dog" and an "outside dog" like Jim Williams used to write about in his "Seen and Heard" column.

Yes, we have a dog. Her name is "Prissy," so named by our youngest and in honor of our new daughter-in-law, Priscilla, who joined our family circle last August 3.

"Prissy" just sort of took up with us last January after persisting on sleeping in our garage. We never did know where she came from or why, but she is now a full-fledged member of the family and has her own, fancy dogbed in the garage.

We don't worry about puppies. Last April I came home from a week in Louisville to find the yard full of her boy friends, and she and I made a flying trip to my friend, veterinarian Jim Converse. Six days later, she was back home as good as new and we were breathing easy again.

"Prissy" started out as a combination "inside-outside" dog, if you want classify an inner-and-outer like that, but ever since the evening she did a job on the carpet in one of the bedrooms, she's been demoted to strictly an "outside" dog.

She loves us, though, and we love her, and when we have to leave her for any length of time, she'll almost talk to us in her happiness at having us home again.

What breed is she? A little bit of everything from the best we can determine, although the beagle seems to be the most prominent.

Actually, Prissy is only the fifth dog in my life. Three—Kayo, Amos and Memphis—were our family dogs when I was growing up. And there was Gretchen, the only pedigreed canine we ever had.

With the exception of Gretchen, all had the run of the house as well as the great outdoors, coming and going virtually at will and causing no problems in the house.

Kayo was as much rat terrier as anything else. Although he was as much a part of the family when my brothers, sister and I were growing up he really belonged to and dearly loved my brother, Jeff, who now lives in Jesup, Ga.

Kayo was named for the little brother of Moon Mullins of comic strip fame, and it was Jeff who named him—just as he did all our dogs. Kayo was the greatest rat-killer in West Mayfield, and it was great fun to watch him go after one at the stable, whimpering and whining with anticipation as he dug furiously into a hole, finally coming up with the rat in his jaws and breaking its neck with a quick snap.

One day as he was getting on in years, Kayo was struck and killed by a car. I can still see my brother down in that ditch, cradling Kayo's lifeless body in his arms. We built a box and buried him in the backyard. No one talked much that night at supper.

Then came Amos. We never did know much about his ancestry. Seems he had a little bit of everything in his blood, but he was our "mole" dog. It also was Jeff who picked him up somewhere and named him after Amos of

the Amos 'n Andy radio show, which our family listened to faithfully to five nights a week during supper.

Jeff made good money, at least it was in those days, with Amos, catching moles at the Mayfield Country Club.

The pro would give him 25 cents for every mole they came up with. Jeff just watched and collected the money. Amos did all the work. Like Kayo with the rats, it was great fun watching Amos work. He would creep along silently, belly close to the ground, as he stalked a busy, unsuspecting mole just beneath the surface. Then he'd pounce on the furrow, dig furiously for a few seconds and coming up with old Mr. Mole in his jaws. Jeff would then take what was left of the mole to the pro and collect his quarter.

Amos, too, was killed by an automobile, and again it was like losing a member of the family, as we had had him around for five or six years.

Next came Memphis. Like our present Prissy, he just sort of sauntered in off the street and took up with Jeff, who named him after the Tennessee city. We never did know why, and I don't think he did either. He just liked the name.

Memphis, like Amos, had an unidentifiable ancestry, and he didn't do much of anything except wag his tail, eat and sleep. We had many a family laugh watching him jerk and whimper in his sleep as he lay on the hearth in front of the fire, probably chasing a rabbit or something in a dream.

He was still at home when the three of us went off to service one by one in World War II. He wasn't when we came home four to five years later. Neither was Mom, whom we missed more. I never did know what happened to Memphis.

Many years passed before a dog became a part of our family again.

This time, it was in 1965 when we got Gretchen, a full-blooded, pedigreed German shepherd with a registry name as long as your arm. She was the only dog we ever bought. We paid \$75 for her as a puppy in Falls Church, Va.

We bought her as company for Cathryn and as protection for her in the crime-ridden Washington, D. C., area while I was away traveling the 16 eastern states I was working at the time.

Gretchen grew rapidly and soon became a one-family dog. No one could come near the house without her scaring them half to death. The garbage men wouldn't come close to the place. She and I were great friends, however, and we had some great romps when I'd come home from the office.

Then Jeffrey was born, and Gretchen became so jealous of our attentiveness to him, we had to give her to a young man who bred and sold German shepherds. That, too, was a sad day when he drove off with her in the back seat of his car, her big, majestic head cocked to one side as if she was saying:

"Why? What did I do wrong? I only wanted to love you and you to love me!"

We vowed then not to get attached to another dog, and we hadn't—until Prissy came along last January and decided she'd like to live with us. We didn't have a chance.

## Let's Stay Well

## Adam From Eve

By F.J.L. Blasingame, M.D.

In the beginning, according to the Bible, God made Adam, the man, and from one of his ribs created Eve, the woman.

But studies of our embryonic development reveal that just the opposite takes place. Every human fetus starts as a female, and a little less than half of them develop into males.

Sex is determined at conception, when the sperm from the father unites with the ovum, or egg, from the mother. Sex is controlled by the female (X) and the male (Y) chromosomes. If the combination of two X's takes place, a female results. If the combination is XY, a male develops.

A chromosome is made up of a series of genes, and the genes on the male chromosome cause the creation of male hormones which convert the growing female embryo into a male. This miraculous transition causes male development from the same organs that would have been female without the influence of the male hormone.

The male genital organs have corresponding parts, homologues, in the female genitalia. For example, the clitoris of the female corresponds to the penis of the male.

Understanding the developmental history of the genital tract supplies insight into the malformations that occasionally occur because of some error in growth.

The various changes which occur early are known as primary sexual changes, and those which occur later at puberty are known as secondary sexual characteristics.

teristics. These influence the skeletal as well as the strong muscular growth in the male and the widening of the pelvis in the female. The voice box grows in the male, and the breasts and subcutaneous fat mature in the female.

Just a small amount of sex hormones makes the difference between male and female.

Q. Mrs. Q. states that she has heard of young children having "water on the brain" (hydrocephalus) and asks whether this condition ever happens in adults.

A. Hydrocephalus can occur at any stage. It is more noticeable in a young child because the skull may become enlarged. The enlargement results from pressure of the spinal fluid spreading the skull bones, which have not grown together in the young. Obstruction to the flow of the spinal fluid or a defect in its absorption causes pressure against the brain tissue, enlarging the cavities (ventricles) inside the brain. Hydrocephalus is dangerous at any age, but much can be done to correct it.

Q. My children love potato chips. Are they just as nutritious as potatoes prepared in other ways?

A. No. Potato chips are a highly processed food, containing only one-third as much protein as a potato baked in its skin. Only 3 mg. of vitamin C are in a typical serving of potato chips, while the average baked potato has 20 mg.

## Funny Funny World

## LAW

Embarrassed police in Japan's Niigata province asked a manufacturer to readjust all its radar sets used to detect speeding motorists. Ten drivers caught in a radar speed trap at Kameda protested they had not been exceeding the speed limit of 37.5 miles an hour. Test of the machine on a police car showed it was out of calibration. The radar was adding 6.25 miles an hour to the speed of every car it observed. Police withdrew the citations and issued an apology. (Tokyo Daily Mainichi)

## 10 Years Ago Today

Murray State Basketball Coach Cal Luther says he really doesn't know what to expect of the Thoroughbreds when they open their season December 1 against Arkansas State at Murray.

Rob Gingles of the Bank of Murray was named as an honorary member of the Calloway County High School Chapter of the Future Business Leaders of America, according to Danny Cleaver, chapter president.

Production plans for "Sigma Capers '65" are underway with the appointment of Mrs. Gene Landolt and Mrs. Don Keller as co-chairmen. The musical extravaganza, sponsored by the Sigma Department of the Murray Woman's Club, will be presented in January.

Births reported at the Murray Hospital November 25 to 27 include a girl to Mr. and Mrs. Darrell Morgan.

## 20 Years Ago Today

The annual Christmas lighting contest is again being sponsored this year by the Garden Department of the Murray Woman's Club, according to Mrs. Fred Gingles, department chairman, and Mrs. C. C. Farmer, contest chairman.

Willie C. Dick recently was promoted to corporal while serving in Germany with the Fourth Infantry Division.

Officers elected for the Lynn Grove Alumni Association are Hoyt Jones, Charles Baugh, Mrs. H. S. Rogers, and Carol M. Rogers.

Mrs. O. C. Wells presented the program at the meeting of the Home Department of the Murray Woman's Club held at the club house with the chairman, Mrs. G. B. Scott, presiding.

## Sunday School Lesson

By Dr. H. C. Chiles

Based on copyrighted outlines produced by the Committee on the Uniform Series and used by permission.

Dr. Chiles

ANTICIPATING A NEW BEGINNING  
Isaiah 40:1-2, 27-31

During their years in exile the Israelites drank the cup of bitterness to its very dregs. One thing which their chastisement taught them was the fact that their captivity was the natural and inevitable result of the transgressions and impotence of their fathers, in particular, but of themselves also.

The last twenty-seven chapters of this superb prophecy were written to convince the despairing that God had not abandoned and forgotten them, and to encourage them with the assurance of their restoration to their beloved homeland. This section of the prophecy is characterized by a great spirit of anticipation.

It has ever been the will of God that His prophets and spokesmen deliver to His people a message of comfort and home when it is needed. Inasmuch as the disconsolate exiles were in dire need of such a message, God repeated His charge to His prophet, "Comfort ye." God spoke to them through Isaiah for the purpose of reassuring them of His grace and love.

Note the encouragement in the terms "my people" and "your God" in verse one. The believer belongs to God, and God belongs to him. Even though these exiles had been chastised severely for their sins, God acknowledged that they were still His people and He was still their God. Over a long period the people had paid for their disobedience. Their songs had died upon their lips, but God had not cast them off. His love for them had been constant and His grace was sufficient for them. Therefore, He wanted them comforted with the assurance of deliverance and restoration.

God instructed Isaiah to inform the chastened people that the period of their distresses and conflicts was being terminated, that their sins had been expiated by the grace of God, that their iniquities had been pardoned, and that their time of deliverance from bondage and exile, for which they had been longing for years, had arrived.

Isaiah 40 is a tonic for spiritual depression and discouragement. Hemmed in by the ruthless Babylonians and deprived of their cherished liberties, their courage and hope dwindled almost to the vanishing point. As they thought of their circumstances, any hope of deliverance seemed to be only an idle dream. Broken in faith and courage, these discouraged exiles did not have any desire to continue struggling.

In his message to them, Isaiah dwelt upon the incomparable greatness, majesty, and power of God, the creator, preserver, and controller of the whole universe. He tried to get them to put their implicit trust in the omniscient and omnipotent God, Who created, owned, and governed the universe. Its very existence was positive proof of the goodness, greatness, and graciousness of the transcendent God. Isaiah reminded the Israelites that God was above the circle of the earth and the vault of the sky, seeing to it that

the heavenly bodies and human beings perform their separate functions according to His will.

Let us, His children, boldly, fearlessly, and faithfully proclaim to all the greatness, wisdom, power, majesty, holiness, and grace of God our Father, the sustainer of those who love and serve Him, when they are subjected to life's temptations, troubles, and trials.

## Galatians 4:1-6

Even though a child is apparently an heir, as long as he is a minor he is not any better off than a slave so far as his inheritance of the estate is concerned. Until he reaches a certain age, he is like a slave in that he is under the authority and control of this superior. At that age he can come into possession and control of his portion of the estate.

Verses four to six announce the birth of Jesus Christ or the incarnation of deity. God made ample preparation for and appropriately timed this great event. The Saviour arrived exactly at the time appointed by the Father, foretold by the prophets, and when conditions had ripened sufficiently for this glorious consummation. The way for the incarnation of Christ was prepared by the Jewish religion, by Grecian culture, and by Roman conquest.

The time which God chose for Christ to be born was very much like our own era. Then, as now, people were disillusioned and desperate. Then, as now, people were discarding the accredited religion as something that was outworn and of no further use, and they were readily accepting anything that was offered to them as a possible substitute. Christ came to earth not merely with the Father's sanction, but under His directive will.

As to the process of the incarnation, "God sent forth His Son, made of a woman, made under the law." The phrase, "made of a woman," points significantly to His supernatural conception. It excludes human fatherhood. Christ Jesus was begotten by the Holy Spirit and conceived by the virgin Mary. There was in Him a union of deity and humanity. He was as divine as if He were not human, and as human as if He were not divine.

What was the real purpose and final goal of the incarnation of Christ? Christ came "to redeem them that were under the law." He accomplished this by fulfilling the requirements of the law. His supreme purpose in coming was to make atonement for sin. Christ redeemed us "that we might receive the adoption of sons." Adoption is the transferral of a person from one family into another. In spiritual adoption a child of Satan is taken out of his family and placed in the family of God. When we become the children of God through the redemption that is in His Son, we are the recipients of His love, care, and discipline. Because the Holy Spirit indwells us we enjoy cleansing, guidance, and victory. As children of God we have all the rights and privileges of the family circle. We are heirs of God and joint-heirs with Christ.

## ARE WE KILLING OURSELVES?

Love each other!

As a doctor, it's probably the best suggestion I can offer in today's world. For we may be literally killing ourselves. Through aggressiveness. Through fear. At both the levels of nations and of individuals.

Stress in our lives can be either constructive or destructive. If we push ourselves to achieve, fairly and with our own talent—not at the expense of the other guy—I think that kind of stress is healthy. If we are reacting solely to fear, and doing this chronically, then I think such stress is destructive.

Why do I qualify the foregoing with the word "chronically?" Let me explain:

## "Sticky Platelets"

At Massachusetts Institute of Technology, nutrition researcher Dr. Robert Lees has advanced a hypothesis regarding "sticky platelets." It is his belief that "sticky platelets" in the blood may promote heart disease. That blood platelets have become "sticky" means they are more ready to clot. It is often a clot in the coronary artery which is the cause of a heart attack.

"Sticky platelets" in the blood are part of the body's response

to threat.

When we are aroused by fear or pressure, our adrenal glands produce more epinephrine (or adrenalin) and this increases the ability of our blood to clot. In primitive man this was part of the body's preparation for survival. If wounded, the warrior's blood would clot faster and he would hopefully survive an injury that otherwise might have caused him to bleed to death.

This is a simple point for us to understand. And today, fear or any kind of stress has the same effect. The trouble is, the warrior reacted to stress both through body preparation and physical action. Presumably he weathered the ordeal, as does today's athlete, for example, because the stress does not go on and on, perhaps unrelentingly.

But many of our people are subject to daily stress which charges them up and then they cannot ease their feelings through action. And if this is chronic, they may well be laying the way for blood clotting that could lead to a heart attack.

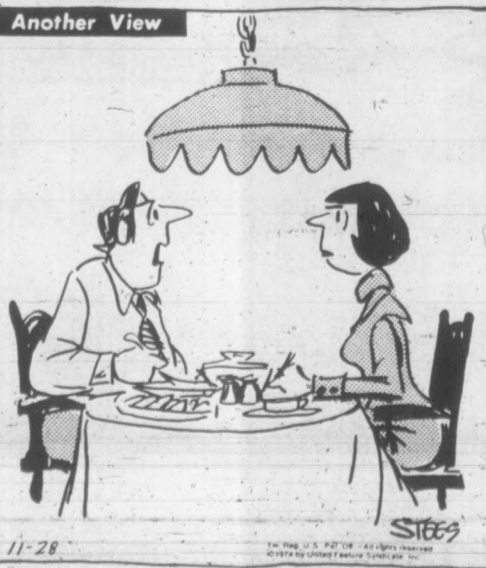

So, don't scare yourself to death with pressures. Adopt the question suggested by some heart researchers: "Will it be important five years from now?"

## Cultural Threats

Society ought to be doing something about all the competitiveness, the aggressiveness, the threats that our culture forces on individuals to the point of destructiveness.

Living in greater harmony does not mean no tension at all, or no contrary forces. Music and the other arts would be weak, a bore, without such elements. But in writing music, for example, there is a rule—that dissonance must be resolved, if not immediately, at least predictably. With this assurance, music is exciting and enjoyable.

In society, if people would commit themselves to resolve their problems, rather than trying to overwhelm the other guy, there would be far fewer problems, probably better health, perhaps

"MAY I HAVE SOME SUGAR ON MY BULLET?"

# Your Individual Horoscope

Frances Drake

FOR SATURDAY, NOVEMBER 30, 1974

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

**ARIES**  
(Mar. 21 to Apr. 20)

Look for a highly stimulating weekend. Both travel and social activities should prove enlivening. Romance also favored.

**TAURUS**  
(Apr. 21 to May 21)

A clash of temperaments could cause needless friction. Don't jeopardize an old friendship by becoming overly emotional.

**GEMINI**  
(May 22 to June 21)

Don't fret if it becomes necessary to sacrifice some leisure time to job matters. Results will more than make up for your disappointment.

FOR FRIDAY,  
NOVEMBER 29, 1974

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

**ARIES**  
(Mar. 21 to Apr. 20)

Some situations highly mystifying. Try to get some background information that will help you to clarify matters.

**TAURUS**  
(Apr. 21 to May 21)

Personal relationships at their best. In fact, a friend or close associate may be instrumental in helping you to solve a difficult situation.

**GEMINI**  
(May 22 to June 21)

Try to talk with individuals important to your aims. A bit of diplomatic maneuvering could have fine results. But avoid intrigue.

**CANCER**  
(June 22 to July 23)

Stellar influences somewhat mixed, but generally on the favorable side. You may get unexpected help in a personal problem through a business associate.

**LEO**  
(July 24 to Aug. 23)

Not a day for making important moves or decisions. Certain situations may be so confusing that you will need time to fully understand them.

**VIRGO**  
(Aug. 24 to Sept. 23)

An inspired idea and friendly cooperation should help you in perfecting some of your long-range plans. Study new developments.

**LIBRA**  
(Sept. 24 to Oct. 23)

Especially favored now: job and financial interests. Competition may be keen but, where you have the know-how, don't be afraid to get into the race.

**SCORPIO**  
(Oct. 24 to Nov. 22)

Mars influences indicate an extremely active day. Things should move briskly and you with them. Don't scatter energies, however.

**SAGITTARIUS**  
(Nov. 23 to Dec. 21)

Several chances to do even better than usual. Take advantage of all worthwhile opportunities. A good period in which to try out new methods and ideas.

**CAPRICORN**  
(Dec. 22 to Jan. 20)

An excellent day for making travel plans, whether for pleasure or business. Family concerns also governed by friendly aspects.

**AQUARIUS**  
(Jan. 21 to Feb. 19)

A good day for trying to push through a unique program. You will get backing from those in authority—IF your approach is deferential.

**PISCES**  
(Feb. 20 to Mar. 20)

You could overstep limits now if too strong a desire for a certain attainment causes you to press beyond reasonable boundaries.

**YOU BORN TODAY** are endowed with a dualism of interests. Since you are both creative and practical, you may want—and possibly need—two outlets for your talents—business as a career, with art as an avocation, or vice versa. In business, you enjoy big enterprises and, with your gifts of leadership and organization, can go far. Along creative lines, you could make your greatest success in the fields of music, painting or literature. Outstanding traits: integrity, good judgment, keen perception and a persuasiveness that makes you a born mediator. Birthdate of: Louise May Alcott, author; A. Bronson Alcott, educator, philosopher.

**VIRGO**  
(Aug. 24 to Sept. 23)

Curb an inclination toward undue suspicion. Look into all situations carefully, but do not read unintended meanings into others' words.

**LIBRA**  
(Sept. 24 to Oct. 23)

Don't let your curiosity get the better of you—especially in a romantic situation. Too many questions will only yield evasive answers.

**SCORPIO**  
(Oct. 24 to Nov. 22)

A day of mixed influences. Be careful in your approaches. Others may read more into your words and actions than you intend.

**SAGITTARIUS**  
(Nov. 23 to Dec. 21)

A long-pending domestic problem can be solved now, so devote the early part of the day to this task. Then you can feel free to go on to more stimulating interests.

**CAPRICORN**  
(Dec. 22 to Jan. 20)

Some tension indicated. Avoid highly strung or neurotic persons, and keep out of situations which could needlessly involve you in others' problems.

**AQUARIUS**  
(Jan. 21 to Feb. 19)

Mixed influences. You may encounter some frustrating situations during the a.m., but the tide will turn in your favor

later in the day.  
**PISCES**  
(Feb. 20 to Mar. 20)

Some new trends in the making. Study carefully and be sure to check all propositions before accepting. Romance and travel favored.

**YOU BORN TODAY**, as a Sagittarian, are governed by Jupiter, the planet of opportunity—and you rarely miss one as you wend your way through what should surely be a most successful and interesting life. You are extremely versatile and could have a wide choice of careers from which to choose but, more than others of your Sign, your choice will depend largely on your early education and environment.

Others may change careers in mid-stream or drift into a successful field through circumstance—but not you. Your destiny will follow the lines of your intellectual development. Fields in which you could excel, depending on these factors: business management, science, the law, statesmanship, journalism, music, the stage, literature. Birthdate of: Winston Churchill, Brit. statesman, writer; Mark Twain, Amer. author, wit; Efreim Zimbalist, Jr., actor.

In 1884-85 Mark Twain (Samuel Clemens) appeared in Louisville and Paris to read from his literary works.

# Rookie Quarterback Leads Cowboys To Last-Minute Win

By JOHN NELSON  
AP Sports Writer

The Pittsburgh Steelers, with the eager aid of the Miami Dolphins and reluctant assistance of the Houston Oilers, could start clearing up a confusing National Football League play-off situation Sunday.

They got no help, thank you, from Dallas on Thanksgiving Day.

Pittsburgh, 8-2-1, can clinch the American Conference Central Division with a victory over Houston, 5-6, if the Dolphins beat Cincinnati Monday night.

That set of circumstances wouldn't eliminate Cincinnati from a wild-card spot, but it would cancel any slim mathematical hope the Oilers have of gaining the playoffs.

In the second of two Turkey Day games, Dallas was 28 seconds away from mathematical elimination from the playoffs when Clint Longley, who had

never run an NFL regular-season play before, threw 50 yards to Drew Pearson for a touchdown, beating Washington 24-23.

The Cowboys have been in the playoffs for the past eight years, and could gain an unprecedented ninth if the Redskins, 8-4, lose a few more and Dallas, 7-5, wins a few more.

Longley came into the game for the injured Roger Staubach.

In the earlier Thanksgiving game, the Denver Broncos, 6-5-1, beat Detroit, 6-6 and now eliminated from the playoffs, 31-27. Denver's Otis Armstrong ran for a touchdown and 144 yards in the game to surpass the 1,000-yard mark.

In Pittsburgh's last game, Terry Bradshaw and Franco Harris combined with the NFL's stingiest defense to lead the Steelers to a 28-7 victory over New Orleans. Bradshaw threw for two touchdowns, ran for another and, tentatively has

regained his starting position from Terry Hanratty. Harris, with 114 yards against the Saints, now has 762 for the season and is shooting for his second 1,000-yard plus season.

Dan Pastorini — if he can keep off his back after being sacked seven times last week by Dallas — could give the Steeler defense trouble.

In other Sunday games, Baltimore, 2-9, is at Buffalo, 8-3; Kansas City, 4-7, meets the Cardinals, 9-2, at St. Louis; New England, 7-4, plays in Oakland, 9-2; Los Angeles, 8-3, is at Atlanta, 2-9; New Orleans, 4-7, faces Minnesota, 7-4; Green Bay, 6-5, is at Philadelphia, 4-7; the New York Jets, 4-7, host San Diego, 3-8; the New York Giants, 2-9, travel to Chicago, 3-8, and San Francisco, 4-7, is at Cleveland, 3-8.

The Dolphins, confounded this year by occasional lapses in their defensive secondary, will have to hore up against Cincinnati if they hope to stop the precision passing of Ken Anderson.

The Bills are tied with the Dolphins for first in the AFC East, and would put the pressure on Miami with a victory Sunday. Buffalo, led by O.J. Simpson's 937 yards, is a two-touchdown favorite.

Bert Jones, sidelined since Nov. 3 with a shoulder injury, may get the nod at quarterback for the Colts.

With the Redskins' loss, the Cards can clinch the NFC East title by beating Kansas City. Jim Hart, whose 17 TD passes lead the NFL, could lead the Cards to their winningest season since 1960, while the Chiefs, who lost to Cincinnati last week, are assured of their first losing season since 1963.

Oakland had a nine-game winning streak broken last week by Denver and the Raiders need to regain momentum after clinching early in the AFC West. They will throw Ken Stabler against New England's Jim Plunkett, who broke the interception jinx last week when

he threw for 194 yards without a miscue in a 27-17 victory over Baltimore.

The Rams have clinched in the NFC West for the second consecutive year and are coming off an exciting 20-17 victory over Minnesota, while Atlanta's offense has foundered.

Minnesota, a game ahead of Green Bay in the NFC Central Division, has lost its last two but could clinch if the Packers lose. Chuck Foreman has an NFL-leading 15 touchdowns this season, one away from the club record. The Saints' Archie Manning completed only two of 10 attempts for nine yards and three interceptions against Pittsburgh last week, and may yield to Bobby Scott for the Rams game.

The Packers have won their last three with a total of 73 points while giving up just 10, including a 34-0 shutout of the Chargers. Green Bay and Philadelphia both depend on former Ram quarterbacks — the Packers on John Hadl, the Eagles on Roman Gabriel.

Both New York teams have streaks going: the Jets have won three and the Giants have lost three.

The Jets go against a Charger team weak in offense, and Rich Caster will be a primary receiver for Namath, who found the tight end for two TDs last week.

Craig Morton has buoyed the offense of the Giants, who have been outscored by only nine total points in their past three games. Chicago finally got its first TD in 22 periods in a 34-17 loss to Detroit last week.

San Francisco quarterback Tom Owens is getting in the scoring habit, last week throwing to Gene Washington for two TDs in 27-0 victory over Atlanta, the 49ers second consecutive shutout. Cleveland quarterback Mike Phipps probably will start for Brian Sipe, who injured his hip last week in a 15-10 loss to Buffalo, the Browns' second straight.

# College Basketball World Looks To Wide Open Race For Number 1

By KEN RAPPOPORT  
AP Sports Writer

UCLA, Southern Cal, Arizona and Penn., four of the nation's ranked teams, open their seasons tonight as the college basketball world eagerly looks toward a wide-open race for the national championship.

The UCLA Bruins, longtime dominators of the sport, will be just another of the boys this time with hard competition expected from every region of the nation.

Top-ranked North Carolina State, the defending champion which ended the Bruins' dynasty last year in the NCAA playoffs, hopes to enhance one of its own, opening Saturday night against East Carolina.

UCLA, ranked No. 2, makes a fast break with two games this weekend — tonight against Wichita State and Saturday night against DePaul.

Southern Cal, UCLA's bitter cross-town rival which starts the season ranked No. 10, takes on Louisiana State; Arizona, the country's No. 19 team, meets Northern Illinois and No. 20 Penn plays Middle Tennessee in a tournament at Clemson, S. C.

Many other ranked teams besides North Carolina State start shooting for recognition Saturday afternoon and night.

Indiana, a classy Big Ten team ranked No. 3, meets Tennessee Tech; fourth-ranked Maryland, an Atlantic Coast

Conference colleague of North Carolina State's, plays Richmond and No. 6 Kansas of the Big Eight takes on Northeast Missouri.

Elsewhere, it's No. 11 North Carolina against Biscayne; No. 12 Notre Dame at Valparaiso; No. 13 Purdue hosting Indiana State; Montclair State at No. 15 Memphis State; Northwestern at No. 16 Kentucky; No. 17 Michigan entertaining Toledo and North Dakota State appearing at No. 18 Minnesota.

UCLA will be missing several strategic players from last year's superlative gang — including center Bill Walton and forward Keith Wilkes. The perennial Pacific-8 Conference kings, winners of that title 12 of the last 13 years, wear the

conference's "Pac-8" crown uneasily this year. The Pac-8 is more well-rounded than it has been in several seasons. While the Bruins have lost four of their starters, none of the other league teams have lost more than two. Southern Cal returns its starting five and five others from last year's team.

North Carolina State, meanwhile, has only lost one player from its national championship team — center Tom Burleson. The rest of the sublime lineup is back, headed by Player of the Year David Thompson.

Indiana hasn't lost anyone, giving Coach Bobby Knight a team of formidable talents led by Quinn Buckner. Louisville's Missouri Valley Conference champions, "the best team" that Coach Denny Crum has had, is another heavyweight contender for the national title. The Cardinals have added size and speed to their already strong team.

Fifth-ranked Marquette and No. 7 South Carolina, two of the better independents along with Notre Dame and Houston, and No. 9 Alabama, the expected Southeastern Conference king, are others with championship aspirations.

# Red-Hot Sabres Beat Buffalo 5-2 In National Hockey League

By The Associated Press

Detroit goalie Jim Rutherford, on the receiving end of 46 Buffalo shots, didn't have much to be thankful for Thursday night as the Red Wings absorbed a 5-2 National Hockey League beating at the hands of the red-hot Buffalo Sabres. Detroit, which has won only once in its last 15 games, managed only 19 shots on goal.

"We didn't give them much opposition," said Wings' Coach Alex Delvecchio. "This losing streak of ours is very frustrating and the future doesn't look very encouraging."

"We have jerseys but we don't have much ability in them."

The Detroit-Buffalo game was the only NHL contest Thursday night. In the World Hockey Association, Vancouver beat Toronto 6-2, Quebec downed Indianapolis 7-5, Houston blanked Edmonton 2-0 and Chicago shaded San Diego 3-2.

Buffalo, which has just one loss in its last 17 outings, struck for first-period goals by Rick Martin, his 15th, and Brian Spencer and coasted home. The Sabres outshot Detroit 22-3 in the first 20 minutes

and the Wings never recovered. Rene Robert, Rick Dudley and Lee Fogelin got the other Buffalo goals while Rick McCann and Marcel Dionne had third-period goals for Detroit.

Vancouver 6, Toronto 2

Toronto's Frank Mahovlich picked up his 545th pro career goal in a losing cause to move past Maurice Richard into third place on the all-time goal list. Only Gordie Howe and Bobby Hull have scored more goals. Dan Lawson connected twice for the Blazers.

Quebec 7, Indianapolis 5

Real Cloutier scored three goals and had one disallowed for the Nordiques. Rene LeClerc added a pair for Quebec as the Racers lost their ninth straight.

Houston 2, Edmonton 0

Gordie Howe scored his ninth goal of the season midway through the second period and son Mark added an empty-net goal with eight seconds left for the Aeros. Houston goalie Wayne Rutledge had to make just 15 saves to record the shutout.

Chicago 3, San Diego 2

Pete Mara had two goals, including the game-winner at 2:04 of the third period, and Jan Popiel had one for the Cougars. Andre Lacroix and Norm Ferguson connected for the Mariners.

Wednesday's NHL results: New York Rangers 4, Toronto 1; New York Islanders 3, Los Angeles 3, tie; Philadelphia 6, Detroit 2; Atlanta 4, Kansas City 2; Montreal 3, Pittsburgh 3.

## Awrey Traded By Blues

ST. LOUIS (AP) — Veteran defenseman Don Awrey, 31, was traded Thursday by the St. Louis Blues to the Montreal Canadiens in exchange for left wing-center Chuck Leffley, 24.

Awrey, who had previously played 10 seasons for the National Hockey League's Boston Bruins, was obtained by the Blues in October, 1973, in exchange for a minor league player and a second-round draft choice.

Selected second by Montreal in the 1970 NHL amateur draft, Leffley last season ranked seventh among Canadian scorers with 23 goals and 31 assists.

If you're a good driver, ask me how much you can save by switching to low cost MFA car insurance.

# UK Inserts Adhesive Tape And Liniment Into Lineup

By BOB COOPER  
AP Sports Writer

LEXINGTON, Ky. (AP) — Kentucky has inserted adhesive tape and liniment into its starting lineup with the opening game of the 1974-75 season just one day away.

Three Wildcat starters are ailing and Coach Joe B. Hall, in his third season, still isn't sure whether any or all of them will start. But he thinks so.

Oddly for Kentucky, the Wildcats aren't defending a Southeastern Conference championship. Though they won it six times in a row, the Cats finished 13-13 last year, matching their worst record in four decades.

Jimmy Dan Conner, a starter at guard, has discovered a birth defect that gives him back trouble and has been given cortisone to ease the pain caused when a vertebra flips out of place.

Kevin Grevey, a starter at forward, has a strained tendon in the arch of his left foot and also has gone the cortisone route.

And Mike Phillips, Kentucky's 6-foot-10 starter at center as a freshman, smashed his left hand during a practice ses-

sion a couple of days ago and "it's pretty tender," Hall said.

"Both Grevey and Conner went at half speed on Thursday and we just made Phillips go," Hall said.

Unless there is a change for the worse, those three will start Saturday against Northwestern, along with Mike Flynn and Bob Guyette.

If the worm turns, however, Hall has plenty of reserves to look to, including sophomore Larry Johnson to replace Con-

# Cowens And Jabbar Lead All-Star Vote

NEW YORK (AP) — Boston's Dave Cowens, who has played in only three games this season, and Milwaukee's Kareem Abdul-Jabbar, who has appeared in only two contests, are the leading vote-getters at center in early fan balloting for the 1975 National Basketball Association All-Star Game.

The first weekly computerized vote count of the balloting for the starting lineups for the game, to be played at Phoenix on Jan. 14, was announced today by NBA Commissioner Walter Kennedy.

Cowens, who missed the Celtics' first 17 games this season because of a broken bone in his

right foot suffered during an exhibition game, nevertheless, led in voting for the Eastern Conference's starting center spot over Buffalo's Bob McAdoo, the league's second leading scorer. Vote totals were not announced.

At the same time, Abdul-Jabbar, who was sidelined for Milwaukee's first 16 games because of a broken bone in his right hand and an injured right cornea, both suffered in the same exhibition game, was the pacesetter in voting for the starting center spot on the Western Conference team. Detroit's Bob Lanier, one of the league's top scorers and rebounders, was the runner-up.

The other East leaders were forwards John Havlicek of Boston and Elvin Hayes of Washington, and guards Walt Frazier of New York and Jo Jo White of Boston. In the West, the other frontrunners were forwards Rick Barry of Golden State and Spencer Haywood of Seattle, and guards Gail Goodrich of Los Angeles and Nate Archibald of Kansas City-Omaha.

The league said that Havlicek, a starter for the East in the last six All-Star Games, led all vote-getters. Abdul-Jabbar, an All-Star in each of his five NBA seasons, was the top vote-getter in the West.

## Moon Rocks Being Used At Lexington

LEXINGTON, Ky. (AP) — Moon rocks obtained from the Apollo space program and two Soviet moon missions are being used by researchers at the University of Kentucky to increase their knowledge of the solar system.

Dr. William D. Ehman, 43, chairman of the UK Chemistry Department, says the goal of his research team is to determine how the solar system was formed.

He said the moon rocks are considered a helpful source in attempts to determine the chemical composition of the so-

lar system because the moon rocks have not undergone weathering processes as have earth rocks.

He said the low gravity on the moon results in a loss of water — the key cause of weathering in rocks. As a result, the moon rock samples have maintained their chemical composition.

Ehman says that only 40 to 50 institutions are involved in the program.

"There are relatively few laboratories in the world which have the capabilities to handle the samples," he says.

## Deaths and Funerals

### Ezra Bloomingburg Dies; Was Father Mrs. Ray Mofield

Ezra W. Bloomingburg of Benton Route Nine died this morning at 2:40 a. m. at the Benton Municipal Hospital. He was 72 years of age.

The deceased was an elder of the Oak Valley Church of Christ and had retired from the U. S. Postal Service. He was former president of the Marshall County Farm Bureau.

Survivors include his wife, Mrs. Ruth Bloomingburg; two daughters, Mrs. Ray (Janie) Mofield of Hardin and Benton and Mrs. Oran (Betty) Johnston of Reidland; four sons, Pat of Benton Route Nine, George of Mayfield, James of Reidland, and William of Raser, Mich.; four brothers, Roy of Benton Route Six, Edward of East Detroit, Mich., Earl of Glennie, Mich., and Elza of Arlington, Va.; thirteen grandchildren.

Funeral services will be held Sunday at 3:30 p. m. at the chapel of the Filbeck and Cann Funeral Home, Benton, with Lake Riley and Willis Green officiating.

Nephews will serve as pallbearers and burial will be in the Everett Cemetery in Marshall County.

Friends may call at the funeral home after six p. m. today (Friday).

### Mrs. Ella Adams' Rites Held Here

The funeral for Mrs. Ella E. Adams was held Thursday at two p. m. at the chapel of the Blalock-Coleman Funeral Home with Rev. H. L. Lax officiating.

Pallbearers were Kelly, Lowton, and John Burton, Oren Simmons, Buford Stone, and Curtis Craig. Burial was in the South Pleasant Grove Cemetery.

Mrs. Adams, age 87, died Tuesday at 2:05 p. m. at the Convalescent Division of the Murray-Calloway County Hospital. A member of the Goshen United Methodist Church, Mrs. Adams was the wife of Calvin Adams who died September 18, 1961.

Survivors include two sons, Charlie and Parvin Adams of Murray, three grandchildren, and nine great grandchildren.

### Mrs. Johnson Dies At Paris; Funeral Being Held Today

Mrs. Edna B. Dobbins Johnson, sister of Joe Dobbins of Hazel, died Monday at 5:30 a. m. at the Henry County General Hospital, Paris, Tenn. She was a resident of 615 Bolden Street, Paris.

The deceased was 75 years of age and a native Henry Countian. She was born February 11, 1899, and was the daughter of the late John and Angeline Dobbins. Mrs. Johnson was a member of the Quinn Chapel Methodist Church.

Survivors include four daughters, Mrs. Grace Crutchfield, Mrs. Catherine Bell, and Mrs. Pearl M. Lightfoot, all of Paris, Tenn., and Mrs. Johnnie Marie Todd of Indianapolis, Ind.; one son, B. Johnson of Paris, Tenn.; two brothers, Lester Dobbins of Paris, Tenn., and Joe Dobbins of Hazel; fourteen grandchildren; two great grandchildren.

Funeral services are being held today at two p. m. at the chapel of the Williams and Rawls Funeral Home, Paris, with Rev. L. W. Page of Paris and Rev. James Stewart of McKenzie, Tenn., officiating. Burial will be in the Greenwood Cemetery.

### Hinton Clayton Is Dead At Age 71; Rites Saturday

Hinton Clayton of Hardin died Thursday at 12:30 p. m. He was pronounced dead on arrival at the Benton Municipal Hospital after having been stricken with a heart attack at the farm of his nephew, Bobby Joe Lee.

The deceased was 71 years of age and a retired carpenter. He was a member of the Dexter-Hardin United Methodist Church and was a gospel singer. Born May 14, 1903, he was the son of the late James Clayton and Rebecca Wolfe Clayton.

Mr. Clayton is survived by his wife, Mrs. Ola Harrison Clayton of Hardin; two sons, James H. Clayton of Benton Route Three and Glen I. Clayton of Reidland; four sisters, Mrs. Ennis McDaniel of Murray Route Three, Mrs. Callis Lee of Dexter Route One, Mrs. Katie Clingan of Norman, Okla., and Mrs. Lois Norwood of Benton Route Four; seven grandchildren.

Funeral services will be held Saturday at two p. m. at the chapel of the Linn Funeral Home, Benton, with Rev. John Churchwell officiating. Burial will be in the Murray Memorial Gardens.

Friends may call at the funeral home.

Termed the greatest race in river history, the Robert E. Lee, fueled with coal from Sturgis mines in Union County, raced the Natchez in 1870 and won by 6 hours and 15 minutes. Both steamboats were captained by Kentuckians, to make history on the Mississippi.

Shopping for Christmas is difficult a bit. Jumps, wrapping of gifts and standing in lines. Take a rest for a change in your rushing melee purchase at home from SARAH COVINTRY. Evenings Tel. 753-9309 Quality guaranteed jewelry.

## Presbyterians To Hear Rev. Moffett

The First Presbyterian Church, 16th and Main Streets, Murray, will hold regular services on Sunday, December 1, with Sunday School at 9:30 a. m. and morning worship at 10:45.

"God's Not Interested In Us" will be the subject of the sermon by the church pastor, Rev. Charles Moffett.

The choir, directed by Carl Mowery with Cindy Hartwell as organist, will sing the anthem, "O My Soul, Bless God the Father," an American folk hymn.

The Christmas Family Worship will be held at two p. m. Sunday in the fellowship hall of the church, and the Growth Group will meet at the church at seven p. m. Sunday.

## Physicians To Report Today On Health Condition Of Nixon

WASHINGTON (AP) — H. R. Haldeman, Richard M. Nixon's former staff chief, opened his defense today at the Watergate cover-up trial by giving a verbal guided tour of the White House.

Haldeman became the second of the five defendants to take the witness stand with the trial still waiting for a report from court-appointed doctors on whether former President Nixon is well enough to testify.

A spokesman for Dr. Charles Hufnagel, chairman of the three-man panel which examined Nixon and his medical records in California on Monday, said the report would be delivered to U.S. District Judge John J. Sirica before noon.

Haldeman began testifying after former Atty. Gen. John N. Mitchell completed his defense case with 20 minutes of cross examination by an attorney for one of the other defendants.

Haldeman described his role on the Nixon White House staff as having "the basic responsibility for the planning and implementation of the President's daily activities... my time was scheduled solely on the basis of the demands of the President's time."

He described himself as "the one person who was totally available to the President day or night" with the responsibility to "get done whatever he wanted done or find out what he wanted to find out."

Then he described where various White House aides worked in relation to the President's Oval Office.

Located closest to the President's office was Alexander P. Butterfield, said Haldeman. Next was the office of Rose Mary Woods, Nixon's personal secretary, and next to her office was Haldeman's.

Haldeman, Mitchell, former White House aide John D. Ehrlichman, former assistant Atty. Gen. Robert C. Mardian and Kenneth W. Parkinson, one time lawyer for the Nixon reelection committee, are charged with conspiring to obstruct the investigation of the Watergate break-in.

## The Heat Bill Reducer

It's an approved heat pump. It'll bring down your heating costs. You see, the heat pump works at half the cost of resistance heat. Or, to put it another way, its heating efficiency is 200 percent. It's the most efficient heating system you can buy, bar none.

With a heat pump supplying your home's winter-time comfort, you will be using less electricity. You'll be helping to conserve electric power, a valuable resource that is becoming more valuable all the time.

Before you rush out to buy a heat pump, call us first. We want you to get one that's genuine. We'll gladly provide information that will help you select a good heat pump and get an expert installation.

Call today, get your heat pump installed, and then enjoy the tops in economical, warm comfort.

Use Electricity Wisely

## One Person Dies On State Roads

FRANKFORT, Ky. (AP) — One man died on the state's highways during the Thanksgiving holiday, Kentucky State Police said Thursday.

The victim was identified as Harlan Sparks, 30, of Aberdeen, Ohio.

According to State Police at Morehead, Sparks was dead on arrival at Haywood Hospital in Maysville Thursday afternoon after the motorcycle he was driving left U.S. 68 within the limits of Maysville.

Police said Sparks' wife, Tina, 23, a passenger on the cycle, was listed in fair condition at the hospital.

Traffic on the state's highways Thursday night was about normal and there were no reports of any major delays, State Police said. Earlier in the day, they had reported traffic moderate to heavy.

State police also used a new tactic to curb speeding during the holiday period, which began at 6 p.m. Wednesday.

Cruisers at times traveled side by side at the 55-mile-an-hour limit on interstate and toll roads to block both lanes to speeders.

Rev. Thomas E. Adams, son of Mrs. Gussie Adams of Murray, was recently elected Assistant Secretary of the Illinois Baptist State Association. Rev. Adams resides in Des Plaines, Ill., a suburb of Chicago, where he is pastor of the First Baptist Church. As a writer, he is a frequent contributor to religious publications, and author of the weekly column, "The Problem Corner," a feature printed in some Illinois papers.

## Proposal To Buy Peabody Coal Meets Opposition

LOUISVILLE, Ky. (AP) — A proposal by the Tennessee Valley Authority (TVA) to purchase the giant Peabody Coal Co. is generating heated reaction in Kentucky, Tennessee and Washington, D.C.

"This proposal is without precedent," says Kentucky Sen. Walter (Dee) Huddleston, in discussing the possibility of TVA, the nation's largest generator of electric power, purchasing the nation's largest private coal company.

"It's opening a lot of doors," says Huddleston. "I want it checked out ... all the ramifications of it, although I am not suggesting any wrongdoing."

Secretary of the Interior Rogers Morton adds, "The prospect of TVA winding up with Peabody scares the heck out of me."

And Tennessee Sen. Howard Baker says the proposal "must not be treated routinely," adding that he will ask for a congressional inquiry.

Also, Congressman-elect Carroll Hubbard, who will represent

Kentucky's 1st Congressional District — the largest TVA market in the state — says he will look into the proposal as soon as he is "in a position to do so."

Not all reaction to the proposal has been skeptical. Rep. Tim Lee Carter, Re-

publican from the 5th District in Kentucky, said he supports the proposal. TVA supplies some of Carter's district with power and owns 40,200 acres of coal lands in the district.

Former U. S. Sen. Albert Gore of Tennessee, now chairman of the board of Island Creek Coal Co., Lexington, said that his perspective regarding the proposal is complex.

He noted that in 20 years a congressman and senator from Tennessee he championed TVA and that he has never found fault ideologically with the TVA concept.

But now he heads a company that is TVA's biggest coal supplier (not counting TVA-owned coal mined by Peabody). And TVA is Island Creek's largest customer.

Gore said his first responsibility is to his stockholders.

"But I could not say that Island Creek opposes or will oppose this proposal. We will likely take no position at all," he said.

This year Peabody will mine

more than 70 million tons of coal in the 12 states in which it operates. It also has mining interests in Australia.

In Kentucky in 1973, Peabody mined 24,753,458 tons of coal and had a payroll of \$46,099,525. It paid Kentucky taxes of \$3,617,301. It has 11 mines in Western Kentucky and none in Eastern Kentucky.

In Indiana Peabody's tonnage last year was 12,316,135 and 1,151 employees were paid \$16,409,768. The figures were provided by the company's main office in St. Louis.

In making his first formal statement on the proposed purchase last week, TVA Board Chairman Aubrey (Red) Wagner said that "problems of both supply and price in the present market" were causing TVA to propose the deal, re-

**WEST KENTUCKY** Rural  
Electric Cooperative Cor-  
poration, of Mayfield, Ken-  
tucky, hereby gives public  
notice that it has applied to the  
Public Service Commission of  
Kentucky for approval of a  
temporary emergency energy  
surcharge not to exceed 2  
miles per kilowatt hour (KWH)  
in addition to charges under  
existing rate schedules on all  
electric power distributed to all  
members and users (except cus-  
tomers served under Part B of  
Outdoor Lighting Rate - Schedule  
OL), in accordance with amend-  
ment to its power supply contract  
with Tennessee Valley Authority  
(TVA), and that hearing on  
such application in Case No.  
6159 will be held at the offices  
of the Public Service Commis-  
sion of Kentucky at Frank-  
fort, Kentucky, beginning at  
2:00 o'clock p.m., E.S.T.,  
Monday, December 16, 1974.  
The proposed emergency  
energy surcharge is necessary  
due to an emergency reduction  
program causing this distrib-  
utor's net revenues to de-  
crease, and such surcharge  
may vary from month to  
month but never to exceed 2  
miles per KWH and shall  
cease on and after a date to be  
designated by TVA in writing  
on termination of said emergency  
energy reduction program.

## Building Rifles

One of the courses in the "Life and Learning" series at Murray State University is How to Build a Kentucky Long Rifle, instructed by Joe Keeslar.

**SELECTING THE STOCK**—(left) The first step is selecting a stock, in this case curly maple wood. Pictured here are: (left to right) Jim Harris of Murray; Mike Hazel, Paris, Tenn.; Joe Keeslar, the instructor, from Murray; and Jerry Devine of Calvert City.

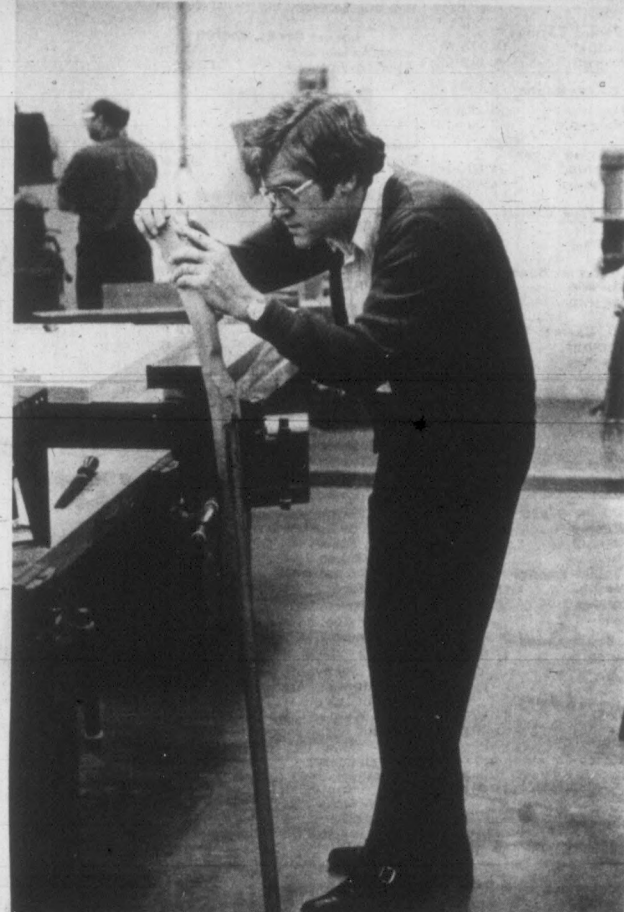

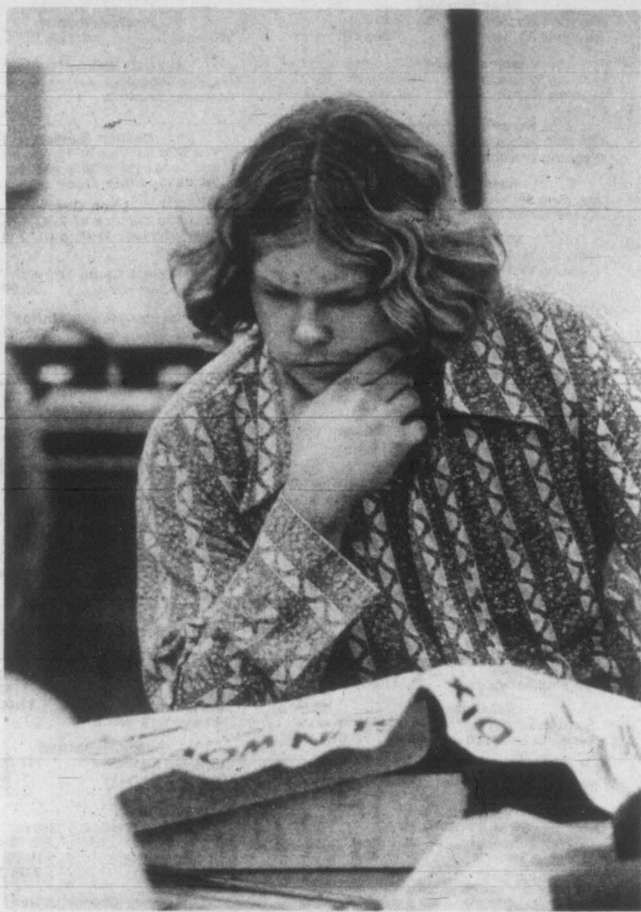

**CONCENTRATION**—(lower right) Dr. John Bartholomy of Murray fits a butt plate onto his rifle.

**DECISIONS, DECISIONS**—Glen Lewis of Paris, Tenn. is carefully going over the instructions for his rifle (lower left).

**STEADY HANDS**—(Below) Gene Geurin of Murray is inlaying the stock for the barrel.

**REWORKING**—(right) Larry Doyle of Murray is reworking an original Long Rifle.

AN INVESTMENT IN YOUR FUTURE

**...ATTEND CHURCH**

**it's all  
in His  
hands**

St. Luke was a learned man... more so than the average professional of his day. He was a very skilled physician with true devotion to his profession.

In spite of all his learning and skill, he knew that they were not enough. He realized that all he could do was to treat the illness and God would or would not provide the cure.

Many of our greatest physicians today believe as did Dr. Luke. They know their skills have limitations, that they must do all they can do and trust the outcome to God who has no limitation. They put their skills and tools in rhyme and hope that God will heal every time.

It is sad to know, but too many of us wait and wait until serious illness stares us in the face before we are willing to turn our case over to the Great Physician, who can heal us both physically and spiritually.

## Morehead Could Be Surprise Team In OVC

By MIKE BRANDON

Ledger & Times Sports Editor

Jack Schallow has a secret and it might give a few people some problems.

The secret is what kind of ballplayers are in the little gym at the bottom of the mountain in the town of Morehead.

And if tradition has anything to do with it, then the mountains could come down and fall on several teams in the Ohio Valley Conference when they play at Morehead.

The Eagles have lost three starters off last year's team which finished with a 17-9 overall record and a 10-4 league mark and a share of the championship crown with Austin Peay State University.

But it's that unknown factor that's worrying most of the OVC coaches.

The Eagles are rated as the fifth-place team in the league, barely ahead of Murray and not much ahead of last-place Tennessee Tech in the pre-season poll of conference coaches.

"It doesn't matter where they are rated or what kind of team they have. When anybody goes up there to play, they are in dangerous country," former Murray State coach Cal Luther said.

"I've always been impressed with their great support from their fans and I've seen ballclubs get beat by that."

The biggest loss for the Eagles is that of Leonard Coulter.

Coulter was a 6-5 senior forward last season who averaged 23.8 points per game and 11.5 rebounds.

He was named to the All-Conference team for the third consecutive year.

And three consecutive seasons, the versatile Coulter received All-America recognition.

Also gone are super guard Eugene Lyons and guard

Howard Wallen. Lyons averaged 15.9 points per game while Wallen scored nine points per contest.

The only starters returning for the Eagles are 6-6 senior forward Arch Johnson and 6-8 sophomore center Ted Hurdley.

But the best player, perhaps, is big George Williams, who came on strong toward the end of last season and became one of the most feared defensive players in the league.

Williams is 6-9 and will be the nucleus for the Eagles this season.

"I think he has improved more than anybody on our team," Schallow said.

"His attitude has changed completely, but I know a lot of times that changes as soon as games start and frustration sets in and the crowds start yelling against you," Schallow said.

Johnson is an excellent shooter and a very strong man on the offensive boards.

"He doesn't have the great quickness that we would like to have in the forward position but I think he's got the attitude that a lot of coaches are talking about to their players."

Schallow said the attitude of his team this season has been tremendous.

"They work hard, extremely hard, and I think that's all you could ever ask of a player. If he gives his best effort and does the things you ask him to do and it is not quite good enough, I don't think you can fault him."

Schallow said the Eagles will try to press this season and play a solid pressure defense, which seems to be the mark of clubs in the conference this year.

"Our biggest problem, besides the lack of experience, will be our guards. They are a question mark and we just can't tell how they are going to be until we see them in action."

Promising newcomers for Morehead include Tony Hopson, Ken Sansbury, Mike Kelley, Ron

Frederick and Mike Russell. Hopson is a 5-11 junior college transfer from Portland, Oregon. According to Schallow, he's the best guard prospect the Eagles have.

Sansbury is a 6-4 freshman forward from Mt. Clemens, Michigan.

"I think he's going to develop into an excellent player for us," Schallow said of Sansbury.

"He played only one year of basketball in high school but was good enough to make All-State. Although he's just 6-4, he has an arm span of 6-11. So he'll play much bigger than his size would indicate."

Kelley is a 5-10 sophomore from Cincinnati.

"He's a good shooter but he can't play 40 minutes. I'm not sure if we have anyone who can play an entire game, if we play the type of ball we plan to."

Frederick played some on the junior varsity team last year at Morehead. He is 6-3 and ac-

cording to Schallow, is an extremely good jumper.

Russell is a 6-4 freshman from Richmond, Ky.

"He's had a slow start but he's got over being homesick now and he should develop into a pretty good guard."

Schallow came to Morehead early this summer to replace Bill Harrell who resigned following a controversial decision to leave six of his top players at home last year and send only the reserves to play against Illinois State.

Before coming to Morehead, Schallow was an assistant at Louisiana State.

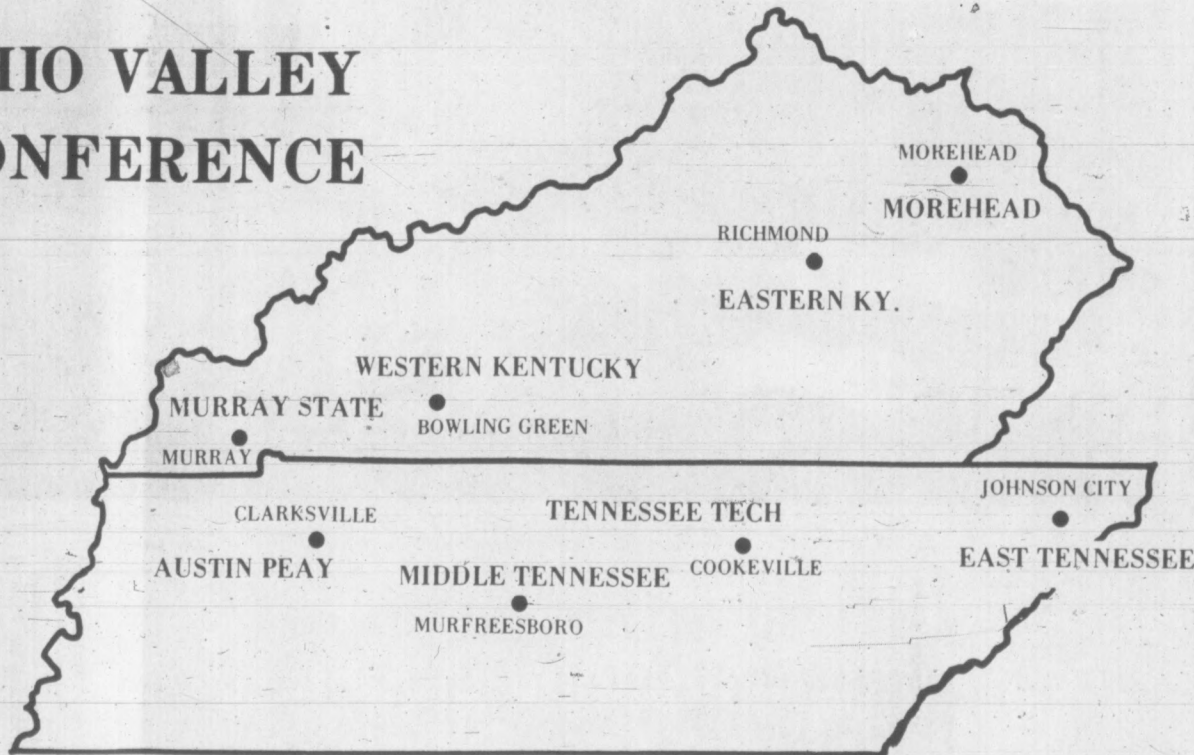

"I think the OVC has better basketball tradition. The SEC is getting better but I think the OVC is getting much better. The only reason that most of the people in the OVC don't get as much publicity as they'd like is because of the communities we live in are small."

The Eagles will open their

season at home Friday against Northern Kentucky University. The first league contest will be at home against Murray on January 11.

# Racers Small

By MIKE BRANDON  
Ledger & Times Sports Editor

we are going to try to play, we are going to try to run. I learned that from Luther. I'm going to use him at the half to throw oranges if we get behind."

All right Overton. Are they really that bad?

"It's really hard to tell. When you scrimmage every day against the junior varsity, you just don't have any real idea of what they're like."

Overton will find out Saturday when the Racers open up at Baylor. Then on Monday, the Racers will play the Texas Longhorns.

According to the pre-season poll of Ohio Valley Conference coaches, what Overton has said may be true. Murray is ranked sixth, barely ahead of seventh-place East Tennessee Tech. When Overton was named as the Racers coach early last spring, the future looked bright. But then Murray lost three starters because of the controversy surrounding the use of the outlawed conversion table. And then, kerblom!

The curtains came down and Murray found itself without 6-6 senior forward Mike Coleman, 6-0 senior guard Darrell Adell and 6-6 senior forward T. C. Jamison.

Coleman is presently at Southern Mississippi while Adell, now at North Carolina State, must sit out a year before he can play his final season. Jamison is no longer in school. Besides those three, the Racers lost by graduation center Marcelous Starks and guard Steve Barrett.

Last season, Coleman averaged 24.1 points per game and over 10 rebounds. But this season, it might have been different.

"He was really working and trying to get his weight down for this season. There's no question that he would have been super. I really think he would have changed his entire attitude had he been able to stay. He really hated to leave," Overton said.

# But Fast

SUPER SOPH—Grover Woolard of Murray State may be the tallest point guard in the nation. At 6-7, the sophomore from New Jersey is still growing. Murray will bank a lot of their hopes in the conference on the hot-shooting of Woolard.

(Photo by Mike Brandon)

By MIKE BRANDON  
Ledger & Times Sports Editor

Is everyone laughing at East Tennessee or is everyone at East Tennessee laughing?

It depends on what you're looking for, an easy win or a good basketball team.

If you're East Tennessee basketball coach Leroy Fisher, the second grammatical statement just might be the correct one. But if you're an Ohio Valley Conference basketball fan and you're laughing at East Tennessee, you better wipe the smile off your face.

Last season, the Buccaneers finished dead last in the eight-team conference, winning only three of 14 league contests. And this season, in the pre-season poll of conference coaches, East Tennessee is rated seventh, just ahead of Tennessee Tech which was rated as the worst club in the OVC.

thought East Tennessee looked more like a title contender rather than a team fighting to stay out of last place in the league.

In that game, the Bucs started a senior, two juniors and two sophomores.

Four of those players return this season, with another year of experience under their belts. The only newcomer to the East Tennessee lineup this season will be 6-8 sophomore center Bob Brown.

Brown saw little action last season but according to Fisher, he has the potential to develop into one of the top stars in the OVC.

Adding board strength will be Morris Tampa.

Richardson is a 6-7 sophomore from Charlotte, N. C. Last year, he averaged nearly seven points per game. At the other forward spot will be the versatile Tampa. At 6-4, the senior from St. Petersburg, Fla., is one of the best leapers in the conference.

A good shooter from the outside and a rugged rebounder, he scored nine points per game last year.

The Bucs are loaded with talent at the guard positions. Senior Kenny Reynolds and sophomore Charlie Stuart will get the starting spots, because

of their experience.

But there will be plenty of competition from backup the guards, senior Bruce Curtis and junior Steve Horne.

Fisher said he would rather see an eight-team conference tourney played on a neutral court than the present four-team setup at Middle Tennessee.

The Bucs will open their season this coming Saturday with a home contest against Madison College.

Then next Wednesday night, they visit powerful North Carolina.

The first conference contest will be at home on January 11 with OVC favorite Middle Tennessee.

Other returning lettermen for the Bucs include 6-8 senior center Danny Martin and 6-8 senior center Elmo Seay.

"Right now, I'm pretty satisfied with the way we've been running in practice," Fisher said.

"We won't have any real patterned offense, we'll do a lot of moving without the ball. On defense, we plan to play a fullcourt man-to-man press."

Fisher said he believes this will be one of the strongest years ever for the Ohio Valley Conference.

"I think the top three ballclubs (Middle, Western and Austin Peay) are all pretty close.

# No Fly But Gavs Tough

By MIKE BRANDON  
Ledger & Times Sports Editor

The first thing that greets a visitor to the Austin Peay campus in Clarksville is a massive building, rising tall against the gray skies of winter. A couple of blocks down the road is another building, the roof of which is undoubtedly cracked from the noise and screams of Austin Peay basketball fans over the past two years.

But as one drives across the small and attractive campus of the Valley Conference, he senses an air of quiet suspense.

And the reason: The man responsible for "The House that Fly Built" is gone. For when the new 8,000-seat arena opens, it will do so without Fly Williams. Call him arrogant, call him moody, but call him great. For Fly Williams is the man who in one year, turned the Governors from a last-place team into a league champion.

But now, Fly Williams is with the St. Louis Spirits of the American Basketball Association, Austin Peay fans are without a hero and Coach Lake Kelly is minus a headache.

But make sure of one thing: Fly Williams was loved, not only by Austin Peay fans but by

hundreds of other youngsters who ever watched his basketball magic.

Lake Kelly isn't crying because Fly Williams and super sophomore guard Danny Odums are gone. Instead, he has forgotten about the ruling made by the NCAA against the 27 conference athletes and is not the past.

"It's been a different kind of atmosphere around our school. Things have been a lot calmer," Kelly said.

"I really think our games will go a lot smoother too this year, but we will miss Fly in some respects."

Last year, Williams averaged 27.3 points per game. The year before that, he averaged just over 23 and was second in the nation in the scoring department.

According to Street & Smith Magazine, the Bible of basketball, Austin Peay ranked 13th in the country in recruiting for this season.

So if Kelly can get the expected development from his youngsters, Austin Peay might well be the team to beat.

In most situations, the Governors will rely on their fastbreak offense.

Kelly feels he has the guards which make the running game successful.

As in the past two years, the Governors will play a man-to-man defense and make use of

zone traps and other pressure defenses.

If there's any one problem facing Kelly it's indecision: "Honestly speaking, we don't even have a starting lineup. We can't even pick out our first 10 men yet."

"We are going to have to rely a lot on the returnees for experience. As far as league competition is concerned, we really don't have a lot."

"Jimmerson, Johnson, Howard and Fisher are certainly going to have to give us experience. We are very well pleased with the progress of Ralph Garner, who was our freshman last year, a big man that we played some."

"He's come along real well and I think with experience, he will develop into a fine player. The other freshmen we had last year who have moved up to the varsity, Reed Epley, Gary Maler and Juan Smith, are going to be factors."

"We are real pleased with the progress of Maler who is a 6-4 forward from Butler High School in Louisville. With normal progress, he will develop into an outstanding player."

"We have three freshmen that we are very proud of. One is Norman Jackson, who is Howard's brother, and he is probably farther along than any of the freshmen."

In a recent scrimmage game,

6-7 freshman Otis Howard of Oak Ridge, Tenn., led the entire squad in scoring as he tossed in 30 points.

The Governors open the season next Tuesday at home against South Alabama.

The next weekend, they play in a four-team tournament in Nashville, meeting powerful Southern Illinois University in the first game.

The Salukis have the top center in the nation this season, 6-11 senior Joe Merriweather.

Also in the tourney are Vanderbilt and Virginia Tech. The Governors will begin league play at Richmond on January 11 against Eastern Kentucky.

# Overton Faces Big Task

in the middle of the season and quickly developed into a crowd favorite.

A student of the Bible and a great poetry writer, Kinsey could well be the top guard in the conference; if he gets into foul trouble or gets injured, the Racers will really be hurting on the boards.

Like Blasingame, Moffett has sat out a year. Experience-wise, he played only one year in high school.

He is a leaper, and that's not even the proper word to describe the way he springs to the boards.

He is a very intimidating defensive player and will pick up a lot of blocked shots during the course of the season. Offensively, he has a good hook shot.

A key figure for the Racers will be 6-3 junior guard Jeff Hughes. He played only on a limited basis last year but like Woolard, he quickly became a crowd favorite.

Without a doubt, he is the most aggressive defensive player in the conference.

player anywhere to be found. Two years ago, the fine-shooting guard led the junior varsity in scoring with a 23.8 average.

Another great hustler is 6-4 senior guard Steve Bowers, Illinois, averaging 30 points per game. He was one of the top pitchers this fall on the Murray State basketball team.

The other two-sport man is 6-3 forward Mike Dickens of Evansville, Ind.

He was recruited by the Murray State football team but in high school, was a 17 point scorer in basketball.

He was named as the outstanding player in Evansville in both football and basketball.

Run And Press  
Overton hasn't left any doubts about what he intends to do this season.

The Racers will run with every opportunity and will press for most of the game.

Those two elements, speed and aggressive defense, is what Overton hopes will keep Murray in ballgames.

Last season, Murray finished 12-13 for the season and 6-8 in the league.

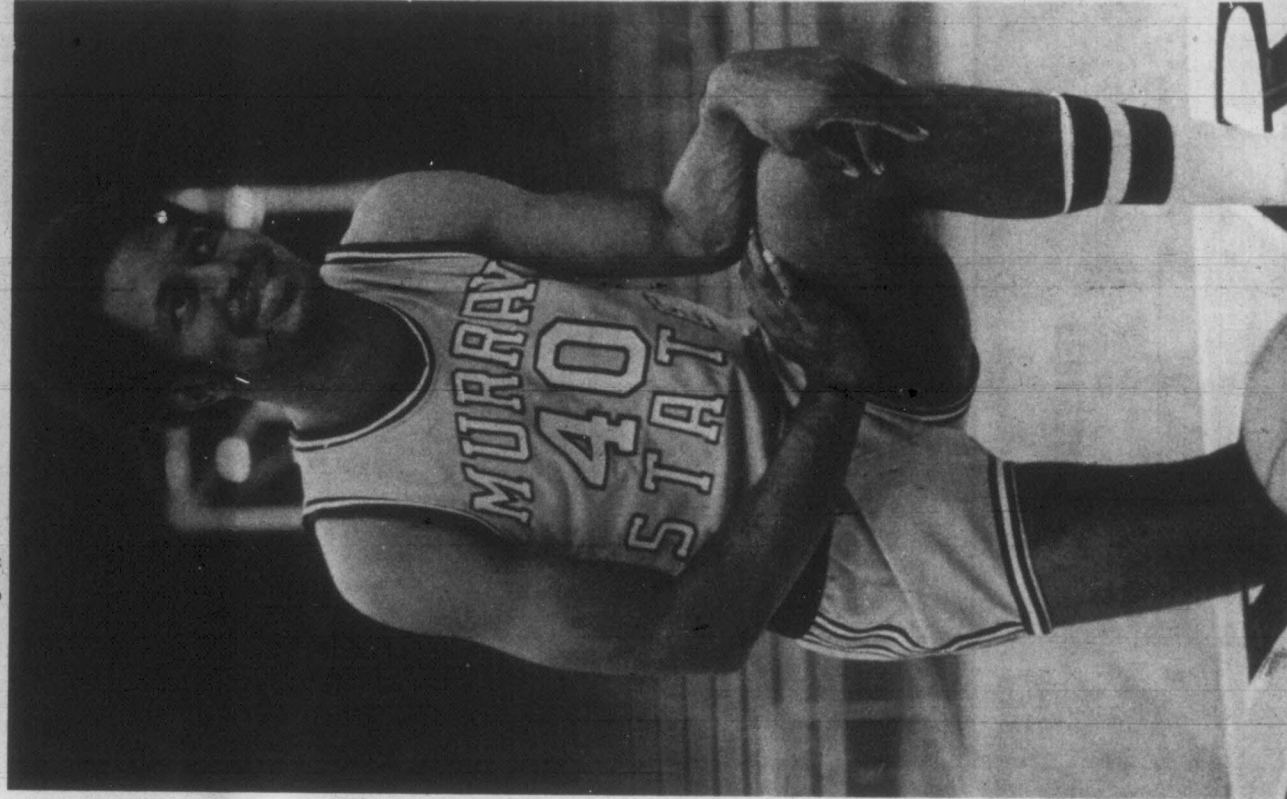

Murray lost seven conference games by a combined total of 33 points. In non-league games, the Racers lost four by a total of 15 points.

The first home contest for the Racers will be next Wednesday against Tennessee Wesleyan.

HAPPY HOWARD—Big Percy Howard of Austin Peay, one of the top players in the conference and a member of the pre-season All-Conference Team, would be happy to see the Governors repeat as league champions again this season.

# WKU In Role Of Spoiler

By MIKE BRANDON  
Ledger & Times Sports Editor

Jim Richards must feel like the man who wrote the words to the song "I'll never get out of this world alive."

For no matter how well his Western Kentucky University basketball team does this season, the Hilltoppers can't look any farther down the line than their last year.

Slapped last year by the NCAA, the Hilltoppers were given a two-year basketball probation from post-season tournament play because of recruiting violations.

And then just last week, Western Kentucky found out it wouldn't be able to play in the Ohio Valley Conference tournament in March. So all the Hilltoppers can do this year is to keep someone else from being able to enter the four-team conference tourney.

In a pre-season poll of league coaches, the Hilltoppers were rated as the second-best team in the conference, behind top-rated Middle Tennessee.

And the reason: their finish last season in the last half of the campaign.

Western started out the regular season winning their first five games. And then the trouble came.

The Hilltoppers lost six of their next seven contests, including one streak of four in a row.

Early in February, the Hilltoppers were just 2-5 in the

strength necessary to play way up the ladder...like the Top Ten in the country or that sort of thing.

"In today's games in order to win big against the great basketball teams, you are just forced to have a good center and we don't have a good center and is capable of playing at the level of a final four ballclub."

"We did have one of those gentlemen once upon a time (Jim McDaniels) and it does make a difference."

Wade is a 5-10 senior guard from Columbus, Ohio. A tremendous outside shooter, Wade averaged 10.4 points per game last season.

Gamper is a 6-2 senior guard from Cincinnati, a three-point per game scorer last year when he was only limited action.

Richards said Gamper and Wade all be battling for the primary guard position, or the ball-handling guard on offense.

Rawlings is a 6-1 junior guard from Elizabethton.

Last year, he averaged 13.2 points per contest and was chosen to the All-Conference honorable mention team.

Odemus will likely start in the center position, though he is only 6-3.

a high school team." Western opens its season next Monday against Madison College at home.

The conference season will begin at Tennessee Tech on January 11.

Among the outstanding teams who Western will meet this season are Purdue, Memphis State, Dayton, LaSalle, and Florida State and Louisville (Holiday Classic).

By MIKE BRANDON  
Ledger & Times Sports Editor

It's sometimes interesting to see what you can do with mathematics.

For instance, if mathematicians have told us if Hubert Humphrey would have received one more vote in each precinct in the United States, he would have defeated Richard Nixon in 1968.

There's probably only a handful of people who actually stay awake at night and play with numbers but without a doubt, one of them is Connie Imman, basketball coach at Tennessee Tech University.

Last year, his Golden Eagles finished the season with a poor 7-18 record and in the Ohio Valley Conference, Tech finished next to last, posting only a 4-10 slate.

But any avid basketball fan in the OVC can tell you one thing about Tech: They weren't nearly as bad as their record might indicate.

Believe it or not, 20 points in the right places would have made the Golden Eagles the champions of the conference last year. That's right, a measly 20 points over the course of the season in which the Golden Eagles scored a total of 1807 points.

And if you'd like to be a little more generous, a total of 34 points over the course of the season would have left Tech with an 18-7 record.

And that's one reason why nobody is counting Tennessee Tech out of the league race this season.

Oh, somebody has to be picked last in the conference. And why Tech? Maybe its because they came last in alphabetical order when the coaches were deciding whether to rank Murray, East Tennessee or Tech last in the pre-season poll for this year.

Tech loses only two starters off last season's seventh place OVC team.

Gone via the graduation route are Jim Clemens and Howard Miller.

Clemens, a hot-shooting guard, averaged 16.9 points per game last season while Miller, the big pivot man of the Eagles,

averaged 11.3 points per game and 10.5 rebounds.

The Golden Eagles return two starters, 6-2 guard Tony DiLeo and 6-2 guard Frank Jones.

DiLeo averaged about five points per game last year while Jones, a first team All-OVC selection, averaged 19.4. They could give Tech the best backcourt duo in the league.

Other lettermen returning include 6-7 Andy Melton, 6-5 Tom Schmidt and 6-7 Alton Roark.

"Eleven games by 33 points, that's coming close to some pretty good ballclubs. We did it primarily with three players, Miller, Jones and DiLeo."

"Last year we played pretty slowly; we stayed in a coward defense most of the time. We hope not to have to do that this year. We sat in the zone a lot, I didn't like the idea of it but our players got tired and we rested on the court."

Jones has been named as a pre-season All-Conference selection and that will give the Eagles a nucleus to build around.

"Jones does it at both ends of the court; he's still a youngster at 19. He has a lot of poise and I think he's probably about as fine to watch as any player that we have in the conference," Imman said.

"DiLeo does not have impressive stats but the guy sure does help us. He doesn't go up nine feet in the air and get a rebound but he can go all over the court."

"I think we have some other new players who should be able to help us."

The most highly-touted of Tech's new faces on the club is Larry Shade, who will move up off the junior varsity.

A 6-7 sophomore, Shade is labeled as the best outside shooting big man on the squad.

Another good prospect is Willie Smith, a 6-4 jumping jack who came to Tech from Cumberland College.

"He's really a leaper. Because of his rebounding, he figures into our plans right away."

Another fine prospect is 6-0 junior college transfer Bobby

it will help us but most of the time, we'll play man-to-man because we think we have the people who can do it.

"We could get the ball for a while last year and run, for about 25 minutes. Then the last 15 minutes of the game, we were dead on our feet."

The Golden Eagles will open their season Friday in Bloomington against the University of Indiana.

"They must have a lot of respect for us because they've sold out 17,500 seats," Imman quipped.

Indiana returns all of its starters and will be ranked in the nation's top 10.

Also on the schedule are Mercer, South Florida and Stetson.

The Golden Eagles will open their conference play January 11 at home against Western Kentucky.

Last year, Tech split with the Hilltoppers, winning 60-59 in Bowling Green and losing 78-77 in Cookeville.

# Blue Raiders Picked To Win First Conference Championship

By MIKE BRANDON

Ledger & Times Sports Editor Jimmy Earle says he isn't backing up the groceries yet. Among the returning let-terms for the Raiders this season include guard Fred State University coach knows what he has and his shopping cart of talent is loaded with prime meat, four pre-season All-Conference selections.

Middle Tennessee is the only school in the conference that has never won a basketball title. But if the opinions voiced by various coaches around the league are correct, then Earle will be sacking up his groceries at the end of the season.

In a pre-season poll of coaches, the Blue Raiders were given a big edge to win the conference, with Western Kentucky second and Austin Peay a distant third.

Last season, the Raiders were 18-8 overall and finished with a 9-5 conference mark, good enough for a third place finish, behind Austin Peay and Morehead who shared the league crown.

Only one starter is gone from last season's team, that being two-time All-Ohio Valley Conference selection Jimmy Pwll.

The 6-5 forward, who averaged 14.8 points-per game last year, was drafted by the Philadelphia 76ers of the National Basketball Association.

Also gone are seventh man Forrest Toms and top-notch

on discipline and character. And as far as I'm concerned, George Sorrell is just simply characteristic of our program."

Last year, Sorrell averaged

14.8 points per contest, playing all season on bad knees. Joining Sorrell as pre-season All-Conference players are Allen, Sisneros and Peeler.

Allen, a 6-0 junior guard from Little Rock, Ark., scored at a 16.5 point per game clip last year.

the top outside shooting guards

in the South.

"He's the only player since I've been at Middle Tennessee that I have given the green light to shoot the ball from thirty

Raider teammates, he's known as the "Kokomo Cruncher."

"I think he would have been a tremendous football player,"

Earle said of the huge Sisneros.

John Bonner and 6-3 Ricky Collins.

Earle thinks his main strength will be the depth of the club.

"Barring injuries, we have more depth than any other team at Middle in the past. We are going to be exceptionally strong on the boards but we probably won't be as quick as we were last season."

"There are several different combinations we can go with. We can have a power lineup or on the other hand, we can go with speed lineup and a fullcourt press."

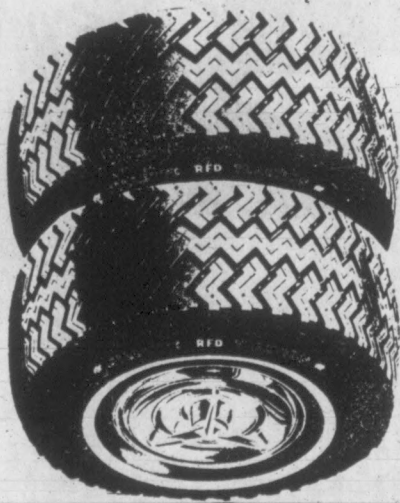

Earle thinks the darkhorse in the conference race will be Eastern Kentucky.

The Blue Raiders open their season Friday as they play powerful Pennsylvania in the Clemson Tournament. Also entered are the host school and Ole Miss.

## University School Recommended As Fitness Demonstration Center

For the second consecutive year, the Murray State University School has been recommended for the President's Council on Physical Fitness and Sports as a Physical Fitness Demonstration Center School from the state of Kentucky for 1974-75.

Dr. Janice Hooks, director of the school, was notified of the selection by L. Eugene Cantrall, physical education consultant with the Kentucky Department of Education.

Mrs. Shirley Wilferd, physical

education director at the school and under whose leadership the program was initiated and developed, recently attended a special recognition luncheon in Frankfort in connection with the honor. Mrs. Wilferd has been with the school for eight years.

Ten schools in the state were so honored for their physical education programs, but the Murray State school is one of only two to receive the honor for two years in a row.

An eight-point criteria is used

for the selecting of the state's physical fitness demonstration centers. These include the opportunities of students to participate in daily planned programs, certification of teachers, development of desirable attitudes, physiological fitness goals adapted to individual needs and capacities, vigorous activities and others.

Students at the University school participate in physical education activities every day with those from the second

grade through the sixth dressing out daily. The programs vary by grades. For example:

Students in the primary grades are taught rhythms, free movements relays and other activities of this nature.

Students in grades three through six are taught specialized skills leading to team sports as well as individual and dual sports, including bowling, tennis, badminton, volleyball, basketball and others.

Two student teachers currently are working with Mrs. Wilferd: Steve Coulson, senior, Fisk, Mo., and Stan Thompson, senior, Princeton. Coulson, a former Murray State baseball player is now under contract with the New York Yankees and plays second base. Thompson is a member of the Murray State Cross Country team.

Also working considerably with the students on a voluntary basis in gymnastics is Steve (Flip) Martin, the senior place kicker and former cheerleader

whose three field goals Nov. 23 enabled the Murray football team to defeat Western Kentucky University 9-7.

"The students are exposed to every kind of physical fitness and sports activity imaginable," Mrs. Wilferd said, "as we cover every aspect of a complete and well-rounded program." Anyone wishing to observe the activities are welcome to do so at any time, she said.

The school's annual physical education demonstration program for the Parent Teachers Association is scheduled for Monday night, Feb. 24.

## State Government Committee Makes Recommendations To LRC

FRANKFORT, Ky. (AP)—A telephone for every legislator? That was the recommendation of the Interim State Government Committee Tuesday for the 1976 session.

The motion was made by House Speaker Norbert Blume, D-Louisville, who called it "one small step" in the gradual process of upgrading the general assembly.

There were some objections—that the cost was too much, the move was not necessary and the action had nothing to do with upgrading the lawmakers image.

The committee made its recommendation to the Legislative Research Commission, which has the final say.

Under the plan offered by a subcommittee the program would cost \$110,000 for permanent construction \$2,748 monthly during a session for basic service and almost \$2,000 for the installation charge every two years.

The phones would be put on each legislator's desk and could

be cut off during a session, when an answering service would be used.

Senate Minority Leader Gene Stuart, R-Louisville, said he concurs with the idea in general, but questions the cost.

"I've never had real trouble when I needed a phone," he added.

Blume, declaring it is an indignity for legislators "to wait in line to use the phone," said if his colleagues are concerned about such a small cost, "we ought to forget about upgrading the General Assembly."

"The legislature is not going to be upgraded unless the legislators themselves do it," Stuart responded.

Rep. Joseph Clarke, D-Danville, cited what he called the total lack of privacy in the chambers and added: "Most fellows have to hide from their desks to get anything done."

The vote was 10 to 3, with one passing.

Rep. Bruce Blythe, R-Louisville, said during the roll call,

"I vote aye, with the condition I have an unlisted number."

During the discussion Blume indicated the functions and facilities subcommittee, which approved the telephone idea, also will come up with plans to give lawmakers their first semblance of separate offices.

He said that when a new Human Resources Complex is built and space becomes available in the Capitol Annex, there may be one office for every four legislators, plus one secretary.

On other matters: —The state government committee held off any action on restudying an unsuccessful open records bill from the 1974 session until members looked over last Friday's court of appeals decision on the City of St. Matthews versus the Voice of St. Matthews, a newspaper.

Clarke, heading a subcommittee on the topic, said the ruling "does what House Bill 22 would have done last session: It opens all public records not closed by statute."

—The committee indicated it would do intensive work on a proposed uniform administrative procedure act.

Chairman Charles Wible, D-Owensboro, said Kentucky is one of the few states which does not have standards on how agencies conduct hearings.

—There is no due process law built in to make sure a person has a fair hearing," he said.

—The committee reacted favorably to a suggestion from Kentucky Educational Television that some meetings be televised on the statewide network. The first program probably will be next spring.

The committee heard a number of department heads on how reorganization is working. Finance and Administration Commissioner James O. King gave the overview.

The chital is a common deer of India and Ceylon. It stands just over three feet tall at the shoulder and has long antlers, each carrying three points or tines.

## 'No Smoking' More Evident

By TERRY RYAN  
Associated Press Writer

"No Smoking" signs are going up in elevators, supermarkets and concert halls. The right of America's nonsmoking majority to some smoke-free air is increasingly being protected by law.

In the past two years, several states and at least a score of cities have limited smoking in public places—for health reasons, not fire safety. Similar legislation is pending elsewhere.

A scattering of restaurants and other private enterprises have voluntarily introduced smoking regulations geared to health and comfort.

The new smoking restrictions started to appear after the U.S. surgeon general's report of 1972 noted the dangers of passive smoking: the potential health hazard, even to nonsmokers, of cigarette, cigar and pipe smoke in confined areas. The report said nonsmokers, particularly people with heart or lung problems, might be exposed to

harmful concentrations of carbon monoxide.

Arizona and Nebraska have since banned smoking in elevators and limited it to designated areas of hospitals, museums and concert halls. Oregon prohibited smoking at public meetings of state bodies. Connecticut followed this year with a smoking ban at all public meetings anywhere in the state.

As of Nov. 1, a new section was added to New York City's health code. It banned smoking in elevators and food stores. Dallas last month said no smoking in nursing homes. Two proposed anti-smoking measures are on the agenda of the Los Angeles City Council.

Anti-smoking proposals have been rejected in Massachusetts, Ohio and several other states. In fact, they have been turned down more often than adopted. In some cases, they have been opposed by restaurant associations and tobacco trade groups, and sometimes they are simply ignored.

Along with health considerations, organizers said the no smoking drive is being fueled by the increasing awareness of non-smokers that they are not a minority.

"Most people don't smoke and their rights are being violated," said Dr. Stephen Redmond, health commissioner of New York's Dutchess County, where new smoking regulations are under review.

According to the Public Health Service's National Clearinghouse for Smoking and Health, about 40 per cent of American men and 30 per cent of American women smoke. There are about 52 million smokers in a population of about 210 million.

efforts to restrict smoking have varied.

When Boyd's Coffee Co. banned smoking in its Portland, Ore., plant, it cost the company one employee and a union grievance. The worker quit and the grievance went to arbitration, where the ban was upheld as long as employees could smoke

outside the building.

Restaurants that designated special tables for smokers have reported mixed results; most said it was satisfactory, but some noted a decline in customers.

Anti-smoking advocates and other observers said the new no-smoking signs are generally effective, at least in cutting down the haze.

Most of the new laws carry fines of \$10 to \$25, but summonses are few and arrests all but nonexistent. Officials acknowledged that shortages of police and other manpower make enforcement impossible without public cooperation.

To defend their rights, anti-smoking advocates said nonsmokers should pressure errant smokers by reminding them of posted signs or well-known regulations.

"If a law is on the books it should be enforced, but if it isn't, the public should enforce it," said Steve Klein, director of a lawyers group working on a nonsmokers bill of rights in Illinois.
