County Farm Fire Alarm System Urged

The County Home is located on Highway 95 near Calvert City. It is operated on lease by Mr. and Mrs. Walter Griggs, who care for the elderly residents.

Cost of the fire alarm system has been estimated at \$1,000. The system is designed to protect the "old folks" if a fire should start at the home.

SCIENCE IN YOUR LIFE

How does a family meal-planner make sure her menus provide for vitamin needs? Best information comes from your family doctor who can help you plan for special needs of active youngsters, senior family members, and your own particular vitamin requirements.

In "Vitamin Therapy Today," Robert S. Goodhart, Scientific Director of the National Vitamin Foundation, describes vitamin supplements as "a means of protecting the individual against the development of vitamin deficiency states," a way to stay healthy and guard against stress.

Dr. Goodhart lists 36 common causes of vitamin deficiency, including hard work, strenuous exercise, changes in climate, diet fads, blood loss, lack of appetite, rapid growth, diabetes and laxatives.

Loss of vitamins through overcooking, storage and exposure to air partly explains why we are often overfed and undernourished. The Food and Nutrition Board of the National Health Council has determined minimum daily vitamin needs, and many vitamin preparations meet or exceed these requirements. Vitamin supplements like Viterra also supply the "trace" minerals copper, iron, cobalt, calcium, etc., believed by most nutrition experts to be as important as vitamins for good health.

Scientists agree that today's goal is "optimum health"—not the mere prevention of vitamin deficiency. Vitamin supplements are designed to protect a family whose likes and dislikes, energy requirements, growth rate and food preferences may otherwise add up to much less than the best of health.

Dr. King Addresses the Benton Woman's Club

The Benton Senior Woman's Club met April 17 at the Home Ec. building. The meeting was opened with the club collect led by Miss Margaret Heath, followed by the devotion by Mrs. Ward Dappert.

Mrs. Ted Combs, vice president, conducted the business meeting in the absence of the club president, Mrs. James Elkins. The club selected the following delegates to the state convention to be held in Lexington in June: Mrs. Ted Combs, Mrs. Joe Gold and Mrs. James Elkins. Alternates elected were Mrs. Earl St. Marie, Mrs. Forest Cole and Mrs. Joe Pete Ely.

Mrs. Combs introduced the guest speaker, Dr. Harold King, who spoke on "The Profession of Nursing." He said a scholarship is available through the Marshall County Medical Society for any person desiring to enter the nursing profession. He asked club members to urge young persons to consider nursing for a career.

After the program, refreshments were served from the dining table, which was overlaid with a white cut lace cloth and centered with an arrangement of spring flowers.

The hostesses were Mesdames Charles Fields, Roy Boyd, Otto

Murray And Benton Due To Play Tonight

Benton and South Marshall's baseball teams are scheduled to play tonight (Thursday) at City Park in Benton but wet grounds may cause the game to be postponed.

Murray High School defeated North Marshall 7 to 6 Tuesday. A 13-year-old relief pitcher, Stephen Williams, was credited with the Murray win. Hutson and Williams also hurled for Murray.

Doyle was on the mound for North Marshall, giving up six hits to Murray. The Murray team scored five runs in the third inning and one each in the fourth and fifth.

Spiceand got two hits for the Jets.

North Marshall defeated South Marshall 9 to 6 last Thursday, April 17. Jerry Hall got three hits out of four trips to bat for North Marshall. Blaine, North's pitcher, allowed South only four hits while North got a total of seven hits. Mohler and Staples were on the mound for South Marshall and Weaver did the catching.

Last week, North Marshall pushed across a winning run in the sixth inning to defeat Lyon County 3 to 2. Pat Doyle pitched all seven innings for North Marshall and allowed only five hits. Lampley was catcher for North Marshall.

TCP

adds *Anti-Miss*
to *anti-knock*

Save gasoline! Get back up to 30 horsepower lost by spark plug "miss."
It takes only 2 to 3 tankfuls of Super Shell with TCP.

TCP, discovered by Shell Research, is widely recognized as the greatest gasoline achievement since tetraethyl lead for anti-knock.

You may have sensed a loss of power in your car and not been able to pinpoint the cause.

Chances are that spark plug "miss" is causing the trouble. Spark plug "miss" is today's major cause of power loss!

To stop spark plug "miss," Shell developed TCP* additive. TCP adds anti-miss to anti-knock.

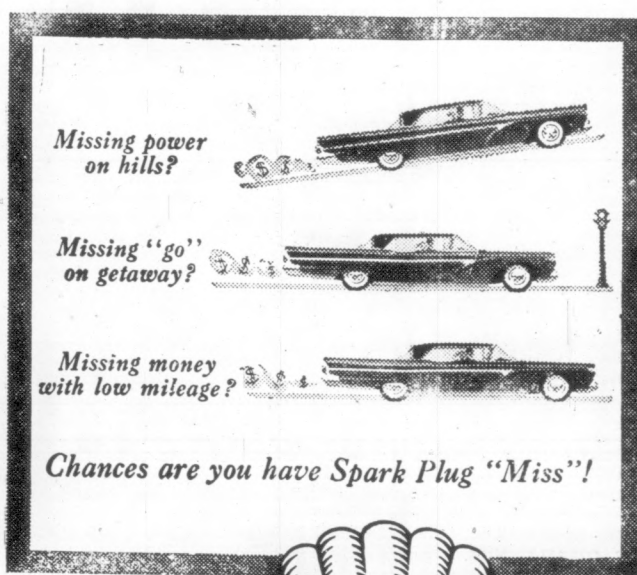

Thus you get 2 great benefits from Super Shell with TCP...

Anti-knock. Shell has packed Super Shell with aromatics as used in aviation fuel, including toluene, one of the most powerful ingredients used in making gasoline. This gives Super Shell its high octane—prevents knock. But today anti-knock is not enough.

Anti-Miss. Shell first developed TCP to stop spark plug misfiring in military aircraft. Today, in high-compression automobile engines, too, TCP neutralizes harmful deposits that make spark plugs misfire...brings back up to 30 horsepower and gives better mileage too.

See your Shell Dealer for Super Shell with TCP.

*Shell's trademark for this unique gasoline additive developed by Shell Research.

Bible Comment:

Church Members Must Do More Than Just Attend

IF church membership meant vital religious living and fidelity to all church members, there would be almost revolutionary changes in the world.

St. Paul counsels us in his epistles to bodies of established Christians of the early church. He lays great emphasis on the basic fact of the Christian life and the motivations of the good church member.

First, there must be the deep and true relationship to Christ. It is the power of the resurrected Christ that should be the dominating force in the life of all Christians.

Paul expresses this more definitely when he says elsewhere: "I am crucified with Christ; nevertheless I live; yet not I, but Christ liveth in me; and the life which I now live in the flesh, I live by the faith of the Son of God, who loved me, and gave Himself for me."

On this foundation is built the life that is free from base desires, unworthy tempers and every form of ill will or unkindness. Wrath, malice and anger—all such things have no place in the Christian life.

Church members must be honest with one another. The Christian spirit, if it operates fully, will break down all barriers of race and caste and class. But the power of the Christian life is not all negative, stressing what the Christian should not do and should not be. It is also positive, urging him to constructive acts of love and charity.

Think of the millions of church members here in the United States, to say nothing of additional millions abroad. What a world we should have if every church member lived up to the ideal of what a church member should be.
