THE LISTENING POST

- I noticed with much interest a report on the health of President Roosevelt, made a few days ago by his personal physician. The doctor stated that the President's health was better than it had been for a long time. This is good news for all of us who care about the President. He is our leader and we want him to be strong and healthy.

- This, however, was the first time I heard about the President's health. I wonder if there are any other important news stories that I have missed.

- The President is doing well, according to the doctor. He is eating better and exercising more. He is also taking some medicine to help with his health.

- The President's health is important to all of us. We want him to lead us through the war and beyond.

- Roosevelt calls for unity in the post-war era, in an effort to solve many problems. This is good news for all of us who are working towards a better world.

- The President's calls for unity are important. We need to work together to build a better world.

FULTON, KENTUCKY

TO MY FRIENDS AND CUSTOMERS:

Due to a much needed rest, I am retiring from active management of my store for an indefinite period of time. While doing this, I am thinking of the wonderful cooperation you have given me over a long period of years.

I want to express my sincere and heartfelt appreciation to you, and to assure you that you will receive the same courteous treatment and that we will be giving you an even better store than in the past.

The store will be organized along typical Chain Store plans, and you will find the same excellent merchandise values that we have been offering for many years, presented in a more scientific and professional manner.

I will, of course, retain ownership of the store and will visit the store occasionally to shake hands with my good customer friends.

Again, thank you for your patronage in the past. I know that you will enjoy shopping in the new Franklin Store for many years to come.

Sincerely yours,
A. C. BALDRIDGE
