NUMBER TWENTY-SIX

DRAFT STATUS IS OUTLINED IN ORDER

Everybody is interested in just how the men will be called into service. Those who are listed on the draft roll (who isn't) may get a general picture from this summary of conditions under which Selective Service will work since recent amendments by Congress.

Those between the ages of 20 and 45, unmarried with no dependents, will not be affected by the amendments. There will be the first in the fall.

But if you are married and now classified as 1-A, your draft board has instructions to shift you to 3-A. This means that you probably will not be called for another 8 to 12 months, depending on the trend of the war, and what is done about lowering the draft age to 18.

Those unmarried, but having dependents and are classed as 3-A, will be moved up to 1-A and will likely be inducted this fall. The new allowances and allotment act, under which soldiers with dependents put up to \$22 a month and the government \$28 is the basis for the change.

Officials estimate that by the other, the 4,500,000 Army which is being sent 2 switches one against the War Department wants to raise by January can be obtained from 1-A's in the 220 to 45 age groups. Then if the Army is to be further increased depending on trend of the war, Selective Service will either have to turn to married men now deferred or draft age will have to be lowered to take in the 18 year olds. This step is favored by military chiefs.

It is believed that before the war is over the United States will have from seven to eight million men under arms in the Army and Navy.

THIRTEENTH ANNUAL MEET- ING OF FUTURE FARMERS

The thirteenth annual state convention of the Future Farmers of America will be held at the Kentucky Hotel, Louisville, August 5-7, according to Watson Armstrong, University of Kentucky, director of the activity program of the Future Farmers in Kentucky.

Upon the advice of the national Future Farmer organization, and following the example set by many of the states, the 1942 meeting will be a war convention. Only official delegates, candidates for the Kentucky Farmer Degree, and district winners who will compete for state titles will attend.

Emphasis will be placed in the transaction of necessary business and the making of definite plans for the further participation of the 2,000 Kentucky Future Farmers in the national war effort. Sight-seeing tours and recreational activities will be omitted from the program.

Rather than the 1200-1500 boys who have been attending the convention during the past few years, state officials estimate that only a little more than half that number will attend this year.

Local chapters have been active during the past year in the collection of scrap material, sale of defense bonds and stamps, promotion of victory gardens, and other activities that contribute to the war effort. Plans for further extending such activities in 1942-43 will be discussed at the convention.

Dr. W. T. Spanton, chief of the Agricultural Education Service, Washington, D. C., and national adviser of the Future Farmers of America, will be present and will address the convention. Charles H. Beazley, Jr., Caneyville, state president, will preside.

REPRESENTATIVE WILL BE HERE FOR INTERVIEWS

Michael Burns, Civil Service Representative of the Fifth District will be in Fulton Monday at the local post office, and will be available for interviews.

Almost all types of training and education and may now be used in applying for jobs. Requirements and age limits have been amended in many cases, and it is suggested that persons who feel they are interested in and may be qualified for defense jobs see Mr. Burns.

Old Glory Waves Out New Challenge on Bonds

SABOTAGE IN DERAILMENT OF 1 CAR OF PANAMA LIMITED

From all indications saboteurs evidently planned a wreck of the traffic on the Illinois Central between Fulton and Memphis. Tuesday morning the Panama Limited narrowly escaped a wreck one and one half miles north of Curve, Tenn. The second car from the rear was derailed and turned over. One passenger was slightly injured.

On examination, the spikes had been removed from several rails, along with angle bars. The reason why the complete train was not wrecked is believed that it was operating so smoothly at high speed that it failed to force the rails out of line to cause a complete wreck.

It is believed that the saboteurs were not trying so much to wreck the streamliner as to wreck the trains carrying the war material.

YMBC Regular Dinner Meeting

The Young Men's Business Club met in its regular dinner meeting at the Rainbow Room Tuesday night, with a large percentage of the members present.

A nice program had been arranged. First the president, Robert Burrow, presented to the club an ex-member, who is now in the U. S. Army, first Lieut. Chas. A. Williams, who is in the adjutant general office at Columbus, S. C. Lieut. Williams, having charge of the classification of the men in both Ft. Bragg and Ft. Jackson, explained the army classification system in detail to the club. He presented this in a very interesting manner and was enjoyed by all.

Next on program Dr. J. M. Dismann, health doctor for Fulton and Hickman counties, made a nice talk explaining county health work. Then he turned the program over to Mr. Harry Barry, county health officer of Fulton county. Mr. Barry presented the club a motion picture on "Rats." This showed how destructive and how they carry diseases. He said it was estimated in the city of Fulton, there was one rat for every man, woman and child and asked the club to sponsor a rat killing project. This, the club agreed to do; plans will be laid by the Board of Directors soon.

The club voted to have their banquet and dance at the Country Club Wednesday night, July 29.

FULTON DOCTORS IN- DUCTED INTO U. S. ARMY

Dr. James C. Hancock, Dr. Russell R. Rudd, and Dr. Glynn Bushart have recently taken the examination and been inducted into the U. S. Army.

Dr. Bushart and Dr. Rudd have both been commissioned as Captains and Dr. Hancock asked to be commissioned as a major.

They will leave sometime next month.

GOVERNMENT AGENCIES ASK FOR BETTER CREAM

A cream grading school was held in Fulton last week, with the following co-operating agencies: Department of Agriculture of Tennessee, Extension Department of the University of Kentucky, Federal Food and Drug Administration, Fulton County Health Department, State Health Department.

Officials examined the cream being delivered at local cream stations and milk sold by local dairies. Approximately 15 percent of the volume of cream offered for sale in Fulton on Saturday, July 11, was declared unfit for human food because of flavors and odor, or because of the presence of excessive mold. Two dairies were degraded to Grade C.

G. Givens of Graves County was fined \$10 and costs in Judge Bowers court for having removed a can of quarted cream which had been declared unfit by state and federal authorities.

4-H CLUB CAMP HELD AT COLUMBUS

Plans have been completed for the Annual Jackson Purchase 4-H Club which will be held at Columbus-Belmont Park the week of July 20 to 24.

Mr. H. C. Brown, field agent in 4-H club work, will have charge of the camp and will be assisted by the county agents and home demonstration agents from Western Kentucky counties.

Any 4-H Club girl or boy in Fulton County who has either completed their project or has it up to date may attend. The farm boys and girls have worked extra hard this year and a large attendance is expected because 4-H Camp offers a wholesome and entertaining recreation for them.

This year will include classes in First Aid, Handicraft, Nutrition, Tumbling, Reading for Fun, Home-made Games and Music. The night program will include vespers, singing, picture shows and games.

The Fulton county group will leave the Hickman Postoffice at 1:00, Cayce School at 1:30, and Clinton and Hickman Highway Junction at 2:00. Monday afternoon, July 20, all boys and girls who plan to go should notify the county or home agent so arrangements can be made for transportation to and from camp.

Civilian Defense Meeting Monday Night

The Civilian Defense meeting was held Monday night in regular weekly session at the Fulton high school building with approximately 85 people present.

A good talk on Air Raid Warden was given by Ford Lansden. Lynn Phipps, chief Air Raid Warden, made a short talk on cooperation of the public. A discussion of decontamination by Professor W. L. Holland and a short talk was given by Bill Browning, chief over decontamination work. Lieut. Charles Williams also gave a short talk.

A movie film was then presented to group, entitled "Fight that Fire."

Another meeting will be held Monday night at 8 P. M. A good program is promised. If the weather continues warm we expect to have fans in the building to make the Auditorium cooler. Everyone is urged to attend.

FRANK GOODE HONORED WITH BANQUET BY I. C.

Frank Goode, who resides near the railroad south of Bardwell, heard a rail break under a passing train May 31, 1942, and reported the danger to Illinois Central officials. For this meritorious service he was signally honored Tuesday night with a banquet.

Several years ago the Illinois Central adopted a plan of awarding IC medals for meritorious services performed by anyone in reporting hazards to prevent possibilities of accidents.

In honor of Mr. Goode, a banquet was arranged by J. S. Mills, supervisor of the Cairo district, which was held at the Rock House Tea Room, of Bardwell, Tuesday night. H. D. Scott, Bardwell agent, acted as toastmaster, and all guests were invited make remarks. Mr. Goode was complimented for his service in prevention of an accident that could have tied up traffic causing delay to government shipments, as well as passenger and troop trains.

The banquet was opened with prayer by J. T. Coil, manager of Carlisle Hardware Co. Representatives of the railroad company present who talked were F. E. Mayne, J. M. Carroll, W. H. Farrow, J. S. Mills, H. D. Scott and H. K. Buck, trainmaster at Fulton.

Mr. Mills presented a merit badge to Mr. Goode for his services.

AN ARMY OF SNOOPERS

The Office of rice Administration recently asked Congress for a very large appropriation to add some 100,000 new employees, mostly enforcement personnel, to the OPA payroll. These employees, in other words would constitute a sort of private police force and would spend their time and the taxpayers' money looking for violations of the price-freezing order.

The National Association of Retail Grocers, an organization which represents thousands of independent food merchants throughout the country, promptly protested. In a resolution submitted to Congress it said: "It is implied to this proposal to turn loose an army of 'snoopers' on the retail merchants of the United States. These men and women proposed for OPA enforcement personnel can render more useful service in the prosecution of the war against the Axis powers, rather than as an army of harassment operating at public expense on the home front."

That protest is well taken. As OPA officials themselves have pointed out, the retail industry in all its branches has been overwhelmingly opposed to speculation and profiteering. No industry has given more complete cooperation to the government in the campaign against inflation. To inflict this industry with 100,000 "secret police" would amount to deliberately harassing an industry which has a superb record of operation in the public interest.

The vast majority of merchants, big and little, will conform completely to the price regulations. Competition alone will keep prices in line. Consumers and consumer organizations will be on the lookout for violations, and will report them to the authorities. The OPA, of course, will need an enforcement staff—but it doesn't need a staff of 100,000 snoopers. It doesn't need a secret police force.

The 100,000 people who would be employed for this snooper work are needed in war industry and the military forces. The hundreds of millions of dollars it would cost it would cost to pay their salaries and expenses are needed for war production.

WAR MEDICINE

American medicine is taking the lead in developing techniques for lessening the suffering and the mortality that war produces.

All over the world American doctors, both within and without the military forces, are studying wounds and disease. New drugs and medicines are being tested. New methods of healing are being tried. And already, some signal achievements have taken place. American doctors on Bataan, for instance, finding themselves lacking certain vital supplies, experimented with a new treatment to prevent fatal infections in terribly wounded men—and they succeeded.

Whatever can be done to alleviate in any degree the horrors of war is a boon to mankind, and to a suffering and bleeding world. Ad it is only to be expected that American doctors are at the forefront in war medicine. The American doctor is an individual, not a regimented creature of the state. He has had the finest possible schooling and training. He is aggressively progressive. And today, all his skill, all of his knowledge,

and all his abilities are urgently needed.

Many great medical discoveries will, in all probability, come out of this war. These discoveries will be the means of saving hundreds of thousands of precious lives, and alleviating the agony of those who are wounded. American medicine has gone to war—not to kill, but to save—not to destroy, but to aid and succor humanity.

REMEMBER THE VICTORY SIGNAL ON HIGHWAYS

A suggestion that 40 miles an hour motorists toot the "Victory Signal" at speedsters was made by Governor Keen Johnson his week. The plan, involving use of the now well known three-short and one-long blasts, has been put into effect in some of the other states and is working well.

"Kentuckians driving at 40 miles an hour might try it upon those who pass them," the Governor said. "It might help remind the speedsters that we are at war and need to conserve rubber and gas."

OUR FIGHTING ARMS

(By Marie Bowden)
Oh, here we are army-bound,
From here to there and every town,
But glad we are, so we will say,
Fight, fight, fight for the U. S. A.
In the air or on the sea,
Or on the land we may be;
The Marines will go on and on—
Star Spangled Banner shall be their song.

The navy is next; what do we find?
Fighting soldiers all the time,
But all together we shall say,
Fight, fight, fight for the U. S. A.

PART OF THE SYSTEM

When this war is over, America will have the most gigantic mass production machine in the world. We will have the world's largest army of skilled workmen. Technical development will be at a new peak. Machines and men that are now producing weapons of destruction in incredible quantity, can supply the goods of peace in an equally incredible quantity. In all probability we will be the only large nation left on earth whose industries will not have been smashed by war.

It will be up to these industries, to free American enterprise, to rebuild a shattered and starved world. And they can do it if private capital and the organization genius of the common American are released from the bear hug of the inevitable wartime bureaucracy. As Paul Cadman, economist of the American Bankers Association, has pointed out, we have no other choice. We will either release the productive capacity and the capital of this country for the task of rebuilding the world, or we face bankruptcy and collapse at home.

Free enterprise has got to produce as it never produced before if a national debt of two or three hundred billion dollars is to be serviced. In short, the world will tragically need the products of our industries and our country will need the sources of financial strength which those industries can give. That truth should be brought to every man and woman at home and in the factory. Free enterprise is the key to the maintenance of representative government. This has always been true, but never more so than now. Our mines, our factories, our natural resource industries such as coal and oil and timber; our service industries, including electricity and transportation, as well as our credit institutions and our banks, are all part of the American system. Keeping them operating under the management of private citizens is the surest guarantee to the men on the battlefield that we intend to save here in our own country the liberties that they are giving their lives to restore to the rest of the world.

Love is a queer thing. It will make a girl leave a good home just to get to live in the same house with a male animal who drinks booze and eats raw onions.

POEM OF THE MONTH

Pray don't find fault with the man who limps,
Or stumbles along the road,
Unless you have worn the shoes he wears,
Or struggled beneath his load.

There may be tacks in his shoes that hurt,
Though hidden away from view,
Or the burdens he bears placed on your back,
Might cause you to stumble too.

Don't sneer at the man who's down today,
Unless you have felt the blow
That caused his fall, or felt
That only the fallen know.

You may be strong, but still the blows
That were his if felt to you
Might cause you to stagger too.
Don't be too harsh with the man who sins,

Or pelt him with words or stones,
Unless you are sure, yea, doubly sure
That you have no sins of your own.
For you know, perhaps, if the tempter's voice
Should whisper soft to you,
As it did to him when he went astray.

"Would cause you to falter, too."

WATER VALLEY NEWS

The revival at the Methodist church will begin the fourth Sunday in July at 11 a. m. Moody B. Cunningham of Memphis, one of the best song leaders in the Methodist church, will lead the singing. The household goods of C. W. Watts will be sold Saturday 2 p. m., at the Watts home on Main-st in front of the school building. Rev. R. M. Vaughn is in charge of the sale.

The Woman's Society of Christian Service will have an all day meeting at the Methodist parsonage Friday. All ladies, members of the society and church are invited. A shower was given Friday afternoon at the home of Mr. and Mrs. Earl Bard on the Mayfield highway for Mrs. Laura Catherine Stephens, formerly Miss Bard, consisting of many useful household articles. Some forty persons attended. Delicious refreshments were served before the party was closed.

The Young People of the community will give a shower at the Methodist parsonage Saturday afternoon to Miss Boyce Mobley, who is soon to become the bride of Rev. Bradley, a Nazarene minister.

No true American would place a price tag on the Statue of Liberty for it is the symbol of our greatest heritage. To be able to speak and pray and think as we please... did you ever hear anyone question the cost?

Yes, the cost in blood and money to defend the Freedom we love is going to be staggering. Some Americans are paying the cost with their lives; others are buying all the War Bonds they possibly can. So, wherever we go, whenever we can, let's do our part to help preserve our most precious possession... the Liberty, the Freedom of America.

BROWDER MILLING CO.

Do You Really Believe in Santa Claus, Mister?

OF COURSE you don't believe in Santa Claus. You learned long since that he's only a fairy tale... just as you learned the hard way that everything you get in life you pay for—whether it's food, clothing, shelter, wealth, or the esteem of your fellow men. Sometimes payment is put off for a while. Sometimes it is disguised or called by another name. But in the end Old Man Destiny always collects.

Yet in spite of experience some men and women can't realize that Destiny never gives us something-for-nothing. They keep on thinking there is a magic short cut to riches and happiness. They believe in fairy tales. In Europe great masses of people believed the fairy tales told them by fascist, Nazi and socialist spell-binders. Fools by false promises those people today are enslaved.

SPEAKING OF SOCIALISTS—Since 1929 we have reduced our home electric service costs 52%, have spent millions of dollars for new equipment to improve service, and have seen our yearly tax expense jump 280%. Yet in spite of our low-rate and good-service record, the socialists want to take over industry and replace business management with political management and all its evils.

These fellows promise you still lower electric rates. But they don't tell you that if they had been running our company in 1940 the taxes on our electric properties would have been only \$579,448, instead of the \$2,295,936 tax expense we actually incurred. They don't tell you that the difference of \$1,715,936 would have been saddled on other taxpayers—little business men, small home owners, farmers, etc.

ABOUT INDIRECT TAXES—Maybe you don't own a school, or home, or farm. Maybe you're a renter. None-the-less you carry a heavy load of indirect taxes, because those who sell you food, clothing, fuel, shelter and other necessities, add some of their tax burden to the price you pay for everything you buy.

Only the cost of electric service has dropped steadily year after year in spite of rising taxes. Remember, if the socialists are permitted to take over taxpaying industry—

YOU WILL HAVE TO PAY STILL HIGHER TAXES!

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its busy and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become overtaxed and fail to filter wastes and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!
