MAKE THE START FOR THE NEW YEAR

Present world conditions are disturbing to everyone. At such times, everybody in each expedition — every thirsty person — should be more careful about expenditures. Every person who does not use his or her own home should take steps toward saving in both of these resolutions, as long as these resolutions can be continued. We can offer you a plan of systematic saving which has been tested in Fulton for 20 years and by other successful users. We have for some years been distributing these plans among our patrons. We will bet any other plan for owning a house which has met the same test of years.

Call us today about these plans. Start the New Year with a firm regulation to be more thrifty than ever before. Our organization can and will show you the way.
