Prisons and Prisons

Everyone's idea of order, but in the end, they're just about the last thing a man or woman can believe in. It's just like that: order wins over the need for freedom. We have to be free, though. The only difference that shows any change between these two ideas is their meaning. The one is freedom, the other is order. That thing wouldn't be non-existent, but we're more or less turning our backs on it.

Prisons and Prisons

Our prison is not a prison, but we're more or less turning our backs on it. Order wins over the need for freedom. We have to be free, though. The only difference that shows any change between these two ideas is their meaning. The one is freedom, the other is order. That thing wouldn't be non-existent, but we're more or less turning our backs on it.

Prisons and Prisons

The word is freedom. It means nothing. It's just like that: order wins over the need for freedom. We have to be free, though. The only difference that shows any change between these two ideas is their meaning. The one is freedom, the other is order. That thing wouldn't be non-existent, but we're more or less turning our backs on it.
