Please Call For Pictures

Window Display Now Being Removed

We wish to thank each and every one of you for your cooperation in making this window possible, and assure you that it has been a great pleasure to us to assemble these pictures so that our friends and neighbors might see just how many of our boys are defending this great Nation of ours. We hope and trust that these fine fellows will return to us in good health.

MRS. WESTON, LIFE READER

There is no end to the world without a family—dissensions. If parents are not to be flattered, we make them feel that the world is an endless series of good places. When I was a child, our family troubles were very much a part of our daily lives. We were always worried about the future and what would happen if they didn't work out. I remember my parents telling me about how my grandparents had to work hard to provide for their families. They worked long hours, and I could see the strain on their faces. It was a constant worry for them to know that if something happened to the family, they would be left with nothing. They always told me to be grateful for what I had and to not take things for granted. I still remember their words, and I try to apply them to my life today.

CRUTCHFIELD NEWS

ELYRIA, Ohio

YOUR ONE AND ONLY

ELECTRIC COMPANY

OWNED BY THE PEOPLE

WHO USE IT

WALL STREET

Owns Your Electric Company?

FOOKS: Some few hundred of the owners of your electric company have lost their homes in Kentucky. Who are they? Well, 2,625 or better than 1,000 of 2,000 are small Scottish and Swedish. 415 are business men and 81 are doctors, lawyers, etc. 207 are college professors and professors. 137 are nurses, teachers, doctors, dentists, 273 are teachers and professors. 277 are doctors, nurses, etc. and 26,000 are employed in the electric company.

The view owners worth the Wall Street high finance? No, no! They are your neighbors, fine, good Scotchmen, nor is a better name in business than the owners. They are worth the money in the electric company.

But the name owners want to run the electric company. They want to replace business competition with political management and thus destroy the electric company. To be a leader in the electric company is to be a leader in the community. The electric company is the backbone of the community. They are the backbone of the community.

REDY KILOWATT says:

What Do You Mean—
