American Forces On Offensive
In Pacific Sections, With Japs Feeling Might Of Air-Attacks

Dozen Enemy Planes Are Destroyed By
American Bombers

WASHINGTON, D. C.— The American forces in the Far East have taken a
new offensive, with the striking of a series of raids on the Japanese
capital and other strategic points. The attacks were led by the
bomber planes, which have shown themselves to be the most
destructive of the enemy's planes.

The planes were launched from bases in China, and after a
brief flight, they attacked the Japanese capital. The bombs
were dropped from high altitudes, causing widespread damage.

The attack was a complete success, and the Japanese have been
forced to retreat. The American forces have gained a strategic
advantage in the area.

SPORT TALK

I thought I would say nothing about this matter, but the boys worked so hard and became so interested in the game that I grew anxious over the Mayfield result. Right now the Cardinals are going to replay the game, and it is my opinion that the Bulldogs, playing as they did against Mayfield the week before, would have beaten Mayfield. Paducah and Mayfield on that day.

The Perry County Milk Cooperative made up of local farmers delivered approximately 190 gallons of milk per day last month.
