It is our dollar which is part of the nation's wealth of billions, it is our dollar which represents an important percentage of the wealth of Ken-Tenn, and it is the man who controls the useful tools. GOOD ROADS!

Ken Tons Area, and its coves, takes the position that without Good Roads, no community can progress very far. Railway facilities have signified advancement in civilization. These communities already have good roads, but the whole system is hoped should blossom into an unexcelled network. A planned system of roads is believed is soon to be in effect here, and then you will see an unprecedented era of construction activity. The lateral roads out in the rural communities are most seriously in need of attention, and the citizens and tax payers out there are just as much entitled to recognition as are the folks along the paved highways and in town.

DIXIE'S PRIDE

GOVERNMENT

Well-governed counties evidence the fact that they are well governed. Not only is the system of government sound, but the personnel also is good. Speaking in a general way, the local officials have been good to this point. If they are hostile to the truth, they can be cut off, but they cannot stop the investigation. If they are otherwise spirited or untruthful, they can be defeated in the end, for the truth will always win. We are proud of our officials.

DIXIE'S PRIDE
