VOLUME TEN

FULTON, KY., FRIDAY, JUNE 19, 1942.

NUMBER TWENTY-TWO

DAY BY DAY WITH FULTON TIGERS

KITTY STANDINGS		
Fulton	W. L. Pct.	
Bowling Green	22 12 .727	
Jackson	29 17 .630	
Hopkinsville	22 24 .478	
Owensboro	15 33 .313	
Union City	9 34 .209	

OWENSBORO 1, FULTON 6
The Fulton Tigers beat the Owensboro Oilers Tuesday afternoon with a score of 6 to 1.

Owensboro 001 000 000-1
Fulton 021 003 000-6

OWENSBORO 2, FULTON 1
The Owensboro Oilers won the last game in the series Tuesday night as they beat the Tigers 2 to 1.

The Mullenn's failure to hit in the clutch cost the Bengals the night game.

Owensboro 002 000 000-2
Fulton 000 010 000-1

FULTON 4, JACKSON 6
The Jackson Generals walked the Fulton Tigers for the second straight time Friday night, with a five-run rally in the fifth, 6 to 4.

Rosky Walls and Lloyd Maloney crossed the plate to start the spree in the fifth and third sacker Ernie Ankrum slammed a four-bagger.

Fulton 001 012 012-9
Jackson 005 110 021-10

H. B. TEMPLETON ON DESTROYED SHIP

Mrs. H. I. Cheatham received a message that her nephew, C. H. Templeton of Bardwell, Ky., was among the boys missing on one of the U. S. Ships recently.

JACKSON 2, FULTON 1
A sharp double in the last half of the fourth by Charlie Reader, General right-hander, gave Jackson a lead Thursday night with a score of 2 to 1.

Tommie Thomasson let the Generals down with six hits.

The score at the innings:

Fulton 001 000 000-1
Jackson 000 200 000-2

OWENSBORO 1, FULTON 5
The Fulton Tigers beat the Owensboro Oilers Sunday, with a score of 5 to 1. Lloyd Fisher, Fulton right-hander, let the Oilers down with three hits.

Butch Derrick, Tiger shortstop, had three hits in three trips.

Score at the innings:

Owensboro 000 000 100-1
Fulton 000 050 000-5

Kitty League Folds Up For Duration

The game Thursday night of this week marked the final chapter of the season in the history of the Kitty League, which has folded up for the duration of the war. Due to a decision reached by the Union City Baseball committee Monday night, the Greyhounds will discontinue play to avert further financial losses, and because other teams of the league are having financial difficulties, the loop will disband.

It has been evident for some time that some of the clubs must withdraw. Attendance at Fulton, with the Fulton club leading the league, has averaged about 150 per game. Shelby Pearce, of Hopkinsville, president of the league, talked with Cecil Moss, head of the Union City club Tuesday night, when Mr. Moss expressed the desire of his club to withdraw from the league. Pearce said that Hopkinsville, Owensboro, Jackson, Fulton and Bowling Green wanted to continue. He said that he had checked with the heads of the five clubs during the afternoon.

Fulton became a member of the Kitty League upon its reorganization in 1933, and has played through every season since. Moss Mullens has been managing the Fulton Tigers this year.

Most players optioned to the Kitty Clubs by parent organizations will be recalled, and those covered outright by the clubs will be free agents.

New Air Field Now Ready For Trainees

Work on the new government training air field near Midway is making splendid headway, and the field will soon be ready for cadet trainees.

All buildings planned are now well under way except two barracks on which work is just starting. Two barracks are near completion, and other structures, including the administration building, hospital, school building, and mess hall and recreation building, will be completed by about July 1.

Work is just getting well started on a four-story high flight operations building which will stand between and in front of the two large hangars on the east end of the 1,800-foot long runway. From this building, flight directions will be given.

Farmers "Sold Down The River" Linder Says

A movement is underway in this country to create an over-all plan for two great empires; an industrial empire with high prices, and a raw materials empire with low prices, according to Tom Linder, Alabama commissioner of agriculture.

"On May 20 the Senate adopted the amendment by Senator Russell to sell corn and wheat at 55¢ of Wickard's fake parity for corn," Mr. Linder said. "Immediately cotton, wheat, corn and oats went down violent. Then the House of Representatives refused to agree to this Senate amendment to sell corn and wheat down the river, and immediately there was a violent upturn in the market on cotton, corn, wheat and oats."

Russell's amendment was introduced after a conference of Senators Russell, Bankhead and McNary with Morgenthau and Wickard at the White House. Evidently it made no difference about the 110¢ of parity, provided the government was permitted to dump its stocks on the market below parity.

"In 1933, the first year of the present administration, total appropriations to the United States Department of Agriculture were \$219,683,000. Of this appropriation only \$131,000,000 went into government payments to farmers. In 1937 the first year of the second administration, appropriations to the Department of Agriculture went to \$652,711,000, of which \$367,000,000 went to farm benefits. In 1941, the first year of the present term, the appropriation for the Department of Agriculture went to the tremendous sum of \$1,149,829,000. Of this appropriation \$586,000,000 went to farm benefits."

"In 1933, when Georgia received 7% of the total appropriation, this money was distributed by the county agents, and practically all of it went to the farmers. But in 1941 when Georgia received only 1.3% this money was distributed through Triple A offices in each county, and most of this money was taken up by expenses of operating these offices, and the farmers actually received very little of it. The county agents and the farmers know that this is true."

"The United States Department of Agriculture today is engaged in forcing starvation prices on the American farmer while, at the same time, developing agriculture throughout the world in a great raw materials empire. Mr. Bennett and his aides have been in South America clearing land and building terraces, setting out crops in Venezuela."

"The talk about farm prices, creating inflation is a camouflage to destroy American agriculture. It is a step to build a great raw materials empire. Gasoline rationing is a camouflage to destroy small business along the Atlantic Seaboard, and it is a step to build a great industrial empire."

"We will shortly see whether Congress will reassert itself as a sovereign body or whether Henderson, Ginsberg, Wickard, Morgenthau to bleed the farmers white and destroy the greatest necessity for winning the war—our food supply from our American farms."

"Democratic institutions exist by reason of their virtue. If ever they perish it will be when you have forgotten the past, become indifferent to the present and utterly reckless as to the future."

FDR SIGNS BILL RAISING PAY OF MEN IN SERVICE

American soldiers and sailors became the highest paid fighting men in the world Thursday when President Roosevelt signed legislation granting them their first general pay increase in 20 years.

The legislation means a substantial boost in monthly pay checks—retroactive to June 1—for all grades from back private and apprentice seaman to second lieutenants and majors.

The lowest grades, privates and apprentice seamen, will receive \$30 a month contrasted with their former salary of \$29 after four months service. Second lieutenants and majors will receive an additional \$300 a year to bring their total annual compensation to \$1800.

FORMER FULTONIANS MOVE BACK TO FULTON

Mr. and Mrs. John Davis, formerly of Fulton, have returned to Fulton to make their home, after having spent the past thirty-five years. Mr. Davis was connected with the Interstate Commerce department in Washington. They have recently purchased the Gladys Chowing house at the corner of College and Fourth street.

Mrs. Ruby Harper and son, Jack, went to Chicago Wednesday for several days visit with relatives.

Whatever fortune has raised to a height, she has raised only that it may fall—Seneca.

FARMERS HAVE BIG STAKE IN PROGRAM

Kentucky and Tennessee farmers have a big stake in the nationwide program to control runaway prices, hold down the cost of living and prevent inflation.

Many can recall the boom in farm prices and incomes during World War I; they also remember the disastrous collapse of farm prices and land values that followed.

The purpose of this program is to prevent another and probably more serious calamity following the present war. Farmers are not only producers and sellers of commodities, but also purchasers of large quantities of fertilizers, feeds, machinery, and other supplies for production and large quantities of goods and services for farm family living. They stand to benefit directly from stabilization of prices of these commodities. They are owners of bonds, life insurance policies and farm mortgages. At the same time, prices of many of the basic commodities which farmers have for sale are guaranteed against decline below 85 percent of parity, and for the most part are not yet subject to price ceilings.

By loyal cooperation with every phase of the program farmers should be able to conduct their business in a profitable manner and make maximum contribution to the total war effort. The more complete the success of the program, the more quickly will victory be won, and the sooner will agriculture and the country as a whole be able to return to the ways of peace.

Fulton County Homemakers Exhibit Shown

To show some of the results of the Fulton County Homemakers Association's major project for the past year the Homemakers clubs have planned an exhibit of chairs that have been repaired, padded, upholstered and covered for July 1 through the 4th. The exhibits will be put in windows of offices and stores in Fulton and Hickman. Those windows are as follows: Irby's Fashion Shop, Huddleston Hardware in Fulton and Dobson, Hickman Hardware, REA Office and Jackson Purchase Credit Association Office in Hickman.

WATER VALLEY NEWS

Mrs. Jennie Scott, who has been visiting her daughter, Mrs. W. T. Edwards, has returned to her home in Memphis.

A revival meeting will begin at the Methodist church the fourth Sunday in July. Mr. Moody B. Cunningham of Memphis, will lead the singing.

Rev. W. A. Swift, pastor of the Methodist church, will begin a revival meeting at Wingo Methodist church next Sunday night, June 21.

Three weddings have taken place here in the last few days. Miss Laura Catherine Bard was married to Murrell Stevens. Miss Catherine French to Robert Reece and Miss Mary Kate Beadles of Mayfield to Ward Pillow.

Mr. and Mrs. M. A. Seay are visiting his brother, Dr. J. G. Seay at Germantown, Tenn.

Rev. Wayne A. Lamb, pastor at the Methodist church at McKenzie Tenn., was in town on a visit last week.

\$5 Auto Stamps On Sale At Post Office

The auto tax stamps are now on sale at the Fulton post office. The stamps must be purchased and placed on all automobiles by or before July 1.

All stamps are serially numbered, and have provision on the back for the serial number, make, model, and license number of the vehicle.

It has been suggested that when affixing the stamp on the vehicle the owner should stamp the windshield rather than the adhesive side of the stamp, in guard against loss or theft. The owner should also make a record in the serial number which appears on the use six stamp in order that there may be means of identification if the stamp should become lost.

The post office will sell the stamps, use the counter for cash only and no mail order business will be conducted.

REV. C. E. AIKIN ANNOUNCES RESIGNATION

Rev. C. E. Aikin, who has been superintendent of the Mission, announced his resignation Sunday morning. He will leave for Washington next Sunday, June 21, and after that he expects to engage in other phase of Christian work.

Harry Fields DeZonia of Memphis spent Sunday with his mother, Mrs. Bess DeZonia.

RAILROAD VITAL IN WAR EFFORTS

"In the first five months of this year we handled the greatest volume of freight traffic for any comparable period in all the history of our railroad—a matter of pride for us, an omen of disaster for our country's enemies," states J. L. Beven, president of the Illinois Central System.

"Our daily averages of net ton-miles of freight," he continued, "rose from 44 million in December to 53 million in January, 57 million in February, 59 million in March and 65 million in April."

"To meet the petroleum shortage on the eastern seaboard, our tanker miles rose from 7 million in March, 1942, our government bills of lading on received traffic alone were nearly twice as large in number and nearly six times as large in value for the single month of March, 1942, as for the entire year of 1932. Military travel on the Illinois Central for the first three months of 1942 was more than twice as large as for the corresponding months of 1941."

•FULTON HOSPITAL

O. C. Henry remains about the same.

Mrs. B. Darnell and baby were dismissed Wednesday of last week. Wednesday of last week.

Mattie B. Cleaves was dismissed Thursday of last week.

Tom Reese was dismissed Wednesday of last week.

Ed Wade is getting along nicely.

Miss Wilma Fuller was dismissed Saturday.

Mrs. Hubert Inman is improving.

Mrs. A. W. Henry was dismissed Friday of last week.

Mrs. Patton Godfrey was dismissed Sunday.

Miss Lena Stokes was dismissed Friday of last week.

Miss Flora Turner was dismissed Monday.

James Dunning is doing nicely.

David Daniel was dismissed on Monday.

James Russell Godson has been dismissed.

Ellis Biggs, who had been admitted for treatment, was dismissed Wednesday of last week.

Mrs. Louise Scarce and baby were dismissed Monday.

Miss Frances Evans had an appendix operation Monday but is getting along nicely.

•I. C. NEWS

S. C. Jones, trainmaster, was in Memphis Tuesday.

H. K. Buck, trainmaster, was in Memphis Tuesday.

C. H. Crews, supervisor of bridges and buildings, Water Valley, Miss., was in Fulton Wednesday.

W. R. Reynolds, mechanical inspector, Chicago, was in Fulton Tuesday.

J. D. Tuttle, superintendent of perishable freight, Chicago, was in Fulton Tuesday.

L. E. Gaskill, fuel engineer, was in Memphis Wednesday.

T. K. Williams, superintendent, was in Fulton Monday.

H. E. Mays, general boiler inspector, Chicago, was in Fulton Monday.

J. S. Mills, supervisor, was in Cairo Tuesday.

W. R. Hovious, claim agent, of Memphis, was in Fulton Tuesday.

R. C. Pickering, clerk, was in Memphis Thursday.

A. U. Givens, district freight agent, Jackson, was in Fulton Wednesday.

C. H. Mattier, chief engineer and C. M. Church, engineer of M. & W. was in Fulton Monday.

Frank Welch, fuel engineer, Carbondale, was in Fulton Monday.

CLASS PROMOTED

Trainmaster S. C. Jones held a promotion class in his office Sunday, June 14, and the following fifteen were promoted to engineers: Raymond Brown, J. H. Wagoner, J. L. Rogers, T. L. Ray, E. H. LaNier and W. A. Saxgry.

T. K. Williams, superintendent, was in Fulton Wednesday.

E. E. Baugh, traveling engineer, Paducah, was in Fulton Wednesday.

S. L. Munnally, general freight agent, Memphis, was in Fulton Wednesday.

TRAIN TRANSPORTATION MAY BE RATIONED SOON

Warning that travel on passenger trains may be rationed in the near future, J. L. Beven, president of the Illinois Central System, said Wednesday that his railroad was acting under "general orders" of the Office of Defense Transportation in receiving all "unnecessary" train from service.

"It soon may reach the point here you may have to get a permit to ride on a train."

Mr. Beven came through Fulton Wednesday night enroute to Chicago. His car was attached to the Panama Limited.

Fulton Pitcher Sets Fast Kitty Hurling Pace

Herman Bishop, hurler for the Fulton Tigers, is setting a fast pace on the mound, leading the league with an average of 1000 percent up to June 9. Tommy Thomasson, Lloyd Fisher and Julian Burgess all have good pitching records.

Carroll Peterson is leading the Fulton club in hitting with an average of .334. Joe Pollock ranks next with .321, and Herman Bishop has an average of .300 having connected for six safeties out of 20 times at bat. Frank Faudem rates with .296, while Dave Derrick, out of 144 times at bat has connected for 42 hits for an average of .292.

In the report by J. P. Friend, Kitty loop statistician, released games up to June 9, Fulton ranked second in club batting, third in club fielding, and first in number of games won.

Farmers To Aid Scrap Drive Against the Jap

"Every farm family in Fulton county is urged to respond to the call of President Roosevelt to cooperate in the two weeks campaign ending midnight June 30 to collect all available scrap and old rubber," declared Roscoe Stone, president of the Fulton County Farm Bureau.

"President Roosevelt has postponed a decision on gasoline rationing in Kentucky pending the results of the scrap rubber collection campaign," Mr. Stone said.

He explained that all filling stations, garages and oil trucks have instructions to buy all scrap rubber at 1¢ per pound. This is strictly a non-profit operation and the entire collection will be turned over to the Rubber Reserve Company, a subsidiary of the Reconstruction Finance Company.

"The purpose of the campaign is to reclaim this old rubber for retreading civilian tires and for the war effort," continued Mr. Stone. The continued reasonable use of farm trucks and civilian automobiles under 40 miles an hour," emphasized Mr. Stone, "is essential to victory and to the preservation of our farm and business structure on the home front." In this connection it was brought out that the orderly flow of farm products to market was vital to final and complete victory.

"Farm people in Fulton county will lead the way in this scrap rubber collection campaign," predicted Mr. Stone, "and will contribute their full part to a highly successful campaign. They will not all of their old scrap rubber to work to win the war and they will do it quickly."

President Stone pledged the wholehearted cooperation of the Fulton County Farm Bureau to the County Salvage Committee, the County War Bonds and Extension Agents, the Vocational Extension Agents, the 4-H Clubs and the Future Farmers, in a joint effort to clean up and deliver to the filling stations every single pound of scrap and old rubber, available on the farms of Fulton county.

DIXIE ROBINSON

H. D. Robinson, age 71, died in Hickman Friday morning of last week following several weeks of illness. Funeral services were conducted Sunday afternoon at 4 o'clock at the First Methodist church in Hickman.

Mr. Robinson was a well known character in Fulton.

MRS. RHODES FRACTURES HIP

Mrs. M. L. Rhodes suffered a fractured hip Thursday afternoon, while working as she tripped over a box while going upstairs to put down the windows during a rainstorm.

She was brought to the Haver clinic for treatment.

SAFETYGRAMS

Much has been said and written about the saving of tires.

With summer, and hot weather coming, we must be doubly careful about rubber tires.

Tires wear out twice as fast in summer as in winter, according to the National Safety Council. Heat is a natural enemy of rubber, wearing the tread faster and weakening the strength of the cords.

The same rules apply in summer as in winter.

Keep your tires properly inflated. Do not drive fast. High speeds generate heat, and with the roads hot, they add abuse to the rubber on your tires.

Drive smoothly. Drive carefully. Do not make your turns fast—avoid skidding.

Change tires frequently so that you will equalize the wear on them. Drive carefully.

Mrs. T. N. Pittman left Tuesday for Water Valley, Miss., for several days visit before returning home to Dubuque, Iowa.

FOR SALE—2 Jersey Cows, fresh and sow and 9 pigs, Ethel Browder, Middle Road.

FULTON COUNTY BOYS LEAVE JUNE 24

Forty-six Fulton county boys will be inducted into military service on June 24, 1942, according to an announcement received from the Local Draft Board No. 47.

Those included are: William S. Carr, Olin P. Williams, Lubin Delbert Grissom, Curtis Dane Lovelace, Charlie V. Stephenson, James Bryant Davis, E. W. Bethel, Walter Clifford Bynum, James Guedry Harrison, Carmen AlWter Woodruff, Lowell Robert Barber, William Harold Riddle, Jacob Carl Alfred, James D. Perry, Leon Burrow, Samuel Smith Taylor, Pat Washington Hicks, Will D. Patrick, all of Fulton; Olie Rice, F. T. Cranford, Claud Sylvester Bell, Guy Edward Lattus, Louis Franklin Binford, James Royce Bratton, Milton Frances Lusk, Milton Wael Dadds, John Nick Fleming, James Varices Darnell, Zolner Shanklin, James Albert Waynick, Floyd Lee Green, Jr., Bonnie York, James C. Armstrong, Billy Allen Butram, Alfred Taylor, Oscar Woodrow Parker, Ernest Ray Chamberlain, Herschel Lewis Johnson, Mary H. Archie, Tilman Wesley Harris, Robert Andrew Boaz, Fred Edward Crowell, and James Guy Dyer, all of Hickman.

Citizens Committee Seeks Sane Government

Six times the Senate has gone to bat on major departmental appropriation bills in recent weeks, and each time it has fanned the air, striking nothing but the nation's taxpayers, state the Citizens Emergency Committee on Non-defense Expenditures.

In each appropriation bill the Senate despite the valiant efforts of certain Senators, rescinded virtually all House economies and reported the bills to conference in substantially large amounts than when they passed the House. The aggregate increase in appropriations, through inclusions of new items and increases for existing items, amounts to the sizeable total of \$2,292,426,623. It is difficult to reconcile some of these increases with the urgent reurement for funds with which to purchase essential war material. Today's expenditures are tomorrow's taxes.

The House of Representatives, facing elections en masse in November, demonstrated a keen appreciation of constituents' demands that government as well as taxpayers, save for victory. The Senate, only partly vulnerable in November, seems to have disregarded this popular feeling.

The planners, those control-minded individuals who accrete strong central authority, must be a little chagrined these days. They planned everything... except what we need. They overlooked the sordid necessities of life; sugar, rather than restrictions, payments, rubber rather than WPA contracts; transportation facilities rather than government propaganda. Now that shortages are beginning to pinch, the people ask questions. Congress belatedly talks of usurped powers, and the planners alibi each other into a corner. This confusion over responsibility serves to illustrate once again the unending duplication of federal bureaucracy—duplication which seemingly is satisfying when it comes to spending taxpayers money but harrowing when explanations of results are demanded.

Latest example of waste is the unnecessary federal publicity material which clogs the mails. Instead of resulting in getting dissemination of information that is essential to the war effort, the duplication on "news" releases actually is retarding the war effort.

BAPTIST SCHOOL TO HOLD GRADUATION SUNDAY NIGHT

The graduation exercise of the First Baptist church will be held Sunday night at 7:30 in the auditorium of the church. There are 130 enrollees in the daily vacation Bible school.

Parents and friends of those graduating are cordially invited to attend at that time.

RAWS CLINIC

Mrs. Lola Howard is getting along nicely.

Mrs. Laurence Shelton is doing nicely.

Arthur Glass is improving.

Mrs. Josue Lankford remains about the same.

Mrs. T. D. Pentecost has been dismissed.

Mrs. M. L. Rhodes has been dismissed.

J. W. Thomas is doing as well as could be expected after a recent operation.

Mrs. Clifford Dardent was admitted to the hospital.

Marv Margaret Cavrett and infant, colored, has been dismissed.

DR. HAWES IMPROVES

Dr. M. W. Hawes, who is in the Baptist Hospital, at Memphis, is reported to be slightly improved.

Treat Constipation This Gentler Way!

Many folks say that almost as bad as constipation are harsh cathartics and purges. That's because many medicinal laxatives work this way: they either prod the intestines into action or draw moisture into them from other parts of the body.

Now comes news of a gentler and pleasanter way of treating constipation, for the millions of people with normal intestines whose trouble is due to lack of "bulk" in the diet. This way is by eating KELLOGG'S ALL-BRAN, a crisp, delicious cereal, and drinking plenty of water. ALL-BRAN, unlike many medicinal laxatives, acts principally on the contents of the colon and helps you to have easy, normal elimination. ALL-BRAN is made by Kellogg's in Battle Creek. If your condition is not relieved by this simple treatment, better see your doctor.

Do You Bake at Home?

If you do, send for a grand cook book—cramped with recipes for all kinds of yeast-raised breads and cakes. It's absolutely free. Just drop a postcard with your name and address to Standard Brands Inc., 691 Washington St., New York City.—Adv.

Canal Zone Ready for All Comers

Panama Jungles Now a Huge Armed Camp.

By CHARLES A. SINGLER
Released by Western Newspaper Union.

OUR canal zone is one of the hottest spots in the Western hemisphere, both meteorologically and strategically, and is becoming increasingly "hotter" as the war wears on and the possibilities of an enemy thrust by land or sea, or by both, become more imminent.

The Panama Canal is not only our proudest national possession, but a vital link in the U. S. chain of defense fortifications. Little wonder, then, that the eyes of Europe, Asia and all America are turned towards this narrow but important waterway which military forethought and engineering skill provided for our nation some twenty-seven years ago.

The Canal Zone is 50 miles long and about 10 miles wide. Approximately 95 square miles of this is under water. The canal itself is about 34 miles in length and 87 feet high. Deep jungle growths crowd densely upon all sides, furnishing ideal concealment for gun emplacements.

All Is 'On the Alert.'

In these lush, steaming jungles where there seems to be no life except that of the countless strange birds and jungle animals that live by the code of tooth and claw, there are many eyes watching; all on the alert. Here brave U. S. boys are waiting for the planes to come, and somehow or other hoping that maybe they will, to relieve the deadly monotony of life in the deep jungle. Here under the concealing drapery of leaves and branches great naval rifles point forever out to sea with their silent threat to all who may come that way, unbidden. These great 16-inch coastal defense rifles out-range the guns of most battle-ships. Practice is constantly going on, mostly with the use of dud loads, for Uncle Sam cannot afford to waste costly ammunition or the precious rifling of these big guns on a harmless sea.

And here under the same friendly foliage, "ack-ack" guns bristle towards the sky, a hidden challenge to any air armada or lone enemy bomber which may be rash enough to venture near the canal. Jungle foliage also conceals cool hideouts for gunners—caves in which long gleaming rows of shells, some of them inscribed with loving names for the enemy, await the day or night when the call for action comes. In these caves the "day" is 24 hours long. During all this time gun crews stand on the alert, ready to pour a hot welcome into the sullen jungle skies. During the "off" periods the men repair to more comfortable barracks, completely camouflaged, to gain the needed exercise and recreation.

Underground Cities.

In the Panama Canal Zone are also secret island fortresses where underground cities, carved from sheer rock, offer a threat to the would-be invader. Switchboards have been installed, and when the time comes, if it should, tons of red hot trouble will pour from these fortresses to make the invader wish he had stayed closer to home.

Not only does the jungle shroud great naval and anti-aircraft guns, ready for instant action, but also hidden airbases, full of planes poised for flight, ready to do their bit for

For Protection of Panama Canal

Dr. Octavio Fabrega, foreign minister of the Republic of Panama, pictured (right) as he signed the agreement whereby Panama agreed to establishment of bases within the republic, for the protection of the canal by the United States. At left is Edwin C. Wilson, ambassador to Panama. The agreement, which was signed May 18, 1942, involves the use of some 40,000 acres in the republic by the U. S. armed forces.

U. S. Sam. It conceals keen-eyed watchers on the alert for surprise attacks and treachery. Pearl Harbor has not been forgotten.

Great forts stand at either ocean entrance to the canal, and swift naval vessels are constantly on guard. P.T. boats, those swift messengers of death which accounted for more than one Jap warship in Manila Bay and which got General MacArthur out of Batuan, are ready to lend their speed and their fighting power to the defense of the waterway. These deadly "mosquito boats," as they are called, carry an anti-aircraft gun that hurls a 20 mm. explosive shell which is bad medicine for attacking planes. P.T.s can also raise havoc amidst surface craft with their deadly torpedoes and blast a sub from the deep with depth charges.

Where 'Walls Have Ears.'

Unseen sentinels move about through the Panama jungle, as ubiquitous as all outdoors, popping up when least expected. No action escapes unseen; no spoken word is unheard. Here is a place where, indeed, "the walls have ears." Land mine units are on the qui vive, waiting to do their share in rendering enemy progress dangerous and slow.

Packed away in the jungle, too, there is infantry—the inevitable infantry—to which we must all pin our hopes to push the enemy back if he should succeed in gaining a foothold in this vital area. With the advent of the new trans-isthmian highway the speedy movement of troops from one end of the canal to the other—a 48-mile run—is an accomplished fact.

Dangers Facing Us.

These are some of the things that are awaiting those who have lost their respect for territorial rights. And now, having had a glimpse of the canal's defenses, let us consider briefly from which direction and in what form any thrust at the canal may come.

At the most strategic spot in our hemisphere, and offering an opportunity of bottling up our fleet in either ocean, it can safely be assumed that our enemies will want to smash the canal at the earliest possible date, regardless of all hazards, and will leave nothing undone to attain this objective. Their plans might take shape in the form of small raiding parties or in vast armadas of bombers and fighter planes.

Then, too, we are faced with the menace of secret bases. We must not forget the lesson of the Jap-manned Marshall Islands on which secret bases were built in open defiance of international treaties. The uninhabited jungles of nearby Central and South America might pro-

vide aerial hideouts for the treacherous Japs or the deceitful and ever-diligent Nazis.

With Franco "playing ball" continually with Adolf Hitler, islands such as the Spanish Canaries and the Portuguese Azores, or the many small isles that dot the Caribbean, might furnish springboards for hostile wings.

Danger From the Sea.

Airplane carriers, steaming ahead at full speed all night, or for several nights, as in the case of the sneak attack on Pearl Harbor, offer serious potential dangers. Once within 500 miles of the Canal Zone they could launch their planes in the gray of the dawn. They know full well that just one big "egg" dropped in a lock, would hatch loads of trouble for Uncle Sam. We must bear in mind that without the canal in operation a 50-mile trip becomes a 13,000-mile cruise "around the Horn," either way you take it, with its terrific loss of precious time and greatly increased operating costs.

The battleship Oregon made the such emergency trip during the Spanish-American war, and arrived on the scene in time to turn the tide of battle, but we have neither the time nor the inclination for this sort of thing in this war with the Axis. Nothing must happen to the Panama canal!

Friendly But Questionable Isles.

Let us look in another direction. One thousand miles to the southwest of the Canal Zone loom the shadowy shapes of the Galapagos islands. These islands are owned by friendly Ecuador. These tiny islands, though in friendly hands, are anybody's guess these days, for Jap "fish" boats have been known to have pried off their shores, and who knows what observations have been made and what soundings taken.

Then there is the menace of the nearby blue Caribbean, in which enemy subs are known to be prowling, and which have already taken heavy toll of our merchant shipping in these very waters, so dangerously close to the canal. Dealing with this menace is the Caribbean patrol of huge navy patrol bombers, 15-ton Consolidated flying boats with sound apparatus to detect subs, and two apparatus to detect subs, and two apparatus to detect subs, and two apparatus to detect subs.

Then there is the menace of the nearby blue Caribbean, in which enemy subs are known to be prowling, and which have already taken heavy toll of our merchant shipping in these very waters, so dangerously close to the canal. Dealing with this menace is the Caribbean patrol of huge navy patrol bombers, 15-ton Consolidated flying boats with sound apparatus to detect subs, and two apparatus to detect subs, and two apparatus to detect subs.

An Historic Event.

The most important event in the history of the canal occurred in January, 1939, when the U. S. fleet passed from the Pacific to the Atlantic ocean, and even more dramatic was the return passage of a large portion of the fleet in early May of that year. Both transits were made without the appearance of haste, but in record time.

Contrary to the general belief, the canal does not run due east and west, but zig-zags irregularly across the isthmus. Its operation consists in helping ships, however big and bulky, to ascend three water-steps (locks) from one ocean into the huge man-made Lake Gatun, from which they descend three other water-steps into the ocean at the canal's other end. The locks are so constructed that two vessels proceeding in opposite directions may go through the canal at the same time. Big ships occupy a whole lock, and smaller ships are wedged in like sardines. Once in the locks the ship's crew is shoved aside and the canal crew takes over.

The United States has sovereignty over the entire Canal Zone. Two cities stand guard at either gateway of the canal—Balboa at the Atlantic end and Panama at the Pacific end.

The canal was constructed during Theodore Roosevelt's administration by the U. S. army, with General Goethals as engineering chief and General Gorges in charge of public health. It was opened to commercial traffic August 15, 1915, and was declared formally completed July 12, 1920, during President Wilson's administration.

NEW IDEAS For Home-makers

By RUTH WYETH SPEARS

EVERY kind of cotton goods from dainty chintz to bold plaid gingham is being used for bedspreads. Most of these materials are about 36 inches wide and you will need 11½ yards for a bed 54 inches wide. See diagrams for cutting dimensions.

Cut the center portions first; then the 18-inch side sections for the pillow cover; then the 10-inch strips for the pillow cover and

spread. This leaves a 26-inch-wide strip for the side ruffles of the spread. If you make your own seam welting, cover cord with bias strips basted, as at A, and stitched with the cording foot, as at B.

NOTE: This bedspread is from BOOK 1 of the series of booklets which Mrs. Spears has prepared for our readers. This book also gives step-by-step directions for making slip covers, dressing table skirts and 12 different styles of curtains including a simple rigging for draw curtains. To get a copy of Book 1, send your order to:

Small Boats to Dodge Subs by Intracoastal Route

Repeated suggestions that the gasoline shortage in the eastern seaboard states might be partly met by use of barges in the Intracoastal Waterway have brought this sheltered route into the news, especially so since the submarine menace. Intracoastal Waterway is a 3,500-mile route, mostly land-protected, from Boston along the Atlantic and Gulf coasts to the Rio Grande.

From Boston to New York the depth of the waterway is ample, but shelter from sea attack is limited to that provided by Cape Cod and Long Island, says the National Geographic society. From New York to Norfolk the route that will eventually take shape is by a wide, deep trans-Jersey canal from Sayreville on the Raritan to Bordentown on the Delaware, then through the industry-lined channel of the Delaware's upper tidewater to the Chesapeake and Delaware canal and into the Chesapeake bay.

PATTERNS

SEWING CIRCLE

8925

THIS one helpful pattern shows you how to make four garments for your little girl! A button-front frock, overalls, rompers, and a bonnet. Each one of them cute and original in design and as easy as pie to make. Can't you see them all in a dotted swiss, a quaint calico or checked gingham trimmed with ric rac braid—can you imagine a more charming wardrobe? Useful for play hours and dress-up times both, this set is a welcome aid for the clothes problem for small one-to-sixers.

Pattern No. 8925 is in sizes 1, 2, 3, 4 and 5 years. Size 2 set requires 3 1/4 yards 25-inch material, 3 yards ric rac braid. Send your order to:

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for June 21

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE TASK COMMITTED TO THE DISCIPLES

LESSON TEXT—Matthew 28:16-20; Mark 16:14-20; Luke 24:49-53.
GOLDEN TEXT—Go ye into all the world, and preach the gospel to every creature.—Mark 16:15.

Witnesses of the resurrection—that privilege of the disciples carried with it the responsibility of declaring the good news of completed redemption to all the nations of the earth. In doing so they were destined to meet opposition and unbelief, to feel weariness and to know discouragement. So the Lord, before leaving this world for His present ministry at the Father's right hand (Mark 16:19; Heb. 7:25), prepared them by giving them a divine commission, which they accepted and acted upon with the assurance of His power and blessing. The lesson is summarized in the words, "Go ye" (Matt. 28:19); "They went forth" (Mark 16:20); "And He... blessed them" (Luke 24:50).

I. "Go Ye" (Matt. 28:16-20).
God's plans are never small plans. World evangelization, nothing less, was the goal He had in mind, and to which Christ commissioned this little group of humble folk who were His disciples. It was not only a great commission, but a daring one. Back of such marching orders there must be authority and power—and Christ had them (v. 18)—all power and all authority. No need to measure or compare, for His is the ultimate and complete authority. This is the One who said, "Come unto me"; then, "Follow me, and I will make you fishers of men," and who now says, "Go." If we heed one command, should we not absolutely obey the others?

The message is His message, the gospel (Mark 16:15). It is the only message! The witnesses of Christ are not called to educate and civilize the heathen without winning them to Christ. To do so is only to prepare stronger and more skillful enemies of all that we count holy.

But a great program means nothing if it is not carried out; a great commission is only words unless it is accepted and obeyed. We read of the disciples that—

II. "They Went Forth" (Mark 16:14-20).

The call and command are given in this passage. The power is made clear and somewhat in detail, but the significant thing is that they actually went forth to preach. The response of these early Christians was immediate and enthusiastic. Would that such a spirit had characterized the church through all the generations since then, for if it had, the commission would long since have been carried out. Dr. R. A. Torrey has estimated that if everyone in a church of 2,000 were to win one soul each year, the world would be evangelized in less than 35 years.

But while on the whole the church has failed, there have been valiant souls all down through its history who have given themselves to the business of soul-winning. With them, as with these of the first century, the secret is ever "The Lord working with them." We read that as He was leaving this earth and His disciples, He lifted up His hands—

III. "And He... Blessed Them" (Luke 24:49-53).

God has always honored those who in faith have obeyed His command. The whole history of missionary endeavor bears eloquent testimony to that fact.

Sometimes we marvel at the success of a great movement, such as that founded by John Wesley. The answer is that God found a man, or a little group of men or women, willing to take Him at His word and step out in earnest purpose to obey Him. "For forty years John Wesley carried on his mission of canvassing for Christ 'as a parliamentary candidate canvasses for votes in his constituency in the strenuous three weeks before an election'" (Arnold's Commentary). Little wonder that with the blessing of Christ upon his work brings joy to many even to this day.

Note that the disciples who had been made sad and despondent by their parting with Christ at Calvary now went away in joy. The joy of the Lord is the strength of the Christian worker. It gives him abundant grace and power in the hour of need and makes him a fruitful servant.

A Warm Soul
I saw once lying side by side in a great workshop, two heads made of metal. The one was perfect; all the features of a noble, manly face came out clear and distinct in their lines of strength and beauty; in the other, scarcely a single feature could be recognized; it was all marred and spoiled. "The metal had been let grow a little too cool, sir," said the man who was showing it to me. I could not help thinking how true that was of many a form more precious than metal. — Canon Teignmouth Shore.

U. S. Soldiers Play at Opposite Ends of Earth

Johnny Doughboy can now see the green grass under the Icelandic snow and ice, and in the picture at the right we see him organizing a game of baseball with the use of a broom handle. That is Jack Reinsnyder, first class private, at bat, with Sgt. Laurence Cumiskey—both from Ohio—catching. At the left U. S. soldiers, stripped to the waist, play a game of badminton in the heat of Australia.

RAF Pilots and Red Troops Are Inspected

Gen. Sefik Cakmak, chief of the Turkish air staff, is pictured (at left) when he inspected the Royal Air force pilots based somewhere in the Middle East. And at the right his royal highness, the duke of Gloucester, brother of King George VI of England, inspects the crack Russian troops billeted in Teheran, Persia.

Army Flamethrower Takes Pillbox

Soldiers in the timbers set up a covering fire while a completely equipped flamethrower (top) plays the lethal stream of fire on a pillbox during chemical warfare maneuvers at Edgewood Arsenal, Md. Below: Two soldiers of the 31st engineers capture the occupants of a fortified pillbox after a flame-throwing raid at Edgewood Arsenal. The U. S. army has perfected equipment that can be carried by one man.

Millions and Millions of Travel Miles

These great stacks of old tires make rubber mountain ranges over more than 20 acres of ground near the reclaiming plant of a large rubber concern in Akron. There are millions of miles of travel represented here, and many an American will now look back with regret at the days when he wasn't quite fair with his tires.

News for Motorists

Anthony Moreh, New York inventor, exhibits his method for converting water into gas for autos. One of the bottles contains water and sodium. Connected with the battery, the electricity generates hydrogen gas which can burn. It costs 5 cents per gallon to produce. Moreh's exhibit was a highlight of the inventor's exposition in New York.

Hail Native Land

Seymour and Beryl Everett (left to right), children of the first secretary of the U. S. embassy at Vichy, reach the safety of America's shores. The children were born in Europe.

Our Object Now

Our object now, as then, is to vindicate the principles of peace and justice in the life of the world, as against selfish and autocratic power, and to set up among the really free and self-governed peoples of the world such a concert of purposes and of action as will henceforth insure the observance of those principles.—Woodrow Wilson.

If you're concerned about what sort of gift to send a friend or relative in one of Uncle Sam's branches of the services, your worries are over. If he smokes a pipe or rolls his own, the answer is a pound of tobacco. Numerous surveys made among soldiers, sailors, marines, and Coast Guardsmen show that tobacco ranks first on his gift list. Local tobacco dealers are featuring Prince Albert in the pound can for service men. Prince Albert, the world's largest-selling smoking tobacco, is a big favorite among many men in the service.—Adv.

BEAT THE HEAT

To relieve heat rash, to help prevent heat rash; after shower—anytime—dust with Mexican Heat Powder. Helps baby get rest. Guards against chafing skin irritation. Demand Mexican Heat Powder. Costs little.

Justice Catches Up
Justice, though moving with tardy pace, has seldom failed to overtake the wicked in their flight.—Horace.

Lightening Labor
Men, even when alone, lighten their labor by song, however rude it may be.—Quintilian.

Sentinels of Health

Don't Neglect Them!
Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood. If good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eye—feet swell, nervous, all worn out.
Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.
The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed by the country over. Look on Doan's. Sold at all drug stores.

WHAT ARE WE FIGHTING FOR

The right of the human being to speak and express himself is as undeniable as a law of nature. Without it there is no hope for happiness, no promise of progress, no unity for national strength.

Only so long as we speak out openly without fear, as in public meetings so typical of free America, is it possible to consider important issues or arrive at practicable conclusions affecting public interest. It's the only way a decision agreeable to the majority or a compromise satisfactory to the minority can be determined. This is American, democratic self-government.

Because of the working of this process America was prepared to make the decision suddenly forced upon us by the treachery of an enemy. Immediately the voices that had been many on both sides of the issue, of war became one voice—the voice of free America, ringing out its determined answer to the challenge of the forces of destruction and oppression.

Here in America we know our course in this present world struggle and we know the principles for which we fight. This is a fountain of strength in our struggle against the dictators whose subjects know only what their masters want them to know, who think what they are told to think and who fight only because they are ordered to fight. There is a great silence; there is a world that is dead.

Without the voices of the people a land might just as well be without any sound, even the noises of nature. The sound that free speech has made in our country will echo 'round the world. The force that free speech has built will restore speech to the downtrodden nations. It must be . . . or all the people on earth will be doomed to eternal silence. America will not fail.

TAX DEDUCTIONS FOR SICKNESS

The amount of money which the average American will have left after he pays his taxes will grow steadily smaller. The present Fed-

eral tax program is designed to drastically reduce public purchasing power, as well as to produce needed revenue.

As a result, many families will be in a difficult position when faced with some inescapable special expenditure. Sickness is an example of that. The tax drain will take from millions of families excess money that should be used for doctor, dental and hospital bills.

It has been proposed that Congress recognize this fact, and write into the tax laws a provision whereby the individual can deduct money spent for medical care, in making up his income tax statement.

Such a provision would serve two excellent ends. First, it would be a definite contribution to better public health. Second, it would undoubtedly increase government tax revenue. People who are unable to pay medical bills, usually have small means, and their tax payments are minor. If they were induced to pay those bills, the money would go to doctors who are mostly in the middle-income brackets which bear the heaviest part of present-day taxation.

The suggestion seems completely sound, to say nothing of its humanitarian aspects.

WAR PROBLEMS AND AGRICULTURE

The agricultural marketing co-operatives are providing yeoman service for the farmer in this war period. They must deal with the problems which face agriculture in normal times. And on top of that they must deal with the special unprecedented production and marketing problems caused by the war.

High wages, scarcity of labor, strict priorities, dwindling supplies of machinery and parts, soaring taxes, changing markets—these are but a few of the issues which keep co-op leaders awake nights. And the co-ops are doing a better job in finding answers than a lone individual could do.

DON'T WAIT UNTIL WINTER

Government officials are again urging that all consumers fill their coal bins as soon as possible. There is no coal shortage, and there won't be—the coal industry is completely able to fill war demands and normal demands alike. But, if we wait until winter before ordering, a serious strain on our transportation systems will result. So if you use coal, call your dealer today.

OUT OF THE BAG

The latest argument of the advocates of socialized electricity is that the big government-owned dams can't make their maximum contribution to the war effort unless all private power generating and distributing facilities in their areas are taken over by the government and given to the control of the bureaucrats and politicians. And that lets the cat out of the bag—pure and unadulterated state

socialism. That this "aggression" method means death to a great free enterprise is blithely ignored.

In the Pacific Northwest the private utility systems have long distributed big blocks of the government-generated power. That power has been distributed over existing lines, it hasn't been necessary to build wasteful, duplicating lines. All savings have been passed on to the consumers. The Federal and state regulatory bureaus completely control the price which the utilities pay for the power and the price for which they sell it.

To meet war production demands Northwest utility executives advocated pooling of all available power resources in the area, in order to gain maximum output at minimum cost in time, money and labor. They proposed plans which would protect the interests of the government and the private industry alike. They didn't ask for big profits for preferential treatment of any kind. They only asked to serve their area as best they could, and retain the right to stay in business. A similar situation exists in many sections of the nation. Government-produced power can be transmitted over existing utility lines. Where new lines are needed the utilities are able and ready to build them—and they will build them with private money, not tax money.

But that isn't what planners of state socialism want. Their eyes are fixed firmly on unbounded patronage and political power, total control, total domination of a heretofore free enterprise. We have seen this mania gain a foothold in foreign lands—we must not give it a foothold here.

LOADING THE CANNON

The nation's leading retailers recently met in Chicago with representatives of the Government. The topic under consideration was how retailers can give maximum aid in the campaign to sell War Stamps. The retailers pledged themselves to sell \$100,000 worth of these Stamps each month, beginning with July. A practical promotional plan, available to all stores, has been created, and it can be easily adapted to the needs of both large and small retailers.

The importance of this is obvious. It is estimated that 40 per cent of all War Savings must come from the sale of Stamps. The Treasury is depending upon the retailers to reach 25,000,000 Americans who cannot be included in Payroll Savings. When War Stamps were first issued, retailers of all kinds promptly stocked them and promoted their sale. Now those efforts will be greatly intensified.

The promotional campaigns will have many phases. Newspaper advertising is being widely used. Attention demanding window and interior display posters will be distributed to the participating stores. Every consumer will be urged to take part of his change in Stamps.

The retailers involved will include the chain systems as well as thousands of independent stores. They deal in food, clothes, general merchandise, hardware—anything and everything that the consumer wants and needs. No industry is in more direct and constant contact with the great American buying public. And none is more determined to do its full share on behalf of the war effort.

Buy Stamps from your retailer. You'll never miss the dimes and quarters so spent. And each of these dimes and quarters will help produce a weapon to use against the Axis.

HUGE SEA PLANES MAY MAKE LARGE NAVY UNNECESSARY IN FUTURE

Baltimore—Glenn L. Martin, pioneer aviator and founder of the aircraft manufacturing company that bears his name, believes "the day of the battleship definitely is over," and that large flying boats in the future will make a two-ocean navy unnecessary and render the Panama Canal strategically unimportant.

The Glenn L. Martin Company, whose great warplane plant is on the outskirts of this city, has built (for the navy) a 70-ton flying boat dubbed the "Mars." Its 200-foot wing spread makes it by far the largest flying boat thus far constructed. It is second in size only to the giant 80-ton Douglas Bomber, the 210-foot B-19.

The Mars, Mr. Martin said, may be used as a bomber or as a troop transport, capable of carrying a large number of men.

"With such ships as the Mars," he declared "you are only a little way from either the Atlantic or Pacific oceans, and you really do not need a two-ocean navy. This is because of the speed element, the ability to shift from one place to another, and to patrol vast areas of ocean."

"Given an ample supply of such ships, it would make no great difference if the Panama Canal were blown up."

Mr. Martin felt that the battleship was no longer necessary because bombers will perform better the battleship's main function—that is, firing heavy guns from long range. Bombers, he pointed out, take more than the equivalent of heavy shells—namely, torpedoes and guns—to the spot, whereas battleships depend upon gunpowder to do the conveying.

He believes the war "will be won by a series of surprise attacks with aircraft leading the way." "Modern war technique," he declared, "demands a revision of tactics. There can be no movement of any force without air victory. That applies to naval as well as land forces."

"We must always have naval vessels, but there will have to be a change in the organization of naval strength, with great emphasis on air power as the primary factor in naval forces."

Mr. and Mrs. W. W. Stevenson of Pittsburg arrived here Monday afternoon for a visit with friends. Mr. and Mrs. Stevenson are formerly of Fulton and are well known here.

WAR COSTS MONEY— BUT LIBERTY IS PRICELESS

No true American would place a price tag on the Statue of Liberty for it is the symbol of our greatest heritage. To be able to speak and pray and think as we please . . . did you ever hear anyone question the cost?

Yes, the cost in blood and money to defend the Freedom we love is going to be staggering. Some Americans are paying the cost with their lives; others are buying all the War Bonds they possibly can. So, wherever we go, whenever we can, let's do our part to help preserve our most precious possession . . . the Liberty, the Freedom of America.

BROWDER MILLING CO.

Soldiers of Production

America's "soldiers of production," men and women working in the plants of American industry, have their uniforms, too. Some uniforms worn by G-E workers on vital production jobs are shown below.

1. Not a gas mask, but a special nose mask to guard his breathing, is worn by this painter at his job in one of the General Electric plants.

2. Like a man from Mars, the "cold room" research man in a strange sight as he tests airplane instruments for high-altitude performance in a G-E laboratory.

3. Frankenstein? No, just another G-E worker. His job is sandblasting big turbine castings for Uncle Sam's ships at one of the General Electric plants.

4. The helmet he wears is to protect him from light! The rays from a welder's arc could cause blindness if he did not wear this strange headgear.

General Electric believes that its first duty as a good citizen is to be a good soldier.

REDDY KILOWATT says—
59%
ARE WOMEN—and They Don't Live In Wall Street, N. Y.

FOLKS: Of the 6,200 owners of our company living in Kentucky, 59% are women. Mostly they are housewives, teachers, clerks. A majority of the others are small business men, salaried workers, mechanics, farmers. They live in 116 of the State's 120 counties. They are about as much like plug-hat plutocrats as Wall Street is like the Kentucky River.

Add to these stockholders the 1,138 men and women who operate our power plants, keep the electric lines repaired, run our offices, etc., and our top officials who started in the business stringing wires on poles in small Kentucky towns. It all sums up to your electric company . . . providing service for some 400 communities.

Run by Kentuckians for Kentuckians, our organization is on the job 24 hours every day giving you better service at lower cost every year . . . with about twice as much for your money as 10 or 12 years ago! Efficient business management of your utility company has made possible this big reduction.

You would have to pay still higher taxes!

KENTUCKY UTILITIES COMPANY
INCORPORATED
G. F. LANSDEN, Manager

Why Government Ownership Would Increase Your Taxes

Socialist-minded politicians claim electric rates are still too high. They propose to lower these rates by taking over the utility companies and operating them through government ownership.

Under government ownership the electric systems would not pay the heavy taxes now paid by the utility companies. Cost of government is climbing rapidly. And tax money lost to the government by socialization of the utilities would have to be made up by other taxpayers.

For example: This year we will pay more than \$2,350,000 taxes. A government-owned utility would pay only \$652,300. To help make up the difference of \$1,677,700—

How the New Order Limiting Telephone Installations May Affect You

To turn out more and more weapons for our fighting men, our Government has called upon the telephone industry and the telephone-using public to limit new telephone installations to an extent that will divert annually thousands of tons of vital metals and rubber to war production.

If you are a new applicant for service or a business or residential subscriber, the limitations of the War Production Board order may affect you, depending upon how much equipment is now available to serve the future requirements of essential individuals or agencies in your community.

Specifically, this is how the order may affect you: NON-SUBSCRIBERS, business or residential, may not be able to obtain telephones in some instances.

BUSINESS CUSTOMERS, particularly those with private branch exchanges and other large service installations who move to new locations or who wish other changes, may not be able to obtain the desired arrangements.

RESIDENTIAL SUBSCRIBERS who move may not be able to obtain telephones or may be asked to accept a different class of service.

We shall observe the order to the letter, confident of the public's full cooperation. We look forward to the day when we shall again be able to give you the kind of service you want, when and where you want it—but now, and for the duration, the one big task of winning the war comes first... with us, as with you.

Southern Bell Telephone and Telegraph Company INCORPORATED

PALESTINE NEWS

Mr. and Mrs. R. C. Powell and son, Charles, attended the funeral and burial of Mr. Carl Wade at Kenton, Tenn., last Wednesday afternoon.

Mr. and Mrs. Carl Townsend and children of Hickman visited his sister, Mrs. Albert Jones and Mr. Jones Sunday.

Mr. and Mrs. John Jones and children visited Mr. and Mrs. Cliff Wade near Cayce Sunday afternoon.

Mr. and Mrs. Charlie Sloan of Cayce visited the latter's mother, Mrs. W. W. Preuett and son Monday afternoon.

AUSTIN SPRINGS NEWS

Mr. and Mrs. Buton Lassiter and sons, Eugene and David, spent the week end in Hollow Rock. They were guests of relatives, Mr. and Mrs. Roy Hammett.

Mrs. Allie Hern Grissom has arrived from Detroit for a visit with relatives.

Deep sympathy is extended to all bereaved ones of Mr. Lon Watts who passed away suddenly last Friday night. He was found dead by Mrs. Watts who had called him to breakfast. The deceased is survived by his companion and several children. Funeral services were held Sunday afternoon at the residence of a son, Buford, who resides in Detroit. Interment was at the Morgan cemetery.

Mr. and Mrs. B. L. Daron and Mr. and Mrs. Bill Doyle spent Sunday at Shiloh Park and Pickwick Dam.

Doyle Fields was a week end guest of James Shelby in Highlands.

Mr. and Mrs. Joe Copeland were honored by a family reunion in their home Sunday. It is an annual gathering when children and grandchildren are back under their paternal roof. A basket lunch was served at noon. The day was enjoyed by all.

Maurine Hammett has been moved from the Memphis hospital since undergoing a tonsillectomy, and is now at her home in Hollow Rock. She is a niece of Mrs. Carey Fields. Maurine is doing nicely.

Next Sunday Rev. T. L. Glisson will fill his regular appointment at Salem church.

Foxes are running at large in broad open daylight here. In the poultry yard of Mrs. Minnie Vincent one walked right up and caught a chicken.

It's a fine time to train your fox hounds and at the same time eradicate this locality of them. Many dens are high in the hills of Sand Hill Spring.

A trifle makes a dream, a trifle breaks—Tennyson.

Charity is an eternal debt and without limit—Quessell.

Curiosity is as much a parent of attention as attention is of memory—Whately.

The man who never has money enough to pay his debts has too much of something else—Bransford.

It is a pity that we so often succeed in our endeavors to deceive each other—Empress Irene.

We must eat to live, not live to eat—Fielding.

ENON NEWS

Mr. and Mrs. Henry Sams and Miss Cora Dillon and Mr. Felix Sams were the Sunday guests of Mr. and Mrs. Jake Smith.

Mr. and Mrs. L. H. Howell and Hubert attended homecoming at Wesley Sunday afternoon.

Mr. and Mrs. Jack Underwood had for their Sunday guests, Mr. and Mrs. Joe Sellars and family, Mr. and Mrs. Charlie Bell Connell and family, Mr. and Mrs. O. D. Cook and family.

Mrs. C. M. Underwood spent Saturday night with her daughter, Mrs. Raymond Gamble.

Mr. and Mrs. Jake Smith spent Monday with Mr. and Mrs. Harry Sams.

Mr. and Mrs. Ernest Mayfield, Mr. and Mrs. Cecil Binford, and Mr. and Mrs. Larry Binford spent a while Sunday afternoon with Mr. and Mrs. Leslie Walker.

Mr. and Mrs. Will Falsgrove, June Roberts and Miss Ann Page, left Monday for Louisville, W.

chester, Smoky mountains, and Cumberland Falls. They expect to be gone a week.

Frances Underwood was the Friday night guest of Jean Palsgrove.

Miss Cheavie and Mary Frances Bard are home for the summer vacation.

Miss Margie Wilkerson spent Friday night at home. She is working at Fulton.

CHESTNUT GLADE

Mrs. James Morrison and daughter of Chicago are visiting relatives here.

Mrs. Zula Ray suffered a heart attack Monday morning but is much improved now.

Mrs. Frank Salmon and daughter Norma of Fulton spent Sunday with Mr. and Mrs. Roy Ray.

Melva June Vaughan and Yvonne Moore, who spent last week in Memphis visiting their aunt, Mrs. Van Brann, returned home Sunday.

Don, small son of Mr. and Mrs. Thomas Reed, has the scarlet fever.

Mrs. Claud Curlee of Greenfield, Mrs. Hiram Trevathan of Glasgow and Mrs. Ollie Foley of Pearl Harbor spent Tuesday afternoon with Mrs. Omer Pounds.

Many friends and relatives gathered at the home of Mr. Jim Milam on Sunday and enjoyed the day. At the noon hour baskets of food were spread on a long table in the yard, and the afternoon was spent socially.

Many from here attended the singing at the Camp Ground Sunday.

Bro. Lee Murray of Nashville preached at Sandy Branch last Sunday.

Mr. and Mrs. Arvell Roberts and daughter, Ann, visited Mr. and Mrs. Bonnie House Sunday night.

SILO SIMPKINS SAYS

With farm machinery, repaired is prepared.

All good Americans need good food and plenty of it.

Adding salt to poultry rations has been found to stop cannibalism.

A cow must eat 100 pounds or more of green grass daily to produce 20 to 25 pounds of milk.

Ten pounds of pulverized limestone, 10 pounds steamed bone meal and one pound common salt make a good mineral mixture for hogs.

Permit no "soldiering" in the hen house. Cull non-laying hens and sell or eat roosters when hatching eggs are no longer needed.

"Johnny get your gun" will be the war song of many gardeners when the bean beetles start—Use cryolite on the pesky thieves.

"Nazism was established in Germany by the ballots of a democracy without bread and butter. It was the mess of pottage for which hungry people sold its birthright of freedom." R. M. Evans.

To date over 175,000 of the 270,000 farm families in Tennessee have indicated their intention to help win the war by enrolling in the state home supply program to produce 75 percent or more of their food needs on the farm.

Sunday, June 21 CHRISTIAN SCIENCE

The Lord by wisdom hath founded the earth; by understanding hath he established the heavens.

These words from Proverbs comprise the Golden Text to be used Sunday, June 21, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ Scientist, in Boston, Mass.

The subject of the Lesson-Sermon will be: "Is the universe, including man, evolved by atomic force?"

Mrs. B. F. Evans and son, Dr. Ben Pete Evans of Water Valley, Miss., were guests at the home of Mrs. Evans mother, Mrs. R. E. Pickering this week.

Mrs. C. D. Brown has returned with her daughter, Geraldine, who has been attending the St. Mary school at Centralia, Ill. Geraldine will spend her summer vacation at home.

A strict belief in fate is the worst of slavery, imposing upon our necks an everlasting lord and tyrant, whom we are to stand in awe of night and day—Epicurus.

Some people carry their hearts in their heads; very many carry their heads in their hearts. The difficulty is to keep them apart, and yet both actively working together.

ANDREWS JEWELRY COMPANY

Convenience too, must be rationed

The rights and obligations of a transportation company are founded upon public convenience and necessity. In peacetime convenience is of almost paramount importance. In wartime convenience must give way to necessity.

Like every other vital wartime commodity, the existing supply of transportation must be spread among more and more people.

Thousands of extra workers must be carried to their jobs—selectees to examining centers—soldiers to their camps. And all this must be done with equipment designed to meet peacetime needs.

With more passengers to be served by each bus available, everyone must be willing to accept a certain amount of inconvenience. There is no alternative. It is a wartime necessity.

For our part, we pledge ourselves to do everything in our power to hold such inconvenience to a minimum. And from you we ask, and are confident of receiving, your full cooperation, in making the highways work for Victory.

WEEKLY NEWS ANALYSIS

Jap Naval Losses Off Midway Island Strengthen U. S. Position in Pacific; Terrific Bombing Attacks by British Stun Nazi's War Effort in England

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
Released by Western Newspaper Union.

This unusual photo shows representatives of the British commonwealth gathered at the Washington airport to welcome Sir Owen Dixon, new Australian minister to the United States. Left to right: Walter Nash, New Zealand; Sir Owen Dixon, Australia; Ralph W. Close, Union of South Africa; Sir R. I. Campbell, British embassy, and Leighton McCarthy, Canada.

MIDWAY: Melee

"Pearl Harbor has now been partially avenged. Vengeance will not be complete until Japanese sea power has been reduced to impotence. We have made substantial progress in that direction."

With these blunt, stirring words, Adm. Chester W. Nimitz, commander in chief of the Pacific fleet, announced a decisive United States naval victory at Midway Island. In a remarkable demonstration of the coordinated power of the three American services—navy, army and marines—a Japanese invasion fleet was repulsed with the greatest losses of the current war.

From 14 to 17 Japanese warships were sunk or damaged, according to early reports. Included were two or three aircraft carriers sunk and one or two lost; three battleships damaged, four or six cruisers damaged, three transports damaged and one destroyer sunk. Continuing attacks on the fleeing enemy made it impossible to state whether the ships bombed in pursuit had been damaged previously.

At the conclusion of the four-day action, Adm. Ernest J. King, commander in chief of the American fleet, hinted that the United States has a chance to knock out Japan as a sea power. The battle, he said, may determine the outcome of the war in the Pacific.

Hawaii, he said, "must be held at all costs," because it is the key-stone to the entire Pacific defense system. Midway, 1,312 miles from Pearl Harbor, is a vital outpost in the Hawaiian defense.

U-BOAT MENACE: On the Run?

Axis submarines operating along the Eastern seaboard have been driven out into the Atlantic, according to Chairman Carl Vinson (Georgia) of the house naval affairs committee.

His disclosure came in a formal statement which added that the "anti-submarine warfare organization has passed through its period of growing pains and is now well established and functioning effectively."

"In dealing with submarines we have a tough and clever enemy," the statement said, "and it does not pay to be unduly optimistic. However, the fact remains that in the last few weeks the submarine has largely withdrawn from our eastern seaboard and is operating farther at sea . . ."

"The committee has full confidence that we shall defeat the submarine."

V-MAIL:

For Soldiers

U. S. army units in England and Northern Ireland are now using a new and unique mail system for contacts with the United States. Known as V-mail, this system provides that letters may be dispatched to a central station, censored and then photographed on small rolls of microfilm.

Under army direction these rolls are then sent to the United States where they are developed and photostatic copies are presented to the postal service and sent through regular mails to the addressee.

Value of plan lies in the fact that microfilm saves cargo space in eliminating mail shipments.

POISON GAS:

Another Warning

Within a month after Winston Churchill had warned Germany that any use of gas warfare by the Nazis would be met with the same tactics, President Roosevelt has warned Japan that if she persists in using gas against China the U. S. will retaliate in "kind and full measure."

This statement by the President came as a confirmation of reports that Japan was using noxious gases in battles with the Chinese.

SEA RAID: On Australia

The cities of Sydney and Newcastle on Australia's southeast coast were shelled by Japanese forces in the first sea raid on that country's mainland since the beginning of the war.

Termed "nuisance" raids by General MacArthur's headquarters, these first attacks caused little damage and there were few casualties. Submarines were used for the attack.

At Sydney the shells whistled over the city so fast it was impossible to estimate their number. Newcastle was shelled for 30 minutes. Both cities were blacked out and residents hustled to their air raid shelters.

The attacks came only a week after four of the enemy's midship submarines were destroyed as they attempted a sortie into Sydney's harbor. Also in the same week three and possibly four other subs were destroyed in the southwest Pacific.

Increased submarine activity off the lower Australian coast was believed to be aimed at cutting Allied communications and supply lines as well as an attempt to divert United Nations' naval units from the more major scenes of action, I. E., between Alaska and Hawaii.

SECOND FRONT: In Germany's Air

The stunning effect of the monster RAF bombing raid upon Cologne became known to the world when the first newspapers from that historic Rhineland city reached neutral territory.

Cologne, as its people knew it, is forever lost, according to the dispatches. Whole quarters of the town are empty, and a Stockholm newspaper, quoting a German dispatch, reported that all the property of at least 10,000 persons had been destroyed completely. The central district of the city was ruined and damage reached far into the city's outskirts.

The Koelnische Zeitung, Cologne newspaper, said:

"Those who survived the night . . . and who on the morrow looked at the city were fully aware that they had bade farewell forever to their Cologne, because the damage is enormous and because the integral part of the character and even the traditions of the city are gone forever."

While the Cologne bombing was followed by a 1,000-bomber attack on Essen, home of the great Krupp armament plants, a complete picture of the damage to that industrial center is lacking. However, England was jubilant over these "second front" activities. The initial raid on Essen was followed the next night by a second "mopping up" raid, employing an estimated 400 bombers.

BRIEFS:

DAUGHTERS: Cautioning that severe labor shortages may develop, Secretary of Agriculture Claude Wickard has urged rural families to keep their daughters on the farm to help with war food production.

INDEPENDENT—Despite Adolf Hitler's surprise visit to Finland, a government spokesman stated that the nation would "continue to steer a strictly independent course."

LOSS—After two months of operations over Burma, the U. S. air forces have announced the loss of their first heavy bomber in that area. Meanwhile they have been doing a terrific job of blasting Japanese offensive plans.

FOOD—Approximately 1,300 factories employing 20,000 workers will be closed by orders originating in Vichy, France. The workers will be diverted to a labor pool to man farms expected to produce food reserves for next winter and to provide volunteers for labor in German war factories.

Star Dust

STAGE SCREEN RADIO

By VIRGINIA VALE

Released by Western Newspaper Union.

THE Bennetts of Broadway and Hollywood—Richard and his daughters, Constance, Joan and Barbara—have never appeared together on either stage or screen. But thanks to Joan's sense of humor they'll do it vicariously in Columbia's "The Wife Takes a Flyer." An old family picture album figures prominently in the script. With the consent of the director, Richard Wallace, Joan filled it with the oldest and funniest photographs of her father and sisters that she could find—and the glamorous Bennetts will appear as a group of sturdy Dutch country folk. Joan's the only one to appear personally; she co-stars with Franchot Tone.

Edmund O'Brien has left RKO Radio, where he's been for the last two years. Universal has bought his contract, and assigned him to the role opposite Deanna Durbin in "Forever Yours." He'll play an American volunteer flier with the Chinese army.

Ann Sheridan, whom Paramount discovered as a Texas kindergarten teacher in 1933, will return to that studio to play Texas Guinan, famous night club owner of Broadway in the

ANN SHERIDAN

roaring Twenties, who greeted patrons with "Hullo, sucker!" She wanted the role, Paramount wanted her for it, Warner Bros. wanted Fred MacMurray for "Princess O'Rourke," so a bit of swapping went on; now everybody's happy.

It isn't often that you can see a government official flitting about the screen in a woman's nightgown, that's several sizes too large for him, but you'll be able to in "They All Kissed the Bride" unless changes are made. The actor's Melvyn Douglas, occupying an important post with the Office of Civilian Defense. He wrote Director Alexander Hall asking that the scene be deleted, but it's part of the plot.

Cecil B. DeMille, when he assembled, edited and produced "Land of Liberty" for the movie industry, reserved the right to designate one war charity to receive \$5,000 of the receipts. He recently gave it to the Queen Wilhelmina Fund for Dutch war relief. Appropriate, as he's a descendant of a family that emigrated from Holland in 1658.

In broadcast parlance, a shot in the arm is any new situation devised by a script writer to put new life into a serial. "Valiant Lady" got one recently, but it happened also to be a shot in the heart; Joan Blaine, widowed one week, met a young millionaire the next!

Dorothy Lamour is going back to 1900 when she begins work in "Galveston," a spectacular production which will have its climax in the Galveston flood. Two of her films, "Beyond the Blue Horizon" and "Road to Morocco," with Hope and Crosby, await release.

Success story: Five years ago writer-director-producer Charles Martin paid Martha Scott \$20 for playing a small role on one of his "Five Star Final" programs. Later, he gave her more opportunity and more pay. She made good on the stage and on the screen—and when she appeared recently on the CBS Playhouse in his version of "Bachelor Mother" her check was for \$2,000.

Here's a bathtub scene that not even DeMille ever thought of. It's in "Cairo." Jeanette MacDonald takes a bubble bath, Ethel Waters is her maid, and they sing "Figure" from the "Barber of Seville"—Miss Waters jiving, Miss MacDonald going operative.

ODDS AND ENDS—Ken Niles, "Big Town" announcer, was the first member of his profession to present movie celebrities over the air . . . Eddie Cantor has decided that for the duration his "Time to Smile" broadcasts will originate exclusively from army camps . . . Gracie Allen's home is filling up with toy ducks, sent by listeners for Gracie's air bird, "Herman" . . . Martha Tilton, songstress on the Ramo . . . Norma Shearer, has been named "Sweetheart of the Auxiliary Fire Fighters" in the Los Angeles area . . . Brian Donlevy, off four days from "Wake Island," headed for his tungsten mine and went to work.

ASK ME ANOTHER?

A General Quiz

The Questions

1. What does a Scotsman mean by mickle?
2. What ranch is the largest one in the world?
3. What countries fought the Punic wars?
4. What is the difference between continual and continuous?
5. Whitman's poem "O Captain! My Captain!" refers to whom?
6. Does a horse push or pull in his harness?
7. What are concentric circles?
8. How many United States Presidents received the Nobel peace prize?

The Answers

1. Much.
2. The Victoria River Downs ranch in northwestern Australia. It is 10,800 square miles in area.
3. Rome and Carthage.
4. Continual implies frequent repetition. Continuous means uninterrupted.
5. Lincoln.
6. He pushes.
7. Circles that have a common center.
8. Two: Theodore Roosevelt (1916) and Woodrow Wilson (1919).

STOP

LOST WAGES

DUE TO FLY-TIME SICKNESS...USE

TANGLEFOOT FLY PAPER

Every time a fly lights on a dirty place he picks up nasty disease germs. Then he flies in and lights on your food. He leaves those nasty germs on the food and you eat the germs. Then you and the family are sick. Then you lose time, and then you have bills to pay. That is why any good Doctor will say—

STAY HEALTHY! GET TANGLEFOOT FLY PAPER! —at Grocery, Hardware and Drug Stores

Sickness is expensive, and sickness from flies can be stopped in your home. Why pay wages to flies, when Tanglefoot Fly Paper costs so little? USE TANGLEFOOT FLY PAPER

"TANGLEFOOT FLY PAPER catches the Germ as well as the Fly."

The War isn't fought in Fox Holes alone

IT'S fought in the mind. It's fought with a will to win. It's fought with a belief in a cause worth dying for.

That will, that belief, is known as morale.

Our enemies have had years of indoctrination. They have been conditioned to believe themselves part of a "new order" . . . to which the contribution of their lives is small but all-important. They believe themselves cogs in a vast machine.

Our soldiers do not fight that way—because they do not live that way. Theirs is the belief in the sanctity of the individual.

To maintain their morale in the American way, the USO has devoted all its time and energy since practically the beginning of conscription.

It has done this by staffing and maintaining club houses near all training camps and in our outlying

possessions from Alaska to the Caribbean.

Today its work is far greater than ever, its need for funds to carry on more than doubled.

The USO needs your help more than ever before!

High government and military officials—including General MacArthur—have praised the work done by the USO and recognized its importance in the war effort.

But it needs recognition from you—recognition in the way of dollars and cents. For the six national agencies which comprise the USO are publicly supported.

Now above all times, to make your dollars count, give to the USO!

Send your contribution to your local USO Committee or to National Headquarters, USO, Empire State Building, New York, N. Y.

Give to the USO

WHAT ARE WE FIGHTING FOR

AMERICA stands as the world's greatest monument to Religion and to Faith. However, unlike most monuments, it is one that was never built. It is a living monument that has grown.

Our country was founded because a band of freedom-loving people insisted on the right to go about their daily lives thinking and believing and worshipping openly according to their own conscience and not according to the dictation of some arbitrary authority. Consequently, there can be no place in America today for even the thought of any social order that would impose upon or hamper the individual's spiritual beliefs.

The sacredness of the individual's right to worship in his own way is forever instilled in all real Americans and in their children. Respect for this right

The Four Freedoms

1. FREEDOM OF WORSHIP

and tolerance for the other fellow's beliefs are principles that form two of the staunchest pillars of our Democracy.

The preservation of religious freedom as one of the inviolable rights carried America through the hardships of early colonial days, through the sacrifices of the War of the Revolution and through the troubled days of the first Federal Government. Always it has been faith in the Divine and devotion to individual freedom that have kept our country moving steadily ahead to the place of leadership among the nations of the world and now to the task of saving them.

Approximately two hundred thousand religious organizations and churches of some two hundred and fifty different faiths bear witness to the freedom and the vitality of Religion in America. Its teachings and its practices have influenced our people to live better and more useful lives, not just for their own sake, but for their fellowmen and for their country. Religion asks that the individual treat his fellowman as his brother and to be an example to him. All real Americans realize what this freedom of Religion means to us as individuals and as a nation and will safeguard it everlastingly for us and for all the world.

These sentiments are presented to you through the co-operation of the following

TRIP TO THE LAKE

The seventeen members of the Cumberland Presbyterian Sunday school class enjoyed an overnight trip to the lake last week, chaperoned by Mr. and Mrs. Bard, Mrs. Bard being the teacher of the class.

Members of the class were: Charles Robert Bowen, Jerry Mullins, Eddie Bell, Billy Ayres, Charles Moon, Frank Cannon, Fred Campbell, Richard Cummings, Frances Roberts, Martha Jane Roberts, Elizabeth Roberts, Barbara Ann Roberts, Virginia Brady, Wilma Bushart, Marie Bushart, Olive Herin and Marian Yates.

AMERICAN LEGION AUXILIARY MEETING

The American Legion Auxiliary held its regular meeting Thursday afternoon of last week at the home of Mrs. N. T. Morse, with Mrs. Kelly Lowe as assistant hostess. Twelve members attended.

The singing of "America" opened the meeting and the Pledge to the Flag. The president, Mrs. A. B. Roberts, conducted the business routine. Mrs. Jesse Jordan gave an interesting report of the Poppy Day and the singing of "The Star-Spangled Banner" was sung. A District conference that was held in Marion, Ky., June 3.

Officers for the year were nominated by the nominating committee and Mrs. N. T. Morse was elected president and Mrs. S. M. DeMyer was elected secretary-treasurer.

The program leader, Mrs. C. C. Parker, took charge and conducted games of bingo. Mrs. Morse won the prize. Mrs. Morse and Mrs. Lowe served delicious refreshments after the games.

G. A. MEETING

The G. A.'s of the First Baptist church met at the home of Mrs. E. A. Autrey last week with seven members present.

New officers were elected and Miss Dorothy King led the group in prayer. The program was presented by Miss Bonnie Copeland. The meeting was closed with a prayer and during the social hour refreshments were served.

Mr. George Simpson of Fulton was a business visitor in Dukedom Tuesday.

Mr. and Mrs. Hershell Floyd of Detroit have been visiting her parents, Mr. and Mrs. Boyd Casey of near Pilot Oak for the past week.

COCKROACHES

The cockroach is a universal pest found almost everywhere and in almost every type of building.

These insects are very difficult to eradicate but can be controlled to a satisfactory extent.

Some four or five species are the ones commonly found in stores and households and they are the American cockroach, the Australian cockroach, oriental cockroach, German cockroach and tropical cockroach.

(9) They are nocturnal in habit and hide during the day in groups in dark, secreted places, usually near sinks and drainboards or behind various articles of furniture, radiators and the like. They give off a very offensive odor which usually makes it easy to recognize food or utensils which have been contaminated by them. This odor is usually caused by the excrement and the liquid oozed from the mouth.

They may well be classed as menace to health through the pollution of food and the contamination of food and packages delivered into the home, flying roaches, etc. They are very destructive to fine fabrics.

The methods of control are fumigation, the thorough sealing of all avenues of entry and concealment and poisons. Along with any of these methods employed care must be taken that no reinfestation can take place. There are many good commercial poisons available on the market.

There is an automatic DIFUSO that is recommended by the U. S. Public Health Service as the best method for killing roaches. You can rent a DIFUSO from some drug store. A simple poison to use is either pure sodium fluoride or the same diluted one-half with flour dusted about the premises where the roaches are to be found. Several phosphorus pastes have been found to be very effective but it is to be remembered that these are deadly poisons when taken internally. Certain types of traps are satisfactory. These must be so constructed as to easily permit entry with no way for the insect to escape once it is caught. After the roaches have been trapped the traps need simply to be immersed in hot water.

Harry A. Barry, Sanitation, Fulton County Health Department.

CHILDREN IN WAR TIME

What about our children in war time?

We mean to protect their lives, to see to it that they have proper food, and clothing, and shelter. What however of their minds, of their powers of understanding? If the public schools of the nation fall in their purpose, serious juvenile delinquency such as has developed in other warring countries may be suffered here. The future supply of trained men and women needed for the war effort and post-war reconstruction may be endangered.

These problems face us as thousands of teachers of the nation are called into the war industries and the army and navy. Authorities estimate that some 12,000 to 15,000 new teachers will be needed within the next year or two by war industries, government employment, and the like. Studies indicate that teachers, especially the 275,000 unmarried women teachers under 40 in rural districts and small-town elementary schools will be particularly susceptible to the call of this expansion. Most of them lack family responsibilities and are used to hard work. The patriotic appeal of "war work" may seem much more urgent than the commonplace routine of the classroom.

The solution to this problem is not a simple one. Teachers wish to accept their responsibility of seeing that the children of the nation are not deprived of their education. Since the national median salary of rural teachers is only \$876, they are likely to be tempted by the higher wage levels in industry. Yet if the schools are not to be depleted of their experienced personnel, as they were in 1917-18, serious con-

sideration must be given now in every community in the country to the questions which are raised in regard to the teachers and problem of keeping sufficient instructors in the schools.

Mrs. L. E. Gaskill spent Sunday in Carbondale as guest of friends. W. A. Boyd of Memphis is visiting relatives here this week.

About "Athlete's Foot" Did You Know?

1. The germ imbeds itself deeply.
2. You must reach the germ to kill it.
3. It requires a powerful penetrating fungicide.

4. TE-OL solution made with 90% alcohol, increase penetration. Feel it take hold.

Apply at night. Your 30c back at any drug store next morning if not pleased. Locally at Bennett Drug Store.

That Nagging Backache
May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling, feet constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!
